INTERIM REPORT TO SHAREHOLDERS

for the nine months ended July 31, 2006

The Role of Central Fund

***To serve investors as "The Sound Monetary Fund".
To hold gold and silver bullion on a secure basis for the
convenience of investors in the shares of Central Fund.***

Investment Policies & Restrictions Articles of incorporation require that at least 75% of Central Fund's non-cash assets be invested in gold and silver bullion investments. This cannot be changed without shareholder approval.

The stated investment policy of the Board of Directors requires Central Fund to maintain a minimum of 90% of its net assets in gold and silver bullion of which at least 85% must be in physical form. On July 31, 2006, 98.6% of Central Fund's net assets were invested in gold and silver bullion. Of this bullion, 99.2% was in physical form and 0.8% was in certificate form.

Central Fund's physical gold and silver bullion holdings may not be loaned, subjected to options or otherwise encumbered in any way.

Safeguards Central Fund's bullion is stored on a fully segregated basis in the underground vaults of the Canadian Imperial Bank of Commerce, one of the largest banks in North America in terms of total assets.

The Bank may only release physical bullion holdings upon receipt of an authorizing resolution of Central Fund's Board of Directors.

Insurance is carried on the physical gold and silver bullion holdings, against destruction, disappearance or wrongful abstraction.

Bullion holdings and bank vault security are inspected twice annually by directors and/or officers of Central Fund. On every occasion, inspections are required to be performed in the presence of both Central Fund's external auditors and bank personnel.

Central Fund is subject to the extensive regulations and reporting requirements of the United States Securities and Exchange Commission, two stock exchanges and various Canadian provincial securities regulatory authorities.

Conveniences Central Fund's Class A shares are listed on the American Stock Exchange (CEF) and on the Toronto Stock Exchange (CEF.A in Canadian dollars and CEF.U in U.S. dollars). Making a gold and silver bullion investment through Central Fund is as easy as calling one's stockbroker or investment dealer.

The stock exchange listings provide a readily quoted, liquid market for the Class A shares of Central Fund. The bid/ask spread is considerably less than the buying and selling prices of outright bullion purchases, especially for small transactions.

All expenses of handling, storage and insurance of bullion are paid by Central Fund. Unlike most other forms of bullion investment, there are no ownership costs paid directly by the investor. As well, there are no bullion assay charges to the shareholder upon the sale, redemption or liquidation of the Class A shares of Central Fund.

3rd QUARTER REPORT

Central Fund is currently 98.6% invested in gold and silver bullion. At July 31, 2006 Central Fund's gold holdings were 631,544 fine oz. of physical bullion and 5,522 fine oz. of gold bullion certificates. Silver holdings were 31,601,942 oz. of physical bullion and 245,572 oz. of silver bullion certificates. Insurance is carried on the physical bullion which is held in allocated safekeeping by a Canadian chartered bank in segregated vault storage. Central Fund continues to fulfill its mandate as "The Sound Monetary Fund".

On behalf of the Board of Directors:

J.C. Stefan Spicer, President

Therefore future events and results may vary significantly from what we currently foresee.

OUTSTANDING SHARES

There were 97,504,532 Class A retractable shares and 40,000 Common shares issued and outstanding at July 31, 2006.

On April 27, 2006, the Company, through a public offering issued 3,208,212 Class A shares for proceeds of \$26,948,981 net of underwriting fees of \$1,122,874. Costs relating to this public offering were approximately \$500,000 and net proceeds were approximately \$26,448,981.

The Company used the net proceeds from this public offering to purchase 17,475 fine ounces of gold at a cost of \$10,462,625 and 873,800 ounces of silver at a cost of \$11,215,730, both in physical bar form. The balance of \$4,770,626, was retained by the Company in interest-bearing cash deposits for working capital purposes.

Administrator, Administrative and Consulting Fees

Central Fund has no employees. It is party to an Administrative and Consulting Agreement with The Central Group Alberta Ltd., which is related to the Company through four of its officers and directors. The Central Group Alberta Ltd., which acts as Administrator, has operating offices with employees, advisors and consultants which provide administrative and consulting services to the Company. For such services, the Company pays an administrative and consulting fee, payable monthly (See note 5 to financial statements).

Results of Operations Change in Net Assets

Net assets increased by \$237,395,127 during the nine months ending July 31, 2006 as a result of the April 27, 2006 public offering and increases in gold and silver prices. Net assets decreased by \$43,233,046 during the three months due to lower gold and silver prices.

The following table summarizes the quarterly financial information:

Financial Results Net Income

Central Fund's income objective is secondary to its investment objective of holding the vast majority of its net assets in gold and silver bullion. Generally, Central Fund only seeks to maintain adequate cash reserves to enable it to pay operating expenses, taxes if applicable and Class A share dividends. Because holding gold and silver bullion does not generate income, Central Fund's realized income is a miniscule percentage of its net assets. However, CICA Accounting Guideline 18, Investment Companies requires Central Fund to record unrealized appreciation (depreciation) of investments in income.

The net income (inclusive of unrealized depreciation of investments) for the nine months ended July 31, 2006 was \$210,998,031 compared to a net loss (inclusive of unrealized depreciation of investments) of \$1,612,077 for the same period in 2005. The net loss (inclusive of unrealized appreciation of investments) for the three months was \$43,233,046 compared to net income of \$274,173 for the same period in 2005. Certain expenses, such as administration fees that are scaled, and taxes, have varied in proportion to net asset levels, or, in the case of stock exchange fees, with market capitalization based on the number of Class A shares issued. Not only did safekeeping fees and bullion insurance costs increase to reflect the dollar prices of gold and silver bullion being held, but the custodian increased its rates significantly in its schedule of fees. Administration fees remitted to The Central Group Alberta Limited for the nine months increased to \$1,461,830 from \$1,154,645, such increase being at the rate of one-fifth of one percent per annum on the increased assets under administration.

Expenses (which exclude taxes) as a percentage of average net assets for the nine month period ended July 31, 2006 were 0.36%, compared to 0.39% for the same nine-month period in 2005. For the twelve months ended July 31, 2006, the operating expense ratio was 0.49% compared to 0.50% for the prior twelve-month period.

Liquidity and Capital Resources

Virtually all of Central Fund's assets are gold and silver bullion that are readily liquidable.

However, Central Fund holds cash reserves primarily for the payment of operating expenses, and Class A share dividends. Should Central Fund not have sufficient cash to meet its needs, a nominal portion of Central Fund's bullion holdings may be sold to fund tax and dividend payments, provide working capital, and pay for redemptions, if any, of Class A shares.

For the nine months ended July 31, 2006, Central Fund's cash reserves increased by \$1,096,905 to \$11,292,284. The increase was a result of the cash portion retained from the proceeds of the public offering completed in April, 2006, offset by amounts used to pay expenses, taxes and the Class A share dividend. The Administrator and senior officers monitor Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion.

Recent Development and Subsequent Event

The Canadian Federal 2006 Budget has accelerated the elimination of the federal large corporations capital tax retroactive to January 1, 2006. As this tax has been a significant expense to Central Fund, its elimination is a positive benefit to the Company and its cash position (see note 7 to financial statements).

On August 3, 2006, the Company through a public offering issued 7,150,000 Class A shares (see note 8 to financial statements).

Forward looking Observations

Changes in the market prices of gold and silver impact the net asset value per Class A share. Assuming as a constant exchange rate the rate which existed on July 31, 2006 of \$1.1309 Cdn. for each U.S. dollar together with holdings of gold and silver bullion which existed on that date, a 10% change in the price of gold would increase or decrease the net asset value per share by approximately \$0.41 per share or Cdn. \$0.47 per share. A 10% change in the price of silver would increase or decrease the net asset value per share by approximately \$0.37 per share or Cdn. \$0.42 per share. If both gold and silver prices were to change by 10% simultaneously in the same direction, the net asset value per share would increase or decrease by approximately \$0.79 per share or Cdn. \$0.89 per share.

This MD&A was prepared on August 9, 2006. Additional information relating to the Company, including its Annual Information Form, is available on the SEDAR website at www.sedar.com.
