Notes to Financial Statements
June 30, 2010 and 2009
(Unaudited)

Note 1 – Basis of Presentation and Nature of Operations

The accompanying consolidated balance sheet as of December 31, 2009 has been derived from audited financial statements and the accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the interim reporting requirements of Regulation S-X. The accompanying consolidated financial statements included herein have been prepared by E-Debit Global Corporation (the “Company”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosure normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and E-Debit Global Corporation believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these financial statements be read in conjunction with the December 31, 2009 audited financial statements and the accompanying notes thereto contained in the Annual Report on Form 10-K filed with the Securities and Exchange Commission. While management believes the procedures followed in preparing these financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by E-Debit Global Corporation later in the year. The results of operations for the interim periods are not necessarily indicative of the results of operations for the full year. In management’s opinion all adjustments necessary for a fair presentation of the Company’s financial statements are reflected in the interim periods included.

The Company’s primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

There is no provision for dividends for the quarter to which this quarterly report relates.

Note 2 – Recent Accounting Pronouncements

The FASB’s Accounting Standards Codification (ASC) is effective for all interim and annual financial statements issued after September 15, 2009. The ASC is now the single official source of authoritative, nongovernmental generally accepted accounting principles (GAAP) in the United States. The historical GAAP hierarchy was eliminated and the ASC became the only level of authoritative GAAP, other than guidance issued by the Securities and Exchange Commission. Our accounting policies were not affected by the conversion to ASC. However, we have conformed references to specific accounting standards in these notes to our consolidated financial statements to the appropriate section of ASC.

In October 2009, the FASB issued Accounting Standards Update, 2009-13, Revenue Recognition (ASC Topic 605): Multiple Deliverable Revenue Arrangements – A Consensus of the FASB Emerging Issues Task Force. This update provides application guidance on whether multiple deliverables exist, how the deliverables should be separated and how the consideration should be allocated to one or more units of accounting. This update establishes a selling price hierarchy for determining the selling price of a deliverable. The selling price used for each deliverable will be based on vendor-specific objective evidence, if available, third-party evidence if vendor-specific objective evidence is not

available, or estimated selling price if neither vendor-specific or third-party evidence is available. The Company will be required to apply this guidance prospectively for revenue arrangements entered into or materially modified after January 1, 2011; however, earlier application is permitted. We have not determined the impact, if any, that this update may have on our financial statements.

In January 2010, the FASB issued guidance that requires reporting entities to make new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. The guidance is effective for annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures that are effective for annual periods beginning after December 15, 2010. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

7

There were various other accounting standards and interpretations issued during 2010 and 2009, none of which are expected to have a material impact on the Company's consolidated financial position, operations, or cash flows.

Note 3 - Accounts Receivable

Accounts receivable consist of amounts due from customers. The Company considers accounts more than 180 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance.

Note 4 – Inventory

Inventory consists primarily of cash vending and POS machines, which are valued at the lesser of cost (on a first-in, first-out method) or net realizable value.

Note 5 – Deferred Costs/Intangible Assets

In order for E-Debit's subsidiaries to remain competitive in the marketplace, E-Debit, through its subsidiary Westsphere Systems Inc. has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Westsphere Systems. E-Debit has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions. Westsphere Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable E-Debit's direct entry into new and emerging markets such as card management and processing.

E-Debit has officially launched its switch in January 2009 and commenced rollover of ATMs to process all transactions through its association with ACI. The deferred costs have been reclassified as intangible assets in year 2009.

Note 6 – Notes Receivable

The note receivable total \$152,667 (\$160,000 CDN), carry no interest rate, and require no monthly payments. The Company can demand funds be returned at anytime. The purpose of this note receivable are to supply vault cash to E-Debit's wholly owned subsidiary Vencash's customers ATM equipments and site locations. Revenue from this note is generated from surcharge transactions. This note receivable is reflected in the accompanying consolidated balance sheet as note receivable.

Note 7– Related Party

The Company's subsidiary Vencash Capital Corporation accrued for officer and employee bonuses totaling \$46,476 (\$48,709 CDN) as of June 30, 2010. This is a due on demand loan with no interest rate and maturity date.

Note 8 – Shareholder's Deficit

In February 2010, one of the consultants exercised his options of 500,000 common shares at \$0.07 per share for a total of \$35,000. The investor paid for the stock options with the forgiveness of debt.

In March 2010, the boards after reviewing the business of operations as a whole have determined that it is in the best financial interests for the Corporation to raise additional funds through private offering memorandum for up to 12,500,000 units of Common Stock at \$0.10 per share. The use of the proceeds from this offering is to be allocated to support the switch operations, purchasing of software and hardware, and general and administrative costs. The completion of the offering is expected to be completed by the end of the third quarter of the year 2010. During the first quarter, E-Debit raised \$108,153 and issued 1,081,327 common shares at \$0.10 per share. The investors paid cash for the stock of \$31,585 and the remaining balance of \$76,568 with the forgiveness of debt.

During the second quarter, E-Debit raised \$798,581 and issued 7,985,807 common shares at \$0.10 per share. The investors paid cash for the stock of \$100,000 and the remaining balance of \$698,581 with the forgiveness of debt.

Note 9 – Subsequent Events

In July 2010, E-Debit raised additional \$87,000 from E-Debit's directors to support the switch operations and general and administrative costs.

In August 2010, E-Debit raised \$17,302 and issued 173,023 common shares at \$0.10 per share. The investors paid \$17,302 with the forgiveness of debt.

Note 10 – Going Concern

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has incurred net losses for the period ended June 30, 2010 and 2009, and as of June 30, 2010, had a working capital deficit of \$677,826 and an accumulated deficit of \$3,636,331. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. These financial statements do not include any adjustments relating

to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital. Furthermore, the management is in the process of restructuring, reorganization and consolidation of all its operations as a whole in order to save costs. In addition, there is no demand for payment on the accounts payable to related parties of \$307,578 and shareholder loans of \$398,386 as these liabilities are owed to internal officers and directors. Further, even if the Company raises additional capital, there can be no assurance that the Company will achieve profitability or positive cash flow. If management is unable to raise additional capital and expected significant revenues do not result in positive cash flow, the Company will not be able to meet its obligations and may have to cease operations.

Current Corporate Structure – June 30, 2010

Plan of Operations

Results of Operations – Three Month Period

During the three (3) month period of operations ending June 30, 2010, E-Debit and its subsidiaries generated a net loss from operations of \$145,805, while a net loss from operations of \$616,991 was realized for the same period from the previous year. The decrease in net loss of \$471,186 over the same period from the previous year was mainly caused by a loss on the disposal of POS component, net of tax of \$443,549, an increase in gross profit of \$41,908, and a decrease in other expenses of \$49,104. The decrease in net loss is partially offset against an increase in legal and accounting fees of \$14,508, an increase in salaries and benefits of \$37,145, and an increase in interest expense of \$11,047 over the same period from the previous year.

The loss on the disposal of POS component, net of tax of \$443,549 was related to E-Debit written off its investment in E-Debit's majority controlled subsidiary TRAC in previous year.

On May 4, 2009 E-Debit's majority controlled subsidiary TRAC was served with a Notice of Intention to Enforce a Security Form 86 (Rule 124) which is basically a notice to place TRAC into receivership by the trustees of the estate of June Barr of \$165,155 has an interest rate of 18% per annum. E-Debit is one of the secured creditors but the management believed that it is unlikely to receive any funds from TRAC after it is sold.

E-Debit and its subsidiaries currently did not generate sufficient revenues to meet overhead needs. This is due to E-Debit switch operations which was launched in January 2009 and commence rollover of ATMs to process all transactions. The switch operations currently did not generate sufficient revenue to cover its expenses. E-Debit believes that until the rollover of ATMs is completed, the switch operations will generate sufficient revenues to meet its overhead needs. This is due to E-Debit will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. E-Debit expects the rollover of ATMs to be completed by the third quarter of this year. As of August 11, 2010, 550 ATM's or 76% were under Westsphere Systems processing.

In addition, E-Debit continues experiencing a steady decrease in gross profit. Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital.

E-Debit believes that the continued investment from related parties and outside investors will continue to produce sufficient ongoing funding to meet its current and future financial requirements.

In order to meet its growth plan, E-Debit will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. E-Debit believes that it will continue as a going concern with the present revenues from its subsidiary Westsphere Systems Inc. and loan advanced by the related parties but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Westsphere Systems Inc.

As mentioned above, E-Debit believes that its subsidiary Westsphere Systems Inc. will generate sufficient ongoing revenues once the rollover of ATMs is completed and loan advanced by the related parties to ensure that E-Debit is a going concern.

Changes in Financial Position

The switch operations currently did not generate sufficient revenue to cover it expenses. The shortages of funds raise substantial doubt as to the Company's ability to continue as a going concern.

Management recognizes that the Company must generate additional resources to enable it to continue operations. Management intends to raise additional funds through debt financing and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital.

In order to meet its growth plan, E-Debit will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds.
