Item 8.01. Other Events

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 818,000 customers in Oklahoma and western Arkansas. In addition, OGE holds a 26.3 percent limited partner interest and a 50 percent general partner interest in Enable Midstream Partners, LP.

As previously reported, on August 6, 2014, OG&E filed an application with the Oklahoma Corporation Commission ("OCC") for approval of its plan to comply with the Environmental Protection Agency's Mercury and Air Toxics Standards and Regional Haze Federal Implementation Program. The application seeks approval of the environmental compliance plan and for a recovery mechanism for the associated costs. The environmental compliance plan includes installing dry scrubbers at Sooner Units 1 and 2 and the conversion of Muskogee Units 4 and 5 to natural gas. The application also asks the OCC to predetermine the prudence of replacing OG&E's soon-to-be retired Mustang steam turbines in late 2017 (approximately 460 MW) with 400 MW of new, efficient combustion turbines at the Mustang site in 2018 and 2019 and approval for a recovery mechanism for the associated costs. OG&E estimates the total capital cost associated with its environmental compliance and Mustang modernization plans included in this application to be approximately \$1.1 billion.

On June 8, 2015, OG&E announced that the Administrative Law Judge ("ALJ") had made a recommendation on the application. In its report, which is filed as Exhibit 99.02 hereto and is incorporated herein by reference, the ALJ recommended that the OCC pre-approve the environmental compliance plan. However, the ALJ did not recommend approval of requested rate riders to recover the associated costs. Instead, the ALJ recommended that such costs should be addressed in the next general rate case. In addition, the ALJ did not recommend approval of the replacement of the Mustang steam turbines. OG&E expects to file exceptions to some of the ALJ's recommendations. At this time, OG&E cannot predict the outcome of the proceeding.

A copy of the Company's press release announcing the issuance of the ALJ's report is attached as Exhibit 99.01 and incorporated herein by reference.
