THIRD QUARTER 2003 INFORMATION AND RESULTS

(São Paulo, Brazil, November 5, 2003)

**28% REVENUE GROWTH IN 3Q03
COMPARED TO 3Q02 11% EBITDA INCREASE IN 9M03
COMPARED WITH 9M02 34% NET INCOME GROWTH
COMPARING THE FIRST 9 MONTHS FOR 2003 AND 2002**

During the third quarter 2003, we took two important steps forward in the drive for growth in our business activities: the acquisition of Shell Gás, making Ultragas the leader in LPG distribution, and the acquisition of Canamex, the first move in the direction of Ultrapar's internationalization. Our work is focused on achieving consistency in results and in the expansion of our businesses, always with the creation of shareholder value uppermost in our minds.

Highlights

- Ø **Acquisition of Shell Gás.** On August 8, 2003, Ultrapar acquired Shell Gás, Shell's LPG distribution operation in Brazil and became the market leader for LPG distribution in Brazil (more details disclosed in the Material Fact published on August 9 2003 and available on Ultrapar's website: www.ultra.com.br). The acquisition price, which was R\$ 170.6 million, includes the purchase of 100% of the shares of Shell Gás and the paying down of its debt.
- Ø **Acquisition of Canamex.** On October 15, 2003, Ultrapar signed the definitive contract to acquire the Berci Group's chemical business (CANAMEX), a specialty chemical Mexican producer, thus taking the first step towards the internationalization of the Company's operations (more details disclosed in the Material Fact published on October 16, 2003 and available on Ultrapar's website: www.ultra.com.br). With this acquisition, Ultrapar aims to establish a growing foothold in the Mexican market for specialty chemicals and create a production and distribution platform for sales into the United States. The value of the acquisition was US\$ 10.25 million, with no assumption of any remaining debt. Closing is expected to take place during the month of November.
- Ø **Construction of the Santos Intermodal Terminal (TIS).** During this quarter, work was started on the construction of the Santos Intermodal Terminal (TIS). This terminal will serve as a base for the export of chemical products, alcohol and soybean oil. Investments are estimated at R\$ 36.0 million, the terminal having a storage capacity of chemical products of 33,500 m³. The TIS is scheduled to become operational in early 2005.

Ultrapar and the Macroeconomic Environment

The third quarter was characterized by financial market's optimism over Brazilian government's macroeconomic policy conduction. The approval of social security bill in Senate and tax reform bill in first turn in Congress drove sovereign risk to lower levels and increased the flow of foreign capital into Brazil, maintaining a strengthened Real. In spite of lack luster economic activity during most of the quarter, from the real economy point of view, we were able to detect signs of an economy recovery in September.

Performance at Ultragas was generally in line with 3Q02, in spite of successive increases in LPG ex-refinery prices during 2002, market demand retraction and migration of customers to natural gas. The acquisition of Shell Gás added 46.7 thousand tons of LPG to Ultragas's sales volume in 3Q03. The incorporation of Shell Gás is proceeding according to plan and the benefits of the acquisition should be seen more significantly in Ultragas's 2004 results.

As anticipated in the announcement of our 2Q03 results, the fall in nafta prices in the international market during the second quarter of this year only begun to feed through to Oxiten's costs in the third quarter contributing to the quarter-over-quarter margin improvement, which increased to 40%, up from 36% in 2Q03.

Ultracargo continues to address the opportunities presented by the growing demand for infrastructure logistics in Brazil, the deregulation in the oil and oil products sector, and the sharp growth in exports of vegetable oils and alcohol. The impact of Ultracargo's 2002 capital expenditure program was already noticeable in the third quarter, with the division posting a 30% increase in EBITDA compared with the same quarter in 2002. The Liquid Fuel Terminal in Montes Claros is nearing completion and will add some 4,400 m³ of storage capacity from the first quarter in 2004. The Tatuí Intermodal Terminal, also scheduled to become operational in the first quarter of 2004, will have a storage capacity of 2,500 m² and is designed to receive petrochemical resins production from the Triunfo Petrochemical Complex/RS for subsequent distribution throughout the state of São Paulo.

Operating Performance

Ultragaz. In comparison with 3Q02, the Brazilian LPG market eased 3% in 3Q03, due (i) to slow economic activity, especially in July and August 2003, and (ii) to the loss of contracts with large LPG customers to suppliers of natural gas during the first half of 2003. However, compared with the second quarter 2003, despite the seasonal growth of the third quarters (of approximately 3.5%, considering the average of the last seven years) the market presented a positive trend, with a 7% increase in sales volume. The chart below presents year-over-year sales volume change in the LPG market since the January 2002 deregulation of LPG prices charged by Petrobras to distributors.

LPG Market % Change of year-over-year sales volume

Excluding the sales volume from Shell Gás, Ultragaz posted a growth of 7% compared with the second quarter 2003, in line with the market. Including Shell Gás, sales volume increased 22% over 2Q03 and 11% on a year-over-year basis.

Sales Volume Ultragaz (in thousand ton)

Sales volume in the bottled segment, served mainly by 13 Kg cylinders, increased by 21%, or 43.3 thousand tons, compared to the third quarter 2002. Of this increase, 36.4 thousand tons reflected the Shell Gás acquisition, with the balance coming from growth in the Southeast region. In the bulk segment, comprising mainly of industrial and commercial consumers, 3Q03 sales volume reported a fall of 5%, or 6.8 thousand tons, compared to 3Q02. This decrease is mainly the result of industrial companies located along the Brazil-Bolivia gas pipeline that converted their energy source to natural gas. The stronger losses (clients with high sales volume) occurred more intensively in the second

semester of 2002 and first semester of 2003. The incorporation of 10.3 thousand tons sold to the bulk segment with the acquisition of Shell Gás, helped reduce the loss to natural gas during this quarter.

Oxitenó. Oxitenó is the only producer of Ethylene Oxide and its main derivatives in the Southern Cone, as well as a large producer of specialty chemicals. Oxitenó's products are used throughout many industrial sectors, including PET packaging, paints, cosmetics and detergents.

Sales volume of Oxitenó totaled 123.8 thousand tons in 3Q03, 2% higher than the same period last year. The domestic market accounted for 75.9 thousand tons, 5% higher than the volume sold in 3Q02, mainly due to (i) an inventory replacement process in practically all of the segments where Oxitenó operates, specially in September 2003; (ii) greater penetration in the agricultural chemical sector, a segment which has also been growing strongly this year; and (iii) the acquisition of new clients substituting imports. Exports totaled 47.8 thousand tons, 2% lower than in 3Q02, due to Oxitenó's continued strategy of giving priority to the domestic market, which, presented substantial sales volume in September.

In the first nine months of 2003, Oxitenó's sales volume reached 352.3 thousand tons, a growth of 12% compared to 2002. In addition to the performance in 3Q03, volumes also were year-over-year higher in the first semester of 2003 due to restrictions on ethylene supplies from Braskem in the first semester of 2002.

Sales Volume Oxitenó (in thousand ton)

Ultracargo. Ultracargo is the leader in logistics for oil and chemical products in Brazil. The company offers transportation services using its own and third-party fleets, and storage services through warehousing facilities at port terminals and rail junctions. Transportation services include integrated multi-modal transportation, as well as receiving and dispatching customers' goods. The

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

company also offers ship loading and unloading services, the operation of pipelines, logistics programming and installation engineering.

In 3Q03, the transportation segment increased the kilometrage covered in 23% following additions to its customer base, mainly in the gases and solid bulk segments. In the storage segment, utilized tank capacity increased in 3Q03 by 8% year-over-year, specially due to the additional 20,000 thousand cubic meters of installed capacity at Aratú terminal in June.

Economic Performance Financial

Net Sales Ultrapar's consolidated net sales in 3Q03 was R\$ 1,063.3 million, an increase of 28% when compared with 3Q02 and 14% quarter-over-quarter. For the first nine months of 2003, Ultrapar reported net sales 40% higher than for the same period in 2002, at R\$ 2,930.3 million.

Ultragaz Net sales at Ultragaz totaled R\$ 717.9 million in 3Q03, an increase of 37% compared with 3Q02. Improved sales is compatible with the increase in LPG costs during 2002 and the incorporation of Shell Gás in August 2003. For the 9M03 period, net sales was R\$ 1,903.5 million, a growth of 37% when compared with the same period for 2002.

Oxitenó Net sales in 3Q03 was R\$ 308.5 million, an increase of 10% compared to 3Q02. Despite the 6% appreciation of the *real* between third quarters, Oxitenó's net sales rose by 10% due to (i) growth in sales volume, (ii) improved sales mix and (iii) a recovery in the international market prices for commodity chemicals. Oxitenó's accumulated net sales for the first nine months of 2003 was R\$ 923.9 million, a growth of 46% compared with the same period in 2002.

Ultracargo Net sales in 3Q03 was R\$ 46.5 million, 34% higher than 3Q02. This increase is mainly due to an increase in the customer base in the transportation segment as well as increased capacity in the storage segment. In the first nine months of 2003, Ultracargo's net sales was R\$ 131.1 million, a growth of 42% compared to the same period for 2002.

Cost of Sales and Services The cost of sales and services at Ultrapar in 3Q03 amounted to R\$ 843.2 million, a 38% increase compared with R\$ 608.9 million in 3Q02. Year-to-date 2003, Ultrapar's cost of sales and services increased 49% when compared with the same period for 2002.

Ultragaz Ultragaz's cost of sales was R\$ 607.8 million, compared with R\$ 421.9 million in 3Q02. The unit cost of sales at Ultragaz increased by 31% in the comparison between third quarters, mainly due to higher LPG prices charged by Petrobras to its distributors (ex-refinery price) which was adjusted in 36% due to higher LPG prices in the international market and the depreciation of the *real* between September and December 2002.

Oxitenó Oxitenó's cost of sales totaled R\$ 215.0 million, versus R\$ 174.0 million in 3Q02. The 3Q03 unit cost of sales at Oxitenó was 21% higher than in 3Q02, mainly due to the 24% increase of ethylene prices in *reais*. This rise in ethylene prices is the result of a 25% increase in the dollar price of naphtha plus the effect of exchange variation. Due to the pricing system of naphtha in Brazil, Oxitenó's unit variable cost presented a 8% reduction when comparing 3Q03 with 2Q03.

Oxitenó-Evolution of contribution margin and variable costs

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ultracargo Ultracargo's cost of services rendered increased by 36% in 3Q03, compared with the same period last year. The unit cost of services rendered by the storage segment increased year-over-year by 18%. The costs of nitrogen, utilized to clean the tanks, contributed to this increase. The unit cost of services rendered by the transportation segment increased by 11%, reflecting the increase in fuel prices and third party freight costs.

Selling, General and Administrative Expenses Ultrapar's SG&A expenses totaled R\$ 116.3 million in 3Q03, while in the same period 2002, these expenses were R\$ 95.4 million. For the 9M03 period, Ultrapar reported R\$ 323.8 million in SG&A expenses, 23% higher than in the same period of 2002.

Ultragaz SG&A expenses at Ultragaz were R\$ 65.7 million in the quarter, R\$ 13.0 million higher than in third quarter 2002. Of this amount, R\$ 3.0 million are SG&A expenses of Shell Gás, incorporated in August 2003. Excluding this effect, the increase in expenses was R\$ 10.0 million (19% year-over-year), which is mainly attributed to a R\$ 5.6 million growth in depreciation expenses, consistent with the capital expenditures amount, and a R\$ 2.5 million increase in payroll expenses, due to the collective wage agreement negotiated in September 2002.

Oxitenó Oxitenó's 3Q03 SG&A expenses grew 14% from the R\$36.9 million of 3Q02 to R\$ 42.2 million of 3Q03. Sales expenses were up R\$ 2.7 million (18%), mainly due to a R\$ 4.3 million increase in freight costs, partially compensated by the reversal of a R\$ 3.0 million provision for doubtful accounts made at the end of 2001, related to clients in Argentina. Administrative expenses grew by R\$ 2.1 million (10%), mainly as a function of higher payroll expenses, for which contributed the collective wage agreement negotiated in the second semester of 2002.

Ultracargo Ultracargo's SG&A expenses were R\$ 10.0 million, a R\$ 2.5 million growth compared to 3Q02, reflection of an increase in administrative expenses. This increase was due (i) to hiring of new employees, related to the growth in the division's operations, and (ii) to collective wage agreements celebrated in the second semester of 2002.

EBITDA Ultrapar posted 3Q03 Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) of R\$ 143.8 million, 10% below the R\$ 160.1 million for the same quarter in 2002. When compared to 2Q03, Ultrapar's EBITDA registered a 21% growth. For the first nine month period in 2003, Ultrapar's EBITDA was 11% higher than the EBITDA reported for the same period in 2002, reaching R\$ 384.6 million.

Ultragaz Ultragaz reported an EBITDA of R\$ 68.9 million, at the similar level of the R\$ 71.7 million recorded in 3Q02, and 12% above than in 2Q03.

Oxitenó Oxitenó's EBITDA was R\$ 62.2 million in 3Q03 and R\$ 78.7 million in 3Q02. The comparison with 3Q02 should be analyzed in the light of the effects of fluctuations in exchange rate

and the increase of unit variable costs in Oxitenó's results. EBITDA posted an increase of 37% when compared with 2Q03.

Ultracargo Ultracargo reported an EBITDA of R\$ 10.8 million, 30% higher than the same period in 2002 and 7% higher than in 2Q03.

EBITDA (R\$ million)

Financial Income (expense), net Ultrapar reported a net financial expense of R\$ 12.3 million in 3Q03, against a net income of R\$ 20.2 million in 3Q02. The quarter's financial result was impacted by lower average balance of cash investments due to the disbursement of R\$ 170.6 million for the Shell Gás acquisition in August 2003. Additionally, the financial result for 3Q02 was positively impacted by the effect of the *real*'s depreciation on our overseas investments. Ultrapar closed the quarter with a net debt of R\$ 108.7 million, and with a dollar exposure of R\$ 70.3 million. The breakdown of Ultrapar's debt with details of costs and

maturities is to be found on the last page of this report.

Non-operating income (expenses), net In 3Q03, Ultrapar reported a non-operating income of R\$ 1.4 million. In 3Q02, we reported a non-operating expense of R\$ 42.8 million as a result from the R\$40.5 million provision related to our investment in Norquisa. The amount of the provision reflected estimates of the market value of Norquisa's assets.

Net Income Consolidated 3Q03 net income was R\$ 75.8 million, a year-over-year 4% growth. Comparing the first nine months of 2003 with 2002, Ultrapar's net income grew 34% to R\$ 187.4 million.

Capital Expenditures CAPEX totaled R\$ 48.9 million in 3Q03, allocated as follows:

- At Ultragas, primarily to the expansion in the bulk segment (UltraSystem), gas bottles and installing the *ERP* system;
- At Oxiteno, CAPEX focused on the modernization of the industrial facilities, installation of *ERP* system and development of new products;
- At Ultracargo, investments in the construction of the Liquid Fuel Terminal in Montes Claros and the Tatuí Intermodal Terminal.

Ultrapar in the capital markets

Ultrapar's shares rose 16.2% in 3Q03, while the Ibovespa increased by 23.4% in the same period.

Share Buy-back During 3Q03 Ultrapar repurchased 13,600,000 of its own shares.

Outlook

Ultrapar has advanced in its strategy of growth and consolidating its position in its chosen markets with the acquisitions of Shell Gás and the chemical assets of the Berci Group in Mexico (CANAMEX). We believe that important shareholder value will be reached with the integration of operations, and through capturing synergies from these acquisitions.

Ultragaz consolidated its leadership in the Brazilian LPG market through the territorial expansion occurred in the last five years and the acquisition of Shell Gás. Looking forward, in addition to market growth in Brazil, Ultragaz will also seek expansion opportunities abroad. Oxiteno will continue to pursue new products and technologies as well as break into new markets through acquisitions both in Brazil and overseas. The CANAMEX acquisition aims to establish a growing presence in the Mexican specialty chemical market and serve as a platform for Oxiteno's expansion into Latin America and United States. Finally, investments in expanding Ultracargo are in process, with most significant results being expected in 2005.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have reviewed the accompanying quarterly financial information of Ultrapar Participações S.A. (the [Company]) and subsidiaries as of and for the three and nine-month periods ended September 30, 2003 and 2002, prepared under the responsibility of management and in conformity with Brazilian accounting practices, consisting of the balance sheets (Company and consolidated), the statements of income and the performance report, all expressed in Brazilian reais.
2. We conducted our reviews in accordance with specific standards established by the IBRACON - Brazilian Institute of Independent Auditors, together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to criteria adopted in preparing the quarterly financial information, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and operations of the Company and its subsidiaries.
3. Based on our reviews, we are not aware of any material modification that should be made to the quarterly financial information referred to in paragraph 1 for it to be in conformity with Brazilian accounting practices and standards issued by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory quarterly information.
4. The accompanying quarterly financial information has been translated into English for the convenience of readers outside Brazil.

4. CORPORATE REORGANIZATION

In 2002, the Company undertook a corporate reorganization, disclosed in a relevant fact published on October 15, 2002, and approved at the Extraordinary Stockholders Meeting on October 30, 2002. This reorganization was primarily aimed at: (i) streamlining the corporate structure of subsidiaries and affiliated companies, (ii) cost rationalization, and (iii) concentration of capital market liquidity in one company.

The main effects of the reorganization were:

I) Merger of Gipóia Participações S/C Ltda.: increase of the Company's interest in Ultragas Participações Ltda, from 77% to 100% of total capital, with the issuance of 7,850,603,880 common shares.

II) Merger of Oxiteno S.A. - Indústria e Comércio Shares: increase of the Company's interest in Oxiteno S.A. - Indústria e Comércio from 48% to 100% of total capital. With the merger, 5,430,005,398 common shares and 3,410,659,550 preferred shares were issued by the Company to the stockholders of Oxiteno S.A. - Indústria e Comércio, who opted to remain with the Company. The dissident stockholders of Oxiteno S.A. - Indústria e Comércio were paid a total of R\$ 208,028, net of withholding income tax.

30

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The corporate reorganization was based on the balance sheets as of June 30, 2002. As a consequence, the Company had full participation in the results of Ultragaz Participações Ltda. and Oxiteno S.A. -Indústria e Comércio beginning July 1, 2002. Such recognition started from December 1, 2002, when the operation was definitively approved. For comparability purpose, the Company reported in Note 23, the Financial Statment of third quarter of 2002 with retroactive effects of this merger.

On December 26, 2002, Oxiteno S.A. - Indústria e Comércio registration as a publicly-held company, was canceled.

The loan balances with Química da Bahia Indústria e Comércio S.A. and Cia. Termelétrica do Planalto Paulista - TPP are indexed based on the Brazilian long-term interest rate (TJLP). The other loans do not have financial charges nor determined maturity dates. Transactions refer principally to purchases of raw material, other materials and storage services, carried out at usual market prices and conditions.

The loan agreement with Ultraquímica Participações Ltda. results from the sale of shares issued by Oxiten S.A. Indústria e Comércio to the Company, intended to avoid the reciprocal shareholdings due to the corporate reorganization, mentioned in Note 4.

10. INCOME AND SOCIAL CONTRIBUTION TAXES

a) Deferred income and social contribution taxes

The Company and its subsidiaries recognize deferred tax assets and liabilities which do not expire, arising from tax loss carryforwards, temporary add-backs, revaluation of property, plant and equipment, and others. The tax credits are substantiated by continued operating profitability. Management expects to realize these tax credits over a maximum period of three years. Deferred income and social contribution taxes are presented in the following principal categories:

Company		Consolidated	
<u> </u>	<u> </u>	<u> </u>	<u> </u>

c) Tax exemption

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The following indirect subsidiaries have partial or total exemption from income tax in connection with a government program for the development of the Northeast region of Brazil, as follows:

Subsidiary	Units	Exemption - %	Expiration date
Oxiteno Nordeste S.A. □ Indústria e Comércio	Camaçari plant	100	2006
Bahiana Distribuidora de Gás Ltda.	Mataripe base	100	2003

In June 1997, the subsidiary Companhia Ultragaz S.A. issued Eurobonds in the total amount of US\$ 60 million, maturing in 2005, with put/call options in 2002, and guaranteed by Ultrapar Participações S.A. and Ultragaz Participações Ltda. In June 2002, the indirect subsidiary LPG International Inc. exercised the call option for these securities by using funds from a syndicated loan maturing in August 2004.

The outstanding balance of the loan from International Finance Corporation - IFC to the indirect subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio is equivalent to US\$ 2,5 million and matures in 2003. The loan was earmarked for the expansion and modernization of the Camaçari plant in the state of Bahia, which started activities in 1997.

The financing is collateralized by liens on property, plant and equipment, shareholdings, and by promissory notes and sureties provided by the Company and its subsidiaries.

15. OTHER TAXES (CONSOLIDATED)

The Company and its subsidiaries obtained preliminary injunctions to pay taxes on revenues (PIS and COFINS) without the changes introduced by Law No. 9,718/98. The Companies are contesting the levy of these taxes on other revenues. The unpaid amounts were accrued in the financial statements of the Company and its subsidiaries and amount to R\$ 28,129 (as of June 30, 2003 - R\$ 26,242).

b) Treasury shares

The Company was authorized to acquire its own shares at market price, without capital reduction, to be held in treasury and subsequent disposal, in accordance with the provisions set forth by Brazilian Securities Commission (CVM) Instruction No. 10 of February 14, 1980 and No. 268 of November 13, 1997.

As of September 30, 2003, there were 97,399,760 preferred shares in treasury, which were acquired at the average cost of R\$ 23.01 being the minimum cost of R\$ 22.5 and the maximum of R\$ 28.15 per thousand shares.

The market price of these shares in treasury on September 30, 2003 in the São Paulo Stock Exchange □ BOVESPA, totaled R\$ 2,999.

c) Revaluation reserve

This reserve reflects the revaluation write-up of assets of subsidiaries and affiliated companies and is realized based on depreciation, write-off or sale of these revalued assets including the related tax effects.

In some cases, taxes on the revaluation reserves of certain subsidiaries and affiliated companies are recognized only on realization of this reserve since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Deferred tax charges on these reserves total R\$ 9,981 (as of June 30 2003 - R\$ 10,108).

17. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic-operating and economic-financial aspects. Strategic-operating risks (such as demand behavior, competition, technological innovation, and relevant structural changes in industry, among others) are addressed by the Company management model. Economic-financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- o Customer default - These risks are managed by specific policies for accepting customers and credit analysis and are mitigated by diversification of sales. Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio held R\$ 4,496 (as of June 30, 2003 - R\$ 6,760) and

Companhia Ultragaz S.A., held R\$ 22,754 (as of June 30, 2003 - R\$ 6,427) of allowances for potential losses on receivables. The increase of the accrual in Companhia Ultragaz S.A. is composed substantially of accruals already existing in Shell's LPG activity, acquired on August 8, 2003.

- o Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. The short-term investments of the Company and its subsidiaries are comprised substantially of transactions linked to interbank deposit (CDI) rates, as described in Note 5. A portion of the financial assets is destined for foreign currency hedges, as mentioned below. Funds obtained originate from BNDES financing and from abroad, as mentioned in Note 14.
- o Exchange rates - Basically, the subsidiaries use foreign currency hedge instruments available in the financial market to cover their liabilities and assets in foreign currency. Given the volatility of exchange rates during 2001, the Company fully hedged its foreign currency exposure. Such hedges have amounts, periods and indexes equivalent to bank loans in foreign currency, to which they are linked. The following summary shows the assets and liabilities in foreign currency, translated into Brazilian reais at June 30, 2003:

18. INSURANCE COVERAGE FOR SUBSIDIARIES

The subsidiaries maintain insurance policies in amounts considered sufficient to cover potential losses from damage to assets, as well as for civil responsibility for involuntary, material and/or physical damages caused to third parties arising from their industrial and commercial operations, considering the nature of their activities and the advice of their insurance consultants.

19. SURETIES AND GUARANTEES

The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$403,515.

The subsidiaries issued guarantees to financial institutions related to amounts owed to those institutions by certain of its customers (vendor financing). In the event of payment of such guarantees to those financial institutions, the subsidiaries may recover the amount of such payment directly from its customers through trade collection. Maximum potential future payments related to these guarantees amount to R\$ 17,173, with maturities from 30 to 210 days. As of September 30, 2003, the Company has not recorded any liability related to these guarantees.

20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

The Petrochemical Industry Labor Union, which represents the employees of Oxiteno Nordeste S.A. - Indústria e Comércio, filed class action suits against the subsidiary in 1991, demanding compliance with the adjustments established in collective labor agreements or other specific indexes, in lieu of the salary policies effectively followed. Based on the opinion of its legal counsel, who analyzed the final decision of the Federal Supreme Court on the class action suit in which such Union is a plaintiff, as well as the status of the specific suit against the subsidiary, its management does not believe that it is necessary to record a reserve as of September 30, 2003.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel considers the risks to be low or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

The subsidiary Terminal Químico de Aratu S.A - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Suape □ Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its harbor facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement 1,000,000 tons per year for Aratu effective through 2022 and 250,000 tons per year for Suape effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement using the harbor rates in effect at the date established for payment. As of September 30, 2003, such rates were R\$ 3.67 and R\$ 3.44 per ton for Aratu and Suape, respectively. The Company has been in compliance with the minimum cargo movement since the inception of the contracts.

Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A (present name of Copene Petroquímica do Nordeste S.A.) effective through 2012, which establishes a minimum annual ethylene consumption level. The minimum purchase commitment and the actual demand for the periods ended September 30, 2003 and 2002, expressed in tons of ethylene, are summarized below. If the minimum purchase commitment is not met, the subsidiary is liable for a fine of 40% of the current ethylene price for the quantity not purchased.

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and a pension plan. In addition, they offer loans for the acquisition of vehicles and personal computers to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to offer their employees a defined contribution pension plan. Adoption of this plan, managed by Ultraprev -Associação de Previdência Complementar, was approved at the Board of Directors Meeting on February 15, 2001. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev, or (ii) a fixed monthly amount which will extinguish the fund accumulated in the participant's name during a period between 5 and 25 years. As such, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt for the participants that retire under this plan. For the period ended September 30, 2003, the Company and its subsidiaries contributed R\$ 2,414 to Ultraprev, which was charged to income. The total number of employee participants as of September 30, 2003 was 5,049, with no participants retired to date.

Additionally, Ultraprev has 2 active participants and 34 former employees receiving defined benefits according to the policies of a previous plan. Considering that the fair market value for the plan's assets significantly exceeds the present actuarial value of the accumulated benefit obligations, the sponsoring entities have not been contributing to the plan for these 36 participants. On the other hand, the sponsoring entities do not believe that it would be possible to recover any amounts from the plan, based on legislation applicable to closed private pension entities. As a result, no asset or liability relating to these participants has been recorded in the financial statements of the sponsoring companies.

(*) In financial statements of 2002, Ultrapar underwent a corporate restructuring. While the restructuring was completed in December of that year, it was based on June 30, 2002. For the purpose of the explanations hereof, we have used the pro-forma statements found in note N^o 23, which re-states 3Q02 minority interest and net income to incorporate the effects of the restructuring.

2) Performance analysis:

Net sales and services: Ultrapar reported consolidated third quarter 2003 net sales revenues of R\$1,063.3 million, 28% higher than in the same period of the previous year. Year-to-date 2003, Ultrapar's revenues grew 40% year-over-year reaching R\$2,930.3 million.

08.01 - Comments on the Company's Consolidated Performance for the Quarter

Ultragas: Ultragas posted revenues of R\$717.9 million, compared with R\$525.9 million in third quarter 2002. Ultragas's 3Q03 sales volume totaled 378 thousand tons, a 11% increase over 3Q02 sales volume, due to the increase in market share from the incorporation of 47 thousand tons of Shell Gas LPG operations, acquired in August 2003.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

In comparison with 3Q02, the Brazilian LPG market shrank by 3% on 3Q03, due to (i) low economic activity, especially in July and August 2003, and (ii) to the loss of contracts with large LPG clients to suppliers of natural gas during the first half of 2003. However, compared to 2Q03, the market presented a positive trend, with a 7% increase in sales volume. Excluding the sales volume inherited from Shell Gás, Ultragas posted a sales volume growth in line with the market. Sales volume growth including Shell Gás was 22% over 2Q03.

The chart below presents year-over-year sales volume variations of the LPG market, since deregulation of LPG prices charged by Petrobras to distributors in January 2002.

Year-over-year sales volume variations of the LPG market

Oxitenos revenues amounted to R\$308.5 million, compared with R\$281.6 million in 3Q02. Sales volume totaled 123.8 thousand tons, 2% higher than the 120.9 thousand tons sold in the same period last year. The domestic market accounted for 75.9 thousand tons, 5% higher than the volume sold in 3Q02, mainly due to (i) an inventory replacement process in practically all of the segments where Oxitenos operates, specially in September 2003; (ii) greater penetration in the agricultural chemical sector, a segment which has also been growing strongly this year; and (iii) the acquisition of new clients substituting imports. Exports totaled 47.8 thousand tons, 2% lower than in 3Q02, due to Oxitenos strategy of giving priority to the domestic market, which, specially in September, presented substantial sales volume. Growth in sales volume combined with improved sales mix and a recovery in the international market prices for commodity chemicals enabled Oxitenos to compensate for the 6% appreciation of the between third quarters and post a 10% revenue increase in 3Q03 when compared to 3Q02.

Cost of sales and services: The cost of sales and services at Ultrapar in 3Q03 amounted to R\$ 843.2 million, a 38% increase compared with R\$608.9 million in 3Q02. Year-to-date 2003, Ultrapar's cost of sales and services increased 49% when compared with the same period of 2002.

Ultragas: Ultragas's cost of sales and services was R\$ 607.8 million, compared with R\$421.9 million in 3Q02. The unit cost of sales and services at Ultragas increased by 31% in the comparative between third

quarters mainly due to higher LPG prices charged by Petrobras. Petrobras' LPG price charged to the distributors (ex-refinery price) was adjusted in 36% due to higher LPG prices in the international market and the depreciation of the *real* between September and December 2002.

Oxitenos costs sales and services totaled R\$ 215.0 million, versus R\$ 174.0 million in 3Q02. The 3Q03 unit cost of sales and services at Oxitenos was 21% higher than in 3Q02, mainly due to the 24% increase of the ethylene price in *reais*. This rise in ethylene prices is the result of a 25% increase in the dollar price of naphtha plus the effect of exchange variation. Due to the pricing system of naphtha in Brazil, Oxitenos' unit variable cost presented a 8% reduction when comparing 3Q03 with 2Q03.

08.01 - Comments on the Company's Consolidated Performance for the Quarter

Gross profit: Despite the above mentioned cost increases, Ultrapar's 3Q03 gross profit reached R\$ 220.1 million, similar levels as the R\$224.2 million of 3Q02. Compared with 2Q03, Ultrapar's gross profit increased by 17%. Year-to-date 2003 gross profit grew 16% to R\$ 600.5 million.

Sales, general and administrative expenses: Ultrapar's 3Q03 operating expenses totaled R\$ 116.3 million, compared to R\$ 95.4 million in 3Q02. Year-to-date 2003 sales, general and administrative expenses totaled R\$ 323.8 million, a 23% increase over the same period in 2002.

Ultragas: SG&A expenses at Ultragas were R\$ 65.7 million in the quarter, R\$ 13.0 million higher than in third quarter 2002. Of this amount, R\$ 3.0 million are SG&A expenses of Shell Gás, incorporated in August 2003. Excluding this effect, the increase in expenses was R\$ 10.0 million (19% year-over-year), which is mainly attributed to a R\$ 5.6 million growth in depreciation expenses, consistent with the capital expenditures amount, and a R\$ 2.5 million increase in payroll expenses, due to the collective wage agreement negotiated in September 2002.

Oxiteno: Oxiteno's 3Q03 SG&A expenses grew 14% from the R\$36.9 million of 3Q02 to R\$ 42.2 million of 3Q03. Sales expenses were up R\$ 2.7 million (18%), mainly due to a R\$ 4.3 million increase in freight costs, partially compensated by the reversal of a R\$ 3.0 million provision for doubtful accounts made at the end of 2001, related to clients in Argentina. Administrative expenses grew by R\$ 2.1 million (10%), mainly as a function of higher payroll expenses, contributed the collective wage agreement negotiated in the second semester of 2002.

Income from operations: Ultrapar's 3Q03 income from operations was R\$ 105.1 million and R\$ 128.9 million in the same period of last year. At Ultragas, income from operations was R\$52.3 million in 3Q02 and R\$ 43.9 million in 3Q03, and at Oxiteno it was R\$70.2 million in 3Q02 and R\$52.9 million in 3Q03. Year-to-date Ultrapar's income from operations totaled R\$ 279.8 million, a 9% increase over the same period of 2002.

Financial income (expense), net: Ultrapar recorded a 3Q03 financial expense of R\$ 12.3 million, compared with a financial income of R\$20.2 million in 3Q02. The financial result in this quarter was impacted by the lower income from cash investments, due to the R\$ 170.6 million cash disbursement for the acquisition of Shell Gás in August 2003.

Furthermore, the 3Q02 financial result was positively impacted by the effect of the *real* depreciation on our overseas financial investments.

Equity income: 3Q03 equity income was R\$ 14.7 million, composed chiefly of income tax incentives at Oxiteno Nordeste, Tequimar and Bahiana Distribuidora de Gás.

Nonoperating income (expenses), net: In third quarter 2003, Ultrapar recorded nonoperating income of R\$ 1.4 million. In third quarter 2002, we presented a negative nonoperating expense of R\$42.8 million as a result from the R\$40.5 million provision related to our investment in Norquisa. The amount of the provision reflected estimates of the market value of Norquisa's assets.

Income and social contribution taxes: Income and social contribution tax expenses decreased from R\$ 37.7 million in 3Q02 to R\$ 31.2 million in 3Q03, in line with the year-over-year performance in income before taxes and profit sharing.

Minority interests: Expenses related to minority interests declined from R\$8.9 million in 3Q02 to R\$ 1.9 million in 3Q03.

Net income: Ultrapar's third quarter 2003 net income amounted to R\$75.8 million, a 4% increase over third quarter 2002. Year-to-date 2003 net income reached R\$ 187.4 million, 34% higher than the net income of the same period in 2002.

EBITDA: Ultrapar reported 3Q03 EBITDA of R\$ 143.8 million, 10% below the 3Q02 EBITDA of R\$ 160.1 million. 3Q03 EBITDA represented a 21% increase in Ultrapar's 2Q03 EBITDA. Year-to-date Ultrapar's EBITDA was 11% higher than that of the same period of 2002.
