WESTERN SIZZLIN CORPORATION

Notes to Consolidated Financial Statements

Six Months Ended June 30, 2007 and 2006
(Unaudited)

(1) General

The accompanying unaudited consolidated financial statements of Western Sizzlin Corporation, (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all material reclassifications and adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown have been included. The unaudited consolidated financial statements and notes are presented as permitted by Form 10-Q and do not contain certain information included in the Company's annual consolidated financial statements and notes. For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

(2) Stock Options

The Company has three stock option plans: the 2005 Stock Option Plan, the 2004 Non-Employee Directors' Stock Option Plan, and the 1994 Incentive and Non-qualified Stock Option Plan. The 1994 Plan has expired for purposes of granting options and only 7,500 options granted to James C. Verney remain outstanding under that plan. Under the 2005 and 2004 Plans, employees and directors may be granted options to purchase shares of common stock at the fair market value on the date of the grant. During the six months ended June 30, 2007, under the provisions of the plans, the contract terms of stock options for resigning directors were reduced and have been reflected in the computations of the weighted average contractual term of the outstanding options. In February 2007, Mr. Biglari informed the Board that he did not wish to receive future grants of stock options and that he relinquished all stock options previously granted to him. Since these modifications did not increase the value of the awards, the modification had no impact on compensation expense.

Effective January 1, 2006, the Company began recording compensation expense associated with the stock options in accordance with Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment as interpreted by SEC Staff Accounting Bulletin No. 107. The Company adopted the modified prospective transition method provided for under SFAS No. 123R.

The Company recorded \$0 and \$5,920 compensation expense for stock options for the three and six months ended June 30, 2007, respectively.

Options granted under the 2005 and 2004 Plans vest at the date of the grant, with the exception of options granted to James C. Verney, which vested according to a schedule in his Employment Agreement and are currently all vested. The fair value of each option award was estimated on the date of grant using the Black-Scholes option-pricing model. Assumptions utilized in the model were evaluated and revised, as necessary, to reflect market conditions and experience. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of the grant. Expected volatilities are based on the historical volatility of the Company's stock for a period equal to the expected term of the options. The expected term of the options represents the period of time that options granted are outstanding and is estimated using historical exercise and termination experience.

The fair values of options granted during the six months ended June 30, 2007 and 2006 were estimated on the date of grant using the Black-Scholes option pricing model based on the following weighted average assumptions in the table below:

	Six Months Ended June 30, 2007 2006	
Expected term (years)	5	5
Risk-free interest rate	4.50 %	5.08 %
Volatility	78.83 %	84.03 %
Dividend yield		

There were -0- and 1,000 stock options granted during the three and six month periods ended June 30, 2007, respectively, all at an estimated fair value of \$5.92. There were 5,000 and 6,000 stock options granted during the three and six month periods ended June 30, 2006, respectively, which had an estimated fair value at the date of grant of \$5.10 for the 1,000 granted during the second quarter of 2006 and \$6.80 for the 5,000 stock options granted during the first quarter of 2006.

The following table summarizes stock options outstanding as of June 30, 2007, as well as activity during the six month period then ended:

	Options Outstanding	Exercise Price Per Share Weighted Average	Contractual Term Weighted Average	Aggregate Intrinsic Value
Balance, December 31, 2006	58,000	\$ 9.00		
Granted	1,000	9.15		
Exercised	(10,000)	8.53		
Expired/Forfeited	(13,000)	8.75		
Balance, June 30, 2007	36,000	\$ 8.42	6.35	\$ 262,555

All options outstanding at June 30, 2007 are exercisable. At June 30, 2007, there were 36,000 shares available for future grants under the plans, however, on April 25, 2007, the Company's Board of Directors elected to suspend future grants under all plans indefinitely.

(3) Investments in Marketable Securities

The Company purchased a significant percentage of common stock of Friendly Ice Cream Corporation and smaller amounts of other securities. All investments and other capital allocation decisions are made by Mr. Biglari, the Company's Chairman, under limited authority delegated by the Board of Directors. The delegated authority includes the authority to borrow funds in connection with making investments in marketable securities or derivative securities, subject to Board reporting requirements and various limitations. As of the date of this filing, Mr. Biglari has authority to manage surplus cash up to \$10 million, and in addition, has authority to borrow a maximum of \$5 million. The Company has a margin securities account with Jefferies & Company, Inc. (Jefferies). The margin account bears interest at the Federal Funds Target Rate quoted by the Wall Street Journal, plus .5%, or approximately 5.75% as of the date of this report, with the minimum and maximum amount of any particular loan to be determined by Jefferies, in its discretion, from time to time. The collateral securing the margin loans are the Company's holdings in the marketable security. The minimum and maximum amount of any particular margin may be established by Jefferies, in its discretion, regardless of the amount of collateral delivered to Jefferies, and Jefferies may change such minimum and maximum amounts from time to time. The Company's balance of margin debt was \$0 as of June 30, 2007. As of June 30, 2007, the Company had \$9,882 held by a broker in a margin account. The Company intends to invest these funds in additional marketable equity securities.

The Company's investments in marketable equity securities are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income. Investments in derivative securities are classified as trading securities, with both realized and unrealized gains and losses on those derivative instruments included in the statement of income. The Company realized a gain of \$4,613 during the six months ended June 30, 2007 from expired put options previously written by the Company.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

Following is a summary of marketable equity securities as of June 30, 2007 and December 31, 2006:

	June 30, 2007		
	Cost	Fair Value	Gross Unrealized Gains
Friendly Ice Cream Corp	\$ 4,539,726	\$ 8,054,781	\$ 3,515,055
Other Investments	833,218	883,652	50,434
	\$ 5,372,944	\$ 8,938,433	\$ 3,565,489

	December 31, 2006		
	Cost	Fair Value	Gross Unrealized Gains
Friendly Ice Cream Corp	\$ 4,543,768	\$ 6,508,645	\$ 1,964,877

On June 17, 2007, Friendly Ice Cream Corp entered into a definitive merger agreement that upon closing, Friendly Ice Cream Corp would result in Friendly being privately held. For each share publicly held, Friendly shareholders would have the right to receive \$15.50 in cash. The agreement is subject to Friendly shareholder approval. Upon adoption by the shareholders of Friendly, the Company would realize gains on this investment. The Company entered into a written agreement in June 2007 with Friendly to vote in favor of the sale. The Company also sold a portion of its common stock in Friendly s during July 2007 with realized gains of approximately \$786,000.

(4) Goodwill and Other Intangible Assets

The Company conforms to the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. Under SFAS No. 142, goodwill and intangible assets deemed to have indefinite lives are reviewed for impairment and written down and charged to results of operations when their carrying amount exceeds their estimated fair value. The Company is required to perform impairment tests each year, or between yearly tests in certain circumstances, for goodwill. There can be no assurance that future impairment tests will not result in a charge to earnings.

There were no changes in the net carrying amount of goodwill for the three and six month periods ended June 30, 2007 and 2006.

Amortizing Intangible Assets

Franchise royalty contracts are amortized on a straight-line basis over fifteen years, the estimated average life of the franchise agreements. The Company assesses the recoverability of this intangible asset by determining whether the amortization of the franchise royalty contracts balance over their remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows using a discount rate reflecting the Company s average cost of funds.

	As of June 30, 2007 Gross carrying amount	Weighted average amortization period	Accumulated amortization
Amortizing intangible assets:			
Franchise Royalty Contracts	\$ 9,454,431	15.0 yrs.	\$ 8,508,988

Aggregate amortization expense for amortizing intangible assets for the three and six month periods ended June 30, 2007 was \$157,574 and \$315,148, respectively. Estimated amortization expense is \$630,300 per year through December 31, 2008.

(5) Income Taxes

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No.109 (FIN 48), on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized a liability for uncertain tax positions in the amount of \$118,375, including interest of \$25,595, which was accounted for as an adjustment to the beginning balance of retained earnings. As of June 30, 2007, the Company has a recorded liability of \$134,536, including interest of \$30,784, for such uncertain tax

positions.

9

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. For the three and six month periods ended June 30, 2007, the Company recognized approximately \$1,930 and \$5,189, respectively, of accrued interest associated with uncertain tax positions.

The Company anticipates that the accrued liability for uncertain tax positions will significantly decrease in the next twelve months as the Company files tax returns and remits any taxes due. As of June 30, 2007, the earliest tax year open to examination by a major taxing jurisdiction is 2003.

(6) Earnings Per Share

Basic earnings per share excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. Stock options for 1,000 shares of common stock were not included in computing diluted earnings for the three and six months ended June 30, 2006 because the effects of these options were anti-dilutive.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the periods indicated:

		Income (Numerator)	Weighted Average Shares (Denominator)	Earnings Per Share Amount
Three months ended June 30, 2007				
Net income	basic	\$ 232,163	1,792,574	\$.13
Net income	diluted	\$ 232,163	1,801,502	\$.13
Three months ended June 30, 2006				
Net income	basic	\$ 143,106	1,188,967	\$.12
Net income	diluted	\$ 143,106	1,194,066	\$.12
Six months ended June 30, 2007				
Net income	basic	\$ 382,120	1,790,319	\$.21
Net income	diluted	\$ 382,120	1,796,855	\$.21
Six months ended June, 2006				
Net income	basic	\$ 149,404	1,188,967	\$.13
Net income	diluted	\$ 149,404	1,197,841	\$.12

On July 9, 2007, the Company filed a registration statement on Form S-3 with the SEC in preparation of conducting a rights offering to its stockholders. The Company is seeking registration of 897,375 shares of its common stock and 1,794,750 rights to purchase these shares. The registration statement is not yet effective and the offering has not commenced.

(7) Reportable Segments

The Company has organized segment reporting to reflect how the Company views its business activities. During the third quarter of 2006, the Company identified operating segments based on separate financial information that is evaluated regularly in deciding how to allocate resources and in assessing performance. As a result, certain reclassifications have been made to the accompanying 2006 information to conform to the 2007 information. The Company-operated Restaurant segment consists of the operations of all Company-operated restaurants and derives its revenues from restaurant operations. This segment also includes net costs incurred from subleases of previously operated locations, which is presented separately. The Franchising segment consists primarily of franchise sales and support activities and derives its revenues from sales of franchise and development rights and collection of royalties from franchisees. The Company incurs certain costs which include expenses of the following functions: legal, accounting, stockholder relations, personnel not directly related to a segment, information systems and other

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

headquarter activities. These expenses are designated as corporate expenses.

The following table summarizes reportable segment information:

	Three Months Ended June 30, 2007		Six Months Ended June 30, 2006	
Revenues from reportable segments:				
Restaurants	\$ 3,542,157	\$ 3,579,938	\$ 6,590,457	\$ 6,577,611
Franchising	1,148,414	1,136,787	2,229,804	2,284,764
Total revenues	\$ 4,690,571	\$ 4,716,725	\$ 8,820,261	\$ 8,862,375
Depreciation and amortization:				
Restaurants	\$ 100,304	\$ 96,409	\$ 200,799	\$ 187,144
Franchising	165,370	167,531	330,809	336,837
Total depreciation and amortization	\$ 265,674	\$ 263,940	\$ 531,608	\$ 523,981
Interest Expense:				
Restaurants	\$ 19,727	\$ 32,247	\$ 40,051	\$ 78,278

Investments in marketable securities	8,938,433	6,508,645
Total assets	\$ 22,312,658	\$ 19,819,954

(8) Contingencies

In the case of all known contingencies, the Company accrues for an obligation, including estimated legal costs, when a loss is probable and the amount is reasonably estimable. As facts concerning contingencies become known to the Company, the Company reassesses its position with respect to accrued liabilities and other expenses. These estimates are subject to change as events evolve and as additional information becomes available during the litigation process.

Little Rock, Arkansas Lease

In September 2006, the Company was served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLLP, et al. v. Western Sizzlin Corporation, et al.* The plaintiffs are owners/landlords of four restaurant premises located in the Little Rock, Arkansas metropolitan area which had been leased pursuant to a single lease agreement and previously occupied by the Company. Each of these premises had been subleased to various operators. The lease agreement expired pursuant to its terms on June 30, 2006. The plaintiffs have claimed in their lawsuit unspecified damages allegedly owing for certain repair and maintenance expenses on the premises, for the replacement of certain equipment, for diminution of property value, and for loss of rental income, as well as interest and costs. At this time the likelihood of an unfavorable court outcome, or any potential loss, cannot be made with certainty. However, the Company is prepared to vigorously contest the plaintiff's claims and will pursue applicable cross claims and counterclaims. The case is presently set for trial in February 2008 in Little Rock, Arkansas.

FFCA

FFCA Acquisition Corporation, an entity related to Franchise Finance Corporation of America, now known as General Electric Franchise Finance Corporation (FFCA) is or was the owner of 43 former Quincy's restaurant locations (Former Quincy's Units). Western Sizzlin Stores of Virginia, Inc. (WSSVA), a wholly-owned subsidiary of Western Sizzlin Corporation, executed certain Master Leases (the Leases) dated as of January 1, 2001, covering the Former Quincy's Units. However, pursuant to Paragraph 47 of the Leases, the Leases never became effective as FFCA did not execute and/or deliver the Leases.

In 2001 and 2002, several Former Quincy's Units were properly turned back to FFCA. Certain franchisees who continued to operate Former Quincy's Units owned by FFCA remitted all rental payments directly to FFCA, and FFCA accepted these payments. Based on these developments, and the lack of any binding Master Lease Agreement with FFCA, on May 15, 2003, the Company sent a letter to the Lessor, providing notice of the Company's termination of any tenancies at-will on any remaining Former Quincy's units effective May 31, 2003. In accordance with the Company's position, the Company has returned to FFCA every invoice for rent expense, or tax statement, received after May 15, 2003, with a cover letter explaining that the Company is not responsible for any such amounts. FFCA has not disputed the Company's position.

Other

The Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of the management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

(9) Investment in Unconsolidated Joint Venture

The Company is a partner in a 50/50 joint venture with a franchisee for a new restaurant in Harrisonburg, Virginia. During October 2005, the joint venture entered into a loan agreement and the Company guaranteed 50% of the loan obligation. The estimated fair value of the guarantee of approximately \$30,000 is recorded in other long-term liabilities and in investments in unconsolidated joint venture on the accompanying consolidated balance sheet at June 30, 2007. The term of the guarantee extends through July 1, 2026 and the Company would be required to perform under the guarantee should the joint venture not be able to meet its scheduled principal and interest payments. Pursuant to the joint venture agreement, a cash contribution of \$300,000 from each 50/50 partner was also made at the closing of this financing. The Company is accounting for the investment using the equity method and the Company's share of the net income (loss) of the joint venture of \$51,973 and \$65,675 for the three and six month periods ended June 30, 2007 and (\$34,194) and (\$38,228) for the three and six months ended June 30, 2006, is included in equity in joint venture. At June 30, 2007, the Company has a receivable due from the joint venture of \$94,418 for start-up costs paid by the Company on behalf of the joint venture. The balance due from the joint venture was \$139,418 at December 31, 2006. The restaurant opened for business on December 14, 2006.

Financial Data

The following is selected financial information for the joint venture at June 30, 2007:

	Three Months Ended June 30, 2007 (unaudited)	Six Months Ended June 30, 2007 (unaudited)
Statement of Operations Data:		
Total revenues	\$ 1,257,868	\$ 2,586,993
Cost of food	530,927	1,126,420
Payroll expense	372,578	793,397
Marketing and smallware expense	9,067	17,554

Total assets		4,088,978
Loan payable		3,226,761
Accounts payable and accrued expenses		267,172
Members' equity		366,308

(10) Impact of Recently Issued Accounting Standards

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. The requirements of FIN 48 were adopted during the first quarter of 2007. Refer to Note 5 for further discussion.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. The Company has not yet determined the impact, if any, that the implementation of SFAS No. 157 will have on our results of operations or financial condition.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*, (SFAS 159), which is effective January 1, 2008. This Standard permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, with is consistent with the Board's long-term measurement objectives for accounting for financial instruments. The Company is currently evaluating the effect, if any, that the adoption of SFAS 159 will have on our consolidated financial statements on the adoption date of January 1, 2008.

In March 2006, the FASB Emerging Issues Task Force issued Issue 06-3 (EITF 06-3), *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement*. This standard requires that a company disclose its accounting policy (i.e., gross or net presentation) regarding presentation of taxes within the scope of EITF 06-3. If taxes are significant and reported on a gross basis, a

company should disclose the amount of such taxes for each period for which an income statement is presented. The guidance is effective for the Company beginning January 1, 2007. The Company presents revenues net of sales taxes in its consolidated statements of income.

(11) Recent Developments and Subsequent Events

On June 17, 2007, Friendly Ice Cream Corp entered into a definitive merger agreement that upon closing, Friendly Ice Cream Corp would result in Friendly being privately held. For each share publicly held, Friendly shareholders would have the right to receive \$15.50 in cash. The agreement is subject to Friendly shareholder approval. If adopted by the shareholders of Friendly, the Company would then dispose of its investment and realize gains. The Company entered into a written agreement in June 2007 with Friendly to vote in favor of the sale. The Company also sold a portion of its common stock in Friendly during July 2007 with realized gains of approximately \$786,000.

On July 9, 2007, the Company filed a registration statement on Form S-3 with the SEC in preparation of conducting a rights offering to its stockholders. The Company is seeking registration of 897,375 shares of its common stock and 1,794,750 rights to purchase these shares. The registration statement is not yet effective and the offering has not commenced.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion may include forward-looking statements including anticipated financial performance, business prospects, the future opening of Company-operated and franchised restaurants, anticipated capital expenditures, and other matters. All statements other than statements of historical fact are forward-looking statements. Section 27A of the Securities Act of 1933 (as amended) and Section 21E of the Securities Exchange Act of 1934 (as amended) provide safe harbors for forward-looking statements. In order to comply with the terms of these safe harbors, the Company notes that a variety of factors, individually or in the aggregate, could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forward-looking statements including, without limitation, the following: the ability of the Company or its franchises to obtain suitable locations for restaurant development; consumer spending trends and habits; competition in the restaurant segment with respect to price, service, location, food quality and personnel resources; weather conditions in the Company's operating regions; laws and government regulations; general business and economic conditions; availability of capital; success of operating initiatives and marketing and promotional efforts; and changes in accounting policies. In addition, the Company disclaims any intent or obligation to update those forward-looking statements.

Effective January 1, 2007, the Company restructured the operations into a holding company/subsidiary format whereby all operations are now conducted through wholly-owned subsidiaries. This restructuring is not anticipated to have any tax impact and will have no impact on the financial reporting as the Company will continue to report consolidated financial statements.

In April 2007 the Company formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary to serve as the general partner of Western Acquisitions, L.P., a Delaware limited partnership that will operate as a private investment fund. Through Western Investments, Mr. Biglari will operate as the portfolio advisor to the fund. At this time, Western Investments does not intend to, but it may in the future, register with the SEC as an investment adviser pursuant to the Investment Advisers Act of 1940, as amended. Separately, it may be required to register as an investment adviser with the regulatory authorities in one or more states.

Western Investments' role as the general partner carries with it the obligation to manage the operations of the fund, and in this regard it will be assisted by a professional fund administrator. Furthermore, Western Investments will agree to reimburse certain investors for the first 30% of any loss that they may suffer as a result of an investment in the fund, a commitment which carries significant risk. See Risk Factors on page 24.

For serving as the fund's general partner, Western Investments will receive a monthly management fee equal to one-twelfth of 1% of the value of the capital account of each limited partner. It will also receive an annual incentive allocation equal to 20% of the portion of each limited partner's pro rata share of the fund's net profits for each fiscal

year in excess of net losses allocated to each limited partner and carried forward from prior years. The fund has made no investments as of the date of this prospectus. Other investors in the fund will be accredited investors under SEC rules, though the fund has no investors as of the date of this prospectus.

The Company intends to be a minority investor in the fund, and in exchange for the Company's limited partnership interest it intends to contribute cash and certain of the Company's marketable securities. The fund intends to invest primarily in equity securities of U.S. publicly traded companies. This may include investments both in the restaurant industry, in an effort to leverage familiarity with the restaurant business, as was the case with the Company's investment in Friendly's, and also investments outside the restaurant business. The fund may seek either controlling positions or minority positions.

While the Company has historically been principally engaged, and intends at this time to remain principally engaged, in franchising and operating restaurants, the recent investment activities could bring the Company within the definition of an investment company and require the Company to register as an investment company under the Investment Company Act of 1940. The Company's Board of Directors had adopted a policy requiring management to restrict the Company's operations and investment activities to avoid becoming an investment company, until and unless the Board approves otherwise. Although the Company does not presently intend to change its principal business, and the Board has not approved any such change, the Company has expanded its investment activities, and may decide in the future to register as an investment company under the Investment Company Act. Under certain circumstances, if the Company is successful in investment activities, then the Company may inadvertently fall within the definition of an investment company, in which event it may be required to register as an investment company. If the Company decides or is required to register as an investment company, then the Company would become subject to various provisions of the Investment Company Act and the regulations adopted under such Act, which are very extensive and could adversely affect the Company's operations.

On June 17, 2007, the Company along with The Lion Fund, L.P., Biglari Capital Corp., Sardar Biglari and Philip L. Cooley, entered into a Stockholders Agreement with an affiliate of Sun Capital Corp., pursuant to which the Company agreed to vote the Company's shares of Friendly Ice Cream Corporation in favor of a merger agreement that will result in the acquisition of Friendly by an affiliate of Sun for \$15.50 per share in cash subject to stockholder approval and other conditions. The Stockholders Agreement was filed with the SEC as an exhibit to our Schedule 13D (as amended).

The Company operated and franchised a total of 125 restaurants located in 19 states, including 5 Company-owned, 119 franchise restaurants and one joint venture as of June 30, 2007. The restaurants include a family steakhouse concept and a buffet concept.

The Company's objective is to maximize its intrinsic business value per share over the long term. In meeting this objective, the Company will evaluate all investment alternatives to achieve above-average returns on capital. The Company will continue to franchise restaurants and maximize operating results of the five Company-operated restaurants.

The Company seeks to invest in stocks of businesses at prices below their intrinsic business value. The Company's preferred strategy is to allocate a meaningful amount of capital in each investee, resulting in concentration. The carrying values of the Company's equity securities are exposed to market price fluctuations, which may be accentuated by a concentrated equity portfolio. A significant decline in the price of major investments may produce a large decrease in the Company's stockholder's equity (See Note 3). Investment and all other capital allocation decisions are made for the Company by Mr. Biglari.

Results of Operations

Net income for the three and six months ended June 30, 2007 was \$232,163 and \$382,120 compared to net income of \$143,106 and \$149,404 for the three and six months ended June 30, 2006.

The following table sets forth for the periods presented the percentage relationship to total revenues of certain items included in the consolidated statements of income and certain restaurant data for the periods presented:

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

	Three Months Ended June 30, 2007		Six Months Ended June 30, 2006

Revenues

Total revenues decreased 0.6% to \$4.69 million for the three months ended June 30, 2007 from \$4.72 million for the comparable three months ended June 30, 2006. Total revenues decreased 0.5% to \$8.82 million for the six months ended June 30, 2007 from \$8.86 million for the comparable six months ended June 30, 2006. Company-operated restaurant revenues decreased 1.06% to \$3.54 million for the three months ended June 30, 2007 as compared to \$3.58 million for the comparable three months ended June 30, 2006. Company-operated restaurant revenues increased 0.20% to \$6.59 million for the six months ended June 30, 2007 as compared to \$6.58 million for the comparable six months ended June 30, 2006. The slight increase for the six months ended June 30, 2007 is largely attributable to the temporary closing for 21 days of a Company-operated location for remodeling during 2006, which resulted in lost revenues of approximately \$183,000 in the first six months of 2006. Same store sales at Company-operated restaurants for the three and six months ended June 30, 2007, experienced an overall decrease of 1.1% and an increase of 0.2%, respectively. Franchise revenues increased 1.02% to \$1.15 million for the three months ended June 30, 2007 as compared to \$1.14 million for the comparable three months ended June 30, 2006. Franchise revenues decreased 2.41% to \$2.23 million for the six months ended June 30, 2007 as compared to \$2.28 million for the comparable six months ended June 30, 2006. The slight increase during the three months ended June 30, 2007 is attributable to increased franchise transfer fees in 2007 of \$20,000. The overall decrease in franchise revenues for the six months ended June 30, 2007 is attributable to fewer franchised units in the system at June 30, 2007 as compared to June 30, 2006. Same store sales at franchise operations for the three and six months ended June 30, 2007, experienced an overall increase of 0.4% and decrease of 0.6%, respectively.

Costs and Expenses

Cost of Company-operated restaurants, consisting primarily of food, beverage, and labor costs increased \$10,490 (4.3%) to \$2.46 million for the three months ended June 30, 2007 from \$2.45 million for the three months ended June 30, 2006. These costs for the three month period as a percentage of Company-operated restaurants revenue were 69.5% and 68.4% for the three months ended June 30, 2007 and 2006, respectively. Cost of Company-operated restaurants decreased \$27,000 (0.6%) to \$4.71 million for the six months ended June 30, 2007 from \$4.73 million for the six months ended June 30, 2006. These costs for the six month period as a percentage of Company-operated restaurants revenue were 71.4% and 71.9% for the six months ended June 30, 2007 and 2006, respectively. The decrease in the costs for the six months ended June 30, 2007 was largely attributable to the temporary closing of a Company-operated location during the first quarter of 2006 for remodel. These costs overall have increased due to the rising costs of commodities.

Restaurant occupancy and other, which include utilities, insurance, maintenance, rent and other such costs of the Company-operated restaurants, decreased by \$11,000 (1.8%) for the three months ended June 30, 2007 versus the prior year's comparable period. These costs for the three month period decreased as a percentage of Company-operated restaurant revenues from 16.8% in 2006 to 16.3% in 2007. Restaurant occupancy and other increased by \$6,000 (0.6%) for the six months ended June 30, 2007 versus the prior year's comparable period. These costs for the six month period were comparable as a percentage of Company-operated restaurant revenues of 17.9% in 2006 and 17.9% in 2007.

Subleased properties include net costs associated with subleasing former Company operations and maintenance of vacant premises. These expenses decreased by \$142,000 and \$68,000 for the three and six months ended June 30, 2007 versus the prior years' comparable periods. The decreases were largely attributable to termination of certain leased property arrangements during 2006.

Cost of franchise operations direct support expense decreased by \$31,000 and \$107,000 for the three and six months ended June 30, 2007 versus the prior years' comparable periods. The decreases were largely attributable to personnel reductions and targeted expense reductions during the third and fourth quarters of 2006.

Corporate expenses consist of certain expenses not directly associated with any business segment. These expenses include legal, accounting, stockholder relations, personnel not directly related to a segment, information systems, and other headquarter's activities. These expenses increased by \$70,000 for the three months ended June 30, 2007 and decreased \$41,000 for the six months ended June 30, 2007 versus the prior years' comparable periods. Overall, these expenses have decreased for 2007 due to personnel reductions and targeted expense reductions during the third and fourth quarters of 2006, but was offset by an increase in legal expenses associated with the Friendly Ice Cream

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

Corp investment beginning in the third quarter of 2006. Legal expenses related to the investment in Friendly Ice Cream Corp were \$65,000 and \$107,000 for the three and six month periods ended June 30, 2007, respectively.

Depreciation and amortization expense increased by \$2,000 and \$8,000 for the three and six months ended June 30, 2007 versus the prior years comparable periods. The increases were attributable to an increase in capital expenditures placed in service due to remodels of two Company-operated locations during 2006.

Other Income (Expense)

Interest expense decreased \$13,000 and \$38,000 for the three and six months ended June 30, 2007 versus the prior years comparable periods due to a lower average principal outstanding balance. Interest income fluctuates according to the levels of available cash balances. The Company employs a cash management system whereby available balances are invested on an overnight basis.

Other income decreased \$27,000 and \$31,000 for the three and six months ended June 30, 2007 versus the prior years comparable periods.

Income Tax Expense

Income tax expense is directly affected by the levels of pretax income. The Company's effective tax rate was 38.6% and 38.9% for the three months ended June 30, 2007 and 2006, respectively and 39.3% and 39.5% for the six months ended June 30, 2007 and 2006, respectively.

Cash and Cash Equivalents

As of June 30, 2007, the Company had \$2.78 million of cash and cash equivalents as compared to \$2.34 million as of December 31, 2006.

Investment of Available Capital

The Company's cash flows have exceeded its working capital, financing and capital investment needs, and management expects that the Company's cash flows will continue to exceed its operating cash needs for the foreseeable future. The Company regularly evaluates how best to use available capital to increase stockholder value. The Company may pursue investments in the form of acquisitions, joint ventures and partnerships where the Company believes attractive returns can be obtained. Further, the Company may determine under certain market conditions that available capital is best utilized to fund investments that it believes offer the Company attractive return opportunities, whether or not related to its ongoing business activities.

As previously discussed in Note 3 of Notes to the Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q, the Company's Board of Directors has delegated authority to direct investment of the Company's surplus cash to its Chairman, Sardar Biglari, subject to Board reporting requirements and various limitations that have been or may be from time to time adopted by the Board of Directors. These investments may include significant and highly concentrated direct investments with respect to the equity securities of public companies. Any such investments will involve risks, and stockholders should recognize that the Company's balance sheet may change depending on the performance of investments. Furthermore, such investments could be subject to volatility that may affect both the recorded value of the investments as well as the Company's periodic earnings.

Operating Activities and Cash Flows

The Company generated approximately \$1.3 million and \$999,000 in operating cash flows for the six months ended June 30, 2007 and 2006, respectively. The Company's primary source of operating cash flows is the operating profits generated from Company operations and franchise operations.

Investing Activities

During the six months ended June 30, 2007, the Company spent \$14,000 on capital expenditures compared to \$378,000 spent during the equivalent period in the prior year. Capital expenditures for 2006 included amounts attributable to the remodel of the Company-operated store in Northern Virginia. The balance of the capital expenditures was for necessary replacement of equipment and leasehold improvements in the other Company-operated locations. Also included in investing activities for 2007 is an \$833,000 investment in marketable securities.

Financing Activities

The Company made payments of long-term debt of \$80,000 and \$1.3 million for the six months ended June 30, 2007 and 2006, respectively. Also, during the six months ended June 30, 2007, the Company received \$85,290 from the exercise of stock options.

Liquidity

The Company's primary sources of liquidity are cash generated from operations and, if needed, borrowings under its existing line of credit. The Company continually reviews available financing alternatives. In addition, the Company may consider, on an opportunistic basis, strategic decisions to create value and improve operational performance. The Company's debt agreements contain certain minimum financial covenant requirements. As of June 30, 2007, the Company was in compliance with all debt covenants.

CONTRACTUAL OBLIGATIONS

The table below sets forth a summary of contractual obligations that will impact future liquidity as of June 30, 2007:

Contractual Obligations	Payment due by period						Totals
	2007	2008	2009	2010	2011	Thereafter	
Long-term debt	\$ 83,576	118,783	109,803	121,385	134,189	200,875	768,611
Operating leases, net (1)	380,324	705,339	634,425	623,880	367,611	1,571,165	4,282,744
Interest expense (2)	36,902	62,834	52,041	40,459	27,655	14,603	234,494
Tax obligations (3)	134,536						134,536
Totals	\$ 635,338	886,956	796,269	785,724	529,455	1,786,643	5,420,385

(1) Operating lease commitments are presented net of sublease rentals. Gross operating lease commitments for the periods above aggregate to approximately \$4.4 million, offset by sublease rentals for the same periods of approximately \$95,000.

(2) Reflects future interest payments through scheduled maturity dates based upon average borrowing rates, outstanding debt balances and scheduled principal payments on long-term debt.

(3) Reflect recognized liabilities for uncertain tax positions under the provision FIN 48. (See Note 5.)

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of financial condition and results of operations is based on the consolidated financial statements and accompanying notes that have been prepared in accordance with United States generally accepted accounting principles. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Application of the critical accounting policies discussed below requires significant judgments by management, often as a result of the need to make estimates of matters that are inherently uncertain. If actual results were to differ materially from the estimates made, the reported results could be materially affected. The Company is not currently aware of any reasonably likely events or circumstance that would result in materially different results. Senior management has reviewed the critical accounting policies and estimates and the Management's Discussion and Analysis regarding them with the Audit Committee of the Board of Directors.

For additional information regarding the impact of recently issued accounting standards, see Note 10 of Notes to the Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

Trade Accounts and Notes Receivable and the Allowance for Doubtful Accounts

The Company collects royalties, and in some cases rent, from franchisees. The Company views trade accounts and notes receivable and the related allowance for doubtful accounts as a critical accounting estimate since the allowance for doubtful accounts is based on judgments and estimates concerning the likelihood that individual franchisees will pay the amounts included as receivables from them. In determining the amount of allowance for doubtful accounts to be recorded for individual franchisees, the Company considers the age of the receivable, the financial stability of the franchisee, discussions that may have occurred with the franchisee and a judgment as to the overall collectibility of the receivable from the franchisee. In addition, the Company establishes an allowance for all other receivables for which no specific allowances are deemed necessary. If average sales or the financial health of franchisees were to deteriorate, the Company might have to increase the allowance for doubtful accounts.

Investments

The Company classifies our marketable equity securities as available-for-sale, which are reported at fair value. Unrealized holding gains and losses, net of the related income tax effect, on available-for-sale securities are excluded from income and are reported as other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available-for-sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold. All investments are marked-to-market based on quoted market prices and recorded at their fair value. Investments in derivative securities are classified as trading securities, with both realized and unrealized gains and losses on those derivative instruments included in the statement of income.

Long-lived Assets, Franchise Royalty Contracts and Goodwill

The Company views the determination of the carrying value of long-lived assets, franchise royalty contracts and goodwill as critical accounting estimates since it must evaluate the estimated economic useful life in order to properly depreciate or amortize our long-lived assets and franchise royalty contracts and because it must consider if the value of any of our long-lived assets have been impaired, requiring adjustments to the carrying value. Goodwill is not subject to amortization but is subject to at least an annual impairment test to determine if the carrying amount exceeds its fair value.

Economic useful life is the duration of time the asset is expected to be productively employed, which may be less than its physical life. The estimated economic useful life of an asset is monitored to determine if it continues to be appropriate in light of changes in business circumstances.

Commitments and Contingencies

The Company views accounting for contingencies as a critical accounting estimate since loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources require judgment as to any probable liabilities incurred. Actual results could differ from the expected results determined based on such estimates.

Income Taxes

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. The requirements of FIN 48 were adopted during the first quarter of 2007.

For additional information regarding the adoption of FIN 48, see Note 5 of Notes to Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

OTHER**Impact of Inflation**

The impact of inflation on the costs of food and beverage products, labor and real estate can affect the Company's operations. Management believes the Company has historically been able to pass on increased costs through certain selected menu price increases and has offset increased costs by increased productivity and purchasing efficiencies, but there can be no assurance that the Company will be able to do so in the future. Management anticipates that the average cost of restaurant real estate leases and construction cost could increase in the future which could affect the Company's ability to expand. In addition, mandated health care or additional increases in the federal or state minimum wages could significantly increase the Company's costs of doing business.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

As of June 30, 2007, the Company's financial instruments are not exposed to significant market risk due to foreign currency exchange risk or commodity price risk. However, the Company is exposed to market risk related to changes in market prices of marketable securities and to interest rates related to debt obligations. The Company's marketable securities are currently concentrated in a few single investments, with the common stock of Friendly Ice Cream Corporation being the majority. A change in market prices also exposes the Company to market risk related to the investments in marketable securities. As of June 30, 2007, the Company held \$8.9 million in available-for-sale marketable securities. A hypothetical 10% decline in the market value would result in \$890,000 of unrealized losses and would not affect cash flows unless the security was disposed.

The table below provides information about debt obligations that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity dates.

Debt obligations at June 30, 2007 (dollars in thousands):

	EXPECTED MATURITY DATE							Estimated
	2007	2008	2009	2010	2011	Thereafter	Total	Fair Value
Long-term debt maturities	\$ 84	119	110	121	134	201	769	805
Average Interest Rate	9.96	% 10.03	% 10.07	% 10.07	% 10.07	% 10.07	% 10.00	%

Item 4. Controls and Procedures

The Company's senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2007. Based on its evaluation as of December 31, 2006, the Company concluded that the disclosure controls and procedures were ineffective in providing reasonable assurance that the information required to be disclosed in the Annual Report on Form 10-K was summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and Form 10-K due to the material weaknesses discussed below. These weaknesses have been remediated as of June 30, 2007 and accordingly, based on this evaluation process, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed and submitted under the Securities Exchange Act of 1934 (as amended) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Additionally, there have been no changes in the Company's internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting, except as discussed herein with respect to the remediation of certain controls.

A material weakness is a control deficiency (as defined by the PCAOB), or a combination of control deficiencies, that results in there being more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

The following is a description of the material weaknesses that the Company noted as of December 31, 2006, as well as a discussion of the related remediation efforts:

Based on the evaluation as of December 31, 2006, the review of the system of controls surrounding the information technology system revealed that the Chief Financial Officer had access to the journal entry module within the Company's accounting system, leading to a segregation of duties issue. The Company has restricted access to that particular module from the Chief Financial Officer, and implemented additional access controls, review controls, and documentation procedures necessary to remediate the material weakness.

In addition, in connection with the audit of the Company's 2006 financial statements, Grant Thornton LLP, (independent registered public accounting firm), detected an error related to expenses associated with the rights offering that expired December 8, 2006. A correcting adjustment was made prior to finalization of the 2006 financial statements, with the direct costs of \$123,280 associated with the rights offering properly recorded as a reduction of equity instead of an expense. The Company has implemented additional review controls as of June 30, 2007.

There were no other changes in the Company's internal controls or in other factors that could significantly affect these controls since the evaluation process was completed as of June 30, 2007.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In addition to those proceedings discussed in the Company's consolidated financial statements included in Item 1, Part 1, the Company is involved in various other claims and legal actions which are routine litigation matters incidental to the business. In the opinion of management, the ultimate disposition of these other matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Item 1A. Risk Factors

An investment in the common stock of any company involves a degree of risk. Investors should consider carefully the risks and uncertainties described in the Company's Annual Report on Form 10-K filed with the SEC, and those other risks described elsewhere in this report, before deciding whether to purchase our common stock. Additional risks and uncertainties not currently known or that the Company currently deems immaterial may also become important factors that may harm the Company's business, financial condition, and results of operations. The occurrence of risk factors could harm the Company's business, financial condition, and results of operations for company operations, as well as franchised operations. The trading price of the Company's common stock could decline due to any of these risks and uncertainties, and stockholders may lose part or all of their investment.

The following risk factors update those set forth in the Company's 2006 Annual Report on Form 10-K:

We are dependent on one key person for investment and capital allocation decisions.

Investment decisions and all major capital allocation decisions are made for our business by Sardar Biglari, Chairman of the Board of Directors, Chief Executive Officer and President. Although there are limitations on Mr. Biglari's authority and the Board monitors his investment and capital allocation decisions (see "Recent Developments in Our Business"), there is risk in having concentrated decision-making authority. Mr. Biglari's decisions could either independently or in the aggregate involve amounts that are material to our business. Additionally, if for any reason the services of Mr. Biglari were to become unavailable, there could be a material adverse effect on our business, since he is singularly responsible for these decisions.

Our investment activities could require registration as an Investment Company.

While we have historically been principally engaged in franchising and operating restaurants, our recent investment activities could bring us within the definition of an investment company and require us to register as an investment company under the Investment Company Act of 1940. Our Board of Directors has adopted a policy requiring management to restrict our operations and investment activities to avoid becoming an investment company, until and unless the Board approves otherwise. Although we do not presently intend to change our principal business, and the Board has not approved any such change, we have expanded our investment activities, and we may decide in the future to register as an investment company under the Investment Company Act. Also, under certain circumstances, if we are successful in our investment activities, then we may inadvertently fall within the definition of an investment company, in which event we may be required to register as an investment company.

Notwithstanding our Board policy, if our investment activities inadvertently result in our being determined to be an investment company and we fail to register as an investment company, we might be unable to enforce contracts with third parties, and third parties could seek rescission of transactions with us undertaken during the period that we were an unregistered investment company, subject to equitable considerations set forth in the Investment Company Act. In addition, we might be subject to monetary penalties or injunctive relief, or both, in an action brought against us by the SEC.

If we decide to register as an investment company, then we would become subject to various provisions of the Investment Company Act and the regulations adopted under such Act, which are very extensive and could adversely affect our operations. For example, we might be prohibited from entering into or continuing transactions with certain affiliates.

We cannot assure the success of our corporate strategy.

Our corporate strategy is dependent upon factors, some which are out of our control, including availability of appropriate financing and general economic conditions. The success of our strategy is also dependent upon our ability to execute that strategy as it relates to both our restaurant franchising business and our investments. We may not be successful in any or all of the endeavors that underlie our corporate strategy, whether or not the factors affecting the outcome were within our control.

We recently formed a new wholly-owned subsidiary, Western Investments, Inc., to serve as the general partner of a private investment limited partnership, Western Acquisitions, L.P., in which capacity our subsidiary will bear the first 30% of any cumulative net losses otherwise allocable to the capital accounts of certain limited partners.

In April 2007, we formed Western Investments, Inc., a Delaware corporation, as a wholly-owned subsidiary. Western Investments is the general partner of Western Acquisitions, L.P., a Delaware limited partnership also formed in April 2007. The purpose of Western Acquisitions is to invest primarily in equity securities of U.S. publicly traded companies. Sardar Biglari, our Chairman, Chief Executive Officer and President, will manage the portfolio. Western Investments will bear the first 30% of any cumulative net losses otherwise allocable to the capital accounts of limited partners holding Class B units. In the event that Western Investments has insufficient resources to fund this commitment, it may be necessary for us to make a capital contribution to keep that company from defaulting on its obligation. Such an event could potentially have a material adverse effect on our financial position and prevent us from using the funds provided to Western Investments in other areas. See page 15 for further details.

The publicly announced agreement for the purchase of Friendly Ice Cream Corporation by an affiliate of Sun Capital Corp. may not close as expected and therefore our involvement in a proxy contest for two seats on the Board of Directors of Friendly Ice Cream Corporation may not be concluded.

We have recently been involved in a joint effort with The Lion Fund, LP, the private investment fund operated by Mr. Biglari, to nominate two individuals, Mr. Biglari and Dr. Cooley, as nominees for the Board of Directors of Friendly Ice Cream Corporation. Our Board determined that seeking these seats was in the best interest of our stockholders given our substantial investment in Friendly. We were prepared to engage in a proxy solicitation to get our nominees elected to Friendly's Board of Directors, and agreed to share the expenses of this effort with The Lion Fund, LP, on a pro-rata basis. In connection with the announcement by Friendly that it had entered into an agreement to be acquired by an affiliate of Sun Capital Corp., on June 17, 2007, we along with The Lion Fund, LP, Biglari Capital Corp., Sardar Biglari and Philip L. Cooley, entered into a Stockholders Agreement with an affiliate of Sun Capital Corp., pursuant to which we agreed to vote our shares of Friendly in favor of a merger agreement that will result in the acquisition of Friendly by an affiliate of Sun for \$15.50 per share in cash subject to stockholder approval and other conditions. The Stockholders Agreement was filed with the SEC as an exhibit to our Schedule 13D (as amended). We believe that the stockholders of Friendly will approve of the transaction later this year and as a result our ownership of Friendly will be liquidated. However, there is no guarantee that this will take place and we may find it necessary to renew our efforts to seek the seats on the Friendly Board. Should this occur, there is no guarantee that our effort will be successful, and the costs associated with this effort could prove to be substantial regardless of the outcome and could materially impact our financial position.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of the Stockholders held June 18, 2007 the following persons were elected to the Board of Directors for a one-year term, until the 2008 Annual Meeting of Stockholders, or until their successors are elected and qualified:

Nominees	Shares voted for	Shares withheld
Sardar Biglari	1,190,741	1,484
Philip L. Cooley	1,190,741	1,485
Titus W. Greene	1,189,741	2,485
Kenneth R. Cooper	1,187,590	4,636
Jonathan Dash	1,190,741	1,485

Also at the Annual Meeting, an amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of common stock to 4 million shares received the affirmative votes of a majority of the shares outstanding and was declared as approved and adopted. The votes were as follows:

Shares for	1,153,386
Shares against	38,555
Shares abstained	285

Item 6. Exhibits:

See Exhibit Index on page 27.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
