NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION:

The accompanying unaudited condensed consolidated financial statements include the accounts of Lightbridge, Inc. and its subsidiaries ("Lightbridge" or the "Company"). Lightbridge believes that the unaudited condensed consolidated financial statements reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of Lightbridge's financial position, results of operations and cash flows at the dates and for the periods indicated. Although certain information and disclosures normally included in Lightbridge's annual financial statements have been omitted, Lightbridge believes that the disclosures provided are adequate to make the information presented not misleading. Results of interim periods may not be indicative of results for the full year or any future periods. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in Lightbridge's Annual Report on Form 10-K and the supplemental consolidated financial statements included in Lightbridge's Current Report on Form 8-K filed on June 6, 2001 for the year ended December 31, 2000.

On February 7, 2001, Lightbridge completed its merger with Corsair Communications, Inc. ("Corsair"). Under the terms of the merger agreement, a wholly owned subsidiary of Lightbridge merged with and into Corsair and Corsair became a wholly owned subsidiary of Lightbridge. The merger has been accounted for as a pooling-of-interests, and the accompanying unaudited condensed consolidated financial statements have been restated to include the accounts of Corsair for all periods presented. In connection with the merger, Lightbridge recorded a charge, in the quarter ended March 31, 2001, of approximately \$6.0 million, representing the cost of professional services and fees of approximately \$5.7 million and costs associated with the termination of four employees of approximately \$0.3 million.

2. SIGNIFICANT ACCOUNTING POLICIES:

Revenue Recognition

The Company generates revenue from the processing of qualification and activation transactions; granting of software licenses; services (including maintenance, installation and training); development and consulting contracts; and hardware sold in conjunction with certain software licenses. Revenues from processing of qualification and activation transactions for wireless telecommunications carriers are recognized in the period in which services are performed. Certain of the Company's software license agreements typically provide for an initial license fee and annual maintenance based on a defined number of subscribers, as well as additional license and maintenance fees for net subscriber additions. Other license agreements provide for either a one-time license fee or a monthly license fee with no additional fees based on incremental subscriber growth.

Revenue from software license sales is recognized when persuasive evidence of an arrangement exists, delivery of the product has been made, and a fixed fee and collectibility have been determined; to the extent that obligations exist for other services, the Company allocates revenue between the license and the services based upon their relative fair value. Revenue from customer maintenance support agreements is deferred and recognized ratably over the term of the agreements. Revenue from consulting and services is recognized as those services are rendered. Revenue from hardware sales is recognized upon shipment, unless testing, integration or implementation services are required, in which case hardware revenue is recognized upon commissioning and acceptance of the product. Revenue from hardware sold in conjunction with software licenses is deferred until the related license revenue is recognized.

Earnings Per Share

Basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if outstanding dilutive options and warrants were exercised and resulted in the issuance of common stock.

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

A reconciliation of the denominators of the basic and diluted earnings per share computations is shown below:

	Quarter ended September 30,		Nine months ended September 30,	
	2001	2000	2001	2000
	(In thousands)		(In thousands)	
Shares for basic earnings per share	28,087	27,566	27,954	27,256
Effect of dilutive options and warrants	696	1,897	860	2,319
Shares for diluted earnings per share	28,783	29,463	28,814	29,575

No adjustments were made to net income in computing diluted earnings per share for the periods presented.

Recent Accounting Pronouncements

Lightbridge adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities" and the corresponding amendments under SFAS 138 on January 1, 2001. Adoption did not have a material impact on Lightbridge's consolidated results of operations, financial position or cash flows.

In July 2001, the FASB issued Financial Accounting Standards No. 141 (SFAS 141), Business Combinations. SFAS 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The Company does not believe that the adoption of SFAS 141 will have a significant impact on its financial statements.

Also in July 2001, the FASB issued Statement of Financial Accounting Standards No. 142 (SFAS 142), Goodwill and Other Intangible Assets, which is effective January 1, 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. The Company does not believe that the adoption of SFAS 142 will have a significant impact on its financial statements.

The FASB has also issued SFAS No. 144, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of, which is effective January 1, 2002. SFAS 144 provides guidance on measuring and recording impairments of assets, other than goodwill, and provides clarifications on measurement of cash flow information and other variables to be used to measure impairment. The Company has not yet completed its evaluation of the impact of this standard on its financial statements.

Provision for Income Taxes

Income taxes are provided for at rates expected to prevail for the full year, adjusted for significant events during each reporting period. Changes in estimated rates are reflected prospectively.

3. SUBSEQUENT EVENT:

On November 13, 2001 the Company took action to reduce its workforce. As a result, the Company expects to record a restructuring charge of approximately \$4.0 million to \$5.0 million in the quarter ending December 31, 2001.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Form 10-Q contains "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects" and similar expressions are intended to identify forward-looking statements. The forward-looking statements involve known and unknown risks, uncertainties and other factors, including the factors set forth under "ITEM 1A. RISK FACTORS" in the Annual Report on Form 10-K of Lightbridge, Inc. for the year ended December 31, 2000, that may cause the actual results, performance and achievements of Lightbridge, Inc. to differ materially from those indicated by the forward-looking statements. Lightbridge anticipates that its business will be impacted by current and future economic conditions affecting the telecommunications industry including, without limitation, decreases or delays in capital spending by carriers and in new subscriber growth, global economic recession, economic and political instability in the domestic and international markets including, without limitation, the impact of terrorist threats and hostilities and the declaration of war or similar actions, and the impact of restructuring on Lightbridge's business and operations. Lightbridge undertakes no obligations to update any forward-looking statements it makes.

Information set forth under the heading "ITEM 1A. Risk Factors" in the Annual Report on Form 10-K of Lightbridge, Inc. for the year ended December 31, 2000 is incorporated as an exhibit to this Quarterly Report on Form 10-Q. Unless the context otherwise requires, "Lightbridge" and the "Company" refer collectively to Lightbridge, Inc. and its subsidiaries.

ALIAS, FRAUDBUSTER, FRAUD SENTINEL, LIGHTBRIDGE, the Lightbridge logo, PROFILE, and TELESTO are registered trademarks of Lightbridge, and @RISK, ALLEGRO, CAS, CREDIT DECISION SYSTEM, CUSTOMER ACQUISITION SYSTEM, FRAUD CENTURION, INSIGHT, POPS, RETAIL MANAGEMENT SYSTEM, RMS, and TELESTO PORTAL are trademarks of Lightbridge. PHONEPRINT is a registered trademark and PREPAY, PREPAY OPEN, PHONEFUEL and Subscriber.com are trademarks of Corsair Communications, Inc. All other trademarks or trade names appearing in this Quarterly Report on Form 10-Q are the property of their respective owners.

Overview

Lightbridge develops, markets and supports a network of integrated products and services that enable telecommunications carriers to improve their customer acquisition, service provisioning, retention and fraud management processes.

On February 7, 2001, Lightbridge completed its merger with Corsair Communications, Inc. ("Corsair"). Under the terms of the merger agreement, a wholly owned subsidiary of Lightbridge merged with and into Corsair and Corsair became a wholly owned subsidiary of Lightbridge. In connection with the merger, Lightbridge issued an aggregate of approximately 10,270,000 shares of its common stock to Corsair stockholders who received 0.5978 of a share of Lightbridge common stock in exchange for each share of Corsair common stock held. In addition, the Company assumed the obligation to issue, upon exercise of outstanding Corsair stock options, approximately 1,587,094 shares of common stock. The merger was accounted for as a pooling-of-interests, and the accompanying unaudited condensed consolidated financial statements have been restated to include the accounts of Corsair for all periods presented.

Lightbridge offers on-line, real-time transaction processing and call center services to aid telecommunications carriers in qualifying and activating applicants for service, as well as software-based point-of-sale support services for a variety of distribution channels, including dealers and agents, mass market retail stores and Internet commerce. Lightbridge develops and implements interfaces that integrate its acquisition system with carrier and third-party systems, such as those for billing, point-of-sale, activation and order fulfillment. Lightbridge also maintains and has access to databases used to pre-screen applicants for fraud and provides software used to monitor subscriber call activity for fraud. In

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

addition, Lightbridge has a global telecommunications consulting practice that provides clients with two types of services: solution development and deployment consulting, and business advisory services.

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

The Company's PrePay billing system provides wireless telecommunications carriers with a software solution designed to integrate with the Wireless Intelligent Network standards. PhoneFuel further extends the PrePay product line by allowing PrePay customers to offer their subscribers the capability to add cash to their PrePay balance phones directly from their bank accounts or credit cards using wireless application protocol. PhoneFuel supports internet connections for PrePay subscribers. Its PhonePrint system provides such carriers with a system to reduce cloning fraud. The Company also sells hardware to its customers.

Lightbridge derives approximately 75% of its revenues from clients located in the United States, and the remainder from international clients.

Results of Operations

The following table sets forth, for the periods indicated, certain financial data as a percentage of total revenues:

	Quarter ended September 30,		Nine months ended September 30,	
	2001	2000	2001	2000
Revenues:				
Transaction	67.3 %	50.4 %	57.6 %	48.9 %

Hardware	1.0	6.5	3.0	7.4
Total cost of revenues	47.8	43.9	45.4	43.2
Gross profit	52.2	56.1	54.6	56.8
Operating expenses:				
Development	19.6	15.3	18.0	15.9
Sales and marketing	12.2	11.4	11.7	11.9
General and administrative	12.1	11.4	10.8	10.6
Merger-related costs	---	---	4.5	---

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

Total operating expenses	43.9	38.1	45.0	38.4
Income from operations	8.3	18.0	9.6	18.4
Other income, net	2.5	3.4	2.5	3.0
Income before provision for income taxes	10.8	21.4	12.1	21.4
Provision for income taxes	3.1	7.8	2.5	7.7
Net income	7.7 %	13.6 %	9.6 %	13.7 %

Quarter Ended September 30, 2001 Compared with Quarter Ended September 30, 2000.

Revenues. Revenues decreased by 13.8% to \$40.0 million in the quarter ended September 30, 2001 from \$46.4 million in the quarter ended September 30, 2000.

Transaction revenues increased by 15.0% to \$26.9 million in the quarter ended September 30, 2001 from \$23.4 million in the quarter ended September 30, 2000, while increasing as a percentage of total revenues to 67.3% from 50.4%. The increase in transaction revenues was due to the increased volume of qualification and activation transactions processed for carrier clients and an increase in special program efforts through Lightbridge's TeleServices Call Center. Lightbridge believes that its transaction revenues also benefited from client promotional activities generally attributable to the current competitive market for wireless services.

The Company's transaction revenues continue to reflect in large part the wireless telecommunication industry's U.S. rate of growth of new subscribers as well as the rate of switching among carriers by subscribers (subscriber churn). Lightbridge believes, based in part on reports of wireless telecommunication industry analysts, that the rate of subscriber growth will slow in upcoming years and that the rate of subscriber churn will remain fairly constant.

Software licensing revenues decreased by 72.6% to \$2.4 million in the quarter ended September 30, 2001 from \$8.9 million in the quarter ended September 30, 2000, while decreasing as a percentage of total revenues to 6.1% from 19.3%. The decrease in software licensing revenues was due to a capital spending slowdown and decline in the telecommunications industry which extended to Lightbridge's traditional analytical software products in fraud prevention and retail management as well as the Company's prepaid software product.

Lightbridge believes software licensing revenues are subject to fluctuation and are more difficult to anticipate than Lightbridge's other types of revenues, due to the relatively large dollar magnitude and long sales cycles for software licenses. The sales cycles for domestic software licenses generally extend from six to nine months and may extend as long as eighteen months; sales cycles for software licenses sold to international clients often are longer. The predictability of software licensing revenue is further impeded because Lightbridge's licensed software is a discretionary purchase for most customers. As a result of the foregoing, a small number of licensing transactions may have a significant effect on Lightbridge's performance within a given quarter.

Consulting and services revenues increased slightly to \$10.2 million in the quarter ended September 30, 2001 from \$10.1 million in the quarter ended September 30, 2000, while increasing as a percentage of total revenues to 25.4% from 21.7%.

Hardware revenues decreased to \$0.5 million in the quarter ended September 30, 2001 from \$4.0 million in the quarter ended September 30, 2000 while decreasing as a percentage of total revenues to 1.2% from 8.6%. The Company has historically sold hardware as an accommodation to customers in conjunction with its sales of software. The decrease in hardware revenues was due to lower sales of PhonePrint, a legacy product, the revenues from which are expected to diminish as the use of analog technology declines. In addition, the Company's PrePay hardware sales also decreased because Lightbridge's latest version of PrePay software enables carriers to use locally sourced Interactive Voice Response Units (IVRs). Finally, hardware sales declined because a number of carriers delayed or cancelled purchase decisions.

Cost of Revenues. Cost of revenues consists primarily of personnel costs, costs of purchasing and maintaining systems and networks used in processing qualification and activation transactions (including depreciation and amortization of systems and networks) and amortization of

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

capitalized software and acquired technology. Cost of revenues may vary as a percentage of total revenues in the future as a result of a number of factors, including changes in the volume of transactions processed, in the mix of transaction revenues between revenues from on-line transaction processing and revenues from processing transactions through the Company's TeleServices Group, fluctuations in temporary versus permanent labor, and changes in the mix of total revenues among transaction revenues, software licensing revenues, and consulting and services revenues and hardware revenues.

Transaction cost of revenues increased by 11.3% to \$13.8 million in the quarter ended September 30, 2001 from \$12.4 million in the quarter ended September 30, 2000, while decreasing as a percentage of total transaction revenues to 51.3% from 53.0%. The increase in transaction cost of revenues resulted principally from increases in transaction volume and costs attributable to expansion of the Company's staff and systems capacity. The decrease in transaction cost of revenues as a percentage of total transaction revenues principally resulted from operational improvements in Lightbridge's Teleservices Group. Transaction cost of revenues was also affected by a shift in the mix of services provided during the quarter ended September 30, 2001 compared to services provided in the comparable period in the prior year.

Software licensing cost of revenues increased slightly to \$0.5 million in the quarter ended September 30, 2001 from \$0.3 million in the quarter ended September 30, 2000.

Consulting and services cost of revenues decreased by 6.3% to \$4.4 million in the quarter ended September 30, 2001 from \$4.7 million in the quarter ended September 30, 2000, while decreasing as a percentage of total consulting and services revenues to 43.2% from 46.4%. The dollar and percentage decrease in consulting and services cost of revenue was due to increased utilization of the Company's consulting resources.

Hardware cost of revenues decreased to \$0.4 million in the quarter ended September 30, 2001 from \$3.0 million in the quarter ended September 30, 2000. This decrease was attributable to the decrease in hardware revenues.

Development Costs. Development expenses include software development costs, which consist primarily of personnel and outside technical services costs related to developing new products and services, enhancing existing products and services, and implementing and maintaining new and existing products and services.

Development expenses increased by 10.5% to \$7.9 million in the quarter ended September 30, 2001 from \$7.1 million in the quarter ended September 30, 2000, while increasing as a percentage of total revenues to 19.6% from 15.3%. The dollar increase in development costs resulted primarily from the addition of engineering personnel necessary to support Lightbridge's product development plans. Included in these development efforts were the development of enhanced versions of its Fraud Management software product, FraudBuster, the continued enhancement of its Customer Acquisition System and Retail Management System, and the development of Fraud Centurion, PrePay Open, PhoneFuel and Subscriber.com. Lightbridge expects to continue engineering and development efforts in order to enhance its existing products and services, including its Channel Solutions, Fraud Management and PrePay products and services, as well as to develop new products and services.

Sales and Marketing. Sales and marketing expenses consist primarily of salaries, commissions and travel expenses of direct sales and marketing personnel, as well as costs associated with advertising, trade shows and conferences.

Sales and marketing expenses decreased by 8.5% to \$4.9 million for the quarter ended September 30, 2001 from \$5.3 million in the quarter ended September 30, 2000, while increasing as a percentage of total revenues to 12.2% from 11.4%. This decrease was primarily due to a decrease in headcount as a result of synergies attributable to the Lightbridge merger with Corsair, coupled with a decrease in costs associated with lower revenue levels. The increase in sales and marketing expenses as a percentage of total revenue was due to lower total revenue in the quarter.

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

General and Administrative. General and administrative expenses consist principally of salaries of executive, finance, human resources and administrative personnel and fees for outside professional services.

General and administrative expenses decreased by 7.4% to \$4.9 million in the quarter ended September 30, 2001 from \$5.3 million in the quarter ended September 30, 2000, and increased as a percentage of total revenues to 12.1% from 11.4%. This decrease was primarily due to a decrease in professional fees and recruiting fees. The increase in general and administrative expenses as a percentage of total revenue was due to lower total revenue in the quarter.

Other Income, Net. Other income, net consisted predominantly of interest income and decreased to \$1.0 million in the quarter ended September 30, 2001 from \$1.6 million in the quarter ended September 30, 2000. This decrease was primarily due to a decline in interest rates.

Provision for Income Taxes. Lightbridge's annual estimated effective tax rate was reduced to 35.0% from 36.5% resulting in a 28.9% rate for the quarter ended September 30, 2001, due to a lower projected rate for the year. This compares with a rate of 36.4% for the quarter ended September 30, 2000.

Nine Months Ended September 30, 2001 Compared with Nine Months Ended September 30, 2000.

Revenues. Revenues increased by 0.8% to \$135.2 million in the nine months ended September 30, 2001 from \$134.1 million in the nine months ended September 30, 2000.

Transaction revenues increased by 18.8% to \$77.8 million in the nine months ended September 30, 2001 from \$65.5 million in the nine months ended September 30, 2000, while increasing as a percentage of total revenues to 57.6% from 48.9%. The increase in transaction revenues was due to increased volume of qualification and activation transactions processed for carrier clients and an increase in special program efforts through Lightbridge's TeleServices Call Center. Lightbridge believes that its transaction revenues also benefited from client promotional activities generally attributable to the current competitive market for wireless services. During the nine months ended September 30, 2001, the Company entered into a new agreement with Sprint Spectrum L.P. ("Sprint") that expires on December 31, 2003 for the provision of credit decision services. The new agreement replaced the prior agreement with Sprint.

Software licensing revenues decreased by 26.3% to \$19.5 million in the nine months ended September 30, 2001 from \$26.4 million in the nine months ended September 30, 2000, while decreasing as a percentage of total revenues to 14.4% from 19.7%. The decrease in software licensing revenues was due to a capital spending slowdown and decline in the telecommunications industry which extended to Lightbridge's traditional analytical software products in fraud prevention and retail management as well as the Company's prepaid software product.

Consulting and services revenues increased by 12.3% to \$32.1 million in the nine months ended September 30, 2001 from \$28.5 million in the nine months ended September 30, 2000, while increasing as a percentage of total revenues to 23.7% from 21.3%. The increase in consulting and services revenues was principally due to increased demand for consulting services, primarily custom software development and systems integration. In addition, the Company's maintenance revenues increased due to an increase in the installed subscriber base.

Hardware revenues decreased to \$5.8 million in the nine months ended September 30, 2001 from \$13.6 million in the nine months ended September 30, 2000, and also decreased as a percentage of total revenues to 4.3% from 10.1%. The decrease in hardware revenues was due to lower sales of PhonePrint. In addition, the Company's PrePay hardware sales also decreased because Lightbridge's latest version of PrePay software enables carriers to use locally sourced IVRs. Finally, hardware sales declined because a number of carriers delayed or cancelled purchase decisions.

Cost of Revenues. Transaction cost of revenues increased by 24.8% to \$41.7 million in the nine months ended September 30, 2001 from \$33.4 million in the nine months ended September 30, 2000, while increasing as a percentage of total transaction revenues to 53.5% from 50.9%. The increase in transaction cost of revenues for the nine months ended September 30, 2001 resulted principally from increases in transaction volume and costs attributable to expansion of the Company's staff and systems capacity. The increase in transaction cost of revenues as a percentage of total transaction revenues principally resulted from costs attributable to expansion of Lightbridge's staff and systems capacity, particularly for Lightbridge's TeleServices Call Centers. Transaction cost of revenues was also affected by a shift in the mix of services provided during the nine months ended September 30, 2001 compared to services provided in the comparable period in the prior year.

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

Software licensing cost of revenues increased slightly to \$1.8 million in the nine months ended September 30, 2001 from \$1.4 million in the nine months ended September 30, 2000.

Consulting and services cost of revenues increased by 5.0% to \$13.9 million in the nine months ended September 30, 2001 from \$13.2 million in the nine months ended September 30, 2000, while decreasing as a percentage of total consulting and services revenues to 43.3% from 46.4%. The dollar increase in consulting services cost of revenues was attributable to the increase in consulting and service revenue. The decrease in consulting and services cost of revenue as a percentage of consulting and services revenues was due to increased utilization of the consulting resources.

Hardware cost of revenues decreased to \$4.1 million in the nine months ended September 30, 2001 from \$9.9 million in the nine months ended September 30, 2000. This decrease was attributable to a decrease in hardware revenues.

Development Costs. Development expenses increased by 13.9% to \$24.3 million in the nine months ended September 30, 2001 from \$21.3 million in the nine months ended September 30, 2000, also increasing as a percentage of total revenues to 18.0% from 15.9%. The dollar and percentage increase resulted primarily from the addition of engineering personnel necessary to support Lightbridge's product and services development plans.

Sales and Marketing. Sales and marketing expenses decreased slightly to \$15.9 million for the nine months ended September 30, 2001 from \$16.0 million in the nine months ended September 30, 2000, while decreasing as a percentage of total revenues to 11.7% from 11.9%. The dollar and percentage decrease was primarily due to a decrease in headcount as a result of synergies attributable to the Lightbridge merger with Corsair, coupled with a decrease in costs associated with lower revenue levels.

General and Administrative. General and administrative expenses increased by 3.5% to \$14.6 million in the nine months ended September 30, 2001 from \$14.1 million in the nine months ended September 30, 2000 and also increased slightly as a percentage of total revenues to 10.8% from 10.6%. The dollar and percentage increase was primarily due to additional staffing levels.

Merger Related Costs. In connection with the Corsair merger, Lightbridge recorded a charge in the nine months ended September 30, 2001 of approximately \$6.0 million, representing the cost of professional services and fees of approximately \$5.7 million and costs associated with the termination of four employees of approximately \$0.3 million.

Other Income, net. Other income, net, consisted predominantly of interest income and decreased to \$3.4 million in the nine months ended September 30, 2001 from \$4.0 million in the nine months ended September 30, 2000. This decrease was primarily due to a decline in interest rates.

Provision for Income Taxes. Lightbridge's estimated effective tax rate was 35.0% (excluding merger-related expenses) and 36.1% for the nine months ended September 30, 2001 and 2000, respectively. This provision was based upon the estimated annual effective tax rate of 35.0%, offset by a \$4.5 million tax benefit principally related to acquired net operating loss carryforwards of Corsair, which are expected to be realized, and the deductible portion of merger costs incurred in connection with the acquisition of Corsair.

Liquidity and Capital Resources

As of September 30, 2001, Lightbridge had cash and cash equivalents and short-term investments of \$118.4 million.

Lightbridge's working capital increased 13.4% to \$124.4 million at September 30, 2001 from \$109.7 million at December 31, 2000.

During the first nine months of 2001, the Company generated cash flows from operating, investing and financing activities of \$26.3 million, \$27.3 million and \$3.0 million, respectively.

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

The Company's capital expenditures totaled \$9.0 million for the nine months ended September 30, 2001. The capital expenditures during these periods were principally associated with the Company's service delivery infrastructure and computer equipment for software development activities.

In August 2001, the Company elected to forego annual renewal of a \$15.0 million unsecured working capital line of credit with a bank because the Company believes it has sufficient cash and short term investments to meet its current operating needs. At the date of expiration, there were no borrowings outstanding under the working capital line of credit. At September 30, 2001 the Company had an outstanding letter of credit in the amount of \$1.0 million which expires in May 2002.

Subsequent Event

On November 13, 2001, the Company took action to reduce its workforce. As a result, the Company expects to record a restructuring charge of approximately \$4.0 million to \$5.0 million in the quarter ending December 31, 2001.

Inflation

Although certain of Lightbridge's expenses increase with general inflation in the economy, inflation has not had a material impact on Lightbridge's financial results to date.

Recent Accounting Pronouncements

Lightbridge adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities" and the corresponding amendments under SFAS 138 on January 1, 2001. Adoption did not have a material impact on Lightbridge's consolidated results of operations, financial position or cash flows.

In July 2001, the FASB issued Financial Accounting Standards No. 141 (SFAS 141), Business Combinations. SFAS 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The Company does not believe that the adoption of SFAS 141 will have a significant impact on its financial statements.

Also in July 2001, the FASB issued Statement of Financial Accounting Standards No. 142 (SFAS 142), Goodwill and Other Intangible Assets, which is effective January 1, 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. The Company does not believe that the adoption of SFAS 142 will have a significant impact on its financial statements.

The FASB has also issued SFAS No. 144, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of, which is effective January 1, 2002. SFAS 144 provides guidance on measuring and recording impairments of assets, other than goodwill, and provides clarifications on measurement of cash flow information and other variables to be used to measure impairment. The Company has not yet completed its evaluation of the impact of this standard on its financial statements.

Stock Repurchase

On October 4, 2001, Lightbridge announced that its board of directors has authorized the repurchase of up to 2 million shares of the Company's common stock at an aggregate price of up to \$20 million. The shares may be purchased from time to time on or after October 8, 2001 depending on market conditions. The board placed a two-year time limit on the repurchase authorization. As of September 30, 2001, the Company had approximately 28 million shares of common stock outstanding.

ITEM 3. QUANTITATIVE AND QUALITATIVE MARKET RISK DISCLOSURES

The market risk exposure inherent in Lightbridge's financial instruments and consolidated financial position represents the potential losses arising from adverse changes in interest rates. Lightbridge is exposed to such interest rate risk primarily in its significant investment in cash and

Edgar Filing: LIGHTBRIDGE INC - Form 10-Q

cash equivalents and the use of fixed- and variable-rate debt to fund its acquisitions of property and equipment in past years.

Market risk for cash and cash equivalents and fixed-rate borrowings is estimated as the potential change in the fair value of the assets or obligations resulting from a hypothetical ten percent adverse change in interest rates, which would not have been significant to Lightbridge's financial position or results of operations during the quarter ended September 30, 2001. The effect of a similar hypothetical change in interest rates on Lightbridge's variable-rate debt also would have been insignificant due to the immaterial amounts of borrowings outstanding under Lightbridge's credit arrangements.

For additional information about Lightbridge's financial instruments and debt obligations, see Notes to Consolidated Financial Statements in Lightbridge's Annual Report on Form 10-K for the year ended December 31, 2000.

PART II. OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

NO.	DESCRIPTION
99.1	Information set forth under the heading "ITEM 1A. Risk Factors" in the Annual Report on Form 10-K of the Company for the year ended December 31, 2000 is incorporated herein by reference

(b) Reports on Form 8-K

On July 5, 2001, the Company filed a Current Report on Form 8-K to report under Item 5, Other Events, that on July 2, 2001, the Company issued a press release commenting on its second quarter 2001 financial outlook. Lightbridge reported that it anticipated second-quarter 2001 revenues would fall eight to ten percent short of previous expectations, due largely to a decline in non-strategic hardware sales. In addition, the Company included under Item 7, Financial Statements, Pro Forma Financial Information and Exhibits, a copy of a Press Release, dated July 2, 2001.
