**PROXY STATEMENT FOR THE
2003 ANNUAL MEETING OF STOCKHOLDERS**

GENERAL INFORMATION

The board of directors of Natus Medical Incorporated, a Delaware corporation, is soliciting the enclosed proxy from you. The proxy will be used at our 2003 Annual Meeting of Stockholders to be held at 9:00 a.m. local time on Wednesday, May 14, 2003 at our headquarters, located at 1501 Industrial Road, San Carlos, California 94070.

This proxy statement contains important information regarding our annual meeting. Specifically, it identifies the proposals on which you are being asked to vote, provides information you may find useful in determining how to vote, and describes the voting procedures.

We use several abbreviations in this proxy statement. We may refer to our company as Natus. The term proxy materials includes this proxy statement, as well as the enclosed proxy card and our Annual Report on Form 10-K for the year ended December 31, 2002.

We are sending the proxy materials on or about April 15, 2003 to all our stockholders as of the record date, March 19, 2003. Stockholders who owned Natus common stock at the close of business on March 19, 2003 are entitled to attend and vote at the annual meeting. On the record date, we had approximately 16,337,569 shares of our common stock issued and outstanding. We had 151 stockholders of record as of the record date and believe that our common stock is held by more than 1,200 beneficial owners.

Voting Procedures

As a stockholder, you have the right to vote on certain business matters affecting our company. The two proposals that will be presented at the annual meeting, and upon which you are being asked to vote, are discussed in the sections entitled Proposal One and Proposal Two. Each share of Natus common stock you own entitles you to one vote. The enclosed proxy card indicates the number of shares you own. You can vote by returning the enclosed proxy card and proxy in the envelope provided or by attending the annual meeting.

Edgar Filing: NATUS MEDICAL INC - Form DEF 14A

Every stockholder voting on Proposal One to elect two directors may cumulate such stockholder's votes and give to one of the candidates to be elected a number of votes equal to the number of directors to be elected multiplied by the number of votes to which such stockholder is entitled, or distribute the stockholder's votes on the same principle among as many candidates as the stockholder thinks fit, provided that votes cannot be cast for more than the number of directors to be elected. No stockholder shall be entitled to cumulate votes unless such candidate's name has been placed in nomination prior to the voting and the stockholder, or any other stockholder, has given notice at the annual meeting, prior to the voting, of the intention to cumulate the stockholder's votes. The candidates receiving the highest number of votes, up to the number of directors to be elected, shall be elected.

Methods of Voting

Voting by Mail. By signing and returning the proxy card according to the enclosed instructions, you are enabling our chief executive officer and our chief financial officer, who are named on the proxy card as proxy holders, to vote your shares at the meeting in the manner you indicate. We encourage you to sign and return the proxy card even if you plan to attend the meeting. In this way, your shares will be voted even if you are unable to attend the meeting.

Table of Contents

Your shares will be voted in accordance with the instructions you indicate on the proxy card. If you submit the proxy card, but do not indicate your voting instructions, your shares will be voted as follows:

FOR the election of the nominees for Class II directors identified in Proposal One; and

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent public accountants for the fiscal year ending December 31, 2003.

If you received more than one proxy card, it is an indication that your shares are held in multiple accounts. Please submit your proxies according to the instructions on each proxy card to ensure that all of your shares are voted. We encourage you to consolidate multiple accounts by contacting your broker, if you hold your shares through a brokerage account, or otherwise through our transfer agent, EquiServe Trust Company, N.A. at (781) 575-3120. Please note that shares held in certain types of accounts cannot be consolidated with other accounts. For example, retirement and non-retirement accounts generally cannot be consolidated.

Voting in Person at the Meeting. If you plan to attend the annual meeting and vote in person, we will provide you with a ballot at the meeting. If your shares are registered directly in your name, you are considered the stockholder of record and you have the right to vote in person at the meeting. If your shares are held in the name of your broker or other nominee, you are considered the beneficial owner of shares held in your name, but if you wish to vote at the meeting, you will need to bring with you to the annual meeting a legal proxy from your broker or other nominee authorizing you to vote these shares.

Revoking Your Proxy

You may revoke your proxy at any time before it is voted at the annual meeting. In order to do this, you may either:

sign and return another proxy bearing a later date;

provide written notice of the revocation to Tim C. Johnson, our President and Chief Executive Officer, prior to the time we take the vote at the annual meeting; or

attend the meeting and vote in person.

Quorum Requirement

A quorum, which is a majority of our outstanding shares as of the record date, must be present in order to hold the meeting and to conduct business. Your shares will be counted as being present at the meeting if you appear in person at the meeting or if you submit a properly executed proxy card.

Votes Required for Each Proposal

The votes required and method of calculation for the proposals to be considered at the annual meeting are as follows:

Proposal One Election of Directors. The two Class II director nominees receiving the highest number of votes, in person or by proxy, will be elected as directors.

Proposal Two Ratification of Deloitte & Touche LLP as Independent Accountants. Ratification of Deloitte & Touche LLP as our independent public accountants will require the affirmative vote of a majority of the shares present at the annual meeting, in person or by proxy.

You may vote either for or withhold your vote for the director nominees. You may vote for, against, or abstain from voting on the proposal to ratify Deloitte & Touche LLP as our independent public accountants.

Table of Contents

Abstentions and Broker Non-Votes

If you return a proxy card that indicates an abstention from voting in all matters, the shares represented will be counted as present for the purpose of determining a quorum, but they will not be voted on any matter at the annual meeting. Consequently, if you abstain from voting on the proposal to ratify the appointment of Deloitte & Touche LLP as our independent public accountants, your abstention will have the same effect as a vote against the proposal.

Under the rules that govern brokers who have record ownership of shares that are held in street name for their clients, who are the beneficial owners of the shares, brokers have discretion to vote these shares on routine matters but not on non-routine matters. Thus, if you do not otherwise instruct your broker, the broker may turn in a proxy card voting your shares FOR routine matters but expressly instructing that the broker is NOT voting on non-routine matters. A broker non-vote occurs when a broker expressly instructs on a proxy card that it is not voting on a matter, whether routine or non-routine. Broker non-votes are counted for the purpose of determining the presence or absence of a quorum but are not counted for determining the number of votes cast for or against a proposal. Your broker will have discretionary authority to vote your shares on each of the proposals, which are all routine matters. To the extent your brokerage firm submits a broker non-vote with respect to your shares on these routine proposals, your shares will be counted as present for the purpose of determining whether a quorum exists with respect to consideration of that proposal but will not be deemed votes cast with respect to that proposal. Accordingly, broker non-votes will have no effect on the outcome of the vote with respect to each of the proposals.

Proxy Solicitation Costs

We will bear the entire cost of proxy solicitation, including the preparation, assembly, printing and mailing of proxy materials. In addition, we may reimburse brokerage firms and other custodians for their reasonable out-of-pocket expenses for forwarding these proxy materials to you. We expect our transfer agent EquiServe Trust Company, N.A. to tabulate the proxies and act as inspector of the election.

Deadline for Receipt of Stockholder Proposals for 2004 Annual Meeting

As a stockholder, you may be entitled to present proposals for action at a forthcoming meeting if you comply with the requirements of the proxy rules established by the Securities and Exchange Commission and our bylaws. Proposals of our stockholders intended to be presented for consideration at our 2004 annual meeting of stockholders must be received by us no later than December 17, 2003, in order that they may be included in the proxy statement and form of proxy related to that meeting. Additionally, the advance notice provisions of our bylaws require that any stockholder proposal be submitted in writing and received by us not less than sixty (60) days in advance of the date of our proxy statement in connection with the previous year's annual meeting. As a result, we must receive the stockholder proposals to be raised at the 2004 annual meeting no later than February 14, 2004. However, if the date of our annual meeting is changed by more than 30 days from the date contemplated at the time of the previous year's proxy statement, notice by a stockholder to be timely must be received a reasonable time before the solicitation is made. The advance notice must be accompanied by the information required by our bylaws. If a stockholder does not provide timely notice in accordance with our bylaws, the stockholder will not be permitted to present the proposal to the stockholders for a vote at the meeting.

Stockholders making such recommendations should follow the procedures outlined under Deadline for Receipt of Stockholders Proposals for 2004 Annual Meeting.

Director Compensation

Directors who are not also employees receive automatic option grants under our 2000 director option plan. Each new non-employee director is automatically granted an option to purchase 30,000 shares of our common stock at the time he or she is first elected to our board of directors or was a non-employee director at the time of the effectiveness of the 2000 director option plan. Each non-employee director receives a subsequent option grant to purchase 10,000 shares of our common stock at each annual meeting of our stockholders. All options granted under the director option plan are granted at the fair market value of our common stock as reported on the Nasdaq National Market on the last market trading day prior to the date of the grant. The initial 30,000 share grants become exercisable at a rate of 1/36th of the shares per month after the date of grant. The subsequent 10,000 share grants become exercisable at the rate of 1/12th of the shares per month.

In July 2001, when the 2000 director option plan became effective, each of Mr. Bochnowski, Mr. Moore and Mr. Nierenberg received an initial option to purchase 30,000 shares of our common stock at an exercise price of \$11.00 per share. In November 2002, Mr. Ludlum received an initial option to purchase 30,000 shares of our common stock at an exercise price of \$3.45 per share. In February 2003, Dr. New received an option to purchase 30,000 shares of our common stock at an exercise price of \$3.64 per share.

In November 2002, our board of directors also determined to provide cash compensation to outside members of the board for future meetings. Each non-employee director will receive a fee of \$1,500 per in-person meeting attended by the director. A fee will be paid for telephonic meetings at the discretion of the chief executive officer, which fee will not exceed \$500. The chairman of the audit committee will receive a quarterly retainer of \$2,000. Directors who are members of the audit committee will also receive a fee of \$1,500 per committee meeting and directors who are members of the compensation committee will receive a fee of \$500 per committee meeting.

Mr. Johnson, our chief executive officer, participates in all discussions and decisions regarding salaries and incentive compensation for all employees and consultants. He is excluded, however, from discussions regarding his own salary and incentive compensation. No interlocking relationship exists between any member of our compensation committee and any member of any other company's board of directors or compensation committee.

PROPOSAL TWO

RATIFICATION OF APPOINTMENT OF INDEPENDENT ACCOUNTANTS

The board of directors has selected Deloitte & Touche LLP, independent accountants, to audit our financial statements for the fiscal year ending December 31, 2003. We expect that a representative of Deloitte & Touche LLP will be present at the annual meeting, will have the opportunity to make a statement if he or she desires to do so and will be available to answer any appropriate questions.

Audit Fees

Audit fees billed to us by Deloitte & Touche LLP during fiscal 2002 for the audit of our consolidated annual financial statements and review of the financial statements included in our annual report on Form 10-K and quarterly reports on Form 10-Q totaled \$131,000.

Financial Information Systems Design and Implementation Fees

We did not engage Deloitte & Touche LLP to provide advice to us regarding financial information systems design and implementation during the fiscal year ended December 31, 2002.

All Other Fees

Fees billed to us by Deloitte & Touche LLP during fiscal 2002 for all other non-audit services, including tax related services, totaled \$2,100.

Before selecting Deloitte & Touche LLP, the audit committee carefully considered Deloitte & Touche LLP's qualifications as independent public accountants. This included a review of the qualifications of the engagement team, the quality control procedures the firm has established, any issues raised by the most recent quality control review of the firm, as well as its reputation for integrity and competence in the fields of accounting and auditing. The audit committee's review also included matters to be considered under the Securities and Exchange Commission's Rules of Auditor Independence, including the nature and extent of non-audit services, to ensure that the accountants' independence will not be impaired. The audit committee expressed its satisfaction with Deloitte & Touche LLP in all of these respects. The audit committee of our board of directors has determined that the provision of services by Deloitte & Touche LLP other than for audit related services is compatible with maintaining the independence of Deloitte & Touche LLP as our independent public accountants.

Vote Required and Board of Directors Recommendation

Stockholder ratification of the selection of Deloitte & Touche LLP as our independent public accountants is not required by our bylaws or other applicable legal requirement. However, the board of directors is submitting the selection of Deloitte & Touche LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee and the board of directors will reconsider whether or not to retain that firm. Even if the selection is ratified, the board of directors at its discretion may direct the appointment of a different independent accounting firm at any time during the year if it determines that such a change would be in our best interests and in the best interests of our stockholders.

The affirmative vote of the holders of a majority of the shares of our common stock present or represented and voting at the annual meeting will be required to approve this proposal. Abstentions will have the same effect as a vote against this proposal and broker non-votes will have no effect on the outcome of the vote with respect to this proposal. **The board of directors has unanimously approved this proposal and recommends that stockholders vote FOR the ratification of the selection of Deloitte & Touche LLP as independent public accountants.**

Table of Contents**Option Grants in 2002**

The following table provides information relating to options to purchase common stock granted to each of the executive officers named in the compensation table above during 2002. These options were granted under our 2000 stock option plan and have a term of 10 years, subject to earlier termination in the event the optionee's services to us cease.

The exercise price of the options we grant is equal to the fair market value of our common stock as measured by the closing sales price of our common stock in trading on the Nasdaq National Market on the last market trading day prior to the date of grant. The exercise price may be paid by cash or check, promissory note or surrender of shares of our common stock owned by the optionee for more than six months. Alternatively, optionees may exercise their shares under a cashless exercise program. Under this program, the optionee may provide irrevocable instructions to sell the shares acquired on exercise and to remit to us a cash amount equal to the exercise price and all applicable withholding taxes. Generally, the options granted under our 2000 stock option plan to other than new employees vest in equal monthly installments over a four year period, as long as the optionee continues to provide employment or consulting services to us.

The potential realizable value of options is calculated by assuming that the price of our common stock increases from the exercise price at assumed rates of stock appreciation of 5% and 10%, compounded annually over the 10 year term of the option, and subtracting from that result the total option exercise price. These assumed appreciation rates comply with the rules of the Securities and Exchange Commission and do not represent our prediction of the performance of our stock price.

During 2002, we granted options to acquire 959,248 shares of common stock to employees and consultants under our 2000 stock option plan and our 2000 supplemental option plan. Of these options, we granted options to acquire 532,100 shares of common stock with a weighted average exercise price of \$3.80 to all of our current executive officers, including the executive officers named in the table below, and options to acquire 427,148 shares of common stock with a weighted average exercise price of \$3.78 to our employees who are not executive officers.

Aggregate Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table provides information relating to option exercises by the executive officers identified in the summary compensation table during 2002. In addition, it indicates the number and value of vested and unvested options held by these executive officers as of December 31, 2002.

Table of Contents

The Realized Value on option exercises is equal to the difference between the fair market value of our common stock on the date of exercise less the exercise price. For exercises that occurred prior to our initial public offering in July 2001, we have assumed that the fair market value on the date of the exercise was equal to the initial public offering price of \$11.00 per share. The Value of Unexercised In-the-Money Options at December 31, 2002 is based on \$3.99 per share, the closing sales price of our common stock in trading on the Nasdaq National Market on December 31, 2002, less the exercise price, multiplied by the aggregate number of shares subject to outstanding options.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

Notwithstanding any statement to the contrary in any of our previous or future filings with the Securities and Exchange Commission, this report of the board of directors on compensation shall not be deemed filed with the Commission or soliciting material under the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference into any such filings.

During 2002, executive compensation matters were approved by the compensation committee of the board of directors. The compensation committee operates under a written charter adopted by the board of directors in July 2000. The following is the report of the compensation committee with respect to compensation during 2002.

General Compensation Philosophy

The primary objectives of the executive compensation policies of the compensation committee include the following:

To attract, motivate and retain a highly qualified executive management team;

To link executive compensation to our financial performance as well as to defined individual management objectives established by the compensation committee;

To compensate competitively with the practices of similarly situated technology companies; and

To create management incentives designed to enhance stockholder value.

Natus competes in an aggressive and dynamic industry and, as a result, the compensation committee believes that finding, motivating, and retaining quality employees, particularly senior managers, sales personnel and technical personnel are important factors to Natus' future success. The compensation philosophy of the compensation committee seeks to align the interests of stockholders and management by tying compensation to Natus' financial performance, either directly in the form of salary and bonuses paid in cash or indirectly in the form of appreciation of stock options and in certain instances restricted stock granted to Natus' principal executive officers.

Cash Compensation

Natus seeks to provide cash compensation to its executive officers, including base salary and bonus, at levels that are commensurate with cash compensation of executives with comparable responsibility at similarly situated technology companies. Annual increases in base salary are determined on an individual basis based on market data and a review of the officer's performance and contribution to various individual, departmental and corporate objectives. Cash bonuses are intended to provide additional incentives to achieve such objectives.

Edgar Filing: NATUS MEDICAL INC - Form DEF 14A

The salaries and cash bonuses of each of Natus' executive officers, other than the chief executive officer, were determined by the compensation committee, upon the recommendation of the chief executive officer. The chief executive officer's base salary was determined by the compensation committee. Tim C. Johnson has served as Natus' chief executive officer since July 1999. The board of directors set Mr. Johnson's base annual salary for 2002 at \$280,000.

In addition to annual salary, cash bonuses for the chief executive officer and the chief financial officer are based on various performance targets established by the compensation committee. Cash bonuses may also be earned by operational vice presidents based on their divisional financial performance.

Based on a review of public company proxy data and other relevant market data, the compensation committee believes that cash compensation paid to Natus' executive officers, including the chief executive officer, was generally consistent with amounts paid to officers with similar responsibilities at similarly situated medical device companies. We note that competition for qualified management and technical personnel in Natus

Table of Contents

industry is intense, and we expect such competition to remain intense for the foreseeable future. As a result, in order to insure access to qualified personnel, the compensation committee believes that it will continue to be necessary to provide compensation packages, consisting of cash compensation and equity incentives, that are at least competitive with, and in certain instances superior to, compensation paid by other similarly situated medical device companies.

Equity-Based Compensation

Natus provides long term incentives through its 2000 stock option plan. Prior to Natus July 2001 initial public offering, Natus provided long-term incentives through its 1991 stock option plan and its 2000 supplemental stock option plan. Stock options are periodically granted under the 2000 stock option plan to provide additional incentive to executives and other employees to maximize long-term total return to our stockholders. Stock options are a particularly strong incentive, because they are valuable to employees only if the fair market value of our common stock increases above the exercise price, which is set at the fair market value of our common stock on the date the option is granted. In addition, employees must remain employed with us for a fixed period of time in order for the options to vest fully. Options generally vest over a four year period to encourage option holders to continue in our employ.

All of the options granted to our executive officers in 2002 were approved by the compensation committee. With respect to options granted to Natus executive officers, the compensation committee considers in making its determination as to the size of the option grant the executive's position with Natus, the executive's individual performance, the number of options held (if any) and the extent to which those options are vested, and any other factors that the committee may deem relevant.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the federal income tax deductibility of compensation paid to our chief executive officer and to each of the other four most highly-compensated executive officers. Natus may deduct such compensation only to the extent that during any fiscal year the compensation paid to such individual does not exceed \$1 million or meet certain specified conditions (including stockholder approval). Natus has adopted a policy that, where reasonably practicable, Natus will seek to qualify variable compensation paid to its executive officers for an exemption from the deductibility limitations of 162(m).

Respectfully submitted by:

THE COMPENSATION COMMITTEE

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

Notwithstanding any statement to the contrary in any of our previous or future filings with the Securities and Exchange Commission, this report of the audit committee of the board of directors shall not be deemed filed with the Commission or soliciting material under the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference into any such filings.

The audit committee of the board of directors is composed of three independent directors, as determined under the applicable rules of the National Association of Securities Dealers. The board of directors appointed the members of the audit committee. The members of the audit committee at December 31, 2002 were Ken Ludlum, William M. Moore and David Nierenberg.

The audit committee operates under a written charter adopted by the board of directors in September 2000 and amended March 27, 2003, which is attached hereto as *Annex A*. The purpose of the audit committee is to monitor and review Natus' financial controls and financial reporting process. The committee provides the board of directors with the results of the committee's examinations and recommendations, outlines to the board of directors improvements made or to be made in internal accounting controls, nominates independent public accountants and provides the board of directors with any additional information and materials as the committee may deem necessary to make the board of directors aware of significant financial matters that require the board of directors' attention. The audit committee does not conduct auditing reviews or procedures. The audit committee relies on management's representation that Natus' financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on Natus' financial statements.

On July 30, 2002, the Sarbanes-Oxley Act was signed into law. On November 4, 2002, the audit committee met with representatives of management, legal counsel and our independent accountants to further understand the provisions of the Sarbanes-Oxley Act. We also reviewed processes that already are in place as well as those that will be implemented to comply with the requirements of the Sarbanes-Oxley Act as they become effective.

The audit committee has met and held discussions separately and jointly with each of management and Deloitte & Touche LLP, Natus' independent public accountants for 2002. Management represented to the audit committee that the consolidated financial statements were prepared in accordance with generally accepted accounting principles. The audit committee has reviewed and discussed the consolidated financial statements with management and the independent public accountants. The audit committee also discussed with Deloitte & Touche LLP those matters required to be discussed by the Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU 380).

Deloitte & Touche LLP provided to the audit committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the audit committee discussed with the independent public accountants that firm's independence.

Based on the audit committee's discussions with management and the independent public accountants and the audit committee's review of the representations of management and the report of the independent public accountants to the audit committee, the audit committee recommended that the board of directors include the audited consolidated financial statements in Natus' annual report on Form 10-K for the year ended December 31, 2002 filed with the Securities and Exchange Commission.

Respectfully submitted by:

THE AUDIT COMMITTEE

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission and the National Association of Securities Dealers, Inc. Executive officers, directors and greater than ten percent stockholders are required by Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms that we have received, or written representations from reporting persons, we believe that, except as described below, during the fiscal year ending December 31, 2002 all executive officers, directors and greater than ten percent stockholders complied with all applicable filing requirements. Glenn A. Bauer, our chief financial officer, was late in filing a Form 4 that disclosed an option granted to him under our 2000 stock option plan. Mr. Bauer has since made the required filing. Bryan P. Flaherty, our vice president of research and development, was late in filing a Form 4 that disclosed his sale of shares as issued pursuant to our 2000 employee stock purchase plan. Mr. Flaherty has since made the required filing. William H. Lawrenson, our former chief financial officer, was late in filing a Form 4 that disclosed one transaction in which Mr. Lawrenson exercised stock options. Mr. Lawrenson has since made the required filing.

RELATED PARTY TRANSACTIONS

In February 1999, in connection with the purchase of his home, we loaned Tim C. Johnson, our president and chief executive officer, \$250,000 under a secured, promissory note at the rate of 4.62%, compounded monthly. Mr. Johnson repaid the promissory note in full with interest in March 1999. Upon repayment, we provided a \$310,000 certificate of deposit as collateral to a commercial bank against a five year loan due in March 2004 to Mr. Johnson for \$250,000, which he had received from that bank. The amount of the certificate of deposit we provided represents the amount which, when combined with interest on the certificate of deposit, will be due from Mr. Johnson to the commercial bank at the end of the term of his loan. Interest earned on the initial balance of the certificate of deposit we pledged also becomes collateral for Mr. Johnson's loan. The total collateral we pledged was equal to \$334,000 as of December 31, 2002. Mr. Johnson has pledged 26,688 shares of our common stock that he owns to us to provide us a security interest in the event our collateral is not released by the bank. We have no recourse against Mr. Johnson other than the pledged shares in the event he defaults.

In March 2002 we entered into an agreement with Terese M. Baker, our former vice president, marketing, in connection with her resignation from employment with us. Pursuant to the agreement, Ms. Baker remained an employee on a paid leave of absence through the end of May 2002. In connection with Ms. Baker's termination, we fully accelerated the vesting of options to purchase 23,000 shares of our common stock with a weighted average exercise price of \$1.63 held by Ms. Baker.

In September 2002 we entered into an agreement with Thomas M. Waugh, our former vice president, operations, in connection with his resignation from employment with us. Pursuant to the agreement, Mr. Waugh remained an employee on a paid leave of absence through the end of November 2002 and used accrued but unused paid time off through December 11, 2002. In connection with Mr. Waugh's termination, we fully accelerated the vesting of options to purchase 100,000 shares of our common stock with a weighted average exercise price of \$1.50 held by Mr. Waugh.

In October 2002 we entered into an agreement with Lucille A. Ferus, our former vice president, engineering, in connection with her resignation from employment with us. In connection with Ms. Ferus' termination, we fully accelerated the vesting of options to purchase 68,301 shares of our common stock with a weighted average exercise price of \$1.28 held by Ms. Ferus.

Edgar Filing: NATUS MEDICAL INC - Form DEF 14A

In February 2003, we entered into a voting agreement (the Voting Agreement) with one of our stockholders, Perry Corp. (Perry). As of March 19, 2003, Perry owned 28.91% of our outstanding shares of

common stock. Perry entered into the Voting Agreement in anticipation of purchasing from a third party an additional 1,000,000 shares of our common stock (the Additional Shares). Until such time as Perry no longer owns in excess of 4,348,400 shares of our common stock (subject to adjustment for stock splits, dividends and the like) (the Investor Shares), any shares of common stock held by Perry in excess of the number of Investor Shares will be deemed to be Subject Shares for purposes of the Voting Agreement. Pursuant to the Voting Agreement, so long as Perry holds or beneficially owns more than 29% of our outstanding common stock, Perry will vote the Additional Shares in the same manner and in proportion to all other shares of common stock present at each annual or special meeting (for purposes of determining the manner and proportion of other shares, the Investor Shares will be excluded). In addition, for a period of one year from the date of the Voting Agreement, if Perry acquires Additional Shares, Perry will vote all Investor Shares in accordance with the recommendation of our board of directors. The Voting Agreement will terminate on the earliest of the following dates: (i) the date that Perry owns a number of shares of common stock that is equal to or less than the number of the Investor Shares and upon which date Perry provides notice to us of such fact, (ii) the date of the closing of a sale, lease, or other disposition of all or substantially all of our assets or our merger into or consolidation with any other corporation or other entity, or any other corporate reorganization, in which the holders of our outstanding voting stock immediately prior to such transaction own, immediately after such transaction, securities representing less than 50% of the voting power (determined on an as-converted basis) of the corporation or other entity surviving such transaction, (iii) the date that is the 10 year anniversary of the execution of the Voting Agreement or (iv) the date as of which we and Perry agree in writing to terminate the Voting Agreement.
