Item 1.01. Entry into a Material Definitive Agreement.

Effective April 29, 2009, Pioneer Natural Resources Company (the "Company") and the lenders under the Company's Amended and Restated 5-Year Revolving Credit Agreement (the "Credit Agreement") amended the Credit Agreement to provide the Company additional financial flexibility. The Credit Agreement contains certain financial covenants, one of which required the Company to maintain a ratio of the net present value of the Company's oil and gas properties to total debt of at least 1.75 to 1.0 until the Company achieves an investment grade rating by Moody's Investors Service, Inc. or Standard & Poors Ratings Group, Inc. The amendment reduced that ratio to 1.5 to 1.0 through the period ending March 31, 2011, after which time the ratio would revert to 1.75 to 1.0, and provides that the Company may include in the calculation of the present value of its oil and gas properties 75% of the market value of its ownership of common units of Pioneer Southwest Energy Partners L.P. The covenant requiring the Company to maintain a ratio of total debt to total capitalization of no more than 0.60 to 1.0 was not changed.

The amendment also increased the spread on the Company's borrowing rates from 0.75 percent to 2.00 percent and the commitment fee on the undrawn amounts under the Credit Agreement from 0.125 percent to 0.375 percent, all based on the Company's current debt rating. In addition, the amendment changed certain provisions relating to the consequences if a lender under the Credit Agreement defaults in its obligations under the agreement. The foregoing description is qualified in its entirety by the complete copy of the amendment, which is filed as Exhibit 10.1 to this report, and which is incorporated herein by reference.

As of the date of the amendment, the Company was in compliance with all of its debt covenants under the Credit Agreement, including the original covenant to maintain a ratio of the net present value of oil and gas properties to total debt of at least 1.75 to 1.0.
