FRESH START ACCOUNTING

We have applied Fresh-Start Reporting (as defined herein) to our consolidated balance sheet as of October 31, 2002 in accordance with Statement of Position No. 90-7, Financial Reporting by Entities in Reorganization Under the Bankruptcy Code as promulgated by the American Institute of Certified Public Accountants (SOP 90-7). Under Fresh-Start Reporting, a new reporting entity is considered to be created and the recorded amounts of assets and liabilities are adjusted to reflect their estimated fair values at the date Fresh-Start Reporting is applied. On October 31, 2002, Metals USA, Inc. emerged from bankruptcy. As a result of the application of Fresh-Start Reporting, the financial information of our Company as of any date or for periods after November 1, 2002 is not comparable to our historical financial information before November 1, 2002. As a result of the emergence from bankruptcy and for the purpose of presentation, activities subsequent to October 31, 2002 relate to the Successor Company and activities prior to November 1, 2002 relate to the Predecessor Company.

SAFE HARBOR STATEMENT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places, including Management's Discussion and Analysis of Financial Condition and Results of Operations and Legal Proceedings. Such statements can be identified by the use of forward-looking terminology such as believes, expects, may, estimates, will, should, plans or anticipates or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties, and that actual results may vary materially from those in the forward-looking statements as a result of various factors. These factors include the effectiveness of management's strategies and decisions, general economic and business conditions, developments in technology, new or modified statutory or regulatory requirements and changing prices and market conditions. This report identifies other factors that could cause such differences. No assurance can be given that these are all of the factors that could cause actual results to vary materially from the forward-looking statements. In addition, readers should refer to Factors Which May Affect Future Operating Results included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2002 for risk factors that may affect future performance.

METALS USA, INC. AND SUBSIDIARIES

CONDENSED NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share amounts)

1. Organization, Basis of Presentation and Chapter 11 Proceedings

Organization

Metals USA, Inc., a Delaware corporation, ("Metals USA" or the "Company") is a leading provider of value-added processed steel, stainless steel, aluminum and specialty metals, as well as manufactured metal components. Approximately 85% of the Company's revenues are derived from metal service center and distribution activities that are segmented into two groups, Flat Rolled and Plates and Shapes. The remaining portion of the Company's revenue is derived from the Building Products Group, which principally manufactures and distributes aluminum products related to the residential and commercial construction and improvement industry. The Company purchases metal from primary producers who generally focus on large volume sales of unprocessed metals in standard configurations and sizes. In most cases, the Company performs the customized, value-added processing services required to meet specifications provided by end-use customers. The Flat Rolled Group and Plates and Shapes Group customers are in businesses such as the machining, furniture, transportation equipment, power and process equipment, industrial/commercial, construction/fabrication, consumer durables and electrical equipment industries, and machinery and equipment manufacturers. The Building Products Group customers are distributors and contractors engaged in residential and commercial building projects.

Basis of Presentation

The steel industry declined substantially during 2000 and 2001 as a result of pricing pressure from foreign imports and an economic recession experienced in the United States ("U.S."). These factors, combined with the Company's high level of debt, caused it to seek protection under U.S. bankruptcy laws. On November 14, 2001, the Company and all of its subsidiaries voluntarily filed for relief under Chapter 11 of the U.S. Bankruptcy Code ("Chapter 11 Filing"), in the U.S. Bankruptcy Court, Southern District of Texas. On October 31, 2002 (the "Effective Date"), the Company's Reorganization Plan became effective, and the Company emerged from bankruptcy court protection. As of the Effective Date, the Company applied "Fresh-Start Reporting" rules that were required upon emergence from Bankruptcy. Accordingly, the Company's financial position, results of operations and cash flows for the period after emergence from bankruptcy are not comparable to earlier periods.

The steel industry declined substantially during 2000 and 2001 as a result of pricing pressure from foreign imports and

Edgar Filing: METALS USA INC - Form 10-Q/A

As a result of the emergence from bankruptcy and for the purpose of presentation, activities subsequent to October 31, 2002 relate to the Successor Company and activities prior to November 1, 2002 relate to the Predecessor Company. With respect to periods relating to the Predecessor Company, the consolidated financial statements have been reclassified for the effects of Statement of Financial Accounting Standards No. 144 (SFAS No. 144), *Accounting for Impairment or Disposal of Long-Lived Assets* that require divestitures be excluded from results of continuing operations for all periods presented.

Principles of consolidation The consolidated financial statements include the accounts of Metals USA and its subsidiaries. All intercompany accounts and transactions have been eliminated in the consolidated financial statements. Certain reclassifications have been made to prior years financial statements to be consistent with the current year s presentation, primarily relating to the operations held for sale (see Note 7).

Interim Financial Information — The interim consolidated financial statements included herein are unaudited; however, they include all adjustments of a normal recurring nature which, in the opinion of management, are necessary to present fairly the interim consolidated financial information as of and for the periods indicated. All intercompany transactions and balances have been eliminated. Accounting measurements at interim dates inherently involve greater reliance on estimates than at year-end. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the entire year.

Use of Estimates and Assumptions — The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) the disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and (iii) the reported amount of net sales and expenses recognized during the periods presented. The Company reviews all significant estimates affecting its consolidated financial statements on a recurring basis and records the effect of any necessary adjustments prior to their publication. Adjustments made with respect to the use of estimates often relate to improved information not previously available. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of financial statements.

New Accounting Pronouncements In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146 (SFAS 146), *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS 146 replaces Emerging Issues Task Force Issue 94-3, *Liability Recognition of Certain Employee Termination Benefits and Other Costs to Exit an Activity*. This standard requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. This statement is effective for disposal activities that are initiated after December 31, 2002. The adoption of SFAS 146 did not have any impact on the Company's results of operations or financial position in 2003.

In December 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 148 (SFAS 148), *Accounting for Stock-Based Compensation-Transition and Disclosure*. SFAS 148 amends SFAS 123 to provide alternate methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both quarterly and interim financial statements about the effects of stock-based compensation on reported results. The provisions of SFAS 148 are effective for years ending after December 15, 2002. The adoption of SFAS 148 did not have any impact on the Company's results of operations or financial position in 2003 (see Note 6).

The Emerging Issues Task Force (EITF) has proposed Issue No. 00-21, *Revenue Arrangements with Multiple Deliverables*, which would require bifurcation of activities or deliverables in multiple revenue-generating arrangements. The Company does not have any arrangements that fall within the current scope of this issue; and therefore, the Company believes that this issue as currently contemplated will not have an impact on its financial position or results of operations.

Emergence from Chapter 11 Bankruptcy

Reorganization Plan. Under the terms of the Reorganization Plan, the unsecured creditors will receive, upon resolution of all disputed creditor claims and completion of distributions, 20,000,000 shares of new common stock, par value \$.01 per share, (Common Stock) in the reorganized Company to discharge and in

exchange for \$367.3 of unsecured debt, and the financial advisor to Creditors Committee was issued 154,710 shares of Common Stock. The Company's existing common stock, par value \$.01 per share, outstanding prior to the Effective Date (the "Old Common Stock") was extinguished and holders of such shares received in exchange for such shares, five-year warrants (the "Warrants") to purchase an aggregate of 3,556,713 shares of the Common Stock (representing 15% of the outstanding Common Stock upon exercise). The Warrants have an exercise price of \$18.50 per share. Instructions regarding the exchange of the Warrants were delivered to the exchange agent on May 9, 2003. The Reorganization Plan established the 2002 Long Term Stock Incentive Plan (the "2002 Incentive Plan") for employees to be administered by the Board of Directors of the newly reorganized Company. Up to 2,015,000 shares of Common Stock are reserved for issuance under the 2002 Incentive Plan. All previously outstanding options of the Company that had been issued under previous stock option plans were cancelled.

Reorganization Expenses. The Company incurred \$6.1 and \$9.1 of reorganization expenses associated with the Chapter 11 Proceedings during the three and six months ended June 30, 2002, respectively. These expenses consisted primarily of professional fees and costs associated with an employee retention plan. The Company has not incurred any reorganization expenses since emerging from bankruptcy on October 31, 2002, the Effective Date.

2. Earnings (Loss) Per Share

The Company computes earnings (loss) per share in accordance with Statement of Financial Accounting Standards No. 128 ("SFAS No. 128"), *Earnings Per Share*. SFAS No. 128 requires presentation of Earnings per Share Basic and Earnings per Share Diluted. Earnings per Share Basic excludes dilution and is determined by dividing income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Earnings per Share Diluted reflects the potential dilution that could occur if securities and other contracts to issue common stock were exercised or converted into common stock. The Successor Company had outstanding options to purchase 487,500 shares of Common Stock as of June 30, 2003. These securities were included in the net income calculation for the three and six month periods in 2003 and increased the weighted average number of shares outstanding by 0.1. The Predecessor Company had outstanding options to purchase shares of Common Stock as of June 30, 2002. These securities were antidilutive and, accordingly, were not included in the net loss calculation.

3. Inventories

Inventories consist of the following:

	Successor Company	
	June 30, 2003	December 31, 2002
Raw materials		
Plates and Shapes	\$ 67.6	\$ 64.2
Flat Rolled	62.7	100.6
Building Products	15.5	17.7
Total raw materials	145.8	182.5
Work-in-process and finished goods		
Flat Rolled	21.1	17.7
Building Products	24.1	24.5
Total work-in-process and finished goods	45.2	42.2
Total	\$ 191.0	\$ 224.7

Approximately 25% of the Company's inventory is accounted for under the LIFO method of accounting. The replacement cost of the Company's inventory as of June 30, 2003 and December 31, 2002 approximated the historical cost of the inventory computed using the LIFO method of valuation. If the FIFO method had been used for all inventories, net income (loss) would have been unchanged for the periods presented.

4. Debt

Debt consists of the following:

	Successor Company	
	June 30, 2003	December 31, 2002
Borrowings under credit facilities	\$ 66.7	\$ 112.6
Industrial Revenue Bonds (various issues)	5.7	7.9
Mortgage Note	7.3	7.4
Obligations under capital leases and other	0.7	0.8
Total debt	80.4	128.7
Less current portion of debt	0.4	1.3
Total long-term portion of debt	\$ 80.0	\$ 127.4

Edgar Filing: METALS USA INC - Form 10-Q/A

The weighted average interest rates under the Company's credit facilities for the three and six months ended June 30, 2003 and 2002 were 4.75%, 4.54%, 7.52% and 7.37%, respectively.

Credit Facility

On October 31, 2002, the Company entered into its exit financing with a group of lenders (the "Credit Facility"). The Credit Facility has an initial term of three years with an option to extend the agreement by two one-year terms. The Credit Facility is a revolving credit facility providing up to \$200.0 in borrowings and is

secured by all of the Company's receivables, inventories, and intangible property. Borrowings under the Credit Facility are limited to the lesser of a borrowing base, comprised of eligible receivables and inventories, or \$200.0 in the aggregate. The Company's property and equipment are not pledged as security for the loan. As of June 30, 2003, the Company had \$112.7 available to borrow under the Credit Facility.

The Credit Facility matures on October 31, 2005, subject to extension and bears interest at the bank's base rate or LIBOR, at the Company's option, plus an applicable margin based on a ratio of earnings before interest, taxes, depreciation and amortization (EBITDA as defined and adjusted) to certain cash payments (the Fixed Charge Coverage Ratio). The Fixed Charge Coverage Ratio is determined by dividing EBITDA by the sum of net capital expenditures, income taxes paid in cash, dividends, or other preference payments, interest expense paid in cash and scheduled principal reductions on debt. The applicable margin for base rate loans ranges from 0.00% to 0.50%, and the LIBOR margin loans range from 2.00% to 3.00%. These marginal rates vary with the Company's financial performance as measured by the Fixed Charge Coverage Ratio. A commitment fee is payable on any unused portion of the Credit Facility. The commitment fee varies between 0.250% and 0.375% per annum, based on the Fixed Charge Coverage Ratio. The applicable base rate and the LIBOR rate were 4.50% and 1.09% as of June 30, 2003.

The Credit Facility requires the Company to comply with various affirmative, negative and subjective covenants, the most significant of which are: (i) the maintenance of a borrowing base availability, or, if the required borrowing base availability is not maintained, the maintenance of the Fixed Charge Coverage Ratio, (ii) restrictions on additional indebtedness, (iii) restrictions on liens, guarantees and quarterly dividends, and (iv) obtaining the lenders' consent with respect to certain individual acquisitions. The Credit Facility allows for the payment of up to \$1.1 of dividends in any fiscal quarter provided that borrowing base availability is greater than \$40.0. As long as the Company's borrowing base availability is \$20.0 or greater, the Company does not have to maintain a minimum Fixed Charge Coverage Ratio. Should the borrowing base availability fall below \$20.0, the Company must comply with a Fixed Charge Coverage Ratio of 1.0 to 1.0. The Company was in compliance with all of the covenants as of June 30, 2003.

5. Commitments and Contingencies

The Company and its subsidiaries are involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. The Company believes the resolution of these matters and the incurrence of their related costs and expenses should not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

6. Stockholders' Equity

Common Stock

Under the terms of the Reorganization Plan, the unsecured creditors received 20,000,000 shares of Common Stock in the reorganized Company to discharge and in exchange for approximately \$367.3 of unsecured debt, and the financial advisor to holders of general unsecured claims was issued 154,710 shares of Common Stock. In addition, authorized shares of Common Stock were decreased from 203,122,914 to 200,000,000.

Warrants

Under the terms of the Reorganization Plan, the Company's Old Common Stock was extinguished and holders of such shares received in exchange for such shares, five-year Warrants to purchase an aggregate of 3,556,713

shares of the Common Stock (representing 15% of the Company's outstanding Common Stock). The Warrants have an exercise price of \$18.50 per share. Instructions regarding the exchange of the Warrants were delivered to the exchange agent on May 9, 2003.

Stock Based Compensation

The Reorganization Plan established the 2002 Incentive Plan for employees to be administered by the Board of Directors of the newly reorganized Company and up to 2,015,000 shares of Common Stock was reserved for issuance under the Plan. On February 24, 2003, the Company issued to its newly hired President (who is also a Director), an option to purchase up to 300,000 shares of Common Stock from the 2002 Incentive Plan of which 100,000 are exercisable at \$4.75 per share, 100,000 at \$9.50 per share and 100,000 at \$14.25 per share. The option has a term of five years and one-third of the option grant at each respective exercise price will vest on each of the first three anniversaries beginning February 24, 2004. On April 5, 2003, the Company issued options to the other six Directors for the purchase of up to 187,500 shares of Common Stock from the 2002 Incentive Plan that are exercisable at \$3.08 per share. These options have a term of five years and one-third of the option grant will vest on each of the first three anniversaries beginning November 1, 2003. The fair value of these option grants is \$0.4. The fair value of these option grants were estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Expected dividend yield	0.0%
Expected stock price volatility	40.0%
Risk free interest rate	6.0%
Expected life of options	4.0

Options granted during the six months ended June 30, 2003 had a weighted average fair value of \$0.81 per option and a weighted average exercise price of \$7.03 per option.

The Company accounts for its stock option plan under APB Opinion No. 25 under which no compensation cost has been recognized. Had compensation cost for these plans been accounted for consistent with SFAS No. 123, *Accounting for Stock-Based Compensation*, and SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure*, the Company's net income and net income per share would have increased to the following pro forma amounts:

		Three Months Ended	June 30, 2003	Six Months Ended
Net income, as reported	\$	2.3	\$	2.1
Deduct: Compensation determined under fair value based method, net of tax		(0.1)		(0.3)
Pro forma net income	\$	2.2	\$	1.8
Net income per share, Basic and Diluted:				
As reported	\$	0.11	\$	0.10
Pro forma	\$	0.11	\$	0.09

7. Operations Held for Sale

During 2002, the Company announced planned divestitures of 11 business units that were a part of the Reorganization Plan. The accounting for the disposal of operations held for sale during 2002 was governed by the provisions of SFAS 144, which requires that operations held for sale be recorded as discontinued operations on the statement of operations with separate earnings per share disclosure and supplemental footnote disclosure of the assets and liabilities. Consolidated statements of operations with respect to the businesses classified as discontinued operations and held for sale under SFAS 144 are as follows:

	Six Months Ended June 30,	
	Successor Company 2003	Successor Company 2002
Statement of Operations Data:		
Net sales	\$ 3.4	\$ 148.7
Cost of sales	2.8	117.1
Gross profit	.6	31.6
Operating expenses	.7	31.1
Operating income (loss)	(0.1)	0.5
Provision (benefit) for taxes		0.1
Net income (loss)	\$ (0.1)	\$ 0.4

During the first quarter of 2003, the remaining unsold operating unit, which has been included in assets held for sale since April 2002 and for which the Company has no interested purchasers, was returned to held for use status and the results of operations have been reclassified and included in results of continuing operations for all periods presented. No assets remain in the assets held for sale category subsequent to March 31, 2003. Other assets and liabilities, primarily accounts receivable and inventory retained by the Company upon the sale of the associated operating assets, have been reclassified to the appropriate balance sheet accounts as of December 31, 2002. Sales of property and equipment during the three months ended March 31, 2003, generated proceeds of \$5.4.

	Successor Company	
	June 30, 2003	December 31, 2002
Assets:		
Property and equipment, net	\$	\$ 8.2
Reserves		(2.8)
Operations held for sale	\$	\$ 5.4
Liabilities:		
Accounts payable and accrued liabilities		\$ 0.2
Operations held for sale	\$	\$ 0.2

During 2001, the Company decided to sell certain assets and facilities. Because the sale of these operations were initiated prior to the adoption of SFAS 144, the accounting for the disposal of these assets is governed by the provisions of SFAS 121, which requires that the operating results of operations held for sale be reported as continuing operations on the statement of operations with supplemental footnote disclosure of the assets, liabilities and results of operations. Operating results included in the consolidated statements of operations regarding the operations held for sale under SFAS 121 are as follows:

	Six Months Ended June 30,	
	Successor Company 2003	Predecessor Company 2002
Net sales	\$	\$ 25.5
Operating loss		(1.9)

8. Supplemental Cash Flow Information

	Six Months Ended June 30,	
	Successor Company 2003	Predecessor Company 2002
Cash paid for interest	\$ 3.3	\$ 9.5
Cash refunded for income taxes	(19.4)	(25.2)

9. Subsequent Event

On July 1, 2003 and July 10, 2003, the Company issued options to certain members of management for the purchase of up to 346,500 shares of Common Stock from the 2002 Incentive Plan that are exercisable at \$4.75 per share. These options have a term of five years and one-third of the option grant will vest on each of the first three anniversaries beginning with their respective issue dates. The fair value of these option grants is \$0.5. Options granted during July, 2003 had a weighted average fair value of \$1.44 per option and a weighted average exercise price of \$4.75 per option.

10. Segment and Related Information

The following table shows summarized financial information for the continuing operations of the Company's reportable segments. Amounts applicable to the Predecessor Company in 2002 have been reclassified to reflect operations removed from held for sale classification. Operating income (loss) by business segment excludes interest expense and reorganization expenses. Corporate expenses are allocated to the Company's operating segments. The negative sales amount under Corporate and Other represents the elimination of intercompany sales.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. See disclosure presented on the inside of the front cover of this report for cautionary information with respect to such forward-looking statements. Readers should refer to Factors Which May Affect Future Operating Results included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2002 for risk factors that may affect future performance.

Overview

We are a leading provider of value-added processed steel, aluminum and specialty metals and manufactured metal components. Approximately 85% of our revenues are derived from our metal service center and distribution activities that are segmented into two groups, Flat Rolled and Plates and Shapes. The remaining portion of our revenue is derived from our Building Products Group, which primarily manufactures and distributes aluminum products related to the residential and commercial construction and improvement industry. We purchase metal from primary producers who generally focus on large volume sales of unprocessed metals in standard configurations and sizes. In most cases, we perform the customized, value-added processing services required to meet specifications provided by end-use customers. Our Flat Rolled Group and Plates and Shapes Group customers are in businesses such as the machining, furniture, transportation equipment, power and process equipment, industrial/commercial construction/fabrication, consumer durables and electrical equipment industries, and machinery and equipment manufacturers. Our Building Products Group customers are distributors and contractors engaged in residential and commercial building projects.

Chapter 11 Proceedings

On November 14, 2001, we voluntarily filed for relief under Chapter 11 of the U.S. Bankruptcy Code, in U.S. Bankruptcy Court, Southern District of Texas and began operating our business as debtors-in-possession pursuant to the Bankruptcy Code. We emerged from bankruptcy on October 31, 2002. Our need to seek relief under the Bankruptcy Code was due primarily to (1) a reduction in cash flows resulting from an industry-wide recession caused by pricing pressure from foreign imports and decline in the manufacturing sector of the U.S. economy, (2) the inability to obtain additional liquidity from our primary lending sources and (3) the high level of indebtedness related to acquisitions made prior to 2000. During 2000, the U.S. steel industry began experiencing significant declines in prices for steel products resulting from an influx of foreign imports. During 2001, the U.S. economy in general and the manufacturing sector in particular moved into a recession that was further exacerbated by the terrorist attack of September 11, 2001. During 2002, the steel industry continued to be affected by the economic recession as volumes continued to decline. However, steel prices stabilized in 2002 and, in some cases, increased as a result of the tariffs implemented by the U.S. government in March 2002 and the reduced production capacity resulting from shutdowns and bankruptcies of producing mills. Due to these deteriorating economic conditions, we incurred significant operating losses through 2002.

On June 21, 2002, we reached an agreement with the Creditors Committee on the terms of the Reorganization Plan and subsequently filed such plan along with our disclosure statement with the Bankruptcy Court on August 27, 2002. The Bankruptcy Court held a hearing approving the disclosure statement and the Reorganization Plan on September 18, 2002 and, after receiving a majority of the vote from the claim holders, the Bankruptcy Court confirmed the Reorganization Plan on October 18, 2002. As a result,

we were permitted to consummate the transactions described in the Reorganization Plan and emerge from bankruptcy on October 31, 2002, the Effective Date.

Under the terms of the Reorganization Plan, the unsecured creditors will receive, upon resolution of all disputed creditor claims and completion of distributions, 20,000,000 shares of Common Stock in the reorganized Company to discharge and in exchange for approximately \$367.3 million of unsecured debt, additionally, the financial advisor to the Creditors Committee was issued 154,710 shares of Common Stock as partial payment for services performed. Our Old Common Stock, outstanding prior to the Effective Date was extinguished and holders of such shares received in exchange for such shares, five-year Warrants to purchase an aggregate of 3,556,713 shares of our Common Stock (representing 15% of our outstanding Common Stock upon exercise). The Warrants have an exercise price of \$18.50 per share. Instructions regarding the exchange of the Warrants were delivered to the exchange agent on May 9, 2003. On June 4, 2003, our stock began trading on the American Stock Exchange (the AMEX) under the ticker symbol MLT. Additionally the Warrants are also trading on the AMEX under the symbol MLT.WS. The Reorganization Plan established the 2002 Incentive Plan for employees to be administered by the Board of Directors of the newly reorganized Company. Up to 2,015,000 shares of Common Stock are reserved for issuance under the 2002 Incentive Plan. All previously outstanding options of the Company that had been issued under previous stock option plans were cancelled. Additionally, the Board of Directors of the reorganized Company was initially reconstituted with six new members with the newly hired President and Chief Executive Officer added as a seventh member on February 24, 2003.

We were required to adopt Fresh-Start Reporting as specified by SOP-90-7. Fresh-Start Reporting was required upon a substantive change in control and required upon the Effective Date, that the reporting entity allocate the reorganization value of the Company to its assets and liabilities in relation to their fair values. Accordingly, the Company's financial position, results of operations and cash flows for the period after emergence from bankruptcy are not comparable to earlier periods.

As a result of the emergence from bankruptcy and for the purpose of presentation, activities subsequent to October 31, 2002 relate to the Successor Company and activities prior to November 1, 2002 relate to the Predecessor Company. With respect to periods relating to the Predecessor Company, the consolidated financial statements have been reclassified for the effects of Statement of Financial Accounting Standards No. 144 (SFAS No. 144), *Accounting for Impairment or Disposal of Long-Lived Assets* that require divestitures be excluded from results of continuing operations for all periods presented.

Critical Accounting Policies

In response to the Securities and Exchange Commission's Release No. 33-8040, *Cautionary Advice Regarding Disclosure About Critical Accounting Policies*, we have identified critical accounting policies based upon the significance of the accounting policy to our overall financial statement presentation, as well as the complexity of the accounting policy and our use of estimates and subjective assessments. We have concluded our critical accounting policies are as follows:

Concentration of credit risk. Concentrations of credit risk with respect to trade accounts are within several industries. We perform ongoing credit evaluations of customers and sets credit limits based upon review of the customers' current credit information and payment history. We monitor customer payments and maintain a provision for estimated credit losses based on historical experience and specific customer collection issues that we have identified. Estimation of such losses requires adjusting historical loss experience for current economic conditions and judgments about the probable effects of economic conditions

on certain customers. We cannot guarantee that the rate of future credit losses will be similar to past experience. Each quarter we consider all available information when assessing the adequacy of the provision for allowances, claims and doubtful accounts.

Inventories. Inventories are stated at the lower of cost or market. Certain of our subsidiaries use the last-in, first-out (LIFO) method of accounting for inventories and other subsidiaries use a variety of methods including specific identification, average cost and the first-in first-out (FIFO) method of accounting. We regularly review inventory on hand and record provisions for obsolete and slow-moving inventory based on historical and current sales trends. Changes in product demand and our customer base may affect the value of inventory on hand which may require higher provisions for obsolete inventory.

Revenue recognition. We recognize revenues when products are shipped and all significant obligations of the Company have been satisfied. Risk of loss passes at the time of shipment. Provisions are made currently for estimated returns.

Results of Operations

Edgar Filing: METALS USA INC - Form 10-Q/A

The following unaudited consolidated financial information reflects our historical financial statements, and the divested companies as of their respective divestiture dates. For comparison purposes, the results of operations data for 2003 includes the Successor Company results for the period January 1, 2003 through June 30, 2003 and 2002 includes the Predecessor Company results for the period January 1, 2002 through June 30, 2002.

Consolidated Results — Three Months Ended June 30, 2003 (Successor Company) Compared to June 30, 2002 (Predecessor Company)

Net sales. Net sales decreased \$6.9 million, or 2.8%, from \$249.2 million for the three months ended June 30, 2002 to \$242.3 million for the three months ended June 30, 2003. The decrease in net sales was principally due to the sale of certain Plates and Shapes operations that were accounted for under SFAS 121 during 2002 (see Note 7 of the Condensed Notes to Unaudited Consolidated Financial Statements). These operations generated sales of \$7.9 million in 2002 and none in 2003. With respect to the Flat Rolled and

Plates and Shapes operation, exclusive of the operations that were sold, the benefit of a 6.5% increase in average realized prices was more than offset by the adverse effect of a 5.8% volume decrease.

Cost of sales. Cost of sales decreased \$3.3 million, or 1.8%, from \$187.4 million for the three months ended June 30, 2002, to \$184.1 million for the three months ended June 30, 2003. The decrease in cost of sales was principally due to the sale of certain Plates and Shapes operations described above, which had cost of sales of \$5.9 million in 2002 and none in 2003. With respect to the Flat Rolled and Plates and Shapes operation, exclusive of the operations that were sold, the average cost per ton increased 6.7%, which more than offset the volume decrease. As a percentage of sales, cost of sales increased from 75.2% in 2002 to 76.0% in the same period in 2003.

Operating and delivery. Operating and delivery expenses increased \$0.1 million, or 0.3%, from \$30.3 million for the three months ended June 30, 2002 to \$30.4 million for the three months ended June 30, 2003. Operating and delivery expenses attributable to the sale of certain Plates and Shapes operations described above were \$1.3 million in 2002 and none in 2003. As a percentage of net sales, operating and delivery expenses increased from 12.2% for the three months ended June 30, 2002 to 12.5% for the three months ended June 30, 2003. This percentage increase was primarily due to increased insurance and employee benefit expenses.

Selling, general and administrative. Selling, general and administrative expenses decreased \$0.2 million, or 0.9%, from \$22.9 million for the three months ended June 30, 2002 to \$22.7 million for the three months ended June 30, 2003. Selling, general and administrative expenses attributable to the sale of certain Plates and Shapes operations described above were \$1.8 million in 2002 and none in 2003. As a percentage of net sales, selling, general and administrative expenses increased from 9.2% for the three months ended June 30, 2002 to 9.4% for the three months ended June 30, 2003. This percentage increase was primarily due to higher insurance costs and, to a lesser extent, severance costs incurred during 2003.

Depreciation and amortization. Depreciation and amortization expense decreased \$2.3 million or 95.8%, from \$2.4 million for the three months ended June 30, 2002 to \$0.1 million for the three months ended June 30, 2003. This decrease was due to the application of Fresh-Start Reporting that resulted in the reduction in carrying values of all property and equipment to zero as of October 31, 2002, the Effective Date offset by depreciation and amortization expense on capital expenditures since the Effective Date.

Asset impairments. Asset impairment charges of \$3.5 million were recorded in the second quarter of 2002, such amount representing the difference between the estimated sales price and the carrying value of the divested assets. There were no asset impairment charges during the three months ended June 30, 2003.

Operating income. Operating income increased \$2.3 million, or 85.2%, from \$2.7 million for the three months ended

June 30, 2002 to \$5.0 million for the three months ended June 30, 2003. The increase in operating income was attributable to the sale of certain Plates and Shapes operations that generated an operating loss of \$1.1 million during the three months ended June 30, 2002 and the decrease in depreciation and amortization expense and asset impairments discussed above. As a percentage of net sales, operating income increased from 1.1% for the three months ended June 30, 2002 to 2.1% for the three months ended June 30, 2003.

Interest expense. Interest expense decreased \$3.5 million, or 68.6%, from \$5.1 million for the three months ended June 30, 2002 to \$1.6 million for the three months ended June 30, 2003. The decrease in interest expense was primarily due to decreased debt levels and lower interest rates.

Reorganization expenses. Reorganization expenses in the amount of \$6.1 million for the three months ended June 30, 2002 consist of approximately \$4.0 million of professional and trustee fees associated with the Chapter 11 Proceedings and \$2.1 million related to employee retention. The Company has not incurred any reorganization expenses since the emergence from bankruptcy on October 31, 2002.

Consolidated Results — Six Months Ended June 30, 2003 (Successor Company) Compared to June 30, 2002 (Predecessor Company)

Net sales. Net sales decreased \$25.4 million, or 5.1%, from \$494.0 million for the six months ended June 30, 2002 to \$468.6 million for the six months ended June 30, 2003. The decrease in net sales was principally due to the sale of certain Plates and Shapes operations that were accounted for under SFAS 121 during 2002 (see Note 7 of the Condensed Notes to Unaudited Consolidated Financial Statements). These operations generated sales of \$25.5 million in 2002 and none in 2003. With respect to the Flat Rolled and Plates and Shapes operation, exclusive of the operations that were sold, the benefit of an 8.6% price increase was substantially offset by an 8.2% volume decrease.

Cost of sales. Cost of sales decreased \$14.2 million, or 3.8%, from \$372.7 million for the six months ended June 30, 2002, to \$358.5 million for the six months ended June 30, 2003. The decrease in cost of sales was principally due to the sale of certain Plates and Shapes operations described above, which had cost of sales of \$19.6 million in 2002 and none in 2003. With respect to the Flat Rolled and Plates and Shapes operation, exclusive of the operations that were sold, the average cost per ton increased 9.9% which more than offset the volume decrease. As a percentage of net sales, cost of sales increased from 75.4% in 2002 to 76.5% in the same period in 2003.

Operating and delivery. Operating and delivery expenses decreased \$4.5 million, or 7.1%, from \$63.8 million for the six months ended June 30, 2002 to \$59.3 million for the six months ended June 30, 2003. Approximately \$3.6 million of the decrease in operating and delivery expenses was due to the sale of certain Plates and Shapes operations. Lower sales volumes from continuing operations account for the remainder of the decrease. As a percentage of net sales, operating and delivery expenses decreased from 12.9% in 2002 to 12.7% for the same period in 2003.

Selling, general and administrative. Selling, general and administrative expenses decreased \$4.8 million, or 9.8%, from \$48.9 million for the six months ended June 30, 2002 to \$44.1 million for the six months ended June 30, 2003. Approximately \$4.2 million of this decrease was due to the sale of certain Plates and Shapes operations described above. As a percentage of net sales, selling, general and administrative expenses decreased from 9.9% for the six months ended June 30, 2002 to 9.4% for the six months ended June 30, 2003.

Depreciation and amortization. Depreciation and amortization decreased \$4.2 million or 97.7%, from \$4.3 million for the six months ended June 30, 2002 to \$0.1 million for the six months ended June 30, 2003. This decrease was due to the

application of Fresh-Start Reporting that resulted in the reduction in carrying values of all property and equipment to zero as of October 31, 2002, the Effective Date, offset by depreciation and amortization expense on capital expenditures since the Effective Date.

Asset impairments. Asset impairment charges of \$3.5 million were recorded in the second quarter of 2002, such amount representing the difference between the estimated sales price and the carrying value of the divested assets. There were no asset impairment charges during the six months ended June 30, 2003.

Operating income. Operating income increased \$5.8 million, or 725.0%, from \$0.8 million for the six months ended June 30, 2002 to \$6.6 million for the six months ended June 30, 2003. The increase in operating income was primarily attributable to the sale of certain Plates and Shapes operations that generated an operating loss of \$1.9 million during the six months ended June 30, 2002 and the decrease in selling, general and administrative expenses and depreciation and amortization and asset impairments discussed above. As a percentage of net sales, operating income increased from 0.2% for the six months ended June 30, 2002 to 1.4% for the six months ended June 30, 2003.

Interest expense. Interest expense decreased \$7.1 million, or 68.3%, from \$10.4 million for the six months ended June 30, 2002 to \$3.3 million for the six months ended June 30, 2003. The decrease in interest expense was primarily due to decreased debt levels and lower interest rates.

Reorganization expenses. Reorganization expenses in the amount of \$9.1 million for the six months ended June 30, 2002 consisted of approximately \$7.0 million of professional and trustee fees associated with Chapter 11 Proceedings and \$2.1 million related to employee retention. The Company has not incurred any reorganization expenses since the emergence from bankruptcy on October 31, 2002.

Segment Results — Three Months Ended June 30, 2003 (Successor Company) Compared to June 30, 2002 (Predecessor Company)

	Net Sales	Operating Costs and Expenses	Operating Income (Loss)	Capital Spending	(1) Tons Shipped
2003 (Successor):					
Plates and Shapes	\$ 85.5	\$ 83.0	\$ 2.5	\$ 1.2	169
Flat Rolled	115.8	114.1	1.7	0.4	163
Building Products	45.4	40.7	4.7	0.3	
Corporate and other	(4.4)	(0.5)	(3.9)		(9)
Total	\$ 242.3	\$ 237.3	\$ 5.0	\$ 1.9	323
2002 (Predecessor):					
Plates and Shapes	\$ 89.3	\$ 87.2	\$ 2.1		156
Flat Rolled	122.4	119.2	3.2	0.2	202
Building Products	45.0	38.5	6.5	0.1	
Corporate and other	(7.5)	1.6	(9.1)		(14)
Total	\$ 249.2	\$ 246.5	\$ 2.7	\$ 0.3	344

(1) Shipments are expressed in thousands of tons and are not an appropriate measure for the Building Products Group.

Plates and Shapes. Net sales decreased \$3.8 million, or 4.3%, from \$89.3 million for the three months ended June 30, 2002 to \$85.5 million for the three months ended June 30, 2003. The decrease in net sales was principally due to the sale of certain Plates and Shapes operations that were accounted for under SFAS 121 during 2002. These operations generated sales of \$7.9 million in 2002 and none in 2003. Lower average realized prices of 11.6% were partially offset by an 8.3% increase in shipments. Operating costs and expenses decreased \$4.2 million, or 4.8%, from \$87.2 million for the three months ended June 30, 2002 to \$83.0 million for the three months ended June 30, 2003. The decrease due to the operations that were sold was \$9.0 million, partially offset by higher sales volumes and increased employee benefit costs. Operating

costs and expenses as a percentage of net sales decreased from 97.6% for the three months ended June 30, 2002 to 97.1% for the three months ended June 30, 2003, primarily due to a decrease in the cost of raw materials. Operating income increased by \$0.4 million, or 19.0%, from \$2.1 million for the three months ended June 30, 2002 to \$2.5 million for the three months ended June 30, 2003. This increase is primarily due to the sale of certain Plates and Shapes operations during 2002 which had an operating loss of \$1.1 million, offset by cost increases described above. Operating income as a percentage of net sales increased from 2.4% for the three months ended June 30, 2002 to 2.9% for the three months ended June 30, 2003.

Flat Rolled. Net sales decreased \$6.6 million, or 5.4%, from \$122.4 million for the three months ended June 30, 2002 to \$115.8 million for the three months ended June 30, 2003. This decrease is primarily due to a 19.3% decline in shipments somewhat offset by a 17.2% increase in average realized sales prices. Operating costs and expenses decreased \$5.1 million, or 4.3%, from \$119.2 million for the three months ended June 30, 2002 to \$114.1 million for the three months ended June 30, 2003. This decrease was primarily attributable to lower shipments offset by a 16.9% increase in average cost per ton. Operating costs and expenses as a percentage of net sales, increased from 97.4% for the three months ended June 30, 2002 to 98.5% for the three months ended June 30, 2003, primarily due to the lower sales volumes. Operating income decreased by \$1.5 million, or 46.9%, from \$3.2 million for the three months ended June 30, 2002 to \$1.7 million for the three months ended June 30, 2003. This decrease was attributable to lower shipments partially offset by a decrease in depreciation expenses as a result of the application of Fresh-Start Reporting discussed above during 2002. Operating income as a percentage of net sales decreased from 2.6% for the three months ended June 30, 2002 to 1.5% for the three months ended June 30, 2003.

Building Products. Net sales increased \$.4 million, or 0.9%, from \$45.0 million for the three months ended June 30, 2002 to \$45.4 million for the three months ended June 30, 2003. Operating costs and expenses increased \$2.2 million, or 5.7%, from \$38.5 million for the three months ended June 30, 2002 to \$40.7 million for the three months ended June 30, 2003. This increase was primarily due to higher cost of raw materials and increased insurance and employee benefit expenses. Operating costs and expenses as a percentage of net sales increased from 85.6% for the three months ended June 30, 2002 to 89.6% for the three months ended June 30, 2003. Operating income decreased by \$1.8 million, or 27.7%, from \$6.5 million for the three months ended June 30, 2002 to \$4.7 million for the three months ended June 30, 2003. This decrease was primarily due to higher cost of raw materials partially offset by lower depreciation expenses as a result of the application of Fresh-Start Reporting discussed above during 2002. Operating income as a percentage of net sales decreased from 14.4% for the three months ended June 30, 2002 to 10.4% for the three months ended June 30, 2003.

Corporate and other. This category reflects certain administrative costs and expenses management has not allocated to its industry segments as well as the asset impairment charges. These costs include compensation for executive officers, insurance, professional fees for audit, tax and legal services and data processing expenses. The negative net sales amount represents the elimination of intercompany sales. The operating loss decreased \$5.2 million, from \$9.1 million for the three months ended June 30, 2002 to \$3.9 million for the three months ended June 30, 2003. This decrease was primarily attributable to a decrease in the medical and property and casualty insurance costs, the majority of which have been allocated to the product groups in 2003. Additionally, the reduction in costs includes decreased depreciation and asset impairment expenses.

Segment Results — Six Months Ended June 30, 2003 (Successor Company) Compared to June 30, 2002 (Predecessor Company)

	Net Sales	Operating Costs and Expenses	Operating Income (Loss)	Capital Spending	(1) Tons Shipped
2003 (Successor):					
Plates and Shapes	\$ 167.9	\$ 163.2	\$ 4.7	\$ 2.8	318
Flat Rolled	232.0	228.3	3.7	0.6	328
Building Products	78.9	74.1	4.8	0.8	
Corporate and other	(10.2)	(3.6)	(6.6)		(19)
Total	\$ 468.6	\$ 462.0	\$ 6.6	\$ 4.2	627
2002 (Predecessor):					
Plates and Shapes	\$ 189.3	\$ 187.6	\$ 1.7	\$ 0.2	316
Flat Rolled	241.2	234.9	6.3	0.4	400
Building Products	77.5	70.7	6.8	0.5	
Corporate and other	(14.0)		(14.0)	0.1	(28)
Total	\$ 494.0	\$ 493.2	\$ 0.8	\$ 1.2	688

(1) Shipments are expressed in thousands of tons and are not an appropriate measure for the Building Products Group.

Plates and Shapes. Net sales decreased \$21.4 million, or 11.3%, from \$189.3 million for the six months ended June 30, 2002 to \$167.9 million for the six months ended June 30, 2003. The decrease in net sales was principally due to the sale of certain Plates and Shapes operations that were accounted for under SFAS 121 during 2002. These operations generated sales of \$25.5 million in 2002 and none in 2003. Excluding the operations that were sold, shipments increased by 2.2% and average realized sales prices increased by 0.2%. Operating costs and expenses decreased \$24.4 million, or 13.0%, from \$187.6 million for the six months ended June 30, 2002 to \$163.2 million for the six months ended June 30, 2003. The decrease due to the operations that were sold was \$27.4 million partially offset by higher cost of materials and, to a lesser extent, higher insurance and employee benefit costs. Operating costs and expenses as a percentage of net sales decreased from 99.1% for the six months ended June 30, 2002 to 97.2% for the six months ended June 30, 2003. Operating income increased by \$3.0 million, or 176.5%, from \$1.7 million for the six months ended June 30, 2002 to \$4.7 million for the six months ended June 30, 2003. This increase is primarily due to the sale of certain Plates and Shapes operations during 2002 which had an operating loss of \$1.9 million. Operating income as a percentage of net sales increased from 0.9% for the six months ended June 30, 2002 to 2.8% for the six months ended June 30, 2003.

Flat Rolled. Net sales decreased \$9.2 million, or 3.8%, from \$241.2 million for the six months ended June 30, 2002 to \$232.0 million for the six months ended June 30, 2003. This decrease is primarily due to a 18.0% decline in shipments somewhat offset by a 17.3% increase in average realized prices for the six months ended June 30, 2003 compared to the six months ended June 30, 2002. Operating costs and expenses decreased \$6.6 million, or 2.8%, from

\$234.9 million for the six months ended June 30, 2002 to \$228.3 million for the six months ended June 30, 2003. This decrease was attributable to lower shipments and a decrease in depreciation expenses as a result of the application of Fresh-Start Reporting discussed above during 2002. Operating costs and expenses as a percentage of net sales, increased from 97.4% for the six months ended June 30, 2002 to 98.4% for the six months ended June 30, 2003, primarily due to an 18.6%

increase in average cost per ton and higher insurance and employee benefit expenses. Operating income decreased by \$2.6 million, or 41.3%, from \$6.3 million for the six months ended June 30, 2002 to \$3.7 million for the six months ended June 30, 2003. This decrease was attributable to lower shipments partially offset by a decrease in depreciation expenses as a result of the application of Fresh-Start Reporting discussed above during 2002. Operating income as a percentage of net sales decreased from 2.6% for the six months ended June 30, 2002 to 1.6% for the six months ended June 30, 2003.

Building Products. Net sales increased \$1.4 million, or 1.8%, from \$77.5 million for the six months ended June 30, 2002 to \$78.9 million for the six months ended June 30, 2003. The increase in net sales was principally due to increased demand for these products. Operating costs and expenses increased \$3.4 million, or 4.8%, from \$70.7 million for the six months ended June 30, 2002 to \$74.1 million for the six months ended June 30, 2003. This was due to higher cost of raw materials and increased insurance and employee benefit expenses. Operating costs and expenses as a percentage of net sales increased from 91.2% for the six months ended June 30, 2002 to 93.9% for the six months ended June 30, 2003. Operating income decreased by \$2.0 million, or 29.4%, from \$6.8 million for the six months ended June 30, 2002 to \$4.8 million for the six months ended June 30, 2003. Operating income as a percentage of net sales decreased from 8.8% for the six months ended June 30, 2002 to 6.1% for the six months ended June 30, 2003.

Corporate and other. This category reflects certain administrative costs and expenses management has not allocated to its industry segments as well as asset impairment charges. These costs include compensation for executive officers, insurance, professional fees for audit, tax and legal services and data processing expenses. The negative net sales amount represents the elimination of intercompany sales. The operating loss decreased \$7.4 million, from \$14.0 million for the six months ended June 30, 2002 to \$6.6 million for the six months ended June 30, 2003. This decrease was primarily attributable to a decrease in the medical and property and casualty insurance costs, the majority of which have been allocated to the product groups in 2003. Additionally, the reduction in costs includes decreased depreciation and asset impairment expenses.

Liquidity and Capital Resources

The primary source of liquidity is our working capital. The two primary components of working capital are accounts receivable and inventory. We supplement working capital requirements as needed with borrowings under our Credit Facility. Generally, accounts receivable are collected within 45 to 60 days from invoice date and our inventory turns about four times per year. At June 30, 2003, we had available cash of \$9.8 million and working capital of \$269.3 million. Further, our debt as a percentage of total capitalization (debt plus stockholders equity) was 29.6% at June 30, 2003; which we believe places our Company in a competitive financial position with our peers. At December 31, 2002, we had available cash of \$6.3 million and working capital of \$313.5 million, including \$5.2 million of net assets related to the operations held for sale. Our borrowing availability at June 30, 2003 was \$112.7 million. Borrowing availability fluctuates daily with changes in eligible accounts receivables and inventory, less outstanding borrowings and letters of credit. At July 23, 2003, we had \$64.1 million drawn and an additional borrowing availability of \$112.8 million.

Net cash provided by operations was \$50.5 million for the six months ended June 30, 2003 and consisted of \$50.8 million provided by continuing operations, principally from the reduction in inventories, and \$0.3 million used by discontinued operations. With respect to the Predecessor Company, net cash provided by operations was \$4.3 million for the six months ended June 30, 2002 and consisted of \$4.9 million provided by continuing operations and \$0.6 million used by discontinued operations.

Net cash provided by investing activities was \$1.3 million for the six months ended June 30, 2003 and consisted of \$5.5 million from sales of assets, partially offset by purchases of assets of \$4.2 million. With respect to the Predecessor Company, net cash provided by investing activities was \$16.5 million for the six months ended June 30, 2002 and consisted of \$18.0 million from sales of assets, partially offset by purchases of assets of \$1.5 million.

Net cash used in financing activities was \$48.3 million for the six months ended June 30, 2003 and consisted of net repayments of borrowings on the credit facilities of \$45.9 million and other long-term debt of \$2.4 million. With respect to the Predecessor Company, net cash used by financing activities was \$66.2 million for the six months ended June 30, 2002 and consisted of net repayments of borrowings from credit facilities of \$62.4 million, net repayments on other long-term debt of \$1.2 million and \$2.6 million of debt issuance costs incurred on the debtor-in-possession credit facility (the "DIP Financing") put in place during the Chapter 11 Proceedings.

Financing Activities

On October 31, 2002, we executed our Credit Facility with a group of lenders. The Credit Facility has an initial term of three years with an option to extend the agreement by two one-year terms. The DIP Financing was retired with borrowings under the Credit Facility. The Credit Facility provides for a revolving credit facility providing up to \$200.0 million in borrowings and is secured by all of our receivables, inventories, and intangible property. Borrowings under the Credit Facility are limited to the lesser of a borrowing base, comprised of eligible receivables and inventories, or \$200.0 million in the aggregate. Our property and equipment are not pledged as security for the loan.

The Credit Facility matures on October 31, 2005, subject to extension and bears interest at the bank's base rate or LIBOR, at our option, plus an applicable margin based on a ratio of earnings before interest, taxes, depreciation and amortization ("EBITDA" as defined and adjusted) to certain cash payments (the "Fixed Charge Coverage Ratio"). The Fixed Charge Coverage Ratio is determined by dividing EBITDA by the sum of net capital expenditures, income taxes paid in cash, dividends, or other preference payments, interest expense paid in cash and scheduled principal reductions on debt. The applicable margin for base rate loans ranges from 0.00% to 0.50%, and LIBOR margin loans range from 2.00% to 3.00%. These marginal rates vary with our financial performance as measured by the Fixed Charge Coverage Ratio. A commitment fee is payable on any unused portion of the Credit Facility and varies between 0.250% and 0.375% per annum, based on the Fixed Charge Coverage Ratio. The base and LIBOR rates were 4.50% and 1.11% as of July 24, 2003.

The Credit Facility requires us to comply with various affirmative, negative and subjective covenants, the most significant of which are: (i) the maintenance of a borrowing base availability, or, if the required borrowing base availability is not maintained, the maintenance of the Fixed Charge Coverage Ratio, (ii) restrictions on additional indebtedness, (iii) restrictions on liens, guarantees and quarterly dividends, and (iv) obtaining the lenders' consent with respect to certain individual acquisitions. The Credit Facility allows for the payment of up to \$1.1 million of dividends in any fiscal quarter provided that borrowing base availability is greater than \$40.0 million. As long as our borrowing base availability is \$20.0 million or greater, we do not have to maintain a minimum Fixed Charge Coverage Ratio. Should the borrowing base availability fall below \$20.0 million, we must comply with a Fixed Charge Coverage Ratio of 1.0 to 1.0. We were in compliance with all covenants as of June 30, 2003 and July 24, 2003.

Investing Activities

During 2002, we announced planned divestitures of 11 business units that subsequently resulted in a significant downsizing of our Company. These divestitures were a part of our Reorganization Plan. These divestitures, along with previously announced divestitures, generated net proceeds of approximately \$90.0 million during 2002 and an additional \$5.4 million in 2003. These divestitures represented \$3.4 million and \$148.7 million of our revenues and \$0.1 million of operating loss and \$0.5 million of operating income for the six months ended June 30, 2003 and 2002, respectively.

During the first quarter of 2003, we elected to retain the remaining unsold operating unit that has been included in assets held for sale since April 2002. As a result, this operating unit has been returned to held for use status and the results of operations have been reclassified and included in results of continuing operations for all periods presented. No assets remain in the assets held for sale category subsequent to March 31, 2003.

Commitments and Contingencies

We were not engaged in off-balance sheet arrangements through any unconsolidated, limited purpose entities and no material guarantees of debt or other commitments to third parties existed at June 30, 2003. We enter into operating leases for many of our facility, vehicle and equipment needs. These leases allow us to conserve cash by paying a monthly lease rental fee for the use of rather than purchasing facilities, vehicles and equipment. At the end of the lease, we have no further obligation to the lessor.

The Company and its subsidiaries are involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. The Company believes the resolution of these matters and the incurrence of their related costs and expenses should not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

Industry Trends

The steel industry has declined substantially since the later part of 1999. During early 2002, prices for certain steel products in the U.S. had reached a 20-year low, and an estimated 32 steel producers had filed for bankruptcy protection over the last five years. Effective March 20, 2002, the U.S. government increased tariffs between 8% and 30% on most imported steel products. The purpose of these increases was to assist the financially troubled U.S. steel industry. These increased tariffs are intended primarily for the benefit of steel producers. We do not produce any steel; however, we generally benefit from rising steel prices. Subsequent to the implementation of the tariffs in 2002 steel prices increased.

The tariffs did not apply to a number of products sold by our Plates and Shapes Group. For example, the recommendations for protection of the domestic steel industry did not include any tariff protection for wide-flange beams, which is one of the principal products sold by our Plates and Shapes Group. Steel prices relating to products sold by our Plates and Shapes Group did not experience dramatic price increases as was seen in the flat rolled steel markets during 2002. On the contrary, the absence of a significant tariff impact plus the weakening domestic construction and fabrication industry has led to price erosion across most structural product lines.

Edgar Filing: METALS USA INC - Form 10-Q/A

During the later stages of the quarter ended December 31, 2002 and throughout the six months ended June 30, 2003, revenue-producing activities weakened as manufacturing and construction activity continued to slow. Our Flat Rolled and Plates and Shapes Groups have experienced weak demand for its products due to a

slowdown in the construction and manufacturing industries, moreover the war in Iraq added further uncertainty in the market as overall demand has continued to decline. The lower demand has weakened net margins for our Flat Rolled and Plates and Shapes Groups. We expect the trend of lower volumes which will continue to place pressure on margins in these segments throughout 2003. Our Building Products Group experienced its normal seasonal slowdown of construction during the winter months. We expect the Building Products Group sales to trend higher during the warmer months and continued strength in this market as long as interest rates remain low and the home improvement and building industries remain stable.

New Accounting Pronouncements

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146 (SFAS 146), *Accounting for Costs Associated with Exit or Disposal Activities*. SFAS 146 replaces Emerging Issues Task Force Issue 94-3, *Liability Recognition of Certain Employee Termination Benefits and Other Costs to Exit an Activity*. This standard requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. This statement is effective for exit or disposal activities that are initiated after December 31, 2002. However, we were required to adopt upon emergence from bankruptcy the application of Fresh-Start Reporting as specified by SOP 90-7. We do not believe that the adoption of SFAS 146 will have a significant impact on our financial statements.

In December 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 148 (SFAS 148), *Accounting for Stock-Based Compensation-Transition and Disclosure*. SFAS 148 amends SFAS 123 to provide alternate methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require prominent disclosures in both quarterly and interim financial statements about the effects of stock-based compensation on reported results. The provisions of SFAS 148 are effective for years ending after December 15, 2002. The adoption of SFAS 148 did not have any impact on our results of operations or financial position in 2003.

The Emerging Issues Task Force (EITF) has proposed Issue No. 00-21, Revenue Arrangements with Multiple Deliverables, which would require bifurcation of activities or deliverables in multiple revenue-generating arrangements. The Company does not have any arrangements that fall within the current scope of this issue; and therefore, the Company believes that this issue as currently contemplated will not have an impact on its financial position or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk for changes in interest rates relate primarily to our Credit Facility. The outstanding balance of \$64.1 million as of July 23, 2003 is subject to interest rate risks. A hypothetical 1% increase in interest rates would increase our interest expense by \$0.6 million per annum.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On November 14, 2001, we voluntarily filed for relief under Chapter 11 of the U.S. Bankruptcy Code. The petitions were filed in Bankruptcy Court for the Southern District of Texas, Case No. 01-42530-H4-11 through 01-42573-H4-11. We continued to operate our business as debtors-in-possession under Sections 1107 and 1108 of the Bankruptcy Code until October 31, 2002, when we substantially completed the required transactions to effect the Reorganization Plan that had previously been confirmed by the Bankruptcy Court on October 18, 2002. Under the provisions of the U.S. Bankruptcy Code, all secured and unsecured creditors were required to submit proofs of claim. We believe that all claim liabilities have been properly recorded in the unaudited consolidated financial statements included herein.

We are involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. We believe the resolution of these matters and the incurrence of their related costs and expenses should not have a material adverse effect on our consolidated financial position, results of operations or liquidity. For additional information on our bankruptcy proceedings see Management's Discussion and Analysis of Financial Condition and Results of Operations Chapter 11 Proceedings.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was carried out under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, as of the end of the period covered by this report, the CEO and CFO have concluded that our disclosure controls and procedures are effective to ensure that the information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

We maintain a system of internal accounting controls that are designed to provide reasonable assurance that our books and records accurately reflect the transactions of the Company and that our policies and procedures are followed. There have been no significant changes in our internal controls or in other factors that could significantly affect such controls since the most recent evaluation of these controls, including any corrective actions with regard to significant deficiencies or material weaknesses in our internal controls.

ITEM 5. OTHER INFORMATION

Effective June 16, 2003, Mr. Robert J. McCluskey was named President of the Flat Rolled Group and a Senior Vice President of the Company. Mr. McCluskey has served as Senior Vice President of Finance for the Flat Rolled Group since 2000. Additionally, Mr. McCluskey served in various financial and management positions within the Company since it was founded in 1997.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

a. Exhibits:

Exhibit Number	Description
4.5(a)	Amendment to Registration Rights Agreement, dated as of April 3, 2003, between the Company and the initial holders, incorporated herein by reference to Exhibit 4.5(a) to the Company's registration statement on Form 8-A (File No. 1-13123), filed with the Commission on May 1, 2003.
21*	List of Subsidiaries of the Company.
31.1	Certification of the Chief Executive Officer, dated August 14, 2003, pursuant to Rule 13a-14(a) or 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of the Chief Financial Officer, dated August 14, 2003, pursuant to Rule 13a-14(a) or 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of the Chief Executive Officer, dated August 14, 2003, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of the Chief Financial Officer, dated August 14, 2003, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

* Previously Filed.

b. Reports on Form 8-K:

April 11, 2003 Other Events Craig R. Doveala resigned as Senior Vice President and President of the Flat Rolled Group.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized, who has signed this report on behalf of the Registrant and as the principal accounting officer of the Registrant.
