Only shareholders of record at the close of business on April 9, 2007, the record date and time fixed by the Board of Directors, are entitled to notice of, and to vote at, the meeting.

The Board of Directors unanimously recommends that shareholders vote **FOR** (i) the election as directors of the nominees named in the accompanying Proxy Statement, and (ii) the ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ended December 31, 2007.

You are cordially invited to attend the meeting. Whether or not you plan to attend personally, and regardless of the number of shares you own, it is important that your shares be represented. PROXY STATEMENT

This statement is furnished by the Board of Directors of Derma Sciences, Inc. (the "Company") in connection with the Board's solicitation of proxies for use at its Annual Meeting of Shareholders (the "Meeting") to be held at 3:00 p.m. on Thursday, May 17, 2007, at the offices of the Company, 214 Carnegie Center, Suite 100, Princeton, New Jersey, 08540, and at any adjournments thereof. The purpose of the Meeting and the matters to be acted upon are set forth in the accompanying Notice of Annual Meeting of Shareholders.

If the accompanying form of Proxy is executed properly and returned, shares represented by it will be voted at the Meeting in accordance with the instructions on the Proxy. However, if no instructions are specified, shares will be voted for the election as directors of those nominees named in the Proxy and for ratification of the selection of Ernst & Young LLP as independent registered public accounting firm for the year ended December 31, 2007. The Board knows of no matters which are to be presented for consideration at the Meeting other than those specifically described in the Notice of Annual Meeting of Shareholders, but if other matters are properly presented, it is the intention of the persons designated as proxies to vote on them in accordance with their judgment.

A Proxy may be revoked at any time prior to the time it is voted by written notice to the Secretary of the Company at the above address or by delivery of a proxy bearing a later date. Any shareholder may attend the Meeting and vote in person whether or not a Proxy was previously submitted.

The close of business on April 9, 2007, has been fixed as the record date (the "Record Date") for the determination of shareholders entitled to notice of, and to vote at, the Meeting. On the Record Date, the Company had 25,258,335 shares of Common Stock, 150,003 shares of Series A Convertible Preferred Stock, 440,003 shares of Series B Convertible Preferred Stock, 619,055 shares of Series C Convertible Preferred Stock and 1,071,346 shares of Series D Convertible Preferred Stock outstanding and entitled to vote. The foregoing shares of Common and Preferred Stock (collectively, "Shares") are the only voting securities of the Company.

The presence at the Meeting, in person or by proxy, of the holders of 13,769,372 Shares (a majority of the aggregate number of shares of Common Stock and Preferred Stock issued and outstanding and entitled to vote as of the Record Date) is necessary to constitute a quorum to transact business. Proxies marked "Abstain" and broker proxies that have not voted on a particular proposal ("Broker Non-Votes"), if any, will be counted in determining the presence of a quorum. Other than for election of directors (discussed below), each holder of Common Stock and Preferred Stock as of the Record Date is entitled to one vote per Share.

Election of the director nominees named in Proposal No. 1 requires the affirmative vote of a plurality of the total number of votes cast for the election of directors at the Meeting by the holders of Common Stock and Preferred Stock, voting together as a single class. Votes may be cast in favor of or withheld with respect to all of the director nominees, or any of them. Abstentions and Broker Non-Votes, if any, will not be counted as having been voted and will have no effect on the election of directors except to the extent the failure to vote for a nominee results in another nominee receiving a larger number of votes. Shareholders may cumulate their votes in the election of directors. That is, shareholders may multiply the number of Shares owned and entitled to vote at the Meeting by the number of directors (8) to be elected and cast the resulting number of votes for any one or more candidates.

Adoption of Proposal No. 2 requires the affirmative vote of a majority of the total number of shares of the Common Stock and Preferred Stock represented and entitled to vote at the Meeting, voting together as a single class. In determining whether Proposal No. 2 has received the requisite number of affirmative votes, abstentions will be counted and will have the same effect as votes against the proposal, and broker non-votes, if any, will have no effect on the votes for the proposal.

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

The expense of solicitation will be borne by the Company. The solicitation of Proxies will be largely by mail, but may include telephonic, telegraphic or oral communications by officers or other representatives of the Company. The Company will also reimburse brokers or other persons holding shares in their names or in the names of their nominees for reasonable out-of-pocket expenses in connection with forwarding Proxies and proxy materials to the beneficial owners of such shares.

It is expected that the Notice of Annual Meeting, Proxy Statement and form of Proxy will first be mailed to shareholders on or about April 9, 2007.

A board of eight directors, constituting the entire Board of Directors specified by the bylaws of the Company, will be elected at the Meeting by the shareholders of the Company to hold office until their successors have been elected and qualify. Each nominee has consented to be named in this Proxy Statement and to serve as a director if elected. The Company adopted the Derma Sciences, Inc. Stock Option Plan (the Plan) July 18, 1991 and amended the Plan upon several occasions, the latest being May 11, 2006. The number of shares of Common Stock reserved for issuance pursuant to the Plan is 5,000,000 shares. The Plan authorizes the Company to grant two types of equity incentives: (i) options intended to qualify as incentive stock options (ISOs) as defined in Section 422 of the Internal Revenue Code of 1986, as amended, and (ii) nonqualified stock options (NQSOs). The Plan authorizes options to be granted to directors,

officers, key employees and consultants of the Company, except that ISOs may be granted only to employees. The Plan is administered by a committee of directors designated by the Board of Directors (the Compensation Committee). Subject to the provisions of the Plan, the Compensation Committee determines who is eligible to receive stock options, together with the nature, amount, timing, exercise price, vesting schedule and all other terms and conditions of the options to be granted.

Under the Plan, ISOs and NQSOs may have a term of up to ten years. Stock options are not assignable or transferable except by will or the laws of descent and distribution. Stock options granted under the Plan which have lapsed or terminated revert to the status of unissued and become available for reissuance.

As of December 31, 2006, options to purchase 3,601,625 shares of the Company's Common Stock at prices in the range of \$0.37 to \$5.00 per share were issued and outstanding under the Plan.

Audit Committee Report

THE FOLLOWING REPORT OF THE AUDIT COMMITTEE SHALL NOT BE DEEMED TO BE SOLICITING MATERIAL OR TO BE FILED WITH THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES ACT OF 1933 OR THE SECURITIES EXCHANGE ACT OF 1934 OR INCORPORATED BY REFERENCE IN ANY DOCUMENT SO FILED.

The Audit Committee, during the course of 2006, undertook an evaluation of the Company's relationship with its former independent registered public accounting firm. Based on this evaluation, the Audit Committee recommended that the Company dismiss J.H. Cohn LLP and retain Ernst & Young LLP as its independent registered public accounting firm. The Board of Directors of the Company implemented the Audit Committee's recommendation effective December 5, 2006. For further information, please refer to Item 8 Change In and Disagreements With Accountants on Accounting and Financial Disclosure of the Company's annual report on Form 10-KSB for the year ended December 31, 2006.

The Audit Committee met privately with the Company's current and former independent registered public accounting firms and Company financial personnel, each of whom has unrestricted access to the Audit Committee. The Audit Committee met with management periodically during the year to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Audit Committee discussed these matters with the Company's current and former independent registered public accounting firms and with appropriate Company financial personnel. As a

result of these discussions, the Company's management, together with the Audit Committee, identified a material weakness in the Company's internal controls relative to the evaluation and documentation of all accounting implications associated with new and non-routine contracts. As a result of this material weakness, the Company's consolidated financial statements for the year ended December 31, 2005 and for each of the quarters from June 30, 2005 through September 30, 2006, were restated to revise the accounting for and classification of certain fees payable in connection with a distribution agreement that commenced in May 2005. For further information, please refer to Item 8A Controls and Procedures of the Company's annual report on Form 10-KSB for the year ended December 31, 2006.

The Audit Committee also discussed with the Company's senior management and independent registered public accounting firms the process used for certifications by the Company's chief executive officer and chief financial officer which are required by the Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002 for certain of the Company's filings with the Securities and Exchange Commission.

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

Management has primary responsibility for the implementation of the system of internal controls and for the preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's current and former independent registered public accounting firms audited the financial statements prepared by management for the years ended December 31, 2006 and 2005, respectively, expressed an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discussed with the Audit Committee any issues they believed should be raised with the Audit Committee.

The Audit Committee reviewed with management and with the Company's independent registered public accounting firms the Company's financial statements and met separately with both management and the independent registered public accounting firms to discuss and review those financial statements and reports prior to their issuance. Management has represented to the Audit Committee, and the independent registered public accounting firms have confirmed, that, subject to the above noted exceptions, the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee obtained from and discussed with the independent registered public accounting firms a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence under Independence Standards Board No. 1, Independence Discussions with Audit Committees, discussed with the auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditors' independence. The Audit Committee implemented a procedure to monitor auditor independence and reviewed non-audit services performed by the independent registered public accounting firm.

The Audit Committee discussed and reviewed with the independent registered public accounting firms all communications required by standards of the Public Company Accounting Oversight Board (United States), including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees and, with and without management present, discussed and reviewed the results of the independent registered public accounting firm's examination of the financial statements.

Based on the above-mentioned reviews and discussions with management and the independent registered public accounting firms, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-KSB for the year ended December 31, 2006.

The Company's Board of Directors has adopted a written charter for the Compensation Committee. A copy of the Charter of the Compensation Committee is attached to this Proxy Statement as Appendix B.

The following individuals are members of the Compensation Committee of the Company's Board of Directors:

James T. O'Brien, Chairman
Stephen T. Wills, CPA, MST
C. Richard Stafford, Esq.
Robert G. Moussa

Compensation Committee Report

The Compensation Committee is charged with the following responsibilities: (i) recommendations to the Board of Directors relative to the compensation of executive officers, (ii) administration of the 1994 stock option plan and recommendations to the Board relative to the grant of options to employees, directors and consultants of the Company, (iii) review of, and recommendations to the Board concerning, proposed employment agreements with executive officers, and (iv) evaluation of the performance of, and determination of compensation policies for, executive officers.

Competition for qualified senior management personnel in the Company's industry is intense. In order to attract and retain qualified personnel, the Company must offer compensation which is comparable to similarly situated companies and which provides the potential for substantial rewards if the Company is successful over the long-term. The objectives of the Company's executive compensation policy are to attract, retain and reward executive officers and other key employees who contribute to its success and to motivate these individuals to enhance stockholder value. The Company seeks to pay base, bonus and long-term incentive compensation at levels competitive with other medical device companies.

The Compensation Committee meets several times per year in order to: (i) review the effectiveness of the Company's executive compensation policy in advancing the Company's objectives, (ii) make recommendations to the Board for any adjustments, and (iii) recommend annual compensation for the coming year. The Company's Chief Executive Officer and the Chairman of the Audit Committee gather and report on information about compensation levels in comparable companies.

The Compensation Committee independently retained a compensation consultant, Ernst & Young LLP, to assist the Committee in its deliberations regarding executive compensation. The mandate of the consultant was to assist the Committee in its development of competitive market data and its assessment of the Company's executive compensation program, including the competitiveness of the Company's base, bonus and long-term compensation levels, program design and market trends.

The Compensation Committee reviews the performance of each executive officer and the financial condition of the Company in relation to the following major components of executive compensation:

1. *Base Salary.* The employment agreement with each executive sets an initial base salary in accordance with industry norms and the subject executive's experience and qualifications. The Compensation Committee annually reviews each executive officer's base salary. Among the factors taken into consideration are: (i) individual and corporate performance, (ii) levels of responsibility, (iii) prior experience, (iv) breadth of knowledge of the industry, and (v) competitive pay practices. If salaries at comparable companies have increased, the Compensation Committee normally recommends similar increases. Provided, however, increases will be recommended only if the subject executive's historical performance warrants an increase and if the increase is prudent in view of the Company's financial condition.

2. *Annual Bonus.* In addition to base salary, the Company seeks to reward executives each year for the achievement of specific goals which may be financial, operational or technological. In this regard, the Compensation Committee considers objectively measurable goals such as obtaining new investment capital, negotiating valuable contracts or meeting sales objectives, together with subjective goals such as quality of management performance and consistency of effort.

17

3. *Long-Term Incentives.* Historically, the Company's long-term incentives for executive officers have consisted exclusively of stock options awarded both pursuant to, and outside, the Company's 1991 stock option plan (the Plan). Effective February 6, 2003, the Company undertook to issue options exclusively under the Plan. The exercise price of options granted under the Plan is at least 100% of the fair market value of the Common Stock on the date of grant.

The Compensation Committee has considered utilizing restricted stock and stock appreciation rights as components of the Company's long-term incentives. However, for the present, the Compensation Committee has recommended to the Board of Directors that the Company's long-term incentive compensation consist exclusively of stock options awarded under the Plan. The Board of Directors has acquiesced in this recommendation.

The Compensation Committee determines the number and terms of recommended option grants to the Company's executive officers based on practices at comparable companies in the medical device industry and the Company's policy of linking long-term incentives to performance.
