ABOUT OUR ANNUAL MEETING AND VOTING

What is the purpose of our annual meeting?

At our annual meeting, stockholders will be asked to elect two Class I directors. In addition, our management will report on our performance during 2006 and respond to appropriate questions from stockholders.

Will stockholders be asked to vote on any other matters?

As far as our board of directors and management know, stockholders will vote at our annual meeting only on the election of directors as described in this proxy statement. However, if any other matter properly comes before our annual meeting, the persons named as proxies for stockholders will vote on those matters in accordance with their judgment.

Who is entitled to vote at our annual meeting?

Holders of record of our common stock as of the close of business on March 28, 2007, which is the record date, are entitled to vote at our annual meeting. As of March 28, 2007, we had 47,958,510 shares of common stock outstanding. Stockholders are entitled to cast one vote per share on each matter presented for consideration at our annual meeting. If our annual meeting is adjourned or postponed, your common stock may be voted by the proxies on the new meeting date as well, unless you have revoked your proxy.

What is a quorum for our annual meeting?

The presence, in person or by proxy, of stockholders entitled to cast at least a majority of the votes entitled to be cast by all stockholders will constitute a quorum for the transaction of business at our annual meeting. Mellon Investor Services LLC, the independent inspector of election appointed for our annual meeting, will determine whether a quorum is present.

How do I vote?

If you hold your shares in your own name as a holder of record, you may vote your shares of common stock in person at our annual meeting or by returning your proxy to us in the envelope that we have provided to you. If your common stock is held by a broker, bank or other nominee, you will receive instructions from that person on how to vote your shares.

Can I change my vote?

Yes. If you are a stockholder of record, you can revoke your signed proxy at any time before it is voted. To revoke your proxy, you may send a written notice of revocation to our corporate secretary, Christopher J. Zyda, 101 California Street, Suite 1350, San Francisco, California 94111. You may also revoke a proxy by submitting another signed proxy with a later date or by voting in person at our annual meeting.

If you are not a stockholder of record, you may revoke or change your vote by submitting new instructions to your broker, bank, or other nominee.

What are our board's recommendations on how to vote my shares?

Our board of directors recommends you vote FOR the election of each of the nominees for election as Class I directors.

What vote is required to approve the election of directors?

The two persons receiving the highest number of FOR votes cast in person or by proxy by our stockholders at our annual meeting will be elected as Class I directors. A properly executed proxy marked WITHHOLD AUTHORITY with respect to the election of one or more nominees will not be voted with respect to the nominee or nominees indicated.

Table of Contents

If you sign your proxy card or broker voting instruction card with no further instructions, your shares will be voted in accordance with the recommendation of our board of directors, i.e., for the election of our nominees for Class I directors. If other matters are properly brought before our annual meeting, the vote required will be determined by applicable law, the rules of the New York Stock Exchange, or NYSE, and our charter and bylaws, as applicable.

Who will count the votes?

Representatives of Mellon Investor Services LLC, our independent inspector of elections, will count the votes.

(3) Governance and Nominating Committee Member

Our board of directors currently consists of eight members. Under our bylaws, the number of directors may be increased or decreased by our board, but may not be fewer than one nor more than 15. Any vacancy on our board of directors, whether resulting from the resignation or removal of a director or from an increase in the size of our board of directors, may be filled only by a vote of our directors; alternately, a vacancy resulting from removal of a director may be filled by a vote of our stockholders. Six of our eight directors are independent as determined under the independence standards of the NYSE.

Table of Contents

Our bylaws require that a majority of the members of our board of directors must be independent directors. Our bylaws also provide that all of the members of our audit committee, our compensation committee and our governance and nominating committee must be independent directors.

As required by the rules of the NYSE, our board of directors considered the independence of each of our directors under the NYSE's standards of independence. Our board of directors affirmatively determined that Messrs. Miller, Auerbach, Goldstein, Putnam, Raiter and Whitters have no material relationship with us, either directly, or as a partner, stockholder or officer of an organization that has a material relationship with us, and are thus independent under the NYSE's independence standards.

2006 Meetings

During 2006, our board of directors held four meetings. Each member of our board of directors attended 75% or more of the meetings held by our board of directors and the committees of our board of directors on which the director served during 2006.

We have a policy that actively encourages, but does not obligate, our directors to attend our annual stockholders meetings because we believe this policy provides our stockholders with an opportunity to communicate with the members of our board of directors. Mr. Goldstein, Mr. Moore, Mr. Putnam and Mr. Whitters were unable to attend our 2006 annual meeting of stockholders.

Section 16(a) Beneficial Ownership Reporting Compliance

Under Section 16(a) of the Exchange Act, our directors, executive officers and persons holding 10% or more of our common stock are required to file forms reporting their beneficial ownership of our common stock and subsequent changes in that ownership with the SEC. Such persons are also required to furnish us copies of the forms so filed. Based solely upon a review of copies of such forms filed with us, we believe that during 2006 our executive officers and directors and our stockholders owning 10% or more of our common stock complied with the Section 16(a) filing requirements on a timely basis, except that Gail P. Seneca did not report one 5,000 share purchase transaction by her husband on a timely basis.

Committees of our Board of Directors

Since our formation in 2003, our board of directors has maintained an audit committee, a compensation committee and a governance and nominating committee. Our board of directors may establish other committees from time to time.

Audit Committee

Our audit committee is currently composed of three directors: Bruce A. Miller, CPA (chairman), Robert B. Goldstein and Joseph E. Whitters, CPA. all members of our audit committee qualify as an audit committee financial expert, as defined by the SEC, and

all members of our audit committee are financially literate, within the meaning of the NYSE rules, and independent under the audit committee independence standards under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

Our audit committee acts pursuant to a written charter. Among other things, our audit committee charter calls upon our audit committee to:

oversee our accounting and financial reporting processes, including the oversight of the financial reports, financial statements and other financial information we provide to governmental and regulatory bodies, the public and others who rely thereon;

Table of Contents

In 2006, our audit committee held five meetings.

Compensation Committee

The members of our compensation committee are Robert B. Goldstein (chairman), Bruce A. Miller, CPA, and Donald H. Putnam. Our board of directors has determined that all of our compensation committee members qualify as:

independent directors under the NYSE independence standards;

non-employee directors under Exchange Act rule 16b-3; and

outside directors under Internal Revenue Code section 162(m).

Our board of directors has delegated authority to our compensation committee to administer all of our equity incentive plans, to ensure our compensation plans are designed to recruit and retain executive officers of superior talent and create a significant relationship between compensation and benefit levels and performance, to determine the salary and bonus of our executive officers and to make salary and bonus recommendations to our board of directors regarding all other employees. Our compensation committee acts pursuant to a written charter. Among other things, our compensation committee charter calls upon our compensation committee to:

develop our overall compensation policies, and establish performance-based incentives that support and reinforce our long-term strategic goals, organizational objectives and align the interests of our executive officers with the interests of our stockholders;

review and approve goals and objectives relevant to the compensation of our chief executive officer, evaluate the performance of our chief executive officer in light of those goals and objectives and set the compensation of our chief executive officer;

Our governance and nominating committee will consider nominees recommended by stockholders. Any nominations should be submitted in writing to the chairman of our governance and nominating committee at our principal business address. The submission must include:

the nominating stockholder's name, address and telephone number and a statement of the number of shares of our stock the nominating stockholder beneficially owned during the year preceding the date of nomination;

the nominee's name, address and telephone number; and

a statement of the nominee's qualifications for board membership.

The written materials must be submitted within the time permitted for submission of a stockholder proposal for inclusion in our proxy statement for our annual meeting. Our governance and nominating committee will evaluate prospective nominees suggested by stockholders in the same manner and utilizing the same criteria as any other prospective nominee identified by any other source. In general, the criteria and processes that our governance and nominating committee follows are described below. In connection with this year's annual meeting of stockholders, we did not receive any director nomination from stockholders beneficially owning 5% or more of our common stock. For information regarding nominations or stockholder proposals from stockholders, see "Other Matters - Stockholder Proposals for Our 2008 Annual Meeting."

Criteria for Evaluating Potential Nominees to the Board

Our governance and nominating committee follows the following criteria for evaluating potential nominees to our board of directors and the nomination of current directors for reelection.

Minimum Criteria. Any prospective board candidate must meet the following minimum criteria:

reputation of integrity, strong moral character and adherence to high ethical standards;

holds or has held a generally recognized position of leadership in the community and/or chosen field of endeavor, and has demonstrated high levels of accomplishment;

demonstrated business acumen and experience, and ability to exercise sound business judgment and common sense in matters that relate to our current and long-term objectives;

ability to understand our financial statements and related financial information;

commitment to understand our business, industry and strategic objectives;

commitment and ability to attend and participate in meetings of our board of directors and board committees;

ability to fulfill the responsibilities as one of our directors in light of the candidate's other obligations, including obligations to the other boards on which the candidate serves;

willingness to represent and act in the interests of all of our stockholders rather than the interests of a particular group;

good health and an ability to serve;

for prospective non-employee directors, independence under SEC and NYSE rules, and the absence of any material conflict of interest or legal impediment to, or restriction on, the nominee serving as one of our directors; and

willingness to accept a nomination to serve as one of our directors.

Other Factors. Our governance and nominating committee also considers the following factors in connection with its evaluation of each prospective director nominee:

whether the prospective nominee will foster a diversity of skills and experiences;

whether the nominee possesses the requisite education, training and experience to qualify as financially literate or as an audit committee financial expert under applicable SEC and NYSE rules;

for directors standing for re-election, the incumbent director's performance during his or her term, including the number of meetings attended, level of participation and overall contribution to us; and

the composition of our board and whether the prospective nominee will add to or complement our board's existing strengths.

Process for Selecting Nominees to Our Board

Our governance and nominating committee uses the following process for selecting nominees to recommend to our board of directors.

Our committee initiates the process by preparing a slate of potential candidates who, based on their biographical information and other information available to our committee, appear to meet the criteria specified above and/or who have specific qualities, skills or experience being sought by our committee. Potential candidates may be considered based on informal input from our board of directors, management and/or stockholders or may come to our committee's attention from the following other sources:

Outside Advisors. Our committee may engage a third-party search firm or other advisors to assist in identifying prospective nominees.

Table of Contents

Stockholder Suggestions. As described above, our committee will consider nominees suggested by our stockholders.

Incumbent Directors. Our committee will consider whether incumbent directors whose terms are expiring should be nominated for reelection. Nomination of incumbent directors is not automatic, but will be based on continuing qualification under the criteria set forth above. Incumbent directors are likely to be renominated because of their understanding of REITs and specialty finance companies and their ability to interact successfully with our board of directors and management. Our committee assesses the incumbent director's performance during his or her term, including the number of meetings attended, his or her level of participation and overall contribution to us; the number of other boards on which the individual serves; the individual's effect on the composition of our board of directors and any changed circumstances affecting the individual director that may bear on his or her ability to continue to serve on our board of directors.

Key Members of Management. Our governance and nominating committee believes it is important that no more than three members of our management participate on our board of directors. In any event, the number of our officers serving on our board of directors at any time should be limited such that, at all times, we have a majority of independent directors under applicable SEC and NYSE rules.

After reviewing appropriate biographical information and qualifications, the best qualified first-time candidates are interviewed by the chairman of our governance and nominating committee and at least one other member of our committee and by our chairman of the board. Upon completion of these procedures, our governance and nominating committee selects the potential candidates to be recommended to our board of directors for nomination for election at our annual meeting. Our board of directors is expected, but not required, to select its nominees from those candidates recommended to it by our governance and nominating committee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Introduction

The compensation committee of our board of directors, which we refer to as our compensation committee, oversees our compensation and benefit plans and policies, administers our plans, including reviewing and approving equity awards to our executive officers, and reviews and approves annually all compensation decisions relating to our executive officers.

Our compensation committee believes that the primary objectives of our compensation programs for our executive officers are to:

- attract and retain talented and dedicated executive officers to oversee the growth, development and profitability of our business;
- link the annual and long-term cash and stock incentive compensation of our executive officers to our financial and operational performance and to the performance of our stock; and
- provide long-term compensation to our executive officers that motivates our executive officers to create stockholder value.

To achieve these objectives, we compensate our executive officers through a combination of base salary, annual cash bonuses and long-term equity compensation designed to be competitive with the compensation paid by comparable mortgage REITs. To assist our compensation committee in its analysis, we have prepared compensation and performance data for comparison purposes relating to an informal peer group of mortgage REITs we believe are similar to us.

In 2006, our compensation committee engaged Mercer Human Resource Consulting, a nationally recognized independent compensation consulting firm, to review the incentive compensation of our executive officers for 2006 and to make recommendations for the compensation of our executive officers in 2006 and 2007.

Our Compensation Philosophy and Objectives

The basic principles our compensation committee utilizes in establishing and reviewing the compensation of our executive officers are as follows:

the decision-making process of our compensation committee should include a review of the compensation recommendations made by our independent compensation consultants, including their analysis of the compensation of our executive officers compared to the compensation of other companies that our compensation consultants considered;

Table of Contents

our compensation should enable us to attract, motivate and retain executive officers with the ability and talent to oversee meaningful growth and long-term profitability;

our compensation should be fair, competitive and reasonable in light of the responsibilities of our executive officers, their experience and their performance and should not exceed the median compensation of similarly positioned executive officers of the REITs in the peer group we have analyzed for comparative purposes; and

a significant portion of the compensation of our executive officers should be at risk, i.e., contingent on the achievement by our executive officers of individual goals and objectives as well as our corporate objectives as established by our board of directors. These objectives relate to revenues, net income, REIT taxable income, financing, securitizations and capital-raising.

The Compensation of Our Named Executive Officers

Our executive officers receive the following types of compensation:

Base Salary. The base salaries of our executive officers are established based on the scope of their responsibilities, taking into account compensation paid by other mortgage REITs in our peer group and the recommendations of our independent compensation consultants. We generally believe that the base salaries of our executive officers should be comparable to the compensation range for executive officers with similar responsibilities at comparable REITs. Our compensation committee reviews the base salaries of our executive officers annually, and adjusts those salaries in response to market levels after taking into account individual responsibilities, performance, experience and compensation history.

Annual Cash Bonus. The practice of our compensation committee is to pay annual cash bonuses to our executive officers. The annual cash bonuses of our executive officers are based on the achievement of our financial and operating goals and their individual performance. These objectives vary according to the individual, but generally relate to our results of operations, success in raising capital and increasing the book value of our common stock. The annual cash bonuses approved by our compensation committee are paid in a single installment following the completion of a given fiscal year. Under the employment agreements we have with our chairman and chief executive officer, our president and chief operating officer and our senior vice president and chief financial officer, each of them is entitled to a minimum annual bonus. However, our compensation committee may increase the annual cash bonus paid to our executive officers based upon the recommendations of our independent compensation consultants and the evaluation of our compensation committee.

Long-Term Equity Incentives. We believe that we can best maximize our long-term performance when the performance of our executive officers is motivated by equity-based awards that provide value based on our long-term performance. Our equity compensation plans have been designed to provide all of our employees, including our executive officers, with equity incentives to foster the alignment of the interests of our employees and executive officers with the interests of our stockholders, and our compensation committee believes the use of equity-based awards helps us realize the objectives of our compensation philosophy. Our equity-based compensation plans provide the principal method by which our executive officers can acquire significant ownership of our common stock. We believe that the aggregate annual value of our equity-based awards to our executive officers are comparable to the stock-based awards granted by other mortgage REITs delineated by our independent compensation consultants and our peer group analysis.

The primary form of equity compensation that we have historically awarded to our executive officers is restricted stock awards. Our compensation committee determines the dollar amount of equity compensation that it wants to provide to an individual executive officer and then awards a number of shares of restricted common stock that have a fair market value equal to that amount on the date of award. We determine the fair market value of our restricted stock awards based on the closing price of our common stock on the NYSE on the day our compensation committee makes an award.

We have stock option plans that authorize us to grant options to purchase shares of our common stock to our employees, officers, directors and consultants. We did not grant any stock options in 2005 or 2006. As a result of the adoption of Statement of Financial Accounting Standards No. 123(R), the accounting treatment

Table of Contents

of stock options has become less favorable to issuers and, in particular, REITs. As a result, our compensation committee has determined to provide equity compensation to our officers and employees in the future only by granting restricted stock awards and not to grant stock options in the future except in currently unforeseen circumstances.

Severance Benefits. We have employment agreements with Gail P. Seneca, S. Trezevant Moore, Jr. and Christopher J. Zyda. Our employment agreements with Ms. Seneca and Mr. Moore continually renew one day at a time so that the unexpired term of each of their employment agreements is three years at all times, while our employment agreement with Mr. Zyda continually renews one day at a time so that the unexpired term of his employment agreement is one year at all times. In the event that the employment of Ms. Seneca, Mr. Moore or Mr. Zyda is terminated without cause or Ms. Seneca, Mr. Moore or Mr. Zyda terminates his or her employment with us for good reason, they are entitled to payment of their base salary and minimum annual cash bonus for the remaining term of their employment agreements and any unvested portion of restricted stock awards held by them automatically vests immediately.

In general, cause means:

the executive officer's willful and continued failure substantially to perform his or her material duties with us or a violation of a material law after written notice from us and a reasonable opportunity to cure such failure or violation;

fraud, breach of fiduciary duty, dishonesty, misappropriation or other action by the executive officer that causes intentional material damage to our property or business;

repeated absences from work for other than physical or mental impairment or weakness;

admission or conviction of a felony or other crime, that, in the reasonable opinion of our board of directors, adversely affects the ability of the executive officer to perform his or her obligations under his or her employment agreement; or

the failure of the executive officer to devote substantially all of his or her business time and attention to the performance of his or her duties under his or her employment agreement.

In general, good reason exists when:

the position or scope of the executive officer's authority, duties or responsibilities are materially diminished;

we commit a material breach of the employment agreement that is not cured after notice; or

the employment of the executive officer is terminated without cause.

Our executive officers have no contractual rights to receive any payments from us merely because we have undergone a change of control. However, upon a change of control, any unvested portion of any restricted stock awards held by our executive officers would vest upon the occurrence of the change of control.

401(k) Plans. We maintain a 401(k) plan for all of our employees, including our executive officers. We do not make matching contributions to the plan.

Employee Benefit Plans. Our employees, including our named executive officers, are entitled to receive various employee benefits, including medical and dental care plans, flexible spending accounts for healthcare, life, accidental death and dismemberment disability insurance, employee confidential counseling programs, benefit advocacy counseling, a 401(k) plan and paid vacation.

Perquisites and Other Benefits. The perquisites and other benefits we provide to our executive officers are less than \$10,000 per year in the aggregate.

The Operation of Our Compensation Process

Our compensation committee recommends all compensation and awards to our executive officers for final discretionary action by our board of directors. Our compensation committee, in recommending the annual compensation of our executive officers for approval by our board of directors, reviews the performance and

Table of Contents

compensation of our executive officers and considers the recommendations of our independent compensation consultants. In assessing the performance of our executive officers in relation to the objectives established by our board of directors, our compensation committee reviews specific achievements associated with attainment of the objectives, the degree of difficulty of the objectives and the extent to which significant unforeseen obstacles or favorable circumstances affected their performance.

To assist the analysis of our compensation committee, we have established a list of mortgage REITs that we consider as our peer group. We use the compensation data from the REITs in this group for developing a comparison with our executive officers with similar responsibilities. The REITs we currently consider as part of our peer group are Impac Mortgage, Redwood Trust, MFA, Anworth, Homebanc, Annaly, American Home Mortgage and Thornburg Mortgage.

Our compensation committee utilizes the following governance procedures in discharging its responsibilities:

the chairman of our compensation committee meets with our chief executive officer in advance of each compensation committee meeting to review the agenda for the compensation committee meeting. When appropriate, our independent compensation consultants participate in these meetings;

documentation relevant to the matters to be considered at each meeting of our compensation committee is provided several days in advance to each member of our compensation committee to provide the members of our compensation committee adequate time for review;

our compensation committee has the authority to request, and has requested, the participation of our independent compensation consultants and our independent legal counsel at compensation committee meetings;

our compensation committee holds an executive session as part of each of its meetings at which none of our executive officers are present;

our compensation committee provides minutes of all of its meetings to our board of directors, and consults with our independent directors as appropriate about significant compensation matters, including matters affecting the compensation of our chief executive officer and our chief financial officer;

our compensation committee conducts its business in accordance with its charter, which is available on our website at www.luminentcapital.com, reviews its charter annually in light of developments affecting the compensation of executive officers of public corporations and develops an annual schedule for compliance with each of the mandates of our compensation committee's charter; and

our compensation committee conducts an annual self-evaluation of its performance.

Restatements

It is the policy of our board of directors that our compensation committee will, to the extent legally permitted, have the sole authority to make retroactive adjustments to any cash or equity-based compensation paid to our executive officers where the payment was predicated upon the achievement of certain financial results that were subsequently the subject of a restatement, and seek to recover any amount subsequently determined to have been inappropriately received by any of our executive officers.

Tax Matters

Section 162(m) of the Code generally does not allow a deduction to us for federal income tax purposes to the extent that the annual compensation we pay to any of our executive officers named in the Summary Compensation Table in this proxy statement is in excess of \$1 million. However, compensation paid to such an executive officer that is paid pursuant to a performance-based plan is generally not subject to the Section 162(m) limitation. Our restricted stock awards are not considered performance-based compensation for the purposes of Section 162(m). Although our compensation committee is aware of the Section 162(m) limitation, our compensation committee believes that it is equally important to maintain flexibility and competitive effectiveness of the compensation of our named executive officers. Our compensation committee may, therefore, from time to time, authorize compensation

Table of Contents

that is not deductible for federal income tax purposes if our compensation committee believes it is in our best interests and the best interests of our stockholders to do so.

Summary Compensation Table

The following table summarizes the compensation we paid during 2006 to our chairman and chief executive officer, our president and chief operating officer, our senior vice president and chief financial officer and our two other most highly compensated executive officers. We refer to these persons, who are named in the table below, as our named executive officers. We do not provide any pension or deferred compensation benefits to our named executive officers.

Stock Incentive Plans

We have a stock incentive plan and an outside advisors stock incentive plan pursuant to which awards relating to our common stock can be authorized at the discretion of our compensation committee. The purpose of the plans is to provide long-term incentive awards to our employees, consultants and advisors as a means to attract, motivate, retain and reward eligible persons.

We have reserved 1,850,000 shares under our stock incentive plan and 150,000 shares under our outside advisors stock incentive plan. If shares covered by an option cease to be issuable for any reason, that number of shares may again become the subject of options granted under the plans. The awards can take the form of incentive stock options, non-qualified stock options, stock appreciation rights, stock units and other stock-based awards. With the exception of outstanding options to purchase a total of 55,000 shares granted in 2003 at a weighted average exercise price of \$14.82, we have not utilized these plans in the past and we do not intend to utilize these plans for the grant of stock options in the future absent currently unforeseen circumstances. The term of each outstanding option is ten years from the date the option was granted, and all outstanding options are fully vested.

The number and kind of shares available for grants under our plans and options outstanding under our plans and the exercise price of outstanding options are subject to adjustment by our compensation committee in the event of a merger, consolidation, reorganization, stock split, stock dividend or other event affecting the number of outstanding shares of our common stock. Unless otherwise provided in individual option agreements, the vesting of unvested options do not automatically accelerate in the event of a business combination or in the event of the sale of all or substantially all of our assets.

Our compensation committee has:

the authority to determine the persons eligible to be granted options, the number of shares subject to each option, the exercise price of each option, the vesting schedule, circumstances in which the vesting of options is accelerated and any extension of the period for exercise; and

full discretionary authority to determine any matters relating to options granted under our plans.

Our board of directors has the authority to suspend, amend or terminate our plans, except as would adversely affect the rights of persons holding outstanding awards without the consent of such person.

Non-qualified Deferred Compensation

None of our named executive officers participated in or had account balances in non-qualified deferred compensation plans or other deferred compensation plans that we maintained in 2006, and none is contemplated for 2007.

Director Compensation

During 2006, we paid each of our non-officer directors an annual fee at the rate of \$50,000 for service on our board of directors, paid our lead independent director an additional annual fee of \$20,000 and paid the chairperson of each committee of our board of directors an additional annual fee of \$10,000. We paid each non-officer director a meeting fee of \$2,500 for each board meeting attended in person and a fee of \$1,500 for each board meeting at which the non-officer director was present by conference telephone. We also paid committee meeting fees of \$1,000 for each committee meeting of our board of directors that a director attends. We also reimbursed all of our directors for expenses incurred in attending meetings of our board of directors and its committees. We do not currently compensate any of our named executive officers for serving as a member of our board of directors or its committees, nor do we currently provide our non-officer directors with stock options or restricted stock awards.

The following table sets forth a summary of the compensation we paid to our non-officer directors during 2006:

Table of Contents

On January 12, 2007, our compensation committee approved changes to the 2007 compensation of our non-employee directors. The changes are intended to position the compensation of our non-employee directors competitively relative to a peer group of mortgage REITs selected by us and to reflect the activity and responsibility levels of our non-employee directors. Our compensation committee also added an equity ownership requirement and equity compensation component to further align the interests of our non-employee director with those of our stockholders.

Cash Compensation:

Description	2007(\$)	2006(\$)
Annual cash retainer	40,000	50,000
Per board meeting fees		2,500
Committee meeting fees	1,500	1,000
Audit committee chair	20,000	10,000
Compensation committee chair	10,000	10,000
Governance and nominating committee chair	10,000	10,000
Lead independent director	20,000	20,000

Equity Compensation:

Each non-employee director will receive an annual grant of restricted stock determined by dividing \$30,000 by the closing price of our common stock on the NYSE on the date of our annual meeting of stockholders. Each such restricted stock award will vest ratably over three years.

Our compensation committee also adopted stock ownership guidelines for our non-employee directors. Those guidelines provide that each non-employee director should own shares of our common stock equal in market value to three times the value of the annual grant of restricted stock the non-employee director receives. By way of example, assuming the value of the annual restricted stock award is \$30,000, the target ownership level for a director would be \$90,000. Our policy further contemplates that none of our non-employee directors would sell any of our common stock under circumstances that would cause that director to own less than \$90,000 of our common stock.

Related Person Transactions

We have adopted a policy formalizing the manner in which we deal with a proposed transaction between us and a related person because we recognize that related person transactions present a heightened risk of conflicts of interest and can create the appearance of a conflict of interest. Under our policy, all proposed related person transactions must receive the prior approval of the audit committee of our board of directors before we can enter into the transaction, and, if the transaction continues for more than one year, the continuation must be approved annually by the audit committee of our board of directors.

We did not effect any related person transactions in 2006.

Limitation of Liability and Indemnification

Our charter includes a provision that limits, to the maximum extent permitted by Maryland law, the liability of our directors and officers to us and to our stockholders for money damages except for liability resulting from:

actual receipt of an improper benefit or profit in money, property or services; or

active and deliberate dishonesty established by a final judgment as being material to the cause of action.

This limitation does not, however, apply to violations of the federal securities laws, nor does it limit the availability of non-monetary relief in any action or proceeding.

Our charter and by-laws obligate us, to the maximum extent permitted by Maryland law, to indemnify any person who is or was a party to, or is threatened to be made a party to, any threatened or pending action, suit or proceeding by reason of the fact that such person is or was one of our directors or officers, or, while one of our directors or officers, is or was serving, at our request, as a director or officer of another entity. Insofar as

Table of Contents

indemnification for liabilities arising under the federal securities laws may be permitted to our officers and directors pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in such laws and is unenforceable.

In addition, our charter and by-laws permit us, at our expense, to purchase and maintain insurance to protect us and any director, officer or employee against any liability of any character asserted against or incurred by us or any such director, officer or employee, or arising out of any such person's corporate status, whether or not we would have the power to indemnify such person against such liability under Maryland law. We also have and intend to maintain directors' and officers' liability insurance.

Evaluation of Executive Performance in 2006 and Executive Compensation

Our compensation committee does not restrict its evaluation of the performance of our named executive officers to predetermined formulas or a limited set of criteria. Our compensation committee considered our achievement during 2006 of the short-term and long-term objectives described below:

- overcoming the negative effects of the inversion of the yield curve;
- converting from a primarily spread portfolio to a primarily credit-oriented portfolio;
- improving our return on equity to a double-digit level;
- expansion of our warehouse credit facilities;
- raising equity capital;
- communicating our new strategy to increase stockholder value;
- growing our securitization business;
- developing a collateralized debt program to help finance our credit-sensitive bond portfolio;
- enhancing the skills of our personnel;
- becoming fully internally managed; and
- developing an external servicing capacity so we could expand our network of mortgage originators.

On an overall basis, our compensation committee believes that our progress in the achievement of these objectives exceeded the targets our compensation committee had established for those objectives at the start of 2006 with emphasis given to our year 2006 total stockholder return of 43% along with a report our independent compensation consultants furnished to our compensation committee in November 2006 that contained its analysis and recommendations for 2006 incentive compensation. Our compensation committee met on December 15, 2006 to determine the annual cash bonuses and restricted stock awards of our named executive officers for 2006 and adjustments to their 2007 base salary and minimum annual cash bonus. The compensation determinations of our compensation committee as to each of our named executive officers is discussed below.

Our Chairman and Chief Executive Officer

Base Salary. Gail P. Seneca's employment agreement provides for a base salary of \$650,000 which will continue for 2007.

Minimum Annual Cash Bonus. Ms. Seneca's employment agreement provides for a minimum annual cash bonus of \$350,000 and the compensation committee awarded her a 2006 bonus of \$350,000.

Restricted Stock Awards. We awarded Ms. Seneca 300,000 shares of restricted common stock when she joined us as an employee in January 2006. Ms. Seneca had previously been chief executive officer and an employee of our external manager while also serving as our Chairman of the Board and Chief Executive Officer. Because 200,000 of these shares had become vested as of January 3, 2007, our compensation committee did not make a further restricted stock award to Ms. Seneca in December 2006.

Table of Contents

The total annual compensation projected for Ms. Seneca in 2007 is at approximately the 25th percentile of our peer group which is also approximately our size compared to our peer group.

Our President and Chief Operating Officer

Base Salary. S. Trezevant Moore, Jr. s employment agreement provides for a base salary of \$350,000. Because Mr. Moore will assume additional responsibilities as our chief executive officer by the end of 2007, our compensation committee increased his base salary for 2007 to \$500,000.

Minimum Annual Cash Bonus. Mr. Moore s employment agreement provides for a minimum annual cash bonus of \$175,000. Because of our performance in 2006 and the recommendations of our compensation consultants, our compensation committee approved a \$350,000 bonus for Mr. Moore for 2006 and increased his minimum annual cash bonus for 2007 to \$500,000 because of his assumptions of additional responsibilities.

Restricted Stock Awards. In 2006, our guideline for annual restricted stock awards to Mr. Moore was between 10% and 80% of his base salary. Our compensation committee awarded 50,000 shares of restricted stock to Mr. Moore that vest over three years with an award date value of \$497,000, or approximately 100% of his 2007 base salary.

The total annual compensation projected for Mr. Moore in 2007 is slightly in excess of the 25th percentile of our peer group.

Our Senior Vice President and Chief Financial Officer

Base Salary. Christopher J. Zyda s employment agreement provides for a base salary of \$250,000. Because our compensation committee believed Mr. Zyda had assumed additional operating responsibilities in 2006 as well as the quality of his performance in 2006, our compensation committee increased his base salary for 2007 to \$350,000.

Minimum Annual Cash Bonus. Mr. Zyda s employment agreement provides for a minimum annual cash bonus of \$125,000. Because of the reasons noted above and in order to better match Mr. Zyda s cash compensation with our peer group, our compensation committee approved a \$450,000 bonus for Mr. Zyda for 2006.

Restricted Stock Awards. In 2006, our guideline for annual restricted stock awards to Mr. Zyda was between 10% and 60% of his base salary. Our compensation committee awarded 35,000 shares of restricted stock to Mr. Zyda on December 15, 2006 that vest over three years with an award date value of \$347,900, or approximately 100% of his 2007 base salary.

Our compensation committee currently believes that the total annual compensation projected for Mr. Zyda in 2007 approximates the median of our peer group for comparable positions.

Our Senior Vice President and Chief Credit Officer

Base Salary. Eleanor Cornfeld Melton joined us in mid-2005 at a starting salary of \$225,000. Her base salary in 2006 was \$235,000, and our compensation committee increased her base salary for 2007 to \$245,000.

Annual Cash Bonus. Ms. Melton s employment letter provided for an annualized minimum annual cash bonus of \$175,000 for 2006. Our compensation committee awarded her an annual cash bonus of \$409,000 in recognition of her performance in 2005 and 2006 in developing our credit-oriented portfolio. The target for her 2007 cash bonus is between 0% and 100% of her 2007 base salary of \$245,000.

Restricted Stock Awards. Our compensation committee made a discretionary award of 20,000 shares of restricted stock during 2006 to Ms. Melton in recognition of her 2006 performance. The restricted stock vests at various times between June 1, 2007 and December 15, 2009 with an aggregate award date value of \$189,300. Our compensation committee expects to make a restricted stock award to Ms. Melton during 2007 on a discretionary basis.

Our compensation committee currently believes that Ms. Melton's projected total annual compensation for 2007 approximates the median of our peer group for comparable positions.

Table of Contents

Our Senior Vice President and Chief Risk Officer

Base Salary. Ronald Viera joined us in mid-2005 at a starting salary of \$170,000. His base salary in 2006 was \$202,500, and our compensation committee increased his base salary for 2007 to \$225,000.

Annual Cash Bonus. Mr. Viera's employment letter provided for a first year bonus of \$60,000 for 2005. Our compensation committee awarded him an annual cash bonus of \$275,000 for 2006 in recognition of his performance during 2005 and 2006 in the development of our securitization business. The target for his 2007 cash bonus is between 0% and 100% of his 2007 base salary of \$225,000.

Restricted Stock Awards. Our compensation committee made a discretionary award of 30,000 shares of restricted stock during 2006 to Mr. Viera in recognition of his 2006 performance. The restricted stock vests at various times between June 1, 2007 and December 15, 2009 with an aggregate award date value of \$279,200. Our compensation committee expects to make a restricted stock award to Mr. Viera during 2007 on a discretionary basis.

Our compensation committee currently believes that Mr. Viera's projected total annual compensation for 2007 approximates the median of our peer group for comparable positions.

Audit Committee Pre-Approval Policies and Procedures

Our audit committee is responsible for the appointment, compensation and oversight of the work of our independent registered public accounting firm. As part of this responsibility, our audit committee is required to pre-approve the audit and non-audit services performed by Deloitte & Touche in order to assure that these services do not impair the independence of Deloitte & Touche from us. Accordingly, our audit committee has adopted an audit and non-audit services pre-approval policy, which sets forth the procedures and the conditions pursuant to which services our independent registered public accounting firm proposes to perform for us may be pre-approved. Our audit committee believes that the combination of a general pre-approval approach and specific pre-approval approach will result in an effective and efficient procedure to pre-approve services provided by our independent registered public accounting firm. Unless a type of service has received general pre-approval, it requires specific pre-approval by our audit committee if it is to be provided by our independent registered public accounting firm. Any proposed services exceeding pre-approved cost levels or budgeted amounts also require specific pre-approval by our audit committee.

The services to be provided by our independent registered public accounting firm and pre-approved by our audit committee include audit, audit-related, tax and all other services. The term of any general pre-approval is 12 months from the date of the pre-approval, unless our audit committee considers a different period and states otherwise. Our audit committee annually reviews and pre-approves the services that may be provided by our independent registered public accounting firm on a general pre-approval basis. Our audit committee will add or subtract to the list of general pre-approved services from time to time based on subsequent determinations.

Our audit committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decision to our audit committee at its next scheduled meeting.

Pre-approval fee levels or budgeted amounts for all services to be provided by Deloitte & Touche are established annually by our audit committee. Any proposed services exceeding these levels or amounts require specific pre-approval by our audit committee. Our management and our independent registered public accounting firm report

to our audit committee at each regularly scheduled meeting on the status of fees incurred fiscal year-to-date for each category of service as well as any changes to expected fee levels for such services.

As part of its oversight of our financial reporting process, our audit committee reviews our annual and quarterly financial statements and discusses them with our independent registered public accountants and with management prior to the issuance of the statements. During 2006, management and our independent registered public accountants advised our audit committee that each of our financial statements had been prepared in accordance with generally accepted accounting principles. They also reviewed significant accounting and disclosure issues with our audit committee. These reviews included discussions with our independent registered public accountants as to the matters required to be discussed pursuant to Statement of Auditing Standards No. 61 (Communication with Audit Committees), as amended, including the accounting principles we employ, the reasonableness of significant judgments made by our management and the transparency of our financial statements. Our audit committee discussed

with Deloitte & Touche matters relating to its independence, including a review of audit and non-audit fees and the written disclosures and letter from Deloitte & Touche to our audit committee pursuant to Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees).
