## PART I

### ITEM 1. BUSINESS

#### General

As used herein, the terms “ARL,” “the Company,” “We,” “Our,” or “Us” refer to American Realty Investors, Inc., a Nevada corporation, individually or together with its subsidiaries. The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange (“NYSE”) under the symbol (“ARL”). ARL is a “C” corporation for U.S. federal income tax purposes. ARL was organized in 1999. In August 2000, the Company acquired American Realty Trust, Inc., a Georgia corporation (“ART”) and National Realty L.P.; a Delaware limited partnership (“NRLP”). ART was the successor to a District of Columbia business trust organized in 1961. The business trust was merged into ART in 1988. NRLP was organized in 1987 and subsequently acquired all of the assets and assumed all of the liabilities of several public and private limited partnerships. NRLP also owned a portfolio of real estate and mortgage loan investments.

Approximately 87.4% of ARL’s stock is owned by related entities. ARL subsidiaries own approximately 83.8% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc., a Nevada corporation (“TCI”) whose common stock is traded on the New York Stock Exchange (“NYSE”) under the symbol (“TCI”). ARL has consolidated TCI’s accounts and operations since March 2003. TCI, a subsidiary of ARL, owns approximately 81.1% of the common stock of Income Opportunity Realty Investors, Inc. (“IOT”). Effective July 17, 2009, IOT’s financial results were consolidated with those of ARL and TCI and their subsidiaries. IOT’s common stock is traded on the New York Stock Exchange Euronext (“NYSE MKT”) under the symbol (“IOT”).

ARL’s Board of Directors is responsible for directing the overall affairs of ARL and for setting the strategic policies that guide the Company. As of April 30, 2011, the Board of Directors delegated the day-to-day management of the Company to Pillar Income Asset Management, Inc., a Nevada corporation (“Pillar”), under a written Advisory Agreement that is reviewed annually by ARL’s Board of Directors. The directors of ARL are also directors of TCI and IOT. The Chairman of the Board of Directors of ARL also serves as the Chairman of the Board of Directors of TCI and IOT. The officers of ARL also serve as officers of TCI, IOT and Pillar.

Effective since April 30, 2011, Pillar, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is Realty Advisors, Inc., a Nevada corporation, the sole shareholder of which is Realty Advisors Management, Inc., a Nevada corporation, the sole shareholder of which is a trust known as the May Trust, became the Company’s external Advisor and Cash Manager. Pillar’s duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for the Company’s benefit, debt and equity financing with third party lenders and investors. Pillar also serves

as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. “Directors, Executive Officers and Corporate Governance – The Advisor”. ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement. Prime Income Asset Management, LLC (“Prime”) served as the Company’s contractual Advisor prior to April 30, 2011.

Effective since January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC (“Regis”), the sole member of which is Realty Advisors, LLC, manages our commercial properties and provides brokerage services. Regis receives property management fees, construction management fees and leasing commissions in accordance with the terms of its property-level management agreement. Regis is also entitled to receive real estate brokerage commissions in accordance with the terms of a non-exclusive brokerage agreement. See Part III, Item 10. “Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage”. Prior to December 31, 2010, Triad Realty Services, L.P. (“Triad”), provided management services for our commercial properties. Triad subcontracted the property-level management and leasing of our commercial properties (office buildings, shopping centers and industrial warehouses) to Regis Realty I, LLC (“Regis I”). Regis Hotel I, LLC, managed the Company’s hotel investments. ARL engages third-party companies to lease and manage its apartment properties.

The Company's subsidiary, TCI, has a development agreement with Unified Housing Foundation, Inc. ("UHF") a non-profit corporation that provides management services for the development of residential apartment projects in the future. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. Due to this ongoing relationship and the significant investment in the performance of the collateral secured under the notes receivable, UHF has been determined to be a related party.

Our primary business is the acquisition, development and ownership of income-producing residential, hotel and commercial real estate properties. In addition, we opportunistically acquire land for future development in in-fill or high-growth suburban markets. From time to time and when we believe it appropriate to do so, we will also sell land and income-producing properties. We generate revenues by leasing apartment units to residents; leasing office, industrial and retail space to various for-profit businesses as well as certain local, state and federal agencies; and renting hotel rooms to guests. We also generate revenues from gains on sales of income-producing properties and land.

At December 31, 2012, our income-producing properties consisted of:

- 14 commercial properties consisting of 10 office buildings, one industrial warehouse, and three retail properties comprising in aggregate approximately 3.7 million square feet;
- 48 residential apartment communities totaling 8,873 units, excluding apartments being developed.

The following table sets forth the location of our real estate held for investment (income-producing properties only) by asset type as of December 31, 2012:

We finance our acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific, first-lien mortgage loans

from commercial banks and institutional lenders. We finance our development projects principally with short-term, variable-rate construction loans that are refinanced with the proceeds of long-term, fixed-rate amortizing mortgages when the development has been completed and occupancy has been stabilized. When we sell properties, we may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable, secured by the property being sold. We may also from time to time enter into partnerships or joint ventures with various investors to acquire land or income-producing properties or to sell interests in certain of our properties.

We join with various third-party development companies to construct residential apartment communities. We are in the predevelopment process on several residential apartment communities but have not yet begun construction. At December 31, 2012, we had no apartment projects in development. The third-party developer typically holds a general partner as well as a limited partner interest in a limited partnership formed for the purpose of building a single property while we generally take a limited partner interest in the limited partnership. We may contribute land to the partnership as part of our equity contribution or we may contribute the necessary funds to the partnership to acquire the land. We are required to fund all required equity contributions while the third-party developer is responsible for obtaining construction financing, hiring a general contractor and for the overall management, successful completion and delivery of the project. We generally bear all the economic risks and rewards of ownership in these partnerships and therefore include these partnerships in our consolidated financial statements. The third-party developer is paid a developer fee typically equal to a percentage of the construction costs. When the project reaches stabilized occupancy, we acquire the third-party developer's partnership interests in exchange for any remaining unpaid developer fees.

A maritime harbor town is being constructed on the 420 acre site, of which half is water area, of the former naval base of Olpenitz between the mouth of the River Schlei and the Baltic Sea in the state of Schleswig-Holstein in North Germany. The project is located less than 30 miles from the Danish border. The town will comprise of a marina offering several thousand moorings, premium vacation homes each with their own landing stage as well as exclusive hotels, restaurants, shops and a range of leisure activities from sailing to golfing to cross country skiing. The development project is expected to be the biggest holiday resort in northern Europe. Due to mismanagement by the third party developer hired to run the project, the ownership entity was forced to file for insolvency and the Company is working in cooperation with the insolvency manager in order to secure the future of our investment and the development project.

We have made investments in a number of large tracts of undeveloped and partially developed land and intend to a) continue to improve these tracts of land for our own development purposes or b) make the improvements necessary to ready the land for sale to other developers.

At December 31, 2012, our investments in undeveloped and partially developed land consisted of the following (dollars in thousands):

#### Significant Real Estate Acquisitions/Dispositions and Financings

A summary of some of the significant transactions for the year ended December 31, 2012 are discussed below:

On January 3, 2012, TCI's 82.2 acres of land known as Denton Coonrod land located in Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on March 23, 2011, to Cross County National Associates, LP, a related party, for a sales price of \$1.8 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses

and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 3, 2012 at a sales price equal to the existing mortgage of \$0.8 million, that was considered paid in full when ownership transferred to the existing lender. TCI recorded a gain on sale of \$0.04 million on the land parcel sale.

On January 17, 2012, we sold 100% of our stock in American Realty Trust, Inc., to One Realco Corporation, a related party, for a sales price of \$10.0 million. We provided \$10.0 million in seller-financing with a five-year note receivable. The note accrues interest at 3.00% and is payable at maturity on January 17, 2017. The note is fully reserved by the Company. Subsequent to the sale, ART filed for Chapter 11 bankruptcy protection.

On January 30, 2012, TCI refinanced the existing mortgage on Parc at Maumelle apartments, a 240-unit complex located in Little Rock, Arkansas, for a new mortgage of \$16.8 million. TCI paid off the existing mortgage of \$16.1 million and paid \$1.0 million in closing costs and escrow reserves. The note accrues interest at 3.00% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on February 1, 2052.

On February 2, 2012, TCI and its subsidiary, 1340 Poydras, LLC, executed a guarantor settlement and consent agreement with the lender for the Amoco building, Petra CRE CDO 2007-1, Ltd ("Petra") to transfer ownership of the Amoco building to a new entity, 1340 Owner, LLC, which is affiliated with the existing lender, Petra. Petra and its affiliate are independent third parties. Regis will continue to manage the property while under Petra's ownership and TCI will have an option to re-acquire the property during the option term which shall end two years following the commencement of the agreement. We have deferred the recognition of the sale in accordance with ASC 360-20 due to our continuing involvement related to the obligations under the note and guaranty agreements and the re-acquisition option.

On February 7, 2012, TCI's 22.92 acres of land known as Andrew B land, Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related party, for a sales price of \$1.3 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on February 7, 2012, when the Company received a credit against the outstanding debt of \$2.1 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$1.2 million on the land parcel sale.

On February 23, 2012, TCI sold a 220-unit apartment complex known as Wildflower Villas apartments located in Temple, Texas to an independent third party, for a sales price of \$19.6 million. The buyer assumed the existing debt of \$13.7 million secured by the property. TCI recorded a gain on sale of \$3.6 million on the apartment sale.

On February 27, 2012, we re-purchased 100% interest in Cross County National Associates, LP from ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for a sales price of \$9.5 million. This entity owns a 307,266 square foot retail center known as Cross County Mall located in Mattoon, Illinois. We assumed the existing mortgage of \$9.2 million, secured by the property. On March 22, 2011, we sold our ownership in Cross County National Associates, LP to ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for an amount equal to the re-purchase price. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. Upon re-purchasing the ownership interests in the current period, the seller-financing note of \$0.3 million was cancelled. There is no change in the financial statements related to the March 22, 2011 sale or the subsequent re-acquisition.

On February 29, 2012, TCI refinanced the existing mortgage on Huntington Ridge apartments, a 198-unit complex located in DeSoto, Texas, for a new mortgage of \$15.0 million. TCI paid off the existing mortgage of \$14.6 million and paid \$1.2 million in closing costs and escrow reserves. The note accrues interest at 3.03% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on March 1, 2052.

On February 29, 2012, TCI refinanced the existing mortgage on Laguna Vista apartments, a 206-unit complex located in Dallas, Texas, for a new mortgage of \$17.7 million. On March 1, 2012, TCI sold 100% of our interests in LaDue, LLC to ABC Land & Development, Inc., a related party, for a sales price of \$1.9 million. This entity owns 8.01 acres of land known as LaDue land located in Dallas County, Texas. We provided \$1.3 million in seller-financing with a five-year note receivable. The note accrues interest at 5% and is payable at maturity on March 1, 2017. The buyer assumed the existing mortgage of \$0.6 million, secured by the property. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. On August 10, 2012, TCI re-purchased 100% of the membership interests in LaDue, LLC from ABC Land & Development, Inc., a related party, for \$1.9 million to be paid by assumption of debt of \$0.6 million, secured by the property, and cancellation of a five-year seller-financed note of \$1.3 million. There is no change in the financial statements related to the March 1, 2012 sale or the subsequent re-acquisition.

On March 1, 2012, the TCI construction loan in the amount of \$11.1 million that was taken out on July 30, 2010 to fund the development of Sonoma Court apartments, a 124-unit complex, closed into permanent financing. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on March 5, 2012, when the Company received a credit against the outstanding debt of \$1.0 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$0.1 million on the land parcel sale.

On March 27, 2012, TCI sold 319.07 acres of land known as Waco Ritchie land located in Waco, Texas to an independent third party, for a sales price of \$1.9 million. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, received a credit against the outstanding debt of \$0.3 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. On December 31, 2012, TCI sold 100% of the stock in T Southwood 1394, Inc., to One Realco Corporation, a related party, for a sales price of \$0.6 million. Under the terms of the sale, the buyer assumed the existing mortgage of \$0.6 million, secured by the property. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 8, 2013, when the property was sold to a third party and sales proceeds were credited against the outstanding debt. TCI will not record a gain or loss on the land parcel sale.

In December 2010, there were various commercial and land holdings sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2012, there is one commercial building, Thermalloy that remains in FRE Real Estate, Inc. We have deferred the recognition of the sales in accordance with ASC 360-20 due to our continuing involvement, the buyer's inadequate initial investment and questionable recovery of the Company's investment cost.

The properties that we have sold to a related party and have deferred the recognition of the sale are treated as "subject to sales contract" on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. We have reviewed each asset and taken impairment to the extent we feel the value of the property was less than our current basis.

We continue to invest in the development of apartments and various projects. During the twelve months ended December 31, 2012, we have expended \$5.8 million on construction and development.

#### Business Plan and Investment Policy

Our business objective is to maximize long-term value for our stockholders by investing in commercial real estate through the acquisition, development and ownership of apartments, commercial properties, hotels, and land. We intend to achieve this objective through acquiring and developing properties in multiple markets and operating as an industry-leading landlord. We believe this objective will provide the benefits of enhanced investment opportunities,

economies of scale and risk diversification, both in terms of geographic market and real estate product type. We believe our objective will also result in continuing access to favorably priced debt and equity capital. In pursuing our business objective, we seek to achieve a combination of internal and external growth while maintaining a strong balance sheet and employing a strategy of financial flexibility. We maximize the value of our apartments and commercial properties by maintaining high occupancy levels while charging competitive rental rates, controlling costs and focusing on tenant retention. We also pursue attractive development opportunities either directly or in partnership with other investors.

For our portfolio of commercial properties, we generate increased operating cash flow through annual contractual increases in rental rates under existing leases. We also seek to identify best practices within our industry and across our business units in order to enhance cost savings and gain operating efficiencies. We employ capital improvement and preventive maintenance programs specifically designed to reduce operating costs and increase the long-term value of our real estate investments.

We seek to acquire properties consistent with our business objectives and strategies. We execute our acquisition strategy by purchasing properties which management believes will create stockholder value over the long-term. We will also sell properties when management believes value has been maximized or when a property is no longer considered an investment to be held long-term.

We are continuously in various stages of discussions and negotiations with respect to development, acquisition, and disposition projects. The consummation of any current or future development, acquisition, or disposition, if any, and the pace at which any may be completed cannot be assured or predicted.

Substantially all of our properties are owned by subsidiary companies, many of which are single-asset entities. This ownership structure permits greater access to financing for individual properties and permits flexibility in negotiating a sale of either the asset or the equity interests in the entity owning the asset. From time-to-time, our subsidiaries have invested in joint ventures with other investors, creating the possibility of risks that do not exist with properties solely owned by an ARL subsidiary. In those instances where other investors are involved, those other investors may have business, economic, or other objectives that are inconsistent with our objectives, which may in turn require us to make investment decisions different from those if we were the sole owner.

Real estate generally cannot be sold quickly. We may not be able to promptly dispose of properties in response to economic or other conditions. To offset this challenge, selective dispositions have been a part of our strategy to maintain an efficient investment portfolio and to provide additional sources of capital. We finance acquisitions through mortgages, internally generated funds, and, to a lesser extent, property sales. Those sources provide the bulk of funds for future acquisitions. We may purchase properties by assuming existing loans secured by the acquired property. When properties are acquired in such a manner, we customarily seek to refinance the asset in order to properly leverage the asset in a manner consistent with our investment objectives.

Our businesses are not generally seasonal with regard to real estate investments. Our investment strategy seeks both current income and capital appreciation. Our plan of operation is to continue, to the extent our liquidity permits, to make equity investments in income-producing real estate such as hotels, apartments, and commercial properties. We may also invest in the debt or equity securities of real estate-related entities. We intend to pursue higher risk, higher reward investments, such as improved and unimproved land where we can obtain reasonably-priced financing for substantially all of a property's purchase price. We intend to continue the development of apartment properties in selected markets in Texas and in other locations where we believe adequate levels of demand exist. We intend to pursue sales opportunities for properties in stabilized real estate markets where we believe our properties' value has been maximized. We also intend to be an opportunistic seller of properties in markets where demand exceeds current supply. Although we no longer actively seek to fund or purchase mortgage loans, we may, in selected instances, originate mortgage loans or we may provide purchase money financing in conjunction with a property sale.

Our Board of Directors has broad authority under our governing documents to make all types of investments, and we may devote available resources to particular investments or types of investments without restriction on the amount or percentage of assets that may be allocated to a single investment or to any particular type of investment, and without limit on the percentage of securities of any one issuer that may be acquired. Investment objectives and policies may be changed at any time by the Board without stockholder approval.

The specific composition from time-to-time of our real estate portfolio owned by ARL directly and through our subsidiaries depends largely on the judgment of management to changing investment opportunities and the level of risk associated with specific investments or types of investments. We intend to maintain a real estate portfolio that is diversified by both location and type of property.

### Competition

The real estate business is highly competitive and we compete with numerous companies engaged in real estate activities (including certain entities described in Part III, Item 13. "Certain Relationships and Related Transactions, and Director Independence"), some of which have greater financial resources than ARL. We believe that success against such competition is dependent upon the geographic location of a property, the performance of property-level managers in areas such as leasing and marketing, collection of rents and control of operating expenses, the amount of new construction in the area and the maintenance and appearance of the property. Additional competitive factors include ease of access to a property, the adequacy of related facilities such as parking and other amenities, and sensitivity to market conditions in determining rent levels. With respect to apartments, competition is also based upon the design

and mix of the units and the ability to provide a community atmosphere for the residents. With respect to hotels, competition is also based upon the market served, i.e., transient, commercial, or group users. We believe that beyond general economic circumstances and trends, the degree to which properties are renovated or new properties are developed in the competing submarket are also competitive factors. See also Part I, Item 1A. "Risk Factors".

To the extent that ARL seeks to sell any of its properties, the sales prices for the properties may be affected by competition from other real estate owners and financial institutions also attempting to sell properties in areas where ARL's properties are located, as well as aggressive buyers attempting to dominate or penetrate a particular market.

As described above and in Part III, Item 13. "Certain Relationships and Related Transactions, and Director Independence", the officers and directors of ARL serve as officers and directors of TCI and IOT. TCI and IOT have business objectives similar to those of ARL. ARL's officers and directors owe fiduciary duties to both IOT and TCI as well as to ARL under applicable law. In determining whether a particular investment opportunity will be allocated to ARL, IOT, or TCI, management considers the respective investment objectives of each Company and the appropriateness of a particular investment in light of each Company's existing real estate and mortgage notes receivable portfolio. To the extent that any particular investment opportunity is appropriate to more than one of the entities, the investment opportunity may be allocated to the entity which has had funds available for investment for the longest period of time, or, if appropriate, the investment may be shared among all three or two of the entities.

In addition, as described in Part III, Item 13. “Certain Relationships and Related Transactions, and Director Independence”, ARL competes with related parties of Pillar having similar investment objectives related to the acquisition, development, disposition, leasing and financing of real estate and real estate-related investments. In resolving any potential conflicts of interest which may arise, Pillar has informed ARL that it intends to exercise its best judgment as to what is fair and reasonable under the circumstances in accordance with applicable law.

We have historically engaged in and will continue to engage in certain business transactions with related parties, including but not limited to asset acquisitions and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm’s length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in the best interests of our company.

#### ITEM 1A. RISK FACTORS

An investment in our securities involves various risks. All investors should carefully consider the following risk factors in conjunction with the other information in this report before trading our securities.

##### Risk Factors Related to our Business

Adverse events concerning our existing tenants or negative market conditions affecting our existing tenants could have an adverse impact on our ability to attract new tenants, release space, collect rent or renew leases, and thus could adversely affect cash flow from operations and inhibit growth.

Cash flow from operations depends in part on the ability to lease space to tenants on economically favorable terms. We could be adversely affected by various facts and events over which the Company has limited or no control, such as:

- lack of demand for space in areas where the properties are located;
- inability to retain existing tenants and attract new tenants;
- oversupply of or reduced demand for space and changes in market rental rates;
- defaults by tenants or failure to pay rent on a timely basis;
- the need to periodically renovate and repair marketable space;

- physical damage to properties;
- economic or physical decline of the areas where properties are located; and
- potential risk of functional obsolescence of properties over time.

At any time, any tenant may experience a downturn in its business that may weaken its financial condition. As a result, a tenant may delay lease commencement, fail to make rental payments when due, decline to extend a lease upon its expiration, become insolvent or declare bankruptcy. Any tenant bankruptcy or insolvency, leasing delay or failure to make rental payments when due could result in the termination of the tenant's lease and material losses to the Company.

If tenants do not renew their leases as they expire, we may not be able to rent the space. Furthermore, leases that are renewed, and some new leases for space that is re-let, may have terms that are less economically favorable than expiring lease terms, or may require us to incur significant costs, such as renovations, tenant improvements or lease transaction costs. Any of these events could adversely affect cash flow from operations and our ability to make distributions to shareholders and service indebtedness. A significant portion of the costs of owning property, such as real estate taxes, insurance, and debt service payments, are not necessarily reduced when circumstances cause a decrease in rental income from the properties.

We may not be able to compete successfully with other entities that operate in our industry.

We experience a great deal of competition in attracting tenants for the properties and in locating land to develop and properties to acquire.

In our effort to lease properties, we compete for tenants with a broad spectrum of other landlords in each of the markets. These competitors include, among others, publicly-held REITs, privately-held entities, individual property owners and tenants who wish to sublease their space. Some of these competitors may be able to offer prospective tenants more attractive financial terms than we are able to offer.

If the availability of land or high quality properties in our markets diminishes, operating results could be adversely affected.

We may experience increased operating costs which could adversely affect our financial results and the value of our properties.

Our properties are subject to increases in operating expenses such as insurance, cleaning, electricity, heating, ventilation and air conditioning, administrative costs and other costs associated with security, landscaping, repairs, and maintenance of the properties. While some current tenants are obligated by their leases to reimburse us for a portion of these costs, there is no assurance that these tenants will make such payments or agree to pay these costs upon renewal or new tenants will agree to pay these costs. If operating expenses increase in our markets, we may not be able to increase rents or reimbursements in all of these markets to offset the increased expenses, without at the same time decreasing occupancy rates. If this occurs, our ability to make distributions to shareholders and service indebtedness could be adversely affected.

Our ability to achieve growth in operating income depends in part on its ability to develop additional properties.

We intend to continue to develop properties where warranted by market conditions. We have a number of ongoing development and land projects being readied for commencement.

Additionally, general construction and development activities include the following risks:

- construction and leasing of a property may not be completed on schedule, which could result in increased expenses and construction costs, and would result in reduced profitability for that property;

- construction costs may exceed original estimates due to increases in interest rates and increased cost of materials, labor or other costs, possibly making the property less profitable because of inability to increase rents to compensate for the increase in construction costs;

- some developments may fail to achieve expectations, possibly making them less profitable;

- we may be unable to obtain, or face delays in obtaining, required zoning, land-use, building, occupancy, and other governmental permits and authorizations, which could result in increased costs and could require us to abandon our activities entirely with respect to a project;

- we may abandon development opportunities after the initial exploration, which may result in failure to recover costs already incurred. If we determine to alter or discontinue its development efforts, future costs of the investment may be expensed as incurred rather than capitalized and we may determine the investment is impaired resulting in a loss;

- we may expend funds on and devote management's time to projects which will not be completed; and

occupancy rates and rents at newly-completed properties may fluctuate depending on various factors including market and economic conditions, and may result in lower than projected rental rates and reduced income from operations.

We face risks associated with property acquisitions.

We acquire individual properties and various portfolios of properties and intend to continue to do so. Acquisition activities are subject to the following risks:

- when we are able to locate a desired property, competition from other real estate investors may significantly increase the seller's offering price;

- acquired properties may fail to perform as expected;

- the actual costs of repositioning or redeveloping acquired properties may be higher than original estimates;

- acquired properties may be located in new markets where we face risks associated with an incomplete knowledge or understanding of the local market, a limited number of established business relationships in the area and a relative unfamiliarity with local governmental and permitting procedures; and

- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into existing operations, and results of operations and financial condition could be adversely affected.

We may acquire properties subject to liabilities and without any recourse, or with limited recourse, with respect to unknown liabilities. However, if an unknown liability was later asserted against the acquired properties, we might be required to pay substantial sums to settle it, which could adversely affect cash flow.

Many of our properties are concentrated in our primary markets and the Company may suffer economic harm as a result of adverse conditions in those markets.

Our properties are located principally in specific geographic areas in the southwestern, southeastern, and mid-western United States. The Company's overall performance is largely dependent on economic conditions in those regions.

We are leveraged and may not be able to meet our debt service obligations.

We had total indebtedness at December 31, 2012 of approximately \$869.9 million. Substantially all assets have been pledged to secure debt. These borrowings increase the risk of loss because they represent a prior claim on assets and most require fixed payments regardless of profitability. Our leveraged position makes us vulnerable to declines in the general economy and may limit the Company's ability to pursue other business opportunities in the future.

We may not be able to access financial markets to obtain capital on a timely basis, or on acceptable terms.

We rely on proceeds from property dispositions and third party capital sources for a portion of our capital needs, including capital for acquisitions and development. The public debt and equity markets are among the sources upon which the Company relies. There is no guarantee that we will be able to access these markets or any other source of capital. The ability to access the public debt and equity markets depends on a variety of factors, including:

- general economic conditions affecting these markets;
- our own financial structure and performance;
- the market's opinion of real estate companies in general; and
- the market's opinion of real estate companies that own similar properties.

We may suffer adverse effects as a result of terms and covenants relating to the Company's indebtedness.

Required payments on our indebtedness generally are not reduced if the economic performance of the portfolio declines. If the economic performance declines, net income, cash flow from operations and cash available for distribution to stockholders may be reduced. If payments on debt cannot be made, we could sustain a loss or suffer judgments, or in the case of mortgages, suffer foreclosures by mortgagees. Further, some obligations contain cross-default and/or cross-acceleration provisions, which means that a default on one obligation may constitute a default on other obligations.

We anticipate only a small portion of the principal of our debt will be repaid prior to maturity. Therefore, we are likely to refinance a portion of our outstanding debt as it matures. There is a risk that we may not be able to refinance existing debt or the terms of any refinancing will not be as favorable as the terms of the maturing debt. If principal balances due at maturity cannot be refinanced, extended, or repaid with proceeds from other sources, such as the proceeds of sales of assets or new equity capital, cash flow may not be sufficient to repay all maturing debt in years when significant "balloon" payments come due.

Our credit facilities and unsecured debt contain customary restrictions, requirements and other limitations on the ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios, and minimum ratios of unencumbered assets to unsecured debt. Our continued ability to borrow is subject to compliance with financial and other covenants. In addition, failure to comply with such covenants could cause a default under credit facilities, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available, or be available only on unattractive terms.

Our degree of leverage could limit our ability to obtain additional financing or affect the market price of our common stock.

The degree of leverage could affect our ability to obtain additional financing for working capital, capital expenditures, acquisitions, development or other general corporate purposes. The degree of leverage could also make us more vulnerable to a downturn in business or the general economy.

An increase in interest rates would increase interest costs on variable rate debt and could adversely impact the ability to refinance existing debt.

We currently have, and may incur more, indebtedness that bears interest at variable rates. Accordingly, if interest rates increase, so will the interest costs, which could adversely affect cash flow and the ability to pay principal and interest on our debt and the ability to make distributions to shareholders. Further, rising interest rates could limit our ability to refinance existing debt when it matures.

Unbudgeted capital expenditures or cost overruns could adversely affect business operations and cash flow.

If capital expenditures for ongoing or planned development projects or renovations exceed expectations, the additional cost of these expenditures could have an adverse effect on business operations and cash flow. In addition, we might not have access to funds on a timely basis to pay the unexpected expenditures.

Construction costs are funded in large part through construction financing, which the Company may guarantee. The Company's obligation to pay interest on this financing continues until the rental project is completed, leased-up and permanent financing is obtained, or the for sale project is sold, or the construction loan is otherwise paid. Unexpected delays in completion of one or more ongoing projects could also have a significant adverse impact on business operations and cash flow.

We may need to sell properties from time to time for cash flow purposes.

Because of the lack of liquidity of real estate investments generally, our ability to respond to changing circumstances may be limited. Real estate investments generally cannot be sold quickly. In the event that we must sell assets to generate cash flow, we cannot predict whether there will be a market for those assets in the time period desired, or whether we will be able to sell the assets at a price that will allow the Company to fully recoup its investment. We may not be able to realize the full potential value of the assets and may incur costs related to the early pay-off of the debt secured by such assets.

We intend to devote resources to the development of new projects.

We plan to continue developing new projects as opportunities arise in the future. Development and construction activities entail a number of risks, including but not limited to the following:

- we may abandon a project after spending time and money determining its feasibility;
- construction costs may materially exceed original estimates;
- the revenue from a new project may not be enough to make it profitable or generate a positive cash flow;
- we may not be able to obtain financing on favorable terms for development of a property, if at all;
- we may not complete construction and lease-ups on schedule, resulting in increased development or carrying costs; and
- we may not be able to obtain, or may be delayed in obtaining, necessary governmental permits.

The overall business is subject to all of the risks associated with the real estate industry.

We are subject to all risks incident to investment in real estate, many of which relate to the general lack of liquidity of real estate investments, including, but not limited to:

• our real estate assets are concentrated primarily in the southwest and any deterioration in the general economic conditions of this region could have an adverse effect;

- changes in interest rates may make the ability to satisfy debt service requirements more burdensome;

lack of availability of financing may render the purchase, sale or refinancing of a property more difficult or unattractive;

- changes in real estate and zoning laws;
- increases in real estate taxes and insurance costs;
- federal or local economic or rent control;
- acts of terrorism, and
- hurricanes, tornadoes, floods, earthquakes and other similar natural disasters.

Our performance and value are subject to risks associated with our real estate assets and with the real estate industry.

Our economic performance and the value of our real estate assets, and consequently the value of our securities, are subject to the risk that if our properties do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow will be adversely affected. The following factors, among others, may adversely affect the income generated by our properties:

- downturns in the national, regional and local economic conditions (particularly increases in unemployment);
- competition from other office, hotel and commercial buildings;

Local real estate market conditions, such as oversupply or reduction in demand for office, hotel or other commercial space;

- changes in interest rates and availability of financing;
- vacancies, changes in market rental rates and the need to periodically repair, renovate and re-let space;

• increased operating costs, including insurance expense, utilities, real estate taxes, state and local taxes and heightened security costs;

• civil disturbances, earthquakes and other natural disasters, or terrorist acts or acts of war which may result in uninsured or underinsured losses;

• significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs which are generally not reduced when circumstances cause a reduction in revenues from a property;

- declines in the financial condition of our tenants and our ability to collect rents from our tenants; and
- decreases in the underlying value of our real estate.

Adverse economic and geopolitical conditions and dislocations in the credit markets could have a material adverse effect on our results of operations, and financial condition.

Our business may be affected by market and economic challenges experienced by the U.S. economy or real estate industry as a whole or by the local economic conditions in the markets in which our properties are located, including the current dislocations in the credit markets and general global economic recession. These current conditions, or similar conditions existing in the future, may adversely affect our results of operations, and financial condition as a result of the following, among other potential consequences:

• the financial condition of our tenants may be adversely affected which may result in tenant defaults under leases due to bankruptcy, lack of liquidity, operational failures or for other reasons;

- significant job losses within our tenants may occur, which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;
- our ability to borrow on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reduce our returns from our acquisition and development activities and increase our future interest expense;

• reduced values of our properties may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans; and

• one or more lenders could refuse to fund their financing commitment to us or could fail and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all.

Real estate investments are illiquid, and the Company may not be able to sell properties if and when it is appropriate to do so.

Real estate generally cannot be sold quickly. We may not be able to dispose of properties promptly in response to economic or other conditions. In addition, provisions of the Internal Revenue Code may limit our ability to sell properties (without incurring significant tax costs) in some situations when it may be otherwise economically advantageous to do so, thereby adversely affecting returns to stockholders and adversely impacting our ability to meet our obligations.

None.

### ITEM 3. LEGAL PROCEEDINGS

The ownership of property and provision of services to the public as tenants entails an inherent risk of liability. Although the Company and its subsidiaries are involved in various items of litigation incidental to and in the ordinary course of its business, in the opinion of Management, the outcome of such litigation will not have a material adverse impact upon the Company's financial condition, results of operation or liquidity, unless noted otherwise below.

The Company is involved in and vigorously defending against, a number of deficiency claims with respect to assets that have been foreclosed by various lenders. Such claims are generally against a consolidated subsidiary as the borrower or the Company as a guarantor of indebtedness or performance. Some of these proceedings may ultimately result in an unfavorable determination for the Company and/or one of its consolidated subsidiaries. While we cannot predict the final result of such proceedings, Management believes that the maximum exposure to the Company and its consolidated subsidiaries, if any, will not exceed approximately \$20 million in the aggregate and will occur, if at all, in future years.

ART and its subsidiary ART Midwest, Inc have been engaged in litigation with a Mr. David Clapper and companies related to Mr. Clapper (The "Clapper Entities") since 1999. The origins of the matter began in 1998 in a transaction in which ART Midwest was to acquire eight apartments from the Clapper Entities. Through the years there have been rulings both for and against ART in this matter. However in October 2011, a final ruling was issued whereby the Clapper Entities were awarded approximately \$74 million including \$26 million in damages and \$48 million in interest. This ruling was against ART and its subsidiary ART Midwest and not the Company or any other subsidiary of the Company.

ART believes there were serious errors in the judge's ruling and has filed an appeal of the judge's ruling. ART further believes that should the Clapper Entities ultimately prevail that it has claims against a third party who was involved in this matter. These claims cannot be pursued until the main case with the Clapper Group is ultimately resolved.

Should the Clapper Group ultimately prevail the only defendants in this matter are ART and ART Midwest, Inc. whose total assets and net worth as of December 31, 2011 was approximately \$10 million. Neither the Company nor any of its subsidiaries other than ART have guaranteed or indemnified either ART or ART Midwest, Inc.

In January 2012, the Company sold all of the issued and outstanding stock of American Realty Trust ("ART") for a \$10 million note. The note is fully reserved by the Company and valued at zero. Subsequent to the sale ART filed for Chapter 11 bankruptcy protection.

ARL, through a foreign subsidiary, is developing a maritime harbor town on the 420 acre site of the former naval base of Olpenitz in Kappeln, Germany. The project is located less than 30 miles from the Denmark border. The town will comprise of a marina offering several thousand moorings, premium vacation homes each with their own landing stage as well as exclusive hotels, restaurants, shops and a range of leisure activities from sailing to golfing to cross country skiing. The development project is expected to be the biggest holiday resort in northern Europe. There were been disputes with the local partner related to his mismanagement of the project which resulted in replacing him as the managing partner and led to filing for bankruptcy protection in Germany to completely remove him from the project. An insolvency manager has been put into place in order to protect the creditors and ARL believes that the value of the land and development in process will satisfy the existing creditors and return ARL's investment. ARL is working in cooperation with the insolvency manager and expects to continue ARL's involvement in the development of this project.

On February 13, 2013, the Court of Appeals, Fifth District of Texas at Dallas (the "Fifth Court of Appeals") rendered an opinion involving Transcontinental Realty Investors, Inc. in Case No. 05-04-01358-CV styled Basic Capital

Management, Inc., American Realty Trust, Inc., Transcontinental Realty Investors, Inc., Continental Poydras Corp., Continental Common, Inc. and Continental Baronne, Inc. v. Dynex Commercial, Inc. and Dynex Capital, Inc. The case was on appeal from the 68th Judicial District Court of Dallas County, Texas, had previously been appealed to the Fifth Court of Appeals and further appealed to the Supreme Court of the State of Texas which had remanded the instant case back to the Fifth Court of Appeals to address certain issues. The case had its origin with Dynex Commercial making loans to Continental Poydras Corp., Continental Common, Inc. and Continental Baronne, Inc. (subsidiaries of Continental Mortgage & Equity Trust (“CMET”), an entity which merged into TCI in 1999 after the original suit was filed). Under the original loan commitment, \$160,000,000 in loans were to be made to the entities. The loans were conditioned on the execution of a commitment between Dynex Commercial and Basic Capital Management, Inc. (“Basic”).

An original trial to a jury resulted in the jury awarding significant damages to Basic for “lost opportunity,” awarding damages in “increased costs” and “lost opportunity” damages to American Realty Trust, Inc. (“ART”) and damages of \$960,646.28 in “increased costs” and \$11,161,520 for “lost opportunity” damages in favor of TCI and its subsidiaries (a total of \$12,122,166.28). The original Trial Court ignored the jury’s findings and entered a “Judgment Notwithstanding the Verdict” (“JNOV”) in Dynex’s favor; the Fifth Court of Appeals has now ruled that the JNOV was improper because there was sufficient evidence to support the jury’s findings. As a result, the Fifth Court of Appeals ordered the Trial Court to enter a new judgment consistent with the jury’s original findings.

The Fifth Court of Appeals also determined that TCI was entitled to damages for “lost opportunities” relating to tenant improvements and awarded TCI an additional \$252,577. Issues relating to attorneys fees were also addressed with the Fifth Court of Appeals ordering the Trial Court to “re-try” the issue of attorney’s fees to determine the amount of fees to which TCI would be entitled on a “breach of commitment” claim. In addition, as a result of the changes in amounts awarded and passage of time, the Fifth Court of Appeals also ordered the Trial Court to recalculate the correct amounts of pre and post-judgment interest owed to Appellants.

While the fifteen year old controversy is not yet fully resolved, the Fifth Court of Appeals opinion is favorable to TCI, but TCI expects continued challenges by Dynex to the Fifth Court of Appeals opinion and any ultimate award of damages by the Trial Court.

During the fourth quarter of the fiscal year covered by this Report, no proceeding previously reported was terminated.

ARL's common stock is listed and traded on the New York Stock Exchange under the symbol "ARL". The following table sets forth the high and low sales prices as reported in the consolidated reporting system of the New York Stock Exchange:

	2012		2011	
	High	Low	High	Low
First Quarter	\$ 2.29	\$ 1.26	\$ 10.49	\$ 2.95
Second Quarter	\$ 3.35	\$ 1.51	\$ 4.85	\$ 1.75
Third Quarter	\$ 3.96	\$ 1.66	\$ 2.66	\$ 1.62
Fourth Quarter	\$ 3.55	\$ 2.60	\$ 2.75	\$ 1.15

On March 20, 2013, the closing market price of ARL's common stock on the New York Stock Exchange was \$3.60 per share, and was held by approximately 3,000 stockholders of record.

ARL's Board of Directors has established a policy that dividend declarations on common stock would be determined on an annual basis following the end of each year. In accordance with that policy, the Board determined not to pay any dividends on common stock in 2012, 2011 or 2010. Future distributions to common stockholders will be determined by the Board of Directors in light of conditions then existing, including the Company's financial condition and requirements, future prospects, restrictions in financing agreements, business conditions and other factors deemed relevant by the Board.

Under ARL's Amended Articles of Incorporation, 15,000,000 shares of Series A 10.0% Cumulative Convertible Preferred Stock are authorized with a par value of \$2.00 per share and a liquidation preference of \$10.00 per share plus accrued and unpaid dividends. Dividends are payable at the annual rate of \$1.00 per share, or \$.25 per share quarterly, to stockholders of record on the last day of each March, June, September, and December, when and as declared by the Board of Directors. The Series A Preferred Stock may be converted into common stock at 90.0% of the average daily closing price of ARL's common stock for the prior 20 trading days. At December 31, 2012, 3,353,954 shares of Series A Preferred Stock were outstanding. Of the outstanding shares, 300,000 shares are owned by ART Edina, Inc., and 600,000 shares are owned by ART Hotel Equities, Inc., a wholly-owned subsidiary of ARL. Dividends are not paid on the shares owned by ARL subsidiaries.

Under ARL's Amended Articles of Incorporation, 91,000 shares of Series D 9.50% Cumulative Preferred Stock are authorized with a par value of \$2.00 per share, and a liquidation preference of \$20.00 per share. Dividends are payable at the annual rate of \$1.90 per year or \$0.475 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. The Series D Preferred Stock is reserved for the conversion of the Class A limited partner units of Ocean Beach Partners, L.P. The Class A units may be exchanged for Series D Preferred Stock at the rate of 20 Class A units for each share of Series D Preferred Stock. At March 20, 2013, no shares of Series D Preferred Stock were outstanding.

Under ARL's Amended Articles of Incorporation, 500,000 shares of Series E 6.0% Cumulative Preferred Stock are authorized with a par value \$2.00 per share and a liquidation preference of \$10.00 per share. Dividends are payable at the annual rate of \$.60 per share or \$.15 per quarter to stockholders of record on the last day of each March, June, September and December when and as declared by the Board of Directors. At March 20, 2013, no Series E Preferred Stock was outstanding. As an instrument amendatory to ARL's Amended Articles of Incorporation, 100,000 shares of

Series J 8% Cumulative Convertible Preferred Stock have been designated pursuant to a Certificate of Designation filed March 16, 2006, with a par value of \$2.00 per share, and a liquidation preference of \$1,000 per share. Dividends are payable at the annual rate of \$80 per share, or \$20 per quarter, to stockholders of record on the last day of each of March, June, September and December, when and as declared by the Board of Directors. Although the Series J 8% Cumulative Convertible Preferred Stock has been designated, no shares have been issued as of March 20, 2013.

On September 1, 2000, the Board of Directors approved a share repurchase program authorizing the repurchase of up to a total of 1,000,000 shares of ARL common stock. This repurchase program has no termination date. In August 2010, the Board of Directors approved an increase in the share repurchase program for up to an additional 250,000 shares of common stock which results in a total authorization under the repurchase program for up to 1,250,000 shares.

The following table sets forth information regarding purchases made by ARL of shares of ARL common stock on a monthly basis during the fourth quarter of 2012:

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the captions "Business," "Risk Factors," and "Management's Discussion and Analysis of Financial Condition and Results of Operations." We caution investors that any forward-looking statements in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and on assumptions made by, and information currently available to, management. When used, the words "anticipate", "believe", "expect", "intend", "may", "might", "plan", "estimate", "project", "should", "will", "result" and similar expressions relate solely to historical matters are intended to identify forward-looking statements. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors, that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

- general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate);
- risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments;
- failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully;
  - risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);
- risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;
  - costs of compliance with the Americans with Disabilities Act and other similar laws and regulations;
  - potential liability for uninsured losses and environmental contamination;
  - risks associated with our dependence on key personnel whose continued service is not guaranteed; and
- the other risk factors identified in this Form 10-K, including those described under the caption "Risk Factors."

The risks included here are not exhaustive. Other sections of this report, including Part I, Item 1A. “Risk Factors,” include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and current reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise.

## Overview

We are an externally advised and managed real estate investment company that owns a diverse portfolio of income-producing properties and land held for development. Our portfolio of income-producing properties includes residential apartment communities, office buildings, hotels and other commercial properties. Our investment strategy includes acquiring existing income-producing properties as well as developing new properties on land already owned or acquired for a specific development project. We acquire land primarily in urban in-fill locations or high-growth suburban markets. We are an active buyer and seller of real estate and during 2012 we sold \$99.2 million of land and income-producing properties. As of December 31, 2012, we owned 8,873 units in 48 residential apartment communities, 14 commercial properties comprising approximately 3.7 million rentable square feet. In addition, we own 4,657 acres of land held for development with a 420-acre holiday resort project in Germany currently in development.

We finance our acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific first-lien mortgage loans from commercial banks and institutional lenders. We finance our development projects principally with short-term, variable interest rate construction loans that are converted to long-term, fixed rate amortizing mortgages when the development project is completed and occupancy has been stabilized. We will, from time to time, also enter into partnerships with various investors to acquire income-producing properties or land and to sell interests in certain of our wholly owned properties. When we sell assets, we may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable. We generate operating revenues primarily by leasing apartment units to residents; leasing office, retail and industrial space to commercial tenants; and renting hotel rooms to guests.

We have historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in our best interest.

Effective since April 30, 2011, Pillar is the Company's external Advisor and Cash Manager under a contractual arrangement that is reviewed annually by our Board of Directors. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for TCI's benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual Advisor, Pillar is compensated by TCI under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement. Prior to April 30, 2011, the Company was advised by Prime.

Effective since January 1, 2011, Regis manages our commercial properties and provides brokerage services. Regis is entitled to receive a fee for its property management and brokerage services. See Part III, Item 10. "Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage". Prior to December 31, 2010, Triad provided management services for our commercial properties. Triad sub-contracted the property-level management and leasing of our commercial properties to Regis I. The Company contracts with third-party companies to lease and manage our apartment communities.

#### Critical Accounting Policies

We present our financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). In June 2009, the Financial Accounting Standards Board ("FASB") completed its accounting guidance codification project. The FASB Accounting Standards Codification ("ASC") became effective for our financial statements issued subsequent to September 30, 2009 and is the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. As of the effective date, we no longer refer to the authoritative guidance dictating our accounting methodologies under the previous accounting standards hierarchy. Instead, we refer to the ASC guidance as the sole source of authoritative literature.

The accompanying Consolidated Financial Statements include our accounts, our subsidiaries, generally all of which are wholly-owned, and all entities in which we have a controlling interest. Arrangements that are not controlled through voting or similar rights are accounted for as a Variable Interest Entity (VIE), in accordance with the provisions and guidance of ASC Topic 810 "Consolidation", whereby we have determined that we are a primary

beneficiary of the VIE and meet certain criteria of a sole general partner or managing member as identified in accordance with Emerging Issues Task Force (“EITF”) Issue 04-5, Investor’s Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights (“EITF 04-5”). VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders as a group lack adequate decision making ability, the obligation to absorb expected losses or residual returns of the entity, or have voting rights that are not proportional to their economic interests. The primary beneficiary generally is the entity that provides financial support and bears a majority of the financial risks, authorizes certain capital transactions, or makes operating decisions that materially affect the entity’s financial results. All significant intercompany balances and transactions have been eliminated in consolidation.

In determining whether we are the primary beneficiary of a VIE, we consider qualitative and quantitative factors, including, but not limited to: the amount and characteristics of our investment; the obligation or likelihood for us or other investors to provide financial support; our and the other investors’ ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of us and the other investors. Significant judgments related to these determinations include estimates about the current future fair values and performance of real estate held by these VIEs and general market conditions.

For entities in which we have less than a controlling financial interest or entities where we are not deemed to be the primary beneficiary, the entities are accounted for using the equity method of accounting. Accordingly, our share of the net earnings or losses of these entities are included in consolidated net income. Our investment in Gruppa Florentina, LLC is accounted for under the equity method. Our investments in Garden Centura, L.P. and LK-Four Hickory, LLC were accounted for under the equity method until December 28, 2011 and January 17, 2012, respectively, when the investments were sold.

## Real Estate

Upon acquisitions of real estate, we assess the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, “above-market” and “below-market” leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with ASC Topic 805 “Business Combinations”, and allocate the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost.

We assess and consider fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and extent of the existing relationship with the tenants, the tenants’ credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired “above-market” and “below-market” leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management’s estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases.

Other intangible assets acquired include amounts for in-place lease values that are based on our evaluation of the specific characteristics of each tenant’s lease. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses.

Sales to our subsidiary, TCI, have previously been reflected at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL’s cost basis in the asset at the time of the sale. The related party payables to ARL were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

## Depreciation and Impairment

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are capitalized. Capitalized development costs include interest, property taxes, insurance, and other direct project costs

incurred during the period of development.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by ASC Topic 835-20 “Interest – Capitalization of Interest” and ASC Topic 970 “Real Estate - General”. The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Management reviews its long-lived assets used in operations for impairment when there is an event or change in circumstances that indicates impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. Fair value is determined by a recent appraisal, comparables based upon prices for similar assets, executed sales contract, a present value and/or a valuation technique based upon a multiple of earnings or revenue. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. If we determine that impairment has occurred, the affected assets must be reduced to their face value.

ASC Topic 360 “Property, Plant and Equipment” requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as “held for sale”, be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and we will not have significant continuing involvement following the sale. The components of the property’s net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property “held for sale”, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be “held for sale” when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as “held for sale”, no further depreciation is recorded on the assets.

Any properties that are treated as “subject to sales contract” on the Consolidated Balance Sheets and are listed in detail in Schedule III, “Real Estate and Accumulated Depreciation” are those in which we have not recognized the legal sale according to the guidance in ASC 360-20 due to various factors, disclosed in each sale transaction under Item 1 Significant Real Estate Acquisitions/Dispositions and Financing. Any sale transaction that did not meet the requirements according to ASC 360-20 to record the sale, the asset involved in the transaction, including the debt and property operations, remained on the books of the Company. We continue to charge depreciation to expense as a period costs for the property until such time as the property has been classified as held for sale in accordance with guidance reflected in ASC 360-10-45 “Impairment or Disposal of Long-Lived Assets”.

#### Investment in Unconsolidated Real Estate Ventures

Except for ownership interests in variable interest entities, we account for our investments in unconsolidated real estate ventures under the equity method of accounting because we exercise significant influence over, but do not control, these entities. These investments are recorded initially at cost, as investments in unconsolidated real estate ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on our balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated real estate ventures over the life of the related asset. Under the equity method of accounting, our net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses; however, our recognition of joint venture income or loss generally follows the joint venture’s distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, we consolidate those in which we are the primary beneficiary.

#### Recognition of Rental Income

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms. In accordance with ASC Topic 805 “Business Combinations”, we recognize rental revenue of acquired in-place “above-market” and “below-market” leases at their fair values over the terms of the respective leases. On our Consolidated

Balance Sheets, we include as a receivable the excess of rental income recognized over rental payments actually received pursuant to the terms of the individual commercial lease agreements.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a “gross” basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less. For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered. An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

### Revenue Recognition on the Sale of Real Estate

Sales and the associated gains or losses of real estate are recognized in accordance with the provisions of ASC Topic 360-20, “Property, Plant and Equipment – Real Estate Sale”. The specific timing of a sale is measured against various criteria in ASC 360-20 related to the terms of the transaction and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, we defer some or all of the gain recognition and account for the continued operations of the property by applying the finance, leasing, deposit, installment or cost recovery methods, as appropriate, until the sales criteria are met.

### Non-performing Notes Receivable

We consider a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments in accordance with the terms of the agreement.

### Interest Recognition on Notes Receivable

We record interest income as earned in accordance with the terms of the related loan agreements. Prior to January 1, 2012, on cash flow notes where payments are based upon surplus cash from operations, accrued but unpaid interest income was only recognized to the extent that cash was received. As of January 1, 2012, due to the consistency of cash received on the surplus cash notes, we are recording interest as earned.

### Allowance for Estimated Losses

We assess the collectability of notes receivable on a periodic basis, of which the assessment consists primarily of an evaluation of cash flow projections of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We recognize impairments on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. The amount of the impairment to be recognized generally is based on the fair value of the partnership’s real estate that represents the primary source of loan repayment. See Note 3 “Notes and Interest Receivable” for details on our notes receivable.

### Fair Value of Financial Instruments

We apply the guidance in ASC Topic 820, “Fair Value Measurements and Disclosures,” to the valuation of real estate assets. These provisions define fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants at the measurement date, establish a hierarchy that prioritizes the information used in developing fair value estimates and require disclosure of fair value measurements by level within the fair value hierarchy. The hierarchy gives the highest priority to quoted prices in active markets (Level 1 measurements) and the lowest priority to unobservable data (Level 3 measurements), such as the reporting entity’s own data.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date and includes three levels defined as follows:

Level 1—Unadjusted quoted prices for identical and unrestricted assets or liabilities in active markets.

Level 2—Quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3—Unobservable inputs that are significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

#### Related parties

We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

## Results of Operations

The discussion of our results of operations is based on management's review of operations, which is based on our segments. Our segments consist of apartments, commercial buildings, hotels, land and other. For discussion purposes, we break these segments down into the following sub-categories; same property portfolio, acquired properties, and developed properties in the lease-up phase. The same property portfolio consists of properties that were held by us for the entire period for both years being compared. The acquired property portfolio consists of properties that we acquired but have not held for the entire period for both periods being compared. Developed properties in the lease-up phase consist of completed projects that are being leased-up. As we complete each phase of the project, we lease-up that phase and include those revenues in our continued operations. Once a developed property becomes leased-up (80% or more) and is held the entire period for both years under comparison, it is considered to be included in the same property portfolio. Income producing properties that we have sold during the year are reclassified to discontinued operations for all periods presented.

The following discussion is based on our Consolidated Statements of Operations for the twelve months ended December 31, 2012, 2011, and 2010 as included in Part II, Item 8. "Consolidated Financial Statements and Supplementary Data". The prior year's property portfolios have been adjusted for subsequent sales. Continued operations relates to income producing properties that were held during those years as adjusted for sales in the subsequent years.

At December 31, 2012, 2011, and 2010, we owned or had interests in a portfolio of 62, 68, and 82 income producing properties, respectively. For discussion purposes, we broke this out between continued operations and discontinued operations. The total property portfolio represents all income-producing properties held as of December 31 for the year end presented. Sales subsequent to year end represent properties that were held as of year end for the years presented, but sold in the next year. Continuing operations represents all properties that have not been reclassified to discontinued operations as of December 31, 2012 for the year presented. The table below shows the number of income producing properties held by year.

	2012	2011	2010
Continued operations	61	61	55
Sales subsequent to year end	1	7	27
Total property portfolio	62	68	82

Comparison of the year ended December 31, 2012 to the same period ended December 31, 2011:

For the twelve months ended December 31, 2012, we reported a net loss applicable to common shares of \$8.0 million or \$0.70 per diluted earnings per share, as compared to a net loss applicable to common shares of \$2.2 million or \$0.19 per diluted earnings per share for the same period ended 2011. The current year net loss applicable to common shares of \$8.0 million includes gain on land sales of \$5.5 million, \$4.7 million of provisions on the impairment of notes receivable and real estate assets, and net income from discontinued operations of \$4.6 million, as compared to the prior year net loss applicable to common shares of \$2.2 million, which includes gain on land sales of \$34.2 million, \$44.4 million of provisions on the impairment of notes receivable and real estate assets, and net income from discontinued operations of \$29.1 million.

## Revenues

Rental and other property revenues were \$119.5 million for the twelve months ended December 31, 2012. This represents an increase of \$11.0 million as compared to the prior year revenues of \$108.5 million. This change, by

segment, is an increase in the apartment portfolio of \$9.0 million, an increase in the commercial portfolio of \$2.5 million, offset by a decrease in the land portfolio of \$0.5 million. Within the apartment portfolio, there was an increase of \$6.1 million in the newly constructed residential apartment portfolio and an increase of \$2.9 million in the same property portfolio. Our residential apartment portfolio continues to thrive in the current economic conditions with occupancies averaging over 95%. Our existing commercial portfolio increased by \$2.5 million in the same store properties due to a lease termination fee from a settlement agreement with a commercial tenant. We have directed our efforts to apartment development and put some additional land projects on hold until the economic conditions turn around. We are continuing to market our properties aggressively to attract new tenants and strive for continuous improvement of our properties in order to maintain our existing tenants.

#### Expenses

Depreciation expense was \$21.6 million for the twelve months ended December 31, 2012. This represents an increase of \$2.9 million as compared to the prior year depreciation expense of \$18.7 million. This change, by segment, is an increase in our apartment portfolio of \$1.4 million and an increase in the commercial portfolio of \$1.6 million, offset by a decrease in our other portfolio of \$0.1 million. Within the apartment portfolio, the same properties increased by \$0.4 million and the developed properties increased by \$1.0 million as the buildings became substantially complete and depreciation began. The decrease in the commercial portfolio of \$1.6 million was attributable to the same properties.

General and administrative expenses were \$6.4 million for the twelve months ended December 31, 2012. This represents a decrease of \$7.2 million as compared to the prior year expense of \$13.6 million. The majority of the reduction is related to land and corporate expenses as professional services decreased by \$4.0 million and cost reimbursements to our Advisor decreased by \$0.9 million.

The current year provision for impairment of notes receivable, investment in real estate partnerships, and real estate assets was \$4.7 million. This was a decrease of \$39.7 million as compared to the prior year expense of \$44.4 million. In the current year, impairment was recorded as an additional loss in the commercial and land portfolios. In our commercial portfolio, an impairment reserve of \$2.4 million was taken in response to a deficiency agreement with the existing lender. The agreed upon deficiency, in the event the lender takes possession of the property, was the basis upon which fair value was calculated and an impairment reserve was taken for the difference in basis over fair value. The remaining \$2.3 million in impairment reserves were related to our land holdings. A current year sale of adjacent land determined the fair value on a Waco, Texas land holding that resulted in an impairment reserve of \$1.2 million, a comparable sale determined the fair value of a Florida land holding that resulted in an impairment reserve of \$0.5 million and a recent appraisal determined the fair value of an Arkansas land holding that resulted in an impairment reserve of \$0.6 million. In the prior period, impairment was recorded as an additional loss in the investment portfolio of \$5.2 million in the apartment properties we currently hold, \$2.0 million in commercial properties we currently hold, \$2.4 million in land parcels we currently hold, \$24.4 million in land that was sold subsequent to the prior period, \$0.4 million in impairment on our investments in joint ventures and a \$10.0 million reserve related to the assets held by American Realty Trust, Inc. at December 31, 2011. Of the impairment reserves taken in the prior period, \$20.0 million was related to the land holdings that were part of an overall strategic debt restructuring plan resulting in the disposal of the land for less than the market value, \$10.0 million was related to a seller financed note whose recovery is questionable, \$8.8 million was related to a third party sales contract that was executed during the prior period for less than the carrying value, \$5.2 million was related to the underperformance of property using a valuation analysis based upon a multiple of earnings and \$0.4 million was related to various investment in joint ventures that had were determined to have a questionable recovery of our investment.

Advisory fees were \$10.2 million for the twelve months ended December 31, 2012. This represents a decrease of \$3.0 million as compared to the prior period Advisory fees of \$13.2 million. This decrease is due to the sales of land and income-producing properties in the current period.

#### Other income (expense)

Other income was \$8.0 million for the twelve months ended December 31, 2012. This represents an increase of \$5.3 million as compared to the prior year income of \$2.7 million. The majority of the increase relates to the development agreement between UHF and TCI for consulting services related to the development of apartment projects.

Interest income was \$14.6 million for the twelve months ended December 31, 2012. This represents an increase of \$3.7 million as compared to the prior year income of \$10.9 million. The majority of the increase is due to the cash received on the cash flow notes from UHF. The residential apartments have generated more surplus cash in the current period, than in the prior period, resulting in a larger recognition of previously unrecognized interest income. Prior to January 1, 2012, accrued interest was recognized to the extent cash was received. Any payments received above the current interest accruals are applied to any previously unrecognized interest before applying to the unpaid principal balance of the notes.

Gain on land sales decreased for the twelve months ended December 31, 2012 as compared to the prior period. In the current period, we sold 705.84 acres of land in 20 separate transactions for an aggregate sales price of \$40.3 million, and recorded a gain of \$5.5 million. The average sales price was \$57,163 per acre. In the prior year,

we sold 7,821.97 acres of land in 46 separate transactions for an aggregate sales price of \$249.5 million and recorded a gain of \$34.2 million. The average sales price was \$31,896.

#### Discontinued Operations

Discontinued operations relates to properties that were either sold or held for sale as of the year ended December 31, 2012. Included in discontinued operations are a total of six and 26 income-producing properties as of 2012 and 2011, respectively, and one held for sale as of 2012. In 2012, we sold two apartment complexes (Portofino, Wildflower Villas), three commercial properties (305 Baronne, Clarke Garage and Dunes Plaza), one hotel (Comfort Inn), and one apartment complex held for sale (Verandas at City View). In 2011, we sold two apartment complexes (Spyglass, Westwood), 12 commercial properties (Addison Hanger I, Addison Hanger II, Alpenloan, Cooley Building, Fenton Center, One Hickory, Parkway North, Signature, Teleport Blvd, Two Hickory, Westgrove Air Plaza, Willowbrook Village), four hotels (Piccadilly Airport, Piccadilly Chateau, Piccadilly Shaw, Piccadilly University), 13 acres of land with a storage warehouse (Eagle Crest), and one trade show and exhibit hall (Denver Merchandise Mart). In addition, we recognized the deferred gains on the sales of two apartment complexes (Bridges on Kinsey, Longfellow Arms), and four commercial properties (2010 Valley View, Cullman Shopping Center, Kmart Cary and Parkway Centre) that were sold in prior years in accordance with the requirements per ASC Topic 360-20 "Property, Plant, and Equipment—Real Estate Sales". The operations related to these properties sold are reclassified to prior years discontinued operations. The gains on sale of the properties sold were also included in discontinued operations for those years as shown in the table below (dollars in thousands):

Comparison of the year ended December 31, 2011 to the same period ended December 31, 2010:

For the twelve months ended December 31, 2011, we reported a net loss applicable to common shares of \$2.2 million or \$0.19 per diluted earnings per share, as compared to a net loss applicable to common shares of \$97.2 million or \$8.48 per diluted earnings per share for the same period ended 2010. The 2011 net loss applicable to common shares of \$2.2 million includes gain on land sales of \$34.2 million, \$44.4 million of provisions on the impairment of notes receivable and real estate assets, and net income from discontinued operations of \$29.1 million, as compared to the same period ended 2010 net loss applicable to common shares of \$97.2 million, which includes a loss on land sales of \$10.1 million, \$51.6 million of provisions on the impairment of notes receivable and real estate assets, and net income from discontinued operations of \$1.9 million.

#### Revenues

Rental and other property revenues were \$108.5 million for the twelve months ended December 31, 2011. This represents an increase of \$2.0 million as compared to the prior year revenues of \$106.5 million. This change, by segment, is an increase in the apartment portfolio of \$7.5 million and an increase in the land portfolio of \$0.2 million, offset by a decrease in the commercial portfolio of \$5.7 million. Within the apartment portfolio, there was an increase of \$4.8 million in the developed properties in the lease-up phase and an increase of \$2.7 million in the same property portfolio. Our apartment portfolio continues to thrive in the current economic conditions with occupancies averaging 95%. Within the commercial portfolio the same properties decreased by \$5.7 million due to an increase in vacancy, which we attribute to the current state of the economy. We have directed our efforts to apartment development and put some additional land projects on hold until the economic conditions turn around. We are continuing to market our properties aggressively to attract new tenants and strive for continuous improvement of our properties in order to maintain our existing tenants.

#### Expenses

Depreciation expense was \$18.7 million for the twelve months ended December 31, 2011. This represents a decrease of \$1.7 million as compared to the prior year expense of \$20.4 million. This change, by segment, is an increase in the apartment portfolio of \$0.6 million, an increase in our other portfolio of \$0.2 million, offset by decrease in the

commercial portfolio of \$2.5 million. The increase within our apartment portfolio was due to an increase of \$0.6 million in the same properties and an increase of \$1.2 million in the developed properties as the buildings became substantially complete and depreciation began. The decrease of \$2.5 million in the commercial portfolio was attributable to the same properties.

General and administrative expenses were \$13.6 million for the twelve months ended December 31, 2011. This represents an increase of \$1.1 million as compared to the prior year expense of \$12.5 million due to an increase in administrative expenses and professional services.

The provision on impairment of notes receivable, investment in real estate partnerships, and real estate assets was \$44.4 million for the twelve months ended December 31, 2011. This is a decrease of \$7.2 million as compared to \$51.6 million for the same period ending 2010. In 2011, impairment was recorded as an additional loss in the investment portfolio of \$5.2 million in the apartment properties we currently hold, \$2.0 million in commercial properties we currently hold, \$2.4 million in land parcels we currently hold, \$24.4 million in land that was sold subsequent to the prior period, \$0.4 million in impairment on our investments in joint ventures and a \$10.0 million reserve related to the assets held by American Realty Trust, Inc. at December 31, 2011. Of the impairment reserves taken for the twelve months ended December 31, 2011, \$20.0 million was related to the land holdings that were part of an overall strategic debt restructuring plan resulting in the disposal of the land for less than the market value, \$10.0 million was related to a seller financed note whose recovery is questionable, \$8.8 million was related to a third party sales contract that was executed during the prior period for less than the carrying value, \$5.2 million was related to the underperformance of property using a valuation analysis based upon a multiple of earnings and \$0.4 million was related to various investment in joint ventures that had were determined to have a questionable recovery of our investment. In 2010, impairment was recorded as an additional loss in the investment portfolio of \$21.0 million for a land development project we currently hold due to an appraisal value lower than the carrying value, a \$4.0 million increase in impairment on notes receivable due to questionable recovery and the remainder was additional loss in the investment portfolio in land we sold during 2011 or subsequent to year end as part of an overall strategic debt restructuring plan resulting in the disposal of the land for less than the market value.

Advisory fees were \$13.2 million for the twelve months ended December 31, 2011. This represents a decrease of \$2.6 million as compared to the prior period Advisory fees of \$15.8 million. This decrease is due to sales of land and income-producing properties in 2011.

#### Other income (expense)

Other income was \$2.7 million for the twelve months ended December 31, 2011. This represents a decrease of \$6.1 million as compared to the prior year income of \$8.8 million. The decrease was due to revenue received in the prior year for incentive fee from Regis I.

Interest income was \$10.9 million for the twelve months ended December 31, 2011. This represents an increase of \$2.5 million as compared to the prior year income of \$8.4 million. This change was due to the receipt of interest payments due on our Unified Housing surplus cash flow notes. Prior to January 1, 2012 interest income was recognized to the extent interest payments were received. The Company received more interest payments in 2011 than in the prior year.

Mortgage and loan interest expense was \$59.2 million for the twelve months ended December 31, 2011. This represents a decrease of \$5.8 million as compared to the prior year expense of \$65.0 million. This change, by segment, is a decrease in the apartment portfolio of \$1.3 million, a decrease in the commercial portfolio of \$0.2 million, a decrease in the land portfolio of \$2.7 million, and a decrease in the other portfolio of \$1.6 million. Within the apartment portfolio, the same apartment portfolio decreased \$3.9 million due to lower refinance rates and the developed properties increased \$2.6 million due to the newly constructed residential apartments. Once an apartment building is substantially complete, the interest expense is no longer capitalized. The land portfolio decrease was due to land sales.

Gain on land sales increased for the twelve months ended December 31, 2011 as compared to the prior period. In 2011, we sold 7,821.97 acres of land in 46 separate transactions for an aggregate sales price of \$249.5 million and recorded a gain of \$34.2 million. The average sales prices was \$31,896 per acre. In 2010, we sold 1,243.88 acres of land in 17 separate transactions for an aggregate sales price of \$31.0 million and recorded a loss of \$10.1 million. The average sales price was \$20,701 per acre.

## Discontinued Operations

Discontinued operations relates to properties that were either sold or held for sale. Included in discontinued operations are a total of 26 and 37 properties as of 2011 and 2010, respectively, and one held for sale as of 2012. The prior periods discontinued operations have been adjusted to reflect properties held during those years that were subsequently sold or held for sale as of December 31, 2012. In 2011, we sold two apartment complexes (Spyglass, Westwood), 12 commercial properties (Addison Hanger I, Addison Hanger II, Alpenloan, Cooley Building, Fenton Center, One Hickory, Parkway North, Signature, Teleport Blvd, Two Hickory, Westgrove Air Plaza, Willowbrook Village), four hotels (Piccadilly Airport, Piccadilly Chateau, Piccadilly Shaw, Piccadilly University), 13 acres of land with a storage warehouse (Eagle Crest), and one trade show and exhibit hall (Denver Merchandise Mart). In 2010, we sold nine apartment complexes (Baywalk, Chateau, Foxwood, Island Bay, Kingsland Ranch, Longfellow Arms, Marina Landing, Mason Park and Villager), one commercial building (217 Rampart), and transferred our limited partnership interest in a consolidated entity that owned an apartment complex (Quail Oaks). In addition, we recognized the deferred gains on the sales of seven apartment complexes (Bridges on Kinsey, Limestone Canyon, Limestone Ranch, Longfellow Arms, Sendero Ridge, Tivoli and Villager) and four commercial properties (2010 Valley View, Cullman Shopping Center, Kmart Cary and Parkway Centre) that were sold in prior years in accordance with the requirements per ASC Topic 360-20 "Property, Plant, and Equipment—Real Estate Sales". The operations related to these properties sold are reclassified to prior years discontinued operations. The gains on sale of the properties sold are also included in discontinued operations for those years as shown in the table below (dollars in thousands):

## Liquidity and Capital Resources

### General

Our principal liquidity needs are:

- fund normal recurring expenses;
- meet debt service and principal repayment obligations including balloon payments on maturing debt;
- fund capital expenditures, including tenant improvements and leasing costs;
- fund development costs not covered under construction loans; and
- fund possible property acquisitions.

Our principal sources of cash have been and will continue to be:

- property operations;
- proceeds from land and income-producing property sales;
- collection of mortgage notes receivable;
- collections of receivables from related companies;
- refinancing of existing debt and additional borrowings; and

- additional borrowings, including mortgage notes payable, and lines of credit.

It is important to realize that the current status of the banking industry has had a significant effect on our industry. The banks' willingness and/or ability to originate loans affects our ability to buy and sell property, and refinance existing debt. We are unable to foresee the extent and length of this down-turn. A continued and extended decline could materially impact our cash flows. We draw on multiple financing sources to fund our long-term capital needs. We generally fund our development projects with construction loans, which are converted to traditional mortgages upon completion of the project.

We may also issue additional equity securities, including common stock and preferred stock. Management anticipates that our cash at December 31, 2012, along with cash that will be generated in 2013 from property operations, may not be sufficient to meet all of our cash requirements. Management intends to selectively sell land and income producing assets, refinance or extend real estate debt and seek additional borrowings secured by real estate to meet its liquidity requirements. Although the past cannot predict the future, historically, management has been successful at refinancing and extending a portion of the Company's current maturity obligations and selling assets as necessary to meet current obligations.

Management reviews the carrying values of ARL's properties and mortgage notes receivable at least annually and whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. For notes receivable, impairment is considered to exist if it is probable that all amounts due under the terms of the note will not be collected. If impairment is found to exist, a provision for loss is recorded by a charge against earnings to the extent that the investment in the note exceeds management's estimate of the fair value of the collateral securing such note. The mortgage note receivable review includes an evaluation of the collateral property securing each note. The property review generally includes: (1) selective property inspections, (2) a review of the property's current rents compared to market rents, (3) a review of the property's expenses, (4) a review of maintenance requirements, (5) a review of the property's cash flow, (6) discussions with the manager of the property, and (7) a review of properties in the surrounding area.

#### Cash flow summary

The following summary discussion of our cash flows is based on the Consolidated Statements of Cash Flows in Part II, Item 8. "Consolidated Financial Statements and Supplementary Data" and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below (dollars in thousands).

	2012	2011	Variance
Net cash provided by (used in) operating activities	\$ (23,111 )	\$ 23,555	\$ (46,666 )
Net cash provided by investing activities	\$ 73,824	\$ 4,125	\$ 69,699
Net cash used in financing activities	\$ (53,884 )	\$ (20,015 )	\$ (33,869 )

The primary use of cash for operations is daily operating costs, general and administrative expenses, advisory fees, and land holding costs. Our primary source of cash from operating activities is from rental income on properties. We used significantly more cash to pay down accrued interest and other liabilities than in the prior period.

Our primary cash outlays for investing activities are for construction and development, acquisition of land and income producing properties, and capital improvements to existing properties. Our primary sources of cash from investing activities are from the proceeds on the sale of land and income-producing properties. During the current period, there was an increase in net cash provided by investing activities than in the prior period, mainly due to the increase in proceeds from and origination of notes receivable, proceeds from sales of income-producing properties and land and a decrease in the amount of cash used to develop new properties.

Our primary sources of cash from financing activities are from proceeds on notes payables. Our primary cash outlays are for recurring debt payments and payments on maturing notes payable. Proceeds from notes payable associated with the new loans and refinancing provided \$143.4 million. We used \$23.0 million to make recurring note payments and \$167.8 million for maturing notes, including payoffs required on sold properties.

#### Equity Investments.

ARL has from time to time purchased shares of IOT and TCI. The Company may purchase additional equity securities of IOT and TCI through open market and negotiated transactions to the extent ARL's liquidity permits.

Equity securities of TCI held by ARL (and of IOT held by TCI) may be deemed "restricted securities" under Rule 144 of the Securities Act of 1933 ("Securities Act"). Accordingly, ARL may be unable to sell such equity securities other than in a registered public offering or pursuant to an exemption under the Securities Act for a one-year period after they are acquired. Such restrictions may reduce ARL's ability to realize the full fair value of such investments if ARL

attempted to dispose of such securities in a short period of time.

## Contractual Obligations

We have contractual obligations and commitments primarily with regards to the payment of mortgages. The following table aggregates our expected contractual obligations and commitments and includes items not accrued, per Generally Accepted Accounting Principles, through the term of the obligation such as interest expense and operating leases. Our aggregate obligations subsequent to December 31, 2012 are shown in the table below (dollars in thousands):

	Total	2013	2014	2015-2017	Thereafter
Long-term debt obligation(1)	\$1,401,150	\$238,645	\$102,544	\$172,643	\$887,318
Capital lease obligation	-	-	-	-	-
Operating lease obligation	37,709	578	585	1,796	34,750
Purchase obligation	-	-	-	-	-
Other long-term debt liabilities reflected on the Registrant's	-	-	-	-	-
Balance Sheet under GAAP					
Total	\$1,438,859	\$239,223	\$103,129	\$174,439	\$922,068

(1) ARL's long-term debt may contain financial covenants that, if certain thresholds are not met, could allow the lender to accelerate principal payments or cause the note to become due immediately.

## Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, ARL may be potentially liable for removal or remediation costs, as well as certain other potential costs relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may seek recovery for personal injury associated with such materials.

Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on ARL's business, assets or results of operations.

## Inflation

The effects of inflation on ARL's operations are not quantifiable. Revenues from property operations tend to fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect the sales values of properties and the ultimate gains to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments and the cost of new financings as well as the cost of variable interest rate debt will be affected.

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

ARL's primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments that bear interest at variable rates that fluctuate with market interest rates and maturing debt that has to be refinanced. ARL's future operations, cash flow and fair values of financial instruments are also partially dependent on the then existing market interest rates and market equity prices.

As of December 31, 2012, our \$861.3 million debt portfolio consisted of approximately \$718.7 million of fixed-rate debt and approximately \$142.6 million of variable-rate debt with interest rates ranging from 2.0% to 12.5%. Our

overall weighted average interest rate at December 31, 2012 and 2011 was 5.09% and 6.39%, respectively.

ARL's interest rate sensitivity position is managed by the capital markets department. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. ARL's earnings are affected as changes in short-term interest rates affect its cost of variable-rate debt and maturing fixed-rate debt.

If market interest rates for variable-rate debt average 100 basis points more in 2013 than they did during 2012, ARL's interest expense would increase and net income would decrease by \$1.4 million. This amount is determined by considering the impact of hypothetical interest rates on ARL's borrowing cost. The analysis does not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate its exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in ARL's financial structure.

The following table contains only those exposures that existed at December 31, 2012. Anticipation of exposures of risk on positions that could possibly arise was not considered. ARL's ultimate interest rate risk and its effect on operations will depend on future capital market exposures, which cannot be anticipated with a probable assurance level (dollars are in thousands):

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of and  
Stockholders of American Realty Investors, Inc.  
Dallas, Texas

We have audited the accompanying consolidated balance sheets of American Realty Investors, Inc. and Subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of operations, stockholders' equity, and cash flows each for each of the years in the three-year period ended December 31, 2012. American Realty Investors, Inc.'s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 17, American Realty Investors, Inc.'s management intends to sell land and income producing properties and refinance or extend debt secured by real estate to meet the Company's liquidity needs.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of American Realty Investors, Inc. as of December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole. Schedules III and IV are presented for the purpose of complying with the Securities and Exchange Commission's rules and are not a required part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audits of the consolidated financial statements and, in our opinion, fairly state, in all material respects, the financial data required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

The accompanying Consolidated Financial Statements of American Realty Investors, Inc. and consolidated entities have been prepared in conformity with accounting principles generally accepted in the United States of America, the most significant of which are described in Note 1. "Organization and Summary of Significant Accounting Policies." The Notes to Consolidated Financial Statements are an integral part of the Consolidated Financial Statements. The data presented in the Notes to Consolidated Financial Statements are as of December 31 of each year and for the year then ended, unless otherwise indicated. Dollar amounts in tables are in thousands, except per share amounts.

Certain balances for 2010 and 2011 have been reclassified to conform to the 2012 presentation.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**FASB Accounting Standards Codification.** The Company presents its financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). In June 2009, the Financial Accounting Standards Board ("FASB") completed its accounting guidance codification project. The FASB Accounting Standards Codification ("ASC") became effective for the Company's financial statements issued subsequent to June 30, 2009 and is the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. As of the effective date, the company refers to the ASC Codification as the sole source of authoritative literature.

**Organization and business.** ARL was organized in 1999. In August 2000, the Company acquired American Realty Trust, Inc., a Georgia corporation ("ART") and National Realty L.P.; a Delaware limited partnership ("NRLP"). ART was the successor to a District of Columbia business trust organized in 1961. The business trust was merged into ART in 1988. NRLP was organized in 1987 and subsequently acquired all of the assets and assumed all of the liabilities of several public and private limited partnerships. NRLP also owned a portfolio of real estate and mortgage loan investments. ARL is a "C" corporation for U.S. federal income tax purposes.

The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange ("NYSE") under the symbol ("ARL"). Approximately 87.4% of ARL's stock is owned by related party entities. ARL subsidiaries own approximately 83.8% of the outstanding shares of common stock of Transcontinental Realty Investors, Inc., a Nevada corporation ("TCI") whose common stock is traded on the New York Stock Exchange ("NYSE") under the symbol ("TCI"). ARL has consolidated TCI's accounts and operations since March 2003.

TCI, a subsidiary of ARL, owns approximately 81.1% of the common stock of Income Opportunity Realty Investors, Inc. ("IOT"). Effective July 17, 2009, IOT's financial results were consolidated with those of ARL and TCI and their subsidiaries. IOT's common stock is traded on the New York Stock Exchange Euronext ("NYSE MKT") under the symbol ("IOT").

ARL's Board of Directors represents the Company's shareholders and is responsible for directing the overall affairs of ARL and for setting the strategic policies that guide the Company. As of April 30, 2011, the Board of Directors delegated the day-to-day management of the Company to Pillar Income Asset Management, LLC, a Nevada limited liability company ("Pillar") under a written Advisory Agreement that is reviewed annually by ARL's Board of Directors. The directors of ARL are also directors of TCI and IOT. The Chairman of the Board of Directors of ARL also serves as the Chairman of the Board of Directors of TCI and IOT. The officers of ARL also serve as officers of TCI, IOT and Pillar.

Effective since April 30, 2011, Pillar, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is Realty Advisors, Inc., a Nevada corporation, the sole shareholder of which is Realty Advisors Management, Inc., a Nevada corporation, the sole shareholder of which is a trust known as the May Trust, became the Company's external Advisor and Cash Manager. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities. Pillar also arranges, for the Company's benefit, debt and equity financing with third party lenders and investors. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees. Employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement. Prime Income Asset Management, LLC ("Prime") served as the Company's contractual Advisor prior to April 30, 2011.

Effective since January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC ("Regis"), the sole member of which is Realty Advisors, LLC, manages our commercial and hotel properties, and provides brokerage services. Regis receives property management fees and leasing commissions in accordance with the terms of its property-level management agreement. Regis is also entitled to receive real estate brokerage commissions in accordance with the terms of a non-exclusive brokerage agreement. See Part III, Item 10. "Directors, Executive Officers and Corporate Governance – Property Management and Real Estate Brokerage". Prior to December 31, 2010, Triad Realty Services, L.P. ("Triad"), provided management services for our commercial properties. Triad subcontracted the property-level management and leasing of our commercial properties (office buildings, shopping centers and industrial warehouses) to Regis Realty I, LLC ("Regis I"). Regis Hotel I, LLC, managed the Company's hotel investments. ARL engages third-party companies to lease and manage its apartment properties.

The Company's subsidiary, TCI, has a development agreement with Unified Housing Foundation, Inc. ("UHF") a non-profit corporation that provides management services for the development of residential apartment projects in the future. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. Due to this ongoing relationship and the significant investment in the performance of the collateral secured under the notes receivable, UHF has been determined to be a related party.

Our primary business is the acquisition, development and ownership of income-producing residential and commercial real estate properties. In addition, we opportunistically acquire land for future development in in-fill or high-growth suburban markets. From time to time and when we believe it appropriate to do so, we will also sell land and income-producing properties. We generate revenues by leasing apartment units to residents, and leasing office, industrial and retail space to various for-profit businesses as well as certain local, state and federal agencies, and renting hotel rooms to guests. We also generate revenues from gains on sales of income-producing properties and land. At December 31, 2012, we owned 48 residential apartment communities comprising of 8,873 units, 14 commercial properties comprising an aggregate of approximately 3.7 million square feet, an investment in 4,657 acres of undeveloped and partially developed land.

**Basis of presentation.** The accompanying Consolidated Financial Statements include our accounts, our subsidiaries, generally all of which are wholly-owned, and all entities in which we have a controlling interest. Arrangements that are not controlled through voting or similar rights are accounted for as a Variable Interest Entity (VIE), in accordance with the provisions and guidance of ASC Topic 810 "Consolidation", whereby we have determined that we are a primary beneficiary of the VIE and meet certain criteria of a sole general partner or managing member as identified in accordance with Emerging Issues Task Force ("EITF") Issue 04-5, Investor's Accounting for an Investment in a Limited Partnership when the Investor is the Sole General Partner and the Limited Partners have Certain Rights ("EITF 04-5"). VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders as a group lack adequate decision making ability, the obligation to absorb expected losses or residual returns of the entity, or have voting rights that are not proportional to their economic interests. The primary beneficiary generally is the entity that provides financial support and bears a majority of the financial risks, authorizes certain capital transactions, or makes operating decisions that materially affect the entity's financial results. All significant intercompany balances and transactions have been eliminated in consolidation.

In determining whether we are the primary beneficiary of a VIE, we consider qualitative and quantitative factors, including, but not limited to: the amount and characteristics of our investment; the obligation or likelihood for us or other investors to provide financial support; our and the other investors' ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of us and the other investors. Significant judgments related to these determinations include estimates about the current future fair values and performance of real estate held by these VIEs and general market conditions.

For entities in which we have less than a controlling financial interest or entities where it is not deemed to be the primary beneficiary, the entities are accounted for using the equity method of accounting. Accordingly, our share of the net earnings or losses of these entities is included in consolidated net income. Our investment in Gruppa Florentina, LLC is accounted for under the equity method. Our investments in Garden Centura, L.P. and LK-Four Hickory, LLC were accounted for under the equity method until December 28, 2011 and January 17, 2012, respectively, when the investments were sold.

**Real estate, depreciation, and impairment.** Real estate assets are stated at the lower of depreciated cost or fair value, if deemed impaired. Major replacements and betterments are capitalized and depreciated over their estimated useful lives. Depreciation is computed on a straight-line basis over the useful lives of the properties (buildings and improvements—10-40 years; furniture, fixtures and equipment—5-10 years). We continually evaluate the recoverability of the carrying value of its real estate assets using the methodology prescribed in ASC Topic 360, "Property, Plant and

Equipment,” Factors considered by management in evaluating impairment of its existing real estate assets held for investment include significant declines in property operating profits, annually recurring property operating losses and other significant adverse changes in general market conditions that are considered permanent in nature. Under ASC Topic 360, a real estate asset held for investment is not considered impaired if the undiscounted, estimated future cash flows of an asset (both the annual estimated cash flow from future operations and the estimated cash flow from the theoretical sale of the asset) over its estimated holding period are in excess of the asset’s net book value at the balance sheet date. If any real estate asset held for investment is considered impaired, a loss is provided to reduce the carrying value of the asset to its estimated fair value.

Any properties that are treated as “subject to sales contract” on the Consolidated Balance Sheets and are listed in detail in Schedule III, “Real Estate and Accumulated Depreciation” are those in which we have not recognized the legal sale according to the guidance in ASC 360-20 due to various factors, disclosed in each sale transaction under Item 1 Significant Real Estate Acquisitions/Dispositions and Financing. Any sale transaction where the guidance reflects that a sale had not occurred, the asset involved in the transaction, including the debt and property operations, remained on the books of the Company. We continue to charge depreciation to expense as a period costs for the property until such time as the property has been classified as held for sale in accordance with guidance reflected in ASC 360-10-45 “Impairment or Disposal of Long-Lived Assets”.

**Real estate held for sale.** We periodically classify real estate assets as held for sale. An asset is classified as held for sale after the approval of the Company's board of directors and after an active program to sell the asset has commenced. Upon the classification of a real estate asset as held for sale, the carrying value of the asset is reduced to the lower of its net book value or its estimated fair value, less costs to sell the asset. Subsequent to the classification of assets as held for sale, no further depreciation expense is recorded. Real estate assets held for sale are stated separately on the accompanying consolidated balance sheets. Upon a decision to no longer market as an asset for sale, the asset is classified as an operating asset and depreciation expense is reinstated. The operating results of real estate assets held for sale and sold are reported as discontinued operations in the accompanying statements of operations. Income from discontinued operations includes the revenues and expenses, including depreciation and interest expense, associated with the assets. This classification of operating results as discontinued operations applies retroactively for all periods presented. Additionally, gains and losses on assets designated as held for sale are classified as part of discontinued operations.

**Cost Capitalization.** The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to planning, developing, initial leasing and constructing a property are capitalized and classified as Real Estate in the Consolidated Balance Sheets. Capitalized development costs include interest, property taxes, insurance, and other direct project costs incurred during the period of development.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by ASC Topic 835-20 "Interest – Capitalization of Interest" and ASC Topic 970 "Real Estate - General". The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

We capitalize leasing costs which include commissions paid to outside brokers, legal costs incurred to negotiate and document a lease agreement and any internal costs that may be applicable. We allocate these costs to individual tenant leases and amortize them over the related lease term.

**Fair value measurement.** We apply the guidance in ASC Topic 820, "Fair Value Measurements and Disclosures," to the valuation of real estate assets. These provisions define fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants at the measurement date, establish a hierarchy that prioritizes the information used in developing fair value estimates and require disclosure of fair value measurements by level within the fair value hierarchy. The hierarchy gives the highest priority to quoted prices in active markets (Level 1 measurements) and the lowest priority to unobservable data (Level 3 measurements), such as the reporting entity's own data.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date and includes three levels defined as follows:

Level —Unadjusted quoted prices for identical and unrestricted assets or liabilities in active  
1 markets.

Level 2—Quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3—Unobservable inputs that are significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Related parties. We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

**Recognition of revenue.** Our revenues, which are composed largely of rental income, include rents reported on a straight-line basis over the lease term. In accordance with ASC 805 “Business Combinations”, we recognize rental revenue of acquired in-place “above-” and “below-market” leases at their fair values over the terms of the respective leases.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a “gross” basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less. For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered. An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

Sales and the associated gains or losses of real estate assets are recognized in accordance with the provisions of ASC Topic 360-20, “Property, Plant and Equipment – Real Estate Sale”. The specific timing of a sale is measured against various criteria in ASC 360-20 related to the terms of the transaction and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, the Company defers some or all of the gain recognition and accounts for the continued operations of the property by applying the finance, leasing, deposit, installment or cost recovery methods, as appropriate, until the sales criteria are met.

**Foreign currency translation.** Foreign currency denominated assets and liabilities of subsidiaries with local functional currencies are translated to United States dollars at year-end exchange rates. The effects of translation are recorded in the cumulative translation component of shareholders’ equity. Subsidiaries with a United States dollar functional currency re-measure monetary assets and liabilities at year-end exchange rates and non-monetary assets and liabilities at historical exchange rates. The effects of re-measurement are included in income. Exchange gains and losses arising from transactions denominated in foreign currencies are translated at average exchange rates.

**Non-performing notes receivable.** ARL considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments in accordance with the terms of the agreement.

**Interest recognition on notes receivable.** We record interest income as earned in accordance with the terms of the related loan agreements. Prior to January 1, 2012, on cash flow notes where payments are based upon surplus cash from operations, accrued but unpaid interest income was only recognized to the extent that cash was received. As of January 1, 2012, due to the consistency of cash received on the surplus cash notes, we are recording interest as earned.

**Allowance for estimated losses.** We assess the collectability of notes receivable on a periodic basis, of which the assessment consists primarily of an evaluation of cash flow projections of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We recognize impairments on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. The amount of the impairment to be recognized generally is based on the fair value of the partnership’s real estate that represents the primary source of loan repayment. See Note 3 for details on our Notes Receivable.

**Cash equivalents.** For purposes of the Consolidated Statements of Cash Flows, all highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents.

**Earnings per share.** Income (loss) per share is presented in accordance with ASC 620 “Earnings per Share”. Income (loss) per share is computed based upon the weighted average number of shares of common stock outstanding during each year.

**Use of estimates.** In the preparation of Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America, it is necessary for management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expense for the year ended. Actual results could differ from those estimates.

**Income Taxes.** ARL is a “C Corporation for U.S. federal income tax purposes. For tax periods ending before August 31, 2012, ARL filed an annual consolidated income tax return with TCI and IOT and their subsidiaries. ARL was the common parent for the consolidated group. After that date, ARL and the rest of the American Realty Investors, Inc. group joined the Realty Advisors Management, Inc. (“RAMI”) consolidated group for tax purposes. The income tax expense (benefit) for the 2010 and 2011 tax periods in the accompanying financial statement was calculated under a tax sharing and compensating agreement between ARL, TCI and IOT. That agreement continued until August 31, 2012 at which time a new tax sharing and compensating agreement was entered into by ARL, TCI, IOT and RAMI for the remainder of 2012. The agreement specifies the manner in which the group will share the consolidated tax liability and also how certain tax attributes are to be treated among members of the group.

Recent Accounting Pronouncements. There were no recent accounting pronouncements that our company has not implemented that materially affect our financial statements.

Depreciation is computed on a straight line basis over the estimated useful lives of the assets as follows:

Land improvements	25 to 40 years
Buildings and improvements	10 to 40 years
Tenant improvements	Shorter of useful life or terms of related lease
Furniture, fixtures and equipment	3 to 7 years

### Provision for Impairment Losses

The provision for impairment of notes receivable, investment in real estate partnerships, and real estate assets was \$4.7 million for the period ended December 31, 2012. This was a decrease of \$39.7 million as compared to the prior year expense of \$44.4 million. In the current year, impairment was recorded as an additional loss in the commercial and land portfolios. In our commercial portfolio, an impairment reserve of \$2.4 million was taken in response to a deficiency agreement with the existing lender. The agreed upon deficiency, in the event the lender takes possession of the property, was the basis upon which fair value was calculated and an impairment reserve was taken for the difference in basis over fair value. The remaining \$2.3 million in impairment reserves were related to our land holdings. A current year sale of adjacent land determined the fair value on a Waco, Texas land holding that resulted in an impairment reserve of \$1.2 million, a comparable sale determined the fair value of a Florida land holding that resulted in an impairment reserve of \$0.5 million and a recent appraisal determined the fair value of an Arkansas land holding that resulted in an impairment reserve of \$0.6 million.

In the prior period, impairment was recorded as an additional loss in the investment portfolio of \$5.2 million in the apartment properties we currently hold, \$2.0 million in commercial properties we currently hold, \$2.4 million in land parcels we currently hold, \$24.4 million in land that was sold subsequent to the prior period, \$0.4 million in

impairment on our investments in joint ventures and a \$10.0 million reserve related to the assets held by American Realty Trust, Inc. at December 31, 2011. Of the impairment reserves taken in the prior period, \$20.0 million was related to the land holdings that were part of an overall strategic debt restructuring plan resulting in the disposal of the land for less than the market value, \$10.0 million was related to a seller financed note whose recovery is questionable, \$8.8 million was related to a third party sales contract that was executed during the prior period for less than the carrying value, \$5.2 million was related to the underperformance of property using a valuation analysis based upon a multiple of earnings and \$0.4 million was related to various investment in joint ventures that had were determined to have a questionable recovery of our investment.

## Fair Value Measurement

The Company applies the guidance in ASC Topic 820, "Fair Value Measurements and Disclosures," to the valuation of real estate assets. The Company is required to assess the fair value of its consolidated real estate assets with indicators of impairment. The value of impaired real estate assets is determined using widely accepted valuation techniques, including discounted cash flow analyses on the expected cash flow of each asset, as well as the income capitalization approach, which considers prevailing market capitalization rates, analyses of recent comparable sales transactions, information from actual sales negotiations and bona fide purchase offers received from third parties. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting.

The fair value measurements used in these evaluations are considered to be Level 2 and 3 valuations within the fair value hierarchy in the accounting rules, as there are significant observable (Level 2) and unobservable inputs (Level 3). Examples of Level 2 inputs the Company utilizes in its fair value calculations are appraisals and bona fide purchase offers from third parties. Examples of Level 3 inputs the Company utilizes in its fair value calculations are discount rates, market capitalization rates, expected lease rental rates, timing of new leases, an estimate of future sales prices and comparable sales prices of similar assets, if available. All of the impairment charges outlined above were recorded in the statements of operations, either in continuing operations or discontinued operations.

The following is a brief description of the more significant property sales in 2012:

On January 3, 2012, TCI's 82.2 acres of land known as Denton Coonrod land located in Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on March 23, 2011, to Cross County National Associates, LP, a related party, for a sales price of \$1.8 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 3, 2012 at a sales price equal to the existing mortgage of \$0.8 million, that was considered paid in full when ownership transferred to the existing lender. TCI recorded a gain on sale of \$0.04 million on the land parcel sale.

On January 17, 2012, we sold 100% of our stock in American Realty Trust, Inc., to One Realco Corporation, a related party, for a sales price of \$10.0 million. We provided \$10.0 million in seller-financing with a five-year note receivable. The note accrues interest at 3.00% and is payable at maturity on January 17, 2017. The note is fully reserved by the Company. Subsequent to the sale, ART filed for Chapter 11 bankruptcy protection.

On February 2, 2012, TCI and its subsidiary, 1340 Poydras, LLC, executed a guarantor settlement and consent agreement with the lender for the Amoco building, Petra CRE CDO 2007-1, Ltd ("Petra") to transfer ownership of the Amoco building to a new entity, 1340 Owner, LLC, which is affiliated with the existing lender, Petra. Petra and its affiliate are independent third parties. Regis will continue to manage the property while under Petra's ownership and TCI will have an option to re-acquire the property during the option term which shall end two years following the commencement of the agreement. We have deferred the recognition of the sale in accordance with ASC 360-20 due to our continuing involvement related to the obligations under the note and guaranty agreements and the re-acquisition option.

On February 7, 2012, TCI's 22.92 acres of land known as Andrew B land, Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related

party, for a sales price of \$1.3 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on February 7, 2012, when the Company received a credit against the outstanding debt of \$2.1 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$1.2 million on the land parcel sale.

On February 23, 2012, TCI sold a 220-unit apartment complex known as Wildflower Villas apartments located in Temple, Texas to an independent third party, for a sales price of \$19.6 million. The buyer assumed the existing debt of \$13.7 million secured by the property. TCI recorded a gain on sale of \$3.6 million on the apartment sale.

On February 27, 2012, we re-purchased 100% interest in Cross County National Associates, LP from ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for a sales price of \$9.5 million. This entity owns a 307,266 square foot retail center known as Cross County Mall located in Mattoon, Illinois. We assumed the existing mortgage of \$9.2 million, secured by the property. On March 22, 2011, we sold our ownership in Cross County National Associates, LP to ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for an amount equal to the re-purchase price. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. Upon re-purchasing the ownership interests in the current period, the seller-financing note of \$0.3 million was cancelled. There is no change in the financial statements related to the March 22, 2011 sale or the subsequent re-acquisition.

On March 1, 2012, TCI sold 100% of our interests in LaDue, LLC to ABC Land & Development, Inc., a related party, for a sales price of \$1.9 million. This entity owns 8.01 acres of land known as LaDue land located in Dallas County, Texas. We provided \$1.3 million in seller-financing with a five-year note receivable. The note accrues interest at 5% and is payable at maturity on March 1, 2017. The buyer assumed the existing mortgage of \$0.6 million, secured by the property. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. On August 10, 2012, TCI re-purchased 100% of the membership interests in LaDue, LLC from ABC Land & Development, Inc., a related party, for \$1.9 million to be paid by assumption of debt of \$0.6 million, secured by the property, and cancellation of a five-year seller-financed note of \$1.3 million. There is no change in the financial statements related to the March 1, 2012 sale or the subsequent re-acquisition.

On March 5, 2012, TCI's 7.39 acres of land known as DeSoto Ranch land located in DeSoto, Texas was transferred to the existing lender. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related party, for a sales price of \$1.3 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. In December 2010, there were various commercial and land holdings sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2012, there is one commercial building, Thermalloy that remains in FRE Real Estate, Inc. We have deferred the recognition of the sales in accordance with ASC 360-20 due to our continuing involvement, the buyer's inadequate initial investment and questionable recovery of the Company's investment cost.

The properties that we have sold to a related party and have deferred the recognition of the sale are treated as “subject to sales contract” on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. We have reviewed each asset and taken impairment to the extent we feel the value of the property was less than our current basis.

Sales to our subsidiary, TCI, have been reflected, in prior years, at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL’s cost basis in the asset at the time of the sale. The related party payables from TCI were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

On February 29, 2012, we received \$3.3 million from UHF as payoff for the \$3.0 note receivable due from UHF, related to Cliffs of El Dorado and \$0.3 million in accrued interest.

**Junior Mortgage Loans.** We may invest in junior mortgage loans, secured by mortgages that are subordinate to one or more prior liens either on the fee or a leasehold interest in real estate. Recourse on such loans ordinarily includes the real estate on which the loan is made, other collateral and personal guarantees by the borrower. At December 31, 2012, 10.47% of our assets were invested in junior and wraparound mortgage loans.

We record interest income as earned in accordance with the terms of the related loan agreements. Prior to January 1, 2012, on cash flow notes where payments are based upon surplus cash from operations, accrued but unpaid interest income was only recognized to the extent cash is received. As of January 1, 2012, due to the consistency of cash received on the surplus cash notes, we are recording interest as earned.

As of December 31, 2012, the obligors on \$108.7 million or 91.2% of the mortgage notes receivable portfolio were due from related parties. Also at that date, \$3.9 million or 3.2% of the mortgage notes receivable portfolio was non-performing.

#### NOTE 4. ALLOWANCE FOR ESTIMATED LOSSES

The allowance account was reviewed and additional allowances were recorded for receivables in 2012. The increase was related to a reserve taken on a related party note receivable due to questionable recovery, reduced by the amounts of two notes that were written off in the current year, both of which were fully reserved. The decrease in 2011 was due to loan payments that had allowances. The allowance account was reviewed and increased in 2010. The table below shows our allowance for estimated losses (dollars in thousands):

	2012	2011	2010
Balance January 1,	\$ 13,383	\$ 14,348	\$ 11,836

## NOTE 8. RELATED PARTY TRANSACTIONS AND FEES

We apply ASC Topic 805, "Business Combinations", to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

The Company has historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in our best interest.

("UHF") a non-profit corporation that provides management services for the development of residential apartment projects in the future. The Company has also invested in surplus cash notes receivables from UHF and has sold several residential apartment properties to UHF in prior years. performance of the collateral secured under the notes receivable, UHF has been determined to be a related party. The Company received \$6 million in revenue, in the current period, from the development agreement.

The Company is part of a tax sharing and compensating agreement with respect to federal income taxes between ARL, TCI and IOT and their subsidiaries that was entered into in July of 2009. That agreement continued until August 31, 2012 at which time a new tax sharing and compensating agreement was entered into by ARL, TCI IOT and RAMI for the remainder of 2012. Below are property sales that involve a related party:

On January 3, 2012, TCI's 82.2 acres of land known as Denton Coonrod land located in Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on March 23, 2011, to Cross County National Associates, LP, a related party, for a sales price of \$1.8 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 3, 2012 at a sales price equal to the existing mortgage of \$0.8 million, that was considered paid in full when ownership transferred to the existing lender. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on February 7, 2012, when the Company received a credit against the outstanding debt of \$2.1 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$1.2 million on the land parcel sale.

On February 27, 2012, we re-purchased 100% interest in Cross County National Associates, LP from ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for a sales price of \$9.5 million. Upon re-purchasing the ownership interests in the current period, the seller-financing note of \$0.3 million was cancelled. There is no change in the financial statements related to the March 22, 2011 sale or the subsequent re-acquisition.

The note accrues interest at 5% and is payable at maturity on March 1, 2017. The buyer assumed the existing mortgage of \$0.6 million, secured by the property. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. On December 31, 2012, TCI sold 100% of the stock in T Southwood 1394, Inc., to One Realco Corporation, a related party, for a sales price of \$0.6 million. In December 2010, there were various commercial and land holdings sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2012, there is one commercial building, Thermalloy that remains in FRE Real Estate, Inc. We have deferred the recognition of the sales in accordance with ASC 360-20 due to our continuing involvement, the buyer's inadequate initial investment and questionable recovery of the Company's investment cost.

The properties that we have sold to a related party and have deferred the recognition of the sale are treated as "subject to sales contract" on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. We have reviewed each asset and taken impairment to the extent we feel the value of the property was less than our current basis.

Sales to our subsidiary, TCI, have previously been reflected at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL's cost basis in the asset at the time of the sale. The related party payables from TCI were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

Future distributions to common stockholders will be determined by the Board of Directors in light of conditions then existing, including the Company's financial condition and requirements, future prospects, restrictions in financing agreements, business conditions and other factors deemed relevant by the Board.

#### NOTE 12. INCOME TAXES

For tax periods ending before August 31, 2012, ARL was part of the American Realty Investors, Inc. consolidated federal return. After that date, ARL and the rest of the American Realty Investors, Inc. group joined the Realty Advisors Management, Inc. (RAMI) consolidated group for tax purposes. The income tax expense (benefit) for 2010 and 2011 tax periods in the accompanying financial statement was calculated under a tax sharing and compensating agreement between ARL, TCI and IOT. That agreement continued until August 31, 2012 at which time a new tax sharing and compensating agreement was entered into by ARL, TCI, IOT and RAMI for the remainder of 2012. For 2012, ARL, TCI and IOT had a combined net taxable loss and ARL recorded no current tax (benefit) or expense. There was no deferred tax expense (benefit) recorded for 2012, 2011 or 2010 as a result of the uncertainty of the future use of the deferred tax asset.

The Federal income tax expense differs from the amount computed by applying the corporate tax rate of 35% to the income before income taxes as follows:

At December 31, 2012, 2011 and 2010 ARL had a net deferred tax asset due to tax deductions available to it in future years. However, as management could not determine that it was more likely than not that ARL would realize the benefit of the deferred tax asset, a 100% valuation allowance was established.

ARL has prior tax net operating losses and capital loss carryforwards of approximately \$68.0 million expiring through the year 2031.

Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed which would mean that the Company's Forms 1120, U.S. Corporation Income Tax Returns, for the years ending December 31, 2011, 2010 and 2009 are still subject to examination by the IRS.

#### NOTE 13. FUTURE MINIMUM RENTAL INCOME UNDER OPERATING LEASES

ARL's operations include the leasing of commercial properties (office buildings, industrial warehouses and shopping centers). The leases, thereon, expire at various dates through 2023. The following is a schedule of minimum future rents due to ARL under non-cancelable operating leases as of December 31, 2012 (dollars in thousands):

Year	Amount

#### NOTE 14. OPERATING SEGMENTS

Our segments are based on management's method of internal reporting which classifies its operations by property type. The segments are commercial, apartments, hotels, land and other. Significant differences among the accounting policies of the operating segments as compared to the Consolidated Financial Statements principally involve the calculation and allocation of administrative and other expenses. Management evaluates the performance of each of the operating segments and allocates resources to them based on their net operating income and cash flow.

Items of income that are not reflected in the segments are interest, other income, gain on debt extinguishment, gain on condemnation award, equity in partnerships, and gains on sale of real estate. Expenses that are not reflected in the segments are provision for losses, advisory, net income and incentive fees, general and administrative, non-controlling interests, foreign currency transaction loss and net loss from discontinued operations before gains on sale of real estate.

The segment labeled as “Other” consists of revenue and operating expenses related to the notes receivable and corporate debt.

Presented below is the operating income of each operating segment and each segment’s assets for 2012, 2011 and 2010 (dollars in thousands):

#### NOTE 15. DISCONTINUED OPERATIONS

The Company applies the provisions of ASC Topic 360 "Property, Plant and Equipment." ASC Topic 360 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

Discontinued operations relates to properties that were either sold or repositioned as held for sale as of the year ended 2012, 2011 and 2010. Income from discontinued operations relates to 7, 27, and 38 properties that were sold or repositioned in 2012, 2011 and 2010, respectively. The following table summarizes revenue and expense information for these properties sold and held for sale (dollars in thousands):

Tax expense	(2,474 )	(15,672 )	(1,034 )
Income from discontinued operations	\$4,594	\$29,104	\$1,921

The Company's application of ASC Topic 360 results in the presentation of the net operating results of these qualifying properties sold or held for sale during 2011, 2010 and 2009 as income from discontinued operations. The application of ASC Topic 360 does not have an impact on net income available to common shareholders. ASC Topic 360 only impacts the presentation of these properties within the Consolidated Statements of Operations.

#### NOTE 16. QUARTERLY RESULTS OF OPERATIONS

The following is a tabulation of quarterly results of operations for the years 2012, 2011, and 2010. Quarterly results presented differ from those previously reported in ARL's Form 10-Q due to the reclassification of the operations of properties sold or held for sale to discontinued operations in accordance with ASC topic 360:

#### NOTE 17. COMMITMENTS, CONTINGENCIES, AND LIQUIDITY

In conjunction with its sale of Four Hickory in November 2007, the Company agreed to fund amounts to satisfy its commitment to compensate LK-Four Hickory, LLC for move-in discounts and other concessions to existing tenants at the time of sale. The Company also has various agreements with LK-Four Hickory, LLC related to the funding of projection shortfalls, which, to date, they have not had to provide any additional funding. In addition, related parties of the Company have active lease agreements with LK-Four Hickory, LLC and the Company has since guaranteed amounts related to certain of these leases.

On December 17, 2007, both Limkwang Nevada, Inc., the majority owner of LK-Four Hickory, LLC, and ARL unconditionally guaranteed the punctual payment when due, whether at stated maturity, by acceleration or hereafter, including all fees and expenses incurred by the bank on collection of a \$28.0 million note payable for LK-Four Hickory, LLC, which has a current outstanding balance of \$23.8 million.

The Company's investment in LK-Four Hickory, LLC at January 17, 2012 was sold and the Company has additional reserves for estimated potential amounts it could be looked to if various related parties are not able to meet their obligations to LK Four Hickory, LLC. The Company will continue to evaluate these potential estimates and also the likelihood of having to fund any of these and adjust their reserves accordingly.

**Liquidity.** Management believes that ARL will generate excess cash flow from property operations in 2013, such excess however, will not be sufficient to discharge all of ARL's obligations as they became due. Management intends to sell land and income producing real estate, refinance real estate and obtain additional borrowings primarily secured by real estate to meet its liquidity requirements.

**Partnership Buyouts.** ARL is the limited partner in various partnerships related to the construction of residential properties. As permitted in the respective partnership agreements, ARL intends to purchase the interests of the general and any other limited partners in these partnerships subsequent to the completion of these projects. The amounts paid to buyout the nonaffiliated partners are limited to development fees earned by the nonaffiliated partners, and are set forth in the respective partnership agreements.

The ownership of property and provision of services to the public as tenants entails an inherent risk of liability. Although the Company and its subsidiaries are involved in various items of litigation incidental to and in the ordinary course of its business, in the opinion of Management, the outcome of such litigation will not have a material adverse impact upon the Company's financial condition, results of operation or liquidity.

**Litigation.** The Company is involved in and vigorously defending against, a number of deficiency claims with respect to assets that have been foreclosed by various lenders. Such claims are generally against a consolidated subsidiary as the borrower or the Company as a guarantor of indebtedness or performance. Some of these proceedings may ultimately result in an unfavorable determination for the Company and/or one of its consolidated subsidiaries. While we cannot predict the final result of such proceedings, Management believes that the maximum exposure to the Company and its consolidated subsidiaries, if any, will not exceed approximately \$20 million in the aggregate and will occur, if at all, in future years.

ART and its subsidiary ART Midwest, Inc have been engaged in litigation with a Mr. David Clapper and companies related to Mr. Clapper (The "Clapper Entities") since 1999. The origins of the matter began in 1998 in a transaction in which ART Midwest was to acquire eight apartments from the Clapper Entities. Through the years there have been rulings both for and against ART in this matter. However in October 2011, a final ruling was issued whereby the Clapper Entities were awarded approximately \$74 million including \$26 million in damages and \$48 million in interest. This ruling was against ART and its subsidiary ART Midwest and not the Company or any other subsidiary of the Company.

ART believes there were serious errors in the judge's ruling and has filed an appeal of the judge's ruling. ART further believes that should the Clapper Entities ultimately prevail that it has claims against a third party who was involved in this matter. These claims cannot be pursued until the main case with the Clapper Group is ultimately resolved.

Should the Clapper Group ultimately prevail the only defendants in this matter are ART and ART Midwest, Inc. whose total assets and net worth as of December 31, 2011 was approximately \$10 million. Neither the Company nor any of its subsidiaries other than ART have guaranteed or indemnified either ART or ART Midwest, Inc.

In January 2012, the Company sold all of the issued and outstanding stock of American Realty Trust ("ART") for a \$10 million note. The note is fully reserved by the Company and valued at zero. Subsequent to the sale ART filed for Chapter 11 bankruptcy protection.

ARL, through a foreign subsidiary, is developing a maritime harbor town on the 420 acre site of the former naval base of Olpenitz in Kappeln, Germany. The project is located less than 30 miles from the Denmark border. The town will comprise of a marina offering several thousand moorings, premium vacation homes each with their own landing stage as well as exclusive hotels, restaurants, shops and a range of leisure activities from sailing to golfing to cross country skiing. The development project is expected to be the biggest holiday resort in northern Europe. There were been disputes with the local partner related to his mismanagement of the project which resulted in replacing him as the managing partner and led to filing for bankruptcy protection in Germany to completely remove him from the project. An insolvency manager has been put into place in order to protect the creditors, and ARL believes that the value of the land and development in process will satisfy the existing creditors and return ARL's investment. ARL is working in cooperation with the insolvency manager and expects to continue ARL's involvement in the development of this project.

ARL is also involved in various other lawsuits arising in the ordinary course of business. Management is of the opinion that the outcome of these lawsuits will have no material impact on ARL's financial condition, results of operations or liquidity.

NOTE 18. EARNINGS PER SHARE

Earnings per share, "EPS", have been computed pursuant to the provisions of ASC Topic 260 "Earnings Per Share." The computation of basic EPS is calculated by dividing net income available to common shareholders from continuing operations, adjusted for preferred dividends, by the weighted-average number of common shares outstanding during the period. Shares issued during the period shall be weighted for the portion of the period that they were outstanding. We have 3,353,954 shares of Series A 10.0% Cumulative Convertible Preferred Stock, which are outstanding. These shares may be converted into common stock at 90.0% of the average daily closing price of the common stock for the prior 20 trading days. These are considered in the computation of diluted earnings per share if the effect of applying the "if-converted" method is dilutive. The majority of the stock options issued expired July 1, 2008. As of December 31, 2012, we have 1,000 shares of stock options outstanding. These options will expire January 1, 2015, if not exercised. The outstanding options are considered in the computation of diluted earnings per share if the effect of applying the "treasury stock" method is dilutive. As of December 31, 2012, the preferred stock and the stock options were anti-dilutive and therefore not included in the EPS calculation.

NOTE 19. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 29, 2013, the date the financial statements were available to be issued.

On January 8, 2013, TCI's 14.52 acres of land known as Southwood located in Tallahassee, Florida was sold at a foreclosure auction to a third party for \$0.5 million. This land parcel was previously sold, on December 31, 2012, to One Realco Corporation, a related party, for a sales price of \$0.6 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 8, 2013, when the property was sold to a third party and sales proceeds were credited against the outstanding debt. TCI will not record a gain or loss on the land parcel sale.

On January 24, 2013, TCI refinanced the existing mortgage on Breakwater Bay apartments, a 176-unit complex located in Beaumont, Texas, for a new mortgage of \$9.8 million. TCI paid off the existing mortgage of \$9.1 million and \$0.7 million in closing costs and escrows. The note accrues interest at 2.50% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on February 1, 2053.

On January 25, 2013, TCI refinanced the existing mortgage on Northside on Travis apartments, a 200-unit complex located in Sherman, Texas, for a new mortgage of \$13.9 million. TCI paid off the existing mortgage of \$13.5 million and \$1.3 million in closing costs and escrows. The note accrues interest at 2.50% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on February 1, 2053.

On January 28, 2013, TCI refinanced the existing mortgage on Capitol Hill apartments, a 156-unit complex located in Little Rock, Arkansas, for a new mortgage of \$9.4 million. TCI paid off the existing mortgage of \$8.8 million and \$0.6 million in closing costs and escrows. The note accrues interest at 2.50% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on February 1, 2053.

On January 28, 2013, TCI sold a 314-unit apartment complex known as Verandas at City View located in Fort Worth, Texas to an independent third party, for a sales price of \$25.3 million. The buyer assumed the existing debt of \$18.2 million secured by the property. TCI recorded a gain of \$6.2 million on the sale.

On February 25, 2013, TCI refinanced the existing mortgage on Mansions of Mansfield apartments, a 208-unit complex located in Mansfield, Texas, for a new mortgage of \$16.3 million. TCI paid off the existing mortgage of \$15.8 million and \$1.4 million in closing costs and escrows. The note accrues interest at 2.50% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on March 1, 2053.

On February 25, 2013, TCI refinanced the existing mortgage on Preserve at Pecan Creek apartments, a 192-unit complex located in Denton, Texas, for a new mortgage of \$15.1 million. TCI paid off the existing mortgage of \$14.6 million and \$1.2 million in closing costs and escrows. The note accrues interest at 2.50% and payments of interest and principal are due monthly based upon a 40-year amortization schedule, maturing on March 1, 2053.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A(T). CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Principal Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Principal Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our Principal Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. There are inherent limitations to the effectiveness of any system of internal control over financial reporting. These limitations include the possibility of human error, the circumvention of overriding of the system and reasonable resource constraints. Because of its inherent limitations, our internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with policies or procedures may deteriorate.

Management assessed the effectiveness of the Company’s internal control over financial reporting as of December 31, 2012. In making this assessment, management used the criteria set forth in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on management’s assessments and those criteria, management has concluded that Company’s internal control over financial reporting was effective as of December 31, 2012.

This annual report does not include an attestation report of the Company’s registered public accounting firm regarding internal control over financial report. Management’s report was not subject to attestation by the Company’s registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management’s report in this annual report.

Changes in Internal Control over Financial Reporting

In preparation for management’s report on internal control over financial reporting, we documented and tested the design and operating effectiveness of our internal control over financial reporting. There were no changes in our internal controls over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) that occurred

during the quarter ended December 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. OTHER INFORMATION

Not applicable.

### PART III

#### ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

##### Directors

The affairs of ARL are managed by a Board of Directors. The Directors are elected at the annual meeting of stockholders or are appointed by the incumbent Board and serve until the next annual meeting of stockholders or until a successor has been elected or appointed.

It is the Board's objective that a majority of the Board consists of independent directors. For a Director to be considered independent, the Board must determine that the Director does not have any direct or indirect material relationship with ARL. The Board has established guidelines to assist it in determining director independence which conform to, or are more exacting than, the independence requirements in the New York Stock Exchange listing rules. The independence guidelines are set forth in ARL's "Corporate Governance Guidelines". The text of this document has been posted on ARL's Internet website at <http://www.amrealtytrust.com> and is available in print to any shareholder who requests it. In addition to applying these guidelines, the Board will consider all relevant facts and circumstances in making an independence determination.

ARL has adopted a code of conduct that applies to all Directors, officers and employees, including our principal executive officer, principal financial officer, and principal accounting officer. Stockholders may find our code of conduct on our website by going to our website address at <http://www.amrealtytrust.com>. We will post any amendments to the code of conduct, as well as any waivers that are required to be disclosed by the rules of the SEC or the New York Stock Exchange, on our website.

Our Board of Directors has adopted charters for our Audit, Compensation, and Governance and Nominating Committees of the Board of Directors. Stockholders may find these documents on our website by going to the website address at <http://www.amrealtytrust.com>. You may also obtain a printed copy of the materials referred to by contacting us at the following address:

The Guidelines adopted by the Board meet or exceed the new listing standards adopted during that year by the New York Stock Exchange. The full text of the Guidelines can be found on the Company's Investor Relations website ([www.amrealtytrust.com](http://www.amrealtytrust.com)).

Pursuant to the Guidelines, the Board undertook its annual review of director independence in March 2012, and during this review, the Board considered transactions and relationships between each director or any member of his or her immediate family and ARL and its subsidiaries and related parties, including those reported under Certain Relationships and Related Transactions below. The Board also examined transactions and relationships between directors or their related parties and members of ARL's senior management or their related parties. with the determination that the director is independent.

As a result of this review, the Board affirmatively determined of the then directors, Messrs. Munselle and Jakuszewski and Ms. Hunt are each independent of the Company and its Management under the standards set forth in the Corporate Governance Guidelines.

#### Code of Ethics

ARL has adopted a code of ethics entitled “Code of Business Conduct and Ethics” that applies to all directors, officers, and employees (including those of the contractual Advisor to ARL). In addition, ARL has adopted a code of ethics entitled “Code of Ethics for Senior Financial Officers” that applies to the principal executive officer, president, principal financial officer, chief financial officer, principal accounting officer, and controller. The text of these documents has been posted on ARL’s internet website at <http://www.amrealtytrust.com> and are available in print to any stockholder who requests them.

#### Compliance with Section 16(a) of the Securities Exchange Act of 1934

Under the securities laws of the United States, ARL's Directors, executive officers, and any persons holding more than 10% of ARL's shares of common stock are required to report their ownership and any changes in that ownership to the Securities and Exchange Commission (the "Commission"). Specific due dates for these reports have been established and ARL is required to report any failure to file by these dates. All of these filing requirements were satisfied by ARL's directors and executive officers and 10% holders during the fiscal year ended December 31, 2012. In making these statements, ARL has relied on the written representations of its incumbent Directors and executive officers and its 10% holders and copies of the reports that they have filed with the Commission.

#### The Advisor

Pillar Income Asset Management, Inc. ("Pillar") has been ARL's Advisor and Cash Manager since April 30, 2011. Although the Board of Directors is directly responsible for managing the affairs of ARL, and for setting the policies which guide it, the day-to-day operations of ARL are performed by Pillar, as the contractual advisor, under the supervision of the Board. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities and arranging debt and equity financing for the Company with third party lenders and investors. Additionally, Pillar serves as a consultant to the Board with regard to their decisions in connection with ARL's business plan and investment policy. Pillar also serves as an Advisor and Cash Manager to TCI and IOT. As the contractual advisor, Pillar is compensated by ARL under an Advisory Agreement that is more fully described in Part III, Item 10. "Directors, Executive Officers and Corporate Governance – The Advisor". ARL has no employees and as such, employees of Pillar render services to ARL in accordance with the terms of the Advisory Agreement.

Pillar is a Nevada corporation, the sole shareholder of which is Realty Advisors, LLC, a Nevada limited liability company, the sole member of which is Realty Advisors, Inc., a Nevada corporation, the sole shareholder of which is Realty Advisors Management, Inc., a Nevada corporation, the sole shareholder of which is a trust known as the May Trust.

The May Trust is a Trust, the beneficiaries of which are the children of Gene E. Phillips. Gene E. Phillips is not an officer, manager or Director of Pillar, Prime, PIAMI, Realty Advisors, LLC, Realty Advisors, Inc., Realty Advisors Management, Inc. or ARL, nor is he a Trustee of the May Trust.

Under the Advisory Agreement, Pillar is required to annually formulate and submit, for Board approval, a budget and business plan containing a twelve-month forecast of operations and cash flow, a general plan for asset sales and purchases, lending, foreclosure and borrowing activity, and other investments. Pillar is required to report quarterly to the Board on ARL's performance against the business plan. In addition, all transactions require prior Board approval, unless they are explicitly provided for in the approved business plan or are made pursuant to authority expressly delegated to Pillar by the Board.

The Advisory Agreement also requires prior Board approval for the retention of all consultants and third party professionals, other than legal counsel. The Advisory Agreement provides that Pillar shall be deemed to be in a fiduciary relationship to the ARL stockholders; contains a broad standard governing Pillar's liability for losses incurred by ARL; and contains guidelines for Pillar's allocation of investment opportunities as among itself, ARL and other entities it advises. Pillar is a company of which Messrs. Moos, Bertcher, Corna, and Crozier serve as executive officers.

The Advisory Agreement with Pillar provides for Pillar to be responsible for the day-to-day operations of ARL and for Pillar to receive, as compensation for basic management and advisory services, a gross asset fee of 0.0625% per

month (0.75% per annum) of the average of the gross asset value (total assets less allowance for amortization, depreciation or depletion and valuation reserves).

In addition to base compensation, Pillar receives the following forms of additional compensation:

- (1) an annual net income fee equal to 7.5% of ARL's net income as an incentive for successful investment and management of the Company's assets;

- (2) an annual incentive sales fee to encourage periodic sales of appreciated real property at optimum value equal to 10.0% of the amount, if any, by which the aggregate sales consideration for all real estate sold by ARL during such fiscal year exceeds the sum of:
  - (a) the cost of each such property as originally recorded in ARL's books for tax purposes (without deduction for depreciation, amortization or reserve for losses);
  - (b) capital improvements made to such assets during the period owned; and
  - (c) all closing costs (including real estate commissions) incurred in the sale of such real estate; provided however, no incentive fee shall be paid unless (a) such real estate sold in such fiscal year, in the aggregate, has produced an 8.0% simple annual return on the net investment including capital improvements, calculated over the holding period before depreciation and inclusive of operating income and sales consideration, and (b) the aggregate net operating income from all real estate owned for each of the prior and current fiscal years shall be at least 5.0% higher in the current fiscal year than in the prior fiscal year;
- (3) an acquisition commission, from an unaffiliated party of any existing mortgage or loan, for supervising the acquisition, purchase or long-term lease of real estate equal to the lesser of:
  - (a) up to 1.0% of the cost of acquisition, inclusive of commissions, if any, paid to non-affiliated brokers; or
  - (b) the compensation customarily charged in arm's-length transactions by others rendering similar property acquisition services as an ongoing public activity in the same geographical location and for comparable property, provided that the aggregate purchase price of each property (including acquisition fees and real estate brokerage commissions) may not exceed such property's appraised value at acquisition;
- (4) a construction fee equal to 6.0% of the so-called "hard costs" only of any costs of construction on a completed basis, based upon amounts set forth as approved on any architect's certificate issued in connection with such construction, which fee is payable at such time as the applicable architect certifies other costs for payment to third parties. The phrase "hard costs" means all actual costs of construction paid to contractors, subcontractors and third parties for materials or labor performed as part of the construction but does not include items generally regarded as "soft costs," which are consulting fees, attorneys' fees, architectural fees, permit fees and fees of other professionals; and
- (5) reimbursement of certain expenses incurred by the advisor in the performance of advisory services.

The Advisory Agreement also provides that Pillar receive the following forms of compensation:

- (1) a mortgage or loan acquisition fee with respect to the acquisition or purchase from an unaffiliated party of any existing mortgage loan by ARL equal to the lesser of:
  - (a) 1.0% of the amount of the mortgage or loan purchased; or
  - (b) a brokerage or commitment fee which is reasonable and fair under the circumstances. Such fee will not be paid in connection with the origination or funding of any mortgage loan by ARL; and
- (2) a mortgage brokerage and equity refinancing fee for obtaining loans or refinancing on properties equal to the lesser of:

- (a) 1.0% of the amount of the loan or the amount refinanced; or
- (b) a brokerage or refinancing fee which is reasonable and fair under the circumstances; provided, however, that no such fee shall be paid on loans from Pillar without the approval of ARL's Board of Directors. No fee shall be paid on loan extensions.

Under the ARL Advisory Agreement, all or a portion of the annual advisory fee must be refunded by the Advisor if the operating expenses of ARL (as defined in the Advisory Agreement) exceed certain limits specified in the Advisory Agreement based on the book value, net asset value, and net income of ARL during the fiscal year.

The ARL Advisory Agreement requires Pillar to pay to ARL one-half of any compensation received from third parties with respect to the origination, placement or brokerage of any loan made by ARL; provided, however, that the compensation retained by Pillar shall not exceed the lesser of (1) 2.0% of the amount of the loan commitment or (2) a loan brokerage and commitment fee which is reasonable and fair under the circumstances.

The ARL Advisory Agreement further provides that Pillar shall bear the cost of certain expenses of its employees, excluding fees paid to ARL's Directors; rent and other office expenses of both Pillar and ARL (unless ARL maintains office space separate from that of Pillar); costs not directly identifiable to ARL's assets, liabilities, operations, business or financial affairs; and miscellaneous administrative expenses relating to the performance by Pillar of its duties under the Advisory Agreement.

If and to the extent that ARL shall request Pillar, or any director, officer, partner, or employee of Pillar, to render services for ARL other than those required to be rendered by the Advisory Agreement, Pillar separately would be compensated for such additional services on terms to be agreed upon between such party and ARL from time to time. As discussed below, under "Property Management and Real Estate Brokerage," effective January 1, 2011, Regis Realty Prime, LLC, dba Regis Property Management, LLC ("Regis"), the sole member of which is Realty Advisors, LLC, manages our commercial properties and provides brokerage services under similar terms as the previous agreements with Triad and Regis Realty I.

ARL entered into a Cash Management Agreement with Pillar on April 30, 2011 and terminated the previous agreement with Prime. The Company and Pillar entered into a Cash Management Agreement to further define the administration of the Company's day-to-day investment operations, relationship contacts, flow of funds and deposit and borrowing of funds. Under the Cash Management Agreement, all funds of the Company are delivered to Pillar which has a deposit liability to the Company and is responsible for payment of all payables and investment of all excess funds which earn interest at the Wall Street Journal Prime Rate plus 1.0% per annum, as set quarterly on the first day of each calendar quarter. Borrowings for the benefit of the Company bear the same interest rate. The term of the Cash Management Agreement is coterminous with the Advisory Agreement, and is automatically renewed each year unless terminated with the Advisory Agreement. ARL's management believes that the terms of the Advisory Agreement are at least as fair as could be obtained from unaffiliated third parties.

Situations may develop in which the interests of ARL are in conflict with those of one or more directors or officers in their individual capacities, or of Pillar, or of their respective related parties. In addition to services performed for ARL, as described above, Pillar actively provides similar services as agent for, and advisor to, other real estate enterprises, including persons and entities involved in real estate development and financing, including TCI and IOT. The Advisory Agreement provides that Pillar may also serve as advisor to other entities.

As Advisor, Pillar is a fiduciary of ARL's public investors. In determining to which entity a particular investment opportunity will be allocated, Pillar will consider the respective investment objectives of each entity and the appropriateness of a particular investment in light of each such entity's existing mortgage note and real estate portfolios and business plan. To the extent any particular investment opportunity is appropriate to more than one such entity, such investment opportunity will be allocated to the entity that has had funds available for investment for the longest period of time, or, if appropriate, the investment may be shared among various entities. See Part III, Item 13 "Certain Relationships and Related Transactions, and Director Independence."

The terms of TCI's Advisory and Cash Management Agreements with Pillar are substantially the same as those of ARL's Advisory and Cash Management Agreements.

Pillar may assign the Advisory Agreement only with the prior consent of ARL.

The managers and principal officers of Pillar are set forth below:

The only remuneration paid by ARL is to those directors who are not officers or employees of Pillar or its related companies. #### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

##### Policies with Respect to Certain Activities

Article 11 of ARL's Articles of Incorporation provides that ARL shall not, directly or indirectly, contract or engage in any transaction with (1) any director, officer or employee of ARL, (2) any director, officer or employee of the advisor, (3) the advisor, or (4) any affiliate or associate (as such terms are defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended) of any of the aforementioned persons, unless (a) the material facts as to the relationship among or financial interest of the relevant individuals or persons and as to the contract or transaction are disclosed to or are known by ARL's Board of Directors or the appropriate committee thereof and (b) ARL's Board of Directors or committee thereof determines that such contract or transaction is fair to ARL and simultaneously authorizes or ratifies such contract or transaction by the affirmative vote of a majority of independent directors of ARL entitled to vote thereon.

Article 11 defines an "Independent Director" (for purposes of that Article) as one who is neither an officer or employee of ARL, nor a director, officer or employee of ARL's advisor. This definition predates ARL's director independence guidelines adopted in February 2004.

ARL's policy is to have such contracts or transactions approved or ratified by a majority of the disinterested Directors with full knowledge of the character of such transactions, as being fair and reasonable to the stockholders at the time of such approval or ratification under the circumstances then prevailing. Such Directors also consider the fairness of such transactions to ARL. Management believes that, to date, such transactions have represented the best investments available at the time and they were at least as advantageous to ARL as other investments that could have been obtained.

ARL may enter into future transactions with entities, the officers, directors, or stockholders of which are also officers, directors, or stockholders of ARL, if such transactions would be beneficial to the operations of ARL and consistent with ARL's then-current investment objectives and policies, subject to approval by a majority of disinterested Directors as discussed above.

ARL does not prohibit its officers, directors, stockholders, or related parties from engaging in business activities of the types conducted by ARL.

##### Certain Business Relationships

Pillar Income Asset Management, Inc. ("Pillar") has been ARL's Advisor and Cash Manager since April 30, 2011. Pillar's duties include, but are not limited to, locating, evaluating and recommending real estate and real estate-related investment opportunities and arranging debt and equity financing for the Company with third party lenders and investors. Additionally, Pillar serves as a consultant to the Board with regard to their decisions in connection with ARL's business plan and investment policy. Pillar also serves as an Advisor and Cash Manager to

TCI and IOT. #### Related Party Transactions

The Company has historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in the best interest of our company.

In 2012, the Company paid advisory fees of \$10.2 million, construction advisory fees of \$0.2 million, net income fees of \$0.2 million, mortgage brokerage and equity refinancing fees of \$1.9 million, cost reimbursements of \$3.4 million and interest of \$0.5 to Pillar.

In 2012, the Company received \$6.0 million in compensation for the services provided under the development agreement with UHF.

Below are property sales that involve a related party:

On January 3, 2012, TCI's 82.2 acres of land known as Denton Coonrod land located in Denton County, Texas was transferred to the existing lender. This land parcel was previously sold, on March 23, 2011, to Cross County National Associates, LP, a related party, for a sales price of \$1.8 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 3, 2012 at a sales price equal to the existing mortgage of \$0.8 million, that was considered paid in full when ownership transferred to the existing lender. TCI recorded a gain on sale of \$0.04 million on the land parcel sale.

On January 17, 2012, we sold 100% of our stock in American Realty Trust, Inc., to One Realco Corporation, a related party, for a sales price of \$10.0 million. We provided \$10.0 million in seller-financing with a five-year note receivable. The note accrues interest at 3.00% and is payable at maturity on January 17, 2017. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related party, for a sales price of \$1.3 million. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on February 7, 2012, when the Company received a credit against the outstanding debt of \$2.1 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$1.2 million on the land parcel sale.

On February 27, 2012, we re-purchased 100% interest in Cross County National Associates, LP from ABC Land Real Estate, LLC and ABC Land & Development, Inc., both related parties, for a sales price of \$9.5 million. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. Upon re-purchasing the ownership interests in the current period, the seller-financing note of \$0.3 million was cancelled. There is no change in the financial statements related to the March 22, 2011 sale or the subsequent re-acquisition.

On March 1, 2012, TCI sold 100% of our interests in LaDue, LLC to ABC Land & Development, Inc., a related party, for a sales price of \$1.9 million. This entity owns 8.01 acres of land known as LaDue land located in Dallas County, Texas. TCI provided \$1.3 million in seller-financing with a five-year note receivable. The note accrues interest at 5% and is payable at maturity on March 1, 2017. The buyer assumed the existing mortgage of \$0.6 million, secured by the property. The Company did not recognize or record the sale in accordance with ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. On August 10, 2012, TCI re-purchased 100% of the membership interests in LaDue, LLC from ABC Land & Development, Inc., a related party, for \$1.9 million to be paid by assumption of debt of \$0.6 million, secured by the property, and cancellation of a five-year seller-financed note of \$1.3 million. There is no change in the financial statements related to the March 1, 2012 sale or the subsequent re-acquisition.

On March 5, 2012, TCI's 7.39 acres of land known as DeSoto Ranch land located in DeSoto, Texas was transferred to the existing lender. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related party, for a sales price of \$1.3 million. The Company did not recognize or record the sale in accordance with

ASC 360-20 due to our continuing involvement, which included the potential payment of cash shortfalls, future obligations under the existing mortgage and guaranty, the buyer's inadequate initial investment and the Company's questionable recovery of investment cost. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale to an independent third party, that met the requirements of ASC 360-20, took place on March 5, 2012, when the Company received a credit against the outstanding debt of \$1.0 million, which is part of a multi-tract collateral obligation, and the existing lender took possession of the property. TCI recorded a gain on sale of \$0.2 million on the land parcel sale.

On April 13, 2012, we sold a 161-room Hotel, known as Comfort Inn located in Denver, Colorado. The Company determined that no sale had occurred for financial reporting purposes and therefore the asset remained on the books and continued to record operating expenses and depreciation as a period cost until a sale occurred that met the requirements of ASC 360-20. A sale that met the requirements of ASC 360-20 took place on April 13, 2012. We recorded a gain on sale of \$3.1 million when the building was sold to a third party.

This entity owns 8.01 acres of land known as LaDue land located in Dallas County, Texas. TCI originally sold the membership interests in LaDue, LLC on March 1, 2012 but did not record the sale for accounting purposes. See the above March 1, 2012 sale disclosure for details of the accounting treatment.

On December 31, 2012, TCI's 21.26 acres of land known as Pioneer Crossing land located in Austin, Texas was transferred to the existing lender. This land parcel was previously sold, on September 1, 2011, to TCI Luna Ventures, LLC, a related party, for a sales price of \$1.4 million. TCI recorded a loss on sale of \$1.0 million on the land parcel sale.

On December 31, 2012, TCI sold 100% of the stock in T Southwood 1394, Inc., to One Realco Corporation, a related party, for a sales price of \$0.6 million. A sale to an independent third party, that met the requirements of ASC 360-20, took place on January 8, 2013, when the property was sold to a third party and sales proceeds were credited against the outstanding debt. TCI will not record a gain or loss on the land parcel sale

In December 2010, there were various commercial and land holdings sold to FRE Real Estate, Inc., a related party. During the first three months of 2011, many of these transactions were rescinded as of the original transaction date and were subsequently sold to related parties under the same ownership as FRE Real Estate, Inc. As of December 31, 2012, there is one commercial building, Thermalloy that remains in FRE Real Estate, Inc. We have deferred the recognition of the sales in accordance with ASC 360-20 due to our continuing involvement, the buyer's inadequate initial investment and questionable recovery of the Company's investment cost.

The properties that we have sold to a related party and have deferred the recognition of the sale are treated as “subject to sales contract” on the Consolidated Balance Sheets. These properties were sold to a related party in order to help facilitate an appropriate debt or organizational restructure and may or may not be transferred back to the seller upon resolution. These properties have mortgages that are secured by the property and many have corporate guarantees. According to the loan documents, the maker is currently in default on these mortgages primarily due to lack of payment and is actively involved in discussions with every lender in order to settle or cure the default situation. We have reviewed each asset and taken impairment to the extent we feel the value of the property was less than our current basis.

Sales to our subsidiary, TCI, have previously been reflected at the fair value sale price. Upon discussion with the SEC and in review of the guidance pursuant to ASC 250-10-45-22 to 24, we have adjusted those assets, in the prior year, to reflect a basis equal to ARL’s cost basis in the asset at the time of the sale. The related party payables to ARL were reduced for the lower asset price. The Company reflected the original cost basis in consolidation, therefore no change in the financial statements were necessary to reflect this change.

#### Operating Relationships

ARL received rents of \$0.6 million in 2012, \$0.9 million in 2011, and \$2.6 million in 2010 from Pillar, Prime and its related parties for ARL owned properties, including Addison Hanger, Browning Place, Eagle Crest, Folsom, GNB, One Hickory, Senlac, Thermalloy and Two Hickory.

#### Advances and Loans

From time to time, ARL and its related parties have made advances to each other, which generally have not had specific repayment terms, did not bear interest, are unsecured, and have been reflected in ARL’s financial statements as other assets or other liabilities. ARL and the advisor charge interest on the outstanding balance of funds advanced to or from ARL. The interest rate, set at the beginning of each quarter, is the prime rate plus 1% on the average daily cash balances advanced. At December 31, 2012, ARL owes Pillar \$10.9 million.

## ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The following table sets forth the aggregate fees for professional services rendered to ARL for the years 2012 and 2011 by ARL's principal accounting firms, Farmer, Fuqua and Huff, L.P., BDO Seidman, LLP and Swalm & Associates, PC:

The audit fees for 2012 and 2011, respectively, were for professional services rendered for the audits and reviews of the consolidated financial statements of ARL and its subsidiaries. Tax fees for 2012 and 2011, respectively, were for services related to federal and state tax compliance and advice.

All services rendered by the principal auditors are permissible under applicable laws and regulations and were pre-approved by either the Board of Directors or the Audit Committee, as required by law. The fees paid the principal auditors for services as described in the above table fall under the categories listed below:

**Audit Fees.** These are fees for professional services performed by the principal auditor for the audit of the Company's annual financial statements and review of financial statements included in the Company's 10-Q filings and services that are normally provided in connection with statutory and regulatory filing or engagements.

**Audit-Related Fees.** These are fees for assurance and related services performed by the principal auditor that are reasonably related to the performance of the audit or review of the Company's financial statements. These services include attestations by the principal auditor that are not required by statute or regulation and consulting on financial accounting/reporting standards.

**Tax Fees.** These are fees for professional services performed by the principal auditor with respect to tax compliance, tax planning, tax consultation, returns preparation, and review of returns. The review of tax returns includes the Company and its consolidated subsidiaries.

All Other Fees. These are fees for other permissible work performed by the principal auditor that do not meet the above category descriptions.

These services are actively monitored (as to both spending level and work content) by the Audit Committee to maintain the appropriate objectivity and independence in the principal auditor's core work, which is the audit of the Company's consolidated financial statements.

The Audit Committee has established policies and procedures for the approval and pre-approval of audit services and permitted non-audit services. The Audit Committee has the responsibility to engage and terminate ARI's independent auditors, to pre-approve their performance of audit services and permitted non-audit services, to approve all audit and non-audit fees, and to set guidelines for permitted non-audit services and fees. All the fees for 2012 and 2011 were pre-approved by the Audit Committee or were within the pre-approved guidelines for permitted non-audit services and fees established by the Audit Committee, and there were no instances of waiver of approved requirements or guidelines during the same periods.

Under the Sarbanes-Oxley Act of 2002 (the “SOX Act”) and the rules of the Securities and Exchange Commission (the “SEC”), the Audit Committee of the Board of Directors is responsible for the appointment, compensation, and oversight of the work of the independent auditor. The purpose of the provisions of the SOX Act and the SEC rules for the Audit Committee role in retaining the independent auditor is two-fold. First, the authority and responsibility for the appointment, compensation, and oversight of the auditors should be with directors who are independent of management. Second, any non-audit work performed by the auditors should be reviewed and approved by these same independent directors to ensure that any non-audit services performed by the auditor do not impair the independence of the independent auditor. To implement the provisions of the SOX Act, the SEC issued rules specifying the types of services that an independent may not provide to its audit client, and governing the Audit Committee’s administration of the engagement of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor’s independence. Accordingly, the Audit Committee has adopted a pre-approval policy of audit and non-audit services (the “Policy”), which sets forth the procedures and conditions pursuant to which services to be performed by the independent auditor are to be pre-approved. Consistent with the SEC rules establishing two different approaches to pre-approving non-prohibited services, the Policy of the Audit Committee covers pre-approval of audit services, audit-related services, international administration tax services, non-U.S. income tax compliance services, pension and benefit plan consulting and compliance services, and U.S. tax compliance and planning. At the beginning of each fiscal year, the Audit Committee will evaluate other known potential engagements of the independent auditor, including the scope of work proposed to be performed and the proposed fees, and approve or reject each service, taking into account whether services are permissible under applicable law and the possible impact of each non-audit service on the independent auditor’s independence from management. Typically, in addition to the generally pre-approved services, other services would include due diligence for an acquisition that may or may not have been known at the beginning of the year. The Audit Committee has also delegated to any member of the Audit Committee designated by the Board or the financial expert member of the Audit Committee responsibilities to pre-approve services to be performed by the independent auditor not exceeding \$25,000 in value or cost per engagement of audit and non-audit services, and such authority may only be exercised when the Audit Committee is not in session.
