News Release

FOR IMMEDIATE RELEASE

FactSet Research Systems Reports Results for First Quarter of Fiscal Year 2004

Greenwich, Conn. December 16, 2003 FactSet Research Systems Inc. (NYSE: FDS), a major supplier of computer-based financial and economic data to the investment community, today announced its results for the first quarter of fiscal 2004. For the quarter, revenues, rose 12.2% compared to the prior year period to \$59.3 million, net of clearing fees of \$2.2 million. Operating income increased 17.8% to \$21.0 million, net income advanced 20.6% to \$13.9 million and diluted earnings per share rose 18.2% to \$0.39.

FactSet Research Systems Inc.
Consolidated Statements of Income (Condensed and Unaudited)

(In thousands, except per share data)	Three Months Ended November 30,		
	2003	2002	Change
Revenues	\$59,257	\$52,818	12.2 %
Operating income	21,039	17,865	17.8
Net Income	13,908	11,536	20.6
Diluted earnings per share	\$0.39	\$0.33	18.2
Diluted weighted average common shares	35,540	34,729	

Our performance during the past quarter once again reflected the value that FactSet's applications provide to our clients, said Philip A. Hadley, Chairman and CEO. Despite a challenging market environment, we continued to expand our business, and our client retention rate remained above 95%.

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form 8-K

As of November 30th, the Company has 981 clients, representing approximately 19,300 users, subscribed to services totaling \$238.8 million in subscriptions, an increase of 11.6% in the past year. Of this total, subscriptions from FactSet's overseas operations were \$48.8 million.

Subscriptions at any given point in time represent the forward-looking revenues for the next 12 months from all services currently being supplied to clients.

Other operational highlights of the first quarter of fiscal 2004 include:

Revenues from FactSet's European and Pacific Rim operations were \$9.3 million and \$2.7 million, up 14% and 6% respectively, from the same period a year ago.

Demand for FactSet's Portfolio Managers Workstation (PMW) applications continued to rise, with over 355 clients, consisting of approximately 2,600 users, subscribing to the services as of November 30, 2003. FactSet also successfully held its third annual Portfolio Analytics Conference on November 5-7 in San Diego, California.

The Company completed its mainframe computer upgrade by placing in service five Hewlett-Packard Marvel mainframe computers, for a total of eight installed at its two data centers.

The Company released Marquee 2.0, an enhanced version of our real-time market data application.

Page 1 of 6

In the fourth quarter of fiscal 2003, FactSet changed the presentation of its revenues in order to report them on a net rather than gross basis. This restatement had no effect on current or previously reported operating income, net income, earnings per share or stockholders' equity. All the restated quarterly and annual amounts for prior required reporting periods have previously been presented in FactSet's Annual Report on Form 10-K for fiscal 2003. In the first quarter of fiscal 2004, revenue paid in cash totaled \$45.2 million and revenue paid in commissions, net of \$2.2 million in clearing fees, amounted to \$14.1 million.

Business Outlook

The following forward-looking statements reflect FactSet's expectations as of December 16, 2003. Given the number of risk factors, uncertainties and assumptions discussed below, actual results may differ materially. The Company does not intend to update its forward-looking statements until its next quarterly results announcement, other than in publicly available statements.

Second Quarter Fiscal 2004 Expectations

Revenues are expected to range between \$59.5 million and \$61.0 million.

Operating margins are expected to range between 35.0% and 36.0%.

The effective tax rate is expected to range between 36.4% and 36.8%.

Full Year Fiscal 2004

Capital expenditures should total approximately \$35.0 million, which is \$17 million higher than the guidance provided on September 16, 2003. The increase is due largely to anticipated leasehold expenditures related to a potential new corporate headquarters site. The amortization of the leasehold improvements would be expected to begin late in the fourth quarter of fiscal 2004 and amortized over the life of the lease.

This news release contains forward-looking statements based on management's current expectations, estimates and projections. All statements that address expectations or projections about the future, including statements about the Company's strategy for growth, product development, market position, subscriptions and expected expenditures and financial results are forward-looking statements. Forward-looking statements may be identified by words like "expected," "anticipates," "plans," "intends," "projects," "should," "indicates," "continues," "subscriptions" and similar. These statements are not guarantees of future performance and involve a number of risks, uncertainties and assumptions. Many factors, including those discussed more fully elsewhere in this release and in FactSet's filings with the Securities and Exchange Commission, particularly its latest annual report on Form 10-K, as well as others, could cause results to differ materially from those stated. These factors include, but are not limited to, the ability to hire qualified personnel; maintenance of the Company's leading technological position; the impact of global market trends on the Company's revenue growth rate and future results of operations; the negotiation of contract terms with corporate vendors, data suppliers and potential landlords; retention of key clients; the successful resolution of ongoing audits by tax authorities; the continued employment of key personnel; the absence of U.S. or foreign governmental regulation restricting international business; and the sustainability of historical levels of profitability and growth rates in cash flow generation.
