REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Committee and Employee Benefits Committee of The Dime Savings Bank of Williamsburgh
209 Havemeyer Street
Brooklyn, New York 11211

We have audited the accompanying statements of net assets available for benefits of The Dime Savings Bank of Williamsburgh 401(k) Plan as of December 31, 2011 and 2010 and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010 and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic 2011 financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic 2011 financial statements taken as a whole.

THE DIME SAVINGS BANK OF WILLIAMSBURGH 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS AS OF DECEMBER 31, 2011 AND 2010 AND FOR THE YEAR
ENDED DECEMBER 31, 2011

1. DESCRIPTION OF PLAN

The following is a brief description of The Dime Savings Bank of Williamsburgh 401(k) Plan (the "Plan"). This description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

- a. General – The Plan is a defined contribution plan covering all eligible employees. The Employee Benefits Committee, comprised of members of both the Board of Directors and management of the Dime Savings Bank of Williamsburgh (the "Bank" or "Plan Sponsor"), oversees the operation and administration of the Plan. It is subject to the provisions of the Employee Retirement Security Act of 1974, as amended ("ERISA").
- b. Eligibility and Participation – Participation in the Plan is voluntary. An employee shall become an eligible employee if he or she has completed a period of service of at least one year, and is a salaried employee. An employee is not an eligible employee if he or she is compensated principally on an hourly, daily, commission, or retainer basis, or has waived any claim to membership in the Plan.
- c. Contributions – Employee contributions of up to 25% of compensation, as defined in the Plan document, are permitted. There are currently no direct contributions to the Plan required to be made by Dime Community Bancshares, Inc. (the "Company"), the parent company of the Bank, or the Bank.

The annual employer contribution is made in the first quarter of each year based upon the total compensation through December 31st of the previous year. During the year ended December 31, 2011, contributions from the Company or Bank were voluntary. In March 2012, a contribution of \$623,408 was made reflecting benefits for the year ended December 31, 2011.

- d. Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's or Bank's contribution and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- e. Vesting – All participants are 100% vested in the value of the annual employer contribution to the Plan and any investment income that these funds may earn. Participant contributions and earnings thereon are nonforfeitable.
- f. Investment Options – Participants direct the investment of both their existing individual account balances and their contribution amounts into various options offered by the Plan. As of December 31, 2011, there were sixteen investment options available in the Plan, which included one fixed income mutual fund, six equity mutual funds, seven collective investment funds, one employer stock fund and one stable value fund.

All investment options are participant directed. Pentegra Asset Management ("Pentegra" or "Trustee") acts as trustee for the Plan.

Transfers between investment alternatives and rollover contributions to the Plan are placed in any of the above funds in multiples of 1%, at the election of the participant.

- g. Notes Receivable from Participants – Notes receivable from participants (or “Participant loans”) are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Participant loans are permitted, subject to current Internal Revenue Service ("IRS") statutes and regulations. Participants may borrow up to 50% of their vested account balance up to a maximum of \$50,000. Prior to June 11, 1998, participants were permitted no more than one outstanding loan at any time. The Plan was amended, effective June 11, 1998, whereby participants are now permitted a maximum of two outstanding loans at any time. Interest charged is fixed for the entire term of the loan and is based upon the prime rate as published in the Wall Street Journal on the date the loan is requested, increased by 1% and rounded to the nearest 1/4 of 1%. The maximum loan term for the purchase of a principal residence may not exceed ten years and loans for any other reason may not exceed five years. At the time of origination, the loans are funded through a reduction of benefit balances existing in the recipients' participant accounts. Loan repayments are made by automatic payroll deductions and are fully applied back into the recipients' participant benefit accounts.

The following is a reconciliation of activity for notes receivable from participants:

	At or for the Year Ended December 31, 2011
Balance at the beginning of the period	\$ 619,507
Loans originated	248,786
Loan principal repayments*	(247,858)
Distributions	(32,123)
Balance at the end of the period	\$ 588,312

* Total repayments were \$276,954 including \$29,096 of interest during the year ended December 31, 2011.

- h. Payment of Benefits – On termination of services due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or annual installments limited to a ten-year period.
- i. Plan Termination – Although the Company or Bank has not expressed any intent to terminate the Plan, it has the right to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the Plan are as follows:

- a. **Basis of Accounting** – The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.
- b. **Use of Estimates** – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.
- c. **Risks and Uncertainties** – The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility. Due to the level of risk associated with certain investment securities, and the sensitivity of certain fair values to changes in the valuation assumptions, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
- d. **Investment Valuation and Income Recognition** – The Plan's investments are stated at fair value. All fixed income and equity mutual funds investments of the Plan are publicly registered and traded on national securities exchanges, and are therefore carried at fair value based on their quoted market prices at the end of the year (level 1 inputs). The Plan's collective investment funds, other than stable value funds, are carried at fair value based on the Plan's proportionate share of units of beneficial interest in the respective funds and the net asset values of the funds (level 2 inputs). The assets underlying the collective investment funds are fully comprised of various registered mutual funds that are publicly traded. The collective investment funds, other than stable value funds, allow for daily redemptions at net asset value, with no advance notice requirement.

The SEI Stable Asset Fund and Wells Fargo Stable Value C Fund (the "Funds") shown in the statements of net assets available for plan benefits are carried at fair value. The fair values of participation units in the Funds are based upon the net asset values of such funds, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive investment contracts, as reported in the audited financial statements of the Funds (level 2 inputs). The Funds primarily invest in a variety of investment contracts such as guaranteed investment contracts issued by insurance companies and other financial institutions and other investment products with similar characteristics, with the objective of providing stability of investment return, preservation of capital and liquidity to pay Plan benefits. The Funds provide for daily redemptions by the Plan participants. Full liquidation of the Funds requires a twelve-month advance notification. There are no other redemption restrictions, provisions or advance notification requirements. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Funds, plus earnings, less participant withdrawals. Since a significant portion of the investments of the Funds are fully benefit responsive, in accordance with accounting rules discussed in Note 2(e) below, an adjustment is made on the statements of net assets available for plan benefits to present the contract value of these fund assets.

The common stock held in the Employer Stock Fund, which is publicly traded, is carried at fair value based upon its quoted market price at the end of the year. The liquid money market fund investment held in the Employer Stock Fund, while not actively traded on a national exchange, is valued based upon its quoted redemption prices and recent transaction prices of \$1.00 per share (level 2 inputs), with no discounts for credit quality or liquidity restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net investment loss consists of gains and losses realized from the sales of investments, the net change in the unrealized appreciation or depreciation on investments, and interest and dividends earned.

Purchases and sales are accounted for on a trade-date basis. Interest income is recorded on the accrual basis and dividend income is recorded on the ex-dividend date. Realized gains and losses from securities transactions are recorded on the average cost basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

- e. Valuation and Presentation of The Stable Value Funds – While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's indirect interest in fully benefit responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants that invest indirectly in fully benefit responsive investment contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in stable value funds.
- f. Administrative Expenses - The Bank will pay the ordinary expenses of the Plan and compensation of the Trustee to the extent required, except that any expenses directly related to the Plan, such as transfer taxes, brokers' commissions, registration charges, or administrative expenses of the Trustee, shall be paid from the Plan or from such investment account to which such expenses directly relate. The Bank may charge employees all or part of the reasonable expenses associated with withdrawals and other distributions, loans or account transfers.

FAIR VALUE MEASUREMENTS

3.

In accordance with Accounting Standards Codification ("ASC") 820 the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; or Level 3, which refers to securities valued based on significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Edgar Filing: DIME COMMUNITY BANCSHARES INC - Form 11-K

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at the dates indicated.

4. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers and employees of the Company or the Bank. No such officer or employee receives compensation from the Plan for the administrative functions he or she performs.

At December 31, 2011 and 2010, the Plan held 638,172 and 521,325 shares, respectively, of common stock of the Company. Dividend income received on these shares of common stock totaled \$316,035 during the year ended December 31, 2011.

Notes receivable from participants also reflect party-in-interest transactions.

5. INVESTMENTS

FEDERAL INCOME TAX STATUS

6.

The Plan is intended to be qualified under Section 401(a) of the Internal Revenue Code (the "Code") and is intended to be exempt from taxation under Section 501(a) of the Code. The Plan received a favorable IRS determination letter dated August 27, 2002. The Plan has been amended since receiving the determination letter and has been restated and submitted for an IRS determination letter in 2010, which has not yet been issued. However, the plan administrator believes that the Plan and its underlying trust are currently designed and being operated in compliance with the applicable requirements of the Code, and that they continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
