**AGNICO-EAGLE ANNOUNCES 25th CONSECUTIVE ANNUAL DIVIDEND;
ANNOUNCES EXTENSION OF BANK FACILITY;
AND 2005 PRODUCTION GUIDANCE**

Toronto, Canada (December 7, 2004) **Agnico-Eagle Mines Limited** today announced an annual dividend of \$0.03 per share, representing the 25th consecutive year that Agnico-Eagle has paid a distribution to its shareholders.

The Company has declared a dividend of \$0.03 per share, payable March 15, 2005 to shareholders of record March 7, 2005. The dividend rate is unchanged from last year as management and the board of directors have decided to conserve cash for the longer-term development and growth of its asset base.

Under the Company's Dividend Reinvestment Plan, shareholders will have the opportunity to reinvest their dividends into shares of Agnico-Eagle. Shareholders who have not received details of the Plan should contact the Company or visit its website at www.agnico-eagle.com.

Bank Facility Amended and Extended Three Years

Agnico-Eagle also announced today that its lenders have agreed to amend its bank facility. After successfully achieving the LaRonde completion tests under its existing facility, the Company sought to extend the revolving period, which would have expired at the end of 2004. Under the terms of the amended facility, the Company will have a \$100 million line of credit available on a revolving basis for at least three years. The amendment will also give the Company improvements in pricing and additional flexibility with regards to use of proceeds for projects and potential acquisitions. There are no dollar amounts currently drawn under the facility.

The amended facility, which will be primarily secured by a first charge against the LaRonde Mine, will be provided by a syndicate of international banks including Scotia Capital, NM Rothschild & Sons Limited, Société Générale, National Bank of Canada and The Toronto-Dominion Bank. The definitive documentation of the amendment is expected to be finalized within the next four to eight weeks.

Gold and Byproduct Metal Production to be Essentially Unchanged in 2005

A summary of the estimated metal production and cash operating costs together with the material assumptions used in the Company's estimates for 2005 follows:

Ore processed (000's tons)	2,911
Daily throughput rate (tons)	7,975
<i>Grades:</i>	
Gold (oz./t)	0.11
Silver (oz./t)	2.28
Zinc (%)	3.89
Copper (%)	0.44
<i>Payable metal production:</i>	
Gold (ozs.)	280,000
Silver (000's ozs.)	5,500
Zinc (000's lbs.)	160,000
Copper (000's lbs.)	18,000
<i>Minesite operating costs (C\$/ton)</i>	48-50
<i>Total cash operating costs (\$/oz.)</i>	135-145
<i>Assumptions:</i>	
Gold (\$/oz.)	375
Silver (\$/oz.)	6.00
Zinc (\$/lb.)	0.45
Copper (\$/lb.)	1.15
C\$/US\$ exchange rate	1.27

LaRonde's total cash operating cost guidance is based on byproduct metal price assumptions that are well below prices realized to date in 2004. If current metal prices and exchange rates were used, total cash operating costs would be in the range of \$100 per ounce.

The estimated sensitivity of LaRonde's 2005 total cash operating costs to a 10% change in the metal prices and exchange rates assumptions above follows:

Change in variable	Impact on total cash operating costs (\$/oz.)
C\$/US\$	39
Zinc	17
Silver	11
Copper	6

Edgar Filing: AGNICO EAGLE MINES LTD - Form 6-K
