Item 1.01 Entry Into a Material Definitive Agreement.

The disclosure set forth in Item 2.03 below is incorporated herein by reference.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On December 27, 2006, RTI International Metals, Inc. (RTI or the Company) wholly-owned, Canadian subsidiary, RTI Claro, Inc. (Claro or Borrower), entered into a Credit Agreement (the Credit Agreement) with National City Bank, Canada Branch (Lender). The Credit Agreement provides for an unsecured CDN \$16 million credit facility which RTI intends to use to finance its previously announced expansion of Claro s operations in Laval, Canada. The Credit Agreement operates as a revolving credit facility until July 1, 2007, at which time the outstanding principal and interest will convert to a ten-year term loan (the Credit Facility).

The Credit Facility is guaranteed by RTI and each of its domestic subsidiaries. The Credit Facility bears interest at a rate ranging from Canadian Dollar Offered Rate (CDOR) plus 0.65% to CDOR plus 2.25% or Canadian Prime minus 0.75% to Canadian Prime plus 0.75%, the pricing level dependent on the Company s leverage ratio. Repayment of interest only is required during the revolver period. Upon conversion to a term loan, the loan will be repaid in 39 equal quarterly principal and interest payments (based on a 15-year amortization schedule) and a 40th quarter balloon payment of outstanding principal and interest.

The Credit Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on indebtedness, liens, investments, distributions, mergers and acquisitions, disposition of assets and transactions with affiliates. The covenants permit the proceeds of the Credit Facility to be used for real estate acquisition and development, working capital and capital expenditures and other lawful corporate purposes. The Credit Facility also contains financial covenants for RTI including a Debt Service Coverage Ratio of EBITDA to principal amount of all indebtedness, capital lease and interest payments of at least 1.25 to 1.00. Other financial covenants, such as a Maximum Leverage Ratio of 3.00 to 1.00 and a Minimum EBIT/Interest Expense Ratio of 2.50 to 1.00, are consistent with RTI s existing \$90 million U.S. credit facility. National City Bank is a syndicated lender and the co-documentation agent under the Company s U.S. credit facility, which is agented by PNC Bank, National Association.

The Credit Facility provides for customary events of default with corresponding grace periods, including, but not limited to, failure to pay any principal or interest when due, failure to comply with covenants, material breaches of representations or warranties, defaults relating to other indebtedness, insolvency or bankruptcy and a change in control of the Company.
