PROXY STATEMENT FOR
ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON JULY 18, 2002

The proxy accompanying this Proxy Statement is solicited by the Board of Directors of PICO Holdings, Inc., a California corporation (the "Company"), to be voted at the Annual Meeting of Shareholders of the Company (the "Annual Meeting") to be held at the Museum of Contemporary Art, Coast Room, 700 Prospect Street, La Jolla, California at 9:00 a.m. (PDT) on Thursday, July 18, 2002 and at any postponement or adjournment thereof. The proxy may be revoked by appropriate written notice at any time before it is exercised or by voting in person at the meeting.

GENERAL INFORMATION

A copy of the Company's Annual Report to Shareholders for 2001 accompanies this Proxy Statement. The Annual Report and these proxy solicitation materials are being mailed on or about May 28, 2002 to all shareholders entitled to vote at the meeting.

As of May 20, 2002, the record date for the determination of shareholders entitled to vote at the Annual Meeting, 12,368,616 shares of Common Stock of the Company were issued and outstanding, excluding 4,415,607 treasury shares. Each share of Common Stock entitles the holder to one vote on all matters brought before the Annual Meeting, except for the 4,415,607 shares held by the Company and subsidiaries of the Company which may not be voted.

In voting for the election of directors, shareholders have cumulative voting rights. Accordingly, each shareholder may cumulate such voting power as such shareholder possesses and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of shares held by the shareholder, or distribute such shareholder's votes on the same principle among two or more candidates, as such shareholder sees fit. However, no shareholder is entitled to cumulate votes (in other words, cast for any candidate a number of votes greater than the number of shares of stock held by such shareholder) unless at least one shareholder has given notice, at the Annual Meeting prior to the voting, of the shareholder's intention to cumulate votes. If any shareholder

Edgar Filing: PICO HOLDINGS INC /NEW - Form DEF 14A

has given such notice, all shareholders may cumulate their votes for nominated candidates.

The proxy, if returned properly executed and not subsequently revoked by written notice delivered to the Secretary of the Company or by the shareholder voting in person at the Annual Meeting, will be voted in accordance with the choice made by the shareholder thereon. If a choice is not made with respect to any issue, the proxy will be voted for the items described in this Proxy Statement. If cumulative voting is permitted in the election of directors at the Annual Meeting, the proxy holders shall have discretion as to the manner in which votes represented by the proxy are to be cumulated, unless the proxy indicates the manner in which such votes shall be cumulated.

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspector of election appointed for the meeting who will also determine whether or not a quorum is present. The inspector of election will treat abstentions, and any shares as to which a broker or nominee has indicated that it does not have discretionary authority to vote on a particular matter, as shares that are present and entitled to vote for purposes of determining the presence of a quorum at the meeting, but will not be considered as present with respect to that matter.

REPORT OF THE COMPENSATION COMMITTEE

COMMITTEE MEMBERS

The three-member Compensation Committee of the Board of Directors is a standing committee composed entirely of outside Directors. Mr. Weil is the chairman and Mr. Campbell and Dr. Ruppert are the other members.

COMMITTEE FUNCTIONS

The Compensation Committee is responsible for assuring that all of the executive compensation programs of the Company are developed, implemented, and administered in a way that supports the Company's fundamental philosophy that a significant portion of executive compensation should be effectively linked to Company performance.

The Compensation Committee meets on a regularly scheduled basis. It reviews and approves the overall executive compensation program which includes both base pay and incentive compensation. It considers and approves individual executive officer compensation packages based on recommendations of the Company's Chief Executive Officer. It recommends, for the approval of the full Board, any modification to the compensation package of the Company's Chief Executive

Officer.

The Compensation Committee also reviews the level of compensation paid to nonemployee members of the Company's Board of Directors and makes recommendations to the Board of Directors to modify the level of nonemployee directors' compensation when appropriate.

EXECUTIVE COMPENSATION PHILOSOPHY

The Board of Directors of the Company's predecessor retained an independent compensation expert, William M. Mercer, Incorporated ("Mercer"). In 1996, Mercer conducted an analysis of marketplace executive compensation levels. The scope of Mercer's study covered the Company's Chairman and President and Chief Executive Officer. The objectives of Mercer's study were as follows:

8

- Analyze the scope, responsibilities and skill requirements of the jobs performed by Messrs. Langley and Hart and compare and contrast to comparable benchmark executive positions found in the marketplace.
- Develop an appropriate methodology for selecting comparable benchmark jobs, industry categories and a peer group of companies comparable to the Company in terms of business focus, industry classification and size; and competition for senior executives with the skills, expertise and talent demonstrated by the Company's top two executives.
- For the appropriate benchmark jobs, industry category and peer company group, collect information on marketplace compensation levels and practices from compensation surveys and peer company proxy statements. The companies included in the peer company group are not necessarily those included in the Nasdaq Insurance Stock Index used to determine the most relevant marketplace compensation levels and to compare actual Company compensation levels.
- Develop alternate approaches for structuring the total compensation package for the Company's top two executives, in terms of compensation elements to be used, the mix of total pay and how short and long term incentive compensation might be structured to accurately reflect performance.

Mercer's study recommended to the Compensation Committee a compensation strategy with the following objectives:

- To provide a total compensation package that:
 - is competitive with market rates for executives with similar skill, talent and job requirements.
 - is closely linked to the Company's strategy and the role of covered executives in building shareholder value through growing the book value and, ultimately, the market value of the Company.
- To retain critical executive talent by:
 - providing a reasonable and competitive level of current income (cash flow).
 - providing for loss of future incentive opportunity if an executive terminates employment before unrealized investment gains are realized.

Edgar Filing: PICO HOLDINGS INC /NEW - Form DEF 14A

- To link executive rewards to shareholder interests by:
 - tying incentive awards to growth in book value which ultimately translates into increased market price per share (as investments are liquidated for gains, and the Company grows earnings).
 - granting additional stock options in the future.

The Compensation Committee believes that to accomplish these goals, the executive compensation program should be based on three distinct components: base pay, annual incentives, and long-term incentives. The Company obtains industry and peer group surveys, and consults with independent experts, to evaluate the Company's executive compensation programs in comparison with those offered by its comparable competitors.

In March 2000, the Compensation Committee asked Mercer to examine the present level of stock options granted to the Company's management, to recommend an appropriate level of stock options to be granted in the future to the Company's management, and to review the level of compensation paid to the Company's nonemployee directors. The Compensation Committee believed such a review by Mercer was necessary in order to assist the Company in retaining and attracting qualified directors and executives, and to link executive and director rewards to the long term interests of the Company's shareholders. Mercer's study recommended that additional stock options be granted to management to enhance the Company's ability to retain and attract key executives. Mercer's study also recommended that, to enable the Company to remain competitive and to continue to be able to retain and attract qualified members of the Board of Directors and to align directors long term interests with those of shareholders, nonemployee directors compensation should be increased. In line with the recent study by Mercer, with respect to annual cash remuneration paid to nonemployee directors, the Board approved the Compensation Committee's recommendation that the Company's annual retainer fee be increased to \$30,000 per nonemployee director effective October 1, 2001. In addition,

9

each nonemployee director was granted 1,500 stock options in 2000 under the PICO Holdings, Inc. 2000 Nonstatutory Stock Option Plan.

The Compensation Committee has considered the provisions of Section 162(m) of the Internal Revenue Code and related income tax regulations which restrict the deductibility of certain compensation paid to the Company's Chief Executive Officer and each of the four most highly compensated officers holding office at the end of any year, to the extent such compensation paid to any of these officers exceeds \$1,000,000 in any year and fails to qualify for an exemption from the restriction. In view of the Company's compensation structure, the Committee believes it is unlikely that this will impact the Company in the near future. The Compensation Committee will continue to monitor this.

EXECUTIVE COMPENSATION PROGRAM

The features of the executive compensation program as recommended by Mercer and approved by the Compensation Committee are:

BASE COMPENSATION. A fixed rate, to be reviewed annually. Future adjustments will take into account movement in executive compensation levels, changes in job responsibilities, and the size of the Company.

INCENTIVE AWARDS. Based on growth of book value per share in a fiscal year. Awards are earned when a pre-determined threshold is surpassed. If book value

Edgar Filing: PICO HOLDINGS INC /NEW - Form DEF 14A

per share of the Company exceeds this threshold, the incentive award is equal to 5% of the increase in book value per share multiplied by the number of shares outstanding at the beginning of the fiscal year. The threshold for 2001 was approximately 8.5%.

In addition, the Board of Directors of Physicians granted options under the Physicians Insurance Company of Ohio 1995 Non-Qualified Stock Option Plan. The options granted under said option plan were designed to reinforce the relationship between the Company's future performance and the executive's potential future financial rewards. These options were assumed by PICO Holdings, Inc. on November 20, 1996. In line with this philosophy of providing incentives to executive officers, the Company agreed to convert the Global Equity options of said officers on an economically equivalent basis, to options to purchase shares of the Company effective with the close of the PICO/Global Equity Combination. On April 7, 2000, PICO granted, subject to approval by the Company's shareholders obtained on October 19, 2000, non-qualified common stock options to employees and nonemployee directors of the Company.

GOALS OF COMPENSATION COMMITTEE

The Compensation Committee attempts to align executive compensation with the value achieved by the executives for the Company's shareholders. The Company's compensation program for executives emphasizes a combination of base salary, discretionary bonuses, and stock options designed to attract, retain, and motivate executives who will maximize shareholder value. The Compensation Committee considers individual and Company performance, as well as compensation paid by comparable companies.

Executives also participate in other employee benefit programs, including health insurance, group life insurance, and the Company's 401(k) Plan.

DISCUSSION OF 2001 COMPENSATION FOR THE CHIEF EXECUTIVE OFFICER

No bonus was paid with respect to the Company's performance for 2001. In 1997, the Compensation Committee recommended to the Board of Directors, and the Board of Directors accepted the recommendation, that it was appropriate for the CEO and the Chairman to be compensated as employees, rather than as consultants. Accordingly, effective December 31, 1997, the CEO and Chairman entered into employment agreements with the Company.

As stated above, the Compensation Committee believes the interest of Company shareholders is best served by aligning the CEO's short-term compensation, over and above a competitive fixed annual rate of pay, with an increase in the Company's book value per share which will ultimately be reflected in higher market values per share. Specifically, a threshold was set at 80% of the S&P 500's annualized total return for the five previous calendar years. For 2001, this threshold was approximately 8.5%. Since the Company's book value per share did not exceed the threshold, no bonus was payable for 2001.

10

In light of Mercer's March 2000 study, the compensation committee recommended that the Company adopt a stock option plan for the reasons stated above. The Board of Directors approved this recommendation and approved the PICO Holdings, Inc. 2000 Nonstatutory Stock Option Plan, which the Company's shareholders approved on October 19, 2000. Pursuant to the PICO Holdings, Inc. 2000 Nonstatutory Stock Option Plan, the Company's CEO was granted 456,586 stock options in 2000.

The Committee believes that the compensation provided by this combination of

Edgar Filing: PICO HOLDINGS INC /NEW - Form DEF 14A

fixed annual compensation, and short-term and long-term incentives provides a mechanism to fairly compensate the CEO while providing the CEO with a strong incentive to maximize shareholder value.

Mr. Langley and Mr. Hart each entered into new employment agreements effective January 1, 2002 with the Company for an additional four years. These employment agreements are substantially similar to the 1997 employment agreements. Total compensation to Mr. Langley and Mr. Hart under these employment agreements is \$800,000 each on an annual basis, subject to adjustment in January of each year. The \$800,000 base salary in each employment agreement is subject to annual adjustment in January of each year in the same percentage applicable to the Company's other staff members in an amount deemed adequate to provide for inflation, cost of living, and merit increases based on the Consumer Price Index and major compensation studies. These employment agreements include a change in control clause providing that if there is a change of control before January 1, 2004, the Company is required to immediately pay each employee a total lump sum of \$2.4 million and an amount equal to three times the highest annual bonus paid to the employee in the last three years. The new employment agreements contain the same bonus, i.e., short-term incentive provision as the 1997 employment agreements.
