#### Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

#### Property and Equipment

Property and equipment is carried at cost less accumulated depreciation. Significant improvements and additions are capitalized. Maintenance and repair costs are expensed as incurred. Depreciation is computed on the straight-line method over the useful lives of the assets, which range from five to seven years. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are eliminated and any profit or loss on disposition is reflected in income.

Due to a general decline in the commercial printing business combined with the introduction of new, self service consumer, as well as, new, in house business printing technologies, the Company's commercial printing operation experienced multiple quarters of un-profitability. As such, the Company made the strategic decision to discontinue its Media Force unit's commercial printing operation effective the period ended December 31, 2003 resulting in the retirement and elimination of all related equipment at the depreciated value of \$20,242. As such, the Company experienced a loss of \$10,758 related to the disposition of said equipment which was reflected and charged to the Company's income for the period ended December 31, 2003.

While the Company elected to discontinue its Media Force unit's in house, commercial printing operation, the Company's Media Force unit continues to produce, on an outsource basis going forward, its Black Financial News® magazine publication. Further, the Company's Media Force unit continues to offer and provide several commercial printing products and services, to existing customers, on an outsourced, brokered basis for the period ended December 31, 2003.

#### Loss Per Share

Loss per share is calculated in accordance with Statement of Financial Accounting Standards No. 128 ("SFAS 128"), Earnings Per Share. Basic income (loss) per share is computed based upon the weighted average number of common shares outstanding during the period. Diluted income (loss) per share takes common equivalent shares into consideration. However, common equivalent shares are not considered if their effect is antidilutive. Common stock equivalents consist of outstanding stock options and warrants. Common stock equivalents are assumed to be exercised with the related proceeds used to repurchase outstanding shares except when the effect would be antidilutive. The Company had 400,000 common equivalent shares which were antidilutive in all periods presented.

The weighted average number of shares outstanding used in the loss per share computation was 48,022,500 and 48,022,500 for the quarters ended March 31, 2012 and 2011, respectively.

#### Income Taxes

The Company accounts for income taxes under the liability method, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The Company had deferred tax assets, resulting from net operating loss carry forwards (NOL) for tax which were fully reserved. The Company had no material deferred tax liabilities. The Company's NOL at March 31, 2012 was approximately \$364,087 and it expires through the year 2020.

#### Statement of Cash Flows

#### Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

## 2. Plan of Operation for the 2012 Fiscal Year

The Company's plan of operation for the remainder of its 2012 fiscal year is to: (1) acquire studio and IP based broadcast equipment necessary for the fulfillment of its 10 year video content licensing and distribution agreement between and amongst the Company's Media Force unit and Vivicast Media, LLC.

The Company intends to acquire certain studio and broadcast equipment necessary for the fulfillment of its 10 year content licensing and distribution agreement between and amongst the Company's DLFA Industries' unit's Dream League TV Network and Vivicast Media, LLC. The Dream League Football Association players are intended to wear the Company's SCOR Brands unit's SCOR brand footwear as the official shoe of the Dream League Football Association.

The Company intends to acquire certain IP based broadcast equipment necessary for the implementation and operation of its subscription based pay television programming and distribution platform. and private debt and equity capital markets when and where available. Should the Company be unable to borrow these funds, it may be unable to fully implement its business plan, as well as, its plan of acquisition. For the fiscal quarter ended March 31, 2012, the Issuer used (\$0) for investing activities. As a development stage company, the Issuer has not yet generated sufficient cash from operations to initiate a material level of investing activities.

At March 31, 2012, the Issuer's level of cash reserves and liquid working capital may not be sufficient to allow the Issuer to introduce and publicly market its developed products and services into the consumer market place. During fiscal year 2012, the Issuer intends to pursue the secondary re-marketing of both equity and debt held by its ESOP Trust and/or other affiliates, continue to pursue lines of credit from third party lenders; pursue both short term and/or long term borrowings from institutional investors necessary to fund its working capital requirements and the introduction of its branded products and services in to the consumer market place.

As of the fiscal quarter ended March 31, 2012, the Issuer did not have a material level of commitments for capital expenditures. However, during its 2012 fiscal year, the Issuer anticipates making initial capital expenditures of approximately \$1,520,000 for the purchase of corporate office and studio facilities and certain studio and broadcast equipment related to 1) its Black Financial News TV Network; 2) its Dream League TV Network; 3) its 100+ channels; IPTV subscriber based; pay television, sports and entertainment, programming and distribution platform; and 4) resumption of production, marketing and distribution of its SCOR Brand Line of branded footwear and apparel. The Issuer anticipates that the capital necessary for its acquisition initiatives and the further introduction of its products and/or services into the consumer marketplace shall be derived from the anticipated proceeds received from the secondary, re-marketing, to both institutional and accredited investors, of its common equity and Series 2010A Bonds, held by it ESOP Trust, as selling holder.

#### Result of Operations

The Issuer is a development stage company whose internally developed assets, branded products and services have not been advertised, promoted or introduce fully into the consumer marketplace as of its fiscal quarter ended March 31, 2012. As such, revenue generated as a result of the Issuer's internally developed assets, branded products and services did not generate a material level of operating revenue during this period.

For the fiscal quarter ended March 31, 2012, the Issuer's DLFA Industries unit contributed \$0 to the Issuer's operating revenue for the period.

Administrative and operating expenses outpaced revenues resulting in a net loss of (\$3,443) for the Issuer's fiscal quarter ended March 31, 2012 versus a net loss of (\$359) for the Issuer's fiscal quarter ended March 31, 2011.

Beginning in the second quarter of the Issuer's 2012 fiscal year, the Issuer anticipates making initial capital expenditures of approximately \$1,520,000 related to the purchase of broadcast and studio facilities and the purchase of studio and broadcast equipment related to 1) its Black Financial News TV Channel; 2) its Dream League TV Channel; and 3) its Media Force Sports & Entertainment unit's IPTV, subscriber based; sports and entertainment, video programming and distribution platform.

It is the Issuer's opinion that at the event in which its internally developed assets, products and services are fully introduced, advertised, and distributed into the market place, there shall be a corresponding increase in the Issuer's revenue and profitability. Further, it is the Issuer's objective to initiate and pursue a program of growth and acquisition which will allow the Issuer to add, to its current holdings, various operating companies and/or operating assets thereby allowing the Issuer to grow its revenue.

In the event that market interest rates rise, the Company's Series 2010A; 7% percent; 144A bonds may have to be significantly discounted in order to remarket said bonds according to competitive, current market rates. The Company does not utilize any hedging instruments or derivative techniques in relations to its Series 2010A; 7% percent; 144A bonds. For a description of the Company's Series 2010A; 7% percent; 144A bonds, please see Note No. 13 and Note No. 14 of the Notes to the Company's financial statements.

### Item 4. Controls and Procedures.

As of the Company's fiscal quarter ended March 31, 2012, Executive Management of the Company hereby states that it is its corporate responsibility to establish and maintain adequate internal controls over financial reporting as it pertains to the operations of the Company.

Executive Management of the Company hereby states that the framework it established to evaluate the effectiveness of the Company's internal control over financing reporting involved taking a "hands on" approach to receiving source sales, expense and transactional documents, then subsequently taking the same "hands on" approach to recording and documenting said financial data represented by said source sales, expense and transactional documents in the appropriate transaction ledgers. Further, Executive Management of the Company, extends its "hands on" approach in maintaining adequate internal controls over its financial reporting by reconciling data entered into the Company's

transactional ledgers with both the individual and aggregate values which are recorded and reported in the Company's financial statements for its respective quarter and year end periods.

For the Company's first fiscal quarter ended March 31, 2012, it is Executive Management's assessment that the internal controls over the Company's financial reporting process are effective. While Executive Management of the Company believes that the internal controls over the Company's financial reporting process are effective, Executive Management believes that the level of reporting efficiency, in terms of automated financial reporting systems, can improve the efficiency of the Company's period end reporting and reduce the time necessary to close out both its quarterly and year end reporting process.

This quarterly report does not include an Attestation report of the registered public accounting firm on the Company's internal control over financing reporting. For the fiscal quarter end, the Company was an inactive entity pursuant to Rule 17 CFR 210.3-11. Rule 17 CFR 210.3-11 states that if a registrant is an inactive entity, the financial statements required by this regulation for purposes of reports pursuant to the Securities Exchange Act of 1934 may be un-audited. As such, this report does not include an Attestation of a registered public accounting firm.

For the Company's first fiscal quarter ended March 31, 2012, Executive Management of the Company hereby states that it has not identified nor made any changes in the Company's internal control over financial reporting which has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

An Administrative Law Judge will consider the evidence in the Section 12(j) proceeding and has been directed in the OIP to issue an initial decision within 120 days of service of the OIP. We are currently evaluating the Section 12(j) OIP, including available procedural remedies and intend to defend against the possible suspension or revocation of the registration of the Company's common stock.

On August 12, 2011, the Division filed its Motion for Summary Disposition and Brief in Support.

On September 7, 2011, the Company filed its Response, in Opposition to the Division's Motion. On September 12, 2011, the Division filed a brief in Reply on its Motion. On September 12, 2011, the Company filed a multi-year; comprehensive Form 10-K annual report with the SEC for the period end December 31, 2010, inclusive of financial statements for the fiscal years ended December 31, 2001 thru December 31, 2009. If a motion to correct a manifest error of fact is filed by a party, then that party shall have twenty-one days to file a petition of review from the date of the order resolving the motion to correct a manifest error of fact. As such, the Petition for Review of Initial Decision and Notice of Appeal of Administrative Proceedings Pursuant to Section 12(j) of the Exchange Act of 1934 was timely filed, pursuant to the Initial Decision by the Commission dated September 23, 2011.

The Initial Decision will not become final until the Commission enters an order of finality. The Commission will enter an order of finality unless a party files a petition for review or a motion to correct a manifest error of fact, or unless the Commission determines on its own initiative to review the Initial Decision. If any of these events occurs, the Initial Decision shall not become final.

On November 2, 2011, the Company filed a Petition for Review of Initial Decision and Notice of Appeal of Administrative Proceedings Pursuant to Section 12(j) of the Exchange Act of 1934.

Said request for review notwithstanding, due to the egregious nature of the underlying errors in the Findings of Fact in the Initial Decision which were material in several of the underlying premises which contributed to the Administrative Law Judge's Initial Decision (See E-Smart Technologies, Inc., Order Remanding Proceedings; Securities Exchange Act of 1934 Release No. 50514; October 12, 2004); and the prejudice and inequity exhibited against the Company in the Initial Decision as related to the "non-exclusive" application of revocation sanctions for the same Violations under Section 13(a); Rules 13a-1 and 13a-13 of the Exchange Act of 1934 as exhibited In the Matter of Comverse Technology, Inc.; Securities Exchange Act of 1934 Release No. 65301; Administrative Proceeding File No. 3-13828; the Company intends to move with vigor in seeking judicial review of any final order entered pursuant to such decision.

On February 6, 2012, the Company filed Opposition Number 2; to the Division of Enforcement's motion for leave to adduce additional evidence.

As of May 11, 2012, there has not been any further determination or ruling in this matter. The Company intends to continue to move with vigor in seeking initial judicial and subsequently, appeal level court review, if necessary, of any final order entered pursuant to such decision.

#### Item 1A. Risk Factors

The following factors, among others, should be considered carefully in evaluating an investment in the Company's securities. Please read the section in the Company's 10-Q; Part II; Item 1A; entitled "Risk Factors", each sub-caption there under, as well as, the Company's un-audited financial statements located in its annual report filed with the SEC on or about March 26, 2012 for the annual period ended December 31, 2011 in conjunction with the notes to the financial statements thereof carefully before making a decision concerning the purchase of any of the Company's securities.

#### Development Stage Status

The Company is a development stage holding Company operating through four subsidiaries; Landrush, Media Force, Industries and SCOR. Operations since the Company's inception on March 12, 1991 through the Company's quarterly period ended March 31, 2012, have primarily included expenditures related to the development and execution of the Company's business plan; contemplated business ventures, products and services. Since its inception, neither the Company nor any of its subsidiaries have been profitable.

#### Product Quality and Development

The products, services and business ventures developed by the Company's and its Landrush, Media Force, Industries and SCOR units are newly developed. There are no assurances that a market will develop or can be maintained according to the Company's business plan; or the contemplated business ventures of any of its subsidiary units.

The Black Financial~News® TV Network proposed to be launched by the Company's Media Force unit is a new broadband video channel with no history of broadcast distribution. There are no assurances that the Black Financial~News® TV Network will be received in the market place or establish a significant level of distribution.

The Company's SCOR unit has successfully developed, designed and produced its SCOR Brand line of footwear and apparel and introduced said products into the market place. However, in order for the Company's SCOR unit to be perceived as a viable replacement for better known name brand athletic footwear and apparel, the proposed SCOR products must be visually attractive and solidly constructed. In order to solidify its SCOR Brand products in the market

place, SCOR must establish effective channels of distribution and maintain an active product development program. There is no assurance that a market will develop for the SCOR brand line of athletic shoes and apparel.

The Company's Industries' DLFA unit is a new professional football league contemplated by Industries. Industries' DLFA unit shall be in primary competition with the National Collegiate Athletic Association (NCAA), the National Football League (NFL), the United Football League (UFL) and the Canadian Football League (CFL) for personnel. The NCAA and NFL currently hold leading positions in the market place as it pertains to advertisers and television market share. There are no assurances that Industries' DLFA segment will be able to obtain sufficient personnel levels to staff each of its twenty (20) contemplated teams nor that Industries' DLFA segment shall be able to obtain broadcast distribution for its games on its Dream League TV Network or on any third party television networks.

#### Dependence on Advertising and Promotion

The success of the products and services contemplated to be offered by the Company's subsidiary units are dependent on advertising and promotions each of the products and services.

Media Force's Black Financial~News® TV Network (BFNN) contemplated by the Company's Media Force unit is dependent upon the advertisement and promotion of its broadband channel, as well as, commercial advertising and sponsorship support as a primary source of revenue generation for the unit. Absent the receipt of advertiser, sponsorship and promotional support, Media Force's BFNN unit may be adversely affected and there is no assurance that BFNN shall be successful in meeting its operational objectives. Absent the receipt of advertiser and promotional support, Media Force's BFNN unit may be adversely affected and there is no assurance that BFNN shall be successful in meeting its operational objectives.

The athletic shoe and apparel market is heavily dependant upon marketing. The Company's SCOR unit shall be highly dependent upon the advertisement and promotion of its branded products in order to generate a sufficient level of sales activity. Absent the receipt of advertiser and promotional support, the Company's SCOR unit may be adversely affected and there is no assurance that SCOR shall be successful in meeting its operational objectives.

The Company's Industries' DLFA unit and each of its contemplated twenty (20) teams is heavily dependant upon advertising, sponsorship and promotional support as a primary source of its revenues. Absent the receipt of adequate levels of advertiser and promotional support, there are no assurances that Industries' DLFA segment will be successful in meeting its operational, revenue and profitability objectives.

#### No Assurance of Profitability

The Company is a development stage company which has not generated a material level of consolidated sales activity nor has the Company generated a profit. For the Company's quarterly period ended March 31, 2012 and March 31, 2011 respectively, the Company generated net losses of <\$3,443> and <\$359> respectively. The Company's prospects must be considered in light of the risks, expenses and difficulties frequently encountered by development stage companies. To address these risks, the Company must, among other things, establish its products and services in their respective consumer markets, respond to competitive developments, continue to attract, retain and motivate qualified persons, and continue to upgrade its technologies and commercialize its products and services incorporating such technologies. There can be no assurance that the Company can be successful in addressing these risks or that the Company can be operated profitably, which depends on many factors, including the success of the Company's marketing program, the control of expense levels and the success of the Company's business activities.

### Possible Under Capitalization and Need For Future Financing

The Company and its subsidiary units anticipates that a significant portion of its short-term working capital and long term acquisition financing resources shall be provided from the proceeds generated by the re-payment and liquidation of its \$18,863,700 Note Receivable<sup>2</sup> held as payment for a \$18,863,700 loan made to its affiliated Citizens Capital Corp. 1998 ESOP Trust (ESOP Trust) in exchange for the purchase a \$30,000,000; issue of the Company's Series 2010A; 7% percent; \$1,000 par value; convertible; callable; 144A; First Mortgage Bonds Due 2020. The Promissory Note originating from said Note Receivable<sup>2</sup> has a "demand call" provision that allows the Company to "demand" the liquidation of up to 30,000 Series 2010A; \$1,000 par value bonds, held by the ESOP Trust, to certain Qualified Institution Buyers (QIBs) and/or Accredited Investors in the secondary market, at anytime. If the Company is unable to obtain anticipated financing utilizing the "demand call" provisions of its Note Receivable<sup>2</sup> held, there can be no assurance that the Company will be able to successfully implement its acquisition oriented business objectives or meet working capital requirements.

Further, the Company and its subsidiary units anticipates that a significant portion of its short-term working capital and long term acquisition financing resources will be provided from the proceeds generated from the secondary market re-sale of up to 13,000,000 shares of the Company's common equity, held by its affiliated Citizens Capital Corp. 1998 ESOP Trust. Pursuant to the provisions of Note Receivable<sup>1</sup>, held by the Company, the Company has a "demand call" provision that allows the Company to "demand" the re-sale in the capital market place of up to 13,000,000 shares of the Company's common equity, held by the affiliated Citizens Capital Corp. 1998 ESOP Trust.

While the Company intends to explore a number of options in order to secure alternative financing in the event that currently anticipated financing is not obtained or is insufficient, there can be no assurance that additional financing will be available when needed or obtained on terms favorable to the Company.

### Dependence on Management

As of the Company's quarter end March 31, 2012, shareholders and bondholders of the Company are fully dependent upon the Company's Chief Executive Officer, Billy D. Hawkins, to conduct the Company's business and to implement the operating objectives of each of its subsidiary units. Success of the business depends on the skills and efforts of both current and future management and, to a large extent, on the active participation of the Company's board of directors, executive officers and key employees. The Company may provide stock options in order to retain and motivate qualified management personnel or other key employees. However, the inability to attract and retain qualified management and other key employees could adversely affect the Company's ability in meeting its business objectives.

### Competition

As discussed above, the markets for which the Company's and each of its subsidiary units propose to operate are intensely competitive, rapidly evolving and subject to rapid fundamental and technological change. Except for that of capital, information, knowledge and technology, there are no substantial barriers to initial entry, and the Company expects competition to persist, intensify and increase in the future. There can be no assurance that market competitors in each of the Company subsidiary units will not develop fundamental methods and technologies or products that render the Company's products obsolete or less marketable, that the Company will be able to compete successfully, that the Company will be able to successfully enhance its products, or develop new products or lower costs when and as needed.

### Proposed Expansion and Ability to Manage Growth

The Company and each of its subsidiary units intend to expand its current level of operations. Expansion of the Company's operations will be dependent upon, among other things, its ability to: (I) achieve significant market acceptance for the Company's products and services; (II) hire and retain skilled management, marketing, technical and other personnel; (III) successfully manage growth, if any (including monitoring operations, controlling costs, and maintaining effective quality controls); and, (IV) obtain adequate levels of both working capital and acquisition financing when needed. The Company's prospects for future growth will be largely dependent upon its ability to achieve significant penetration of its products and technologies in targeted markets, to successfully market its concepts, to develop and commercialize applications of its design and production technologies for the market and to enter into strategic alliances with third-parties in connection with the exploitation of its technologies. The Company could also seek to expand its operations through corporate merger and/or acquisition.

### Wells Notices

On May 23, 2011, the SEC issued an Order Instituting Proceeding ("OIP") against the Company pursuant to Section 12(j) of the Exchange Act to suspend or revoke the registration of our common stock because of the Company's failure to file an annual report on Form 10-K or Form 10-KSB since December 31, 2001 or quarterly reports on either Form 10-Q or Form 10-QSB since September 31, 2001.
