**Item 8.01 Other Events.**

As previously stated in our 2004 and 2005 filings to the Securities and Exchange Commission on Forms 10-Q and 10-K, in France, a downturn in demand for some of our tobacco-related products has resulted from a decrease in consumption of cigarettes in certain countries as a result of increased consumer taxes and regulations on the cigarette industry as well as new tobacco-related papers manufacturing capacity added by competitors that began operation in Europe in 2003 and 2004. The reduced demand for our products has caused us to have continuing excess capacity and increased machine downtime. We are currently evaluating how to operate our production facilities in France more effectively. Although analysis is ongoing, no decisions have been made and we have not committed to any plan, it now appears more likely that changes could occur that could require additional write-offs or accelerated depreciation of some production equipment and could also include possible restructuring charges.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
