INFORMATION TO BE INCLUDED IN REPORT

Item 5. Other Events.

On June 11, 2004 registrant issued a press release entitled Halliburton Announces SEC Investigation Regarding Nigerian Joint Venture.

The text of the press release is as follows:

**HALLIBURTON ANNOUNCES SEC INVESTIGATION REGARDING
NIGERIAN JOINT VENTURE**

HOUSTON, Texas - Halliburton (NYSE:HAL) announced today that the United States Securities and Exchange Commission (SEC) has commenced a formal investigation into payments made in connection with TSKJ's construction of a natural gas liquefaction facility in Nigeria. TSKJ is a private limited liability company registered in Madeira, Portugal whose members are Technip SA of France, Snamprogetti Netherlands B.V., which is an affiliate of ENI SpA of Italy, JGC Corporation of Japan, and Kellogg Brown & Root, each of which owns 25% of the venture. The United States Department of Justice and the SEC have met with Halliburton to discuss these matters and have asked Halliburton for cooperation and access to information in reviewing these matters in light of the requirements of the United States Foreign Corrupt Practices Act. While Halliburton does not believe that it has violated the Foreign Corrupt Practices Act, Halliburton's own internal investigation of these matters is ongoing and there can be no assurance that government authorities would not conclude otherwise.

As previously reported, a French magistrate has been investigating this matter. Representatives of Halliburton have recently met with the French magistrate to express their willingness to cooperate with the investigation.

TSKJ and other similarly owned entities have entered into various contracts to build and expand the liquefied natural gas project for Nigeria LNG Limited, which is owned by the Nigerian National Petroleum Corporation, Shell Gas B.V., Cleag Limited (an affiliate of Total), and Agip International B.V.

Halliburton, founded in 1919, is one of the world's largest providers of products and services to the petroleum and energy industries. The company serves its customers with a broad range of products and services through its Energy Services and Engineering and Construction Groups. The company's World Wide Web site can be accessed at www.halliburton.com.

NOTE: The statements in this press release that are not historical statements, including statements regarding future financial performance, are forward-looking statements within the meaning of the federal securities laws. These statements are subject to numerous risks and uncertainties, many of which are beyond the company's control, which could cause actual results to differ materially from the results expressed or implied by the statements. These risks and uncertainties include, but are not limited to: legal risks, including the risks of being unable to complete the proposed settlement of asbestos and silica liabilities, the risks of having material subsidiaries in Chapter 11 proceedings, the risks of audits and investigations of the company by domestic and foreign government agencies and legislative bodies, the risks of judgments against the company's subsidiaries and predecessors in asbestos litigation pending and currently on appeal, the inability of insurers for asbestos exposures to pay claims or a delay in the payment of such claims, future asbestos claims defense and settlement costs, the risks of judgments against the company and its subsidiaries in other litigation and proceedings, including shareholder lawsuits, securities laws inquiries, contract disputes, patent infringements and environmental matters, legislation, changes in government regulations and adverse reaction to scrutiny involving the company; political risks, including the risks of unsettled political conditions, war and the effects of terrorism, foreign operations and foreign exchange rates and controls; liquidity risks, including the risks of potential reductions in debt ratings, access to credit, availability and costs of financing and ability to raise capital; weather-related risks; customer risks, including the risks of changes in capital spending and claims negotiations; industry risks, including the risks of changes that affect the demand for or price of oil and/or gas, structural changes in the industries in which the company operates, risks of fixed-fee projects and risks of complex business arrangements; systems risks, including the risks of successful development and installation of financial systems; and personnel and merger/reorganization/disposition risks, including the risks of increased competition for employees, successful integration of acquired businesses, effective restructuring efforts and successful completion of planned dispositions. Please see Halliburton's Form 10-K/A for the year ended December 31, 2003 and Form 10-Q for the quarter ended March 31, 2004 for a more complete discussion of such risk factors.
