purchased fee simple ownership of two single-family house lots in the Lot 4A Increment I area ("Increment I") of Kaupulehu, North Kona, on the island of Hawaii. The Venture is a real estate joint venture 80% owned by Barnwell Industries, Inc. ("Barnwell") and 20 percent Owned by a company controlled by Mr. Terry Johnston, a director of Barnwell, and was established for the purpose of acquiring single-family house lots to construct turnkey-style residential homes for future sale. The lots were purchased from WB KD Acquisition, LLC, an unrelated entity.

In January 2007, the Venture agreed to acquire five additional lots within Increment I and made a \$200,000 nonrefundable deposit on each such lot. The purchase of two of these additional lots is scheduled to close in October 2007 and the purchase of the remaining three lots is scheduled to close in April 2008. Each lot has a purchase price of \$2,378,000 and the deposit for each lot will be applied to the purchase price of such lot. The purchase of the two lots that closed on April 30, 2007 and the deposits were funded by a loan from an unrelated entity to the Venture, which is guaranteed jointly and severally by Barnwell and Mr. Johnston and is due April 2008. If any of the lots are not purchased, the deposit related to any such lots will be forfeited and Barnwell will incur an expense as a result of the write-off of 80 percent of the forfeited deposits.

The Venture is currently negotiating agreements with the building contractor and the project management company, an entity controlled by Mr. Johnston, for home building services for the Venture's lots. It is anticipated that a material portion of such agreements will be that each such service provider will receive twenty percent (20 percent) of the profit on the sale of each lot on which a house is constructed. In addition, the Venture intends to enter into contracts, one with the building contractor and one with the project management company, an entity controlled by Mr. Johnston, wherein each will be granted the right to purchase from the current owner of the lots, one of the five additional lots the Venture has agreed to acquire. It is anticipated that any such agreement will specify the lot that will be acquired by such service provider and require such service provider to reimburse the Venture for both the \$200,000 deposit on such lot and interest costs incurred by the Venture related to the initial deposit on such lot.
