SBC Midwest Network Services Employees:

This is the beginning of a "new era and a new company" as SBC announced today an agreement to acquire AT&T. While this acquisition will face the standard review process, we are confident that together, SBC and AT&T, will be a stronger more responsive and innovative company. This action will combine AT&T's national and global IP-based networks and expertise with SBC's strong local exchange, broadband and wireless assets.

Here are a few key points concerning the potential acquisition of AT&T by SBC:

Expected approval may come as early as the first half of 2006.

This is an equity transaction with each AT&T share becoming 0.7794 SBC shares.

There will be approximately \$250M in annual savings, which will come from such areas as procurement, IT, systems development, headquarters staff positions and call centers, etc.

AT&T gives SBC speed to market in the Enterprise segment. AT&T has the resources (i.e., data centers, IP services and solutions, and customers) to accelerate SBC's Enterprise segment more quickly and on a broader basis than would otherwise have been possible.

This is not a re-creation of the old AT&T. The technological, regulatory and competitive landscape is so dramatically different now than it was decades ago. Today, customers have numerous choices for their communication needs.

The combined company will be headquartered in San Antonio, but will continue to maintain a strong employee presence in all of its key regions.

So what does this mean for us as SBC employees?

The merger may provide additional employment opportunities as did previous mergers.

Edgar Filing: AT&T CORP - Form 425

The announced acquisition is a wonderful compliment to Project Lightspeed and the integrated direction the corporation has laid out for 2005.

It would provide our employees and our customers with more choices in products and services.

As we await further details, our focus will continue to be service. Service is the cornerstone of our business and is the key for Midwest Network Services. That will not waver.

Thank you for your hard work and dedication in making SBC "the innovative competitor we are today."
