News Release

FOR IMMEDIATE RELEASE

FactSet Research Systems Surpasses \$100 million in Revenues for the Fourth Quarter of Fiscal Year 2006

Norwalk, Connecticut September 19, 2006 FactSet Research Systems Inc. (NYSE: FDS), a leading provider of integrated financial information and analytical applications to the global investment community, today announced its results for the fourth quarter of fiscal 2006.

For the quarter ended August 31, 2006, GAAP revenues increased to \$105.2 million, up 27% compared to the prior year period. GAAP operating income for the fourth quarter rose to \$33.3 million from \$28.8 million in the same period of fiscal 2005. GAAP net income advanced to \$23.4 million as compared to GAAP net income of \$18.6 million a year ago. GAAP diluted earnings per share increased to \$0.46, up from \$0.37 in the same period of fiscal 2005. The effective tax rate for the quarter was 32.5%. Included in the just completed fourth quarter were income tax benefits of \$1.4 million or \$0.03 per share. The income tax benefits resulted from the conclusion of an audit of the Company s U.S. federal income tax returns for fiscal years 2003 and 2004.

GAAP financial measures including operating income, net income and diluted earnings per share have been adjusted to report non-GAAP financial measures that exclude charges related to stock-based compensation and incremental expenses incurred from consolidating office locations in London. Net income and diluted earnings per share have also been adjusted to reflect income tax benefits from the closure of previously filed tax returns. Non-GAAP operating income for the quarter was \$36.7 million, up 27%. Non-GAAP net income advanced 31% to \$24.5 million and non-GAAP diluted earnings per share increased 30% to \$0.48. A reconciliation between GAAP and non-GAAP financial measures is presented on page 8 of this press release.

To aid an investor s ability to make more precise interpretations of FactSet s financial results, a supplementary schedule is presented on page 11 of this press release to summarize revenues related to services that are not included in the calculation of FactSet s subscription value.

Fourth Quarter Financial Highlights

Subscriptions increased \$23.2 million during the quarter and totaled \$422.6 million at August 31, 2006. On a constant currency basis, the subscription increase was \$23.3 million. Of this total, subscriptions from FactSet s domestic operations were \$297.0 million, while overseas operations were \$125.6 million. Demand for FactSet s services continued to rise. Users rose to 29,800, up from 27,900 at the beginning of the quarter. Client count was 1,785 at August 31, a net increase of 63 clients for the quarter. Approximately 475 clients consisting of 3,900 users subscribe to the PA 2.0 application as of August 31, 2006. FactSet s client retention rate continued to be above 95%. Subscriptions at any given point in time represent the forward-looking revenues for the next 12 months from all subscription services currently being supplied to clients.

Other operational highlights of the fourth quarter of fiscal 2006 include:

Organic revenue growth rate rose to 19%.

Revenues from non-US operations increased 38% to \$31.0 million. Excluding the StreamVPN Limited and europrospectus.com Limited acquisitions and holding currencies constant, revenue growth from non-US operations advanced 22%.

The Company incurred incremental expenses of \$1.3 million in connection with previously announced office consolidation in London. The new headquarters for its European operations opened in June 2006.

FactSet repurchased 205,500 shares at an average cost of \$43.02 per share under the share repurchase program. \$36.1 million remains authorized for future share repurchases at August 31, 2006.

Fiscal 2006 Highlights

Free cash flow for fiscal 2006 was \$97.1 million, up 48% over the prior year.

FactSet increased its quarterly dividend 20% from \$0.05 to \$0.06 per share in May 2006.

In September 2005, FactSet acquired all the outstanding share capital of StreamVPN Limited (now known as FactSet Research Systems Limited, the "AlphaMetrics business") for a total purchase price of \$27.1 million.

In February 2006, FactSet acquired all the outstanding share capital of europrospectus.com Limited (now known as FactSet Global Filings Limited, the "Global Filings business") for \$7.5 million in cash. Global Filings provides access to equity, fixed income and derivatives prospectuses.

Employee count at September 1, 2006 was 1,368, up 17% from a year ago. The percentage increase in employee headcount breaks down into 15% from organic growth and 2% from acquisitions over the last twelve months.

Year-to-Date Results of Operations

For the twelve months ended August 31, 2006, revenues increased 24% to \$387.4 million and GAAP operating income rose 11% to \$121.3 million. GAAP net income grew 16% to \$82.9 million while GAAP diluted earnings per share increased 15% to \$1.64.

For the twelve months ended August 31, 2006, non-GAAP operating income advanced 21% to \$132.4 million and non-GAAP net income increased 25% to \$86.9 million. Non-GAAP diluted earnings per share increased 22% to \$1.70 during the twelve months of fiscal 2006 as compared to the same period a year ago. A reconciliation between GAAP and non-GAAP financial measures is presented on page 9 of this press release.

Recent Events and Business Outlook

The following forward-looking statements reflect FactSet s expectations as of September 19, 2006. Given the number of risk factors, uncertainties and assumptions discussed below, actual results may differ materially. The Company does not intend to update its forward-looking statements until its next quarterly results announcement, other than in publicly available statements.

First Quarter Fiscal 2007 Expectations

Revenues are expected to range between \$106 million and \$109 million.

Operating margins are expected to range between 31.5% and 33.5%, including the impact from FAS 123(R).

The effective tax rate is expected to range between 36.0% and 36.8%.

Full Year Fiscal 2007

Capital expenditures should total approximately \$29 million to \$35 million. Approximately 55% relates to computer-related equipment and the remainder for the expansion of various office locations.

Forward looking statements

This news release contains forward-looking statements based on management s current expectations, estimates and projections. All statements that address expectations or projections about the future, including statements about the Company s strategy for growth, product development, market position, subscriptions, expected expenditures and financial results are forward-looking statements. Forward-looking statements may be identified by words like expected, anticipates, plans, intends, projects, should, indicates, continues, subscriptions and similar expected expenditures and involve a number of risks, uncertainties and assumptions. Many factors, including those discussed more fully elsewhere in this release and in FactSet s filings with the Securities and Exchange Commission, particularly its latest annual report on Form 10-K and quarterly reports on Form 10-Q, as well as others, could cause results to differ materially from those stated. These factors include, but are not limited to, the ability to integrate newly acquired companies; the ability to hire qualified personnel; the maintenance of the Company s leading technological position; the impact of global market trends on the Company s revenue growth rate and future results of operations; the negotiation of contract terms with corporate vendors, data suppliers and potential landlords; the retention of key clients; the successful resolution of ongoing audits by tax authorities; the continued employment of key personnel; the absence of U.S. or foreign governmental regulation restricting international business; and the sustainability of historical levels of profitability and growth rates in cash flow generation.

About non-GAAP Financial Measures

GAAP financial measures including income from operations, net income, diluted earnings per common share and cash flows provided by operating activities have been adjusted to exclude charges related to stock-based compensation, incremental expenses incurred in the London real estate consolidation, a gain from the sale of Company-owned real estate and tax benefits from the closure of previously filed tax returns. FactSet s management believes that these non-GAAP financial measures provide meaningful supplemental information regarding its financial results and investors benefit from referring to these non-GAAP financial measures in assessing FactSet s performance and when planning, forecasting and analyzing future periods. These non-GAAP financial measures also facilitate comparisons to FactSet s historical performance.

Page 3 of 11

FactSet uses measures defined as non-GAAP financial measures by the SEC including non-GAAP operating income, non-GAAP net income, non-GAAP diluted earnings per share and non-GAAP cash flows from operations. The presentation of this financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the tables beginning on page 8 of this release captioned Reconciliation of GAAP and non-GAAP Financial Measures.

Conference Call

Reconciliation of GAAP and non-GAAP Financial Measures

The Company s financial statements for prior periods have not been restated for the effect of FAS 123(R). The Company consolidated four office locations in London into one headquarters facility in June 2006. Net income and earnings per share have also been adjusted to reflect tax benefits primarily from the closure of previously filed tax returns. FactSet s management believes that these non-GAAP financial measures provide meaningful supplemental information regarding its financial results and that investors may benefit from referring to these non-GAAP financial measures in assessing FactSet s performance and when planning, forecasting and analyzing future periods. These non-GAAP financial measures may also facilitate comparisons to FactSet s historical performance.
