Item 8.01 Other Events

On August 23, 2004, Medarex announced that it had reached a Special Protocol Assessment (SPA) agreement with the U.S. Food and Drug Administration (FDA) for the initiation of a pivotal Phase III clinical trial for MDX-010 in combination with MDX-1379, a gp100 melanoma peptide vaccine, in patients with late stage unresectable metastatic melanoma who have failed or are intolerant to first line therapy. Medarex has in-licensed the MDX-1379 vaccine peptides from the National Cancer Institute (NCI). The SPA letter provides a written agreement between Medarex and the FDA concerning the trial design and outlines definitive clinical objectives and data analyses considered necessary to support regulatory approval. A copy of the Company's press release dated August 23, 2004, relating to the SPA is attached hereto as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.
