**Table of Contents**

In this Current Report on Form 8-K (Form 8-K), Reliant Energy refers to Reliant Energy, Inc., and we, us and our refer to Reliant Energy, Inc. and its subsidiaries, unless we specify or the context indicates otherwise.

**Section 8-Other Events**

**Item 8.01 Other Events**

Liberty Electric Power, LLC (Liberty), one of our indirect subsidiaries, owns a 530 MW combined cycle gas fired power generation facility (the Liberty generating station). Liberty is a borrower under a non-recourse credit agreement entered into to finance the construction of the Liberty generating station. Liberty's obligations under its credit agreement, which are secured solely by the assets of Liberty, are non-recourse to Reliant Energy and its affiliates (other than Liberty). As we have previously disclosed, Liberty has been in default under its credit agreement since July 2003.

As previously disclosed in our Form 10-Q for the period ended September 30, 2004, in October 2004, we agreed on the principal terms and conditions for a transfer of our interest in Liberty and its immediate parent corporation, including its non-recourse debt, to Liberty's lenders. We are continuing to work toward the execution of the definitive agreements; although there is no assurance that we will complete this transaction. If we are unable to conclude our agreement, we intend to pursue alternative strategies to divest our controlling interest in Liberty. If we fail to divest our controlling interest in Liberty and are otherwise unable to ameliorate the default or the effects of the default by March 15, 2005, it could cause a default under certain of our debt instruments, which could have a material adverse effect on our business.
