Notes

Singapore Financial Statements. At the 2006 Annual General Meeting, our shareholders shall have the opportunity to discuss and ask any questions that they may have regarding our Singapore audited accounts for the fiscal year ended March 31, 2006, together with the reports of the Directors and Auditors thereon, in compliance with Singapore law. Shareholder approval of our audited accounts is not being sought by this Proxy Statement and will not be sought at the 2006 Annual General Meeting.

Eligibility to Vote at Annual General Meeting; Receipt of Notice. The Board of Directors has fixed the close of business on August 11, 2006 as the record date for determining those shareholders who will be entitled to receive copies of this Notice and accompanying proxy statement. However, all shareholders of record on October 4, 2006 will be entitled to vote at the 2006 Annual General Meeting.

Quorum. Representation of at least 33¹/₃% of all outstanding ordinary shares of Flextronics International Ltd. is required to constitute a quorum. Accordingly, it is important that your shares be represented at the 2006 Annual General Meeting.

Proxies. A shareholder entitled to attend and vote at the 2006 Annual General Meeting is entitled to appoint a proxy to attend and vote on his or her behalf. A proxy need not also be a shareholder. **Whether or not you plan to attend the meeting, please complete, date and sign the enclosed proxy card and return it in the enclosed envelope.** A proxy card must be received by us c/o Proxy Services, c/o Computershare Investor Services, PO Box 43101, Providence, RI 02940-5067 not less than 48 hours before the time appointed for holding the 2006 Annual General Meeting. You may revoke your proxy at any time prior to the time it is voted.

Disclosure regarding Share Purchase Mandate Funds. Only funds legally available for purchasing or acquiring our issued ordinary shares in accordance with our Articles of Association and the applicable laws of Singapore will be used for the purchase or acquisition by us of our own issued ordinary shares pursuant to the proposed renewal of the Share Purchase Mandate referred to in Proposal No. 7. We intend to use our internal sources of funds to finance the purchase or acquisition of our issued ordinary shares. The amount of financing required for us to purchase or acquire our issued ordinary shares, and the impact on our financial position, cannot be ascertained as of the date of this Notice, as these will depend on the number of ordinary shares purchased or acquired and the price at which such ordinary shares are purchased or acquired and whether the ordinary shares purchased or acquired are held in treasury or cancelled. Our net tangible assets and the consolidated net tangible assets of us and our subsidiaries will be reduced by the purchase price of any ordinary shares purchased or acquired and cancelled. We do not anticipate that the purchase or acquisition of our ordinary shares in accordance with the Share Purchase Mandate would have a material impact on our consolidated results of operations, financial condition and cash flows.

Amendments to Articles of Association. The text of Annex B is marked to show changes to the existing Articles of Association of the Company, with proposed deletions shown by strikethrough text and proposed additions shown by underlined text. When adopted by shareholders, the text of the Articles of Association will exclude these editorial functions.

VOTING RIGHTS AND SOLICITATION OF PROXIES

The close of business on August 11, 2006 is the record date for shareholders entitled to notice of the 2006 Annual General Meeting. All of the ordinary shares issued and outstanding on October 4, 2006 are entitled to be voted at the 2006 Annual General Meeting, and shareholders of record on October 4, 2006 and entitled to vote at the meeting will, on a poll, have one vote for each ordinary share so held on the matters to be voted upon. Our Board of Directors held a total of 21 meetings during fiscal year 2006, of which six were regularly scheduled meetings and 15 were administrative meetings. During the period for which each current director was a director or a committee member, all Directors attended at least 75% of the aggregate of the total number of regularly scheduled meetings of our Board together with the total number of meetings held by all committees of our Board on which he served. Only Mr. Marks and Mr. McNamara attended 75% of the total number of administrative meetings of our Board (for Mr. McNamara, counting only those meetings during which he was a member of our Board). During fiscal year 2006, our non-employee Directors met at regularly scheduled executive sessions without management participation.

Our Board has adopted a policy that encourages each Director to attend the Annual General Meeting, but attendance is not required. Mr. Marks attended the 2005 Annual General Meeting.

The Audit Committee held four meetings during fiscal year 2006. The Audit Committee's principal functions are to:

monitor and evaluate periodic reviews of the adequacy of the accounting and financial reporting processes and systems of internal control that are conducted by our financial and senior management, and our independent auditors;

be directly responsible for the appointment, compensation and oversight of the work of our independent auditors (including resolution of any disagreements between our management and the auditors regarding financial reporting); and

facilitate communication among our independent auditors, our financial and senior management and our Board. Our Board has adopted an Audit Committee Charter that is available on our website at <http://www.flextronics.com/Investors/corporateGovernance.asp>. The goal of the Nominating and Corporate Governance Committee is to ensure that our Board possesses a variety of perspectives and skills derived from high-quality business and professional experience. The Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on our Board, while maintaining a sense of collegiality and cooperation that is conducive to a productive working relationship within the Board and between the Board and management. To this end, the Nominating and Corporate Governance Committee seeks nominees with the highest professional and personal ethics and values, an understanding of our business and industry, diversity of business experience and expertise, a high level of education, broad-based business acumen, and the ability to think strategically. Although the Nominating and Corporate Governance Committee uses these and other criteria to evaluate potential nominees, we have no stated minimum criteria for nominees. The Nominating and Corporate Governance Committee does not use different standards to evaluate nominees depending on whether they are proposed by our Directors and management or by our shareholders.

The Nominating and Corporate Governance Committee generally recruits, evaluates and recommends nominees for our Board based upon recommendations by our Directors, management and shareholders. The Nominating and Corporate Governance Committee will also consider recommendations submitted by our shareholders. To date, we have not received any such recommendations from our shareholders.

Finance Committee

No Director who is our employee receives compensation for services rendered as a director.

Initial Option Grants. Each individual who first becomes a non-employee Director is granted stock options to purchase 25,000 ordinary shares under the automatic option grant provisions of our 2001 Equity Incentive Plan, which we refer to as the 2001 Plan. These options vest and are exercisable as to 25% on the first anniversary of the grant date and in 36 equal monthly installments thereafter. During fiscal year 2006, Messrs. Bingham, Schnabel and Shah each received stock options to purchase 25,000 ordinary shares under this program.

Yearly Option Grants. Under the terms of the automatic option grant provisions of the 2001 Plan, on the date of each Annual General Meeting, each individual who is at that time serving as a non-employee Director receives stock options to purchase 12,500 ordinary shares. We are proposing an amendment to our 2001 Plan that would eliminate a provision that pro-rates the yearly grant based on the service of the director during the prior 12 months. See *Proposals Nos. 8, 9 and 10: Ordinary Resolutions to Approve Amendments to our 2001 Equity Incentive Plan.* These options vest and are exercisable as to 25% on the first anniversary of the grant date and in 36 equal monthly installments thereafter. During fiscal year 2006, Mr. Sharp, Mr. Davidson and Mr. Tan each received stock options to purchase 12,500 ordinary shares under this program.

Yearly Stock Bonus Awards. Under the terms of the discretionary stock bonus grant provisions of the 2001 Plan and as approved by the Compensation Committee, each non-employee Director receives a yearly stock bonus consisting of such number of shares having an aggregate fair market value of US\$100,000 on the date of grant. Under this program, during fiscal year 2006 Mr. Davidson and Mr. Tan each received a stock bonus of 7,898 shares, and Mr. Sharp received a stock bonus of 9,596 shares.

Discretionary Grants. Under the terms of the discretionary option grant provisions of the 2001 Plan, non-employee Directors are eligible to receive stock options granted at the discretion of the Compensation Committee. Pursuant to these provisions, during fiscal year 2006, Mr. Davidson and Mr. Tan each received stock options to purchase 25,000 ordinary shares and Mr. Sharp received stock options to purchase 100,000 ordinary shares. The maximum number of ordinary shares that may be subject to awards granted to each non-employee Director under the 2001 Plan is 100,000 ordinary shares in each calendar year.

Cash Compensation. For the 12-month period since the 2005 Annual General Meeting, each non-employee Director except Mr. Marks was eligible to receive:

annual cash compensation of \$40,000, payable quarterly in arrears to each non-employee Director, for services rendered as a director; and

additional annual cash compensation of \$10,000, payable quarterly in arrears to the Chairman of the Audit Committee (if appointed) of the Board of Directors for services rendered as Chairman of the Audit Committee and for his or her participation on the Audit Committee; and

additional annual cash compensation of \$5,000, payable quarterly in arrears to each non-employee Director for his or her participation on each standing committee of the Board of Directors on which he or she serves.

Under the terms of the Agreement entered into between the Company and Michael E. Marks on November 30, 2005, pursuant to which, among other things, Mr. Marks agreed to serve as Chairman of our Board of Directors effective January 1, 2006, Mr. Marks is entitled to receive any cash compensation paid to non-employee directors until October 4, 2006, the date of our Annual General Meeting. **PROPOSAL NO. 3:
RE-APPOINTMENT OF INDEPENDENT AUDITORS FOR FISCAL YEAR 2007 AND
AUTHORIZATION OF OUR BOARD TO FIX THEIR REMUNERATION**

The Audit Committee has recommended to the Board of Directors the re-appointment of Deloitte & Touche LLP as independent auditors to audit our accounts and records for the fiscal year ending March 31, 2007, and to perform other appropriate services. We expect that a representative from Deloitte & Touche LLP will be present at the 2006 Annual General Meeting. This representative will have the opportunity to make a statement if he or she so desires and is expected to be available to respond to appropriate questions.

Principal Accountant Fees and Services

Set forth below are the aggregate fees paid for the services performed by the Company's principal accounting firm, Deloitte & Touche LLP, a member firm of Deloitte Touche Tohmatsu, and their respective affiliates (collectively,

Deloitte & Touche) during fiscal years 2006 and 2005. All audit and permissible non-audit services reflected in the fees below were pre-approved by the Audit Committee in accordance with established procedures.

	Fiscal Year 2006	Fiscal Year 2005
	(In millions)	
Audit Fees	\$ 7.0	\$ 7.6
Audit-Related Fees	2.2	
Tax Fees	1.1	2.6
All Other Fees		
Total:	\$ 10.3	\$ 10.2

Audit Fees consist of fees for professional services rendered by our independent auditors for the audit of our annual financial statements included in our Annual Report on Form 10-K (including services incurred with rendering an opinion under Section 404 of the Sarbanes-Oxley Act of 2002) and the review of our quarterly financial statements included in our Quarterly Reports on Form 10-Q. These fees include fees for services that are normally incurred in connection with statutory and regulatory filings or engagements, such as comfort letters, statutory audits, consents and review of documents filed with the SEC.

Audit-Related Fees consist of fees for assurance and related services by our auditors that are reasonably related to the performance of the audit or review of our financial statements and not included in Audit Fees. In fiscal year 2006, these fees related primarily to assurance services performed in conjunction with the divestitures of our Network Services division, Semiconductor division and our pending divestiture of our Software Development and Solutions business.

Tax Fees consist of fees for professional services rendered by our independent auditors for tax compliance, tax advice, tax consultation and tax planning services.

All Other Fees consist of fees for professional services rendered by our independent auditors for permissible non-audit services, if any. We did not incur fees under this category during fiscal years 2006 and 2005.

Audit Committee Pre-Approval Policy

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent auditors. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services. The independent auditors and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent

Table of Contents

auditors in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis.

The Audit Committee has determined that the provision of non-audit services under appropriate circumstances may be compatible with maintaining the independence of Deloitte & Touche LLP, and that all such services provided by Deloitte & Touche LLP to us in the past were compatible with maintaining such independence. The Audit Committee is sensitive to the concern that some non-audit services, and related fees, could impair independence and the Audit Committee believes it important that independence be maintained. However, the Audit Committee also recognizes that in some areas, services that are identified by the relevant regulations as tax fees or other fees are sufficiently related to the audit work performed by Deloitte & Touche LLP that it would be highly inefficient and unnecessarily expensive to use a separate firm to perform those non-audit services. The Audit Committee intends to evaluate each such circumstance on its own merits, and to approve the performance of non-audit services where it believes efficiency can be obtained without meaningfully compromising independence.

The Board recommends a vote FOR the re-appointment of Deloitte & Touche LLP, upon the recommendation of the Audit Committee, as independent auditors for fiscal year 2007 and authorization of the Board, upon the recommendation of the Audit Committee, to fix their remuneration.

PROPOSAL NO. 4:

**ORDINARY RESOLUTION TO AUTHORIZE
ORDINARY SHARE ISSUANCES**

We are incorporated in the Republic of Singapore. Under Singapore law, our Directors may only issue ordinary shares and make or grant offers, agreements or options that might or would require the issuance of ordinary shares, with the prior approval from our shareholders. If this proposal is approved, the authorization would be effective from the date of the 2006 Annual General Meeting until the earlier of (i) the conclusion of the 2007 Annual General Meeting or (ii) the expiration of the period within which the 2007 Annual General Meeting is required by law to be held. The 2007 Annual General Meeting is required to be held no later than 15 months after the date of the 2006 Annual General Meeting and no later than six months after the date of our 2007 fiscal year end (Singapore law allows for a one-time application for an extension of up to a maximum of three months to be made with the Singapore Accounting and Corporate Regulatory Authority).

The Board believes that it is advisable and in the best interests of our shareholders for our shareholders to authorize the Directors to issue ordinary shares and to make or grant offers, agreements or options that might or would require the issuance of ordinary shares. In the past, the Board has issued shares or made agreements that would require the issuance of new ordinary shares in the following situations:

in connection with strategic transactions and acquisitions;

pursuant to public and private offerings of our ordinary shares as well as instruments convertible into our ordinary shares; and

in connection with our equity compensation plans and arrangements.

Notwithstanding this general authorization to issue our ordinary shares, we will be required to seek shareholder approval with respect to future issuances of ordinary shares where required under the rules of the NASDAQ Global Market, such as where we propose to issue ordinary shares that will result in a change in control of the company or in connection with a transaction involving the issuance of ordinary shares representing 20% or more of our outstanding ordinary shares.

The Board expects that we will continue to issue ordinary shares and grant options and stock bonus awards in the future under circumstances similar to those in the past. As of the date of this Proxy Statement, other than issuances of ordinary shares or agreements that would require the issuance of new ordinary shares in connection with our equity compensation plans and arrangements, we have no specific plans, agreements or

Table of Contents

commitments to issue any ordinary shares for which approval of this proposal is required. Nevertheless, the Board believes that it is advisable and in the best interests of our shareholders for our shareholders to provide this general authorization in order to avoid the delay and expense of obtaining shareholder approval at a later date and to provide us with greater flexibility to pursue strategic transactions and acquisitions and raise additional capital through public and private offerings of our ordinary shares as well as instruments convertible into our ordinary shares.

As of March 31, 2006:

578,621,330 ordinary shares were issued and outstanding;

55,524,248 ordinary shares were reserved for issuance upon the exercise of outstanding options and pursuant to other awards under our equity compensation plans;

22,537,149 ordinary shares were available for grant under our equity compensation plans; and

50,777,547 shares were reserved for issuance upon conversion of our outstanding convertible notes.

If this proposal is approved, our Directors would be authorized to issue, during the period described above, ordinary shares subject to applicable Singapore laws and the rules of the NASDAQ Global Market. The issuance of a large number of ordinary shares could be dilutive to existing shareholders or reduce the trading price of our ordinary shares on the NASDAQ Global Market.

We are submitting this proposal because we are required to do so under Singapore law before we can issue any ordinary shares in connection with strategic transactions, public and private offerings and in connection with our equity compensation plans. We are not submitting this proposal in response to a threatened takeover. In the event of a hostile attempt to acquire control of our company, we could seek to impede the attempt by issuing ordinary shares, which may dilute the voting power of our existing shareholders. This could also have the effect of impeding the efforts of our shareholders to remove an incumbent Director and replace him with a new Director of their choice. These potential effects could limit the opportunity for our shareholders to dispose of their ordinary shares at the premium that may be available in takeover attempts.

**The Board recommends a vote FOR the resolution
to authorize ordinary share issuances.**

PROPOSAL NO. 5:

**ORDINARY RESOLUTION TO APPROVE DIRECTOR
CASH COMPENSATION AND CASH COMPENSATION FOR THE CHAIRMAN OF
THE AUDIT COMMITTEE (IF APPOINTED) AND FOR COMMITTEE PARTICIPATION**

Under Singapore law, we may only provide cash compensation to our Directors for services rendered in their capacity as directors with the prior approval from our shareholders at a general meeting. We believe that it is advisable and in the best interests of our shareholders for our shareholders to authorize us to provide the following annual cash compensation to our Directors:

annual cash compensation of \$40,000, payable quarterly in arrears, to each of our non-employee Directors for services rendered as a director;

additional annual cash compensation of \$10,000, payable quarterly in arrears to the Chairman of the Audit Committee (if appointed) of the Board of Directors for services rendered as Chairman of the Audit Committee and for his or her participation on the Audit Committee and

additional annual cash compensation of \$5,000, payable quarterly in arrears to each non-employee Director for his or her participation on each standing committee of the Board of Directors on which he or she serves.

Table of Contents

Our standing committees of the Board of Directors are currently the Audit, Compensation, Nominating and Corporate Governance and Finance Committees.

We believe that this authorization will benefit our shareholders by enabling us to attract and retain qualified individuals to serve as members of our Board of Directors and to continue to provide leadership for our company.

The cash compensation for our non-employee directors is unchanged from the amounts approved by our shareholders at the 2005 Annual General Meeting.

**The Board recommends a vote FOR the resolution
to approve Directors cash compensation and cash compensation
for the Chairman of the Audit Committee (if appointed) and for committee participation.**

PROPOSAL NO. 6:

**SPECIAL RESOLUTION TO APPROVE THE AMENDED AND RESTATED
ARTICLES OF ASSOCIATION OF THE COMPANY**

Background

Our shareholders are being asked to approve the amendment and restatement of the Company's Articles of Association.

The Singapore Companies (Amendment) Act 2005, which became effective on January 30, 2006, introduced key changes to the Singapore Companies Act, Cap. 50 that included, among other things:

eliminating the concepts of par value and authorized share capital, pursuant to which the ordinary shares of the Company no longer have any par or nominal value;

eliminating the corresponding concepts of share premium and the issuance of shares at a discount;

enabling a company to repurchase shares out of its capital, as well as from distributable profits; and

allowing ordinary shares that are the subject of a share repurchase by a company to be held as treasury shares instead of being cancelled, as previously required.

Our Articles of Association need to be amended as a result of certain changes made by the Singapore Companies (Amendment) Act 2005, including the elimination of the concepts of par value, share premium, shares issued at a discount and authorized share capital. In addition, we are proposing that our shareholders approve amendments to provide for the holding of treasury shares and to modernize and streamline certain provisions to be more consistent with, and take greater advantage of, the Singapore Companies Act, as amended. Finally, the proposed amendment and restatement of our Articles of Association includes the re-wording of a number of provisions in order to improve clarity and readability.

The full text of the Articles of Association, as amended, is set forth as *Annex B* to this proxy statement. This text is marked to show changes from our existing Articles of Association of the Company. You are urged to read the text of *Annex B* in its entirety.

Proposal

The following information summarizes the material modifications to our Articles of Association relating to (i) the changes made by the Singapore Companies (Amendment) Act 2005 and (ii) other modifications consisting of a more general nature.

Table of Contents

Changes Relating to the Singapore Companies (Amendment) Act 2005

The proposed changes to our Articles of Association relating to the changes made by the Singapore Companies (Amendment) Act 2005 include:

modification of Article 2 (Interpretation) to clarify that the term *Members* and references to *holders* of shares or a class of shares shall generally not include the Company in its holding of treasury shares;

modification of or deletion of existing provisions to reflect the elimination of the concepts of authorized share capital, share premium, par or nominal value and shares issued at a discount, in Articles 5, 7, 29, 32, 34, 44, 48 through 52, 59, 64(iv), 115, 123, and 133;

addition of a new provision in Article 5 and modification of existing provisions in Articles 6(b), 64(iv), 70 and 73 to provide for the holding of treasury shares or to specify that the Company may not deal with its treasury shares in any matter that is not authorized by or prescribed pursuant to the Singapore Companies Act;

modification of Article 11 (Power to Pay Commission and Brokerage) to address a repeal of the Singapore Companies Act provision relating to the powers to pay certain commissions by providing that the Company may pay commissions or brokerage on any issuance of shares at such rate or amount and in such manner as the Directors may deem fit (Article 11 currently allows for the payment of such commissions, but includes certain limitations on amounts and other requirements intended to conform to the repealed provision of the Singapore Companies Act);

modification of Article 49 (Power to Reduce Capital) to explain the effect of share buy backs on the share capital of the Company when made out of the share capital of the Company;

modification of Articles 133 (Power to Capitalize Profits) and 134 (Implementation of Resolution to Capitalize Profits) to delete the references to the share premium account and the capital redemption reserve fund because, under the Singapore Companies (Amendment) Act 2005, any amounts standing to the credit of the Company's share premium account and the capital redemption reserve became part of its share capital; and

modification of Articles 133 and 134 to permit the Company, by an Ordinary Resolution of the Shareholders and recommendation of the Board, to issue bonus shares to all of our shareholders on a pro-rata basis without receiving any consideration for such shares. The elimination of the concept of par value pursuant to the Singapore Companies (Amendment) Act 2005 made the issuance of such bonus shares permissible and is in addition to the Company's current ability to issue bonus shares by capitalizing our reserve accounts or any sum standing to our profit and loss account to our shareholders and applying such sum in paying up in full the bonus shares to be issued.

Other Substantive Changes

Other proposed changes to our Articles of Association include:

modification of Article 2 (Interpretation) to clarify that any reference in the Articles of Association to any enactment is a reference to that enactment as amended or re-enacted from time to time;

modification of Article 19 (New Certificates may be Issued) to delete the references to stamp duty payable on share certificates since, under current law, no stamp duty is payable on share certificates;

modification of Article 22 to provide that the Directors may refuse to register any instrument of transfer of shares unless such instrument is accompanied by a certificate of payment of stamp duty (if any) since registering such an instrument may be an offence under Section 66 of the Singapore Stamp Duties Act, Cap. 312;

deletion of Article 46 (Issue of New Shares to Members), which provides a form of pre-emptive rights to our shareholders, in order to provide our Board with greater flexibility in capital-raising activities;

Table of Contents

modification of Article 49 (Power to Reduce Capital) to clarify that the Company may reduce its share capital by a Special Resolution of our shareholders, which is a restatement of the Company's power to reduce its share capital under the Singapore Companies Act;

modification of Article 58(ii) (Routine Business) to delete the reference to the term "adopting" and replacing it with the term "laying" so as to clarify that the provision is limited to providing shareholders the opportunity at the Annual General Meeting to read and ask questions in connection with the presentation of the balance sheet, the reports of the Directors and Auditors, and other accounts and documents required to be annexed to the balance sheet;

modification of Article 63 (Adjournment) to clarify that an Annual General Meeting may be adjourned without specifying a particular day for reconvening;

modification of Article 64(ii) (Method of Voting) to clarify that each of the three members required to demand a poll must be entitled to vote at the meeting at which the resolution is put to the vote;

modification of Article 79 (Form of Proxies) to clarify that, as a procedural matter, an appointed proxy shall be deemed to have the right to move any resolution and to speak at the Annual General Meeting;

deletion of Article 83 (Directors), which identifies the first directors of the Company, and which is no longer required under the Singapore Companies Act;

modification of Articles 90 through 93 and 95 to replace the term "Managing Director" with a broadened reference to the Chief Executive Officer (or any person holding an equivalent position) in order to clarify what is meant by the term "Managing Director", which the Articles permit the Board to appoint from time to time;

modification of Articles 91 and 95 to provide that the Board may decide whether or not to exempt the position currently referred to as the "Managing Director" from retirement by rotation (Articles 91 and 95 currently provide that such position is automatically exempt from retirement by rotation);

modification of Article 95 to provide that the number of directors subject to retirement by rotation at each Annual General Meeting, if the number of directors taken into account is not a multiple of three, shall be rounded down to the number closest to, but not more than, one-third of the total number of directors that are taken into account (Article 95 currently provides that, if such number of directors is not a multiple of three, the number of directors subject to retirement by rotation shall be rounded up so that not less than one-third of the directors taken into account must retire);

modification of Article 100 (Notice of Intention to Appoint Director) to change the date prior to which shareholders must notify the Company of their intent to nominate a person to be a Director from 10 days before the Annual General Meeting to 45 days prior to the date on which the previous year's proxy statement was first mailed and to specify what information is required in such notice;

modification of Articles 103 (Meetings of Directors) and 108 (Resolutions in Writing) to expand the permitted use of electronic communications for meetings of the Board and written resolutions of the Board, respectively, and to clarify the requirements of such electronic communications;

modification of Article 112 (General Powers of Directors to Manage Company's Business) to conform with Section 157A of the Singapore Companies Act, which provides that the powers of management of the Company reside with the Directors of the Company, except for those powers which the Singapore Companies Act or the

Company's Memorandum of Association or Articles of Association specify are to be exercised by the Company in General Meeting;

modification of Article 115 (Directors' Borrowing Powers) to clarify that in borrowing or raising money the Directors shall comply with any applicable provisions of the Singapore Companies Act and every other applicable statute, and the Articles of Association; and

Table of Contents

modification of Articles 145 (Service of Notice) and 149 (When Service Effected) to permit the Company to use electronic communications to give, send or serve on members, auditors and officers any notice to be given by the Company.

Although the proposed modification to Article 95 to provide that the number of directors subject to retirement by rotation at each Annual General Meeting shall be rounded down from one-third of the total number of directors that are taken into account (instead of rounded up) could, under certain circumstances, be construed as having an anti-takeover effect (for example, by making it more difficult for a person or group to obtain a majority of the Board), the Board is not proposing the modification in response to any effort known to them to obtain control of the Company.

**The Board recommends a vote FOR
the approval of the amendment and restatement of the Company's Articles of Association.**

PROPOSAL NO. 7:

ORDINARY RESOLUTION TO RENEW THE SHARE PURCHASE MANDATE

Our purchases or acquisitions of our ordinary shares must be made in accordance with, and in the manner prescribed by, the Companies Act, the applicable listing rules of the NASDAQ Global Market and such other laws and regulations as may from time to time be applicable.

Singapore law requires us to obtain shareholder approval of a general and unconditional share purchase mandate given to our directors if we wish to purchase or otherwise acquire our ordinary shares. We refer to this general and unconditional mandate as the Share Purchase Mandate, and it allows our directors to exercise all of our powers to purchase or otherwise acquire our own shares. Although our shareholders approved a renewal of the Share Purchase Mandate at the 2005 Annual General Meeting, our Directors have not exercised any of our powers to purchase or otherwise acquire any of our ordinary shares pursuant to the 2005 renewal of the Share Purchase Mandate. The Share Purchase Mandate renewed at the 2005 Annual General Meeting will expire on the date of the 2006 Annual General Meeting. Accordingly, we are submitting this proposal to seek approval from our shareholders at the 2006 Annual General Meeting for another renewal of the Share Purchase Mandate. This resolution will be proposed as an Ordinary Resolution pursuant to which the Share Purchase Mandate will be given to our Directors to exercise all powers to purchase or otherwise acquire our issued ordinary shares on the terms of the Share Purchase Mandate.

If renewed by shareholders at the 2006 Annual General Meeting, the authority conferred by the Share Purchase Mandate will, unless varied or revoked by our shareholders at a general meeting, continue in force until the earlier of the date of the 2007 Annual General Meeting or the date by which the 2007 Annual General Meeting is required by law to be held.

The authority and limitations placed on our share purchases or acquisitions under the proposed Share Purchase Mandate, if renewed at the 2006 Annual General Meeting, are summarized below:

Limit on Allowed Purchases

We may purchase or acquire only ordinary shares that are issued and fully paid up. We may not purchase or acquire more than 10% of the total number of issued ordinary shares outstanding at the date of the 2006 Annual General Meeting. Any of our ordinary shares which are held as treasury shares will be disregarded for purposes of computing this 10% limit.

Purely for illustrative purposes, on the basis of 578,775,915 issued ordinary shares outstanding as of July 28, 2006, and assuming that no additional ordinary shares are issued on or prior to the 2006 Annual General Meeting, and that no ordinary shares are held as treasury shares, pursuant to the proposed Share Purchase Mandate, we would be able to purchase not more than 57,877,591 issued ordinary shares.

Table of Contents

Duration of Share Purchase Mandate

Purchases or acquisitions of ordinary shares may be made, at any time and from time to time, on and from the date of approval of the Share Purchase Mandate up to the earlier of:

the date on which our next Annual General Meeting is held or required by law to be held; or

the date on which the authority conferred by the Share Purchase Mandate is revoked or varied.

Manner of Purchases or Acquisitions of Ordinary Shares

Purchases or acquisitions of ordinary shares may be made by way of:

market purchases on the NASDAQ Global Market or any other stock exchange on which our ordinary shares may for the time being be listed and quoted, through one or more duly licensed dealers appointed by us for that purpose; and/or

off-market purchases (if effected other than on the NASDAQ Global Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted), in accordance with an equal access scheme as prescribed by the Companies Act.

If we decide to purchase or acquire our ordinary shares in accordance with an equal access scheme, our Directors may impose any terms and conditions as they see fit and as are in our interests, so long as the terms are consistent with the Share Purchase Mandate, the applicable listing rules of the NASDAQ Global Market, the rules of the Companies Act and other applicable laws. In addition, an equal access scheme must satisfy all of the following conditions:

offers for the purchase or acquisition of ordinary shares must be made to every person who holds ordinary shares to purchase or acquire the same percentage of their ordinary shares;

all of those persons must be given a reasonable opportunity to accept the offers made; and

the terms of all of the offers must be the same (except differences in consideration that result from offers relating to ordinary shares with different accrued dividend entitlements and differences in the offers solely to ensure that each person is left with a whole number of ordinary shares).

Purchase Price

The purchase price (excluding brokerage commission, applicable goods and services tax and other related expenses of the purchase or acquisition) to be paid for an ordinary share will be determined by our Directors. The maximum purchase price to be paid for the ordinary shares as determined by our Directors must not exceed:

in the case of a market purchase, the highest independent bid or the last independent transaction price, whichever is higher, of our ordinary shares quoted or reported on the NASDAQ Global Market at the time the purchase is effected; and

in the case of an off-market purchase pursuant to an equal access scheme, 150% of the Prior Day Close Price of our ordinary shares.

For the above purposes, the term Prior Day Close Price means the closing price of an ordinary share as quoted on the NASDAQ Global Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted, on the day immediately preceding the date of the making of the offer pursuant to the off-market purchase. The date of the making of the offer refers to the date on which we announce our intention to make an offer for the purchase or acquisition of our ordinary shares from holders of our ordinary shares, stating therein the purchase price (which shall not be more than the maximum purchase price calculated on the foregoing basis) for each ordinary share and the relevant terms of the equal access scheme for effecting the off-market purchase.

Treasury Shares

Under the Companies Act, as amended by the Companies (Amendment) Act 2005 of Singapore (effective January 30, 2006), which we refer to as the Amendment Act, ordinary shares purchased or acquired by us may be held as treasury shares. Some of the provisions on treasury shares under the Companies Act, as amended by the Amendment Act, are summarized below:

Maximum Holdings. The number of ordinary shares held as treasury shares may not at any time exceed 10% of the total number of issued ordinary shares.

Voting and Other Rights. We may not exercise any right in respect of treasury shares. In particular, we may not exercise any right to attend or vote at meetings and for the purposes of the Companies Act, we shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights. In addition, no dividend may be paid, and no other distribution of our assets may be made, to us in respect of treasury shares. However, the allotment of ordinary shares as fully paid bonus shares in respect of treasury shares is allowed. A subdivision or consolidation of any treasury share into treasury shares of a smaller amount is also allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before.

Disposal and Cancellation. Where ordinary shares are held as treasury shares, we may at any time:

sell the treasury shares for cash;

transfer the treasury shares for the purposes of or pursuant to an employees' share scheme;

transfer the treasury shares as consideration for the acquisition of shares in or assets of another company or assets of a person;

cancel the treasury shares; or

sell, transfer or otherwise use the treasury shares for such other purposes as may be prescribed by the Minister for Finance of Singapore.

Sources of Funds

Only funds legally available for purchasing or acquiring ordinary shares in accordance with our Articles of Association and applicable laws of Singapore shall be used. We intend to use our internal sources of funds to finance any purchase or acquisition of our ordinary shares. We do not intend to borrow money to finance any purchase or acquisition of our ordinary shares. Our Directors do not propose to exercise the Share Purchase Mandate in a manner and to such an extent that would materially affect our working capital requirements and those of our subsidiaries.

Previously, any payment made by us in consideration of the purchase or acquisition of ordinary shares was required to be made out of our distributable profits. The Amendment Act now permits us to purchase and acquire our ordinary shares out of our capital or profits. Acquisitions or purchases made out of capital are permissible only so long as the company is solvent for the purposes of section 76F(4) of the Companies Act. A company is solvent if (a) it is able to pay its debts in full at the time of the payment made in consideration of the purchase or acquisition (or the acquisition of any right with respect to the purchase or acquisition) of ordinary shares and will be able to pay its debts as they fall due in the normal course of business during the 12-month period immediately following the date of the payment; and (b) the value of the company's assets is not less than the value of its liabilities (including contingent liabilities) and will not, after giving effect to the proposed purchase or acquisition, become less than the value of its liabilities (including contingent liabilities).

Status of Purchased or Acquired Ordinary Shares

Any ordinary share that we purchase or acquire will be deemed cancelled immediately on purchase or acquisition, and all rights and privileges attached to the ordinary share will expire on cancellation (unless such ordinary share is held by us as treasury shares). The total number of issued shares will be diminished by the number of ordinary shares purchased or acquired by us and which are not held by us as treasury shares.

Table of Contents

We will cancel and destroy certificates in respect of purchased or acquired ordinary shares not held by us as treasury shares as soon as reasonably practicable following settlement of any purchase or acquisition of such ordinary shares.

Financial Effects

Our net tangible assets and the consolidated net tangible assets of our subsidiaries will be reduced by the purchase price of any ordinary shares purchased or acquired and cancelled or held as treasury stock. We do not anticipate that the purchase or acquisition of our ordinary shares in accordance with the Share Purchase Mandate would have a material impact on our consolidated results of operations, financial condition and cash flows.

The financial effects on us and our group (including our subsidiaries) arising from purchases or acquisitions of ordinary shares which may be made pursuant to the Share Purchase Mandate will depend on, among other things, whether the ordinary shares are purchased or acquired out of our profits and/or capital, the number of ordinary shares purchased or acquired, the price paid for the ordinary shares and whether the ordinary shares purchased or acquired are held in treasury or cancelled.

Under the Companies Act, as amended by the Amendment Act, purchases or acquisitions of ordinary shares by us may be made out of our profits and/or our capital. Where the consideration paid by us for the purchase or acquisition of ordinary shares is made out of our profits, such consideration (excluding brokerage, commission, goods and services tax and other related expenses) will correspondingly reduce the amount available for the distribution of cash dividends by us. Where the consideration that we pay for the purchase or acquisition of ordinary shares is made out of our capital, the amount available for the distribution of cash dividends by us will not be reduced.

Rationale for the Share Purchase Mandate

We believe that a renewal of the Share Purchase Mandate at the 2006 Annual General Meeting will benefit our shareholders by providing our Directors with appropriate flexibility to repurchase ordinary shares if our Directors believe that such repurchases would be in the best interests of our shareholders. Our decision to repurchase our ordinary shares from time to time will depend on our continuing assessment of then-current market conditions, our need to use available cash to finance acquisitions and other strategic transactions, the level of our debt and the terms and availability of financing.

Take-Over Implications

If, as a result of our purchase or acquisition of our issued ordinary shares, a shareholder's proportionate interest in our voting capital increases, such increase will be treated as an acquisition for the purposes of The Singapore Code on Take-overs and Mergers. If such increase results in a change of effective control, or, as a result of such increase, a shareholder or a group of shareholders acting in concert obtains or consolidates effective control of our company, such shareholder or group of shareholders acting in concert could become obliged to make a take-over offer for our company under Rule 14 of The Singapore Code on Take-overs and Mergers.

The circumstances under which shareholders (including Directors or a group of shareholders acting together) will incur an obligation to make a take-over offer under Rule 14 of The Singapore Code on Take-overs and Mergers, Appendix 2. The effect of Appendix 2 is that, unless exempted, shareholders will incur an obligation to make a take-over offer under Rule 14 if, as a result of us purchasing or acquiring our issued ordinary shares, the voting rights of such shareholders would increase to 30% or more, or if such shareholders hold between 30% and 50% of our voting rights, the voting rights of such shareholders would increase by more than 1% in any period of six months. Shareholders who are in doubt as to their obligations, if any, to make a mandatory take-over offer under The Singapore Code on Take-overs and Mergers as a result of any share purchase by us should consult the Securities Industry Council of Singapore and/or their professional advisers at the earliest opportunity.

to approve the proposed renewal of the Share Purchase Mandate.
PROPOSALS NOS. 8, 9 AND 10:
ORDINARY RESOLUTIONS TO APPROVE AMENDMENTS TO OUR 2001
EQUITY INCENTIVE PLAN**

Overview of Amendments

Our shareholders are being asked to approve amendments to our 2001 Equity Incentive Plan, which we refer to below as the 2001 Plan. The principal features of the 2001 Plan are summarized below. However, this summary is not a complete description of all of the provisions of the 2001 Plan. The full text of the 2001 Plan as proposed to be amended is attached to this proxy statement as *Annex C*.

The amendments to the 2001 Plan provide for:

(a) elimination of the two million share limit on the number of ordinary shares subject to stock bonus awards that may be outstanding at any time during the term of the 2001 Plan so that stock bonus awards will be subject only to the existing limitation that we may not issue more than an aggregate of 10 million shares under stock bonuses;

(b) modification of the automatic option grant to non-employee directors of 12,500 options following each Annual General Meeting to non-employee directors so that the option grant will not be pro-rated based on the service of the director during the prior 12 months; and

(c) an increase of the share reserve by 5,000,000 ordinary shares to an aggregate of 32,000,000 ordinary shares (not including shares available under plans consolidated into the 2001 Plan).

Reasons for Amendments

The Board believes these amendments are necessary for us to continue to attract and retain the services of well-qualified employees (including officers) and directors who will contribute to the Company's success by their ability, ingenuity and industry knowledge, and to provide incentives to such personnel and Board members that are linked directly to increases in shareholder value, and will therefore inure to the benefit of all shareholders of the Company.

When our shareholders approved the addition of stock bonus awards—either an outright stock bonus or a type of contingent stock award sometimes referred to as restricted stock units—as a form of award under the 2001 Plan in 2004, we included two limitations on the award of stock bonuses. One limitation is that we may not issue more than an aggregate of 10 million shares under stock bonuses. The second limitation, which we are proposing to eliminate, provides that there may not be outstanding at any time, stock bonuses for more than 2 million shares. We are proposing that the 2 million share limitation be eliminated so that we may continue to award stock bonuses to attract and retain employees and directors, subject only to the aggregate 10 million share limitation on stock bonuses. As of July 19, 2006, there were outstanding stock bonus awards under the 2001 Plan covering 1,971,188 shares. Accordingly, unless our shareholders approve the elimination of the 2 million share limitation, we will be significantly limited in our ability to make stock bonus awards.

The second amendment proposes that the automatic annual grants of options for 12,500 shares received by our non-employee director will no longer be pro-rated based on the prior service of the non-employee director. We are proposing this modification to the automatic option grants, which vest over a period of 4 years from the date of the grant, in order to better reflect the intention of the grants as awards for future (and not prior) service to the Company.

As of July 19, 2006, there were 16,463,399 ordinary shares available for issuance pursuant to additional options and stock bonus awards under the 2001 Plan. If Proposal No. 10 is passed, 21,463,399 ordinary shares will be available for issuance pursuant to additional options and stock bonus awards under the 2001 Plan. We have used and intend to continue using stock option and stock bonus awards as incentives to attract, retain and motivate our directors and employees. With the growing worldwide demand for talent, the appropriate use of equity awards remains an essential component of our overall compensation philosophy. Consequently, we

Table of Contents

believe the approval of the increase in the 2001 Plan share reserve is important to our continued growth and success.

2001 Plan History

The Board of Directors adopted the 2001 Plan in August 2001 and our shareholders approved our Board's adoption of the 2001 Plan in September 2001 with an initial reserve of 7,000,000 ordinary shares. On June 29, 2004, our Board adopted amendments to the 2001 Plan that were approved by our shareholders in September of 2004. Those amendments increased the share reserve by 20,000,000 ordinary shares to 27,000,000 ordinary shares and added stock bonus awards as a type of award under the 2001 Plan. In addition, the 2001 Plan consolidates ordinary shares that were available for issuance under prior company plans and certain assumed plans, and any ordinary shares that were issuable upon exercise of options or other awards granted under those plans that expire or become unexercisable for any reason without having been exercised in full become available for grant under the 2001 Plan.

Ordinary Shares Subject to the 2001 Plan

As of July 19, 2006, there were 40,952,931 ordinary shares subject to outstanding options and other awards granted under our 2001 Plan, which includes shares subject to outstanding options and other awards that were previously granted under our 1993 Share Option Plan, the 1999 Interim Option Plan, the 1998 Interim Option Plan, the 1997 Interim Option Plan, and all assumed plans. If Proposal No. 10 is passed, 21,463,399 ordinary shares will be available for issuance pursuant to additional options and stock bonus awards under the 2001 Plan. In addition, shares that are subject to issuance under outstanding awards that cease to be subject to such awards for any reason other than exercise or vesting of such awards, as well as shares that cease to be subject to awards under prior and assumed plans that were consolidated into the 2001 Plan, will be available for grant under the 2001 Plan.

In the event any change is made to our outstanding ordinary shares by reason of any recapitalization, bonus issue, stock split, combination of shares, exchange of shares, spinoff or other changes affecting the outstanding shares as a class, appropriate adjustments will be made to the maximum number and/or class of securities issuable under the 2001 Plan, the maximum number and/or class of securities for which any participant may be granted awards under the terms of the 2001 Plan or that may be granted generally under the terms of the 2001 Plan, the number and/or class of securities and price per share in effect under each outstanding award, and the number and/or class of securities for which automatic option grants are to be subsequently made to newly-elected or continuing non-employee directors.

Administration

The 2001 Plan contains two separate equity incentive programs: a discretionary stock option/stock bonus program, and an automatic stock option grant program. The discretionary program is administered by the Compensation Committee with respect to executive officers and directors and by our Chief Executive Officer, Mr. Michael McNamara, with respect to all other employees. The Compensation Committee and Mr. McNamara are referred to in this section as the Plan Administrator. The Plan Administrator has complete discretion, subject to the provisions of the 2001 Plan, to authorize option grants and awards of stock bonuses under the 2001 Plan (provided, however, that any grants to our executive officers or directors must be approved by the Compensation Committee). All grants under the automatic option grant program must be made in strict compliance with the provisions of that program, and no administrative discretion may be exercised by the Plan Administrator with respect to the automatic grants.

Eligibility

Our executive officers, members of our Board of Directors, and all of our employees and those of our subsidiaries are eligible to participate in the discretionary program. Non-employee directors are also eligible to participate in the automatic option grant program. Non-employee directors may not participate in the

Table of Contents

automatic option grant program if such participation is prohibited or restricted, either absolutely or subject to various securities requirements, whether legal or administrative, then being complied with in the jurisdiction in which such director is a resident. Non-employee directors may not receive awards in excess of an aggregate of 100,000 ordinary shares per calendar year. In no event may any one participant in the 2001 Plan receive awards for more than 4,000,000 ordinary shares in the aggregate per calendar year under the 2001 Plan.

As of March 31, 2006, five executive officers, six non-employee directors and approximately 5,000 employees were eligible to participate in the 2001 Plan, and six non-employee directors were eligible to participate in the automatic option grant program. (Pursuant to his agreement with us, Michael E. Marks is not eligible to receive equity compensation for his board service until after the 2006 Annual General Meeting.)

Transferability

In general, awards granted under the 2001 Plan may not be transferred in any manner other than by will or by the laws of descent and distribution. Awards may be transferred to family members through a gift or domestic relations order. Subject to applicable laws, certain optionees who reside outside of the United States and Singapore may assign their award to a financial institution located outside of the United States and Singapore.

Equity Incentive Programs

Discretionary Stock Option/ Stock Bonus Program

Options may be granted under the discretionary program at an exercise price per share not less than 100% of the fair market value per ordinary share on the option grant date. Each option granted under this program generally is exercisable as determined by the Plan Administrator. Options will not be exercisable more than 10 years after the date of grant, and options granted to non-employees will not be exercisable more than five years after the date of grant.

Options granted under the 2001 Plan generally may be exercised as to vested shares for a period of time after the termination of the option holder's service to us or a subsidiary. Generally, the Plan Administrator has complete discretion to extend the period following the optionee's cessation of service during which his or her outstanding options may be exercised and/or to accelerate the exercisability or vesting of such options in whole or in part. Such discretion may be exercised at any time while the options remain outstanding, whether before or after the optionee's actual cessation of service.

Singapore law prevents us from granting restricted stock. As a result, we expanded our compensation program in 2004 by adding stock bonus awards—either an outright stock bonus or a type of contingent stock award sometimes referred to as restricted stock units—as a type of award under the 2001 Plan. Stock bonuses may be granted outright or contingent upon satisfaction of conditions determined by the Plan Administrator and communicated to the potential recipient in advance. As the conditions to issuance of shares must be met in advance, the shares when issued are not subject to vesting and no additional payment is required (satisfaction of the condition(s) being viewed as a form of payment). The condition(s) to issuances of shares under a stock bonus could be a single requirement, such as remaining in our service for a period of time, or many requirements, such as meeting individual or company-wide performance goals.

Automatic Option Grant Program

Under the automatic option grant program, each individual who initially becomes a non-employee director will automatically be granted at that time options to purchase 25,000 ordinary shares. In addition, on the date of each Annual General Meeting, continuing non-employee directors automatically will be granted options to purchase 12,500 ordinary shares.

Each option granted under this program must have an exercise price per share equal to 100% of the fair market value per ordinary share on the grant date and a maximum term of five years. Each option becomes

Table of Contents

exercisable as to 25% of the total shares one year after the date of grant and as to ¹/₄₈ of the total shares each month thereafter.

Each automatic option grant will automatically accelerate upon an acquisition of us by merger or asset sale or a hostile change in control of us. In addition, upon the successful completion of a hostile take-over, each automatic option grant which has been outstanding for at least six months may be surrendered to us for a cash distribution per surrendered option share in an amount equal to the excess of (a) the take-over price per share over (b) the exercise price payable for such share.

Valuation

The fair market value per ordinary share on any relevant date under the 2001 Plan is the closing sales price per share on that date on the Nasdaq Global Market. As of July 28, 2006, the closing price of our ordinary shares on the Nasdaq Global Market was \$11.25 per share.

Acceleration

Except for grants made under the automatic option grant program described above, in the event of a dissolution or liquidation or if we are acquired by merger or asset sale, each outstanding award under the discretionary program shall automatically accelerate so that each such award shall, immediately prior to the effective date of such transaction, become fully vested with respect to the total number of shares then subject to such award. However, subject to the specific terms of a given award, vesting shall not so accelerate if, and to the extent, such award is either to be assumed or replaced with a comparable right covering shares of the capital stock of the successor corporation or parent thereof, or is replaced with a cash incentive program of the successor corporation which preserves the inherent value existing at the time of such transaction or the acceleration of vesting of such award is subject to other limitations imposed by the Plan Administrator at the time of its grant.

The acceleration of vesting in the event of a change in the ownership or control of us may be seen as an anti-takeover provision and may have the effect of discouraging a merger proposal, a takeover attempt or other efforts to gain control of us.

Payment for Shares

The consideration for shares to be issued under the 2001 Plan may be paid in cash, by executing a same-day sale, by cancellation of indebtedness, by conversion of a convertible note issued by us or through waiver of compensation due.

Amendment and Termination

The Board of Directors may at any time amend or modify the 2001 Plan in any or all respects, except that any such amendment or modification may not adversely affect the rights of any holder of an award previously granted under the 2001 Plan unless such holder consents. The Board may terminate the 2001 Plan at any time. In addition, the automatic option grant program may not be amended more frequently than once every six months, other than to the extent necessary to comply with applicable U.S. income tax laws and regulations. In addition, the Board may not, without the approval of our shareholders:

amend the 2001 Plan to materially increase the maximum number of ordinary shares issuable under the 2001 Plan, the number of ordinary shares for which options may be granted to newly-elected or continuing non-employee directors, or the maximum number of ordinary shares for which any one individual participating in the 2001 Plan may be granted awards;

materially modify the eligibility requirements for participation in the 2001 Plan; or

materially increase the benefits accruing to participants in the 2001 Plan.

Table of Contents

Term of the 2001 Plan

Unless terminated earlier, the 2001 Plan will continue until August 2011, 10 years after the date the 2001 Plan was adopted by the Board of Directors.

U.S. Federal Income Tax Consequences of Option Grants and Stock Bonus Awards

The following is a general summary as of the date of this proxy statement of the United States federal income tax consequences to us and employees participating in the 2001 Plan. Federal tax laws may change and the federal, state and local tax consequences for any participating employee will depend upon his or her individual circumstances. Each participating employee has been and is encouraged to seek the advice of a qualified tax adviser regarding the tax consequences of participation in the 2001 Plan. The following discussion does not purport to describe state or local income tax consequences in the United States, nor tax consequences for participants in other countries.

Options granted under the 2001 Plan may be either incentive stock options which satisfy the requirements of Section 422 of the Internal Revenue Code or non-statutory options which are not intended to meet such requirements. The United States federal income tax treatment for the two types of options differs as follows:

Incentive Stock Options. No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is generally recognized at the time the option is exercised unless the optionee is subject to the alternative minimum tax. The optionee will, however, recognize taxable income in the year in which the purchased shares are sold or otherwise disposed of. For United States federal tax purposes, dispositions are divided into either qualifying or disqualifying. A qualifying disposition occurs if the sale or other disposition is made after the optionee has held the shares for more than two years after the option grant date and more than one year after the exercise date. Upon a qualifying disposition, any gain or loss, measured by the difference between the option exercise price and amount realized on the sale of shares, will be treated as capital gain or loss. If either of these two holding periods is not satisfied, then a disqualifying disposition results. Upon a disqualifying disposition, any gain up to the difference between the option exercise price and the fair market value of the shares on the date of exercise, or, if less, the amount realized on the sale of shares, will be treated as ordinary income. Any additional gain will be capital gain.

If the optionee makes a disqualifying disposition of the purchased shares, then we may be entitled to a deduction from our income taxed by the United States for the taxable year in which such disposition occurs, equal to the excess of the fair market value of such shares on the option exercise date over the exercise price paid for the shares. In no other instance will we be allowed a deduction with respect to the optionee's disposition of the purchased shares.

Non-Statutory Options. No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will, in general, recognize ordinary income, in the year in which the option is exercised, equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and we will be entitled to a deduction with respect to, and be required to satisfy the tax withholding requirements applicable to, such income.

Stock Bonuses. Upon issuance of shares pursuant to a stock bonus, the employee will have ordinary income in the amount of the fair market value of the issued stock on the date of issuance. Any further gain or loss upon disposition of the stock will be short- or long-term capital gain or loss, depending on the employee's holding period as measured from the date of issuance. We will generally have a withholding obligation, and be entitled to a deduction, in the amount the employee recognizes as ordinary income.

Section 162(m). Any United States income tax deductions that would otherwise be available to us are subject to a number of restrictions under the Internal Revenue Code, including Section 162(m), which can limit the deduction for compensation paid to our Chief Executive Officer and our other four most highly compensated executive

officers.

New Plan Benefits Under 2001 Plan

Under the automatic option grant program for non-employee directors described above, on the date of each Annual General Meeting, continuing non-employee directors automatically will be granted options to purchase 12,500 ordinary shares. The number of shares to be issued under the 2001 Plan to the individuals and groups listed below and the net values to be realized upon such issuances are discretionary, and therefore, not determinable:

our Chief Executive Officer;

each of our four other most highly compensated executive officers;

all current executive officers as a group; and

all employees, including all current officers who are not executive officers, as a group.

The Board recommends a vote FOR

Option Grants During Fiscal Year 2006

The following table presents information regarding option grants during fiscal year 2006 to each Named Executive Officer. Option grants to our Named Executive Officers during fiscal year 2006 were awarded pursuant to our existing equity compensation plans.

As permitted by SEC rules, we have elected to calculate the Grant Date Present Value of the options set forth in this table using the Black-Scholes option-pricing model. Our use of this model should not be construed as an endorsement of its accuracy at valuing options. All stock option models require a prediction about the future movement of stock price. The following assumptions are made for purposes of calculating the Grant Date Present Values: expected time to exercise of 4.0 years, volatility of 39.0%, a risk-free interest rate of 3.75% and an annual dividend of \$0.00. The actual value of the options in this table will depend on the actual market value of our stock during the applicable term and on the date the options are exercised. The dollar amounts in the Grant Date Present Value column are not intended to forecast potential future appreciation, if any, of our shares.

(1) The vesting of these options was accelerated to February 7, 2006.

The options shown in the table above were granted with an exercise price equal to the fair market value of our ordinary shares on the date of grant and are non-statutory stock options. Options granted to our executive officers expire 10 years from the date of grant.

Table of Contents

Our Compensation Committee has the discretion to provide for alternative vesting schedules to maximize the retention value of our equity compensation. See *Change in Control Arrangements* below for a description of the acceleration provisions of these options. The exercise price of each option may be paid in cash or through a cashless exercise procedure involving a same-day sale of the purchased shares. We granted options to purchase an aggregate of 11,549,454 ordinary shares to our employees during fiscal year 2006.

Peter Tan			746,375	121,875	242,460	37,415

The amounts set forth in the column entitled *Value Realized* represent the fair market value of the ordinary shares underlying the option on the date of exercise less the aggregate exercise price of the option.

In addition, the table includes the number of shares covered by both exercisable and unexercisable stock options as of March 31, 2006. Also reported are values of *in-the-money* options that represent the positive spread between the respective exercise prices of outstanding stock options and \$10.35 per share, which was the closing price per ordinary share as reported on the NASDAQ National Market on March 31, 2006, the last day of trading for fiscal year 2006. These values, unlike the amounts set forth in the column entitled *Value Realized*, have not been realized.

Effective February 7, 2006, we accelerated the vesting for all stock options outstanding as of that date with exercise prices at or above \$12.37 per share.

Certain provisions relating to options to purchase our ordinary shares held by Mr. Marks, including immediate vesting of all options with an exercise price of \$11.53 per share; cancellation of an option to purchase 1,000,000 shares and extension of the post-termination exercise period for all outstanding options with an exercise price greater than \$10.56 per share.

Supplemental Executive Retirement Plan for Michael E. Marks

On May 18, 2004, we established a supplemental executive retirement plan for Mr. Marks under which potential cash payments are made based on the increase in value, if any, under a Contingent Share Award for 1,000,000 notional ordinary shares of Flextronics based on a price of \$17.40 per share (a 10% premium above the \$15.82 closing price of our ordinary shares on the NASDAQ Global Market on May 18, 2004). On August 17, 2004, we entered into an amendment to the supplemental retirement plan with Mr. Marks in which we granted him an additional Supplemental Deferred Contingent Stock Award for 500,000 notional shares with an exercise price equal to \$11.00 per share (\$0.06 above the closing price of our ordinary shares on the NASDAQ Global Market on August 17, 2004). Under Mr. Marks's agreement, described above, the balance of the Total Award Amount of \$7,500,000 was accelerated as of November 30, 2005 and a cash payment of \$5,945,714 was made to a rabbi trust for the benefit of Mr. Marks. All amounts under this plan are fully vested and non-forfeitable.

Deferred Compensation Arrangements

Senior Executive Plan. Messrs. McNamara, Smach and Brathwaite participate in the Flextronics International USA, Inc. 2006 Senior Executive Deferred Compensation Plan (the Senior Executive Plan). Under the Senior Executive Plan, a participant may defer all or a part of his or her compensation in accordance with the applicable deferral agreement executed by the participant. The deferred compensation is credited to a deferral account established for each participant under the Senior Executive Plan for recordkeeping purposes. Under the Senior Executive Plan, which is an unfunded plan, Flextronics USA established an irrevocable trust into which Flextronics USA is required to deposit cash or other assets as specified in the applicable deferral agreement, equal to the aggregate amount required to be credited to the participant's deferral account, less any applicable taxes required to be withheld. Under the Senior Executive Plan, at the Compensation Committee's discretion, awards for deferred long-term incentive bonuses may be awarded in return for services to be performed in the future. During fiscal 2006, the Compensation Committee approved deferred bonuses for Mr. McNamara of \$5,000,000, Mr. Smach of \$3,000,000 and Mr. Brathwaite of \$3,000,000. The deferred bonuses for Mr. McNamara and Mr. Smach vest as follows: (i) 10% vested on April 1, 2006; (ii) an additional 15% will vest on April 1, 2007; (iii) an additional 20% will vest on April 1, 2008; (iv) an additional 25% will vest on April 1, 2009; and (v) an additional 30% will vest on April 1, 2010. The deferred bonus for Mr. Brathwaite vests 20% per year beginning on April 1, 2006. The deferred bonuses for Messrs. McNamara, Smach and Brathwaite will be 100% vested upon a change of control (as defined in the Senior Executive Plan) if they are employed at that time or if their employment is terminated as a result of death or disability.

Peter Tan Arrangement. In fiscal 2006, the Compensation Committee approved a deferred bonus for Peter Tan of \$3,200,000 in return for services to be performed in the future. The deferred bonus for Mr. Tan was credited to a brokerage account. The deferred bonus for Mr. Tan vests as follows: (i) 0% will be paid if Mr. Tan's employment is terminated for any reason (other than death or disability) before April 1, 2008; (ii) 50% will be paid if Mr. Tan's employment is terminated (other than as a result of death or disability) on or after April 1, 2008; and (iii) 100% will be paid if Mr. Tan's employment is terminated on or after April 1, 2009. 100% of the deferred bonus will be paid to Mr. Tan if his employment is terminated as a result of death or disability.

Table of Contents

Werner Widmann Arrangement. In fiscal 2006, Mr. Widmann was awarded a deferred bonus in return for services to be performed in the future. The bonus equals 30% of Mr. Widmann's base salary in effect on July 1st of each year. Before July 1 of each year, the Compensation Committee determines Mr. Widmann's eligibility for the bonus, and the Compensation Committee may also make additional discretionary contributions to Mr. Widmann's deferred compensation account. Any contributions are credited to a brokerage account. The deferred bonus for Mr. Widmann vests according to a formula based on age and years of service with the company, which results in vesting in three equal annual installments beginning on July 1, 2009, provided Mr. Widmann continues to be employed by the company. 100% of the deferred bonus will be paid to Mr. Widmann if his employment is terminated as a result of his death. In the event of a change of control of the company, the percentage of the deferred bonus to be paid for Mr. Widmann is calculated based on a formula relating to his months of service with the company during the six-year period from July 1, 2005 through July 1, 2011. In fiscal 2006, Mr. Widmann received a deferred bonus of \$93,750 plus a discretionary contribution of \$400,000.

Change in Control Arrangements Under Option Agreements

1993 Stock Option Plan. Our option agreements with our executive officers for options issued pursuant to our 1993 Stock Option Plan provide that if the executive officer is terminated without cause or leaves for good reason within the first 12 months following a change in control of the company, the vesting of any unvested portion of the option will be accelerated in full. If the executive officer is still employed upon the first year anniversary of such a change of control of the company, the vesting of any unvested portion of the option will be accelerated in full. Each option includes a limited stock appreciation right pursuant to which the option will automatically be cancelled upon the occurrence of certain hostile tender offers, in return for a cash distribution from us based on the tender offer price per share.

Other Stock Option Plans. Our option agreements with our executive officers for options issued under stock option plans other than the 1993 Stock Option Plan provide that in the event of a dissolution or liquidation of the Company or if we are acquired by merger or asset sale, each outstanding option under the discretionary program shall automatically accelerate so that each such option or stock bonus award shall, immediately prior to the effective date of such transaction, become fully vested with respect to the total number of shares then subject to such option or award and, in the case of options, may be exercised for all or any portion of such shares. However, subject to the specific terms of a given award, vesting shall not so accelerate if, and to the extent, such award is either to be assumed or replaced with a comparable right covering shares of the capital stock of the successor corporation or parent thereof, or is replaced with a cash incentive program of the successor corporation which preserves the inherent value existing at the time of such transaction or the acceleration of vesting of such award is subject to other limitations imposed by the Plan Administrator at the time of its grant.

April 2006 Option Grants to Messrs. McNamara, Smach and Brathwaite. Our option agreements with Messrs. McNamara, Smach and Brathwaite for 700,000, 400,000 and 650,000 options, respectively, issued on April 17, 2006 under the terms of the 2001 Equity Incentive Plan, vest immediately in the event that, in the 18-month period following a Corporate Transaction (as defined in the 2001 Plan) the optionee's service (as defined in the 2001 Plan) is terminated or his duties are substantially reduced or changed.

OTHER EQUITY COMPENSATION PLANS

As of March 31, 2006, we maintained the 2004 Award Plan for New Employees, the 2002 Interim Incentive Plan and the 2001 Equity Incentive Plan. The 2001 Equity Incentive Plan was approved by our shareholders. Neither the 2004 Award Plan for New Employees nor the 2002 Interim Incentive Plan has been approved by our shareholders.

Table of Contents

The following table gives information about equity awards under these plans as of March 31, 2006.

Plan Category	(A)	(B)	(C)
	Number of Ordinary Shares to be Issued Upon Exercise of Outstanding Options	Weighted-Average Exercise Price of Outstanding Options	Number of Ordinary Shares Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Ordinary Shares Reflected in Column (A))

Equity compensation plans not approved by shareholders(2)(3)(4)	17,883,064	\$ 11.72	4,455,700(5)
Total	49,696,225	\$ 12.69	25,210,977

- (1) Consists of 20,755,277 ordinary shares available for grant under the 2001 Equity Incentive Plan. There are no additional ordinary shares available for grant under the 1993 Equity Incentive Plan.
- (2) The 2004 Award Plan for New Employees, which we refer to as the 2004 Plan, was established in October 2004. The purpose of the 2004 Plan is to provide incentives to attract, retain and motivate eligible persons whose potential contributions are important to our success by offering such persons an opportunity to participate in our future performance through stock awards. Grants under the 2004 Plan may be granted only to persons who: (a) were not previously an employee or director of Flextronics or a subsidiary of Flextronics or (b) have either (i) completed a period of bona fide non-employment by Flextronics, and any subsidiary of Flextronics, of at least 1 year, or (ii) are returning to service as an employee of Flextronics, or any subsidiary of Flextronics, after a period of bona fide non-employment of less than 1 year due to Flextronics' acquisition of such person's employer; and then only as an incentive to such persons entering into employment with Flextronics or any subsidiary of Flextronics. We may only grant nonqualified stock options or stock bonuses under the 2004 Plan. The 2004 Plan is administered by the Compensation Committee, which is comprised of two independent directors. The 2004 Plan provides for grants of up to 7,500,000 shares. The exercise price of options granted under the 2004 Plan is determined by the Compensation Committee and may not be less than the fair market value of the underlying stock on the date of grant. Options granted under the 2004 Plan generally vest over four years and generally expire 10 years from the date of grant.
- (3) Our 2002 Interim Incentive Plan, which we refer to as the 2002 Plan, was adopted by our Board in May 2002. The adoption of the 2002 Plan was necessitated by our internal growth, our multiple acquisitions and the requirement to provide equity compensation for employees consistent with competitors and peer companies. The Board reserved an aggregate of 20,000,000 ordinary shares for issuance under the 2002 Plan. The 2002 Plan

provides for the grant to qualified persons of non-statutory stock options to purchase our ordinary shares and stock bonus awards. Shares subject to options granted pursuant to the 2002 Plan that expire or terminate for any reason without being exercised or stock bonus awards that do not vest will again become available for grant and issuance pursuant to awards under the 2002 Plan. Options granted under the 2002 Plan have an exercise price of not less than 85% of the fair market value of the underlying ordinary shares on the date of grant. Options issued under the 2002 Plan generally vest over a four-year period and expire 10 years from the date of grant. The other general terms of the 2002 Plan are similar to the 2001 Equity Incentive Plan.

- (4) Companies acquired by us have adopted option plans, which we refer to as the Assumed Plans. Options to purchase a total of 5,346,331 ordinary shares under the Assumed Plans remained outstanding. These options have a weighted-average exercise price of \$6.01 per share. These options have been converted into options to purchase our ordinary shares on the terms specified in the applicable acquisition agreement, but are otherwise administered in accordance with terms of the Assumed Plans. Options under the Assumed Plans generally vest over four years and expire 10 years from the date of grant. No further awards may be made under the Assumed Plans. Options outstanding under the Assumed Plans are not included in the above table.

Table of Contents

- (5) Of these, 1,875,714 ordinary shares remained available for grant under the 2002 Plan and 2,579,986 ordinary shares remained available for grant under the 2004 Plan. On May 12, 2005, our Board of Directors approved an increase of 2.5 million ordinary shares available for grant under the 2004 Plan.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors of Flextronics is responsible for reviewing and approving the goals and objectives relating to, and determining the compensation of, the Chief Executive Officer and all other executive officers. The Committee also oversees management's decisions concerning the performance and compensation of other company officers, administers the company's equity compensation plans, and regularly evaluates the effectiveness of our overall executive compensation program.

A more complete description of the Committee's functions is set forth in the Committee charter, a copy of which is published on our website at <http://www.flextronics.com/Investors/corporateGovernance.asp>.

Committee Composition and Meetings.

Each member of the Compensation Committee is a non-employee director within the meaning of Rule 16b-3 under the Exchange Act and an outside director within the meaning of Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended. In addition, each of us is an independent director as defined by the rules of the NASDAQ Stock Market. The Compensation Committee held nine meetings during fiscal year 2006; each member attended 100% of the meetings.

General Compensation Philosophy.

We believe that the quality, skills and dedication of our executive officers are critical factors affecting our company's performance and shareholder value. Our key compensation goals are to attract superior executive talent; retain and motivate our executives; reward past performance; provide incentives for future performance; and align our executives' interests with those of our shareholders. We use a variety of compensation elements to achieve these goals, including base salary, annual bonuses, stock options and share bonus awards, all of which we discuss in detail below.

In determining the amount and mix of compensation for our executive officers, we consider Flextronics's performance, the nature and scope of the executive's responsibilities, effective leadership, the value of incentive awards to similarly situated officers at comparable companies and the executive's current and past compensation. We also consult with an executive compensation expert and consider the compensation levels and performances of the companies in our industry and peer group, as these companies are most likely to compete with us for the services of our executives.

Flextronics does not, in general, enter into employment agreements with our executive officers. They serve at the will of the Board. This enables Flextronics to remove an executive officer, if necessary, prior to retirement or resignation whenever it is in the best interests of the company, with full discretion on any severance package (excluding vested benefits). Similarly, Flextronics does not generally enter into severance agreements with executive officers when they are hired or promoted. When an executive officer retires or resigns, the Committee exercises its business judgment in approving an appropriate separation or severance arrangement in light of all relevant circumstances, including the individual's term of employment, past accomplishments and reasons for separation from the company.

In connection with the resignation of Michael Marks as our Chief Executive Officer effective January 1, 2006, the Committee approved an agreement providing for, among other things, cash payments to Mr. Marks in the aggregate of \$7.5 million and cancellation, accelerated vesting and continued exercisability of certain stock options held by Mr. Marks. These compensation arrangements were awarded to Mr. Marks in recognition of his many years of outstanding service and his extraordinary dedication to Flextronics, which began with his appointment to our Board of Directors in 1991 and continued with his 12-year tenure as our Chief Executive Officer.

Option Vesting Acceleration.

We became subject to the Financial Accounting Standards Board Rule 123R as of April 1, 2006, which requires measurement of all employee equity compensation awards using a fair-value method and the

Table of Contents

recording of such expense in the Company's consolidated financial statements (known as option expensing). To reduce the impact of option expensing on the Company's financial statements, on February 7, 2006, the Compensation Committee approved the acceleration of vesting of stock options with exercise prices at or above \$12.37 per share previously awarded to our employees, including our executive officers, under our equity compensation plans. Options held by our non-employee directors were not included in the acceleration. The acceleration was effective as of February 7, 2006, provided that holders of incentive stock option (ISOs) within the meaning of Section 422 of the internal Revenue code of 1986, as amended, had the opportunity to decline the acceleration of ISO options in order to prevent changing the status of their ISO option for federal income tax purposes to a non-qualified stock option.

Compensation Elements for Executive Officers.

Base Salary. Base salaries for our executive officers are established based on the scope of their responsibilities, taking into account competitive market compensation paid by other companies for similar positions, as well as salaries paid to the executives' peers within the company. We typically review base salaries every fiscal year and adjust the base salaries from time to time to take into account outstanding individual performance, promotions and competitive compensation levels. The salaries we have paid to our CEO (including Michael Marks, who resigned as CEO effective January 1, 2006) and our next four most highly paid executive officers (the named executive officers) are shown in the Summary Compensation Table.

Cash Bonuses. We award bonuses to our executives to provide an incentive for, and to reward, superior performance. Bonus payments are based on Flextronics' financial performance (for Messrs. McNamara and Smach) and, for Messrs. Brathwaite, Tan and Widmann, also on the performance of the executive officer's business unit. Bonuses are paid quarterly based upon year over year quarterly performance for Flextronics and, as applicable, quarterly financial performance of the executive's business unit. We set target bonus amounts based upon a percentage of the executive's base salary, and review bonus targets and performance metrics at least annually. For fiscal year 2006, the target bonus amounts were 150% for Mr. Marks, 75% for Mr. McNamara, 75% for Mr. Smach, 75% for Mr. Brathwaite, 50% for Mr. Tan and 50% for Mr. Widmann. Actual bonuses awarded range from 0% to 200% of the target bonus based upon Flextronics' corporate and business unit performance, as applicable. The annual bonuses we awarded to our named executive officers are shown in the Summary Compensation Table. Based on Flextronics' year over year quarterly performance in fiscal 2006 (and in the cases of Messrs. Brathwaite, Tan and Widmann, also the quarterly financial results of their respective business units), Mr. McNamara received an annual bonus equal to 94% of his target bonus, Mr. Marks received an annual bonus equal to 100% of his target bonus (not including payments made in connection with his resignation as CEO effective January 1, 2006, which are further described in

Employment Contracts and Termination of Employment and Change-in-Control Arrangements) and the other named executive officers received annual bonuses ranging between 92% and 166% of their target bonuses.

Stock Options and Share Bonus Awards. The Compensation Committee grants stock options and share bonus awards (the equivalent of restricted stock units), which are designed to align the interests of Flextronics' executive officers with those of the shareholders and provide each individual with a significant incentive to manage Flextronics from the perspective of an owner, with an equity stake in the business. Generally, unvested stock options and share bonus awards are forfeited if the executive voluntarily leaves Flextronics, although we have the discretion to extend the life of an option regardless of the employment status of the executive officer. Each stock option allows the executive officer to acquire Flextronics' ordinary shares at a fixed price per share (the market price on the grant date) over a period of up to 10 years, thus providing a return to the officer only if the market price of the shares appreciates over the option term. Share bonus awards will convert into shares of Flextronics stock only if the individual continues to be employed by Flextronics when the performance criteria or restrictions, as applicable, lapse. Before the share bonus award vests, the executive has no ownership rights in our ordinary shares. The size of the option grant or share bonus award to each executive officer generally is set at a level that is intended to create a meaningful opportunity for share ownership based upon the individual's current position with Flextronics, but also taken into account are the individual's potential for future responsibility and promotion over the option term, the individual's personal performance in recent periods and the number of options held by the individual at the time of grant. The number of stock options granted to our named executive officers during fiscal 2006 are shown in the Summary

Table of Contents

Compensation Table and in the *Option Grants In Last Fiscal Year* table. No share bonus awards were granted to the named executive officers in fiscal 2006.

Deferred Compensation. Each of our named executive officers is eligible to participate in a deferred compensation plan or arrangement, pursuant to which bonuses awarded at the discretion of the Committee are not paid currently but rather are credited to a deferral account established for each participant. The amounts in the deferral account then vest over time, providing a long-term retention incentive. All or a portion of the amounts in the deferral account may vest immediately on a change of control of Flextronics, depending on the participant's individual arrangement. For more detail on our deferred compensation arrangements with our named executive officers, see *Employment Contracts and Termination of Employment and Change-in-Control Arrangements*.

Deduction Limit for Executive Compensation. Section 162(m) of the Internal Revenue Code limits federal income tax deductions for compensation paid to the Chief Executive Officer and the four other most highly compensated officers of a public company to \$1.0 million per year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for performance-based compensation that satisfies certain conditions. Compensation paid by Flextronics to our named executive officers is not subject to any material limitation on deductibility.

Chief Executive Officer Compensation.

Mr. McNamara was appointed Flextronics's Chief Executive Officer effective January 1, 2006. Mr. McNamara's base salary is based on our expectation of his personal performance and comparisons to the base salaries of other Flextronics's executive officers and in the industry. With respect to Mr. McNamara's base salary, the Compensation Committee intended to provide him with a level of stability and certainty each year and not have this particular component of compensation affected to any significant degree by short-term company performance factors. Effective January 1, 2006, we increased Mr. McNamara's annual base salary from \$750,000 to \$1,000,000. For fiscal year 2006, Mr. McNamara received an annual bonus of \$600,000, which bonus was determined as described above under *Cash Bonuses*. We consider this level of annual pay and bonus appropriate given Mr. McNamara's many years of experience with Flextronics and his dedication and vision for the future of the company.

Mr. McNamara also received options to purchase 3,000,000 shares during fiscal 2006, which award was determined in accordance with the criteria described above under *Stock Options and Share Bonus Awards* and was given in part in recognition of his appointment as Chief Executive Officer effective January 1, 2006. In addition, as described above under *Deferred Compensation*, during fiscal 2006 Flextronics established a deferred compensation plan in which Mr. McNamara, among others, participates. In fiscal 2006, Flextronics contributed \$5,000,000 to Mr. McNamara's deferred compensation account. The deferred bonus for Mr. McNamara vests as follows: 10% vested on April 1, 2006; an additional 15% will vest on April 1, 2007; an additional 20% will vest on April 1, 2008; an additional 25% will vest on April 1, 2009; and an additional 30% will vest on April 1, 2010.

Mr. Marks was our Chief Executive officer until January 1, 2006. Other than payments made pursuant to his agreement, described above under *General Compensation Philosophy* and under *Employment Contracts and Termination of Employment and Change-in-Control Arrangements*, Mr. Marks's base salary was \$985,000, of which only \$738,750 was paid to Mr. Marks because he resigned prior to the end of the fiscal year. This base salary was unchanged from fiscal year 2005. For fiscal year 2006, Mr. Marks received a bonus of \$1,477,500, which bonus was determined as described above under *Cash Bonuses*. Mr. Marks did not receive any stock options or share bonus awards during fiscal 2006.

AUDIT COMMITTEE REPORT

The Audit Committee assists the Board of Directors in overseeing Flextronics' s financial accounting and reporting processes and systems of internal controls. The Audit Committee also evaluates the performance and independence of Flextronics' s independent auditors. The Audit Committee operates under a written charter, a copy of which is included as Annex A to this proxy statement. Under the written charter, the Audit Committee must consist of at least three directors, all of whom must be independent as defined by the Exchange Act and the rules of the SEC and the NASDAQ Stock Market. The current members of the committee are Mr. Shah, Mr. Tan and Mr. Davidson. Each is an independent director as defined by the applicable rules of the NASDAQ Stock Market.

Flextronics' s financial and senior management supervise its systems of internal controls and the financial reporting process. Flextronics' s independent auditors perform an independent audit of Flextronics' s consolidated financial statements in accordance with generally accepted auditing standards and express opinions on these consolidated financial statements and management' s assessment of the effectiveness of Flextronics' s internal control over financial reporting. In addition, Flextronics' s independent auditors express their own opinion on the effectiveness of Flextronics' s internal control over financial reporting. The Audit Committee monitors these processes.

The Audit Committee has reviewed and discussed with both the management of Flextronics and its independent auditors Flextronics' s audited consolidated financial statements for the fiscal year ended March 31, 2006, as well as management' s assessment and our independent auditors' evaluation of the effectiveness of Flextronics' s internal control over financial reporting. Flextronics' s management represented to the Audit Committee that its audited consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The Audit Committee also discussed with Flextronics' s independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as may be modified or supplemented. The Audit Committee has also received from Flextronics' s independent auditors the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed with Flextronics' s independent auditors the independence of that firm. The Audit Committee has also considered whether the provision of non-audit services by Flextronics' s independent auditors is compatible with maintaining the independence of the independent auditors. The Audit Committee' s policy is to pre-approve all audit and permissible non-audit services provided by the independent auditors. All audit and permissible non-audit services performed by the independent auditors during fiscal year 2006 and fiscal year 2005 were pre-approved by the Audit Committee in accordance with established procedures.

Based on the Audit Committee' s discussions with the management of Flextronics and Flextronics' s independent auditors and based on the Audit Committee' s review of Flextronics' s audited consolidated financial statements together with the reports of Flextronics' s independent auditors on the consolidated financial statements and the representations of Flextronics' s management with regard to these consolidated financial statements, the Audit Committee recommended to Flextronics' s Board of Directors that the audited consolidated financial statements be included in Flextronics' s Annual Report on Form 10-K for the fiscal year ended March 31, 2006, which was filed with the SEC on May 31, 2006.

Auditors Report to the Members of Flextronics International Ltd.

We have audited the accompanying Consolidated Financial Statements of Flextronics International Ltd. and its subsidiaries (the Company) and the Supplementary Financial Statements of Flextronics International Ltd. (the Parent) for the financial year ended March 31, 2006, (collectively the statutory financial statements). These statutory financial statements are the responsibility of the Parent s directors. Our responsibility is to express an opinion on these statutory financial statements based on our audit.

We conducted our audit in accordance with Singapore Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statutory financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

The Parent accounted for investments in subsidiaries using the equity method. Under this method, the Parent s investments in subsidiaries are reported as a separate line in the Parent s balance sheet. Accounting principles generally accepted in the United States of America require that these investments be consolidated rather than reported using the equity method.

Except for the foregoing, in our opinion:

a) the statutory financial statements are properly drawn up in accordance with the provisions of the Singapore Companies Act, Cap. 50 (Act) and accounting principles generally accepted in the United States of America (the use of which is approved by the Accounting and Corporate Regulatory Authority of Singapore) so as to give a true and fair view of the state of affairs of the Company and of the Parent as at March 31, 2006, and of the results, changes in equity and cash flows of the Company for the financial year then ended; and

b) the accounting and other records required by the Act to be kept by the Parent and by those subsidiaries incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The accompanying Consolidated Financial Statements of the Company as of March 31, 2006, and for the year then ended, have been audited by Deloitte & Touche LLP, San Jose and have been included in the Annual Report for the financial year ended March 31, 2006 filed with the United States Securities and Exchange Commission. Together with the Supplementary Financial Statements of the Parent, these Consolidated Financial Statements have been reproduced for the purposes of filing with the Accounting and Corporate Regulatory Authority in Singapore.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****1. ORGANIZATION OF THE COMPANY**

Flextronics International Ltd. (Flextronics or the Company) was incorporated in the Republic of Singapore in May 1990. The Company is a leading provider of advanced electronics manufacturing services (EMS) to original equipment manufacturers (OEMs) in industries including computing; mobile; consumer digital; industrial, semiconductor and white goods; automotive, marine and aerospace; infrastructure; and medical. The Company's strategy is to provide customers with a full range of vertically-integrated global supply chain services through which the Company designs, builds and ships a complete packaged product for its OEM customers. OEM customers leverage the Company's services to meet their product requirements throughout the entire product life cycle. The Company also provides after-market services such as logistics, repair and warranty services.

The Company's services include printed circuit board and flexible circuit fabrication, systems assembly and manufacturing (including enclosures, testing services, materials procurement and inventory management), logistics and after-market services (including product repair, re-manufacturing and maintenance). Additionally, the Company provides market-specific design and engineering services ranging from contract design services (CDM), where the customer purchases services on a time and materials basis, to original product design and manufacturing services, where the customer purchases a product that was designed, developed and manufactured by the Company (commonly referred to as original design manufacturing, or ODM). ODM products are then sold by the Company's OEM customers under the OEM's brand name. The Company's CDM and ODM services include user interface and industrial design, mechanical engineering and tooling design, electronic system design and printed circuit board design.

During the second quarter of fiscal year 2006, the Company sold its Semiconductor division to AMIS Holdings, Inc., the parent company of AMI Semiconductor, Inc. The Company also merged its Network Services division with Telavie AS, a company wholly-owned by Altor Equity Partners, and retained a 35% ownership stake in the merged company, Relacom Holding AB. On April 13, 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business to an affiliate of Kohlberg Kravis Roberts & Co. The Software Development and Solutions business and the Semiconductor division are being treated as discontinued operations in the consolidated financial statements, however, the divestiture of the Network Services division does not meet the criteria for discontinued operations treatment under accounting principals generally accepted in the United States of America (U.S. GAAP) or (GAAP), and as such, its historical results remain included in the Company's continuing operations financial results. Refer to Note 13, Business and Asset Acquisitions and Divestitures and Note 16,

Discontinued Operations for further discussion of these divestitures.

2. SUMMARY OF ACCOUNTING POLICIES***Basis of Presentation and Principles of Consolidation***

The Company's fiscal year ends on March 31 of each year. The first and second fiscal quarters end on the Friday closest to the last day of each respective calendar quarter. The third and fourth fiscal quarters end on December 31 and March 31, respectively.

Amounts included in the financial statements are expressed in U.S. dollars unless otherwise designated as Singapore dollars (S\$), Euros () or Indian Rupees (Rs).

The accompanying consolidated financial statements include the accounts of Flextronics and its majority-owned subsidiaries, after elimination of all significant intercompany accounts and transactions. The Company consolidates all majority-owned subsidiaries and investments in entities in which the Company has a controlling interest. For consolidated majority-owned subsidiaries in which the Company owns less than 100%, the Company recognizes a minority interest for the ownership interest of the minority owners. As of March 31, 2006, this minority interest totaled \$23.4 million, of which \$10.8 million is included in other liabilities and \$12.6 million is included in long-term liabilities of discontinued operations in the consolidated balance sheets.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As of March 31, 2005, minority interest totaled \$40.8 million, of which \$33.8 million is included in long-term liabilities of discontinued operations and \$7.0 million is included in other liabilities in the consolidated balance sheets. The associated minority interest expense has not been material to the Company's results of operations for fiscal years 2006, 2005 and 2004, and has been classified within income (loss) from discontinued operations or as interest and other expense, net, in the consolidated statements of operations. Non-majority-owned investments are accounted for using the equity method when the Company has an ownership percentage equal to or greater than 20%, or has the ability to significantly influence the operating decisions of the issuer, otherwise the cost method is used.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things, allowances for doubtful accounts, inventory allowances, useful lives of property, equipment and intangible assets, asset impairments, fair values of derivative instruments and the related hedged items, restructuring charges, contingencies, capital leases, and the fair values of options granted under the Company's stock-based compensation plans. Actual results may differ from previously estimated amounts, and such differences may be material to the consolidated financial statements. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period they occur.

Translation of Foreign Currencies

The financial position and results of operations for certain of the Company's subsidiaries are measured using a currency other than the U.S. dollar as their functional currency. Accordingly, all assets and liabilities for these subsidiaries are translated into U.S. dollars at the current exchange rates as of the respective balance sheet date. Revenue and expense items are translated at the average exchange rates prevailing during the period. Cumulative gains and losses from the translation of these subsidiaries' financial statements are reported as a separate component of shareholders' equity. Foreign exchange gains and losses arising from transactions denominated in a currency other than the functional currency of the entity involved, and remeasurement adjustments for foreign operations where the U.S. dollar is the functional currency, are included in operating results. The Company realized a net foreign exchange gain of \$20.6 million during fiscal year 2006, and a foreign exchange gain of \$29.3 million during 2005 from the liquidation of certain international entities. These gains were classified as a component of other income, net, in the consolidated statement of operations.

Revenue Recognition

The Company recognizes manufacturing revenue when it ships goods or the goods are received by its customer, title and risk of ownership have passed, the price to the buyer is fixed or determinable and recoverability is reasonably assured. Generally, there are no formal customer acceptance requirements or further obligations related to manufacturing services. If such requirements or obligations exist, then the Company recognizes the related revenues at the time when such requirements are completed and the obligations are fulfilled. The Company makes provisions for estimated sales returns and other adjustments at the time revenue is recognized based on its analysis of historical returns, current economic trends and changes in customer demand. These provisions were not material to the consolidated financial statements for the 2006, 2005 and 2004 fiscal years.

The Company provides a comprehensive suite of services for its customers that range from contract design to original product design to repair services. The Company recognizes service revenue when the services have been performed, and the related costs are expensed as incurred. Net sales for services from

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

continuing operations were less than 10% of the Company's total sales from continuing operations in the 2006, 2005 and 2004 fiscal years.

Allowance for Doubtful Accounts

The Company performs ongoing credit evaluations of its customers' financial condition and makes provisions for doubtful accounts based on the outcome of those credit evaluations. The Company evaluates the collectibility of its accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and the age of past due receivables. Unanticipated changes in the liquidity or financial position of the Company's customers may require additional provisions for doubtful accounts.

Cash and Cash Equivalents

All highly liquid investments with maturities of three months or less from original dates of purchase are carried at fair market value and considered to be cash equivalents. Cash and cash equivalents consist of cash deposited in checking and money market accounts and certificates of deposit.

Cash and cash equivalents related to continuing operations consisted of the following:

	March 31,	
	2006	2005
	(In thousands)	
Cash and bank balances	\$ 870,140	\$ 832,290
Money market funds	64,787	15,911
Certificates of deposit	7,932	21,057
	\$ 942,859	\$ 869,258

Long-term Investments

The Company also has certain investments in non-publicly traded companies. These investments are included within other assets in the Company's consolidated balance sheet. As of March 31, 2006 and 2005, the investments totaled \$173.9 million and \$73.8 million, respectively. Non-majority-owned investments are accounted for using the equity method when the Company has an ownership percentage equal to or greater than 20%, or has the ability to significantly influence the operating decisions of the issuer, otherwise the cost method is used. The Company continuously monitors these investments for impairment and makes appropriate reductions in carrying values when necessary. During fiscal year 2005, the Company recorded charges of \$8.2 million for other than temporary impairment of its investments in certain of these non-publicly traded companies. Impairment charges for fiscal years 2006 and 2004 were immaterial.

Concentration of Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, are primarily accounts receivable, cash and cash equivalents, investments, and derivative instruments.

The Company performs ongoing credit evaluations of its customers' financial condition and makes provisions for doubtful accounts based on the outcome of its credit evaluations. In fiscal year 2006, two customers accounted for approximately 13% and 11% of net sales, respectively. In fiscal year 2005, two customers accounted for approximately 14% and 10% of net sales, respectively. In fiscal year 2004, two customers accounted for approximately 12% of net sales. The Company's ten largest customers accounted for approximately 63%, 62%, and 64% of its net sales, in fiscal years 2006, 2005, and 2004, respectively. At March 31, 2006, one customer accounted for approximately 16% of total accounts receivable. At March 31, 2005, one customer accounted for approximately 10% of total accounts receivable.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company maintains cash and cash equivalents with various financial institutions that management believes to be of high credit quality. These financial institutions are located in many different locations throughout the world. The Company's cash equivalents are primarily comprised of cash deposited in money market accounts and certificates of deposit. The Company's investment policy limits the amount of credit exposure to 20% of the total investment portfolio in any single issuer.

The amount subject to credit risk related to derivative instruments is generally limited to the amount, if any, by which a counterparty's obligations exceed the obligations of the Company with that counterparty. To manage the counterparty risk, the Company limits its derivative transactions to those with recognized financial institutions.

Inventories

Inventories are stated at the lower of cost (on a first-in, first-out basis) or market value. The stated cost is comprised of direct materials, labor and overhead. The components of inventories related to continuing operations, net of applicable lower of cost or market write-downs, were as follows:

	March 31,	
	2006	2005
	(In thousands)	
Raw materials	\$ 884,940	\$ 711,720

Finished goods	518,309	497,806
	\$ 1,738,310	\$ 1,513,715

Property and Equipment

Property and equipment are stated at cost. Depreciation and amortization is recognized on a straight-line basis over the estimated useful lives of the related assets (three to thirty years), with the exception of building leasehold improvements, which are amortized over the term of the lease, if shorter. Effective October 1, 2004, the estimated useful lives of certain machinery and equipment were changed from five years to seven years. The use of these assets and the advancement of the associated technology have demonstrated that seven years is a more reasonable and accurate economic useful life, so the Company has aligned the depreciation expense associated with these assets with their future economic benefit. As a result of this change in estimated useful life, the Company recognized lower depreciation expense than otherwise would have been recognized without the change in useful life of approximately \$20.7 million and \$12.0 million in fiscal years 2006 and 2005, respectively. Repairs and maintenance costs are expensed as incurred. Property and equipment related to continuing operations was comprised of the following:

S-16

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Total depreciation expense associated with property and equipment of continuing operations amounted to approximately \$264.4 million, \$303.1 million and \$307.2 million in fiscal years 2006, 2005 and 2004, respectively.

The Company reviews property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of property and equipment is measured by comparing its carrying amount to the projected undiscounted cash flows the property and equipment are expected to generate. An impairment loss is recognized when the carrying amount of a long-lived asset exceeds its fair value.

Deferred Income Taxes

The Company provides for income taxes in accordance with the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of temporary differences between the carrying amount and the tax basis of existing assets and liabilities by applying the applicable statutory tax rate to such differences.

Goodwill and Other Intangibles

Goodwill of the reporting units is tested for impairment on January 31st and whenever events or changes in circumstance indicate that the carrying amount of goodwill may not be recoverable. Goodwill is tested for impairment at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. Reporting units represent components of the Company for which discrete financial information is available that are and regularly reviewed by management. For purposes of the annual goodwill impairment evaluation during fiscal years 2005 and 2004, the Company identified two separate reporting units: Electronic Manufacturing Services and Network Services. In fiscal year 2006, the Company divested its Network Services division and subsequently identified its Software Development and Solutions business as a new operating segment and reporting unit, and identified its Printed Circuit Board division as a new reporting unit. If the carrying amount of any reporting unit exceeds its fair value, the amount of impairment loss recognized, if any, is measured using a discounted cash flow analysis. Further, to the extent the carrying amount of the Company as a whole is greater than its market capitalization, all, or a significant portion of its goodwill may be considered impaired. The Company completed the annual impairment test during its fourth quarter of fiscal year 2006 and determined that no impairment existed as of the date of the impairment test.

The following table summarizes the activity in the Company's goodwill account relating to continuing operations during fiscal years 2006 and 2005:

S-17

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company's acquired intangible assets are subject to amortization over their estimated useful lives and are reviewed for impairment whenever events or changes in circumstance indicate that the carrying amount of an intangible asset may not be recoverable. An impairment loss is recognized when the carrying amount of an intangible asset exceeds its fair value. Intangible assets are primarily comprised of customer related intangibles, which include contractual agreements and customer relationships. Other acquired intangibles are primarily comprised of patents and trademarks, and developed technologies. Contractual agreements, patents and trademarks, and developed technologies are amortized on a straight-line basis over a period of up to ten years, and customer relationships on a straight-line basis over three to ten years. No residual value is estimated for any intangible assets. During fiscal year 2006 and 2005, there were approximately \$81.1 million and \$45.3 million of additions to intangible assets, respectively, primarily related to contractual agreements and customer relationships as a result of acquisitions. The value of the Company's intangible assets purchased through business combinations is principally determined based on third-party valuations of the net assets acquired. The Company is in the process of determining the value of its intangible assets acquired from certain acquisitions completed in fiscal year 2006 and expects to complete the evaluation by the end of the first quarter of fiscal year 2007. The components of acquired intangible assets relating to continuing operations are as follows:

	March 31, 2006			March 31, 2005

In September 2005, the Company reduced intangible assets by approximately \$18.4 million, primarily related to contractual agreements, developed technologies and customer relationships, as a result of the divestiture of its Network Services division (refer to Note 13, "Business and Asset Acquisitions and Divestitures"). Total intangible amortization expense recognized from continuing operations during fiscal years 2006, 2005, and 2004 amounted to \$37.2 million, \$33.5 million, and \$34.5 million, respectively. The estimated future annual amortization expense related to acquired intangible assets from continuing operations is as follows:

Derivative Instruments and Hedging Activities

All derivative instruments are recorded on the balance sheet at fair value. If the derivative instrument is designated as a cash flow hedge, effectiveness is measured on a quarterly basis by calculating the ratio of the cumulative change in the fair value of the derivative instrument to the cumulative change in the hedged item. The effective portion of changes in the fair value of the derivative instrument is recorded in shareholders

S-18

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

equity as a separate component of accumulated other comprehensive income, and recognized in the statement of operations when the hedged item affects earnings. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings immediately. If the derivative instrument is designated as a fair value hedge, the changes in the fair value of the derivative instrument and of the hedged item attributable to the hedged risk are recognized in earnings in the current period.

Restructuring Charges

The Company recognizes restructuring charges related to its plans to close or consolidate duplicate manufacturing and administrative facilities. In connection with these activities, the Company records restructuring charges for employee termination costs, long-lived asset impairment and other exit-related costs.

The recognition of restructuring charges requires the Company to make certain judgments and estimates regarding the nature, timing and amount of costs associated with the planned exit activity. To the extent the Company's actual results differ from its estimates and assumptions, the Company may be required to revise the estimates of future liabilities, requiring the recognition of additional restructuring charges or the reduction of liabilities already recognized. Such changes to previously estimated amounts may be material to the consolidated financial statements. At the end of each reporting period, the Company evaluates the remaining accrued balances to ensure that no excess accruals are retained and the utilization of the provisions are for their intended purpose in accordance with developed exit plans.

Accounting for Stock-Based Compensation

The Company applies the intrinsic value method of accounting for stock-based employee compensation. As a result, generally no compensation expense is recognized for options granted under these stock incentive plans because typically the option terms are fixed and the exercise price equals or exceeds the market price of the underlying stock on the date of grant. The Company applies the disclosure only provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS 123).

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 (Revised 2004), *Share Based Payment* (SFAS 123(R)) which (i) revises SFAS 123 to eliminate the disclosure only provisions of that statement and the alternative to follow the intrinsic value method of accounting under APB 25 and related interpretations, and (ii) requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments, including grants of employee stock options, based on the grant-date fair value of the award and recognize that cost in its results of operations over the period during which an employee is required to provide the requisite service in exchange for that award. The Company is required to adopt this statement beginning April 1, 2006. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under SFAS 123. The Company has elected to apply the provisions of this statement prospectively, and will continue using the Black-Scholes option valuation model to estimate the fair value of its stock-based awards, and will also continue to recognize the related expense under the straight-line attribution method. Although the pro forma effects below may be indicative of the Company's adoption of SFAS 123(R), the actual expense will be dependent on numerous factors including, but not limited to, the selection of assumptions used to fair value stock-based awards granted subsequent to April 1, 2006, the number of new stock based awards granted to employees, policy decisions regarding accounting for the tax effects of share-based awards, and assumed award forfeiture rates. Unamortized compensation is estimated to be approximately \$41.1 million on April 1, 2006, based on unvested stock-based awards outstanding as of March 31, 2006.

In October 2005, the FASB issued FASB Staff Position FAS 123(R)-2, *Practical Accommodation to the Application of Grant Date as Defined in FAS 123(R)* (FSP 123(R)-2). FSP 123(R)-2 provides guidance on the application of grant date as defined in SFAS 123(R). In accordance with this standard a

grant date of an award exists if a) the award is a unilateral grant and b) the key terms and conditions of the award are expected to be communicated to an individual recipient within a relatively short time period from the date of approval. The Company will adopt this standard when it adopts SFAS 123(R), and does not anticipate that the implementation of this statement will have a significant impact on the Company's results of operations.

In November 2005, the FASB issued FASB Staff Position FAS 123(R)-3, *Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards* (FSP 123(R)-3). FSP 123(R)-3 provides an elective alternative method that establishes a computational component to arrive at the beginning balance of the accumulated paid-in capital pool related to employee compensation and a simplified method to determine the subsequent impact on the accumulated paid-in capital pool of employee awards that are fully vested and outstanding upon the adoption of SFAS 123(R). The Company is currently evaluating this transition method.

The following pro forma information reflects net income and earnings per share as if the Company had accounted for its stock-based compensation expense using the fair value method. For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period on a straight-line basis. Forfeitures are recognized as they occur, and compensation previously recognized is reversed for the forfeitures of unvested options.

Pro forma	\$ 0.13	\$ 0.29	\$ (0.77)

Pro forma stock-based employee compensation expense determined under the fair value method, net of tax, included \$11.3 million and \$2.3 million of expense relating to discontinued operations during fiscal years 2006 and 2005, respectively. Pro forma stock-based employee compensation expense relating to discontinued operations was not material during fiscal year 2004.

On February 7, 2006 and January 17, 2005, the Company's Board of Directors approved accelerating the vesting of unvested options to purchase the Company's ordinary shares held by current employees, including executive officers, priced at or above \$12.37 and \$12.98, respectively. No options held by non-employee directors were subject to the acceleration. The accelerations were effective as of February 7, 2006 and January 17, 2005, provided that holders of incentive stock options (ISOs) within the meaning of Section 422 of the internal Revenue code of 1986, as amended,

have the opportunity to decline the acceleration of ISO options in order to prevent changing the status of the ISO option for federal income tax purposes to a non-qualified stock option.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The acceleration of these options was done primarily to eliminate future compensation expense the Company would otherwise recognize in its statement of operations with respect to these options upon the adoption of SFAS 123(R). In addition, because these options have exercise prices in excess of current market values and are not fully achieving their original objectives of incentive compensation and employee retention, management believes that the acceleration may have a positive effect on employee morale and retention. The future expense that was eliminated from the February 2006 and January 2005 accelerations was approximately \$35.3 million and \$121.2 million, respectively (of which approximately \$12.8 million and \$26.4 million was attributable to executive officers, respectively). The amounts are reflected in the pro forma net income for the fiscal years ended March 31, 2006 and 2005, respectively. The decrease in the pro forma expense in fiscal year 2006 is primarily the result of the acceleration of vesting during January 2005, offset by the acceleration in February 2006, and, to a lesser extent, the reduction in estimated volatility discussed below.

For purposes of the pro forma presentation, the fair value of each option grant was estimated at the date of grant using a Black-Scholes model with the following weighted-average assumptions:

	Fiscal Year Ended March 31,		
	2006	2005	2004
Volatility	39%	79%	85%
Risk-free interest rate	3.8%	3.0%	2.3%
Dividend yield	0.0%	0.0%	0.0%
Expected option lives	4.0 years	3.8 years	3.8 years

The fair value related to shares issued under the Company's employee stock purchase plan was estimated using the Black-Scholes model with the following weighted-average assumptions:

	Fiscal Year Ended March 31,		
	2006	2005	2004
Volatility	40%	41%	44%
Risk-free interest rate	2.1%	1.7%	1.4%
Dividend yield	0.0%	0.0%	0.0%
Expected option lives	0.5 years	0.5 years	0.5 years

The Company has never paid dividends on its ordinary shares and currently does not intend to do so, and accordingly, the dividend yield percentage is zero for all periods. Beginning on January 1, 2005, in accordance with the guidance under SFAS 123 for selecting assumptions to use in an option pricing model, the Company reduced its estimate of expected volatility based upon a re-evaluation of the variability in the market price of its publicly traded stock. Prior to this date, the historical variability in daily stock prices was used exclusively to derive the estimate of expected volatility. Management determined that a combination of implied volatility related to publicly traded options together with historical volatility is more reflective of current market conditions, and a better indicator of expected volatility.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. Consequently, the Company's estimate of fair value may differ from other valuation models. Further, the Black-Scholes model requires the input of highly subjective assumptions and because changes in the subjective input assumptions can materially affect the fair value estimate, the existing models do not necessarily provide a reliable single measure of the fair value of stock-based compensation

awards. Accordingly, pro forma net income and earnings per share as disclosed above may not accurately depict the associated fair value of the outstanding options.

The Company will continue to evaluate its assumptions used to derive the estimated fair value of options granted under its stock-based compensation plans as new events or changes in circumstances become known.

The Company grants key employees rights to acquire a specified number of ordinary shares for no cash consideration under its 2001 Equity Incentive Plan and its 2002 Interim Incentive Plan (restricted stock

units) in exchange for continued service with the Company. Restricted stock units awarded under the plan generally vest in installments over a five-year period and unvested units are forfeited upon termination of employment. During fiscal year 2006, 35,000 restricted stock units were granted with a weighted average fair value on the date of grant of \$9.37 per ordinary share. During fiscal year 2005, 175,000 restricted stock units were granted with a weighted average fair value on the date of grant of \$13.58 per ordinary share. During fiscal year 2004, 230,000 restricted stock units were granted with a weighted average fair value on the date of grant of \$10.88 per ordinary share. Grants of restricted stock units are recorded as compensation expense over the vesting period at the fair market value of the Company's ordinary shares at the date of grant. During fiscal years 2006, 2005 and 2004, compensation expense related to restricted stock units was approximately \$2.2 million, \$2.2 million and \$1.8 million, respectively. Unearned compensation associated with restricted stock units was \$4.1 million and \$6.8 million as of March 31, 2006 and 2005, respectively, and is included as a component of shareholders' equity in the consolidated balance sheets.

Earnings (Loss) Per Share

SFAS No. 128, *Earnings Per Share* (SFAS 128) requires entities to present both basic and diluted earnings per share. Basic earnings per share excludes dilution and is computed by dividing net income by the weighted-average number of ordinary shares outstanding during the applicable periods.

Diluted earnings per share reflects the potential dilution from stock options, restricted stock units and convertible securities. The potential dilution from stock options exercisable into ordinary share equivalents and restricted stock units was computed using the treasury stock method based on the average fair market value of the Company's ordinary shares for the period. The potential dilution from subordinated notes convertible into ordinary share equivalents was computed using the if-converted method.

The following table reflects the basic weighted-average ordinary shares outstanding and diluted weighted-average ordinary share equivalents used to calculate basic and diluted net income per share from continuing operations. Earnings per share amounts for all periods are presented below in accordance with the requirements of SFAS 128:

- (1) Due to the Company's reported net loss from continuing operations, the ordinary share equivalents from stock options and restricted stock to purchase 13,668,419 shares outstanding were excluded from the computation of diluted earnings (loss) per share during fiscal year 2004 because the inclusion would be anti-dilutive for the period.

Also, the ordinary share equivalents from stock options to purchase 33,062,904, 24,186,135 and 14,750,432 shares during fiscal years 2006, 2005 and 2004, respectively, were excluded from the computation of diluted earnings (loss) per share primarily because the exercise price of these options was greater than the average market price of the Company's ordinary shares during the respective periods.

- (2) During fiscal years 2006 and 2005, 18,725,798 and 19,047,619 ordinary share equivalents related to the zero coupon convertible junior subordinated notes were included as ordinary share equivalents, respectively. During fiscal year 2004, 19,047,619 ordinary share equivalent related to the zero coupon convertible junior subordinated notes were anti-dilutive and therefore, were not included as ordinary share equivalents.

In addition, as the Company has the positive intent and ability to settle the principal amount of its 1% convertible subordinated notes due August 2010 in cash, 32,206,119 ordinary share equivalents related to the principal portion of the notes are excluded from the computation of diluted earnings per share. The Company intends to settle any conversion spread (excess of the conversion value over face value) in stock. During fiscal year 2006, the conversion obligation was less than the principal portion of the convertible notes and accordingly, no additional shares were included as ordinary share equivalents. During fiscal year 2005, 575,587 ordinary share equivalents from the conversion spread have been included. During fiscal year 2004, 851,274 ordinary share equivalents from the conversion spread were anti-dilutive and were excluded.

Recent Accounting Pronouncements

In November 2004, the FASB issued Statement of Financial Accounting Standards No. 151, *Inventory Costs, an amendment of ARB No. 43, Chapter 4* (SFAS 151). This statement amends the guidance of ARB. No 43, Chapter 4 *Inventory Pricing* and requires that abnormal amounts of idle facility expense, freight, handling costs, and wasted material be recognized as current period charges. In addition, this statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005 and is required to be adopted by the Company in the first quarter of fiscal year 2007. The Company does not expect that the adoption of SFAS 151 will have a material impact on the Company's consolidated results of operations, financial condition and cash flows.

On December 16, 2004, the FASB issued Statement No. 153, *Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions* (SFAS 153). SFAS 153 addresses the measurement of exchanges of nonmonetary assets and redefines the scope of transactions that should be measured based on the fair value of the assets exchanged. SFAS 153 was effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of SFAS 153 did not have a material impact on the Company's consolidated results of operations, financial condition and cash flows.

In May 2005, the FASB issued Statement No. 154, *Accounting Changes and Error Corrections* (SFAS 154). SFAS 154 is a replacement of Accounting Principles Board Opinion No. 20 (APB 20) and FASB Statement No. 3. SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes retrospective application, or the latest practicable date, as the required method for reporting a change in accounting principle and the reporting of a correction of an error. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 and is required to be adopted by the Company in the first quarter of fiscal year 2007. The

Company does not expect that the adoption of SFAS 154 will have a material impact on its consolidated results of operations, financial condition and cash flows.

In March 2006, the FASB issued Statement No. 156, *Accounting for Servicing of Financial Assets* (SFAS 156), which amends SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 156 requires recognition of a servicing asset or liability at fair value each time an obligation is undertaken to service a financial asset by entering into a servicing contract. SFAS 156 also provides guidance on subsequent measurement methods for each class of servicing assets and liabilities and specifies financial statement presentation and disclosure requirements. SFAS 156 is effective for fiscal years beginning after September 15, 2006 and is required to be adopted by the Company in the first quarter of fiscal year 2008. The Company does not expect the adoption of SFAS 156 will have a material impact on its consolidated results of operations, financial condition and cash flows.

In March 2005, the FASB issued Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* (FIN 47) as an interpretation of FASB Statement No. 143, *Accounting for Asset Retirement Obligations* (SFAS 143). This interpretation clarifies that the term conditional asset retirement obligation as used in SFAS 143, refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. This interpretation also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. The adoption of FIN 47 did not have a material impact on the Company's consolidated results of operations, financial condition and cash flows.

Revolving Credit Facilities and Other Credit Lines

The Company has a revolving credit facility in the amount of \$1.35 billion, under which there were no borrowings outstanding as of March 31, 2006. The credit facility consists of two separate credit agreements, one providing for up to \$1.105 billion principal amount of revolving credit loans to the Company and its designated subsidiaries; and one providing for up to \$245.0 million principal amount of revolving credit loans to a U.S. subsidiary of the Company. The credit facility is a five-year facility expiring in May 2010. Borrowings under the credit facility bear interest, at the Company's option, either at (i) the base rate (the greater of the agent's prime rate or 0.50% plus the federal funds rate) plus the applicable margin for base rate loans ranging between 0.0% and 0.125%, based on the Company's credit ratings; or (ii) the LIBOR rate plus the applicable margin for LIBOR loans ranging between 0.625% and 1.125%, based on the Company's credit ratings. The Company is required to pay a quarterly commitment fee ranging from 0.125% to 0.250% per annum of the unutilized portion of the credit facility and, if the utilized portion of the facility

exceeds 33% of the total commitment, a quarterly utilization fee ranging between 0.125% to 0.250% on such utilized portion, in each case based on the Company's credit ratings. The Company is also required to pay letter of credit usage fees ranging between 0.625% and 1.125% per annum (based on the Company's credit ratings) on the amount of the daily average outstanding letters of credit and issuance fees of 0.125% per annum on the daily average undrawn amount of letter of credit.

The credit facility is unsecured, and contains certain restrictions on the Company's and its subsidiaries' ability to (i) incur certain debt, (ii) make certain investments, (iii) make certain acquisitions of other entities,

(iv) incur liens, (v) dispose of assets, (vi) make non-cash distributions to shareholders, and (vii) engage in transactions with affiliates. These covenants are subject to a number of significant exceptions and limitations. The credit facility also requires that the Company maintain a maximum ratio of total indebtedness to EBITDA (earnings before interest expense, taxes, depreciation and amortization), and a minimum fixed charge coverage ratio, as defined, during the term of the credit facility. As of March 31, 2006, the Company was in compliance with the covenants under this credit facility. Borrowings under the credit facility are guaranteed by the Company and certain of its subsidiaries.

Certain subsidiaries of the Company have various lines of credit available with annual interest rates ranging from 1.61% to 5.56%. These lines of credit expire on various dates through fiscal year 2007. The Company also has term loans with annual interest rates ranging from 5.30% to 5.58%. These lines of credit and term loans are primarily secured by assignment of account receivables. As of March 31, 2006, \$104.3 million was outstanding under these facilities.

6.25% Senior Subordinated Notes

During fiscal year 2006, the Company repurchased approximately \$97.9 million principal amount of its 6.25% senior subordinated notes which mature in November 2014. The loss associated with the early extinguishment of the notes was not material.

The Company may redeem the notes in whole or in part at redemption prices of 103.125%, 102.083% and 101.042% of the principal amount thereof if the redemption occurs during the respective 12-month periods beginning on November 15 of the years 2009, 2010 and 2011, and at a redemption price of 100% of the principal amount thereof on and after November 15, 2012, in each case, plus any accrued and unpaid interest to the redemption date. In addition, if the Company generates net cash proceeds from certain equity offerings on or before November 15, 2007, the Company may redeem up to 35% in aggregate principal amount of the notes at a redemption price of 106.25% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest to the redemption date.

The indenture governing the Company's outstanding 6.25% senior subordinated notes contain certain covenants that, among other things, limit the ability of the Company and its restricted subsidiaries to (i) incur additional debt, (ii) issue or sell stock of certain subsidiaries, (iii) engage in certain asset sales, (iv) make distributions or pay dividends, (v) purchase or redeem capital stock, or (vi) engage in transactions with affiliates. The covenants are subject to a number of significant exceptions and limitations. As of March 31, 2006, the Company was in compliance with the covenants under this indenture.

1.0% Convertible Subordinated Notes

The 1.0% convertible subordinated notes are due in August 2010 and are convertible at any time prior to maturity into ordinary shares of the Company at a conversion price of \$15.525 (subject to certain adjustments). The Company used a portion of the net proceeds from the issuance of these notes and other cash sources to repurchase \$492.3 million of other outstanding senior subordinated notes. In connection with the repurchase, the Company incurred a loss of approximately \$95.2 million during the second quarter of fiscal year 2004 associated with the early extinguishment of the notes.

6.5% Senior Subordinated Notes

The Company may redeem its 6.5% senior subordinated notes that are due May 2013 in whole or in part at redemption prices of 103.250%, 102.167% and 101.083% of the principal amount thereof if the redemption occurs during the respective 12-month periods beginning on May 15 of the years 2008, 2009 and 2010, and at a redemption price of 100% of the principal amount thereof on and after 2011, in each case, plus any accrued and unpaid interest to the redemption date.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The indenture governing the Company's outstanding 6.5% senior subordinated notes contain certain covenants that, among other things, limit the ability of the Company and its restricted subsidiaries to (i) incur additional debt, (ii) issue or sell stock of certain subsidiaries, (iii) engage in certain asset sales, (iv) make distributions or pay dividends, (v) purchase or redeem capital stock, or (vi) engage transactions with affiliates. The covenants are subject to a number of significant exceptions and limitations. As of March 31, 2006, the Company was in compliance with the covenants under this indenture.

In June 2003, the Company used \$156.6 million of the net proceeds from the issuance of these notes to redeem \$150.0 million of other senior subordinated notes. In connection with the redemption, the Company incurred a loss of approximately \$8.7 million during the first quarter of fiscal year 2004 associated with the early extinguishment of the notes.

Zero Coupon Convertible Junior Subordinated Notes

The zero coupon, zero yield, convertible junior subordinated notes are callable by the Company after three years and do not provide a put option prior to maturity (March 2008). The notes are convertible into ordinary shares at a conversion price of \$10.50 per share and are payable in cash or stock at maturity, at the Company's option. In July 2005, \$5.0 million of the notes were converted into 476,190 ordinary shares of the Company at a conversion price of \$10.50 per share.

Other Redemptions

In March 2005, the Company paid approximately \$190.1 million to redeem 144.2 million of its 9.75% euro senior subordinated notes due July 2010. In connection with the redemption, the Company incurred a loss of approximately \$16.3 million in fiscal year 2005 associated with the early extinguishment of the notes. In July 2005, the Company paid approximately \$7.0 million to redeem the remaining outstanding amount of 5.8 million of 9.75% euro senior subordinated notes due July 2010. The loss associated with the early extinguishment of the notes was not material.

As of March 31, 2006, the approximate fair values of the Company's 6.5% notes, 6.25% notes and 1% convertible notes based on broker trading prices were 99.375%, 98.375% and 91.25% of the face values of the notes, respectively.

5. FINANCIAL INSTRUMENTS

The carrying amount of the Company's cash and cash equivalents, investments, accounts receivable and accounts payable approximates fair value. The Company's cash equivalents are comprised of cash deposited in money market accounts and certificates of deposit. The Company's investment policy limits the amount of credit exposure to 20% of the total investment portfolio in any single issuer.

The Company is exposed to foreign currency exchange rate risk inherent in forecasted sales, cost of sales, and assets and liabilities denominated in non-functional currencies. The Company has established currency risk management programs to protect against reductions in value and volatility of future cash flows caused by changes in foreign currency exchange rates. The Company enters into short-term foreign currency forward contracts to hedge only those currency exposures associated with certain assets and liabilities, primarily accounts receivable and accounts payable, and cash flows denominated in non-functional currencies. Gains and losses on forward contracts generally offset losses and gains on the assets, liabilities and transactions hedged, and accordingly, generally do not subject the Company to risk of significant accounting losses. The Company hedges committed exposures and does not engage in foreign currency speculation. The credit risk of these forward contracts is minimized since the contracts are with large financial institutions.

As of March 31, 2006, the fair value of these short-term foreign currency forward contracts was not material. As of March 31, 2005, the Company recognized \$13.4 million to reflect the fair value of these short-term foreign currency forward contracts. As of March 31, 2006 and 2005, the Company also recognized

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

deferred gains of approximately \$292,000 and deferred losses of approximately \$6.3 million, respectively, in other comprehensive income relating to changes in fair value of these foreign currency forward contracts. These losses are expected to be recognized in earnings over the twelve-month period subsequent to recognition in other comprehensive income. The gains and losses recognized in earnings due to hedge ineffectiveness were immaterial for all periods presented.

On November 17, 2004, the Company issued \$500.0 million of 6.25% senior subordinated notes due in November 2014. Interest is payable semi-annually on May 15 and November 15. The Company also entered into interest rate swap transactions to effectively convert a portion of the fixed interest rate debt to variable rate debt. The swaps, having notional amounts totaling \$400.0 million and which expire in 2014, are accounted for as fair value hedges under Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133). Under the terms of the swaps, the Company pays an interest rate equal to six month LIBOR, (estimated at 5.16% at March 31, 2006), set in arrears, plus a fixed spread ranging from 1.37% to 1.52%, and receives a fixed rate of 6.25%. The swap transaction qualifies for the shortcut method of recognition under SFAS 133, therefore no portion of the swap is treated as ineffective. As of March 31, 2006 and 2005, the Company recognized a \$16.9 million and \$9.7 million liability, respectively, to reflect the fair value of the interest rate swaps, with a corresponding decrease to the carrying value of the 6.25% senior subordinated notes. These amounts were included in other current liabilities and as a reduction of other current assets, as of March 31, 2006 and 2005, respectively.

6. TRADE RECEIVABLES SECURITIZATION

The Company continuously sells a designated pool of trade receivables to a third-party qualified special purpose entity, which in turn sells an undivided ownership interest to a conduit, administered by an unaffiliated financial institution. In addition to this financial institution, the Company participates in the securitization agreement as an investor in the conduit. The Company continues to service, administer and collect the receivables on behalf of the special purpose entity. The Company pays annual facility and commitment fees of up to 0.24% for unused amounts and program fees of up to 0.34% of outstanding amounts. The securitization agreement allows the operating subsidiaries participating in the securitization program to receive a cash payment for sold receivables, less a deferred purchase price receivable. The Company's share of the total investment varies depending on certain criteria, mainly the collection performance on the sold receivables. In September 2005, the Company amended the securitization agreement to increase the size of the program to \$700.0 million and to extend the expiration date to September 2006. The unaffiliated financial institution's maximum investment limit was increased to \$500.0 million. The amended securitization agreement also includes two Obligor Specific Tranches (OST) which total \$200.0 million. The OSTs are part of the main facility and were incorporated in order to minimize the impact of excess concentrations of two major customers.

As of March 31, 2006 and 2005, approximately \$228.0 million and \$249.9 million of the Company's accounts receivable, respectively, had been sold to the third-party qualified special purpose entity described above which represent the face amount of the total outstanding trade receivables on all designated customer accounts on those dates. The Company received net cash proceeds of approximately \$156.6 million and \$134.7 million from the unaffiliated financial institutions for the sale of these receivables during fiscal years 2006 and 2005, respectively. The Company has a recourse obligation that is limited to the deferred purchase price receivable, which approximates 5% of the total sold receivables, and its own investment participation, the total of which was approximately \$71.4 million and \$123.1 million as of March 31, 2006 and 2005, respectively.

The Company also sells its accounts receivable to certain third-party banking institutions with limited recourse, which management believes is nominal. The outstanding balance of receivables sold and not yet collected was approximately \$218.5 million and \$202.1 million as of March 31, 2006 and 2005, respectively.

These capital leases have interest rates ranging from 2.5% to 12.7%. The Company also leases certain of its facilities under non-cancelable operating leases. The capital and operating leases expire in various years through 2059 and require the following minimum lease payments:

The purchase of these assets has occurred in stages, and in May 2006, the Company completed the transfer of Nortel's Calgary operations in the final stage of this transaction. Refer to Note 13, *Business and Asset Acquisitions and Divestitures* for further discussion.

The Company is subject to legal proceedings, claims, and litigation arising in the ordinary course of business. The Company defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

Total	\$ 656,074	\$ 698,760

The Company has total tax loss carryforwards of approximately \$4.4 billion from continuing operations, a portion of which begin expiring in 2010. Utilization of the tax loss carryforwards and other deferred tax assets is limited by the future earnings of the Company in the tax jurisdictions in which such deferred assets arose. As a result, management is uncertain as to when or whether these operations will generate sufficient profit to realize any benefit from the deferred tax assets. The valuation allowance provides a reserve against deferred tax assets that may not be realized by the Company. However, management has determined that it is more likely than not that the Company will realize certain of these benefits and, accordingly, has recognized a deferred tax asset from these benefits. The change in valuation allowance is net of certain increases and decreases to prior year losses and other carryforwards that have no current impact on the tax provision. Approximately \$34.0 million of the valuation allowance relates to income tax benefits arising from the exercise of stock options, which will be credited directly to shareholders' equity and will not be available to benefit the income tax provision in any future period.

The amount of deferred tax assets considered realizable, however, could be reduced or increased in the near-term if facts, including the amount of taxable income or the mix of taxable income between subsidiaries, differ from

management's estimates.

The Company does not provide for federal income taxes on the undistributed earnings of its foreign subsidiaries, as such earnings are not intended by management to be repatriated in the foreseeable future. Determination of the amount of the unrecognized deferred tax liability on these undistributed earnings is not practicable.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****9. SHAREHOLDERS EQUITY**

Effective January 30, 2006, the Singapore Companies Act, Chapter 50 was amended to, among other things, allow Singapore companies to repurchase outstanding ordinary shares subject to certain requirements and eliminate the concepts of par value, additional paid-in capital and authorized share capital. As a result of the Companies (Amendment) Act 2005, effective January 30, 2006, the outstanding shares of the Company have no par value and the Company has combined the par value of its ordinary shares together with additional paid-in-capital into one account for all periods presented.

Equity Offering

On July 27, 2004, the Company completed a public offering of 24,330,900 of its ordinary shares for which the Company received net proceeds of approximately \$299.5 million.

Share Repurchase Plan

On April 7, 2006, the Company's Board of Directors authorized the repurchase of up to \$250.0 million of its outstanding ordinary shares. Share repurchases, if any, will be made in the open market at such time and in such amounts as management deems appropriate and will be made pursuant to the Share Purchase Mandate approved by the shareholders at the Company's 2005 annual general meeting. Shares repurchased under the program will be canceled.

Stock Option and Incentive Plans

At March 31, 2006, the Company had three stock-based employee compensation plans: the 2004 Award Plan for New Employees (the 2004 Plan), the 2002 Interim Incentive Plan (the 2002 Plan), and the 2001 Equity Incentive Plan (the 2001 Plan). The Company's 1997 Employee Stock Purchase Plan was terminated by the Board of Directors on October 14, 2005.

The 2001 Plan provides for grants of up to 27,000,000 shares. Additionally, upon adoption of the 2001 Plan, the remaining shares that were available under the Company's 1993 Share Option Plan (the 1993 Plan), the 1999 Interim Option Plan, the 1998 Interim Option Plan, the 1997 Interim Option Plan, and all assumed plans and any shares issuable upon exercise of the options granted under those plans that expire or become unexercisable for any reason without having been exercised in full, are available for grant under the 2001 Plan. The adoption of the 2001 Plan mandated that no additional options be granted under the 1993 Plan, the 1999 Interim Option Plan, the 1998 Interim Option Plan, the 1997 Interim Option Plan, or the assumed plans. Any options outstanding under these plans will remain outstanding until exercised or until they terminate or expire by their terms. The 2001 Plan contains a discretionary option grant program, an automatic option grant program, and a discretionary share bonus award program. The discretionary option grant program and share bonus award program is administered by the Compensation Committee with respect to executive officers and directors, and by the Chief Executive Officer with respect to all other employees.

Options granted under the 2001 Plan, the 1993 Plan, the 1999 Interim Option Plan, the 1998 Interim Option Plan, and the 1997 Interim Option Plan generally vest over four years. Options granted under the assumed plans have varying vesting schedules. Options granted under the 2001 Plan generally expire ten years from the date of grant. Pursuant to an amendment to the provisions relating to the term of options provided under the 1993 Plan, options granted subsequent to October 1, 2000 expire ten years from the date of grant, rather than the five-year term previously provided. Options granted under the 1999 Interim Option Plan expire five years from the date of grant. Options granted prior to July 2002 under the 1998 and 1997 Interim Option Plans expire five years from the date of grant and all subsequent option grants generally expire ten years from the date of grant.

The 2002 Plan provides for grants of up to 20,000,000 shares. The plan provides grants of nonqualified stock options and share bonus awards to employees, officers and directors. The exercise price of options

granted under the 2002 Plan is determined by the Company's Compensation Committee and may not be less than the fair market value of the underlying stock on the date of grant. Options issued under the 2002 Plan generally vest over four years and generally expire ten years from the date of grant.

The 2004 Plan provides for grants of up to 7,500,000 shares. The plan provides grants of nonqualified stock options and share bonus awards to new employees. The exercise price of options granted under the 2004 Plan is determined by the Company's Compensation Committee and may not be less than the fair market value of the underlying stock on the date of grant. Options issued under the 2004 Plan generally vest over four years and generally expire ten years from the date of grant.

The Company's 1997 Employee Stock Purchase Plan (the Purchase Plan) provided for issuance of up to 5,400,000 ordinary shares. The Purchase Plan was approved by the shareholders in October 1997. Under the Purchase Plan, employees were able to purchase, on a periodic basis, a limited number of ordinary shares through payroll deductions over a six-month period up to 10% of each participant's compensation. The per share purchase price was 85% of the fair market value of the stock at the beginning or end of the offering period, whichever was lower. The ordinary shares sold under this plan in fiscal years 2006, 2005 and 2004 amounted to 914,244, 560,596, and 717,595, respectively. The weighted-average fair value of ordinary shares sold under this plan in fiscal years 2006, 2005 and 2004 was \$11.51, \$14.31 and \$10.30 per share, respectively. On October 14, 2005, the Company's Board of Directors approved the termination of the Purchase Plan and no shares will be available for issuance subsequent to March 31, 2006.

The following table presents the activity for options outstanding under all of the stock option plans (Price reflects the weighted average exercise price):

10. RESTRUCTURING CHARGES

In recent years, the Company has initiated a series of restructuring activities intended to realign the Company's global capacity and infrastructure with demand by its OEM customers so as to optimize the operational efficiency, which include reducing excess workforce and capacity, and consolidating and relocating certain manufacturing and administrative facilities to lower cost regions.

The restructuring costs include employee severance, costs related to leased facilities, owned facilities that are no longer in use and are to be disposed of, leased equipment that is no longer in use and will be disposed of, and other costs associated with the exit of certain contractual agreements due to facility closures. The overall impact of these activities is that the Company has shifted its manufacturing capacity to locations with higher efficiencies and, in some instances, lower costs, and is better utilizing its overall existing manufacturing capacity. This has enhanced the Company's ability to provide cost-effective manufacturing service offerings, which enables it to retain and expand the Company's existing relationships with customers and attract new business.

Liabilities for costs associated with exit or disposal of activities are recognized when the liabilities are incurred.

As of March 31, 2006 and 2005, assets that were no longer in use and held for sale as a result of the restructuring activities totaled approximately \$40.6 million and \$59.3 million, respectively, primarily representing manufacturing facilities located in the Americas that have been closed as part of the facility consolidations. For assets held for sale, depreciation ceases and an impairment loss is recognized if the carrying amount of the asset exceeds its fair value less cost to sell. Assets held for sale are included in other assets on the consolidated balance sheet.

Fiscal Year 2006

The Company recognized restructuring charges of approximately \$215.7 million during fiscal year 2006 related to severance, the impairment of certain long-term assets and other costs resulting from closures and consolidations of various manufacturing facilities. The Company has classified \$185.6 million of the charges associated with facility closures as a component of cost of sales during fiscal year 2006.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company currently anticipates that the facility closures and activities to which all of these charges relate will be substantially completed within one year of the commitment dates of the respective activities, except for certain long-term contractual obligations. During fiscal year 2006, the Company recorded approximately \$72.3 million of other exit costs primarily associated with contractual obligations. As of March 31, 2006, accrued facility closure costs related to restructuring charges incurred in fiscal 2006 were approximately \$48.4 million, of which approximately \$9.6 million is classified as a long-term obligation.

Fiscal Year 2004

The Company recognized restructuring charges of approximately \$540.3 million during fiscal year 2004 related to the impairment of certain long-term assets and other costs resulting from closures and consolidations of various manufacturing facilities, of which \$11.5 million related to discontinued operations (refer to Note 16, Discontinued Operations). The Company has classified \$474.1 million of the charges associated with facility closures as a component of cost of sales during fiscal year 2004.

The facility closures and activities to which all of these charges related were substantially completed within one year of the commitment dates of the respective exit plans, except for certain long-term contractual obligations. The components of the restructuring charges during the quarters of fiscal year 2004 were as follows:

- (1) Included in the first quarter charges are \$7.2 million related to discontinued operations, of which \$1.7 million related to cost of sales. The charges included severance of \$0.4 million, long-lived asset impairment of \$2.7 million and other exit costs of \$4.1 million. Included in the second quarter charges are \$4.3 million related to discontinued operations, of which \$1.5 million related to cost of sales. The charges included severance of \$2.3 million, long-lived asset impairment of \$0.6 million and other exit costs of \$1.4 million.

During fiscal year 2004, the Company recorded approximately \$103.7 million of employee termination costs (of which \$2.7 million was attributable to discontinued operations) associated with the involuntary terminations of approximately 5,200 identified employees in connection with the various facility closures and consolidations. The identified involuntary employee terminations by reportable geographic region amounted to approximately 2,100 and 3,100 for the Americas and Europe, respectively. As of March 31, 2006, all employees have been terminated under these plans. Approximately \$84.6 million of the net charges were classified as a component of cost of sales during fiscal year 2004, of which \$0.3 million related to discontinued operations. As of March 31, 2006 and 2005, accrued facility closure costs related to restructuring charges incurred in fiscal year 2004 were approximately \$9.0 million and \$18.5 million, of which approximately \$3.1 million and \$6.2 million was classified as a long-term obligation, respectively.

During fiscal year 2004, the Company also recorded approximately \$331.2 million for the write-down of property and equipment (of which \$3.3 million was attributable to discontinued operations) associated with various manufacturing and administrative facility closures. Approximately \$317.4 million of this amount was classified as a component of cost of sales in fiscal year 2004, of which \$0.4 million related to discontinued operations. Certain assets will remain in service until their anticipated disposal dates pursuant to the exit plans. For assets being held for use, impairment is measured as the amount by which the carrying amount exceeds the fair value of the asset. This calculation is measured at the asset group level, which is the lowest level for which there are identifiable cash flows. The fair value of assets held for use was determined based on projected discounted cash flows of the asset, plus salvage value. Certain other assets are held for sale, as these assets are no longer required in operations. For assets held for sale, depreciation ceases and an impairment loss is recognized if the carrying amount of the asset exceeds its fair value less cost to sell. Assets held for sale are included in other assets on the consolidated balance sheet.

The restructuring charges recorded during fiscal year 2004 also included approximately \$105.5 million for other exit costs, of which \$5.5 million was attributable to discontinued operations. Approximately \$75.3 million of this amount (\$2.5 million related to discontinued operations) was classified as a component of cost of sales in fiscal year 2004. Other exit costs included contractual obligations totaling \$59.1 million, which were incurred directly as a result of the various exit plans. The contractual obligations consisted of facility lease terminations amounting to \$46.2 million (of which \$2.4 million was attributable to discontinued operations), equipment lease terminations amounting to \$7.3 million and payments to suppliers and third parties to terminate contractual agreements amounting to \$5.6 million. Expenses associated with lease obligations are estimated based on future lease payment, less any estimated sublease income. The Company expects to make payments associated with its contractual obligations with respect to facility and equipment leases through the end of fiscal year 2024. Other exit costs also included charges of \$17.7 million relating to asset impairments (of which \$3.1 million related to discontinued operations) resulting from customer contracts that were terminated by the Company as a result of various facility closures. The Company had disposed of the impaired assets, primarily through scrapping and write-offs, by the end of fiscal year 2004. Other exit costs also included \$4.1 million of net facility refurbishment and abandonment costs related to certain building repair work necessary to prepare the exited facilities for sale or to return the facilities to their respective landlords. The remaining exit costs primarily related to legal and consulting costs, and various government obligations for which the Company is liable as a direct result of its facility closures. The legal costs mainly relate to a settlement reached in November 2003 in the lawsuit with Beckman Coulter, Inc., relating to a contract dispute involving a manufacturing relationship between the companies. Pursuant to the terms of the settlement agreement, Flextronics agreed to a \$23.0 million cash payment to Beckman Coulter to

resolve the matter, and Beckman Coulter agreed to dismiss all pending claims against the Company and release the Company from any future claims relating to this matter.

Fiscal Year 2003 and Prior

As of March 31, 2006 and 2005, accrued facility closure costs related to restructuring charges incurred in fiscal year 2003 and prior were \$4.5 million and \$8.1 million, of which approximately \$3.4 million and \$4.7 million was classified as a long-term obligation, respectively.

11. OTHER INCOME, NET

During fiscal year 2006, the Company realized a net foreign exchange gain of \$20.6 million from the liquidation of certain international entities and a net gain of \$4.3 million related to its investments in certain non-publicly traded companies. These gains were offset by approximately \$7.7 million in compensation charges related to the retirement of Michael E. Marks from his position as Chief Executive Officer, of which approximately \$5.9 million was paid during fiscal year 2006, with the remaining amount due in July 2006. In connection with his retirement and appointment to serve as Chairman of the Company's Board of Directors beginning January 1, 2006, the Company also accelerated the vesting and continued the exercise period of certain stock options held by Mr. Marks. The modifications to his stock options did not result in any incremental non-cash stock-based compensation expense under APB 25 because the exercise price of the affected options was greater than the market price of the underlying shares on the date of the modifications.

During fiscal year 2005, the Company realized a foreign exchange gain of \$29.3 million from the liquidation of certain international entities, offset by a loss of \$8.2 million for other than temporary impairment of its investments in certain non-publicly traded technology companies and \$7.6 million of compensation charges relating to the resignation of Robert R.B. Dykes from his position as Chief Financial Officer. In connection with his termination of employment, the Company amended certain of Mr. Dykes' stock option agreements to provide for full acceleration of vesting of approximately 1.2 million of Mr. Dykes' outstanding but unvested stock options and extension of the expiration date of approximately 1.5 million stock options to five years after his employment termination date. Such options would otherwise have expired ninety days after the termination of employment. This resulted in a charge of approximately \$5.6 million. In addition, the Company made a lump-sum cash payment of approximately \$2.0 million to Mr. Dykes.

12. RELATED PARTY TRANSACTIONS

Since June 2003, neither the Company nor any of its subsidiaries have made or will make any loans to its executive officers. Prior to June 30, 2003, in connection with an investment partnership, one of the Company's subsidiaries made loans to several of its executive officers to fund their contributions to the investment partnership. Each loan is evidenced by a full-recourse promissory note in favor of the Company. Interest rates on the notes range from 5.05% to 6.40%. The remaining balance of these loans, including accrued interest, as of March 31, 2006 and 2005 was approximately \$1.8 million.

Additionally, the Company has a loan outstanding from an executive officer of \$3.0 million and \$2.9 million, including accrued interest, as of March 31, 2006 and 2005, respectively. This loan was initially provided to the executive officer prior to June 2003, and was last amended on December 13, 2005, prior to the time the individual became an executive officer. The loan is evidenced by a promissory note in favor of the Company and the Company has the option to secure the loan with a deed of trust on property of the officer. The note bears interest at 1.49%. There were no other loans outstanding from the Company's executive officers as of March 31, 2006 and 2005.

On April 13, 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business to an affiliate of Kohlberg Kravis Roberts & Co. Upon closing of the transaction, the Company expects to receive in excess of \$600.0 million in cash and a \$250.0 million face value note receivable with a 10.5% paid-in-kind interest coupon which matures in eight years, and retain a 15% equity interest in the new company.

Mr. Michael E. Marks, the Chairman of the Company's Board of Directors, is a member of KKR. The terms of the transaction were approved by an independent committee of the Company's Board of Directors as well as by the Audit Committee of the Company's Board of Directors. The Independent Committee of the Company's Board of Directors received fairness opinions from certain independent third-party financial institutions.

13. BUSINESS AND ASSET ACQUISITIONS AND DIVESTITURES***Business and Asset Acquisitions***

The business acquisitions described below were accounted for using the purchase method of accounting, and accordingly, the fair value of the net assets acquired and the results of the acquired businesses were included in the Company's consolidated statements of operations from the acquisition dates forward. Comparative pro forma information, with the exception of Nortel and Hughes Software Systems Limited, has not been presented, as the results of the operations of the acquired businesses were not material to the Company's consolidated financial statements on either an individual or an aggregate basis. The Company has not finalized the allocation of the consideration for certain of its recently completed acquisitions and expects to complete this by the end of the first quarter of fiscal year 2007.

Nortel

On June 29, 2004, the Company entered into an asset purchase agreement with Nortel providing for Flextronics purchase of certain of Nortel's optical, wireless, wireline and enterprise manufacturing operations and optical design operations. The purchase of these assets has occurred in stages. On November 1, 2004 the Company completed the closing of the optical design businesses in Canada and Northern Ireland. On February 8, 2005, August 22, 2005 and May 8, 2006, the Company also completed the closing of the manufacturing operations and related assets (including product integration, testing, repair and logistics operations) in Montreal, Canada, Châteaudun, France, and in Calgary, Canada, respectively.

Flextronics provides the majority of Nortel's systems integration activities, final assembly, testing and repair operations, along with the management of the related supply chain and suppliers, under a four-year manufacturing agreement. Additionally, Flextronics provides Nortel with design services for end-to-end, carrier grade optical network products under a three-year design services agreement.

If any of the acquired inventories have not been used by the first anniversary of the applicable closing date, the Company will have a put right under which, subject to certain closing conditions, it may then sell that inventory back to Nortel. Similarly, if any of the acquired equipment is unused at the first anniversary of the applicable closing date, then subject to certain conditions, the Company will be entitled to sell it back to Nortel.

During fiscal year 2005, the Company paid \$96.5 million to Nortel related to the closings of the optical design business in Canada and Northern Ireland and the closing of the manufacturing operations and related assets in Montreal, Canada. In connection with these closings, the Company entered into promissory notes amounting to \$185.7 million, which were classified as other current liabilities as of March 31, 2005, and were paid during calendar year 2005. The purchases during fiscal year 2005 resulted in purchased intangible assets of \$20.7 million and goodwill of \$86.7 million, based on third-party valuations.

The Company anticipates that the aggregate cash purchase price for all of the assets acquired, including the closing of the Calgary manufacturing operations in May 2006, will be in the range of approximately \$575.0 million to \$625.0 million. As of March 31, 2006, the Company has made net payments of \$366.2 million in the aggregate to Nortel. The total purchase price will be allocated to the fair value of the acquired assets, which management currently estimates will be \$340.0 million to \$390.0 million for inventory, \$35.0 million for fixed assets, and the remaining amounts to intangible assets, including goodwill. The purchases to date have resulted in purchased intangible assets of \$26.9 million and goodwill of \$189.9 million, of which \$6.2 million and \$103.2 million, respectively, was recognized during fiscal year 2006 based on third-party valuations.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)*****Hughes Software Systems Limited (now known as Flextronics Software Systems Limited (FSS))***

In October 2004, the Company acquired approximately 70% of the total outstanding shares of FSS for total cash consideration of \$256.2 million including acquisition costs and net of cash acquired. The fair value of the Company's proportionate share of the net assets acquired totaled approximately \$8.0 million. The purchase price resulted in purchased intangible assets of \$31.8 million and goodwill of \$210.4 million based on third-party valuations.

During fiscal year 2006, the Company acquired an additional 26% incremental ownership for total cash consideration of approximately \$154.3 million. The incremental investment reduced other liabilities by approximately \$26.2 million primarily related to minority interests net of increases in deferred taxes and other liabilities. The incremental investment also resulted in purchased identifiable intangible assets of \$18.0 million and goodwill of \$110.1 million, based on third-party valuations.

The Company owns approximately 96% of the total outstanding shares of FSS as of March 31, 2006. FSS was delisted from the Indian stock exchanges on February 10, 2006, and any shareholders whose shares have not been acquired (approximately 1.5 million shares as of March 31, 2006) may offer their shares for sale to the Company at the exit price of Rs. 725 per share (approximately US\$16.31 per share) for a period of six months following the date of the delisting.

In April 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business which includes FSS. Accordingly, the operating results of the Software Development and Solutions business are included in discontinued operations for all periods presented, see Note 16, Discontinued Operations.

The following table reflects the unaudited pro forma consolidated results of operations for the periods presented, as though the acquisitions of Nortel's operations in Canada, Northern Ireland and France had occurred as of the beginning of fiscal year 2005, and the acquisition of FSS had occurred as of the beginning of fiscal year 2004, after giving effect to certain adjustments and related income tax effects:

During fiscal year 2006, the Company completed certain acquisitions that were not individually significant to the Company's results of operations and financial position. The aggregate cash purchase price for these acquisitions totaled approximately \$157.5 million, net of cash acquired. In addition, the Company paid approximately \$67.7 million in cash (including \$30.8 million related to discontinued operations) and issued 2.5 million ordinary shares (including 672,375 ordinary shares related to discontinued operations) for contingent purchase price adjustments relating to certain historical acquisitions. Goodwill and intangibles resulting from these acquisitions, as well as from contingent purchase price adjustments for certain historical acquisitions, totaled approximately \$232.9 million, of which \$36.7 million related to discontinued operations. The purchase price for these acquisitions has been allocated on the basis of the estimated fair value of assets acquired and liabilities assumed. The Company has not finalized the allocation of the consideration for certain of its recently completed acquisitions pending the completion of valuations. The purchase price for certain of these acquisitions is subject to adjustments for contingent consideration, based upon the businesses achieving specified levels of earnings through January 2007. The contingent consideration has not been recorded as part of the purchase price, pending the outcome of the contingency.

During fiscal year 2005, the Company completed certain acquisitions that were not individually significant to the Company's results of operations and financial position. The aggregate cash purchase price for these acquisitions totaled approximately \$119.8 million (including \$61.8 million related to discontinued operations), net of cash acquired. The Company also paid approximately \$2.5 million in cash and issued 136,000 ordinary shares (including 73,000 ordinary shares related to discontinued operations) for contingent purchase price adjustments relating to certain historical acquisitions. In addition, the Company issued approximately 9.9 million ordinary shares (including 7.1 million ordinary shares related to discontinued operations) during fiscal year 2005, which equated to approximately \$125.0 million (including \$95.2 million related to discontinued operations), as part of the purchase price for the acquisitions. The fair value of the ordinary shares issued was determined based on the quoted market prices of the Company's ordinary shares two days before and after the date the terms of the acquisitions were agreed to and announced. Goodwill and intangibles resulting from these acquisitions during fiscal year 2005, as well as from contingent purchase price adjustments for certain historical acquisitions, totaled approximately \$358.2 million, of which \$184.3 million related to discontinued operations. The purchase price for these acquisitions has been allocated on the basis of the estimated fair value of assets acquired and liabilities assumed. The purchase price for certain of these acquisitions is subject to adjustments for contingent consideration, based upon the businesses achieving specified levels of earnings through December 31, 2010. The contingent consideration has not been recorded as part of the purchase price, pending the outcome of the contingency.

During fiscal year 2004, the Company completed certain acquisitions that were not individually significant to the Company's results of operations and financial position. The aggregate cash purchase price for the acquisitions amounted to \$120.0 million, net of cash acquired. The fair value of the net liabilities assumed in fiscal year 2004 amounted to approximately \$321.6 million. The costs of these acquisitions have been allocated on the basis of the estimated fair value of assets acquired and liabilities assumed. Goodwill and intangibles resulting from the Company's fiscal year 2004 acquisitions amounted to approximately \$468.6 million. The purchase price for certain of these acquisitions is subject to adjustments for contingent consideration, based upon the businesses achieving specified levels of earnings through December 2006. The contingent consideration has not been recorded as part of the purchase price, pending the outcome of the contingency.

Divestitures

During the September 2005 quarter, the Company merged its Flextronics Network Services (FNS) division with Telavie AS, a company wholly-owned by Altor, a private equity firm focusing on investments in the Nordic region. The Company received an upfront cash payment and also retained a 35% ownership in the merged company, Relacom Holding AB (Relacom). The Company is entitled to future contingent consideration and deferred purchase price payments and is committed to certain future investments in Relacom. The Company accounts for its investment in the common stock of Relacom using the equity

method of accounting. The associated equity in the net income of Relacom has not been material to the Company's results of operations for fiscal year 2006, and was classified as a component of interest and other expense, net, in the consolidated statements of operations. The initial carrying value of the equity investment was \$116.8 million based on a third party valuation adjusted for the Company's economic interest in the gain on divestiture. The excess of the carrying value of the investment and the underlying equity in net assets is attributable to goodwill and intangible assets.

During the September 2005 quarter, the Company sold its Semiconductor division to AMIS Holdings, Inc. (AMIS), the parent company of AMI Semiconductor, Inc. As a result of the divestitures of Network Services and Semiconductor divisions, the Company received aggregate cash payments of approximately \$518.5 million and notes receivable valued at \$38.3 million. The aggregate net assets sold in the divestitures were approximately \$573.0 million. The Company recognized an aggregate pretax gain of \$67.6 million during fiscal year 2006, of which \$43.8 million was attributable to discontinued operations. The gain attributable to continuing operations was net of approximately \$3.0 million in expense for accelerated deferred compensation and various post closing purchase price adjustments. The divestitures of the Semiconductor and Network Services divisions resulted in tax expense of \$98.9 million (of which \$30.3 million was attributable to discontinued operations). Revenues related to the divested businesses were approximately \$317.0 million, \$839.0 million and \$727.6 million for fiscal years 2006, 2005 and 2004, respectively of which, \$41.6 million, \$73.1 million and \$51.2 million, respectively, were attributable to discontinued operations.

On April 13, 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business to an affiliate of Kohlberg Kravis Roberts & Co. As such, the Software Development and Solutions business and the Semiconductor division are being treated as discontinued operations in the consolidated financial statements. The divestiture of the Network Services division does not meet the criteria for discontinued operations treatment under SFAS 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* and as such, its historical results are included in the Company's results from continuing operations.

14. SEGMENT REPORTING

As of March 31, 2006, the Company operates and internally manages two operating segments, Electronic Manufacturing Services (EMS) and Software Development and Services, which are combined for operating segment disclosures as they do not meet the quantitative thresholds for separate disclosure established in SFAS No. 131,

Disclosures about Segments of an Enterprise and Related Information. During the six months ended September 2005 and prior, EMS and the Network Services division comprised the Company's two operating segments. In August 2005, the Company sold its Network Services division, and as a result, this division was no longer managed as a separate operating segment. During the quarter ended December 31, 2005, the Company commenced a regular evaluation of the performance and the allocation of its resources and, as a result, identified its Software Development and Services division as a new operating segment. In April 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business (refer to Note 16). Operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the Chief Executive Officer.

Consistent with its strategy to evaluate the strategic and financial contributions of each of its operations and to focus on the primary growth objectives in the Company's core EMS vertically-integrated business activities, the Company divested its Semiconductor business in September 2005 and on April 13, 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business to an affiliate of Kohlberg Kravis Roberts & Co. Upon closing, the Company expects to receive in excess of \$600.0 million in cash consideration and a \$250.0 million face value note with a 10.5% paid-in-kind interest coupon which matures in eight years. The Company will also retain a 15% equity stake in the business, which will operate as an independent Software Development and Solutions company. As the Company will not have the ability to significantly influence the operating decisions of the divested business, the cost method of accounting for the investment will be used. The purchase price is subject to customary working capital and certain other post-closing adjustments.

In accordance with SFAS 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the divestitures of the Semiconductor and Software Development and Solutions businesses qualify as discontinued operations, and accordingly, the Company has reported the results of operations and financial position of these businesses in discontinued operations within the statements of operations and the balance sheets for all periods presented.

NOTES TO SUPPLEMENTARY FINANCIAL STATEMENTS**

1. ORGANIZATION OF THE COMPANY

Flextronics International Ltd. (the Parent), Registration Number 199002645H, was incorporated in the Republic of Singapore in May 1990. It is principally engaged in investment holding. The address of the Parent's registered office is One Marina Boulevard, #28-00, Singapore 018989. The Parent, together with its wholly-owned subsidiaries (collectively the Company), is a leading provider of advanced electronics manufacturing services (EMS) to original equipment manufacturers (OEMs) in industries including: computing; mobile; consumer digital; industrial, semiconductor and white goods; automotive, marine and aerospace; infrastructure; and medical.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

Amounts included in the financial statements are expressed in U.S. dollars unless otherwise designated as Singapore dollars (S\$).

The accompanying supplementary balance sheets comprise solely the standalone accounts of Flextronics International Ltd., the Parent company. These balance sheets are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), other than as noted in the following paragraphs entitled Investment in Subsidiaries.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things, allowances for doubtful accounts, inventory allowances, useful lives of property, equipment and intangible assets, asset impairments, fair values of derivative instruments and the related hedged items, restructuring charges, contingencies, capital leases, and the fair values of options granted under the Parent's stock-based compensation plans. Actual results may differ from previously estimated amounts, and such differences may be material to the financial statements. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period they occur.

Translation of Foreign Currencies

The functional currency of the Parent is the U.S. dollar, with the exception of its Cayman branch, which is measured in Euros. Accordingly, the financial position and results of operations of the Cayman branch are measured using the Euro as the functional currency, after which all assets and liabilities of the Cayman branch are then translated into U.S. dollars at current exchange rates as of the applicable balance sheet date. Income and expense items are translated at the average exchange rates prevailing during the period. Cumulative gains and losses from the translation of the branch's financial statements are reported as a separate component of shareholders' equity.

Additionally, the Parent's Hong Kong branch enters into certain transactions with related companies, including short-term contractual obligations and long-term loans. Certain of these obligations and loans are denominated in a non-functional currency, namely the Swedish krona. Short-term contractual obligations are translated into U.S. dollars at current exchange rates as of the applicable balance sheet date and the resulting foreign exchange gains and losses arising from the revaluation are recognized in the statement of operations. Long-term loans are translated into U.S. dollars at current exchange rates as of the applicable balance sheet date, and the resulting translation gains and losses from the revaluation are reported as a separate component of shareholders' equity.

NOTES TO SUPPLEMENTARY FINANCIAL STATEMENTS (Continued)**

Cash and Cash Equivalents

All highly liquid investments with maturities of three months or less from original dates of purchase are carried at fair market value and considered to be cash equivalents. As of March 31, 2006 and 2005, cash and cash equivalents consist of cash deposited in checking and money market accounts.

Long-term Investments

The Parent also has certain investments in non-publicly traded companies. These investments are carried at cost and are included within other assets on the Parent's balance sheet. Non-majority-owned investments are accounted for using the equity method when the Parent has an ownership percentage equal to or greater than 20%, or has the ability to significantly influence the operating decisions of the issuer, otherwise the cost method is used. The Parent continuously monitors these investments for impairment and makes appropriate reductions in carrying values when necessary.

Due from/ Due to Subsidiaries

Balances due from and to subsidiaries are unsecured. Certain obligations are non-interest bearing and others have rates ranging from 2.35% to 9.035% per annum.

Investment in Subsidiaries

Investment in subsidiaries is accounted for using the equity method defined to be when the Parent has an ownership percentage equal to or greater than 20%, or has the ability to significantly influence the operating decisions of the investee. Under this method, the Parent's investment in subsidiaries is reported as a separate line on the Parent's balance sheet. U.S. GAAP requires that these investments be consolidated rather than reported using the equity method.

Concentration of Credit Risk

Financial instruments, which potentially subject the Parent to concentrations of credit risk, are primarily cash and cash equivalents, investments and derivative instruments.

The Parent maintains cash and cash equivalents with various financial institutions that management believes to be of high credit quality. These financial institutions are located in many different locations throughout the world. The Parent's cash equivalents consist primarily of cash deposited in money market accounts. The Parent's investment policy limits the amount of credit exposure to 20% of the total investment portfolio in any single issuer.

The amount subject to credit risk related to derivative instruments is generally limited to the amount, if any, by which a counterparty's obligations exceed the obligations of the Parent with that counterparty. To manage the counterparty risk, the Parent limits its derivative transactions to those with recognized financial institutions.

Intangible Assets, net

All of the Parent's acquired intangible assets are subject to amortization over their estimated useful lives. Intangible assets are reviewed for impairment in accordance with Statement of Financial Accounting Standards No. 144,

Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144) whenever events or changes in circumstance indicate that the carrying amount of an intangible asset may not be recoverable. In accordance with SFAS No. 144, an impairment loss is recognized when the carrying amount of an intangible asset exceeds its fair value. Intangible assets as of March 31, 2005 consisted of

Table of Contents**FLEXTRONICS INTERNATIONAL LTD.****NOTES TO SUPPLEMENTARY FINANCIAL STATEMENTS (Continued)**

developed technologies of \$3.1 million, net of accumulated amortization of \$1.9 million. In fiscal year 2006, the Parent's intangible assets were sold and the resulting gain was immaterial.

Derivative Instruments and Hedging Activities

The Parent accounts for derivative instruments and hedging activities in accordance with Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133), as amended by SFAS No. 138, *Accounting for Certain Derivative Instruments and Hedging Activities – an Amendment of SFAS 133* and SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*. All derivative instruments are recorded on the balance sheet at fair value. If the derivative instrument is designated as a cash flow hedge, effectiveness is measured on a quarterly basis by calculating the ratio of the cumulative change in the fair value of the derivative instrument to the cumulative change in the hedged item. The effective portion of changes in the fair value of the derivative instrument is recorded in shareholders' equity as a separate component of accumulated other comprehensive income, and recognized in the statement of operations when the hedged item affects earnings. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings immediately. If the derivative instrument is designated as a fair value hedge, the changes in the fair value of the derivative instrument and of the hedged item attributable to the hedged risk are recognized in earnings in the current period.

Accounting for Stock-Based Compensation

At March 31, 2006, the Parent had three stock-based employee compensation plans, which are more fully described in Note 8, Shareholders' Equity. The Parent applies the intrinsic value method of accounting for stock-based employee compensation. As a result, generally no compensation expense is recognized for options granted under these stock incentive plans because typically, the option terms are fixed and the exercise price equals or exceeds the market price of the underlying stock on the date of grant. The Parent applies the disclosure only provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS 123).

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 (Revised 2004), *Share Based Payment* (SFAS 123(R)), which (i) revises SFAS 123 to eliminate the disclosure only provisions of that statement and the alternative to follow the intrinsic value method of accounting under APB 25 and related interpretations, and (ii) requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments, including grants of employee stock options, based on the grant-date fair value of the award and recognize that cost in its results of operations over the period during which an employee is required to provide the requisite service in exchange for that award. The Parent is required to adopt this statement beginning April 1, 2006. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under SFAS 123. The Parent has elected to apply the provisions of this statement prospectively, and will continue using the Black-Scholes option valuation model to estimate the fair value of its stock-based awards, and will also continue to recognize the related expense under the straight-line attribution method. Although the pro forma effects may be indicative of the Parent's adoption of SFAS 123(R), the actual expense will be dependent on numerous factors including, but not limited to, the selection of assumptions used to fair value stock-based awards granted subsequent to April 1, 2006, the number of new stock-based awards granted to employees, policy decisions regarding accounting for the tax effects of share-based awards, and assumed award forfeiture rates. Unamortized compensation is estimated to be approximately \$41.1 million on April 1, 2006, based on unvested stock-based awards outstanding as of March 31, 2006.

Table of Contents**FLEXTRONICS INTERNATIONAL LTD.****NOTES TO SUPPLEMENTARY FINANCIAL STATEMENTS (Continued)**

In October 2005, the FASB issued FASB Staff Position FAS 123(R)-2, *Practical Accommodation to the Application of Grant Date as Defined in FAS 123(R)* (FSP 123(R)-2). FSP 123(R)-2 provides guidance on the application of grant date as defined in SFAS 123(R). In accordance with this standard, a grant date of an award exists if a) the award is a unilateral grant and b) the key terms and conditions of the award are expected to be communicated to an individual recipient within a relatively short time period from the date of approval. The Parent will adopt this standard when it adopts SFAS 123(R), and does not anticipate that the implementation of this statement will have a significant impact on the Parent's results of operations.

In November 2005, the FASB issued FASB Staff Position FAS 123(R)-3, *Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards* (FSP 123(R)-3). FSP 123(R)-3 provides an elective alternative method that establishes a computational component to arrive at the beginning balance of the accumulated paid-in capital pool related to employee compensation and a simplified method to determine the subsequent impact on the accumulated paid-in capital pool of employee awards that are fully vested and outstanding upon the adoption of SFAS 123(R). The Parent is currently evaluating this transition method.

On February 7, 2006 and January 17, 2005, the Parent's Board of Directors approved accelerating the vesting of unvested options to purchase the Parent's ordinary shares held by current employees, including executive officers, priced at or above \$12.37 and \$12.98, respectively. No options held by non-employee directors were subject to the acceleration. The accelerations were effective as of February 7, 2006 and January 17, 2005, provided that holders of incentive stock options (ISOs) within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, have the opportunity to decline the acceleration of ISO options in order to prevent changing the status of the ISO option for federal income tax purposes to a non-qualified stock option.

The acceleration of these options was done primarily to eliminate future compensation expense the Parent would otherwise recognize in its statement of operations with respect to these options upon the adoption of SFAS 123(R). In addition, because these options have exercise prices in excess of current market values and are not fully achieving their original objectives of incentive compensation and employee retention, management believes that the acceleration may have a positive effect on employee morale and retention. The future expense that was eliminated from the February 2006 and January 2005 accelerations was approximately \$35.3 million and \$121.2 million, respectively (of which approximately \$12.8 million and \$26.4 million was attributable to executive officers, respectively).

The Parent grants key employees rights to acquire a specified number of ordinary shares for no cash consideration under its 2001 Equity Incentive Plan and its 2002 Interim Incentive Plan (restricted stock units) in exchange for continued service with the Parent. Restricted stock units awarded under the plan generally vest in installments over a five-year period and unvested units are forfeited upon termination of employment. During fiscal year 2006, 35,000 restricted stock units were granted with a weighted-average fair value on the date of grant of \$9.37 per ordinary share. During fiscal year 2005, 175,000 restricted stock units were granted with a weighted-average fair value on the date of grant of \$13.58 per ordinary share. Grants of restricted stock units are recorded as compensation expense over the vesting period at the fair market value of the Parent's ordinary shares at the date of grant. Compensation expense related to restricted stock units was approximately \$2.2 million during each of the fiscal years 2006 and 2005. Unearned compensation associated with restricted stock units was \$4.1 million and \$6.8 million as of March 31, 2006 and 2005, respectively, and is included as a component of shareholders' equity in the balance sheets.

Recent Accounting Pronouncements

Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions

On December 16, 2004, the FASB issued Statement of Financial Accounting Standards No. 153, *Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary Transactions* (SFAS 153). SFAS 153 addresses the measurement of exchanges of nonmonetary assets and redefines the scope of transactions that should be measured based on the fair value of the assets exchanged. SFAS 153 was effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of SFAS 153 did not have a material impact on the Parent's financial condition.

Accounting Changes and Error Corrections

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* (SFAS 154). SFAS 154 is a replacement of Accounting Principles Board Opinion No. 20 (APB 20) and FASB Statement No. 3 (SFAS 3). SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes retrospective application, or the latest practicable date, as the required method for reporting a change in accounting principle and the reporting of a correction of an error. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 and is required to be adopted by the Parent in the first quarter of fiscal year 2007. The Parent does not expect that the adoption of SFAS 154 will have a material impact on its financial condition.

Accounting for Servicing of Financial Assets

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156, *Accounting for Servicing of Financial Assets* (SFAS 156), which amends SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS 156 requires recognition of a servicing asset or liability at fair value each time an obligation is undertaken to service a financial asset by entering into a servicing contract. SFAS 156 also provides guidance on subsequent measurement methods for each class of servicing assets and liabilities and specifies financial statement presentation and disclosure requirements. SFAS 156 is effective for fiscal years beginning after September 15, 2006 and is required to be adopted by the Parent in the first quarter of fiscal year 2008. The Parent does not expect the adoption of SFAS 156 will have a material impact on its financial condition.

Accounting for Conditional Asset Retirement Obligations

In March 2005, the FASB issued Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* (FIN 47) as an interpretation of FASB Statement No. 143, *Accounting for Asset Retirement Obligations* (SFAS 143). This interpretation clarifies that the term conditional asset retirement obligation, as used in SFAS 143, refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. This interpretation also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. The adoption of FIN 47 did not have a material impact on the Parent's financial condition.

Revolving Credit Facilities

The Company has a revolving credit facility in the amount of \$1.35 billion, under which there were no borrowings outstanding as of March 31, 2006. The credit facility consists of two separate credit agreements, one providing for up to \$1.105 billion principal amount of revolving credit loans to the Parent and its designated subsidiaries; and one providing for up to \$245.0 million principal amount of revolving credit loans to a U.S. subsidiary of the Parent. The credit facility is a five-year facility expiring in May 2010. Borrowings under the credit facility bear interest, at the Parent's option, either at (i) the base rate (the greater of the agent's prime rate or 0.50% plus the federal funds rate) plus the applicable margin for base rate loans ranging between 0.0% and 0.125%, based on the Parent's credit ratings; or (ii) the LIBOR rate plus the applicable margin for LIBOR loans ranging between 0.625% and 1.125%, based on the Parent's credit ratings. The Parent is required to pay a quarterly commitment fee ranging from 0.125% to 0.250% per annum of the unutilized portion of the credit facility and, if the utilized portion of the facility exceeds 33% of the total commitment, a quarterly utilization fee ranging between 0.125% to 0.250% on such utilized portion, in each case based on the Parent's credit ratings. The Parent is also required to pay letter of credit usage fees ranging between

0.625% and 1.125% per annum (based on the Parent's credit ratings) on the amount of the daily average outstanding letters of credit and issuance fees of 0.125% per annum on the daily average undrawn amount of letter of credit.

The credit facility is unsecured, and contains certain restrictions on the Parent's and its subsidiaries' ability to (i) incur certain debt, (ii) make certain investments, (iii) make certain acquisitions of other entities, (iv) incur liens, (v) dispose of assets, (vi) make non-cash distributions to shareholders, and (vii) engage in

transactions with affiliates. These covenants are subject to a number of significant exceptions and limitations. The credit facility also requires that the Parent maintain a maximum ratio of total indebtedness to EBITDA (earnings before interest expense, taxes, depreciation and amortization), and a minimum fixed charge coverage ratio, as defined, during the term of the credit facility. As of March 31, 2006, the Parent was in compliance with the covenants under this credit facility. Borrowings under the credit facility are guaranteed by the Parent and certain of its subsidiaries.

The Parent and certain subsidiaries of the Parent have various lines of credit available with annual interest rates ranging from 1.61% to 5.56%. These lines of credit expire on various dates through fiscal year 2007 and are primarily secured by assignment of account receivables. As of March 31, 2006, \$100.0 million was outstanding under the facilities.

6.25% Senior Subordinated Notes

During fiscal year 2006, the Parent repurchased approximately \$97.9 million principal amount of its 6.25% senior subordinated notes which mature in November 2014. The loss associated with the early extinguishment of the notes was not material.

The Parent may redeem the notes in whole or in part at redemption prices of 103.125%, 102.083% and 101.042% of the principal amount thereof if the redemption occurs during the respective 12-month periods beginning on November 15 of the years 2009, 2010 and 2011, and at a redemption price of 100% of the principal amount thereof on and after November 15, 2012, in each case, plus any accrued and unpaid interest to the redemption date. In addition, if the Parent generates net cash proceeds from certain equity offerings on or before November 15, 2007, the Parent may redeem up to 35% in aggregate principal amount of the notes at a redemption price of 106.25% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest to the redemption date.

The indenture governing the Parent's outstanding 6.25% senior subordinated notes contain certain covenants that, among other things, limit the ability of the Parent and its restricted subsidiaries to (i) incur additional debt, (ii) issue or sell stock of certain subsidiaries, (iii) engage in certain asset sales, (iv) make distributions or pay dividends, (v) purchase or redeem capital stock, or (vi) engage in transactions with affiliates. The covenants are subject to a number of significant exceptions and limitations. As of March 31, 2006, the Parent was in compliance with the covenants under this indenture.

1.00% Convertible Subordinated Notes

The 1.00% convertible subordinated notes are due in August 2010 and are convertible at any time prior to maturity into ordinary shares of the Parent at a conversion price of \$15.525 (subject to certain adjustments).

6.50% Senior Subordinated Notes

The Parent may redeem its 6.50% senior subordinated notes that are due May 2013 in whole or in part at redemption prices of 103.250%, 102.167% and 101.083% of the principal amount thereof if the redemption occurs during the respective 12-month periods beginning on May 15 of the years 2008, 2009 and 2010, and at a redemption price of 100% of the principal amount thereof on and after 2011, in each case, plus any accrued and unpaid interest to the redemption date.

The indenture governing the Parent's outstanding 6.50% senior subordinated notes contain certain covenants that, among other things, limit the ability of the Parent and its restricted subsidiaries to (i) incur additional debt, (ii) issue or sell stock of certain subsidiaries, (iii) engage in certain asset sales, (iv) make distributions or pay dividends, (v) purchase or redeem capital stock, or (vi) engage transactions with affiliates. The covenants are subject to a number of significant exceptions and limitations. As of March 31, 2006, the Parent was in compliance with the covenants under this indenture.

Zero Coupon Convertible Junior Subordinated Notes

The zero coupon, zero yield, convertible junior subordinated notes are callable by the Parent after three years and do not provide a put option prior to maturity (March 2008). The notes are convertible into ordinary shares at a conversion price of \$10.50 per share and are payable in cash or stock at maturity, at the Parent's option. In July 2005, \$5.0 million of the notes were converted into 476,190 ordinary shares of the Parent at a conversion price of \$10.50 per share.

As of March 31, 2006, the approximate fair values of the Parent's 6.50% notes, 6.25% notes and 1.00% convertible notes based on broker trading prices were 99.375%, 98.375% and 91.25% of the face values of the notes, respectively.

4. FINANCIAL INSTRUMENTS

The carrying amount of the Parent's cash and cash equivalents and investments approximates fair value. The fair value of the Parent's long-term debt is determined based on current broker trading prices. The Parent's cash equivalents consist of cash deposited in money market accounts (see Note 2, Summary of Accounting Policies). The Parent's investment policy limits the amount of credit exposure to 20% of the total investment portfolio in any single issuer.

The Parent is exposed to foreign currency exchange rate risk inherent in assets and liabilities denominated in non-functional currencies. The Parent has established currency risk management programs to protect against reductions in value and volatility of future cash flows caused by changes in foreign currency exchange rates. The Parent enters into short-term foreign currency forward contracts to hedge only those currency exposures associated with cash flows denominated in non-functional currencies. Gains and losses on forward contracts generally offset losses and gains on the assets, liabilities and transactions hedged, and accordingly, generally do not subject the Parent to risk of significant accounting losses. The Company hedges committed exposures and does not engage in foreign currency speculation. The credit risk of these forward contracts is minimized since the contracts are with large financial institutions. The aggregate notional amount of outstanding contracts was \$20.6 million as of March 31, 2006. These foreign exchange contracts, which expire in approximately one month, settle in Euro and Swedish Krona.

On November 17, 2004, the Parent issued \$500.0 million of 6.25% senior subordinated notes due in November 2014. Interest is payable semi-annually on May 15 and November 15. The Parent also entered into interest rate swap transactions to effectively convert a portion of the fixed interest rate debt to a variable rate. The swaps, having notional amounts totaling \$400.0 million and which expire in 2014, are accounted for as fair value hedges under Statement of Financial Accounting Standards No. 133 *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133). Under the terms of the swaps, the Parent pays an interest rate equal to the six-month LIBOR (estimated at 5.16% at March 31, 2006), set in arrears, plus a fixed spread ranging from 1.37% to 1.52%, and receives a fixed rate of 6.25%. The swap transaction qualifies for the shortcut method of recognition under SFAS 133, therefore no portion of the swap is treated as ineffective. As of March 31, 2006 and 2005, the Parent recognized a \$16.9 million and \$9.7 million liability, respectively, to reflect the fair value of the interest rate swaps, with a corresponding decrease to the carrying value of the 6.25% senior subordinated notes. These amounts were included in other current liabilities and as a reduction of other current assets, as of March 31, 2006 and 2005, respectively.

5. TRADE RECEIVABLES SECURIZATION

The Company continuously sells a designated pool of trade receivables to a third-party qualified special purpose entity, which in turn sells an undivided ownership interest to a conduit, administered by an unaffiliated financial institution. In addition to this financial institution, the Parent participates in the securitization agreement as an investor in the conduit. The Company continues to service, administer and

collect the receivables on behalf of the special purpose entity. The Company pays annual facility and commitment fees of up to 0.24% for unused amounts and program fees of up to 0.34% of outstanding amounts. The securitization agreement allows the operating subsidiaries participating in the securitization program to receive a cash payment for sold receivables, less a deferred purchase price receivable. The Company's share of the total investment varies depending on certain criteria, mainly the collection performance on the sold receivables. In September 2005, the Company amended the securitization agreement to increase the size of the program to \$700.0 million and to extend the expiration date to September 2006. The unaffiliated financial institution's maximum investment limit was increased to \$500.0 million. The amended securitization agreement also includes two Obligor Specific Tranches (OST) which total \$200.0 million. The OSTs are part of the main facility and were incorporated in order to minimize the impact of excess concentrations of two major customers.

As of March 31, 2006 and 2005, approximately \$228.0 million and \$249.9 million of the Company's accounts receivable, respectively, had been sold to the third-party qualified special purpose entity described above which represent the face amount of the total outstanding trade receivables on all designated customer accounts on those dates. The Company received net cash proceeds of approximately \$156.6 million and \$134.7 million from the unaffiliated financial institutions for the sale of these receivables during fiscal years 2006 and 2005, respectively. The Company has a recourse obligation that is limited to the deferred purchase price receivable, which approximates 5% of the total sold receivables, and its own investment participation, the total of which was approximately \$71.4 million and \$123.1 million as of March 31, 2006 and 2005, respectively.

6. COMMITMENTS AND CONTINGENCIES***Legal Proceedings***

The Parent is subject to legal proceedings, claims, and litigation arising in the ordinary course of business. The Parent defends itself vigorously against any such claims. Although the outcome of these matters is currently not determinable, management does not expect that the ultimate costs to resolve these matters will have a material adverse effect on the Parent's financial position, results of operations, or cash flows.

Guarantees

The Parent adopted the disclosure provision of FASB Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, (FIN 45). As of March 31, 2006, the Parent issued approximately \$1.1 billion in bank guarantees in connection with debt arrangements of certain of its subsidiaries. The Parent also issued other guarantees in connection with supplier arrangements and guarantees associated with operating leases that were entered into by certain of its subsidiaries.

7. INCOME TAXES

The Parent is a Singapore corporation and is a non-resident for Singapore tax purposes. Non-Singapore resident taxpayers, subject to certain exceptions, are subject to income tax on (1) income that is accrued in or derived from Singapore and (2) foreign income received in Singapore.

Since the Parent did not derive income from or receive foreign income in Singapore, it is not subject to Singapore income tax. To the extent that the Parent continues to meet the above-mentioned requirements as determined by current law, no Singapore income tax will be imposed on the Parent. Accordingly, the Parent records minimal current income tax expense and does not record any deferred income taxes.

8. SHAREHOLDERS EQUITY

Effective January 30, 2006, the Singapore Companies Act, Chapter 50 was amended to, among other things, allow Singapore companies to repurchase outstanding ordinary shares subject to certain requirements and eliminate the concepts of par value, additional paid-in capital and authorized share capital. As a result of the Companies (Amendment) Act 2005, effective January 30, 2006, the outstanding shares of the Parent have no par value and the Parent has combined the par value of its ordinary shares together with additional paid-in capital into one account for all periods presented.

Equity Offering

On July 27, 2004, the Parent completed a public offering of 24,330,900 of its ordinary shares for which the Parent received net proceeds of approximately \$299.5 million.

Share Repurchase Plan

On April 7, 2006, the Parent's Board of Directors authorized the repurchase of up to \$250.0 million of its outstanding ordinary shares. Share repurchases, if any, will be made in the open market at such time and in such amounts as management deems appropriate and will be made pursuant to the Share Purchase Mandate approved by the shareholders at the Parent's 2005 annual general meeting. Shares repurchased under the program will be canceled.

Stock Option and Incentive Plans

At March 31, 2006, the Parent had three stock-based employee compensation plans: the 2004 Award Plan for New Employees (the 2004 Plan), the 2002 Interim Incentive Plan (the 2002 Plan), and the 2001 Equity Incentive Plan (the 2001 Plan). The Parent's 1997 Employee Stock Purchase Plan was terminated by the Board of Directors on October 14, 2005.

The 2001 Plan provides for grants of up to 27,000,000 shares. Additionally, upon adoption of the 2001 Plan, the remaining shares that were available under the Parent's 1993 Share Option Plan (the 1993 Plan), the 1999 Interim Option Plan, the 1998 Interim Option Plan, the 1997 Interim Option Plan, and all assumed plans and any shares issuable upon exercise of the options granted under those plans that expire or become unexercisable for any reason without having been exercised in full, are available for grant under the 2001 Plan. The adoption of the 2001 Plan mandated that no additional options be granted under the 1993 Plan, the 1999 Interim Option Plan, the 1998 Interim Option Plan, the 1997 Interim Option Plan, or the assumed plans. Any options outstanding under these plans will remain outstanding until exercised or until they terminate or expire by their terms. The 2001 Plan contains a discretionary option grant program, an automatic option grant program, and a discretionary share bonus award program. The discretionary option grant program and share bonus award program is administered by the Compensation Committee with respect to executive officers and directors, and by the Chief Executive Officer with respect to all other employees.

Options granted under the 2001 Plan, the 1993 Plan, the 1999 Interim Option Plan, the 1998 Interim Option Plan, and the 1997 Interim Option Plan generally vest over four years. Options granted under the assumed plans have varying vesting schedules. Options granted under the 2001 Plan generally expire ten years from the date of grant. Pursuant to an amendment to the provisions relating to the term of options provided under the 1993 Plan, options granted subsequent to October 1, 2000 expire ten years from the date of grant, rather than the five-year term previously provided. Options granted under the 1999 Interim Option Plan expire five years from the date of grant. Options granted prior to July 2002 under the 1998 and 1997 Interim Option Plans expire five years from the date of grant and all subsequent option grants generally expire ten years from the date of grant.

Table of Contents**FLEXTRONICS INTERNATIONAL LTD.****NOTES TO SUPPLEMENTARY FINANCIAL STATEMENTS (Continued)**

The 2002 Plan provides for grants of up to 20,000,000 shares. The plan provides grants of nonqualified stock options and share bonus awards to employees, officers and directors. The exercise price of options granted under the 2002 Plan is determined by the Parent's Compensation Committee and may not be less than the fair market value of the underlying stock on the date of grant. Options issued under the 2002 Plan generally vest over four years and generally expire ten years from the date of grant.

The 2004 Plan provides for grants of up to 7,500,000 shares. The plan provides grants of nonqualified stock options and share bonus awards to new employees. The exercise price of options granted under the 2004 Plan is determined by the Parent's Compensation Committee and may not be less than the fair market value of the underlying stock on the date of grant. Options issued under the 2004 Plan generally vest over four years and generally expire ten years from the date of grant.

The Parent's 1997 Employee Stock Purchase Plan (the Purchase Plan) provided for issuance of up to 5,400,000 ordinary shares. The Purchase Plan was approved by the shareholders in October 1997. Under the Purchase Plan, employees were able to purchase, on a periodic basis, a limited number of ordinary shares through payroll deductions over a six-month period up to 10% of each participant's compensation. The per share purchase price was 85% of the fair market value of the stock at the beginning or end of the offering period, whichever was lower. The ordinary shares sold under this plan in fiscal years 2006, 2005 and 2004 amounted to 914,244, 560,596, and 717,595, respectively. The weighted-average fair value of ordinary shares sold under this plan in fiscal years 2006, 2005 and 2004 was \$11.51, \$14.31 and \$10.30 per share, respectively. On October 14, 2005, the Parent's Board of Directors approved the termination of the Purchase Plan and no shares will be available for issuance subsequent to March 31, 2006.

The following table presents the activity for options outstanding under all of the stock option plans (Price reflects the weighted-average exercise price):

9. SUBSEQUENT EVENTS

On April 13, 2006, the Company entered into a definitive agreement to sell its Software Development and Solutions business to an affiliate of Kohlberg Kravis Roberts & Co. Upon closing, the Company expects to receive in excess of \$600.0 million in cash consideration and a \$250.0 million face value note with a 10.5% paid-in-kind interest coupon which matures in eight years. The Company will also retain a 15% equity interest in the business, which will operate as an independent Software Development and Solutions company. As the Company will not have the ability to significantly influence the operating decisions of the divested business, the cost method of accounting for the investment will be used. The purchase price is subject to customary working capital and certain other post-closing adjustments.

I. Purpose

The overall purpose of the Audit Committee is to assist the Board of Directors of Flextronics International Ltd. (the Company) in fulfilling its oversight responsibilities as to the Company's financial accounting, reporting, processes and controls as well as the Company's process for monitoring compliance with certain laws and regulations.

The Committee's principal functions are to:

monitor and evaluate periodic reviews of the adequacy of the accounting and financial reporting processes and systems of internal control that are conducted by the Company's financial and senior management, and the Company's independent auditors;

be directly responsible for the appointment, compensation and oversight of the work of the Company's independent auditors (including resolution of any disagreements between management and the auditors regarding financial reporting); and

facilitate communication among the Company's independent auditors, the Company's financial and senior management and the Board.

The existence of the Audit Committee is not intended to restrict access to the full Board by the Company's independent auditors. While the Audit Committee has the responsibilities and powers set forth in this charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the Company's independent auditors.

II. Membership and Procedures

The Audit Committee shall be appointed by, and serve at the discretion of, the Board of Directors, with its chairman to be selected by the Board of Directors. The Audit Committee shall consist of three or more members of the Board of Directors, with the exact number being determined by the Board of Directors. Each member shall be free of any relationship that, in the opinion of the Board, would interfere with his or her individual exercise of independent judgment. Each member of the Committee shall have the ability to read and understand fundamental financial statements at the time of appointment and at least one member shall have prior experience in accounting, financial management or financial oversight, as required by the applicable rules.

III. Meetings

The Committee members, or the Chairman of the Committee on behalf of all of the Committee members, shall communicate with management and the independent auditors at least once per quarter in connection with their review of the Company's financial statements. The Committee will periodically meet with the independent auditors outside of the presence of management to discuss internal controls, the fullness and

accuracy of the Company's financial statements and any other matters that the Committee or the auditors believe should be discussed privately. At the request of the Committee, meetings may be held with members of management or the Company's internal auditing staff. Any non-committee outside Board members who so requests may attend any meeting of the Audit Committee.

The activities and findings of the Committee shall be reported to the Board and minutes of the Committee meetings shall be prepared and sent to each member of the Board.

**FLEXTRONICS INTERNATIONAL LTD.
2001 EQUITY INCENTIVE PLAN**

As Adopted August 13, 2001 and amended through October 4, 2006

1. *Purpose.* The purpose of this Plan is to provide incentives to attract, retain and motivate eligible persons whose present and potential contributions are important to the success of the Company, its Parent and Subsidiaries, by offering them an opportunity to participate in the Company's future performance through grants of Awards. Capitalized terms not defined in the text are defined in Section 21.

2. *Shares Subject to the Plan.*

2.1 *Number of Shares Available.* Subject to Sections 2.2 and 15, the total number of Shares reserved and available for grant and issuance pursuant to this Plan will be 32,000,000 Shares, plus shares that are subject to issuance upon exercise of an Award but cease to be subject to such Award for any reason other than exercise of such Award. In addition, any authorized shares not issued or subject to outstanding grants under the Company's 1993 Share Option Plan, 1997 Interim Option Plan, 1998 Interim Option Plan, 1999 Interim Option Plan, ASIC International, Inc. Non-Qualified Stock Option Plan, Wave Optics, Inc. 1997 Share Option Plan, Wave Optics, Inc. 2000 Share Option Plan, Chatham Technologies, Inc. Stock Option Plan, Chatham Technologies, Inc. 1997 Stock Option Plan, IEC Holdings Limited 1997 Share Option Scheme, Palo Alto Products International Private Ltd 1996 Share Option Plan, The DII Group, Inc. 1994 Stock Incentive Plan, The DII Group, Inc. 1993 Stock Option Plan, Orbit Semiconductor, Inc. 1994 Stock Incentive Plan, Telcom Global Solutions Holdings, Inc. 2000 Equity Incentive Plan, Telcom Global Solutions, Inc. 2000 Stock Option Plan, KMOS Semi-Customs, Inc. 1989 Stock Option Plan, and KMOS Semi-Customs, Inc. 1990 Non-Qualified Stock Option Plan, (each a **Prior Plan** and collectively, the **Prior Plans**) and any shares subject to outstanding grants that are forfeited and/or that are issuable upon exercise of options granted pursuant to the Prior Plans that expire or become unexercisable for any reason without having been exercised in full, will no longer be available for grant and issuance under the Prior Plans, but will be available for grant and issuance under this Plan. At all times the Company shall reserve and keep available a sufficient number of Shares as shall be required to satisfy the requirements of all outstanding Awards granted under this Plan. No more than 30,000,000 Shares shall be issued as ISOs and no more than 10,000,000 Shares shall be issued as Stock Bonuses.

2.2 *Adjustment of Shares.* Should any change be made to the Shares issuable under the Plan by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Shares as a class without the Company's receipt of consideration, then appropriate adjustments shall be made to (i) the maximum number and/or class of securities issuable under the Plan, (ii) the maximum number and/or class of securities for which any Participant may be granted Awards under the terms of the Plan or that may be granted generally under the terms of the Plan, (iii) the number and/or class of securities and price per Share in effect under each Award outstanding under Sections 5, 7, and 20, and (iv) the number and/or class of securities for which automatic Option grants are to be subsequently made to newly elected or continuing Outside Directors under Section 7. Such adjustments to the outstanding Awards are to be effected in a manner which shall preclude the enlargement or dilution of rights and benefits under such Awards, provided, however, that (i) fractions of a Share will not be issued but will be replaced by a cash payment equal to the Fair Market Value of such fraction of a Share, as determined by the Committee. The adjustments determined by the Committee shall be final, binding and conclusive. The repricing, replacement or regranting of any previously granted Award, through cancellation or by lowering the Exercise Price or Purchase Price of such Award, shall be prohibited unless the shareholders of the Company first approve such repricing, replacement or regranting.

3. *Eligibility.* All Awards may be granted to employees, officers and directors of the Company or any Parent or Subsidiary of the Company. No person will be eligible to receive more than 4,000,000 Shares in any calendar year under this Plan pursuant to the grant of Awards hereunder; provided, however, that no Outside

Director will be eligible to receive more than 100,000 Shares, in the aggregate, in any calendar year under this Plan pursuant to the grant of Awards hereunder. A person may be granted more than one Award under this Plan.

4. Administration.

4.1 Committee Authority. This Plan will be administered by the Committee or by the Board acting as the Committee. Except for automatic grants to Outside Directors pursuant to Section 7 hereof, and subject to the general purposes, terms and conditions of this Plan, and to the direction of the Board, the Committee will have full power to implement and carry out this Plan. Except for automatic grants to Outside Directors pursuant to Section 7 hereof, the Committee will have the authority to:

- (a) construe and interpret this Plan, any Award Agreement and any other agreement or document executed pursuant to this Plan;
- (b) prescribe, amend and rescind rules and regulations relating to this Plan or any Award;
- (c) select persons to receive Awards;
- (d) determine the form and terms of Awards;
- (e) determine the number of Shares or other consideration subject to Awards;
- (f) determine whether Awards will be granted singly, in combination with, in tandem with, in replacement of, or as alternatives to, other Awards under this Plan or any other incentive or compensation plan of the Company or any Parent or Subsidiary of the Company;
- (g) grant waivers of Plan or Award conditions;
- (h) determine the vesting, exercisability and payment of Awards;
- (i) correct any defect, supply any omission or reconcile any inconsistency in this Plan, any Award or any Award Agreement;
- (j) determine whether an Award has been earned; and
- (k) make all other determinations necessary or advisable for the administration of this Plan.

4.2 Committee Discretion. Except for automatic grants to Outside Directors pursuant to Section 7 hereof, any determination made by the Committee with respect to any Award will be made in its sole discretion at the time of grant of the Award or, unless in contravention of any express term of this Plan or Award, at any later time, and such determination will be final and binding on the Company and on all persons having an interest in any Award under this Plan. The Committee may delegate to one or more officers of the Company the authority to grant an Award under this Plan to Participants who are not Insiders of the Company.

5. Options. The Committee may grant Options to eligible persons and will determine whether such Options will be Incentive Stock Options within the meaning of the Code (**ISOs**) or Nonqualified Stock Options (**NQSOs**), the number of Shares subject to the Option, the Exercise Price of the Option, the period during which the Option may be exercised, and all other terms and conditions of the Option, subject to the following:

5.1 Form of Option Grant. Each Option granted under this Plan will be evidenced by an Award Agreement which will expressly identify the Option as an ISO or an NQSO (**Stock Option Agreement**), and, except as otherwise required by the terms of Section 7 hereof, will be in such form and contain such provisions (which need not be the same for each Participant) as the Committee may from time to time approve, and which will comply with and be subject to the terms and conditions of this Plan.

5.2 *Date of Grant.* The date of grant of an Option will be the date on which the Committee makes the determination to grant such Option, unless otherwise specified by the Committee. The Stock Option

Agreement and a copy of this Plan will be delivered to the Participant within a reasonable time after the granting of the Option.

5.3 *Exercise Period.* Options may be exercisable within the times or upon the events determined by the Committee as set forth in the Stock Option Agreement governing such Option; provided, however, that no Option will be exercisable after the expiration of ten (10) years from the date the Option is granted; and provided further that (i) no ISO granted to a person who directly or by attribution owns more than ten percent (10%) of the total combined voting power of all classes of shares or stock of the Company or of any Parent or Subsidiary of the Company (**Ten Percent Shareholder**) will be exercisable after the expiration of five (5) years from the date the ISO is granted and (ii) no Option granted to a person who is not an employee of the Company or any Parent or Subsidiary of the Company on the date of grant of that Option will be exercisable after the expiration of five (5) years from the date the Option is granted. The Committee also may provide for Options to become exercisable at one time or from time to time, periodically or otherwise, in such number of Shares or percentage of Shares as the Committee determines.

5.4 *Exercise Price.* The Exercise Price of an Option will be determined by the Committee when the Option is granted; provided that: (i) the Exercise Price will be not less than 100% of the Fair Market Value of the Shares on the date of grant; and (ii) the Exercise Price of any ISO granted to a Ten Percent Shareholder will not be less than 110% of the Fair Market Value of the Shares on the date of grant. Payment for the Shares purchased may be made in accordance with Section 6 of this Plan.

5.5 *Method of Exercise.*

(a) Options may be exercised only by delivery to the Company (or as the Company may direct) of a written stock option exercise agreement (the **Exercise Agreement**) (in the case of a written Exercise Agreement, in the form approved by the Board or the Committee, which need not be the same for each Participant), in each case stating the number of Shares being purchased, the restrictions imposed on the Shares purchased under such Exercise Agreement, if any, and such representations and agreements regarding Participant's investment intent and access to information and other matters, if any, as may be required or desirable by the Company to comply with applicable securities laws, together with payment in full of the Exercise Price for the number of Shares being purchased.

(b) A written Exercise Agreement may be communicated electronically through the use of such security device (including, without limitation, any logon identifier, password, personal identification number, smartcard, digital certificate, digital signature, encryption device, electronic key, and/or other code or any access procedure incorporating any one or more of the foregoing) as may be designated by the Board or the Committee for use in conjunction with the Plan from time to time (**Security Device**), or via an electronic page, site, or environment designated by the Company which is accessible only through the use of such Security Device, and such written Exercise Agreement shall thereby be deemed to have been sent by the designated holder of such Security Device. The Company (or its agent) may accept and act upon any written Exercise Agreement issued and/or transmitted through the use of the Participant's Security Device (whether actually authorized by the Participant or not) as his authentic and duly authorized Exercise Agreement and the Company (or its agent) may treat such Exercise Agreement as valid and binding on the Participant notwithstanding any error, fraud, forgery, lack of clarity or misunderstanding in the terms of such Exercise Agreement. All written Exercise Agreements issued and/or transmitted through the use of the Participant's Security Device (whether actually authorized by the Participant or not) are irrevocable and binding on the Participant upon transmission to the Company (or as the Company may direct) and the Company (or its agent) shall be entitled to effect, perform or process such Exercise Agreement without the Participant's further consent and without further reference to the Participant.

(c) The Company's records of the Exercise Agreements (whether delivered or communicated electronically or in printed form), and its record of any transactions maintained by any relevant person authorized by the Company relating to or connected with the Plan, whether stored in audio, electronic, printed or other form, shall be binding and conclusive on the Participant and shall be conclusive evidence of such Exercise Agreements and/or transactions. All such records shall be admissible in evidence and, in the case of a written Exercise Agreement which has been communicated electronically, the Participant shall not challenge or

Table of Contents

dispute the admissibility, reliability, accuracy or the authenticity of the contents of such records merely on the basis that such records were incorporated and/or set out in electronic form or were produced by or are the output of a computer system, and the Participant waives any of his rights (if any) to so object.

5.6 *Termination.* Notwithstanding the exercise periods set forth in the Stock Option Agreement, exercise of an Option will always be subject to the following:

(a) If the Participant is Terminated for any reason except death or Disability, then the Participant may exercise such Participant's Options only to the extent that such Options would have been exercisable upon the Termination Date no later than three (3) months after the Termination Date (or such shorter or longer time period not exceeding five (5) years as may be determined by the Committee, provided, that any Option which is exercised beyond three (3) months after the Termination Date shall be deemed to be an NQSO), but in any event no later than the expiration date of the Options.

(b) If the Participant is Terminated because of the Participant's death or Disability (or the Participant dies within three (3) months after a Termination other than for Cause or because of the Participant's Disability), then the Participant's Options may be exercised only to the extent that such Options would have been exercisable by the Participant on the Termination Date and must be exercised by the Participant (or the Participant's legal representative or authorized assignee) no later than twelve (12) months after the Termination Date (or such shorter or longer time period not exceeding five (5) years as may be determined by the Committee, provided, that any Option which is exercised beyond twelve (12) months after the Termination Date when the Termination is for Participant's Disability, shall be deemed to be an NQSO), but in any event no later than the expiration date of the Options.

(c) If the Participant is terminated for Cause, then the Participant's Options shall expire on such Participant's Termination Date, or at such later time and on such conditions as are determined by the Committee (but in any event, no later than the expiration date of the Options).

5.7 *Limitations on Exercise.* The Committee may specify a reasonable minimum number of Shares that may be purchased on any exercise of an Option, provided that such minimum number will not prevent Participant from exercising the Option for the full number of Shares for which it is then exercisable.

5.8 *Limitations on ISO.* The aggregate Fair Market Value (determined as of the date of grant) of Shares with respect to which ISO are exercisable for the first time by a Participant during any calendar year (under this Plan or under any other incentive stock option plan of the Company, Parent or Subsidiary of the Company) will not exceed US\$100,000. If the Fair Market Value of Shares on the date of grant with respect to which ISO are exercisable for the first time by a Participant during any calendar year exceeds US\$100,000, then the Options for the first US\$100,000 worth of Shares to become exercisable in such calendar year will be ISO and the Options for the amount in excess of US\$100,000 that become exercisable in that calendar year will be NQSOs. In the event that the Code or the regulations promulgated thereunder are amended after the Effective Date of this Plan to provide for a different limit on the Fair Market Value of Shares permitted to be subject to ISO, such different limit will be automatically incorporated herein and will apply to any Options granted after the effective date of such amendment.

5.9 *Modification, Extension or Renewal.* The Committee may modify, extend or renew outstanding Options and authorize the grant of new Options in substitution therefor, provided that any such action may not, without the written consent of a Participant, impair any of such Participant's rights under any Option previously granted, and provided further that the exercise period of any Option may not in any event be extended beyond the periods specified in Section 5.3. Any outstanding ISO that is modified, extended, renewed or otherwise altered will be treated in accordance with Section 424(h) of the Code.

5.10 *No Disqualification.* Notwithstanding any other provision in this Plan, no term of this Plan relating to ISO will be interpreted, amended or altered, nor will any discretion or authority granted under this Plan be exercised, so as to disqualify this Plan under Section 422 of the Code or, without the consent of the Participant affected, to disqualify any ISO under Section 422 of the Code.

6. *Payment for Share Purchases.*

C-4

Table of Contents

6.1 *Payment.* Payment for Shares purchased pursuant to this Plan may be made in cash (by check) or, where expressly approved for the Participant by the Committee and where permitted by law:

(a) by cancellation of indebtedness of the Company to the Participant;

(b) by waiver of compensation due or accrued to the Participant for services rendered;

(c) with respect only to purchases upon exercise of an Option, and provided that a public market for the Company's Shares exists:

(i) through a same day sale commitment from the Participant and a broker-dealer that is a member of the National Association of Securities Dealers (an **NASD Dealer**) whereby the Participant irrevocably elects to exercise the Option and to sell a portion of the Shares so purchased to pay for the Exercise Price, and whereby the NASD Dealer irrevocably commits upon receipt of such Shares to forward the Exercise Price directly to the Company; or

(ii) through a margin commitment from the Participant and a NASD Dealer whereby the Participant irrevocably elects to exercise the Option and to pledge the Shares so purchased to the NASD Dealer in a margin account as security for a loan from the NASD Dealer in the amount of the Exercise Price, and whereby the NASD Dealer irrevocably commits upon receipt of such Shares to forward the Exercise Price directly to the Company;

(d) conversion of a convertible note issued by the Company, the terms of which provide that it is convertible into Shares issuable pursuant to the Plan (with the principal amount and any accrued interest being converted and credited dollar for dollar to the payment of the Exercise Price); or

(e) by any combination of the foregoing.

7. *Automatic Grants to Outside Directors.*

7.1 *Types of Options and Shares.* Options granted under this Plan and subject to this Section 7 shall be NQSOs.

7.2 *Eligibility.* Options subject to this Section 7 shall be granted only to Outside Directors. In no event, however, may any Outside Director be granted any Options under this Section 7 if such grant is (a) prohibited, or (b) restricted (either absolutely or subject to various securities requirements, whether legal or administrative, being complied with), in the jurisdiction in which such Outside Director is resident under the relevant securities laws of that jurisdiction.

7.3 *Initial Grant.* Each Outside Director who first becomes a member of the Board after the Effective Date will automatically be granted an Option for 25,000 Shares (an *Initial Grant*) on the date such Outside Director first becomes a member of the Board. Each Outside Director who became a member of the Board on or prior to the Effective Date and who did not receive a prior option grant (under this Plan or otherwise and from the Company or any of its corporate predecessors) will receive an Initial Grant on the Effective Date.

7.4 *Succeeding Grant.* Immediately following each Annual General Meeting of shareholders of the Company, each Outside Director will automatically be granted an Option for 12,500 Shares (a **Succeeding Grant**), provided, that the Outside Director is a member of the Board immediately following such Annual General Meeting.

7.5 *Vesting and Exercisability.* The date an Outside Director receives an Initial Grant or a Succeeding Grant is referred to in this Plan as the **Start Date** for such Option.

(a) *Initial Grant.* Each Initial Grant will vest and be exercisable as to 25% of the Shares on the first one year anniversary of the Start Date for such Initial Grant, and thereafter as to 1/48 of the Shares at the end of each full succeeding month, so long as the Outside Director continuously remains a director or a consultant of the Company.

(b) *Succeeding Grant.* Each Succeeding Grant will vest and be exercisable as to 25% of the Shares on the first one year anniversary of the Start Date for such Succeeding Grant, and thereafter as to

Table of Contents

1/48 of the Shares at the end of each full succeeding month, so long as the Outside Director continuously remains a director or a consultant of the Company. No Options granted to an Outside Director will be exercisable after the expiration of five (5) years from the date the Option is granted to such Outside Director. If the Outside Director is Terminated, the Outside Director may exercise such Outside Director's Options only to the extent that such Options would have been exercisable upon the Termination Date for such period as set forth in Section 5.6.

Notwithstanding any provision to the contrary, in the event of a Corporate Transaction described in Section 15.1, the vesting of all Options granted to Outside Directors pursuant to this Section 7 will accelerate and such Options will become exercisable in full prior to the consummation of such event at such times and on such conditions as the Committee determines, and must be exercised, if at all, within three (3) months of the consummation of said event. Any Options not exercised within such three-month period shall expire. Notwithstanding any provision to the contrary, in the event of a Hostile Take-Over, the Outside Director shall have a thirty-day period in which to surrender to the Company each option held by him or her under this Plan for a period of at least six (6) months. The Outside Director shall in return be entitled to a cash distribution from the Company in an amount equal to the excess of (i) the Take-Over Price of the Shares at the time subject to the surrendered Option (whether or not the Option is otherwise at the time exercisable for those Shares) over (ii) the aggregate Exercise Price payable for such Shares. Such cash distribution shall be paid within five (5) days following the surrender of the Option to the Company. Neither the approval of the Committee nor the consent of the Board shall be required in connection with such option surrender and cash distribution. The Shares subject to each Option surrendered in connection with the Hostile Take-Over shall NOT be available for subsequent issuance under the Plan.

7.6 *Exercise Price.* The Exercise Price of an Option pursuant to an Initial Grant and Succeeding Grant shall be the Fair Market Value of the Shares, at the time that the Option is granted.

8. *Withholding Taxes.*

8.1 *Withholding Generally.* Whenever Shares are to be issued in satisfaction of Awards granted under this Plan, the Company may require the Participant to remit to the Company an amount sufficient to satisfy federal, state and local withholding tax requirements prior to the delivery of any certificate or certificates for such Shares. Whenever, under this Plan, payments in satisfaction of Awards are to be made in cash, such payment will be net of an amount sufficient to satisfy federal, state, and local withholding tax requirements.

8.2 *Stock Withholding.* When, under applicable tax laws, a Participant incurs tax liability in connection with the exercise or vesting of any Award that is subject to tax withholding and the Participant is obligated to pay the Company the amount required to be withheld, the Committee may in its sole discretion, and subject to compliance with all applicable laws and regulations, allow the Participant to satisfy the minimum withholding tax obligation by electing to have the Company withhold from the Shares to be issued that number of Shares having a Fair Market Value equal to the minimum amount required to be withheld, determined on the date that the amount of tax to be withheld is to be determined. All elections by a Participant to have Shares withheld for this purpose will be made in accordance with the requirements established by the Committee and be in writing in a form acceptable to the Committee.

9. *Transferability.*

9.1 Except as otherwise provided in this Section 9, Awards granted under this Plan, and any interest therein, will not be transferable or assignable by a Participant, and may not be made subject to execution, attachment or similar process, otherwise than by will or by the laws of descent and distribution or as determined by the Committee and set forth in the Award Agreement with respect to Awards. Notwithstanding the foregoing, (i) Participants may transfer or assign their Options to Family Members through a gift or a domestic relations order (and not in a transfer for value), and (ii) if the terms of the applicable instrument evidencing the grant of an Option so provide, Participants who reside outside of the United States and Singapore may assign their Options to a financial institution outside of the United States and Singapore that has been approved by the Committee, in accordance with the terms of the applicable instrument, subject to Code regulations providing that any transfer of an ISO may cause such ISO to become a NQSO. The Participant shall be solely responsible for effecting any such assignment, and for ensuring that such assignment

Table of Contents

is valid, legal and binding under all applicable laws. The Committee shall have the discretion to adopt such rules as it deems necessary to ensure that any assignment is in compliance with all applicable laws.

9.2 *All Awards other than NQSO s.* All Awards other than NQSO s shall be exercisable: (i) during the Participant s lifetime, only by (A) the Participant, or (B) the Participant s guardian or legal representative; and (ii) after Participant s death, by the legal representative of the Participant s heirs or legatees.

9.3 *NQSOs.* Unless otherwise restricted by the Committee, an NQSO shall be exercisable: (i) during the Participant s lifetime only by (A) the Participant, (B) the Participant s guardian or legal representative, (C) a Family Member of the Participant who has acquired the NQSO by permitted transfer; as defined below, (ii) by a transferee that is permitted pursuant to clause (ii) of Section 9.2, for such period as may be authorized by the terms of the applicable instrument evidencing the grant of the applicable Option, or by the Committee, and (iii) after Participant s death, by the legal representative of the Participant s heirs or legatees. Permitted transfer means any transfer of an interest in such NQSO by gift or domestic relations order effected by the Participant during the Participant s lifetime. A permitted transfer shall not include any transfer for value; provided that the following shall be permitted transfers and shall not be considered to be transfers for value: (a) a transfer under a domestic relations order in settlement of marital property rights or (b) a transfer to an entity in which more than fifty percent of the voting interests are owned by Family Members or the Participant in exchange for an interest in that entity.

10. *Privileges of Stock Ownership.* No Participant will have any of the rights of a shareholder with respect to any Shares until the Shares are issued to the Participant. After Shares are issued to the Participant, the Participant will be a shareholder and have all the rights of a shareholder with respect to such Shares, including the right to vote and receive all dividends or other distributions made or paid with respect to such Shares.

11. *Certificates.* All certificates for Shares or other securities delivered under this Plan will be subject to such stock transfer orders, legends and other restrictions as the Committee may deem necessary or advisable, including restrictions under any applicable federal, state or foreign securities law, or any rules, regulations and other requirements of the SEC or any stock exchange or automated quotation system upon which the Shares may be listed or quoted.

12. *Exchange and Buyout of Awards.* The Committee may, at any time or from time to time and subject to compliance with all applicable laws and regulations, authorize the Company, with the consent of the respective Participants, to issue new Awards in exchange for the surrender and cancellation of any or all outstanding Awards. The Committee may at any time and subject to compliance with all applicable laws and regulations buy from a Participant an Award previously granted with payment in cash, Shares or other consideration, based on such terms and conditions as the Committee and the Participant may agree.

13. *Securities Law and Other Regulatory Compliance.* An Award will not be effective unless such Award is in compliance with all applicable federal and state securities laws, rules and regulations of any governmental body, and the requirements of any stock exchange or automated quotation system upon which the Shares may then be listed or quoted, as they are in effect on the date of grant of the Award and also on the date of exercise or other issuance. Notwithstanding any other provision in this Plan, the Company will have no obligation to issue or deliver certificates for Shares under this Plan prior to: (a) obtaining any approvals from governmental agencies that the Company determines are necessary or advisable; and/or (b) completion of any registration or other qualification of such Shares under any state or federal law or ruling of any governmental body that the Company determines to be necessary or advisable. The Company will be under no obligation to register the Shares with the SEC or to effect compliance with the registration, qualification or listing requirements of any state securities laws, stock exchange or automated quotation system, and the Company will have no liability for any inability or failure to do so.

14. *No Obligation to Employ.* Nothing in this Plan or any Award granted under this Plan will confer or be deemed to confer on any Participant any right to continue in the employ of, or to continue any other relationship with, the Company or any Parent or Subsidiary of the Company or limit in any way the right of

Table of Contents

the Company or any Parent or Subsidiary of the Company to terminate Participant's employment or other relationship at any time, with or without cause.

15. *Corporate Transactions.*

15.1 *Assumption or Replacement of Awards by Successor.* Except for automatic grants to Outside Directors pursuant to Section 7 hereof, in the event of (a) a dissolution or liquidation of the Company, (b) a merger or consolidation in which the Company is not the surviving corporation (other than a merger or consolidation with a wholly-owned subsidiary, a reincorporation of the Company in a different jurisdiction, or other transaction in which there is no substantial change in the shareholders of the Company or their relative share holdings and the Awards granted under this Plan are assumed, converted or replaced by the successor corporation, which assumption will be binding on all Participants), (c) a merger in which the Company is the surviving corporation but after which the shareholders of the Company immediately prior to such merger (other than any shareholder that merges, or which owns or controls another corporation that merges, with the Company in such merger) cease to own their shares or other equity interest in the Company, (d) the sale of substantially all of the assets of the Company, or (e) the acquisition, sale, or transfer of more than 50% of the outstanding shares of the Company by tender offer or similar transaction (each, a **Corporate Transaction**), each Option which is at the time outstanding under this Plan shall automatically accelerate so that each such Option shall, immediately prior to the specified effective date for the Corporate Transaction, become fully exercisable with respect to the total number of Shares at the time subject to such Option and may be exercised for all or any portion of such Shares. However, subject to the specific terms of a Participant's Award Agreement, an outstanding Option under this Plan shall not so accelerate if and to the extent: (i) such Option is, in connection with the Corporate Transaction, either to be assumed by the successor corporation or parent thereof or to be replaced with a comparable Option to purchase shares of the capital stock of the successor corporation or parent thereof, (ii) such Option is to be replaced with a cash incentive program of the successor corporation which preserves the Option spread existing at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to such Option or (iii) the acceleration of such Option is subject to other limitations imposed by the Committee at the time of the Option grant. The determination of Option comparability under clause (i) above shall be made by the Committee, and its determination shall be final, binding and conclusive.

15.2 *Other Treatment of Awards.* Subject to any greater rights granted to Participants under the foregoing provisions of this Section 15 or other specific terms of a Participant's Award Agreement, in the event of the occurrence of any Corporate Transaction described in Section 15.1, any outstanding Awards will be treated as provided in the applicable agreement or plan of merger, consolidation, dissolution, liquidation, or sale of assets.

15.3 *Assumption of Awards by the Company.* The Company, from time to time, also may substitute or assume outstanding awards granted by another company, whether in connection with an acquisition of such other company or otherwise, by either: (a) granting an Award under this Plan in substitution of such other company's award; or (b) assuming such award as if it had been granted under this Plan if the terms of such assumed award could be applied to an Award granted under this Plan. Such substitution or assumption will be permissible if the holder of the substituted or assumed award would have been eligible to be granted an Award under this Plan if the other company had applied the rules of this Plan to such grant. In the event the Company assumes an award granted by another company, the terms and conditions of such award will remain unchanged (except that the Exercise Price and the number and nature of Shares issuable upon exercise of any such Option will be adjusted appropriately pursuant to Section 424(a) of the Code). In the event the Company elects to grant a new Option rather than assuming an existing Option, such new Option may be granted with a similarly adjusted Exercise Price.

16. *Adoption and Shareholder Approval.* This Plan will become effective on the date on which the Board adopts the Plan (the **Effective Date**). This Plan shall be approved by the shareholders of the Company (excluding Shares issued pursuant to this Plan), consistent with applicable laws, within twelve (12) months before or after the date this Plan is adopted by the Board. Upon the Effective Date, the Committee may grant Awards pursuant to this Plan; provided, however, that: (a) no Option may be exercised

Table of Contents

prior to initial shareholder approval of this Plan; (b) no Option granted pursuant to an increase in the number of Shares subject to this Plan approved by the Board will be exercised prior to the time such increase has been approved by the shareholders of the Company; (c) in the event that initial shareholder approval is not obtained within the time period provided herein, all Awards granted hereunder shall be cancelled; and (d) in the event that shareholder approval of such increase is not obtained within the time period provided herein, all Awards granted pursuant to such increase will be cancelled.

17. *Term of Plan/ Governing Law.* Unless earlier terminated as provided herein, this Plan will terminate ten (10) years from the date this Plan is adopted by the Board or, if earlier, the date of shareholder approval. This Plan and all agreements thereunder shall be governed by and construed in accordance with the laws of the State of California.

18. *Amendment or Termination Of Plan.* The Board has complete and exclusive power and authority to amend or modify the Plan (or any component thereof) in any or all respects whatsoever. However, (i) no such amendment or modification shall adversely affect rights and obligations with respect to Options at the time outstanding under the Plan, unless the Participant consents to such amendment, and (ii) the automatic grants to Outside Directors pursuant to Section 7 may not be amended at intervals more frequently than once every six (6) months, other than to the extent necessary to comply with applicable U.S. income tax laws and regulations. In addition, the Board may not, without the approval of the Company's shareholders, amend the Plan to (i) materially increase the maximum number of Shares issuable under the Plan or the number of Shares for which Options may be granted per newly-elected or continuing Outside Director or the maximum number of Shares for which any one individual participating in the Plan may be granted Options, (ii) materially modify the eligibility requirements for plan participation or (iii) materially increase the benefits accruing to Participants. The Board may at any time terminate or amend this Plan in any respect, including without limitation amendment of any form of Award Agreement or instrument to be executed pursuant to this Plan; provided, however, that the Board will not, without the approval of the shareholders of the Company, amend this Plan in any manner that requires such shareholder approval.

19. *Nonexclusivity of the Plan.* Neither the adoption of this Plan by the Board, the submission of this Plan to the shareholders of the Company for approval, nor any provision of this Plan will be construed as creating any limitations on the power of the Board to adopt such additional compensation arrangements as it may deem desirable, including, without limitation, the granting of stock options and bonuses otherwise than under this Plan, and such arrangements may be either generally applicable or applicable only in specific cases.

20. *Stock Bonuses.* A Stock Bonus is a grant of Shares by the Company to an individual who has satisfied the terms and conditions set by the Committee on the making of such grant. The Committee will determine to whom a grant may be made, the number of Shares that may be granted, the restrictions to the making of such grant, and all other terms and conditions of the Stock Bonus. The conditions to grant may be based upon completion of a specified number of years of service with the Company or upon completion of the performance goals as set out by the Committee. Grants of Stock Bonuses may vary from Participant to Participant and between groups of Participants. Prior to the grant of a Stock Bonus, the Committee shall: (a) determine the nature, length and starting date of any Performance Period that may be a condition precedent to grant of a Stock Bonus; (b) select from among the Performance Factors to be used to measure performance goals, if any; and (c) determine the number of Shares that may be awarded to the Participant. Prior to the grant of any Stock Bonus, the Committee shall determine the extent to which such Stock Bonus has been earned. Performance Periods may overlap and Participants may participate simultaneously with respect to Stock Bonuses that are subject to different Performance Periods and having different performance goals and other criteria.
