Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The accompanying notes are an integral part of these financial statements.

Energroupholdings Corporation
(formerly Energroupholdings Technologies Corporation)
(a development stage company)
Notes to Condensed Financial Statements
September 30, 2007 and 2006

Note A - Background and Description of Business

Energroupholdings Corporation (Company) was incorporated under the laws of the State of Utah on March 21, 1985, under the name of Great Lakes Funding, Inc. On January 9, 1986, the Company's Articles of Incorporation were amended to change the name from Great Lakes Funding, Inc. to Energroupholdings Technologies Corporation.

In prior years, the Company, through its then wholly-owned subsidiary, Facility Maintenance Management, Inc., began to develop, manufacture and sell interfacing sensory and output products used in energy management control systems. In 1987, the Company determined that its efforts to manufacture and sell interfacing devices used in microprocessor-based control systems for heating, ventilation and air conditioning systems would be unsuccessful, ceased its ongoing business operations and dissolved Facility Maintenance Management, Inc.

In the opinion of the Company's then management, the Company requalified for development stage company accounting and financial reporting, starting December 14, 1998, concurrent with the adoption of the Company's current business plan.

On August 14, 2007, the Company effected a redomicile of its corporate domain from the State of Utah to the State of Nevada. The Company effected the redomicile through a merger with a new Nevada corporation which was formed by the Company on June 28, 2007 solely and specifically for the purpose of effecting the redomicile of the Company. At this time, the Company changed its corporate name to Energroupholdings Corporation and the Articles of Incorporation and Bylaws of the Nevada corporation became the Articles of Incorporation and Bylaws of the Company.

The Company's current business plan is to locate and combine with an existing, privately-held company which is profitable or, in management's view, has growth potential, irrespective of the industry in which it is engaged. However, the Company does not intend to combine with a private company which may be deemed to be an investment company subject to the Investment Company Act of 1940. A combination may be structured as a merger, consolidation, exchange of the Company's common stock for stock or assets or any other form which will result in the combined enterprise's becoming a publicly-held corporation.

Note B - Going Concern Uncertainty

The Company has nominal cash on hand, has no operating assets and has a business plan with inherent risk. Because of these factors, the Company's auditors have issued an audit opinion on the Company's financial statements which includes a statement describing our going concern status. This means, in our auditor's opinion on our annual financial statements for the year ended December 31, 2006 as contained in our Annual Report on Form 10-KSB, substantial doubt about our ability to continue as a going concern exists at the date of their opinion.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The Company's current and former majority stockholders have maintained the corporate status of the Company and have provided all nominal working capital support on the Company's behalf. Because of the Company's lack of operating assets, its continuance is fully dependent upon the majority stockholder's continuing support. It is the belief of management and significant stockholders that they will provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis. Further, the Company faces considerable risk in its business plan and a potential shortfall of funding due to our inability to raise capital in the equity securities market. If no additional operating capital is received during the next twelve months, the Company will be forced to rely on existing cash in the bank and additional funds loaned by management and/or significant stockholders.

6

Energroup Holdings Corporation
(formerly Energroup Technologies Corporation)
(a development stage company)
Notes to Condensed Financial Statements - Continued
September 30, 2007 and 2006

Note B - Going Concern Uncertainty - Continued

The Company's business plan is to seek an acquisition or merger with a private operating company which offers an opportunity for growth and possible appreciation of our stockholders' investment in the then issued and outstanding common stock. However, there is no assurance that the Company will be able to successfully consummate an acquisition or merger with a private operating company or, if successful, that any acquisition or merger will result in the appreciation of our stockholders' investment in the then outstanding common stock.

The Company remains dependent upon additional external sources of financing; including being dependent upon its management and/or significant stockholders to provide sufficient working capital in excess of the Company's initial capitalization to preserve the integrity of the corporate entity.

The Company anticipates offering future sales of equity securities. However, there is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

Note C - Preparation of Financial Statements

The Company follows the accrual basis of accounting in accordance with generally accepted accounting principles and has a year-end of December 31.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

During interim periods, the Company follows the accounting policies set forth in its annual audited financial statements filed with the U. S. Securities and Exchange Commission on its Annual Report on Form 10-KSB containing the Company's financial statements for the year ended December 31, 2006. The information presented within these interim financial statements may not include all disclosures required by generally accepted accounting principles and the users of financial information provided for interim periods should refer to the annual financial information and footnotes when reviewing the interim financial results presented herein.

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the U. S. Securities and Exchange Commission's instructions for Form 10-QSB, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 31, 2007.

Energroup Holdings Corporation
(formerly Energroup Technologies Corporation)
(a development stage company)
Notes to Condensed Financial Statements - Continued
September 30, 2007 and 2006

Note D - Summary of Significant Accounting Policies

1. Cash and cash equivalents

The Company considers all cash on hand and in banks, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

2. Income taxes

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The Company uses the asset and liability method of accounting for income taxes. At September 30, 2007 and 2006, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences generally represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, if any such items exist.

As of September 30, 2007 and 2006, the deferred tax asset related to the Company's net operating loss carryforward is fully reserved. Due to the provisions of Internal Revenue Code Section 338, the Company may have no net operating loss carryforwards available to offset financial statement or tax return taxable income in future periods as a result of a change in control involving 50 percentage points or more of the issued and outstanding securities of the Company.

3. Income (Loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common stockholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At September 30, 2007 and 2006, and subsequent thereto, the Company has no outstanding stock warrants, options or convertible securities which could be considered as dilutive for purposes of the loss per share calculation.

Note E - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to financial risk, if any.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

	ended September 30, 2007 -----	ended September 30, 2006 -----	thru Septem 2 -----
Statutory rate applied to income before income taxes	\$(20,000)	\$ (1,500)	\$(29
Increase (decrease) in income taxes resulting from:

Note G - Capital Stock Transactions

Reverse split transaction

At the Special Meeting of Shareholders of the Company, held on August 14, 2007, the Company's shareholders approved a proposal to effect a 1-for-7 reverse stock split in the issued and outstanding shares of the Company's common stock. This proposal was described in the definitive Schedule 14C Information Statement, which was filed with the Securities and Exchange Commission on July 23, 2007.

Pursuant to such shareholder approval, effective on August 20, 2007, the Company implemented a 1-for-7 reverse stock split in its issued and outstanding shares of common stock which reduced the number of its issued and outstanding shares of capital stock from 13,496,472 shares of common stock to approximately 1,943,812 post-split shares of common stock. In connection with the reverse stock split, no shareholder of record on July 9, 2007, the record date for the Special Meeting (Record Date), who held fewer than 100 shares was affected by the reverse stock split and no shareholder of record on the Record Date who held more than 100 shares had his, her or its ownership reduced to fewer than 100 post-split shares of common stock as a result of the reverse stock split.

The effect of this action is presented in the accompanying financial statements as of the first day of the first period presented.

Stock issuance/cancellation transactions

On or about March 12, 2007, the Company authorized the issuance of 5,462 pre-reverse split shares (approximately 780 post-reverse split shares) of common stock in conjunction with a reconciliation of its stock transfer records. The Company received a "General Release" in conjunction with this issuance. The Company completed the issuance on the belief the recipients of the shares may be defined as a "Protected Purchaser" under Section 70A-8-303 of the Utah Code Annotated and Article 8 of the Uniform Commercial Code.

On May 3, 2007, the Company, along with its directors and executive officers, entered into a Stock Purchase Agreement (Stock Purchase Agreement) with the Halter Financial Investments, L.P., a Texas limited partnership (HFI, LP), pursuant to which the Company agreed to sell to HFI, LP 11,200,000 pre-reverse split shares (approximately 1,600,000 post-reverse split shares) of unregistered, restricted common stock for \$350,000 cash. This transaction closed on May 22, 2007. The Company relied upon Section 4(2) of The Securities Act of 1933, as amended, for an exemption from registration of these shares and no underwriter was used in this transaction. As a result of this transaction, HFI, LP became the Company's controlling stockholder, owning approximately 82.98% of the 13,497,421 then issued and outstanding shares.

In conjunction with the above transaction, on May 3, 2007, certain then-principal shareholders of the Company, as a condition of the closing of the Stock Purchase Agreement surrendered and cancelled 1,350,000 then-issued and outstanding shares of common stock to the Company. These shares were surrendered as follows: Jenson Services, Inc., which then owned 2,480,500 pre-reverse split shares (approximately 354,290 post-reverse split shares) (or approximately 68% of the Company's then-outstanding voting securities) delivered 375,000 of its pre-reverse split shares (approximately 53,572 post-reverse split shares) for cancellation; James P. Doolin, which then owned 475,000 pre-reverse split shares (approximately 67,858 post-reverse split shares) (or approximately 13% of the Company's then-outstanding voting securities) delivered 475,000 pre-reverse split shares (approximately 67,858 post-reverse split shares) for cancellation; and his sister, Alycia Anthony, which then owned 500,000 pre-reverse split shares (approximately 71,429 post-reverse split shares) (or approximately 14% of the Company's then-outstanding voting securities) delivered 500,000 pre-reverse split shares (approximately 71,429 post-reverse split shares) for cancellation. All of these cancelled shares were returned to the status of authorized and unissued shares of the Company. No consideration was given by the Company in this transaction. The effect of this transaction was to reduce the carrying par value of shares surrendered and a corresponding increase to additional paid-in capital.

Energroupholdings Corporation
(formerly Energroupholdings Technologies Corporation)
(a development stage company)
Notes to Condensed Financial Statements - Continued
September 30, 2007 and 2006

Note G - Capital Stock Transactions - Continued

Special Cash Distribution

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

Pursuant to the terms of the Stock Purchase Agreement, on May 3, 2007, the Company's Board of Directors declared a special cash distribution of \$0.1219 per share to the stockholders of record of the Company as of May 17, 2007 (Record Date). Neither HFI, LP or the shares surrendered by Jenson Services or James P. Doolin or Alycia Anthony participated in the special cash distribution. The special cash distribution was paid on May 29, 2007, to stockholders of record on the Record Date, subject to the closing of the Stock Purchase Agreement. The special cash distribution was paid to the holders of an aggregate 2,297,421 pre-reverse split shares of its common stock, after giving effect to the cancellation of 1,350,000 pre-reverse split shares discussed above, which will result in a total cash distribution of approximately \$280,000. The special cash distribution was a condition of the closing of the Stock Purchase Agreement.

Covenants related to stock issuances/retirements

Further, the Stock Purchase Agreement contains covenants that require HFI, LP, in its capacity as controlling stockholder of the Company following closing, to agree that it will not approve any reverse splits other than a one-time reverse split of not greater than 1-for-7 without the prior consent of the Company's former officers as representatives of the Company's continuing stockholders; that it will not authorize the issuance of any additional shares of common stock or securities convertible into shares of common stock except in connection with a combination transaction with a corporation with current business operations (a "Going Public Transaction"); and that it will not allow the Company to enter into a Going Public Transaction unless the Company, on a combined basis with the operating entity with which it completes a Going Public Transaction, satisfies the financial conditions for listing on the NASDAQ Small-Cap Market immediately following the closing of the Going Public Transaction. The Stock Purchase Agreement also grants demand and "piggy back" registration rights to HFI, LP and the any continuing holders of the Company's common stock that are deemed to be "restricted securities."

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

Part I - Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

(1) Caution Regarding Forward-Looking Information

Certain statements contained in this quarterly filing, including, without limitation, statements containing the words "believes", "anticipates", "expects" and words of similar import, constitute forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-QSB and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

(2) General

On August 14, 2007, the Company effected a redomicile of its corporate domain from the State of Utah to the State of Nevada. The Company effected the redomicile through a merger with a new Nevada corporation which was formed by the Company on June 28, 2007 solely and specifically for the purpose of effecting the redomicile of the Company. At this time, the Company changed its corporate name to Energroup Holdings Corporation and the Articles of Incorporation and Bylaws of the Nevada corporation became the Articles of Incorporation and Bylaws of the Company.

At the Special Meeting of Shareholders of the Company, held on August 14, 2007, the Company's shareholders approved a proposal to effect a 1-for-7 reverse stock split in the issued and outstanding shares of the Company's common stock. This proposal was described in the definitive Schedule 14C Information Statement, which was filed with the Securities and Exchange Commission on July 23, 2007.

Pursuant to such shareholder approval, effective on August 20, 2007, the Company implemented a 1-for-7 reverse stock split in its issued and outstanding shares of common stock which reduced the number of its issued and outstanding shares of capital stock from 13,496,472 shares of common stock to approximately 1,943,812 post-split shares of common stock. In connection with the reverse stock split, no shareholder of record on July 9, 2007, the record date for the Special Meeting (Record Date), who held fewer than 100 shares was affected by the reverse stock split and no shareholder of record on the Record Date who held more than 100 shares had his, her or its ownership reduced to fewer than 100 post-split shares of common stock as a result of the reverse stock split.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The effect of this action is presented in the accompanying financial statements as of the first day of the first period presented.

(3) Results of Operations

The Company had no revenue for either of the nine month periods ended September 30, 2007 and 2006, respectively.

General and administrative expenses for the nine month periods ended September 30, 2007 and 2006 were related the maintenance of the corporate entity, legal costs related to the May 2007 change in control and related sale of common stock, and compliance with the Securities Exchange Act of 1934, as amended.

Earnings per share for the respective nine month periods ended September 30, 2007 and 2006 were \$(0.05) and \$(0.01), respectively, based on the weighted-average shares issued and outstanding at the end of each respective period, after accounting for the effect of the August 2007 1-for-7 reverse stock split.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under the Securities Exchange Act of 1934 unless and until such time that the Company completes a business combination transaction.

12

At September 30, 2007 and 2006, respectively, the Company had working capital of approximately \$(11,600) and \$(21,500), respectively.

It is the belief of management and significant stockholders that they will provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

The Company's need for working capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that the Company will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that the Company would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

(4) Plan of Business

General

The Company intends to locate and combine with an existing, privately-held company which is profitable or, in management's view, has growth potential, irrespective of the industry in which it is engaged. However, the Company does not intend to combine with a private company which may be deemed to be an investment company subject to the Investment Company Act of 1940. A combination may be structured as a merger, consolidation, exchange of the Company's common stock for stock or assets or any other form which will result in the combined enterprise's becoming a publicly-held corporation.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

Pending negotiation and consummation of a combination, the Company anticipates that it will have, aside from carrying on its search for a combination partner, no business activities, and, thus, will have no source of revenue. Should the Company incur any significant liabilities prior to a combination with a private company, it may not be able to satisfy such liabilities as are incurred.

If the Company's management pursues one or more combination opportunities beyond the preliminary negotiations stage and those negotiations are subsequently terminated, it is foreseeable that such efforts will exhaust the Company's ability to continue to seek such combination opportunities before any successful combination can be consummated. In that event, the Company's common stock will become worthless and holders of the Company's common stock will receive a nominal distribution, if any, upon the Company's liquidation and dissolution.

Combination Suitability Standards

In its pursuit for a combination partner, the Company's management intends to consider only combination candidates which are profitable or, in management's view, have growth potential. The Company's management does not intend to pursue any combination proposal beyond the preliminary negotiation stage with any combination candidate which does not furnish the Company with audited financial statements for at least its most recent fiscal year and unaudited financial statements for interim periods subsequent to the date of such audited financial statements, or is in a position to provide such financial statements in a timely manner. The Company will, if necessary funds are available, engage attorneys and/or accountants in its efforts to investigate a combination candidate and to consummate a business combination. The Company may require payment of fees by such combination candidate to fund the investigation of such candidate. In the event such a combination candidate is engaged in a high technology business, the Company may also obtain reports from independent organizations of recognized standing covering the technology being developed and/or used by the candidate. The Company's limited financial resources may make the acquisition of such reports difficult or even impossible to obtain and, thus, there can be no assurance that the Company will have sufficient funds to obtain such reports when considering combination proposals or candidates. To the extent the Company is unable to obtain the advice or reports from experts, the risks of any combined enterprise's being unsuccessful will be enhanced. Furthermore, to the knowledge of the Company's officers and directors, neither the candidate nor any of its directors, executive officers, principal stockholders or general partners:

- (1) will not have been convicted of securities fraud, mail fraud, tax fraud, embezzlement, bribery, or a similar criminal offense involving misappropriation or theft of funds, or be the subject of a pending investigation or indictment involving any of those offenses;
- (2) will not have been subject to a temporary or permanent injunction or restraining order arising from unlawful transactions in securities, whether as issuer, underwriter, broker, dealer, or investment advisor, may be the subject of any pending investigation or a defendant in a pending lawsuit arising from or based upon allegations of unlawful transactions in securities; or
- (3) will not have been a defendant in a civil action which resulted in a final judgement against it or him awarding damages or rescission based upon unlawful practices or sales of securities.

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

The Company's officers and directors will make these determinations by asking pertinent questions of the management of prospective combination candidates. Such persons will also ask pertinent questions of others who may be involved in the combination proceedings. However, the officers and directors of the Company will not generally take other steps to verify independently information obtained in this manner which is favorable. Unless something comes to their attention which puts them on notice of a possible disqualification which is being concealed from them, such persons will rely on information received from the management of the prospective combination candidate and from others who may be involved in the combination proceedings.

(5) Liquidity and Capital Resources

It is the belief of management and significant stockholders that they will provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

The Company has no current plans, proposals, arrangements or understandings with respect to the sale or issuance of additional securities prior to the location of a merger or acquisition candidate. Accordingly, there can be no assurance that sufficient funds will be available to the Company to allow it to cover the expenses related to such activities.

Regardless of whether the Company's cash assets prove to be inadequate to meet the Company's operational needs, the Company might seek to compensate providers of services by issuances of stock in lieu of cash.

Item 3 - Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), as of September 30, 2007. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in alerting them on a timely basis to material information relating to our Company required to be included in our reports filed or submitted under the Exchange Act.

(b) Changes in Internal Controls

There were no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls over financial reporting that occurred during the quarter ended September 30, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1 - Legal Proceedings

None

Edgar Filing: ENERGROUP HOLDINGS CORP - Form 10QSB

Item 2 - Recent Sales of Unregistered Securities and Use of Proceeds

At the Special Meeting of Shareholders of the Company, held on August 14, 2007, the Company's shareholders approved a proposal to effect a 1-for-7 reverse stock split in the issued and outstanding shares of the Company's common stock. This proposal was described in the definitive Schedule 14C Information Statement, which was filed with the Securities and Exchange Commission on July 23, 2007.

Pursuant to such shareholder approval, effective on August 20, 2007, the Company implemented a 1-for-7 reverse stock split in its issued and outstanding shares of common stock which reduced the number of its issued and outstanding shares of capital stock from 13,496,472 shares of common stock to approximately 1,943,812 post-split shares of common stock. In connection with the reverse stock split, no shareholder of record on July 9, 2007, the record date for the Special Meeting (Record Date), who held

14

fewer than 100 shares was affected by the reverse stock split and no shareholder of record on the Record Date who held more than 100 shares had his, her or its ownership reduced to fewer than 100 post-split shares of common stock as a result of the reverse stock split.

Item 3 - Defaults on Senior Securities

None

Item 4 - Submission of Matters to a Vote of Security Holders

The Company has held no regularly scheduled, called or special meetings of stockholders during the reporting period.

Item 5 - Other Information

None

Item 6 - Exhibits

- 31.1 Certification pursuant to Section 302 of Sarbanes-Oxley Act of 2002
- 32.1 Certification pursuant to Section 906 of Sarbanes-Oxley Act of 2002
