Xyratex Ltd Announces Results for the Second Quarter Fiscal Year 2009

Havant, UK June 24, 2009 Xyratex Ltd (Nasdaq: XRTX), a leading provider of enterprise class data storage subsystems and storage process technology, today announced results for the second fiscal quarter ended May 31, 2009. Revenues for the second quarter were \$194.7 million, a decrease of 26.9% compared to revenues of \$266.5 million for the same period last year.

For the second quarter, GAAP net loss was \$9.6 million, or \$0.33 per share, compared to GAAP net income of \$2.2 million, or \$0.07 per share, in the same period last year. Non-GAAP net loss was \$6.7 million, or \$0.23 per share, compared to non-GAAP net income of \$4.6 million, or \$0.15 per share, in the same quarter a year ago (1).

Gross profit margin in the first quarter was 12.9%, compared to 15.3% in the same period last year due to the reduction in Storage Infrastructure revenues and a change in the sales mix of Networked Storage Solutions products.

Revenues from our Networked Storage Solutions products were \$184.3 million as compared to \$232.6 million in the same quarter a year ago, a decrease of 20.8%. Gross profit margin in the Networked Storage Solutions business was 12.7% as compared to 14% a year ago. Revenues from our Storage Infrastructure products were \$10.5 million as compared to \$33.9 million in the same quarter a year ago, a decrease of 69%. Gross profit margin in the Storage Infrastructure business was 18% as compared to 24.9% a year ago.

Though the global economic environment has continued to pose some challenging business conditions, we are starting to see some positive indications that our customers are experiencing signs of market demand stabilization. We continue to work with our customers in ensuring we are executing effectively in meeting their product demand and technology requirements, said Steve Barber, CEO of Xyratex. I was satisfied with the actions taken in reducing expenses through the quarter and remain focused on demand creation and expense management as we enter the second half of the fiscal year. I believe we have taken the right actions to position ourselves for growth within the markets we serve.

(1) Non-GAAP net income (loss) and diluted earnings (loss) per share excludes (a) amortization of intangible assets, (b) equity compensation expense, (c) specified non-recurring items, such as restructuring costs, the impairment of goodwill and valuation allowance against a deferred tax asset, (d) the related tax effects and (e) the effect of changes in exchange rates on the income tax expense. Reconciliation of non-GAAP net income (loss) and diluted earnings (loss) per share to GAAP net income (loss) and GAAP diluted earnings (loss) per share is included in a table immediately following the condensed consolidated statements of cash flow below.

The intention in providing these non-GAAP measures is to provide supplemental information regarding the Company's operational performance while recognizing that they have material limitations and that they should only be referred to with reference to the corresponding GAAP measure.

The Company believes that the provision of these non-GAAP financial measures is useful to investors and investment analysts because it enables comparison to the Company's historical operating results, those of competitors and other industry participants and also provides transparency to the measures used by management in operational and financial decision making. In relation to the specific items excluded: (a) intangible assets represent costs incurred by the acquired business prior to acquisition, are not cash costs and will not be replaced when the assets are fully amortized and therefore the exclusion of these costs provides management and investors with better visibility of the costs required to generate revenue over time; (b) equity compensation expense is non-cash in nature and is outside the control of management during the period in which the expense is incurred; (c) restructuring costs are not comparable across periods or with other companies and the impairment of goodwill and the valuation allowance against the deferred tax asset are non-recurring, non-cash and are not comparable across periods or with other companies; (d) the exclusion of the related tax effects of excluding items (a) to (c) is necessary to show the effect on net income of the change in tax expense that would have been recorded if these items had not been incurred; (e) the effect of changes in exchange rates on deferred tax balances is non-cash and is not comparable across periods or with other companies.
