**WIMM-BILL-DANN FOODS OJSC ANNOUNCES
3 MONTHS 2003 FINANCIAL RESULTS**

Steady growth in the dairy segment, juice on track towards recovery

Moscow, Russia June 23, 2003 Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the first quarter of 2003.

During the first quarter of 2003, Wimm-Bill-Dann's sales increased by 13.4% compared to the first quarter of 2002. Gross profit increased by 16.3%, with gross margins rising to 29.3% compared to 28.6% last year. Net income decreased by 26%, primarily due to the combined effect of a temporary slowdown in juice sales growth as well as costs associated with expansion in the dairy segment. EBITDA showed a slight decrease year-on-year.

Commenting on the announcement, Sergei Plastinin, CEO of Wimm-Bill-Dann Foods OJSC, said; "The first three months of this year saw continued growth in sales and improvement in gross margin. Over recent months, we have developed and launched a number of programs such as better supply chain management, newly designed IT infrastructure and investment in technology and new equipment to enhance operational cycle and improve our cost structure. We are also in the process of improving our brand and product portfolio, launching new products and increasing efficiency of our distribution and sales channels."

In the first three months of 2003, Wimm-Bill-Dann's sales amounted to US\$223.9 million, compared to US\$197.4 million during the same period last year.

Sales in Wimm-Bill-Dann's dairy segment in the first quarter increased by 16.7% from US\$136.2 million in 2002 to US\$159 million in 2003. Gross margins in the dairy sector grew to 26.7% from 25.4% last year due to a 5% drop in the cost of raw milk compared to last year, favorable price increases for sterilized milk and a higher share of value-added products in the product portfolio.

Sales in Wimm-Bill-Dann's juice segment increased by 6% from US\$61.2 million in the first quarter of 2002 to US\$64.9 million in the first quarter of 2003. Although sales slowed down in the first quarter following an exceptionally strong fourth quarter, we were able to improve our average price by 4.4% compared to the previous quarter. Pricing and volume growth were partially offset by increases in the cost of raw materials and the increased share of lower priced brands in the overall product portfolio. Gross margins in the juice division remained flat at 36%, the same as last year.

The company's increased geographical coverage and investments in brand promotion continued to be the main cost drivers. Selling and distribution costs increased substantially, from US\$21.8 million during the first quarter of 2002 to US\$32.2 million this year. During the first three months of 2003, US\$9.5 million was spent on the personnel portion of selling and distribution expenses, and US\$10 million on marketing and advertising, US\$6.8 million on transportation costs and US\$1.2 million on warehousing.

During the first three months of 2003, general and administrative expenses were US\$17.7 million. Net income decreased from last year and was US\$7.1 million. EBITDA decreased slightly to US\$21.6 compared to US\$21.8 million during the first three months of 2002.
