-

Item 1.01 Entry into a Material Definitive Agreement.

On November 16, 2006, Tenet Healthcare Corporation entered into a Second Amended and Restated Information Technology and Management Agreement with Perot Systems Corporation that expands, extends and strengthens the information technology support and management services that Perot Systems has provided for Tenet and its hospitals since 1990. The new agreement is effective as of November 16, 2006 and terminates on November 15, 2016, unless earlier terminated or extended pursuant to its terms. Aggregate fees under the agreement are expected to be approximately \$1.1 billion over the ten-year term of the contract.

Under the agreement, the information systems departments at the 41 Tenet hospitals that are not already managed by Perot Systems will now be transferred to that company. It is anticipated that approximately 400 affected Tenet employees will be given the opportunity to continue their employment with Perot Systems, with comparable salaries and benefits.

The new agreement also restructures Tenet's previous agreement with Perot Systems to better fit the smaller size of Tenet following its divestiture of more than 50 hospitals over the past four years. In addition, the agreement provides for the global outsourcing of certain information technology support functions.

Tenet will file a copy of the Second Amended and Restated Information Technology and Management Agreement with its Annual Report on Form 10-K for the year ending December 31, 2006.
