PRESS RELEASE

Date 2 July 2004

Number 012

BUHRMANN SUCCESSFULLY RESTRUCTURES ITS DEBT PORTFOLIO

Buhrmann one of the world's largest business-to-business suppliers of office products, computer supplies and business services has successfully issued 10-year Senior Subordinated Notes due in 2014 of USD 150 million principal amount (the "New Notes"). It also has increased borrowings under its existing long term Senior Credit Facility by USD 125 million, while improving its credit margin. The proceeds hereof and cash on hand have provided Buhrmann with the necessary funds to consummate the tender offer for the outstanding 12¹/₄% Senior Subordinated Notes (the "2009 Notes") which was commenced on 3 June 2004. As Buhrmann has used cash from operations for paying down debt as part of this refinancing, the company has effectively further reduced its gross debt position.

Floris Waller, Chief Financial Officer and member of the Executive Board of Buhrmann, commented: "We are pleased with the successful placement of new senior subordinated notes and the extension and favourable adjustments to our existing credit facility. Another important fact is that our healthy cash position allowed us to use cash to pay down debt. This enabled us to effect our tender offer for the 2009 Notes and to further lower our financing costs going forward. Furthermore, the extension of the maturity of our debt profile entails a further optimisation of our capital structure going forward."

Successful offering of New Notes

Through its subsidiary Buhrmann US Inc., Buhrmann has successfully placed New Notes with a coupon of 8¹/₄%. The aggregate principal amount of the New Notes, which are due in 2014, totals USD 150 million. The New Notes have been issued at a price of 99.164% of the par value to institutional investors in the United States and in Europe through a private placement pursuant to Rule 144A and Regulation S of the US Securities Act.

Extended Credit Facility with lower interest rate

In addition, Buhrmann has increased and repriced its Senior Credit Facility. The existing term loans B have been replaced by term loans C, while an additional USD 125 million was raised under this facility. The interest coupon throughout the pricing matrix for the term loans C (now totalling USD 503 million and EUR 50 million) has been set 25 basis points lower than was previously the case for term loans B.

Successful tender of 2009 Notes

Buhrmann has announced that it, through its subsidiary Buhrmann US Inc., has effected the tender offer for its 2009 Notes. The tender offer expired at 12:00 midnight, New York time on Wednesday 30 June 2004. Bondholders representing approximately 87% of these 2009 Notes (USD 304 million) have tendered their Notes in the offer and have given their consent to the offer. Approximately USD 46 million of the 2009 Notes have not been tendered. Buhrmann may call these 2009 Notes as from 1 November 2004 or purchase, redeem or defease the 2009 Notes after 1 July 2004.

All deals settled on 1 July 2004

The premium paid for the early redemption of the tendered 2009 Notes (87%) amounts to USD 29 million (exceptional cash interest charge). Previously capitalised financing fees related to the 2009 Notes are to be written off, which will lead to an exceptional (non-cash) interest charge of EUR 5 million in 2004. In addition, project expenses are incurred of which expenses related to the newly financing will be capitalized. The settlement of these elements in this refinancing took place on 1 July 2004.
