- 1) Includes shares of our common stock, par value \$0.005 per share, which may be offered pursuant to this registration statement, which shares are issuable upon conversion of a convertible debentures and the exercise of warrants held by the selling stockholders. In addition to the shares set forth in the table, the amount to be registered includes an indeterminate number of shares issuable upon conversion of the debentures and the exercise of the warrants as such number may be adjusted as a result of stock splits, stock dividends and similar transactions in accordance with Rule 416. The number of shares of common stock registered hereunder represents a good faith estimate by us of the number of shares of common stock issuable upon conversion of the debentures and upon exercise of the warrants. For purposes of estimating the number of shares of common stock to be included in this registration statement, we calculated a good faith estimate of the number of shares of our common stock that we believe will be issuable upon conversion of the debentures to account for market fluctuations and the number of shares of common stock that we believe will be issuable upon exercise of the warrants to account for antidilution and

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

price protection adjustments. Should the conversion ratio of the secured convertible debentures result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary. In addition, should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price, result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

- (2) Estimated solely for the purpose of determining the registration fee.
- (3) Includes a good faith estimate of the shares underlying the \$800,000 in convertible notes accounting for market fluctuations.
- (4) Common stock issuable upon the conversion of warrants issued in connection with the convertible note.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effectiveness date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said section 8(a), may determine.

PRELIMINARY PROSPECTUS SUBJECT TO COMPLETION, DATED May 13, 2005

Dalrada Financial Corporation
244,571,429 Shares of Common Stock

This prospectus relates to the resale by the selling stockholders of up to 244,571,429 shares of Dalrada Financial Corporation's ("DRDF") (Formerly Imaging Technologies Corporation) common stock, including up to 228,571,429 shares of common stock underlying convertible notes in a principal amount of \$800,000 and up to 16,000,000 shares of common stock issuable upon the exercise of common stock purchase warrants at \$.0187 a share. The convertible notes are basically convertible into common stock at the lower of \$0.02 or 70% of the average of the three lowest closing bid prices of the common stock on the principal market for the sixty trading days before but not including the conversion date. The selling stockholders may sell common stock from time to time in the principal market on which the stock is traded at the prevailing market price or in negotiated transactions. These selling stockholders may be deemed underwriters of the shares of common stock which they are offering within the meaning of Section 2(a)(11) of the Securities Act. We will pay the expenses of registering these shares.

Our Common Stock is registered under Section 12(g) of the Securities Exchange Act of 1934 and is quoted on the OTC Bulletin Board under the symbol "DRDF.ob". On May 12, 2005, the closing bid price of our Common Stock on the OTC Bulletin Board was \$.0026.

PROSPECTUS SUMMARY

This summary contains all material terms of the offering. To understand this offering fully, you should read the entire document carefully. Please pay particular attention to the section entitled "RISK FACTORS" and the section entitled "Financial Statements".

Unless otherwise indicated, this Prospectus assumes that any of DRDF's outstanding options or warrants have not been exercised into shares of DRDF's Common Stock.

DALRADA FINANCIAL CORPORATION

Dalrada Financial Corporation (OTCBB symbol: DRDF) ("DRDF" or the "Company") (formerly Imaging Technologies Corporation) was incorporated in March

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

1982 under the laws of the State of California, and reincorporated in May 1983 under the laws of the State of Delaware. The Company's principal executive offices are located at 17075 via Del Campo, San Diego, CA 92127. The Company's main phone number is (858) 451-6120.

We provide a variety of financial services to small and medium-size businesses. These services allow our customers to outsource many human resources tasks, including payroll processing, workers' compensation insurance, health insurance, employee benefits, 401k investment services, personal financial management, and income tax consultation. In November 2001, we began to provide these financial services that relieve existing and potential customers of the burdens associated with personnel management and control. To this end, the Company, through strategic acquisitions, became a professional employer organization ("PEO").

DRDF provides financial services principally through its wholly-owned SourceOne Group, Inc. ("SOG") subsidiary, which includes several operating units, including ProSportsHR(TM), MedicalHR(TM), and, CallCenterHR(TM) (established subsequent to June 30, 2003). These units provide a broad range of financial services, including: benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, employer liability management, and (in the case of MedicalHR and CallCenterHR), temporary staffing services, to small and medium-sized businesses.

In January 2003, we completed the acquisition of a controlling interest approximating 88% of the shares of Greenland Corporation. Greenland shares are traded on the NASD Electronic Bulletin Board under the symbol GRLC. Greenland is a financial services company, whose wholly-owned ExpertHR(TM) subsidiary provides the same services as SOG. Greenland's wholly-owned Check Central, Inc. subsidiary is an information technology company that has developed the Check Central Solutions' transaction processing system software and related MAXcash(TM) Automated Banking Machine(TM) (ABM(TM) kiosk designed to provide self-service check cashing and ATM-banking functionality). At present, there is no activity in this subsidiary; and management is evaluating its future. Subsequently, in March 2004, we entered into an agreement with Greenland to return most of our shares in Greenland in return for Greenland's forgiveness of certain DRDF indebtedness and business opportunities. Also see "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION - ACQUISITIONS, DISPOSITIONS AND SALE OF BUSINESS UNITS."

In January 2003, we completed the acquisition of a controlling interest (approximately 85%) in the shares of Quik Pix, Inc. ("QPI"). QPI shares are traded on the National Quotation Bureau Pink Sheets(R) under the symbol QPIX. QPI is a visual marketing support firm located in Buena Park, California. QPI's major source of revenues is in developing and mounting photographic and digital images for use in display advertising for tradeshows and customer building interiors. QPI also has a proprietary product PhotoMotion(TM), which is a patented, color medium of multi-image transparencies. The process uses existing originals to create the illusion of movement, and allows for three to five distinct images to be displayed with an existing lightbox.

In prior years, we were principally involved in the development and distribution of imaging products. Our core technologies are related to the design and development of software products that improve the accuracy of color reproduction. Our ColorBlind(R) software provides color management to improve the accuracy of color reproduction - especially as it relates to matching color between different devices in a network, such as monitors and printers. These products are now supported and distributed by QPI. Additionally, we market our ColorBlind software products on the Internet through our color.com website.

THE OFFERING

Securities Offered by Selling Shareholders	Up to 244,571,429 including i) up to 228,571 common stock underlying convertible debenture (reserve) in the aggregate amount of \$800,000 16,000,000 shares of common stock issuable upon exercise of purchase warrants at an exercise price per share equal to the Closing trade price as reported by Bloomberg OTC Bulletin Board for the trading day preceding the closing date.
Common Stock Outstanding after the offering...	Up to 967,490,814 Shares
Offering Price	The selling shareholders can sell the shares at the market price.
Use of Proceeds	This prospectus relates to shares of DRDF's common stock that may be offered and sold from time to time by the selling shareholders. We will not receive any proceeds from the sale of shares by the selling shareholders. However, we will receive proceeds upon the exercise of any warrants issued by the selling shareholders. These proceeds will be used for ongoing operations.
Market for our Common Stock	Our Common Stock is quoted on the Over-the-Counter Market Board, also called OTCBB, under the trading symbol DALR. The market for our Common Stock is highly volatile and there is no assurance that there will be a market in our Common Stock.

The above information regarding common stock to be outstanding after the offering is based on 722,919,389 SHARES OF COMMON STOCK OUTSTANDING AS OF APRIL 30, 2005 and assumes the subsequent conversion of the \$800,000 issued convertible debenture and the exercise of warrants.

On December 17, 2003, DRDF entered into a Subscription Agreement for \$800,000, whereby we issued convertible debentures bearing 8% annual interest rate, to the following: 1) \$225,000 to Alpha Capital Aktiengesellschaft, 2) \$200,000 to Gamma Opportunity Capital Partners, LP, 3) \$200,000 to the Longview Fund, L.P. and 4) \$150,000 to Stonestreet Limited Partnership. The convertible debentures can be converted into shares of common stock with the conversion price per share being the lower of (i) \$.02 or (ii) seventy percent (70%) of the average of the three lowest closing bid prices for the sixty (60) trading days prior to but not including the conversion date for the common stock.

The holders of the 8% convertible debentures may not convert its securities into shares of DRDF's common stock if after the conversion such holder would beneficially own over 9.9% of the outstanding shares of DRDF's common stock. The holder may waive this percent ownership restriction upon not less than 61 days notice to DRDF. Since the number of shares of DRDF's common stock issuable upon conversion of the debentures will change based upon fluctuations of the market price of DRDF's common stock prior to a conversion, the actual number of shares

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

of DRDF's common stock that will be issued under the debentures owned by the holders is based on a reasonable good faith estimate of the maximum amount needed.

DRDF issued in conjunction with these convertible debentures warrants to purchase 16,000,000 shares of common with at an exercise price of \$.0187 per share.

See the "Selling Stockholders" and "Risk Factors" sections for a complete description of the secured convertible notes.

RISK FACTORS

AN INVESTMENT IN SHARES OF DRDF'S COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING INFORMATION, WHICH SUMMARIZES ALL MATERIAL RISKS, TOGETHER WITH THE OTHER INFORMATION CONTAINED IN THIS PROSPECTUS, BEFORE YOU DECIDE TO BUY DRDF'S COMMON STOCK. IF ANY OF THE FOLLOWING RISKS ACTUALLY OCCUR, DRDF'S BUSINESS WOULD LIKELY SUFFER. IN THESE CIRCUMSTANCES, THE MARKET PRICE OF DRDF'S COMMON STOCK COULD DECLINE, AND YOU MAY LOSE ALL OR PART OF YOUR INVESTMENT.

RISKS RELATING TO OUR BUSINESS:

IF WE ARE UNABLE TO SECURE FUTURE CAPITAL, WE WILL BE UNABLE TO CONTINUE OUR OPERATIONS.

Our business has not been profitable in the past and it may not be profitable in the future. We may incur losses on a quarterly or annual basis for a number of reasons, some within and others outside our control. See "Potential Fluctuation in Our Quarterly Performance." The growth of our business will require the commitment of substantial capital resources. If funds are not available from operations, we will need additional funds. We may seek such additional funding through public and private financing, including debt or equity financing. Adequate funds for these purposes, whether through financial markets or from other sources, may not be available when we need them. Even if funds are available, the terms under which the funds are available to us may not be acceptable to us. Insufficient funds may require us to delay, reduce or eliminate some or all of our planned activities.

To successfully execute our current strategy, we will need to improve our working capital position. The report of our independent auditors accompanying the Company's June 30, 2003 financial statements includes an explanatory paragraph indicating there is a substantial doubt about the Company's ability to continue as a going concern, due primarily to the decreases in our working capital and net worth. The Company plans to overcome the circumstances that impact our ability to remain a going concern through a combination of increased revenues and decreased costs, with interim cash flow deficiencies being addressed through additional equity financing.

IF OUR QUARTERLY PERFORMANCE CONTINUES TO FLUCTUATE, IT MAY HAVE A NEGATIVE IMPACT ON OUR BUSINESS.

Our quarterly operating results can fluctuate significantly depending on a number of factors, any one of which could have a negative impact on our results of operations. We may experience significant quarterly fluctuations in revenues and operating expenses as we introduce new products and services. Accordingly, any inaccuracy in our forecasts could adversely affect our financial condition

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

and results of operations. Demand for our products and services could be adversely affected by a slowdown in the overall demand for imaging products and/or financial and PEO services. Our failure to complete shipments during a quarter could have a material adverse effect on our results of operations for that quarter. Quarterly results are not necessarily indicative of future performance for any particular period.

SINCE MANY OF OUR COMPETITORS HAVE GREATER FINANCIAL AND MARKETING RESOURCES THAN WE DO, WE MAY EXPERIENCE A REDUCTION IN MARKET SHARE AND REVENUES.

The markets for our products and services are highly competitive and rapidly changing. Some of our current and prospective competitors have significantly greater financial, technical, and marketing resources than we do. Our ability to compete in our markets depends on a number of factors, some within and others outside our control. These factors include: the frequency and success of product and services introductions by us and by our competitors, the selling prices of our products and services and of our competitors' products and services, the performance of our products and of our competitors' products, product distribution by us and by our competitors, our marketing ability and the marketing ability of our competitors, and the quality of customer support offered by us and by our competitors.

The PEO industry is highly fragmented. While many of our competitors have limited operations, there are several PEO companies equal or substantially greater in size than ours. We also encounter competition from "fee-for-service" companies such as payroll processing firms, insurance companies, and human resources consultants. The large PEO companies have substantially more resources than us and provide a broader range of resources than we do.

IF WE ACQUIRE COMPLEMENTARY BUSINESSES, WE MAY NOT BE ABLE TO EFFECTIVELY INTEGRATE THEM INTO OUR CURRENT OPERATIONS, WHICH WOULD ADVERSELY AFFECT OUR OVERALL FINANCIAL PERFORMANCE.

7

In order to grow our business, we may acquire businesses that we believe are complementary. To successfully implement this strategy, we must identify suitable acquisition candidates, acquire these candidates on acceptable terms, integrate their operations and technology successfully with ours, retain existing customers and maintain the goodwill of the acquired business. We may fail in our efforts to implement one or more of these tasks. Moreover, in pursuing acquisition opportunities, we may compete for acquisition targets with other companies with similar growth strategies. Some of these competitors may be larger and have greater financial and other resources than we do. Competition for these acquisition targets likely could also result in increased prices of acquisition targets and a diminished pool of companies available for acquisition. Our overall financial performance will be materially and adversely affected if we are unable to manage internal or acquisition-based growth effectively. Acquisitions involve a number of risks, including: integrating acquired products and technologies in a timely manner, integrating businesses and employees with our business, managing geographically-dispersed operations, reductions in our reported operating results from acquisition-related charges and amortization of goodwill, potential increases in stock compensation expense and increased compensation expense resulting from newly-hired employees, the diversion of management attention, the assumption of unknown liabilities, potential disputes with the sellers of one or more acquired entities, our inability to maintain customers or goodwill of an acquired business, the need to divest unwanted assets or products, and the possible failure to retain key acquired personnel.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Client satisfaction or performance problems with an acquired business could also have a material adverse effect on our reputation, and any acquired business could significantly under perform relative to our expectations. We cannot be certain that we will be able to integrate acquired businesses, products or technologies successfully or in a timely manner in accordance with our strategic objectives, which could have a material adverse effect on our overall financial performance.

In addition, if we issue equity securities as consideration for any future acquisitions, existing stockholders will experience ownership dilution and these equity securities may have rights, preferences or privileges superior to those of our common stock.

IF WE ARE UNABLE TO DEVELOP AND/OR ACQUIRE NEW PRODUCTS IN A TIMELY MANNER, WE MAY EXPERIENCE A SIGNIFICANT DECLINE IN SALES AND REVENUES, WHICH MAY HURT OUR ABILITY TO CONTINUE OPERATIONS.

The markets for our products are characterized by rapidly evolving technology, frequent new product introductions and significant price competition. Consequently, short product life cycles and reductions in product selling prices due to competitive pressures over the life of a product are common. Our future success will depend on our ability to continue to develop new versions of our ColorBlind software, and to acquire competitive products from other manufacturers. We monitor new technology developments and coordinate with suppliers, distributors and dealers to enhance our products and to lower costs. If we are unable to develop and acquire new, competitive products in a timely manner, our financial condition and results of operations will be adversely affected.

IF WE ARE FOUND TO BE INFRINGING ON A COMPETITOR'S INTELLECTUAL PROPERTY RIGHTS OR IF WE ARE REQUIRED TO DEFEND AGAINST A CLAIM OF INFRINGEMENT, WE MAY BE REQUIRED TO REDESIGN OUR PRODUCTS OR DEFEND A LEGAL ACTION AT SUBSTANTIAL COSTS TO US.

We currently hold only one patent through our QPI subsidiary for its Photomotion product. Our software products are copyrighted. However, copyright protection does not prevent other companies from emulating the features and benefits provided by our software. We protect our software source code as trade secrets and make our proprietary source code available to OEM customers only under limited circumstances and specific security and confidentiality constraints.

IF OUR DISTRIBUTORS REDUCE OR DISCONTINUE SALES OF OUR PRODUCTS, OUR BUSINESS MAY BE MATERIALLY AND ADVERSELY AFFECTED.

Our products are marketed and sold through a distribution channel of value added resellers, manufacturers' representatives, retail vendors, and systems integrators. We have a small network of dealers and distributors in the United States and internationally. We support our worldwide distribution network and end-user customers through operations headquartered in San Diego.

Portions of our sales are made through distributors, who may carry competing product lines. These distributors could reduce or discontinue sales of our products, which could adversely affect us. These independent distributors may not devote the resources necessary to provide effective sales and marketing support of our products. In addition, we are dependent upon the continued viability and financial stability of these distributors, many of which are small

organizations with limited capital. These distributors, in turn, are

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

substantially dependent on general economic conditions and other unique factors affecting our markets.

INCREASES IN HEALTH INSURANCE PREMIUMS, UNEMPLOYMENT TAXES, AND WORKERS' COMPENSATION RATES WILL HAVE A SIGNIFICANT EFFECT ON OUR FUTURE FINANCIAL PERFORMANCE.

Health insurance premiums, state unemployment taxes, and workers' compensation rates are, in part, determined by our PEO companies' claims experience, and comprise a significant portion of our direct costs. We employ risk management procedures in an attempt to control claims incidence and structure our benefits contracts to provide as much cost stability as possible. However, should we experience a large increase in claims activity, the unemployment taxes, health insurance premiums, or workers' compensation insurance rates we pay could increase. Our ability to incorporate such increases into service fees to clients is generally constrained by contractual agreements with our clients. Consequently, we could experience a delay before such increases could be reflected in the service fees we charge. As a result, such increases could have a material adverse effect on our financial condition or results of operations.

WE CARRY SUBSTANTIAL LIABILITY FOR WORKSITE EMPLOYEE PAYROLL AND BENEFITS COSTS.

Under our client service agreements, we become a co-employer of worksite employees and we assume the obligations to pay the salaries, wages, and related benefits costs and payroll taxes of such worksite employees. We assume such obligations as a principal, not merely as an agent of the client company. Our obligations include responsibility for (a) payment of the salaries and wages for work performed by worksite employees, regardless of whether the client company makes timely payment to us of the associated service fee; and (2) providing benefits to worksite employees even if the costs incurred by us to provide such benefits exceed the fees paid by the client company. If a client company does not pay us, or if the costs of benefits provided to worksite employees exceed the fees paid by a client company, our ultimate liability for worksite employee payroll and benefits costs could have a material adverse effect on the our financial condition or results of operations.

AS A MAJOR EMPLOYER, OUR OPERATIONS ARE AFFECTED BY NUMEROUS FEDERAL, STATE, AND LOCAL LAWS RELATED TO LABOR, TAX, AND EMPLOYMENT MATTERS.

By entering into a co-employer relationship with employees assigned to work at client company locations, we assume certain obligations and responsibilities or an employer under these laws. However, many of these laws (such as the Employee Retirement Income Security Act ("ERISA") and federal and state employment tax laws) do not specifically address the obligations and responsibilities of non-traditional employers such as PEOs; and the definition of "employer" under these laws is not uniform. Additionally, some of the states in which we operate have not addressed the PEO relationship for purposes of compliance with applicable state laws governing the employer/employee relationship. If these other federal or state laws are ultimately applied to our PEO relationship with our worksite employees in a manner adverse to us, such an application could have a material adverse effect on our financial condition or results of operations.

While many states do not explicitly regulate PEOs, over 20 states have passed laws that have licensing or registration requirements for PEOs, and several other states are considering such regulation. Such laws vary from state to state, but generally provide for monitoring the fiscal responsibility of PEOs and, in some cases, codify and clarify the co-employment relationship for unemployment, workers' compensation, and other purposes under state law. There can be no assurance that we will be able to satisfy licensing requirements of other applicable relations for all states. Additionally, there can be no assurance that we will be able to renew our licenses in all states.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

THE MAINTENANCE OF HEALTH AND WORKERS' COMPENSATION INSURANCE PLANS THAT COVER WORKSITE EMPLOYEES IS A SIGNIFICANT PART OF OUR BUSINESS.

The current health and workers' compensation contracts are provided by vendors with whom we have an established relationship, and on terms that we believe to be favorable. While we believe that replacement contracts could be secured on competitive terms without causing significant disruption to our business, there can be no assurance in this regard.

OUR STANDARD AGREEMENTS WITH PEO CLIENTS ARE SUBJECT TO CANCELLATION ON 60-DAYS WRITTEN NOTICE BY EITHER THE COMPANY OR THE CLIENT.

Accordingly, the short-term nature of our client service agreements make us vulnerable to potential cancellations by existing clients, which could materially and adversely affect our financial condition and results of

9

operations. Additionally, our results of operations are dependent, in part, upon our ability to retain or replace client companies upon the termination or cancellation of our agreements.

A NUMBER OF PEO INDUSTRY LEGAL ISSUES REMAIN UNRESOLVED WITH RESPECT TO THE CO-EMPLOYMENT AGREEMENT BETWEEN A PEO AND ITS WORKSITE EMPLOYEES, INCLUDING QUESTIONS CONCERNING THE ULTIMATE LIABILITY FOR VIOLATIONS OF EMPLOYMENT AND DISCRIMINATION LAWS.

Our client service agreement establishes a contractual division of responsibilities between our clients and us for various personnel management matters, including compliance with and liability under various government regulations. However, because we act as a co-employer, we may be subject to liability for violations of these or other laws despite these contractual provisions, even if we do not participate in such violations. Although our agreement provides that the client is to indemnify us for any liability attributable to the conduct of the client, we may not be able to collect on such a contractual indemnification claim, and thus may be responsible for satisfying such liabilities. Additionally, worksite employees may be deemed to be our agents, subjecting us to liability for the actions of such worksite employees.

IF THE SUPERIOR SECURITY INTEREST HELD BY IMPERIAL BANK IS REMOVED AND IF ALL OF THE LAWSUITS CURRENTLY FILED WERE DECIDED AGAINST US AND/OR ALL THE JUDGMENTS CURRENTLY OBTAINED AGAINST US WERE TO BE IMMEDIATELY COLLECTED, WE WOULD HAVE TO CEASE OUR OPERATIONS.

Throughout fiscal 2001, 2002 and 2003, and through the date of this filing, approximately fifty trade creditors have made claims and/or filed actions alleging the failure of us to pay our obligations to them in a total amount exceeding \$3 million. These actions are in various stages of litigation, with many resulting in judgments being entered against us. Several of those who have obtained judgments have filed judgment liens on our assets. These claims range in value from less than one thousand dollars to just over one million dollars, with the great majority being less than twenty thousand dollars. Should we be required to pay the full amount demanded in each of these claims and lawsuits, we may have to cease our operations. However, to date, the superior security interest held by Imperial Bank has prevented nearly all of these trade creditors from collecting on their judgments.

IF OUR OPERATIONS CONTINUE TO RESULT IN A NET LOSS, NEGATIVE WORKING CAPITAL AND A DECLINE IN NET WORTH, AND WE ARE UNABLE TO OBTAIN NEEDED FUNDING, WE MAY BE FORCED TO DISCONTINUE OPERATIONS.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

For several recent periods, up through the present, we had a net loss and negative working capital, which raises substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve revenue targets due to insufficient working capital. Our ability to continue operations will depend on positive cash flow, if any, from future operations and on our ability to raise additional funds through equity or debt financing. Although we have reduced our work force, suspended some of our operations, and entered into new market segments (financial services), if we are unable to achieve the necessary revenues or raise or obtain needed funding, we may be forced to discontinue operations.

IF AN OPERATIONAL RECEIVER IS REINSTATED TO CONTROL OUR OPERATIONS, WE MAY NOT BE ABLE TO CARRY OUT OUR BUSINESS PLAN.

On August 20, 1999, at the request of Imperial Bank, our primary lender, the Superior Court, San Diego appointed an operational receiver to us. On August 23, 1999, the operational receiver took control of our day-to-day operations. On June 21, 2000, the Superior Court, San Diego issued an order dismissing the operational receiver as a part of a settlement of litigation with Imperial Bank pursuant to the Settlement Agreement effective as of June 20, 2000. The Settlement Agreement requires that we make monthly payments of \$150,000 to Imperial Bank until the indebtedness is paid in full. This agreement does not require us to pay any interest unless we default on the settlement agreement and fail to cure the default. Regardless, we have continued to accrue interest on this debt until it has been paid and there is no possibility that such interest will become due and payable. However, in the future, without additional funding sufficient to satisfy Imperial Bank and our other creditors, as well as providing for our working capital, there can be no assurances that an operational receiver may not be reinstated. If an operational receiver is reinstated, we will not be able to expand our products nor will we have complete control over sales policies or the allocation of funds.

The penalty for noncompliance of the Settlement Agreement is a stipulated judgment that allows Imperial Bank to immediately reinstate the operational receiver and begin liquidation proceedings against us. Our current arrangement with CoAmerica Bank (formerly Imperial Bank) reduces our monthly payments of \$50,000. The remaining balance due as of June 30, 2004, is \$3.1 million.

10

WE HAVE NOT REMAINED CURRENT IN OUR PAYMENT OF FEDERAL AND STATE INCOME AND OTHER PAYROLL-RELATED TAXES WITHHELD IN OUR PEO BUSINESS.

We have not been able to remain current in our payments of federal and state tax obligations related to our PEO operations. We are currently working with the Internal Revenue Service and state agencies to resolve these issues and establish repayment plans. If we are not able to establish repayment plans that allow us to continue our operations, we may be forced to cease doing business in the financial services marketplace. The amount due as of June 30, 2004 is approximately \$5.3 million.

RISKS RELATING TO OUR CURRENT FINANCING ARRANGEMENT:

THE CONTINUOUSLY ADJUSTABLE CONVERSION PRICE FEATURE OF OUR CONVERTIBLE NOTES COULD REQUIRE US TO ISSUE A SUBSTANTIALLY GREATER NUMBER OF SHARES, WHICH WILL CAUSE DILUTION TO OUR EXISTING STOCKHOLDERS.

There are a large number of shares underlying the convertible note and warrants

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

in this offering that may be available for future sale and the sale of these shares may depress the market price of DRDF's common stock and may cause substantial dilution to DRDF's existing stockholders.

The number of shares of common stock issuable upon conversion of the convertible note in this offering may increase if the market price of DRDF's stock declines. All of the shares, including all of the shares issuable upon conversion of the notes and debentures and upon exercise of DRDF's warrants, may be sold without restriction. The sale of these shares may adversely affect the market price of DRDF's common stock. The issuance of shares upon conversion of the convertible notes and debentures and exercise of outstanding warrants will also cause immediate and substantial dilution to DRDF's existing stockholders and may make it difficult to obtain additional capital.

In addition, our obligation to issue shares upon conversion of our convertible notes is essentially limitless. The following gives examples of the number of shares that would be issued if the \$800,000 of convertible notes in this offering were converted at one time at prices representing 25%, 50%, and 75% below the current market price (assuming a conversion price to the note holders of \$0.0026). As of April 30, 2005, we had 722,919,389 shares of common stock outstanding.

% Below Market -----	Price Per Share -----	With Discount at 30% -----	Number of Shares Issuable -----	% of Outstanding Stock -----
25%	\$0.00195	\$0.00137	583,941,606	81%
50%	\$0.0013	\$0.00091	879,120,879	122%
75%	\$0.00066	\$0.00046	1,739,130,435	240%

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR CONVERTIBLE NOTES AND WARRANTS THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY DEPRESS THE MARKET PRICE OF OUR COMMON STOCK

As of April 30, 2005, we had 722,919,389 shares of common stock issued and outstanding and convertible notes outstanding that may be converted into an estimated 307,692,308 shares of common stock at current market prices, and outstanding warrants to purchase 16,000,000 shares of common stock. In addition, the number of shares of common stock issuable upon conversion of the outstanding convertible notes may increase if the market price of our stock declines. All of the shares, including all of the shares issuable upon conversion of the notes and upon exercise of our warrants, may be sold without restriction. The sale of these shares may adversely affect the market price of our common stock. As the market price declines, then the callable secured convertible notes will be convertible into an increasing number of shares of common stock resulting in dilution to our shareholders.

FUNDING BY ISSUING DEBT THAT CONVERTS AT EITHER A FIXED LOW PRICE OR AT A DISCOUNT MAY HAVE THE EFFECT OF SETTING A CEILING ON YOUR STOCK AS THE INVESTORS CONVERT AND SELL IN LARGE AMOUNTS.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Investors usually convert and sell at times when there is enough trading volume to absorb blocks of stock without driving the price of the stock down. This method of converting and selling into the market sometimes has the effect of preventing the price of the stock to rise, resulting in a temporary ceiling in the stock price. This ceiling has the possibility of remaining in place until the convertible note holders have fully converted out of their convertible notes.

RISKS RELATING TO OUR STOCK:

DRDF'S COMMON STOCK IS SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC AND THE TRADING MARKET IN DRDF'S SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN DRDF'S STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN DRDF'S STOCK.

DRDF's shares of Common Stock are "penny stocks" as defined in the Exchange Act, which are quoted in the over-the-counter market on the OTC Bulletin Board. As a result, an investor may find it more difficult to dispose of or obtain accurate quotations as to the price of the shares of the Common Stock being registered hereby. In addition, the "penny stock" rules adopted by the Commission under the Exchange Act subject the sale of the shares of the Common Stock to certain regulations which impose sales practice requirements on broker-dealers. For example, broker-dealers selling such securities must, prior to effecting the transaction, provide their customers with a document that discloses the risks of investing in such securities. Included in this document are the following:

- o The bid and offer price quotes for the penny stock, and the number of shares to which the quoted prices apply.
- o The brokerage firm's compensation for the trade.
- o The compensation received by the brokerages firm's salesperson for the trade.

In addition, the brokerage firm must send the investor:

- o Monthly account statement that gives an estimate of the value of each penny stock in your account.
- o A written statement of your financial situation and investment goals.

Legal remedies, which may be available to you, are as follows:

- o If penny stocks are sold to you in violation of your rights listed above, or other federal or state securities laws, you may be able to cancel your purchase and get your money back.
- o If the stocks are sold in a fraudulent manner, you may be able to sue the persons and firms that caused the fraud for damages.
- o If you have signed an arbitration agreement, however, you may have to pursue your claim through arbitration.

If the person purchasing the securities is someone other than an accredited investor or an established customer of the broker-dealer, the broker-dealer must also approve the potential customer's account by obtaining information concerning the customer's financial situation, investment experience and investment objectives. The broker-dealer must also make a determination whether the transaction is suitable for the customer and whether the customer has sufficient knowledge and experience in financial matters to be reasonably expected to be capable of evaluating the risk of transactions in such securities. Accordingly, the Commission's rules may limit the number of potential purchasers of the shares of the Common Stock.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

RESALE RESTRICTIONS ON TRANSFERRING "PENNY STOCKS" ARE SOMETIMES IMPOSED BY SOME STATES, WHICH MAY MAKE TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

Various state securities laws impose restrictions on transferring "penny stocks" and as a result, investors in the Common Stock may have their ability to sell their shares of the Common Stock impaired. For example, the Utah Securities Commission prohibits brokers from soliciting buyers for "penny stocks", which makes selling them more difficult.

DRDF'S ABSENCE OF DIVIDENDS OR THE ABILITY TO PAY THEM PLACES A LIMITATION ON ANY INVESTORS RETURN.

12

DRDF anticipates that for the foreseeable future, earnings will be retained for the development of its business. Accordingly, DRDF does not anticipate paying dividends on the common stock in the foreseeable future. The payment of future dividends will be at the sole discretion of DRDF's Board of Directors and will depend on DRDF's general business condition.

INFORMATION ABOUT FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements, which involve substantial risks and uncertainties. These forward-looking statements can generally be identified because the context of the statement includes words such as "may," "will," "except," "anticipate," "intend," "estimate," "continue," "believe," or other similar words. Similarly, this prospectus also contains forward-looking statements about our future. Forward-looking statements include statements about our:

Plans, Objectives, Goals, Strategies, Expectations for the future, Future performance and events, Underlying assumptions for all of the above and other statements, which are not statements of historical facts.

These forward-looking statements involve risks and uncertainties discussed in the risk factor section (see page 7), which could cause our actual results to materially differ from our forward-looking statements. We make these forward-looking statements based on our analysis of internal and external historical trends, but there can be no assurance that we will achieve the results set forth in these forward-looking statements. Our forward-looking statements are expressed in good faith and we believe that there is a reasonable basis for us to make them.

We have no obligation to update or revise these forward-looking statements to reflect future events.

USE OF PROCEEDS

DRDF will not receive any of the proceeds from the sale of the shares of common stock offered by the selling shareholders under this prospectus. There are warrants being issued with the current funding. If the warrants were exercised, the maximum DRDF would receive are proceeds of approximately \$240,000.

If the resale of the warrant shares fails to be registered pursuant to an effective registration statement under the Securities Act, this warrant may affect a cashless exercise, including a calculation of the number of shares of Common Stock to be issued upon such exercise. In the event of a Cashless

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Exercise, in lieu of paying the Exercise Price in cash, the holder shall surrender this Warrant for that number of shares of Common Stock determined by multiplying the number of Warrant Shares to which it would otherwise be entitled by a fraction, the numerator of which shall be the difference between the then current market price per share of the common stock and the exercise price, and the denominator of which shall be the then current market price per share of common stock. For example, if the holder is exercising 100,000 warrants with a per warrant exercise price of \$0.75 per share through a cashless exercise when the Common Stock's current Market Price per share is \$2.00 per share, the holder will receive 62,500 shares of Common Stock.

The proceeds, if any, that DRDF receives from the exercise of warrants will be used for working capital in support of the growing business.

The foregoing represents DRDF's current best estimate of our use of the proceeds derived from the exercise of the warrants to purchase the shares of Common Stock offered in this prospectus, if any, based upon our present plans, the state of our business operations and current conditions in the industry in which we operate. DRDF reserves the right to change the use of the proceeds if unanticipated developments in our business, business opportunities, or changes in economic, regulatory or competitive conditions, make shifts in the allocations of proceeds necessary or desirable.

DIVIDENDS

We have never declared nor paid any cash dividends on our common stock. We currently intend to retain earnings, if any, after any payment of dividends on our 5% Convertible Preferred Stock, for use in our business and therefore, do not anticipate paying any cash dividends on our common stock.

Holders of the 5% Convertible Preferred Stock are entitled to receive, when and as declared by the Board of Directors, but only out of amounts legally available for the payment thereof, cumulative cash dividends at the annual rate of \$50.00 per share, payable semi-annually, commencing on October 15, 1986. DRDF has never declared nor paid any cash dividends on the 5% Convertible Preferred Stock. Dividends in arrears at June 30, 2004 were \$421 thousand.

We do not anticipate paying dividends on the 5% Convertible Preferred Stock in the near future. However, the 5% Convertible Preferred Stock is convertible, at any time, into shares of DRDF common stock, at a price of \$17.50 per common share. This conversion price is subject to certain anti-dilution adjustments, in the event of certain future stock splits or dividends, mergers, consolidations or other similar events. In addition, we shall reserve, and keep reserved, out of our authorized but un-issued shares of common stock, sufficient shares to effect the conversion of all shares of the 5% convertible preferred stock.

On August 9, 2002, pursuant to shareholder authorization, we implemented a 1-for-20 reverse split of our common stock. All share and per share data in this Form 10-K have been retroactively restated to reflect this reverse stock split.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

The following discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto included in the Company Annual Report on Form 10-KSB for the year ended June 30, 2004. The statements contained in this Report on Form 10-QSB that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding: future product or product development; future research and development spending and our product development strategies, and are generally identifiable by the use of the words "may", "should", "expect", "anticipate", "estimates", "believe", "intend", or "project" or the negative thereof or other variations thereon or comparable terminology. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements (or industry results, performance or achievements) expressed or implied by these forward-looking statements to be materially different from those predicted. The factors that could affect our actual results include, but are not limited to, the following: general economic and business conditions, both nationally and in the regions in which we operate; competition; changes in business strategy or development plans; our inability to retain key employees; our inability to obtain sufficient financing to continue to expand operations; and changes in demand for products by our customers.

OVERVIEW

We provide a variety of financial services to small and medium-size businesses. These services allow our customers to outsource many human resources tasks, including payroll processing, workers' compensation insurance, health insurance, employee benefits, 401k investment services, personal financial management, and income tax consultation. In November 2001, we began to provide these services to relieve some of the negative impact they have on the business operations of our existing and potential customers. To this end, through strategic acquisitions, we became a professional employer organization ("PEO").

We provide financial services principally through our wholly-owned SourceOne Group, Inc. ("SOG") subsidiary. These units provide a broad range of financial services, including: benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, and employer liability management. Through our Jackson Staffing subsidiary (and MedicalHR and CallCenterHR operating units), we provide temporary staffing services to small

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

and medium-sized businesses - primarily to call centers and medical facilities.

In January 2003, we completed the acquisition of controlling interest (approximately 85%) in the shares of Greenland Corporation whose shares are traded on the NASD Electronic Bulletin Board under the symbol GRLC. Subsequently, in March 2004, we entered into an agreement with Greenland to return most of our shares in Greenland in return for Greenland's forgiveness of certain DRDF indebtedness and business opportunities.

In January 2003, we completed the acquisition of a controlling interest (85%) in the shares of Quik Pix, Inc. ("QPI"). QPI shares are traded on the National Quotation Bureau Pink Sheets under the symbol QPIX. QPI is a visual marketing support firm located in Buena Park, California. Its principal service is to provide photographic and digital images mounted for customer displays in tradeshow and other displays. Its principal product, PhotoMotion is a patented color medium of multi-image transparencies. The process uses existing originals to create the illusion of movement, and allows for six to five distinct images to be displayed with an existing lightbox.

In September 2003, we hired two key persons and acquired the operations of the temporary staffing service then owned by Jackson Staffing, LLC. In order to formalize this arrangement, we entered into an acquisition agreement with Jackson Staffing effective September 1, 2003 and accordingly, the financial statements of Jackson Staffing from September 1, 2003 are included in our financial statements.

In April 2004, we transferred our ColorBlind software technology to QPI. ColorBlind software provides color management to improve the accuracy of color reproduction - especially as it relates to matching color between different devices in a network, such as monitors and printers. ColorBlind software products are marketed internationally through direct distribution, resellers, and on the internet through our color.com website.

Our business continues to experience operational and liquidity challenges. Accordingly, year-to-year financial comparisons may be of limited usefulness now and for the next several periods due to anticipated changes in our business as these changes relate to potential acquisitions of new businesses and changes in products and services.

16

On June 28, 2004, we completed an acquisition of certain assets of M&M Nursing (M&M"). The purchase price was 5,000,000 shares of our common stock valued at \$31 plus the assumption of \$204 of liabilities. M&M is a temporary staffing agency primarily for nurses.

On December 1, 2004, we completed our acquisition of 70% of Info Services, Inc. ("Info"). Info is a minority business enterprise (MBE) information technology firm founded in October 1993 and headquartered in Madison Heights, Michigan. Info offers a variety of information technology services and products for automatic data collection/systems integration, wireless infrastructure, local and wide area network design and implementation, hardware/software staging, and inventory/material management. Info provides solutions to key verticals such as manufacturing, logistics, distribution, and SMB.

Our current strategy is: to expand our financial services businesses, including PEO services and temporary staffing, and to continue to commercialize imaging technologies, including PhotoMotion Images and ColorBlind color management software through our QPI subsidiary.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

To successfully execute our current strategy, we will need to improve our working capital position. The report of our independent auditors accompanying our June 30, 2004 financial statements included in our Annual Report on Form 10KSB includes an explanatory paragraph indicating there is a substantial doubt about our ability to continue as a going concern, due primarily to our recent loss from operations, the decreases in our working capital and net worth. In addition, the Company is late in our filing of payroll tax returns for certain of our PEO divisions. We plan to overcome the circumstances that impact our ability to remain a going concern through a combination of achieving profitability, raising additional debt and equity financing, and renegotiating existing obligations. In addition, we will continue to work with the Internal Revenue Service and State taxing Authorities to reconcile and resolve all open accounts and issues.

In recent years, we have been working to reduce costs through the reduction in staff and reorganizing our business activities. Additionally, we have sought to reduce our debt through debt to equity conversions. We continue to pursue the acquisition of businesses that will grow our business.

There can be no assurance that we will be able to complete any additional debt or equity financings on favorable terms or at all, or that any such financings, if completed, will be adequate to meet our capital requirements. Any additional equity or convertible debt financings could result in substantial dilution to our shareholders. If adequate funds are not available, we may be required to delay, reduce or eliminate some or all of our planned activities, including any potential mergers or acquisitions. Our inability to fund our capital requirements would have a material adverse effect on the Company.

RESTRUCTURING AND NEW BUSINESS UNITS

In April 2004, we transferred our ColorBlind software products and technologies to our QPI subsidiary in order to focus on financial services and enable QPI to concentrate on imaging technology products and services.

ACQUISITIONS, DISPOSITIONS AND SALE OF BUSINESS UNITS

In August 2002, we entered into an agreement to acquire controlling interest in Greenland Corporation. Greenland shares are traded on the Electronic Bulletin Board under the symbol GRLC. On January 14, 2003, we completed the acquisition of shares, representing controlling interest, of Greenland. The terms of the acquisitions were disclosed on Form 8-K filed January 21, 2003.

Pursuant to a mutual agreement between the Board of Directors of both Greenland Corporation and us, Greenland has been separated from us, effective February, 23, 2004. Under the separation agreement, Greenland forgave its note receivable from us of \$2,250 together with any accrued interest thereon in consideration for our granting our acquisition rights to acquire ePEO Link to Greenland. In addition, for returning 95,949,610 shares of Greenland common stock acquired by us pursuant to our acquisition agreement with Greenland in January 2003, Greenland forgave its inter-company account receivable from us, which amount aggregated approximately \$1,375. Further, the agreement provided for us to effect the resignation of our Directors who also served on the Board of Directors of Greenland, which was completed in March 2004.

In September 2003, we hired two key persons, and acquired the operations of the temporary staffing service then owned by Jackson Staffing, LLC. In order to formalize this arrangement, we entered into an acquisition agreement with Jackson Staffing effective September 1, 2003 and accordingly, the financial statements of Jackson Staffing from September 1, 2003 are included in our financial statements. On June 28, 2004, we completed an acquisition of certain

assets of M&M Nursing (M&M"). The purchase price was 5,000,000 shares of our common stock valued at \$31 plus the assumption of \$204 of liabilities. M&M is a temporary staffing agency primarily for nurses. The financial statements of M&M from July 1, 2004 are included in our financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to allowance for doubtful accounts, value of intangible assets and valuation of non-cash compensation. We base our estimates and judgments on historical experiences and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our consolidated financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily allowance for doubtful accounts, estimated fair value of equity instruments used for compensation, estimated tax liabilities fro PEO operations and estimated liabilities associated with Worker's Compensation liabilities. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the consolidated financial statements included in our Annual Report on Form 10-KSB for the fiscal year ended June 30, 2004.

REVENUE RECOGNITION

PEO SERVICE FEES AND WORKSITE EMPLOYEE PAYROLL COSTS

We recognize our revenues associated with our PEO business pursuant to EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as an Agent." Our revenues are reported net of worksite employee payroll cost (net method). Pursuant to discussions with the Securities and Exchange Commission staff, we changed our presentation of revenues from the gross method to an approach that presents our revenues net of worksite employee payroll costs (net method) primarily because we are not generally responsible for the output and quality of work performed by the worksite employees.

In determining the pricing of the markup component of the gross billings, we take into consideration our estimates of the costs directly associated with our worksite employees, including payroll taxes, benefits and workers' compensation costs, plus an acceptable gross profit margin. As a result, our operating results are significantly impacted by our ability to accurately estimate, control and manage our direct costs relative to the revenues derived from the markup component of our gross billings.

Consistent with our revenue recognition policy, our direct costs do not include the payroll cost of our worksite employees. Our direct costs associated with our revenue generating activities are comprised of all other costs related to our worksite employees, such as the employer portion of payroll-related taxes, employee benefit plan premiums and workers' compensation insurance premiums.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

SALES OF PRODUCTS

Revenue is recognized when earned. Our revenue recognition policies are in compliance with all applicable accounting regulations, including American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) 97-2, Software Revenue Recognition, and SOP 98-9, Modification of SOP 97-2, With Respect to Certain Transactions. Revenue from products licensed to original equipment manufacturers is recorded when OEMs ship licensed products while revenue from certain license programs is recorded when the software has been delivered and the customer is invoiced. Revenue from packaged product sales to and through distributors and resellers is recorded when related products are shipped. Maintenance and subscription revenue is recognized ratably over the contract period. When the revenue recognition criteria required for distributor and reseller arrangements are not met, revenue is recognized as payments are received. Provisions are recorded for returns and bad debts. Our software arrangements do not contain multiple elements, and we do not offer post contract support.

18

TEMPORARY STAFFING

We record gross revenue for temporary staffing. We have concluded that gross reporting is appropriate because we (i) have the risk of identifying and hiring qualified employees, (ii) have the discretion to select the employees and establish their price and duties and (iii) bear the risk for services that are not fully paid for by customers. Temporary staffing revenues are recognized when the services are rendered by our temporary employees. Temporary employees placed by us are our legal employees while they are working on assignments. We pay all related costs of employment, including workers' compensation insurance, state and federal unemployment taxes, social security and certain fringe benefits. We assume the risk of acceptability of our employees to our customers.

RESULTS OF OPERATIONS

ANALYSIS IN THOUSANDS (\$000)

THREE MONTHS ENDED DECEMBER 31, 2004 COMPARED TO THREE MONTHS ENDED DECEMBER 31,

2003

REVENUES

Total revenues were \$4,928 and \$3,636 for the three months ended December 31, 2004 and 2003, respectively; an increase of \$1,292 (36%). The increase was due primarily to the addition of temporary staffing services, which contributed \$3,749 of revenues for the three months ended December 31, 2004 compared to \$2,669 for the three months ended December 31, 2003.

PEO SERVICES

PEO revenues were \$478 and \$643 for the three months ended December 31, 2004 and 2003, respectively; a decrease of \$165 (26%) due primarily to the decrease in our PEO customer base.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

TEMPORARY STAFFING

In September 2003, we entered into an agreement to purchase a temporary staffing business through the organization of CallCenterHR and MedicalHR and the acquisition of Jackson Staffing. In June 2004, we entered into an agreement to purchase certain assets of M&M Nursing, a temporary staffing agency for nurses. Temporary Staffing revenues were \$3,749 and \$2,669 for the three months ended December 31, 2004 and 2003, respectively; an increase of \$1,080 (40%). The significant increase is due to the acquisition of Jackson Staffing and M&M Nursing.

PRODUCTS

Sales of products were generated principally from our QPI and Info Services subsidiaries. Products revenues were \$688 and \$324 for the three months ended December 31, 2004 and 2003, respectively; an increase of \$364 (112%). The increase is principally due to the acquisition of Info Services in December 2004.

SOFTWARE

Software revenues were \$13 and \$0 for the three months ended December 31, 2004 and 2003, respectively; a decrease of \$13. Revenues from licenses and royalties for the periods were insignificant.

Royalties and licensing fees vary from quarter to quarter and are dependent on the sales of products sold by OEM customers using our technologies. These revenues continue to decline as we have elected to transfer our ColorBlind software to QPI, which has accelerated product development and begun to implement a more aggressive product sales program.

COST OF PRODUCTS SOLD

Cost of PEO services for the three months ended December 31, 2004 and 2003 \$348 (73% of PEO revenues) and \$626 (97% of PEO revenues), respectively. The increase in gross profit is due primarily to us being able to provide more profitable services to our PEO customers.

Costs of temporary staffing for the three months ended December 31, 2004 was \$3,400 (91% of temporary staffing revenue) and \$2,301 (86% of temporary staffing revenue), respectively.

19

Cost of products sold for the three months ended December 31, 2004 and 2003 were \$442 (64% of product sales) and \$45 (14% of product sales), respectively. The increase is due to the product sales from Info Services.

Cost of software, licenses and royalties for the three months ended December 31, 2004 and 2003 were \$0 (0% of software, license and royalties revenue) and \$0 (0% of software, license and royalties revenue), respectively.

OPERATING EXPENSES

Operating expenses have consisted primarily of salaries and commissions of sales and marketing personnel, salaries and related costs for general corporate functions, including finance, accounting, facilities and legal, advertising, rent, depreciation and amortization, and other marketing related expenses, and fees for professional services.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Operating expenses for the three months ended December 31, 2004 and 2003 were \$996 and \$2,173, respectively; a decrease of \$1,177 (54%). The significant decrease is due to a reduction of payroll and related benefits due to a significant reduction in our personnel. Also, as disclosed in "Significant Accounting Policies and Estimates", we rely on estimates for such liabilities related to, among other areas, worker's compensation and accrued payroll taxes. During the three months ended December 31, 2004, we changed our estimate of workers' compensation claims aggregating approximately \$500 as circumstances became known which would indicate that the likelihood of this claim being successful is remote.

OTHER INCOME AND EXPENSE

Interest expense for the three months ended December 31, 2004 and 2003 was \$345 and \$601 respectively; a decrease of \$256 (43%). The decrease is principally due to the write off of the unamortized debt discounts associated with the conversion of debentures into common stock for the three months ended December 31, 2003 (there were no conversion during the three months ended December 31, 2004) offset by an increase due to the amount of debt outstanding.

GAIN ON EXTINGUISHMENT OF DEBT

Gain on the extinguishment of debt was \$260 and \$625 for the three months ended December 31, 2004 and 2003, respectively. The amounts related to accounts payable, which had become stale and uncollectible under the Statute of Limitations in the State of California and upon obtaining a legal opinion with respect to the State of California Statute of Limitations.

GAIN FROM RECONCILIATION OF PAYROLL TAX LIABILITES TO TAXING AUTHORITIES

During the three months ended December 31, 2004, we recorded as other income an adjustment of accrued PEO payroll taxes payable of \$536 resulting from reconciliations of certain liabilities with the Internal Revenue Service and certain State taxing authorities of amounts due for delinquent payment of payroll tax liabilities.

SIX MONTHS ENDED DECEMBER 31, 2004 COMPARED TO SIX MONTHS ENDED DECEMBER 31,

2003

REVENUES

Total revenues were \$9,256 and \$5,997 for the six months ended December 31, 2004 and 2003, respectively; an increase of \$3,359 (56%). The principal reason for the increase is due to a full six months of revenue from our temporary staffing division for the six months ended December 31, 2004 as compared to only four months for the same period in 2003.

PEO SERVICES

PEO revenues were \$850 and \$2,070 for the six months ended December 31, 2004 and 2003, respectively; a decrease of \$1,220 (56%) due primarily to the decrease in our PEO customer base.

TEMPORARY STAFFING

In September 2003, we entered into an agreement to purchase a temporary staffing business through the organization of CallCenterHR and MedicalHR and the acquisition of Jackson Staffing. In June 2004, we entered into an agreement to purchase certain assets of M&M Nursing, a temporary staffing agency for nurses.

Temporary Staffing revenues were \$7,654 and \$3,436 for the six months ended December 31, 2004 and 2003, respectively; an increase of \$4,218 (123%). The significant increase is due to the acquisition of Jackson Staffing and M&M Nursing.

PRODUCTS

Sales of products were generated principally from our QPI and Info Services subsidiaries. Products revenues were \$813 and \$455 for the six months ended December 31, 2004 and 2003, respectively; a decrease of \$358 (79%). The increase is principally due to the acquisition of Info Services in December 2004.

SOFTWARE

Software revenues were \$39 and \$36 for the six months ended December 31, 2004 and 2003, respectively; an increase of \$3 (8%). Revenues from licenses and royalties for the periods were insignificant.

Royalties and licensing fees vary from quarter to quarter and are dependent on the sales of products sold by OEM customers using our technologies. These revenues continue to decline as we have elected to transfer our ColorBlind software to QPI, which has accelerated product development and begun to implement a more aggressive product sales program.

COST OF PRODUCTS SOLD

Cost of PEO services for the six months ended December 31, 2004 and 2003 \$628 (74% of PEO revenues) and \$1,896 (91% of PEO revenues), respectively. The increase in gross profit is due primarily to us being able to provide more profitable services to our PEO customers.

Costs of temporary staffing for the six months ended December 31, 2004 was \$6,948 (91% of temporary staffing revenue) and \$2,994 (87% of temporary staffing revenue), respectively. The significant increase is due to the increase in temporary staffing revenue.

Cost of products sold for the six months ended December 31, 2004 and 2003 were \$465 (57% of product sales) and \$128 (28% of product sales), respectively. The increase is due to the product sales from Info Services.

Cost of software, licenses and royalties for the six months ended December 31, 2004 and 2003 were \$3 (7% of software, license and royalties revenue) and \$3 (8% of software, license and royalties revenue), respectively.

OPERATING EXPENSES

Operating expenses for the six months ended December 31, 2004 and 2003 were \$2,005 and \$4,077, respectively; a decrease of \$2,072 (51%). The significant decrease is due to a reduction of payroll and related benefits due to a significant reduction in our personnel. Also, as disclosed in "Significant Accounting Policies and Estimates", we rely on estimates for such liabilities related to, among other areas, worker's compensation and accrued payroll taxes. During the six months ended December 31, 2004, we changed our estimate of workers' compensation claims aggregating approximately \$700.

OTHER INCOME AND EXPENSE

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Interest expense for the six months ended December 31, 2004 and 2003 was \$828 and \$929 respectively; a decrease of \$101 (11%). The decrease is principally due to the write off of the unamortized debt discounts associated with the conversion of debentures into common stock for the six months ended December 31, 2003 (there were fewer conversions during the six months ended December 31, 2004) offset by an increase due to the amount of debt outstanding.

GAIN ON EXTINGUISHMENT OF DEBT

Gain on the extinguishment of debt was \$260 and \$625 for the six months ended December 31, 2004 and 2003, respectively. The amounts related to accounts payable, which had become stale and uncollectible under the Statute of Limitations in the State of California and upon obtaining a legal opinion with respect to the State of California Statute of Limitations.

GAIN FROM RECONCILIATION OF PAYROLL TAX LIABILITES TO TAXING AUTHORITIES

During the three months ended December 31, 2004, we recorded as other income an adjustment of accrued PEO payroll taxes payable of \$536 resulting from reconciliations of certain liabilities with the Internal Revenue Service and certain State taxing authorities of amounts due for delinquent payment of payroll tax liabilities.

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have financed our operations primarily through cash generated from operations, debt financing, and the sale of equity securities. Additionally, in order to facilitate our growth and future liquidity, we have made some strategic acquisitions.

As a result of some of our financing activities, there has been a significant increase in the number of issued and outstanding shares. During the six months ended December 31, 2004 and the year ended June 30, 2004, we issued an additional 130,037,245 and 371,126,679 shares, respectively. These shares of common stock were issued primarily for corporate expenses in lieu of cash, for acquisition of businesses, for the conversion of convertible debentures and other debt, and for the exercise of warrants.

As of December 31, 2004, we had negative working capital of \$22,924, a decrease in working capital of \$988 since June 30, 2004. This decrease was due primarily to a \$1,442 increase in current un-remitted PEO payroll tax liabilities.

Net cash used in operating activities was \$892 for the six months ended December 31, 2004 as compared to net cash used in activities of \$1,535 for the prior-year period; a decrease of \$643.

Cash provided by financing activities was \$901 for the six months ended December 31, 2004, an increase of \$320 from the prior-year period.

We have no material commitments for capital expenditures. Our 5% convertible preferred stock (which ranks prior to our common stock), carries cumulative dividends, when and as declared, at an annual rate of \$50 per share. The aggregate amount of such dividends in arrears at December 31, 2004, was approximately \$473.

Our capital requirements depend on numerous factors, including market acceptance of our products and services, the resources we devote to marketing and selling

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

our products and services, and other factors. The report of our independent auditors accompanying our June 30, 2004 financial statements includes an explanatory paragraph indicating there is a substantial doubt about our ability to continue as a going concern, due primarily to the decreases in our working capital and net worth.

The important matters on which DRDF focuses in evaluating its financial condition and operating performance are as follows: 1) since we are a cash driven business, the speed in which cash is collected from our clients is crucial, and 2) since our margins are thin, the volume of our business is important, therefore acquiring new businesses and/or clients is very important.

The fixed and ongoing expenses of DRDF are as follows:

Current Liabilities:

a) Borrowings under bank notes payable: This represents a bank note that is past due. We do not have the funds to currently satisfy this note. Dalrada intends to seek in the future, additional long term financing with the goal to negotiate and settle a substantial portion of the liabilities.

b) Lines of credit: The lines of credit are secured by the accounts receivable and will be paid as the receivables are collected.

c) Notes payable current portion: This consists of \$1.5 million due to the Dalrada's former chairman. We do not have the funds to currently satisfy this note. The remaining balance consists of \$275K due a third party and \$842K consists of various term loans obtained from banks by our various operating subsidiaries. It is the intention of management to pay approximately half of these down over time and to negotiate some sort of settlement on the remaining half.

d) Convertible debt: These will be converted into equity.

22

e) Account payable: Half of these are over four years old and will most likely be written off in the future and the remaining will be paid and/or a negotiated settlement will be reached.

f) Obligations under capital lease: This is a company car and will be paid according to the terms.

g) PEO payroll taxes and other payroll deductions: Dalrada is liable for this amount and is currently negotiating payment schedules with the Internal Revenue Service and various state taxing authorities.

Future minimum lease payments under non-cancelable capital and operating leases with initial or remaining terms of one year or more are as follows:

Estimated future cash requirements (\$000)

DRDF's estimate of net cash requirements for operating costs for the next twelve months subsequent to March 31, 2005, is approximately \$3,282 a month for a twelve total of \$ 39,39. The Estimate of cash inflow from operations for that same time period is estimated to be approximately \$ 40,552. The excess cash will be used for the paydown of certain current liabilities as addressed above.

DRDF received funding from a private placement on December 17, 2003, issuing \$800 of convertible notes resulting in net proceeds to the Company of approximately \$681. The terms of the notes provide that the convertible debentures can be converted into shares of common stock with the conversion price per share being the lower of (i) \$.02 or (ii) seventy percent (70%) of the average of the three lowest closing bid prices for the sixty (60) trading days prior to but not including the conversion date for the common stock

DRDF'S future capital requirements will depend on numerous factors, including: 1) keeping existing and adding on new clients, 2) cash collection from clients and 3) the successful negotiation and paydown of our current liabilities. However, we will most likely need an additional capital contribution in the future therefore may need to seek one or more substantial new investors. New investors could cause substantial dilution to existing stockholders

Contingent Liabilities

The Company accrues and discloses contingent liabilities in its consolidated financial statements in accordance with Statement of Financial Accounting Standards ("SFAS") No. 5, Accounting for Contingencies. SFAS No. 5 requires accrual of contingent liabilities that are considered probable to occur and that can be reasonably estimated. For contingent liabilities that are considered reasonably possible to occur, financial statement disclosure is required, including the range of possible loss if it can be reasonably determined. The Company has disclosed in its audited financial statements several issues that it believes are reasonably possible to occur, although it cannot determine the range of possible loss in all cases. As these issues develop, the Company will continue to evaluate the probability of future loss and the potential range of such losses. If such evaluation were to determine that a loss was probable and

23

the loss could be reasonably estimated, the Company would be required to accrue its estimated loss, which would reduce net income in the period that such determination was made.

Off-Balance Sheet Arrangements

There are no off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors, except for the following.. As of September 8, 2004, Warning Management Services, Inc.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

("Warning") purchased all of the issued and outstanding shares of Employment Systems, Inc. ("ESI") for \$1,500. The purchase was \$750 cash paid at the closing and a \$750 note payable. In connection with this transaction, the Company agreed to be a guarantor of the \$750 note payable. Our CEO, Brian Bonar, is also the CEO of Warning. As inducement to enter into this guarantee, we were given a non-cancelable 2-year payroll processing contract with ESI. Currently the \$750 note payable is in dispute. Warning is claiming that certain representations made by ESI were not correct and is proposing that the purchase price be reduced, thus reducing the \$750 note payable to \$258. Management has evaluated this contingent liability and has determined that no loss is anticipated as a result of this guarantee.

Year Ended June 30, 2004 Compared to Year Ended June 30, 2003

Revenues

Total revenues were \$13,526 and \$3,790 for the years ended June 30, 2004 and 2003, respectively; an increase of \$9,736 (257%). The increase was due primarily to the addition of temporary staffing services, which contributed \$10,119 of revenues for the year ended June 30, 2004.

PEO Services

PEO revenues were \$2,607 and \$2,499 for the years ended June 30, 2004 and 2003, respectively; an increase of \$108 (4%) due primarily to the small increase in our PEO customer base.

Temporary Staffing

In September 2003, we entered into an agreement to purchase a temporary staffing business through the organization of CallCenterHR and MedicalHR and the acquisition of Jackson Staffing. There were no revenues from temporary staffing in the 2003 fiscal year and \$10,119 for the year ended June 30, 2004.

Imaging Products

Sales of imaging products were generated principally from our QPI subsidiary. Imaging Products revenues were \$764 and \$924 for the years ended June 30, 2004 and 2003, respectively; a decrease of \$160 (17%) due primarily to the decrease in product sales as a result of the suspension of sales and marketing activities associated with the resale of office products in order to concentrate on color management products and services, including ColorBlind software and PhotoMotion Images.

Software

Software revenues were \$36 and \$367 for the years ended June 30, 2004 and 2003, respectively; a decrease of \$331 (90%). The reduction in software revenues was due to a delay in completing certain versions of our software which can be used with multiple computer operating systems. Revenues from licenses and royalties for the periods were insignificant.

Royalties and licensing fees vary from quarter to quarter and are dependent on the sales of products sold by OEM customers using our technologies. These revenues continue to decline as we have elected to transfer our ColorBlind software to QPI, which has accelerated product development and begun to implement a more aggressive product sales program.

COST OF PRODUCTS SOLD

Cost of PEO services for the years ended June 30, 2004 and 2003 \$894 (34% of PEO revenues) and \$1,639 (66% of PEO revenues), respectively. The increase in gross

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

profit is due primarily to us being able to provide more profitable services to our PEO customers.

24

Costs of temporary staffing for the years ended June 30, 2004 was \$9,209 (91% of temporary staffing revenue). There was no such cost of revenues in the prior-year period.

Cost of products sold for the year ended June 30, 2004 and 2003 were \$196 (26% of product sales) and \$396 (43% of product sales), respectively. Product sales continue to decline as we concentrate on other products and services. The increase in margins is due primarily to changes in product mix and our competitive position with customers.

Cost of software, licenses and royalties for the years ended June 30, 2004 and 2003 were \$3 and \$90, respectively. The decrease is due primarily to decreased business activity while awaiting the completion of new releases of ColorBlind software. This represented 8% of revenue in 2004 and 25% of revenue in 2003.

OPERATING EXPENSES

Operating expenses have consisted primarily of salaries and commissions of sales and marketing personnel, salaries and related costs for general corporate functions, including finance, accounting, facilities and legal, advertising, rent, depreciation and amortization, and other marketing related expenses, and fees for professional services.

Operating expenses for the years ended June 30, 2004 and 2003 were \$4,196 and \$5,623, respectively; a decrease of \$1,427 (25%). The significant decrease is due to a reduction of payroll and related benefits of \$1,491 due to a significant reduction in our personnel. Also, as disclosed in "Significant Accounting Policies and Estimates", we rely on estimates for such liabilities related to, among other areas, worker's compensation and accrued payroll taxes. During the year ended June 30, 2004, we changed our estimate of workers' compensation and accrued payroll taxes aggregating approximately \$2,500, which resulted in a negative general and administrative expenses. These reduction in operating expenses were offset by an increase in consulting expenses of \$843 due to us using outside consultants since we have reduce the number of full-time personnel.

OTHER INCOME AND EXPENSE

Other income and expense, net for the years ended June 30, 2004 and 2003 was \$1,923 and \$1,028 respectively; an increase in other expenses of \$895 (87%) The increase is principally due to a decrease in other income resulting from the gain on the settlement of debt. For the years ended June 30, 2004 and 2003, the gain on the settlement of debt was \$1,145 and \$2,343, respectively; a decrease of \$1,198 (51%) These gains are principally due to the write off of old, stale accounts payable that our attorneys have advised us that we have been released from these obligations. Pursuant to an opinion provided by counsel, we elected to record these gains pursuant to the Statute of Limitations in the State of California. Interest expense for the years ended June 30, 2004 and 2003 was \$1,930 and \$1,493 respectively; an increase of \$437 (29%). The increase is principally due to the write off of the unamortized debt discounts associated with the conversion of debentures into common stock. Penalties and interest for the years ended June 30, 2004 and 2003 was \$795 and \$2,023 respectively; a decrease of \$1,228 (61%). The decrease is due to the pay down of the outstanding payroll liabilities

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have financed our operations primarily through cash generated from operations, debt financing, and the sale of equity securities. Additionally, in order to facilitate our growth and future liquidity, we have made some strategic acquisitions.

As a result of some of our financing activities, there has been a significant increase in the number of issued and outstanding shares. During the year ended June 30, 2004, we issued an additional 371,126,679 shares. These shares of common stock were issued primarily for corporate expenses in lieu of cash, for acquisition of businesses, for the conversion of convertible debentures and other debt, and for the exercise of warrants.

As of June 30, 2004, we had negative working capital of \$21,936, an increase in working capital of \$6,510 since June 30, 2003. This increase was due primarily to our disposition of Greenland Corporation, gains on the disposition of debt, the conversion of debt to equity and a change in estimates as previously discussed.

Net cash used in operating activities was \$489 for the year ended June 30, 2004 as compared to net cash provided by operating activities of \$1,112 for the prior-year period; a decrease of \$1,601. The decrease was due primarily to a decrease in current liabilities.

Cash provided by investing activities was \$11 for the year ended June 30, 2004, an increase of \$56 from the previous year.

25

We have no material commitments for capital expenditures. Our 5% convertible preferred stock (which ranks prior to our common stock), carries cumulative dividends, when and as declared, at an annual rate of \$50 dollars per share. The aggregate amount of such dividends in arrears at June 30, 2004, was approximately \$420.

Our capital requirements depend on numerous factors, including market acceptance of our products and services, the resources we devote to marketing and selling our products and services, and other factors. The report of our independent auditors accompanying our June 30, 2004 financial statements includes an explanatory paragraph indicating there is a substantial doubt about our ability to continue as a going concern, due primarily to the decreases in our working capital and net worth.

OPERATING AND CAPITAL LEASES

DRDF owns no real property. Dalrada leases the facility at 9449 Balboa Avenue, Suite 211, San Diego, California, 92123. This is a four year lease entered into on August 26, 2002 by the Christianson Group. The facility is approximately 2,848 square feet and will serve as our new corporate headquarters. Payments under the lease are currently \$5.4 thousand per month and increase to \$5.8 thousand in 2005 and \$6 thousand in 2006.

Dalrada's, Employers Administration Goup, Inc. subsidiary, leases the facility at 180 F. Main Street, Tustin California. This is a three year lease entered into on July 15, 2003 by the Christianson Group. The facility is approximately 1,700 square feet. Payments under the lease are currently \$2.3 thousand per month.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Dalrada's, Quick Pix, Inc subsidiary leases the facility at 7050 Village Drive, Suite E and F, Buena Park, California. This is three lease entered on July 1, 2001. The facility is approximately 8,602 square feet. Payments under the lease are currently \$5.8 thousand per month.

The Company leases other facilities and equipment under operating and capital short-term leases.

Future minimum lease payments under non-cancelable capital and operating leases with initial or remaining terms of one year or more are as follows:

CONTINGENT LIABILITY -----

The Company accrues and discloses contingent liabilities in its consolidated financial statements in accordance with Statement of Financial Accounting Standards ("SFAS") No. 5, Accounting for Contingencies. SFAS No. 5 requires accrual of contingent liabilities that are considered probable to occur and that can be reasonably estimated. For contingent liabilities that are considered reasonably possible to occur, financial statement disclosure is required,

26

including the range of possible loss if it can be reasonably determined. The Company has disclosed in its audited financial statements several issues that it believes are reasonably possible to occur, although it cannot determine the range of possible loss in all cases. As these issues develop, the Company will continue to evaluate the probability of future loss and the potential range of such losses. If such evaluation were to determine that a loss was probable and the loss could be reasonably estimated, the Company would be required to accrue its estimated loss, which would reduce net income in the period that such determination was made.

ANNUAL MEETING OF STOCKHOLDERS HELD ON MAY 14, 2004

Notice was given and the 2004 Annual Meeting of Stockholders of DALRADA FINANCIAL CORPORATION, formerly Imaging Technologies Corporation, was held at 9449 Balboa Avenue, Suite 211, San Diego, California 92123, at 10 a.m., local time, to where upon the following proposals were approved by a majority of the shareholders:

1. The election of five persons named in the accompanying Proxy Statement to

serve as directors on the Company's board of directors (the "Board") and until their successors are duly elected and qualified;

2. To approve an amendment to the Company's certificate of incorporation (the "Certificate of Incorporation") to increase the number of the Common Stock, authorized to be issued from 500,000,000 shares to 1,000,000,000 shares;

3. To ratify the appointment of Pohl, McNabola, Berg and Company, LLP, as the Company's independent auditors for the fiscal year ending June 30, 2004; and

4. To consider and transact such other business as may properly come before the Meeting or any adjournment(s) thereof.

27

OUR BUSINESS

Dalrada Financial Corporation (OTCBB symbol: DRDF) ("DRDF" or the "Company") was incorporated in March 1982 under the laws of the State of California, and reincorporated in May 1983 under the laws of the State of Delaware. The Company's principal executive offices are located at 9949 Balboa Avenue, Suite 211, San Diego, CA 92123. The Company's main phone number is (858) 451-6120.

We provide a variety of financial services to small and medium-size businesses. These services allow our customers to outsource many human resources tasks, including payroll processing, workers' compensation insurance, health insurance, employee benefits, 401k investment services, personal financial management, and income tax consultation. In November 2001, we began to provide these financial services that relieve existing and potential customers of the burdens associated with personnel management and control. To this end, the Company, through strategic acquisitions, became a professional employer organization ("PEO").

DRDF provides financial services principally through its wholly-owned SourceOne Group, Inc. ("SOG") subsidiary, which includes several operating units, including ProSportsHR(TM), MedicalHR(TM), and, CallCenterHR(TM). These units provide a broad range of financial services, including: benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, employer liability management, and (in the case of MedicalHR and CallCenterHR), temporary staffing services, to small and medium-sized businesses.

In January 2003, we completed the acquisition of a controlling interest approximating 88% of the shares of Greenland Corporation. Greenland shares are traded on the NASD Electronic Bulletin Board under the symbol GRLC. Subsequently, in March 2004, we entered into an agreement with Greenland to return most of our shares in Greenland in return for Greenland's forgiveness of certain DRDF indebtedness and business opportunities.

In January 2003, we completed the acquisition of a controlling interest (approximately 85%) in the shares of Quik Pix, Inc. ("QPI"). QPI shares are traded on the National Quotation Bureau Pink Sheets(R) under the symbol QPIX. QPI is a visual marketing support firm located in Buena Park, California. QPI's major source of revenues is in developing and mounting photographic and digital images for use in display advertising for tradeshow and customer building interiors. QPI also has a proprietary product PhotoMotion(TM), which is a patented color medium of multi-image transparencies. The process uses existing originals to create the illusion of movement, and allows for three to five distinct images to be displayed with an existing lightbox.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

On June 28, 2004, DRDF completed its acquisition of certain assets of M&M Nursing (M&M). The purchase price was 5,000,000 shares of DRDF common stock valued at \$31 thousand plus the assumption of \$204 thousand of liabilities. M&M is a temporary staffing agency primarily for nurses.

On December 1, 2004, DRDF completed its acquisition of 70% of Info Services, Inc. ("Info"). Info is a minority business enterprise (MBE) information technology firm founded in October 1993 and headquartered in Madison Heights, Michigan. Info offers a variety of information technology services and products for automatic data collection/systems integration, wireless infrastructure, local and wide area network design and implementation, hardware/software staging, and inventory/material management. Info provides solutions to key verticals such as manufacturing, logistics, distribution, and SMB. DRDF purchased Info to broaden the services it offers. In order for Info to retain its MBE status, DRDF was only able to acquire a 70% ownership interest. The remaining 30% ownership interest was retained by Info's prior minority owner. The purchase price was \$1 plus the assumption of liabilities. This transaction was accounted for by the purchase method of accounting, as required by SFAS No. 141, "Business Combinations," and accordingly, the purchase price has been allocated to the assets acquired and the liabilities assumed based upon the estimated fair values at the date of acquisition. The excess purchase has been allocated to customer list that is being amortized over 24 months.

In prior years, we were principally involved in the development and distribution of imaging products. Our core technologies are related to the design and development of software products that improve the accuracy of color reproduction. Our ColorBlind(R) software provides color management to improve the accuracy of color reproduction - especially as it relates to matching color between different devices in a network, such as monitors and printers. These products are now supported and distributed by QPI. Additionally, we market our ColorBlind software products on the Internet through our color.com website.

Market Overview - Financial Services

Our entry into the financial services business, in November 2001, was through the acquisition of professional employer organizations ("PEO"). We are expanding the services we provide beyond PEO services, which will include a variety of products and services to employers and employees, and expanded employee benefit programs such as payroll advances, life insurance, automated payroll credit cards, and branded healthcare plans.

The PEO industry emerged in the early 1980's largely in response to the burdens placed on small and medium-sized employers by the complex legal and regulatory issues related to human resources management. While various service providers were available to assist these businesses with specific tasks, PEOs emerged as providers of a more comprehensive range of services relating to the employer/employee relationship. In a PEO arrangement, the PEO assumes broad aspects of the employer/employee relationship. Because PEOs provide employee-related services to a large number of employees, they can achieve economies of scale that allow them to perform employment-related functions more efficiently, provide a greater variety of employee benefits and devote more attention to human resources management.

We believe that the demand for our services is driven by (1) the trend by small and medium-sized businesses toward outsourcing management tasks outside of core competencies; (2) the difficulty of providing competitive health care and related benefits to attract and retain employees; (3) the increasing costs of health and workers' compensation insurance coverage and workplace safety

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

programs; and (4) complex regulation of labor and employment issues and the related costs of compliance.

Market Overview - Imaging Products

ColorBlind software is a suite of software applications, which allow users to build color profiles of images in order to insure accurate output on digital devices such as printers, plotters, scanners, monitors, and cameras.

Color integrity is an important underlying requirement in the imaging process. The widespread use of color applications at the desktop, demand for higher quality color reproduction, expanded use of the Internet for document dissemination and e-commerce, growth of office networks, and the increased acceptance and use of digital photography are some of the factors that influence our markets.

Photomotion, a QPI technology, is a patented process for adding multiple images to backlit static displays that appear to change as the viewer passes by the image. The Photomotion process uses existing original art to create an illusion of movement; and allows for separate and distinct image displays. It allows for three to five distinct images to be displayed within an existing light box. Images appear to change or "morph" as the viewer passes the display.

QPI offers a spectrum of services allowing a client to produce color visuals (digital and photographic) according to parameters as specified by a client. We also offer a full range of color laboratory reproduction services.

The market for Photomotion and color reproduction services is vast. The products are especially useful in point-of-purchase displays, indoor display advertising, and trade show exhibits and displays. To date, marketing has been limited to targeted customers such as beverage companies, casinos, sports arenas, and other specialty clients.

Business Strategy

Financial and PEO Services

The PEO business provides a broad range of services associated with human resources management. These include benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, employer liability management, employee recruiting and selection, performance management, and training and development services.

Administrative Functions. We perform a wide variety of processing and record keeping tasks, mostly related to payroll administration and government compliance. Specific examples include payroll processing, payroll tax deposits, quarterly payroll tax reporting, employee file maintenance, unemployment claims processing and workers' compensation claims reporting.

Benefit Plans Administration. We sponsor benefit plans including group health coverage. We are responsible for the costs and premiums associated with these plans, act as plan sponsor and administrator of the plans, negotiate the terms and costs of the plans, maintain the plans in accordance with applicable federal and state regulations, and serve as liaison for the delivery of such benefits to worksite employees.

Personnel Management. We provide a variety of personnel management

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

services, which provide our client companies access to resources normally found in the human resources departments of larger companies. Our client companies will have access to a personnel guide, which will set forth a systematic approach to administering personnel policies and practices and can be customized to fit a client company's particular work culture/environment.

Employer Liability Management. Under our Client Services Agreement ("CSA"), we assume many employment-related responsibilities associated with administrative functions and benefit plans administration. Upon request, we can also provide our clients guidance on avoiding liability for discrimination, sexual harassment, and civil rights violations. We employ counsel specializing in employment law.

Client Service Agreement. All clients enter into our CSA, which establishes our service fee. The CSA is subject to periodic adjustments to account for changes in the composition of the client's workforce and statutory changes that affect our costs. The CSA also establishes the division of responsibilities between our Company and the client as co-employers. Pursuant to the CSA, we are responsible for personnel administration and are liable for certain employment-related government regulation. In addition, we assume liability for payment of salaries, wages (including payroll taxes), and employee benefits of worksite employees. The client retains the employees' services and remains liable for the purposes of certain government regulations.

Our PEO business represents a distribution channel for certain value-added services, including a wide variety of employer and employee benefit programs such as 401(k) plans, Section 125 cafeteria plans, legal services, tax consulting, payroll advances, and other insurance programs. Our intention is to expand our business through offering a variety of financial services.

The PEO business is growing rapidly, but profit margins are small. Consequently, profitability depends on (1) economies of scale leading to greater operating efficiencies; and (2) value-added services such as training, education, Internet support, and other services that may be used by employers and employees.

The income model for this business generally revolves around fees charged per employee. While gross profit is low, gross revenues are generally substantial. To this end, the Company intends to pursue acquisitions of small PEO firms. Each acquisition is expected to include retention of some existing management and staff in order to assure continuity of operations.

We evaluate our PEO business as one segment even though our PEO products are offered under various brand names.

Color Management Software

Accurate color reproduction is one of the largest single challenges facing the imaging industry. Customers demand systems that are easy to use, predictable and consistent. A color management system is needed so users can convert files for use with different devices. The varying characteristics of each device are captured in a device profile. The International Color Consortium ("ICC") has established a standard for the format for these profiles.

Our ColorBlind(R) color management software is a pre-packaged suite of applications, utilities, and tools that allow users to precisely create ICC profiles for each device in the color workflow including scanners, monitors, digital cameras, printers, and other specialized digital color input and output devices. Once profiled, ColorBlind balances these profiles to produce accurate, consistent, and reliable color rendering from input to output. ColorBlind software is sold as a stand-alone application or licensed to OEM's for resale to be bundled with peripheral devices.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

We operate an internet site, color.com, as a resource center to provide information on the highest quality correct color. This site allows consumers to purchase our products, including ColorBlind software; and serves as an information resource for color imaging, including white papers on color imaging and management, links to color consultants and experts, and products.

QPI - Photomotion

QPI's Photomotion Images(TM) are based upon patented technology. The resulting product is a unique color medium that uses existing original images to create the illusion of movement or multiple static displays that allow three to five distinct images to be displayed in an existing light box. The images appear to change, or "morph," as a viewer passes the display. This ability to put

30

multiple images in a single space, without the need for mechanical devices, allows for the creation of an active and entertaining display. The product is currently marketed in the U.S., Europe, Asia and Latin America.

Visual marketing, including out-of-home media, is a large and growing, multi-billion dollar worldwide industry. An industry survey suggests that the field of visual marketing will increase at a rate of 50% annual for the next ten years. Out-of-home media plays a critical role in the media plans of national and international advertisers.

Competition

The markets for our products and services are highly competitive and rapidly changing. Our ability to compete in our markets depends on a number of factors, including the success and timing of product and services introductions by us and our competitors, selling prices, performance, distribution, marketing ability, and customer support. A key element of our strategy is to provide competitively-priced, quality products and services.

The PEO business is also highly competitive, with approximately 800 firms operating in the U.S. There are several firms that operate on a nationwide basis with revenues and resources far greater than ours. Some large PEO companies are owned by insurance carriers and some are public companies whose shares trade on Nasdaq, including Administaff, Inc., Team Staff, Inc., Barrett Business Services, and Staff Leasing, Inc. Also see "Risks and Uncertainties."

Operations

DRDF's corporate headquarters facility in San Diego, California houses most of our administrative operations. PEO operations are conducted from the Company's headquarters offices and small branch offices in Troy, Michigan and Tustin, California. We have additional one year leases in Miami, Florida and Phoenix, Arizona, each with two year renewal options.

Manufacturing, Production, and Sources of Supply

We manufacture our software products in-house and through selected outside vendors. Also see "Risks and Uncertainties."

Research and Development

Some of our products are characterized by rapidly evolving technology, frequent new product introductions, and significant price competition.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Accordingly, we monitor new technology developments and coordinate with suppliers, distributors and dealers to enhance existing products and to lower costs. Advances in technology require ongoing investment. We have entered into no formal projects in research and development for several years; however, we do make modifications to existing products on an as-needed basis to maintain their currency. Also see "Risks and Uncertainties."

Intellectual Property

DRDF's software products are copyrighted. However, copyright protection does not prevent other companies from emulating the features and benefits provided by our software. We protect our software source code as trade secrets and make our proprietary source code available to OEM customers only under limited circumstances and specific security and confidentiality constraints. QPI holds the patent for Photomotion. Technology products exist in a rapidly changing business environment. Consequently, we believe the effectiveness of patents, trade secrets, and copyright protection is less important in influencing long term success than the experience of our employees and our contractual relationships.

We have obtained U.S. registration for several of our trade names or trademarks, including ColorBlind, Photomotion, ExpertHR, MedicalHR, CallCenterHR, and ProSportsHR. These trade names are used to distinguish our products and services in the markets we serve.

If we fail to establish that we have not violated the asserted rights, we could be prohibited from marketing the associated product and/or services, and we could be liable for damages. We rely on a combination of trade secret, copyright and trademark protection, and non-disclosure agreements to protect our proprietary rights. Also see "Risks and Uncertainties."

31

Employees

DRDF (including our subsidiaries) employed a total of 68 individuals worldwide as of June 30, 2004. Of this number, 54 were involved in sales, marketing, corporate administration and finance, and 14 were in engineering, research and development, and technical support. There is no union representation for any of DRDF's employees.

Government Regulation

While many states do not explicitly regulate PEOs, over 20 states have passed laws that have licensing or registration requirements for PEOs, and several other states are considering such regulation. Such laws vary from state to state, but generally provide for monitoring the fiscal responsibility of PEOs and, in some cases, codify and clarify the co-employment relationship for unemployment, workers' compensation, and other purposes under state law. DRDF estimates that the annual costs of compliance with these regulations is approximately \$250,000.

Going Concern Considerations

At June 30, 2004, and for the fiscal year then ended, we had a net loss and negative working capital, which raise substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve sales targets due to insufficient working capital and entry into new business segments. Our ability to continue operations will depend on positive cash flow from future operations and on our ability to raise additional

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

funds through equity or debt financing. We have reduced and/or discontinued some of our operations and, if we are unable to raise or obtain needed funding, we may be forced to discontinue operations.

For the year ended June 30, 2004, the Company experienced a net loss from operations of \$972 thousand and as of June 30, 2004, the Company had a negative working capital deficit of \$21.9 million and had a negative stockholders' deficit of \$20.9 million. In addition, the Company is in default on certain note payable obligations and is being sued by numerous trade creditors for nonpayment of amounts due. The Company is also delinquent in its payments relating to payroll tax liabilities. These conditions raise substantial doubt about its ability to continue as a going concern.

We plan to overcome the circumstances that impact our ability to remain a going concern through a combination of increased revenues and decreased costs with interim cash flow deficiencies being addressed through additional equity financing. We have been able to reduce our costs by reducing our number of employees and suspending unprofitable operations associated with the computer printer business. We commenced a program to reduce our debt, which we will address more aggressively in our current fiscal year, partially through debt-to-equity conversions. Finally, we continue to pursue the acquisition of business units that will be consistent with these measures.

MANAGEMENT AND MEMBERS OF THE BOARD OF DIRECTORS

The directors and executive officers of the Company, their ages and positions with the Company as of June 30, 2003 are as follows:

Name	Age	Since	Director Title
Brian Bonar	56	1995	Chief Executive Officer
Richard H. Green	67	2000	Director
Robert A. Dietrich	58	2000	Director
Eric W. Gaer	55	2000	Director

DESCRIPTION OF SECURITIES

GENERAL

Our authorized capital stock consists of 1,000,000,000 shares of Common Stock at \$.005 par value, of which 722,919,389 shares are issued and outstanding at April 30, 2005.

The following is a description of the securities of DRDF taken from provisions of our Company's Articles of Incorporation and By-laws, each as amended. The following description is a summary of the material terms in our articles of incorporation and bylaws, as currently in effect.

COMMON STOCK

Holders of the common stock are entitled to one vote for each share held in the election of directors and in all other matters to be voted on by shareholders. Stockholders have cumulative voting rights in the election of directors. Holders of common stock are entitled to receive dividends as may be declared from time to time by our board of directors out of funds legally available. In the event of liquidation, dissolution or winding up, holders of common stock are to share in all assets remaining after the payment of liabilities.

38

The holders of common stock have no preemptive or conversions rights and are not subject to further calls or assessments. There are no redemption or sinking fund provisions applicable to the common stock. The rights of the holders of the common stock are subject to any rights that may be fixed for holders of preferred stock. All of the outstanding shares of common stock are fully paid and non-assessable.

The holders of the outstanding shares of common stock are entitled to receive dividends out of assets legally available at such times and in such amounts as the Board of Directors may from time to time determine, subject to the rights of the holders of our preferred stock. Upon our liquidation, dissolution, or winding up, our assets, which are legally available for distribution to the stockholders, will be distributed equally among the holders of the shares.

We have never paid any cash dividends on the common stock. Future cash dividends, if any, will be at the discretion of our Board of Directors and will depend upon, among other things, our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions, and such other factors as the Board of Directors may deem relevant.

WARRANTS AND OPTIONS:

On December 17, 2003, DRDF issued four Warrants to purchase an aggregate of 16,000,000 shares of common stock of DRDF with an exercise price per share of 110% of the Closing trade price as reported by Bloomberg L.P. for the OTC Bulletin Board for the trading day preceding but not including the closing date to the following: 1) Alpha Capital Aktiengesellschaft for 4,500,000 shares, 2) Gamma Opportunity Capital Partners, LP for 4,500,000 shares, 3) Longview Fund, L.P. for 4,000,000 shares and Stonestreet Limited Partnership for 3,000,000

SELLING SHAREHOLDERS

SHARES ELIGIBLE FOR FUTURE SALE

 As of April 30, 2005, DRDF has 722,919,389 shares of Common Stock outstanding. Sales of a substantial number of shares of DRDFs Common Stock in the public market following this offering could adversely affect the market price of the Common Stock. DRDF is registering with this document 244,571,429 shares of Common Stock for resale, all of which will be freely tradable without restriction or further registration under the Securities Act. 228,571,429 of the underlying common shares that are being registered through this document pertain to the 8%, \$800,000 in convertible debenture held by various investors (more detailed discussion below).

The Shares being offered for resale by our Selling Stockholders are issuable in accordance with ss. 4(2) and Rule 506 under the Securities Act of 1933, as amended (the "Securities Act"),

SELLING SHAREHOLDER TABLE

The table below sets forth information concerning the resale of shares of Common Stock by the Selling Stockholder. We will not receive any proceeds from the resale of the Common Stock by the Selling Stockholder nor will we receive proceeds from the exercise of the warrants.

Assuming the Selling Stockholder sells all the shares registered below, the Selling Stockholder will no longer continue to own any shares of our Common Stock.

The following table also sets forth the name of the person who is offering shares of common stock by this prospectus, the number of shares of common stock beneficially owned by such person, the number of shares of common stock that may be sold in this offering and the number of shares of common stock such person will own after the offering, assuming he sells all of the shares offered.

TERMS OF THE CONVERTIBLE NOTES

On December 17, 2003, DRDF entered into a Securities Purchase Agreement with four accredited investors for the sale of (i) \$800,000 in Convertible Debentures and (ii) warrants to buy 16,000,000 shares of our common stock. This prospectus relates to the resale of the common stock underlying these convertible notes and warrants.

The convertible notes bear interest at 8% per annum, mature two years from the date of issuance, and are convertible into our common stock at the investors option, at the lower of (i) \$.02 (maximum price) or (ii) seventy percent (70%) of the average of the three lowest closing bid prices for the sixty (60) trading days prior to but not including the conversion date for the common stock. The full principal amount of the convertible notes is due upon default under the terms of secured convertible notes. The warrants are exercisable until five years from the date of issuance at a purchase price of \$0.0187 per share. In addition, the conversion price of the convertible notes and the exercise price of the warrants will be adjusted in the event that we issue common stock at a price below the fixed conversion price or below market price, with the exception of any securities issued in connection with the Securities Purchase Agreement. The conversion price of the convertible notes and the exercise price of the warrants may be adjusted in certain circumstances such as if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the selling stockholder's position..

The warrants are exercisable until five years from the date of issuance at a purchase price of \$0.0187 per share. The selling stockholders will be entitled to exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event that the selling stockholder exercises the warrants on a cashless basis, then we will not receive any proceeds. In addition, the exercise price of the warrants will be adjusted in the event we issue common stock at a price below market, with the exception of any securities issued as of the date of this warrant or issued in connection with the callable secured convertible notes issued pursuant to the Securities Purchase Agreement, dated December 17, 2003.

The holders of the 8% convertible debentures may not convert its securities into shares of DRDF's common stock if after the conversion such holder would beneficially own over 9.9% of the outstanding shares of DRDF's common stock. The holder may waive this percent ownership restriction upon not less than 61 days notice to DRDF. Since the number of shares of DRDF's common stock issuable upon conversion of the debentures will change based upon fluctuations of the market price of DRDF's common stock prior to a conversion, the actual number of shares

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

of DRDF's common stock that will be issued under the debentures owned by the holders is based on a reasonable good faith estimate of the maximum amount needed.

If DRDF issues any shares of common stock for a price less than the purchase price of the warrants, prior to the complete exercise of the above warrants, the exercise price for future purchased will be reduced accordingly. The warrant purchase price shall be reduced as follows: (i) the number of shares of our common stock outstanding immediately prior to such issue shall be multiplied by the purchase price in effect at the time of such issue and the product shall be added to the aggregate consideration, if any, received by us upon such issue of additional shares of common stock; and (ii) the sum so obtained shall be divided by the number of shares of common stock outstanding immediately after such issue. The resulting figure shall be the adjusted purchase price.

The conversion price of the convertible notes and the exercise price of the warrants may be adjusted in certain circumstances such as if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the selling shareholder's position.

The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 9.99% of the then issued and outstanding shares of common stock. The Subscriber may void this conversion limitation effective after (sixty-one) 61 days upon prior written notice to the Company.

The notes were issued to the following: Alpha Capital Aktiengesellschaft, a \$225,000 secured convertible debenture, Gamma Opportunity Capital Partners, LP, a \$225,000 secured convertible debenture, Longview Fund, L.P., a \$200,000 secured convertible debenture and Stonestreet Limited Partnership, a \$150,000 in secured convertible debenture. None of the investors are affiliated.

SAMPLE CONVERSION CALCULATION

The following gives examples of the number of shares that would be issued if the \$800,000 of convertible notes in this offering were converted at one time at prices representing 25%, 50%, and 75% below the current market price (assuming a conversion price to the note holders of \$0.0026). As of April 30, 2005, we had 722,919,389 shares of common stock outstanding.

PLAN OF DISTRIBUTION

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Each selling stockholders will most likely sell their shares on the open market. Our stock is quoted on the OTCBB under the symbol DRDF.

Therefore, the selling stockholders may, from time to time, sell any or all of their shares of common stock on any stock exchange, market, or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. There is no assurance that the selling stockholders will sell any or all of the common stock in this offering. The selling stockholders may use any one or more of the following methods when selling shares:

- o Ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers.
- o Block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction.
- o Purchases by a broker-dealer as principal and resale by the broker-dealer for its own account.
- o An exchange distribution following the rules of the applicable exchange
- o Privately negotiated transactions
- o Short sales or sales of shares not previously owned by the seller
- o Broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share
- o A combination of any such methods of sale any other lawful method

The selling stockholders may also engage in

- o Short selling against the box, which is making a short sale when the seller already owns the shares.
- o Other transactions in our securities or in derivatives of our securities and the subsequent sale or delivery of shares by the stockholder.

42

- o Pledging shares to their brokers under the margin provisions of customer agreements. If a selling stockholder defaults on a margin loan, the broker may, from time to time, offer to sell the pledged shares.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from selling stockholders in amounts to be negotiated. If any broker-dealer acts as agent for the purchaser of shares, the broker-dealer may receive commission from the purchaser in amounts to be negotiated. The selling stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling stockholders defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares. The selling stockholders and any other persons participating in the sale or distribution of the shares will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such act, including, without limitation, Regulation M. These provisions may restrict certain activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other such person. In the event that the selling stockholders are deemed affiliated purchasers or distribution participants within the meaning of Regulation M, then the selling stockholders will not be permitted to engage in short sales of common stock. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. In regards to short sells, the selling stockholder can only cover its short position with the securities they receive from us upon conversion. In addition, if such short sale is deemed to be a stabilizing activity, then the selling stockholder will not be permitted to engage in a short sale of our common stock. All of these limitations may affect the marketability of the shares.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be considered to be "underwriters" within the meaning of the Securities Act for such sales. An underwriter is a person who has purchased shares from an issuer with a view towards distributing the shares to the public. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be considered to be underwriting commissions or discounts under the Securities Act.

Because the following selling shareholder is an "underwriter" within the meaning of Section 2(a)(11) of the Securities Act, they will be subject to the prospectus delivery requirements:

- o Alpha Capital Aktiengesellschaft
- o Gamma Opportunity Capital Partners, LP
- o Longview Fund, L.P.
- o Stonestreet Limited Partnership

We are required to pay all fees and expenses incident to the registration of the shares in this offering. However, we will not pay any commissions or any other fees in connection with the resale of the common stock in this offering. We have agreed to indemnify the selling shareholders and their officers, directors, employees and agents, and each person who controls any selling shareholder, in certain circumstances against certain liabilities, including liabilities arising under the Securities Act. Each selling shareholder has agreed to indemnify DRDF and its directors and officers in certain circumstances against certain liabilities, including liabilities arising under the Securities Act.

If the selling stockholder notifies us that they have a material arrangement with a broker-dealer for the resale of the common stock, then we would be required to amend the registration statement of which this prospectus is a part, and file a prospectus supplement to describe the agreements between the selling stockholder and the broker-dealer.

LEGAL PROCEEDINGS

In October 1999, the law firms of Weiss & Yourman and Stull, Stull & Brody made a public announcement that they had filed a lawsuit against the Company and certain current and past officers and/or directors, alleging violation of federal securities laws and, in November 1999, the lawsuit, filed in the name of

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

Nahid Nazarian Behfarin, on her own behalf and others purported to be similarly situated, was served on the Company. In January 2003, the Company entered into a Stipulation of Settlement with the plaintiffs. It agreed to pay the plaintiffs 5,000,000 shares of common stock and \$200 in cash. The Parties have accepted the settlement. DRDF has issued the shares, and its insurance carrier has paid the \$200 cash payment. Pursuant to a hearing in May 2003 the Court provided approval to the settlement.

43

On August 22, 2002, the Company was sued by its former landlord, Carmel Mountain #8 Associates, L.P. or past due rent on its former facilities at 15175 Innovation Drive, San Diego, CA 92127. A judgment was issued against Dalrada for \$115,000. This amount plus interest has been accrued on the balance sheet.

DRDF was a party to a lawsuit filed by Symphony Partners, L.P. related to its acquisition of SourceOne Group, LLC. As reported on Form 8-K, dated July 22, 2003, the plaintiffs sought payment of \$702. In June 2003, the Company entered into a settlement with the plaintiffs for a cash payment of \$274, which has been paid.

DRDF is one of dozens of companies sued by The Massachusetts Institute of Technology, et al., related to a patent held by the plaintiffs that may be related to part of the Company's ColorBlind software. Subsequent to the period reported in this filing, in June 2003, the Company entered into a settlement with the plaintiffs who have agreed to dismiss their claims against DRDF with prejudice in exchange for a settlement fee payment of \$10, which has been paid.

The Company has been sued in Illinois state court along with AIA/Mirriman, its insurance brokers by the Arena Football League-2 ("AFS"). Damages payable to AF2, should they win the suit, could exceed \$700. The Company expects to defend its position and rely on representations of its insurance brokers. This case is currently in the discovery stage. In addition, Dalrada's management believes there is no merit to this case and intends to defend itself to the fullest extent.

Throughout fiscal 2003 and 2004, and through the date of this filing, trade creditors have made claims and/or filed actions alleging the failure of the Company to pay its obligations to them in a total amount exceeding \$3,000. These actions are in various stages of litigation, with many resulting in judgments being entered against the Company. Several of those who have obtained judgments have filed judgment liens on the Company's assets. These claims range in value from less than one thousand dollars to just over one million dollars, with the great majority being less than twenty thousand dollars.

In connection with the Company's acquisition of controlling interest of Quik Pix, Inc., we are unaware of any pending litigation. From time to time, QPI may be involved in litigation relating to claims arising out of its operations in the normal course of business.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

1. On September 3, 2003, the Registrant appointed Pohl, McNabola, Berg & Company, LLP ("PMBC") as Imaging Technologies Corporation's ("ITEC," the "Registrant", or the "Company") independent auditors upon the recommendation of its Audit Committee.

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

The Dalrada (formerly ITEC) Audit Committee interviewed a number of candidates, including Stonefield Josephson, Inc., its prior independent auditors. The Audit Committee determined that it was in the best interests of the Company to engage a new independent auditor to perform services for ITEC and its subsidiaries, two of whose shares are publicly traded.

Stonefield Josephson's audit report on the financial statements of the Company as of June 30, 2002 expressed its uncertainty as to the Company's ability to continue as a going concern. They cited recurring losses from operations, the Company's working capital deficiency, and limited cash resources. These circumstances were also present in the financial statements of the Company as of March 31, 2003 and in financial statements for several consecutive reporting periods. The Company expects that this condition will be reported in its audited financial statements for the fiscal year ended June 30, 2003. PMBC has been engaged to perform the audit for this fiscal year ended June 30, 2003.

The Registrant believes there were no disagreements with Stonefield Josephson within the meaning of Instruction 4 to Item 304 of Regulation S-K on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure in connection with the audit of the Company's financial statements for the period ended June 30, 2002, or for any subsequent interim period, which disagreements, if not resolved to their satisfaction, would have caused Stonefield Josephson to make reference to the subject matter of the disagreements in connection with its report.

During the fiscal years ended June 30, 2000, 2001, 2002, and through the present, there have been no reportable events (as defined in Item 304(a)(1)(v) of Regulation S-K) of the type required to be disclosed by that section. The Company has not consulted with any other independent auditors regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Company's financial statements; or (ii) any matter that was either the subject matter of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as defined in Item 304(a)(1)(v) of Regulation S-K).

A letter of Stonefield Josephson addressed to the Securities and Exchange Commission is included as Exhibit 16 to this Form 8-K. Such letter states that such firm agrees with the statements made by the Company in this Item 4.

2. On August 23, 2002, the Registrant appointed Stonefield Josephson, Inc. ("SJI") as Imaging Technologies Corporation's ("ITEC," the "Registrant", or the "Company") independent auditors because the Company and its prior auditors, Merdinger, Fruchter, Rosen & Corso, PC ("MFRC").

The Registrant stated that the Company and MFRC "mutually agreed that it was in the best interests of the Company to have auditors with offices closer to the Company's corporate offices". However, MFRC disagrees.

MFRC was appointed as ITEC auditors on April 22, 2002, Boros & Farrington, PC ("BF"). Since the appointment, MFRC has had staff changes, which the Registrant believes would have adversely affected services provided to the Registrant. MFRC disagrees with this assessment.

Other than those disagreements noted above, The Registrant believes there were no other disagreements with MFRC within the meaning of Instruction 4 to Item 304 of Regulation S-K on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure with

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

regard to its services to the Registrant, which disagreements, if not resolved to their satisfaction, would have caused MFRC to make reference to the subject matter of the disagreements.

On August 23, 2002, the Company engaged SJI as the Company's independent auditors for the year ended June 30, 2002, replacing the firm of MFRC. The change has been approved by the Company's audit committee.

3. On April 22, 2002, the Registrant appointed Merdinger, Fruchter, Rosen & Corso, PC ("MFRC") as Imaging Technologies Corporation's ("ITEC," the "Registrant", or the "Company") independent auditors because the Company and its prior auditors, Boros & Farrington, PC ("BF") have mutually agreed that BF may not be able to adequately serve the continuing auditing requirements of the Company.

ITEC's acquisition of SourceOne Group, Inc., which is located in Virginia, has created the need for auditing services on a larger scope than those provided by BF.

BF's audit report on the financial statements of the Company as of June 30, 2001 expressed its uncertainty as to the Company's ability to continue as a going concern. They cited recurring losses from operations, the Company's working capital deficiency, and limited cash resources. These circumstances were also present in the financial statements of the Company as of September 30, 2001 and December 31, 2000 and 2001; and will be reported in the Company's financial statements as of March 31, 2002. The Registrant has not yet filed its Form 10-Q for the period ended March 31, 2002.

The Registrant believes there were no disagreements with BF within the meaning of Instruction 4 to Item 304 of Regulation S-K on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure in connection with the audit of the Company's financial statements for the periods ended June 30, 1999, 2000, and 2001, or for any subsequent interim period, which disagreements, if not resolved to their satisfaction, would have caused BF to make reference to the subject matter of the disagreements in connection with its report.

During the fiscal year ended June 30, 1999, 2000, 2001, and through the present, there have been no reportable events (as defined in Item 304(a)(1)(v) of Regulation S-K) of the type required to be disclosed by that section. The Company has not consulted with any other independent auditors regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Company's financial statements; or (ii) any matter that was either the subject matter of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as defined in Item 304(a)(1)(v) of Regulation S-K).

On April 22, 2002, the Company engaged MFRC as the Company's independent auditors for the year ended June 30, 2002, replacing the firm of BF. The change has been approved by the Company's audit committee.

A letter of BF addressed to the Securities and Exchange Commission is included as Exhibit 16 to this Form 8-K. Such letter states that such firm agrees with the statements made by the Company in this Item 4.

INDEMNIFICATION OF DIRECTORS AND OFFICER

Section 145 of the General Corporation Law of the State of Delaware provides, in general, that a corporation incorporated under the laws of the State of Delaware, such as the registrant, may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than a derivative action by or in the right of the corporation) by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another enterprise, against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful. In the case of a derivative action, a Delaware corporation may indemnify any such person against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery of the State of Delaware or any other court in which such action was brought determines such person is fairly and reasonable entitled to indemnity for such expenses.

Our certificate of incorporation provides that directors shall not be personally liable for monetary damages to our company or our stockholders for breach of fiduciary duty as a director, except for liability resulting from a breach of the director's duty of loyalty to our company or our stockholders, intentional misconduct or willful violation of law, actions or inactions not in good faith, an unlawful stock purchase or payment of a dividend under Delaware law, or transactions from which the director derives improper personal benefit. Such limitation of liability does not affect the availability of equitable remedies such as injunctive relief or rescission. Our certificate of incorporation also authorizes us to indemnify our officers, directors and other agents to the fullest extent permitted under Delaware law. Our bylaws provide that the registrant shall indemnify our officers, directors and employees. The rights to indemnity thereunder continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. In addition, expenses incurred by a director or officer in defending any action, suit or proceeding by reason of the fact that he or she is or was a director or officer of our company shall be paid by the registrant unless such officer, director or employee is adjudged liable for negligence or misconduct in the performance of his or her duties.

This means that our certificate of incorporation provides that a director is not personally liable for monetary damages to us or our stockholders for breach of his or her fiduciary duties as a director. A director will be held liable for a breach of his or her duty of loyalty to us or our stockholders, his or her intentional misconduct or willful violation of law, actions or inactions not in good faith, an unlawful stock purchase or payment of a dividend under Delaware law, or transactions from which the director derives an improper personal benefit. This limitation of liability does not affect the availability of equitable remedies against the director including injunctive relief or rescission. Our certificate of incorporation authorizes us to indemnify our officers, directors and other agent to the fullest extent permitted under Delaware law. We have entered into indemnification agreements with all of our

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

officers and directors. In some cases, the provisions of these indemnification agreements may be broader than the specific indemnification provisions contained in our certificate of incorporation or otherwise permitted under Delaware law. Each indemnification agreement may require us to indemnify an officer or director against liabilities that may arise by reason of his status or service as an officer or director, or against liabilities arising from the director's willful misconduct of a culpable nature.

Commission Policy

Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers or persons controlling DRDF. DRDF has been informed that in the opinion of the Commission such indemnification is against public policy as expressed in the Act and is therefore unenforceable.

UNDERTAKINGS

The undersigned registrant hereby undertakes that it will:

Undertaking (a)

(1) File, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information set forth in the registration statement; and arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of the Registration Fee" table in the effective registration statement.

iii) Include any additional or changed material information on the plan of distribution.

(2) For determining any liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For purposes of determining any liability under the Securities Act, treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Company pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time it was declared effective.

(5) For determining any liability under the Securities Act, treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other

Edgar Filing: DALRADA FINANCIAL CORP - Form SB-2/A

than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
