SHOPSMITH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- In the opinion of management, all adjustments (consisting of only normal and recurring adjustments) have been made as of June 29, 2002 and June 30, 2001 to present the financial statements fairly. However, the results of operations for the three months then ended are not necessarily indicative of results for the fiscal year. The financial statements and notes are presented as permitted by Form 10-Q, and do not contain certain information included in the annual financial statements. The financial statements accompanying this report should be read in conjunction with the financial statements and notes thereto included in the Annual Report to Shareholders for the year ended March 30, 2002.
- The provision for income taxes is as follows:

	Three Months Ended	
	June 29 2002	June 30 2001
Income (loss) before income taxes	\$ 63,728	\$ (494,860)
Provision for (recoverable) income taxes:		
Income tax benefit (expense)		
\$ \$		

Taxable income for the quarter ended June 29, 2002 was offset by a net operating loss carry forward (The remaining net operating loss carry forward asset of \$1,401,000 was not shown as an asset because of a valuation allowance against the Company's ability to realize the tax benefit).

- Basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share reflects per share amounts that would have resulted if stock options had been converted into common stock. The following reconciles amounts reported in the financial statements:

	Three Months Ended	
	June 29 2002	June 30 2001
Net income (loss)	\$ 63,728	\$ (494,860)
Weighted average shares	2,605,233	2,605,233
Additional dilutive shares		

Total dilutive shares
2,605,233 2,605,233

Basic income (loss) per share
\$0.02 \$(0.19)

Diluted income (loss) per share
\$0.02 \$(0.19)

There were no additional dilutive shares included in the computation at June 29, 2002 and June 30, 2001 because the stock options were anti-dilutive.

Table of Contents

4. During fiscal 2002, Shopsmith entered into an arrangement with John R. Folkerth, the Company's CEO, which allows the Company to borrow up to \$500,000 with interest at twelve percent. The maximum authorized borrowing was increased to \$600,000 in July 2002. Substantially all personal property except for certain receivables are pledged as collateral. Interest is due monthly and the note is payable on demand. At June 29, 2002, there was \$400,000 outstanding under this arrangement. Borrowings from Mr. Folkerth are subject to Mr. Folkerth's approval and are payable upon demand by Mr. Folkerth.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Shopsmith manufactures and sells woodworking products. Our core product, the Mark V is sold directly to consumers through demonstration sales events and indirectly to consumers through distributors, primarily Lowe's where Shopsmith also conducts sales demonstrations, along with smaller amounts through other efforts. Mark V sales demonstrations are done in shopping malls, at home shows, and at state fairs. Other woodworking products and accessories are sold through mail and Internet channels. Shopsmith recognizes revenue for these orders at the time of product shipment.

First quarter sales increased to \$3,415,000 or 12.4% from \$3,037,000 generated a year ago. This increase in volume was primarily in our mail and internet sales channel, which together increased \$252,000 over last year. Demonstration sales of the Mark V continued the shift in location from mall and high-traffic locations to demonstrations done within Lowe's stores. In total, demonstration sales were up slightly.

Gross margin rates decreased by one percentage point compared to last year, reflecting the lower margin earned on demonstration sales within Lowe's stores. Operating expenses were reduced by \$413,000 to \$1,675,000 in the current fiscal year from \$2,088,000 last year. Operating expenses were reduced by improved expense control on Mark V sales events, as well as through reductions in compensation costs. Employee benefit costs were reduced in the quarter by \$53,000 due to proceeds from the Anthem insurance demutualization.

In fiscal 2003, Shopsmith has implemented a employee salary reduction plan. As part of this plan, fiscal 2003 pre-tax income above \$100,000 will be used to return the amount of the reduction and to pay an additional incentive equal to the amount of the reduction, as income permits. The effect of this plan on the first quarter was to reduce expenses by \$18,000.

Provisions for recoverable Federal income taxes (\$0 in both FY2003 and FY 2002) are based on estimated annual effective rates, less a valuation reserve. The zero Federal income tax amount in FY2003 was due to the utilization of the net loss carryforwards.

Because of the factors above, a net income of \$64,000 or \$.02 per diluted share was earned in the quarter ended June 29, 2002 compared to a net loss of \$495,000 or \$.19 per diluted share for the same period of last year.

Liquidity and Financial Position

Cash used in operations totaled \$91,000 in the current year compared with \$883,000 for the first quarter of the preceding year. A reduction in payables partially offset by decreases in receivables and inventory, was the main reason for the cash usage in the current quarter. The cash usage in the first quarter follows the Company's seasonal pattern.

The current ratio was 1.59 to 1 at June 29, 2002 compared to 1.43 to 1 at the beginning of the current fiscal year. The debt to equity ratio decreased to 2.38 to 1 from 2.92 to 1 at March 30, 2002.

During fiscal 2002, Shopsmith entered into an arrangement with John R. Folkerth, the Company's CEO, which allows the Company to borrow up to \$500,000 with interest at twelve percent. The maximum authorized borrowing was increased to \$600,000 in July 2002. Substantially all personal property except for certain receivables are pledged as collateral. Interest is due monthly and the note is payable on demand. At June 29, 2002, there was \$400,000 outstanding under this arrangement. Borrowings from Mr. Folkerth are subject to Mr. Folkerth's approval and are payable upon demand by Mr. Folkerth.

In 1999, the Company purchased the building it had been leasing. The seller financed the building purchase. The financing agreement provided for a \$100,000 down payment and a secured mortgage note for \$2,800,000 at an 8.75% interest rate. The note was payable in monthly installments of \$25,785 with the balance being due and payable in full on January 1, 2003. In March 2002, the agreement was amended to continue the \$25,785 monthly payments of

Table of Contents

principal and interest until January 1, 2006 at which time the scheduled balance of approximately \$2,180,000 will become due and payable.

Forward Looking Statements

The foregoing discussion and the Company's consolidated financial statements contain certain forward-looking statements that involve risks and uncertainties, including but not limited to the following: (i) the operating cash flows together with currently available working capital may be inadequate to finance the operating needs of the Company; and (ii) the demand loan extended to the Company by Mr. John R. Folkerth (as described above) could be called prior to the Company being in a position to repay or refinance the loan.
