**Commenting, Lakshmi N. Mittal, Chairman and CEO, Mittal Steel Company, said:**

2004 was an excellent year for Mittal Steel. We experienced a strong demand for our products across all markets, combined with higher selling prices and a substantial rise in our total shipments due to the completion of a number of key strategic acquisitions. This resulted in record results for the company. Our focus has always been to be a low-cost producer and this is reflected in our operating margin of 27.7%.

Mittal Steel has now built positions of strength across our key three operating regions: Americas, Europe and the Rest of the World. Looking forward, we are anticipating stable demand during 2005. Global supply and demand remains fairly balanced and Mittal Steel is well positioned to take advantage of the current market dynamics.

RESULTS**

Mittal Steel Company N.V. (NYSE: MT; AEX: MT), net income for the twelve months ended December 31, 2004 was \$4.7 billion or \$7.31 per share, as compared to net income of \$1.2 billion or \$1.83 per share for the twelve months ended December 31, 2003.

Consolidated sales and operating income for the twelve months ended December 31, 2004 were \$22.2 billion and \$6.1 billion, respectively, compared to \$9.6 billion and \$1.3 billion, respectively, for the twelve months ended December 31, 2003.

Total steel shipments for the year 2004 were 42.1 million tons as compared to 27.4 million tons in 2003.

Mittal Steel Company N.V. net income for the fourth quarter of 2004 was \$1.6 billion or \$2.42 per share as compared to net income of \$1.3 billion or \$2.07 per share for the third quarter of 2004.

Consolidated sales and operating income for the fourth quarter of 2004 were \$6.2 billion and \$1.7 billion, respectively, as compared to \$6.3 billion and \$1.9 billion, respectively, for the third quarter of 2004.

Total steel shipments were 10.1 million tons in the fourth quarter 2004 as compared to 11.0 million tons in the third quarter 2004.

This is Mittal Steel's first earnings release after the completion of the acquisition by the former Ispat International N.V. of the former LNM Holdings N.V.

On December 17, 2004, Ispat International N.V. completed its acquisition of LNM Holdings N.V. and changed its name to Mittal Steel Company N.V. As Ispat International N.V. and LNM Holdings N.V. are affiliates under common control, the acquisition of LNM Holdings N.V. is accounted for on the basis of common control accounting, which is similar to the method of accounting formerly known as a pooling-of-interests.

These consolidated financial statements reflect the financial position and results of operations for Mittal Steel as though the former Ispat International N.V. and the former LNM Holdings N.V., were part of the combined Mittal Steel Company N.V. during all the periods presented herein. Intercompany balances and transactions have been eliminated in consolidation.

On a pro-forma basis Mittal Steel Company N.V. including ISG, achieved shipments of 57.6 million tons, sales of \$31.2 billion, operating income of \$7.0 billion and net income of \$5.7 billion or \$8.13 per share for the twelve months ended December 31, 2004. All pro-forma numbers assume the maximum issuance of shares and figures do not include any purchase accounting adjustments. (Refer to ISG's recent press release for their financial information).

#### **Analysis of operations**

Mittal Steel's consolidated financial statements for the year ended December 31, 2004 include the results of the following operations, the results of which were not, or were not fully, included in the year ended December 31, 2003.

The results of Ispat Polska were included from March 5, 2004, the date of its acquisition by Mittal Steel. Iscor was consolidated from January 1, 2004, following the increase of Mittal Steel's shareholding in this company to a majority.

Mittal Steel acquired Ispat Nova Hut on January 31, 2003. Therefore the relevant results of operations of Ispat Nova Hut for 2003 are included only for the eleven months ended December 31, 2003.

Mittal Steel acquired controlling interests in Ispat Tepro in July 2003, Ispat Petrotub in December 2003 and Ispat Siderurgica in April 2004.

Mittal Steel acquired RZ Valavnica Z.A. Lenti AD and RZ Ladna Valavnica AD (the Macedonian Operations ) in May 2004.

Due to these acquisitions the comparison of 2004 with past periods may not be meaningful.

Average price realization in the fourth quarter of 2004 improved by 9% compared to the third quarter of 2004, driven by higher base selling prices, raw material surcharges and improved product mix. For the year 2004, average price realization was 54% higher than 2003.

Steel shipments were lower by 8% in the fourth quarter 2004 as compared to the third quarter 2004 due to a combination of shipping delays and outages.

Due to the increases in the cost of key inputs, such as iron ore, scrap, electricity, natural gas and transportation, cost of goods sold per ton during the fourth quarter 2004 was higher by 8% compared to the third quarter of 2004. Cost of goods sold per ton during the year 2004 was higher by 31% compared to 2003.

Selling, general and administrative expenses in the fourth quarter of 2004 increased by 61% compared to the third quarter of 2004. Selling, general and administrative expenses were 118% higher for the year 2004 as compared to the year 2003 due to higher levels of sales activity, as well as higher costs of logistics.

Other income included one-time cash gain of \$109 million in Europe in the fourth quarter 2004.

The relatively low rate of tax cost both in the fourth quarter 2004 and the full year 2004 was primarily due to the release of certain tax valuation allowances (FAS 109) of \$375 million in certain subsidiaries due to the improvement in outlook.

Mittal Steel has decided to divide its operations into three geographical regions, viz. Americas, Europe and Rest of the World. The Americas region consists of the Company's subsidiaries in United States, Canada, Mexico and Trinidad and Tobago. The European region consists of the Company's subsidiaries in Bosnia, Czech Republic, France, Germany, Macedonia, Poland and Romania. The Rest of the World region consists of the Company's subsidiaries in all other countries, currently mainly Kazakhstan, Algeria and South Africa. These regions will be the basis for all the analysis the Company will present in the future.

### **Americas**

Total steel shipments of the Americas region were 2.8 million tons in the fourth quarter 2004, as against 3.2 million tons for the third quarter 2004. For the full year 2004 total steel shipments were 12.1 million tons as compared to 11.6 million tons for the year 2003.

Sales were marginally lower at \$1.8 billion in the fourth quarter 2004, as against \$1.9 billion for the third quarter of 2004. For the full year 2004 sales were \$6.6 billion as compared to \$4.1 billion for the year 2003.

The operating income was \$483 million for the fourth quarter 2004 as compared to \$580 million for the third quarter of 2004. For the full year 2004 operating income was \$1.6 billion as compared to \$136 million for the year 2003.

### **Europe**

Our European region achieved total steel shipments of 4.5 million tons in the fourth quarter 2004, as compared to 4.7 million tons for the third quarter 2004. For the year 2004 shipments were 18.0 million tons as against 10.7 million tons for the year 2003.

Sales were flat at \$2.8 billion in the fourth quarter 2004, as compared to the third quarter of 2004. Sales for the year 2004 increased to \$9.9 billion as compared to \$3.8 billion for the year 2003.

The operating income was \$480 million for the fourth quarter 2004 as compared to \$644 million for the third quarter of 2004. Operating income for the year 2004 was \$2.0 billion as compared to \$317 million for the year 2003.

During the fourth quarter of 2004, working capital decreased by \$226 million, mainly due to decreased receivables at year-end, although inventories were higher. During the year 2004, working capital increased by \$1.1 billion largely due to higher level of inventory and accounts receivables, partly offset by increased trade payables and increased accrued expenses and other liabilities.

Capital expenditures during the fourth quarter 2004 were \$376 million and for the year 2004 were \$898 million. Depreciation during the year 2004 was \$553 million.

The consideration is subject to adjustment based on the net asset value of Valin as at December 31, 2004. Prior to the redemption of the notes by Ispat Inland ULC, Mittal Steel purchased \$256,000,000 of capital stock of Inland. Consistent with the terms of the indenture with respect to the notes, the cash proceeds from the stock offering were used to redeem the notes. Mittal Steel is working on various steps required to complete this transaction and it is currently expected that this transaction will close in the first quarter of 2005.

### **Outlook for the year 2005**

We expect to complete the ISG merger in the first quarter 2005. This outlook includes ISG on pro-forma basis. The Company expects stable demand for its products during the year 2005 and across geographical regions. We expect shipments to increase to approximately 62 million tons. Both selling prices and costs are expected to be higher, driven primarily by an increase in cost of inputs. The Company, however, expects to maintain operating profit per ton, at a similar level to the year 2004. Capital expenditures will be approximately \$1.5 billion. Effective tax rate for the year 2005 should be substantially higher at approximately 25%-30%.

### **Outlook for first quarter 2005.**

For the first quarter 2005, Mittal Steel Company N.V., expects operating income per ton to be similar as compared to the fourth quarter 2004. Shipments are expected to marginally increase, however, effective tax rates are expected to go

up substantially, as stated earlier.
