NOTES TO CONDENSED FINANCIAL STATEMENTS

September 30, 2009

(Unaudited)

NOTE A BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the financial statements of the Company included in the Company's Form 10-K/A for the year ended December 31, 2008 as filed with the Commission on June 12, 2009.

In preparing the accompanying financial statements, the Company has evaluated all material subsequent events through November 16, 2009, the issuance date of this quarterly report on Form 10K.

NOTE B INVENTORY

Inventories, consisting of purchased finished goods ready for sale, are stated at the lower of cost (as determined by the first-in, first-out method) or market. In addition, we maintain a reserve for the estimated value associated with damaged, excess or obsolete inventory. The reserve generally includes inventory that has turn days in excess of 365 days, or discontinued items. At September 30, 2009 our inventory reserve amounted to \$54,323.

NOTE C - REALIZATION OF ASSETS

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. Net loss for the nine months ended September 30, 2009 was \$410,150, and the Company had a working capital deficit of \$229,084 at September 30, 2009. The Company has incurred net losses aggregating \$12,742,605 from inception, and may continue to incur net losses in the future. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product and service development in lieu of product marketing. The Company's management team has diligently explored several market segments relative to the Company's product and service lines. From that exploration, the Company has decided it is in its best interests to explore the use of existing, well-established distribution channels for marketing and selling the DriverMax product line. Management also believes a large market exists for the Company's testing services and the information provided by those services, through the Company's business relationship with Wayne Supply, a Caterpillar dealer in Kentucky. This exclusive contract was announced in the Company's 8-K filing of January 15, 2009. A combination of the products and services has been developed as a long-term program for current and potential customers, particularly in regulated markets. Management will focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results, allowing it to continue in existence.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

NOTE I EARNINGS (LOSS) PER SHARE

The Company calculates net income (loss) per share in accordance with Accounting Standards Codification subtopic 260-10, Earnings per Share (ASC 260-10). Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During periods in which the Company incurs losses, common stock equivalents, if any, are not considered, as their effect would be anti dilutive.

NOTE J REDEEMABLE, CONVERTIBLE PREFERRED STOCK

In December 2006, Mirencos offered a minimum \$3,000 investment for 25,000 shares of its common stock at \$0.12 per share, plus 500 shares of convertible, redeemable preferred stock valued by the Company at \$1 per share. In connection with this offering, 23,256 shares of the convertible, redeemable preferred stock were issued, of which 5,000 were converted to 25,000 shares of common stock during the period ended September 30, 2007. Each preferred share is convertible at the holder's option, to five shares of the Company's common stock, and carries a cumulative 6% dividend rate through December 31, 2011. The preferred shares may be redeemed by the Company any time after December 31, 2009, and must be fully redeemed on December 31, 2011, together with all cumulative dividends in arrears. Accordingly, the preferred shares are presented as shares subject to mandatory redemption in the accompanying financial statements.

NOTE K - SUBSEQUENT EVENTS

On October 13, 2009 the Company signed a convertible promissory note with Wayne Supply with a total aggregate face principal amount of \$100,000, with interest of 12%. The Note is convertible into shares of common stock at a conversion price equal to the lesser of (i) \$0.10 per share, or (ii) the then current market price per Common Share, as determined by taking the average closing price of the Common Stock quoted on the OTC bulletin Board for the sixty (60) business days immediately prior to the conversion date. It is intended that the conversion will take place on August 31, 2014, the maturity date.

NOTE L RECENT ACCOUNTING PRONOUNCEMENTS

The Company evaluates the pronouncements of various authoritative accounting organizations, primarily the Financial Accounting Standards Board (FASB), the SEC, and the Emerging Issues Task Force (EITF), to determine the impact of new pronouncements on US GAAP and the impact on the Company.

In June 2009, the FASB issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 168). SFAS 168 has become the source of authoritative US GAAP to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for public companies. The codification supersedes all non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the codification will become non-authoritative. The Codification is effective for interim and annual periods ending on or after September 15, 2009.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events (SFAS 165), which provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This topic was previously addressed only in auditing literature. SFAS 165 is similar to the existing auditing guidance with some exceptions that are not intended to result in significant changes to practice. Entities are now required to disclose the date through which subsequent events have been evaluated, with such date being the date the financial statements were issued or available to be issued. SFAS 165 is effective on a prospective basis for interim or annual reporting periods ending after June 15, 2009.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

General and Background

Mirencos, Inc. was organized and incorporated in the State of Iowa on February 21, 1997. We develop, market and distribute technologically advanced products, improving efficiencies in engine combustion and equipment application. Mirencos also offers consultative services in evaluating diesel engines through its Mirencos Diesel Evaluation Procedure, MDEP, which consists of testing procedures, comparison to other engines on its proprietary data base and making recommendations for maintenance activities and/or application of Mirencos s proprietary technology.

Our primary products are derived from technology developed in the United States. They are D-Max, C-Max, EconoCruise and Fuel-Tracker.

In addition to products, Mirencos, Inc. offers consultative services with its Combustion Management Program called MDEP, Mirencos Diesel Evaluation Procedure.

MDEP consists of the evaluation of a diesel engine based on a comparison with like engines. An evaluation is completed by performing a modified SAE-J1667 as well as a MIR 120 Second Transient evaluation. Mirencos has developed an extensive database of evaluation results, for thousands of diesel engines, using these techniques.

From these results, Mirencos can evaluate the condition of an engine, determine commonalities among engine types, evaluate an entire fleet and recommend appropriate maintenance procedures for each specific vehicle. From these results, we can also make recommendations for appropriate engine service that will improve engine combustion.

Mirencos MDEP has been successfully applied in the underground mining industry to reduce diesel particulate matter. This industry is under strict regulation from the Mining Safety and Health Administration (MSHA) to reduce particulate emissions for the safety of its workers health. Beginning in 2005, Mirencos introduced the combustion management program, MDEP, D-Max and C-Max products throughout the United States.

The Fuel-Tracker system was designed to meet our customers demand to accurately monitor fuel consumption for individual pieces of equipment. The Fuel-Tracker system uses a diesel engines turbo boost pressure to correlate fuel consumption of the engine. With this system it is possible to provide basic fuel consumption information that many customers are looking for, as well as many other management tools. Data from the Fuel-Tracker system provides equipment productivity in percentage of horse power, equipment idle time, shut down time, location for each unit of fuel consumed and much more. Fuel-Tracker technology has proven to be an effective tool to manage equipment maintenance, productivity and operator efficiency.

(2) Marketing methods

Our strategy is to market and sell our products primarily through third party distributors and to a lesser extent through direct sales. For the nine months ended September 30, 2009, sales through distributors accounted for 40% of our sales. As disclosed in an 8-K dated January 15, 2009, we have entered into a distributor agreement with Wayne Supply Company. We expect that Wayne will be the exclusive distributor for our Diesel Evaluation Procedure (MDEP), Fuel Tracker, data base management and related services for off-road, heavy equipment and on-highway vehicles and equipment markets throughout the United States and Canada. Although the sales results from the Wayne relationship have been slower than expected, we continue to believe that our relationship with Wayne will bring value to Mirencos by providing exposure to 60 Caterpillar dealers and their customers, across the US and Canada. During the first nine months of 2009, Wayne Supply has been developing a marketing strategy and ramping up sales efforts in the US and Canada. We anticipate increased sales through third party distributors in the remainder of 2009.

We have incurred annual losses since inception while developing and introducing our original products and focusing management and other resources on capitalizing the Company to support future growth. Relatively high management, personnel, consulting and marketing expenditures were incurred in prior years in preparation for the commercialization of our products. We expect distribution and selling expenses to increase directly with sales increases, however, as a percentage of sales, these expenses should decline. It is anticipated that general and administrative expenses may increase as our business expands.

Liquidity and Capital Resources

As of September 30, 2009, the Company had total current assets of \$168,582 and current liabilities of \$397,665, resulting in a working capital deficit of (\$229,084). The Company's available sources for generating cash for working capital have been through the issuance of common stock, preferred stock and notes payable and, eventually, we expect that working capital will be available through the development of profitable operations.

The Company's future capital requirements will depend on many factors, including expansion of our business; increased sales of both services and products, the cost of third-party financing, development of new revenue resources

and administrative expense. We do not expect to expand our facilities during 2009.

On October 13, 2009 the Company signed a convertible promissory note with Wayne Supply with a total aggregate face principal amount of \$100,000.00, with interest of 12%. The Note is convertible into shares of common stock at a conversion price equal to the lesser of (i) \$0.10 per share, or (ii) the then current market price per Common Share, as determined by taking the average closing price of the Common Stock quoted on the OTC bulletin Board for the sixty (60) business days immediately prior to the conversion date. It is intended that the conversion will take place on August 31, 2014, the maturity date.

Effective January 18, 2008, the Company obtained a line of credit that calls for maximum borrowings of \$301,500. The line bears interest at 8% per annum and is due January 18, 2018. As of the date of these financial statements, aggregate draws of \$335,000 have been made against the line of credit, and payments in the amount of \$45,492 have been made.

We currently own the registered trademark for Mirencos, issued October 6, 2009.

According to the terms of our agreement with American Technologies to acquire certain patent- rights, we have incurred a 3% royalty of annual gross sales for a period of 20 years, which began November 1, 1999.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. Net loss for the nine months ended September 30, 2009 was (\$410,150). The Company has incurred net losses aggregating (\$12,742,605) from inception, and may continue to incur net losses in the future. If revenues do not increase substantially in the near future, additional sources of funds will be needed to maintain operations. These matters give rise to substantial doubt about the Company's ability to continue as a going concern.

Management and other personnel have been focused on product and service development in lieu of product marketing.

The Company's management team believes it has diligently explored several market segments relative to the Company's product and service lines. From that exploration, the Company has decided it is in its best interests to explore the use of existing, well-established distribution channels for marketing and selling the DriverMax product line. Management also believes a large market exists for the Company's testing services and the information provided by those services through the Company's business relationship with Whayne Supply, a Caterpillar dealer in Kentucky. This exclusive contract was announced in the Company's 8-K filing of January 15, 2009. Although Whayne Supply has been developing a marketing strategy and ramping up sales efforts in the US and Canada. We have yet to experience an increase in sales from the arrangement.

10

A combination of the products and services has been developed as a long-term program for current and potential customers, particularly in regulated markets. Management plans to focus on the Company's efforts on the sales of products, services, and programs with sensible controls over expenses. Management believes these steps, if successful, will improve the Company's liquidity and operating results, allowing it to continue in existence.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

Summary of Significant Accounting Policies

Inventories. Inventories, consisting of purchased finished goods ready for sale, are stated at the lower of cost (as determined by the first-in, first-out method) or market. We evaluate our inventory value at the end of each quarter to

ensure that actively moving inventory, when viewed by category, is carried at the lower of cost or market. In addition, we maintain a reserve for the estimated value associated with damaged, excess or obsolete inventory. The reserve generally includes inventory that has turn days in excess of 365 days, or discontinued items. At September 30, 2009, our inventory reserve amounted to \$54,323.

Accounts Receivable. Accounts receivable are stated at estimated net realizable value. Accounts receivable are comprised of balances due from customers net of estimated allowances for uncollectible accounts. In determining collectability, historical trends are evaluated and specific customer issues are reviewed to arrive at appropriate allowances. We use the direct write-off method for accounts receivable that are determined to be uncollectable and believe there is no material difference in this method from the allowance method.

Results of Operations

Three months ended September 30, 2009:

Gross sales of \$94,746, including \$46,650 in product sales and \$48,096 in sales of services, were realized for the three months ended September, 2009 and were \$59,601 less than sales of \$154,347 for the same period one year ago.

Product sales in the third quarter of 2008 were sold at retail price versus at dealer price in the third quarter of 2009.

This difference in price is the result of our exclusive contract with Wayne Supply. This contract was disclosed in our 8K, dated January 15, 2009. Cost of sales for the three months ended September 30, 2009 was \$68,002 resulting in gross profit of \$26,744, as compared to \$90,914 for the prior year, a net decrease in gross profit of \$64,170. This decrease is due primarily to fewer sales compared to the sales over the same period in the prior year. In the three months ended September 30, 2009, \$40,670 of employment costs were included in Cost of Sales compared to \$30,187 in the corresponding period in the prior year. Salary expense for the three months ended September 30, 2009 was \$89,181 compared to \$137,153 in the corresponding period in the prior year. After accounting for the employment costs included in cost of sales, salaries decreased by \$37,489. Cost of sales for the three months ended September 30, 2009 also includes employment expense for our MDEP reporting services. Prior to 2009 these expenses were included in salary expense

Interest expense for the nine months ended September, 2009 and 2008 was \$23,272 and \$20,866, respectively, a increase of \$2,406, primarily due to increased borrowings in the first nine months of 2009.

We use estimates in the preparation of our financial statements. The estimates used, relate to the valuation of receivables and the useful lives of equipment and patents. Since our receivables consist of larger individual accounts, we elect to use the direct write off method for those accounts that are deemed to be uncollectible. We believe there is no material difference in this method from the allowance method. There have been no accounts written off in 2009. If it is determined that potential losses of a material amount in receivables are likely, the allowance for doubtful accounts method will be adopted. No such allowance is considered to be required at

this time. If it were determined that the depreciated cost of our equipment and the amortized cost of our patents exceeded their fair market value, there would be a negative impact on our results of operations to the

extent the depreciated and amortized cost of these assets exceeded their fair market value.

The carrying value of long-lived assets is reviewed on a regular basis for the existence of facts and circumstances that suggest impairment. During the first nine months of 2009, no material impairment has been indicated. Should there be an impairment in the future, the Company will measure the amount of the impairment based on the amount by which the carrying value of the impaired assets exceed the fair value of the impaired assets.

We account for equity instruments issued to employees for services, based on the fair value of the equity instruments issued and account for equity instruments issued to other than employees, based on the fair value of the consideration received or the fair value of the equity instruments, whichever is more reliably measurable.

We outsource the production of our DriverMax products to ICE Corporation of Manhattan, Kansas. If, for some reason, the relationship between the Company and ICE Corporation should be interrupted or discontinued, the operations of the Company could be adversely affected until such time as an alternative supply source could be located, contracted and begin producing our technology. Such an event could materially affect our results of operations. We continue to review our relationship with this single source and believe there is no need for an alternative source at this time. As sales of product grow we will continue to review the need for alternative sources.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our Chief Executive Officer and Principal Financial Officer evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective as of September 30, 2009.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Our management team will continue to evaluate our internal control over financial reporting throughout 2009.

Mirencos, Inc., an Iowa corporation (Company), the principal office of which is located at 206 May Street, Radcliffe, Iowa 50230, for value received, hereby promises to pay to the order of Wayne Supply Company, a Kentucky corporation, the principal office of which is located at 1400 Cecil Avenue, Louisville, Kentucky 40211, or its registered assigns (Holder), the sum of One Hundred Thousand Dollars (\$100,000.00), or such lesser amount as shall then equal the outstanding principal balance hereof and any unpaid accrued interest hereon, as set forth below, on August 31, 2014 (the Maturity Date). The following is a statement of the rights of the Holder and the conditions to which this Note is subject, and to which the Holder, by the acceptance of this Note, agrees:

1. Definitions. As used in this Note, the following terms, unless the context otherwise requires, have the following meanings:

1.1 "Company" includes any entity that shall succeed to or assume the obligations of the Company under this Note.

1.2 "Holder," when the context refers to a holder of this Note, shall mean any person who shall at the time be the registered holder of this Note.

In the event that any interest or principal payments are not paid in full when such amounts become due and payable, interest at the same rate as the Initial Interest Rate plus five percent (5%) shall continue to accrue on the balance of any unpaid amounts until such balance is paid.

2.2 All payments made on this Note shall be applied, at the option of the Holder, first to late charges and collection costs, if any, then to accrued interest and then to principal. After maturity or in the event of default, interest shall continue to accrue on this Note at the rate set forth above and shall be payable on demand of the Holder.

2.3 Notwithstanding anything in this Note to the contrary, the interest rate charged hereon shall not exceed the maximum rate allowable by applicable law. If any stated interest rate herein exceeds the maximum allowable rate, then the interest rate shall be reduced to the maximum allowable rate, and any excess payment of interest made by the Company at any time shall be applied to the unpaid balance of any outstanding principal of this Note.

3. Events of Default. If any of the events specified in this Section 3 shall occur (herein individually referred to as an "Event of Default"), the Holder of this Note may, so long as such condition exists, declare the entire outstanding principal of this Note and unpaid accrued interest thereon immediately due and payable, by notice in writing to the Company:

3.1 The institution by the Company of proceedings to be adjudicated as bankrupt or insolvent, or the consent by it to institution of bankruptcy or insolvency proceedings against it or the filing by it of a petition or answer to consent seeking reorganization or release under the federal Bankruptcy Act, or any other applicable federal or state law, or the consent by it to the filing of any such petition or the appointment of a receiver, liquidator, assignee, trustee or other similar official of the Company, or of any substantial part of its property, or the making by it of an assignment for the benefit of creditors, or the taking of corporate action by the Company in furtherance of any such action; or

3.2 If, within sixty (60) days after the commencement of an action against the Company (and service of process in connection therewith on the Company) seeking any bankruptcy, insolvency, reorganization, liquidation, dissolution or similar relief under any present or future statute, law or regulation, such action shall not have been resolved in favor of the Company or all orders or proceedings thereunder affecting the operations or the business of the Company stayed, or if the stay of any such order or proceeding shall thereafter be set aside, or if, within sixty (60) days after the appointment without the consent or acquiescence of the Company of any trustee, receiver or liquidator of the Company or of all or any substantial part of the properties of the Company, such appointment shall not have been vacated.

4. Conversion.

4.1 Voluntary Conversion. Any Holder of this Note has the right, at the Holder's option, at any time and prior to payment in full of the principal balance of and accrued interest on this Note, to convert this Note, in accordance with the provisions of Section 4.3

hereof, in whole or in part, into fully paid and nonassessable shares of Common Stock of the Company ("Common Shares"). The number of Common Shares into which this Note may be converted shall be based on the per share Conversion Price (as hereinafter defined). The number of Common Shares into which the Note may be converted

under this Section 4.1 shall be determined by dividing the outstanding principal amount together with all accrued interest to the date of conversion by the Conversion Price.

4.2 Conversion Price.

(a) Subject to adjustment in Section 4.2(b), the per share Conversion Price shall equal the lesser of (i) \$0.10 per share, or (ii) the then current market price per Common Share, as determined by taking the average closing price of the Common Stock quoted on the OTC Bulletin Board for the sixty (60) business days immediately prior to the conversion date.

(b) The Conversion Price shall be subject to the following adjustments: (i) the Conversion Price shall be equitably adjusted to proportionately reflect any stock split, stock dividend or other distribution payable in securities of the Company, recapitalization or the like, or if the Company shall effect a subdivision or combination of its outstanding Common Stock or existing preferred stock or in the event of a reclassification; and

(ii) if the Company shall issue, after the date hereof, any shares of Common Stock, or securities convertible into or exercisable for, shares of Common Stock for an effective consideration per share of Common Stock less than the Conversion Price, the Conversion Price shall automatically be adjusted so that the Conversion Price equals the effective price per share of Common Stock at which such securities were issued.

4.3 Conversion Procedure. Before the Holder shall be entitled to convert this Note into Common Shares, it shall give written notice by mail, postage prepaid, to the Company at its principal office, of the election to convert the same and shall state therein the name or names in which the certificate or certificates for Common Shares are to be issued. Such conversion shall be deemed to have been made immediately prior to the close of business on the date of surrender of this Note, and the person or persons entitled to receive the Common Shares issuable upon such conversion shall be treated for all purposes as the record holder or holders of such Common Shares as of such date.

4.4 Delivery of Stock Certificates. As promptly as practicable after the conversion of this Note, the Company at its expense will issue and deliver to the Holder of this Note a certificate or certificates for the number of full Common Shares issuable upon such conversion.

4.5 Mechanics and Effect of Conversion. No fractional shares shall be issued upon conversion of this Note. In lieu of the Company issuing any fractional shares to the Holder upon the conversion of this Note, the Company shall pay to the Holder the amount of outstanding principal and interest that is not so converted, such payment to be in the form as provided below. Upon the conversion of this Note pursuant to Section 4.1 above, the Holder shall surrender this Note, duly endorsed, at the principal office of the Company. In the case of a conversion of only a portion of the outstanding principal amount of this Note, the Company shall

execute and deliver to the Holder (or its nominee or nominees), at the expense of the Company, a replacement note in a principal amount equal to the unconverted portion of this Note and dated and bearing interest from the date to which interest has been paid on such Note or dated the date of this Note if no interest has been paid thereon. Upon conversion of the entire outstanding principal amount of and all accrued interest on this Note, the Company shall be forever released from all its obligations and liabilities under this Note.

5. Notices of Record Date, etc. In the event of:

5.1 Any taking by the Company of a record of the holders of any class of securities of the Company for the purpose of determining the holders thereof who are entitled to receive any dividend (other than a cash dividend payable out of earned surplus at the same rate as that of the last such cash dividend theretofore paid) or other distribution, or any right to subscribe for, purchase or otherwise acquire any shares of stock of any class or any other securities or property, or to receive any other right; or

5.2 Any capital reorganization of the Company, any reclassification or recapitalization of the capital stock of the Company or any transfer of all or substantially all of the assets of the Company to any other person or any consolidation or merger involving the Company; or

5.3 Any voluntary or involuntary dissolution, liquidation or winding-up of the Company, the Company will mail to the Holder of this Note at least ten (10) days prior to the earliest date specified therein, a notice specifying:

(a) The date on which any such record is to be taken for the purpose of such dividend, distribution or right, and the amount and character of such dividend, distribution or right; and

(b) The date on which any such reorganization, reclassification, transfer, consolidation, merger, dissolution, liquidation or winding-up is expected to become effective and the record date for determining shareholders entitled to vote thereon.

6. Reservation of Stock Issuable Upon Conversion. The Company shall at all times reserve and keep available out of its authorized but unissued Common Shares, solely for the purpose of effecting the conversion of this Note, such number of its Common Shares as shall from time to time be sufficient to effect the conversion of this Note; and if at any time the number of authorized but unissued shares shall not be sufficient to effect the conversion of the entire outstanding principal amount of and accrued interest on this Note, in addition to such other remedies as shall be available to the holder of this Note, the Company will use its best efforts to take such action as may, in the opinion of its counsel, be necessary to increase its authorized but unissued shares to such number of shares as shall be sufficient for such purposes.

7. Assignment. This Note may not be transferred to any party, other than one affiliated with Whayne Supply Company, without the prior written consent of the Company. The rights and obligations of the Company and the Holder shall be binding upon and benefit the successors, assigns, heirs, administrators and transferees of the parties.

8. Waiver and Amendment. Any provision of this Note may be amended, waived or modified upon the written consent of the Company and the Holder.

9. Prepayment. Except as expressly provided in the Note Purchase Agreement, neither the principle nor any accrued interest on this Note may be prepaid without the prior written consent of the Holder prior to January 1, 2011.

Thereafter, the Company shall have the right, after delivery to the Holder of thirty (30) days prior written notice of its intention to prepay this Note, to prepay the principal balance of and accrued interest on this Note.

Edgar Filing: MIRENCO INC - Form 10-Q

10. Treatment of Note. To the extent permitted by generally accepted accounting principals, the Company will treat, account and report the Note as debt and not equity for accounting purposes and with respect to any returns filed with federal, state or local tax authorities.

11. Notices. Any notice, request or other communication required or permitted hereunder shall be in writing and shall be deemed to have been duly given when (i) delivered by hand (with written confirmation of receipt), or (ii) when received by the addressee, if sent by a nationally recognized overnight delivery service (receipt requested), in each case to the appropriate addresses set forth herein. Any party hereto may by notice so given change its address for future notice hereunder.

12. Waivers. The Company hereby waives presentment, demand, protest and notice of dishonor and protest, and also waives all other exemptions; and agrees that extension or extensions of the time of payment of this Note or any installment or part thereof may be made before, at or after maturity by agreement by the Holder. Upon default hereunder the Holder shall have the right to offset the amount owed by the Company against any amounts owed by the Holder in any capacity to the Company, whether or not due, and the Holder shall be deemed to have exercised such right of offset and to have made a charge against any such account or amounts immediately upon the occurrence of an Event of Default hereunder even though such charge is made or entered on the books of the Holder subsequent thereto. The Company shall pay to the Holder, upon demand, all costs and expenses, including, without limitation, attorneys' fees and legal expenses, that may be incurred by the Holder in connection with the enforcement of this Note.

13. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Iowa, excluding that body of law relating to conflict of laws.

14. Heading; References. All headings used herein are used for convenience only and shall not be used to construe or interpret this Note. Except where otherwise indicated, all references herein to Sections refer to Sections hereof.

As set forth in Schedule 2.1 of the Disclosure Schedule, Company is duly qualified to transact business and is in good standing in each jurisdiction in which the failure to so qualify would have a material adverse effect on its business or properties.

Section 2.2

Company Documents. The Articles of Incorporation (the "Articles of Incorporation") and Bylaws of Company, including all amendments thereto, are in the form included in or incorporated by reference into the Company Reports (as hereinafter defined) filed or furnished, as applicable, by the Company with the SEC pursuant to the Securities Act of 1933, as amended (the "Securities Act"), and the Securities Exchange Act of 1934, as amended (the "Exchange Act").

The outstanding shares of Common Stock and Preferred were issued in accordance with the registration or qualification provisions of the Securities Act and any relevant state securities laws or pursuant to valid exemptions therefrom. The Conversion Stock to be issued upon conversion of the Note will, upon issuance in accordance with the terms hereof and thereof, be free of restrictions on transfer other than restrictions on transfer under this Agreement and under applicable state and federal securities laws. There are no agreements among Company's stockholders with respect to the voting or transfer of Company's capital stock, other than the agreements regarding transfer contained herein.

Section 2.4

Section 2.6

The Transaction Agreements constitute

valid and legally binding obligations of Company and Founder enforceable in accordance with their respective terms, except (i) as limited by applicable bankruptcy, insolvency, reorganization, moratorium, and other laws of general application affecting enforcement of creditors' rights generally and (ii) as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies.

Section 2.9

Litigation. There is no action, suit, proceeding or investigation pending or, to Company's knowledge, currently threatened against Company, nor is Company aware that there is any basis for the foregoing. The foregoing includes, without limitation, actions, suits, proceedings or investigations pending or, to Company's knowledge, threatened (or any basis therefor known to Company) involving the prior employment of any of Company's employees, such employees' use in connection with Company's business of any information or techniques allegedly proprietary to any of their former employers, or their obligations under any agreements with prior employers. Company is not a party or subject to the provisions of any order, writ, injunction, judgment or decree of any court or government agency or instrumentality. There is no action, suit, proceeding or investigation by Company currently pending or that Company intends to initiate.

Section 2.10

Conflicting Agreements. Founder and, to Company's knowledge, each of Company's directors, officers and employees is not, as a result of the business conducted or proposed to be conducted by Company or for any other reason, in violation of (i) any fiduciary or confidential relationship; (ii) any term of any contract or covenant (either with Company or another entity) relating to employment, patents, proprietary information disclosure, non-competition or non-solicitation; or (iii) any other contract or agreement, or any judgment, decree or order of any court or administrative agency, in each case relating to or affecting the right of Company's employee to be employed by Company or to serve as an officer or director of Company. No such relationship, term, judgment, decree or order conflicts with any of Founder's or, to Company's and Founder's knowledge, any employee's obligation to use his or her best efforts to promote the interests of Company nor does the execution, delivery and performance of the Transaction Agreements, or the activities of the Founder, as an employee, officer or director of Company, conflict with any such relationship, term, judgment, decree or order.

Section 2.11

Marketing Rights. Except as set forth on Schedule 2.11 of the Disclosure Schedule, Company has not granted rights to manufacture, produce, assemble, license, market, or sell its products to any other person and is not bound by any agreement that affects Company's exclusive right to develop, manufacture, assemble, distribute, market or sell its products.

Section 2.12

Compliance with Other Instruments.

(a)

Company is not in violation or default of any provision of its Articles of Incorporation, as amended, or Bylaws, as amended, or of any instrument, judgment, order, writ, decree or contract to which it is a party or by which it is bound, or of any provision of any federal or state statute, rule or regulation applicable to Company. The execution, delivery and performance of the Transaction Agreements, and the consummation of the transactions contemplated hereby and thereby, will not result in any such violation or be in conflict with or constitute, with or without the passage of time and giving of notice, either a default under any such provision, instrument, judgment, order, writ, decree or contract or an event that results in the creation of any lien, charge or encumbrance upon any assets of Company or the suspension, revocation, impairment, forfeiture, or nonrenewal of any material permit, license, authorization, or approval applicable to Company, its business or operations or any of its assets or properties.

(b)

Company has avoided every condition, and has not performed any act, the occurrence of which would result in Company's loss of any right granted under any material license, distribution or other agreement.

Section 2.13

Related-Party Transactions. Except as set forth on Schedule 2.13 of the Disclosure Schedule, no employee, officer, or director of Company or member of his or her immediate family is indebted to Company, nor is Company indebted (or committed to make loans or extend or guarantee credit) to any of them. None of such persons has any direct or indirect ownership interest in any firm or entity with which Company is affiliated or with which Company has a business relationship, or any firm or entity that competes with Company, except that employees, officers, or directors of Company and members of their immediate families may own stock in publicly traded companies that may compete with Company. Except as set forth on Schedule 2.13, no member of the immediate family of any officer or director of Company is directly or indirectly interested in any material contract with Company.

Section 2.14

Permits. Company has all franchises, permits, licenses, and any similar authority necessary for the conduct of its business as now being conducted by it. Company believes it can obtain, without undue burden or expense, any similar authority for the conduct of its business as planned to be conducted. Company is not in default under any of such franchises, permits, licenses, or other similar authority.

Section 2.15

Environmental and Safety Laws. Company is not in violation of any applicable statute, law or regulation relating to the environment or occupational health and safety, and, to its knowledge, no expenditures are or will be required in order to comply with any such existing statute, law or regulation.

Section 2.16

Title to Property and Assets. Company owns its property and assets free and clear of all mortgages, liens, loans, claims and encumbrances. With respect to the property and assets it leases, Company is in compliance with such leases and holds a valid leasehold interest free of any liens, claims or encumbrances.

Section 2.17

Intellectual Property. The Company has sufficient title and ownership of all patents, trademarks, service marks, trade names, copyrights, trade secrets, information, proprietary rights and processes (collectively, Intellectual Property Rights) necessary for its business as now conducted or as proposed to be conducted, without any conflict with or infringement of the rights of others. Except as indicated on Schedule 2.17, there are no outstanding options, licenses or agreements of any kind relating to the foregoing, nor is the Company bound by or a party to any options, licenses or agreements of any kind with respect to the Intellectual Property Rights of any other person or entity. The Company has not received any communications alleging that the Company has violated or, by conducting its business as now conducted or as proposed to be conducted, would violate any Intellectual Property Rights of any other person or entity.

Section 2.18

Company Reports; Financial Statements.

(a)

Company has filed or furnished, as applicable, on a timely basis, all forms, statements, certifications, reports and documents required to be filed or furnished by it with the SEC pursuant to the Exchange Act or the Securities Act (the forms, statements, reports and documents filed or furnished and those filed or furnished subsequent to the date of this Agreement, including any amendments thereto, the "Company Reports"). Each of the Company Reports, at the time of its filing or being furnished complied or, if not yet filed or furnished, shall comply in all material respects with the applicable requirements of the Securities Act, the Exchange Act and the Sarbanes-Oxley Act, and any rules and regulations promulgated thereunder applicable to the Company Reports. As of their respective dates (or, if amended prior to the date of this Agreement, as of the date of such amendment), the Company Reports did not, and any Company Reports filed with or furnished to the SEC subsequent to the date of this Agreement shall not, contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements made therein, in light of the circumstances in which they were made, not misleading.

(b)

Company is in compliance in all material respects with the applicable listing and corporate governance rules and regulations of the OTC Bulletin Board. Except as permitted by the Exchange Act or the rules of the SEC, since the enactment of the Sarbanes-Oxley Act, neither Company nor any of its Affiliates has made, arranged or modified (in any material way) any extensions of credit in the form of a personal loan to any executive officer or director of Company.

(c)

Company maintains disclosure controls and procedures required by Rule 13a-15 or 15d-15 under the Exchange Act. Such disclosure controls and procedures are effective to ensure that information required to be disclosed by Company is recorded and reported on a timely basis to the individuals responsible for the preparation of Company's filings with the SEC and other public disclosure documents. Company maintains internal control over financial reporting (as defined in Rule 13a-15 or 15d-15, as applicable, under the Exchange Act). Such internal control over financial reporting is effective in providing reasonable assurance regarding the reliability of financial reporting and the

preparation of financial statements for external purposes in accordance with GAAP. No material complaints from any source regarding accounting, internal accounting controls or auditing matters, and no concerns from Company employees regarding questionable accounting or auditing matters, have been received by Company. (j)

any transaction entered into by the Company which was not in the ordinary course of business;

(k)

any mortgage, pledge, transfer of a security interest in, or lien, created by the Company, with respect to any of its material properties or assets, except liens for taxes not yet due or payable and liens that arise in the ordinary course of business and do not materially impair the Company's ownership or use of such property or assets;

(l)

any loans or guarantees made by the Company to or for the benefit of its employees, directors, officers or stockholders, or any affiliate thereof, or any members of their immediate families, other than expense advances, made in the ordinary course of its business;
