PROXY STATEMENT FOR

ANNUAL MEETING OF STOCKHOLDERS

MAY 4, 2010

INTRODUCTION

The Annual Meeting of Stockholders of Marten Transport, Ltd. will be held on May 4, 2010, at 4:00 p.m. local time, at The Plaza Hotel and Suites, 1202 West Clairemont Avenue, Eau Claire, Wisconsin. See the Notice of Meeting for the purposes of the meeting.

A proxy card is enclosed for your use. You are solicited on behalf of the Board of Directors of Marten Transport, Ltd. to **MARK, SIGN, DATE AND RETURN THE PROXY CARD IN THE ENVELOPE PROVIDED**. Postage is not required if mailed in the United States. We will pay the cost of soliciting proxies, including preparing, assembling and mailing the proxies. We will also pay the cost of forwarding such material to the beneficial owners of our common stock, par value \$.01 per share. Our directors, officers and regular employees may, for no additional compensation, solicit proxies by telephone or personal conversation. We may reimburse brokerage firms and others for the expenses of forwarding proxy material to the beneficial owners of our common stock.

Any proxy given in accordance with this solicitation and received in time for the Annual Meeting will be voted in accordance with the instructions given in the proxy. Any stockholder giving a proxy may revoke it at any time before its use at the Annual Meeting by giving written notice of revocation to our Secretary. The revocation notice may be given before the Annual Meeting, or a stockholder may appear at the Annual Meeting and give written notice of revocation before use of the proxy.

We expect to mail this Proxy Statement, the proxy card and Notice of Meeting to stockholders on or about March 25, 2010.

The terms we, us, our, or the Company or similar terms refer to Marten Transport, Ltd.

VOTING OF SHARES

Only holders of common stock of record at the close of business on March 9, 2010 will be entitled to vote at the Annual Meeting. On March 9, 2010, we had 21,908,387 shares of common stock outstanding. For each share of common stock that you own of record at the close of business on March 9, 2010, you are entitled to one vote on each matter voted on at the Annual Meeting. Holders of shares of common stock are not entitled to cumulative voting rights.

Presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the outstanding shares of common stock on March 9, 2010 (10,954,194 shares) is required for a quorum to conduct business. In general, shares of common stock represented by a properly signed and returned proxy card will count as shares present at the Annual Meeting to determine a quorum. This is the case regardless of whether the proxy card reflects votes withheld from the election of director nominees or abstentions (or is left blank) or reflects a broker non-vote on a matter. A proxy card reflecting a broker non-vote is any that is returned by a broker on behalf of its beneficial owner customer and not voted on a particular matter, because voting instructions have not been received and the broker has no discretionary authority to vote.

Assuming a quorum is present at the Annual Meeting, any business, except for the election of directors, that may properly come before the Annual Meeting requires the approval of a majority of the shares voting in person or by proxy on that proposal. With respect to the election of directors, the six director nominees receiving the greatest number of votes cast for the election of directors will be elected as directors. You may vote for or against a proposal, or may abstain from voting on a proposal. Shares voted as abstaining on a proposal will be treated as votes against the proposal. You may vote for all nominees for director, or withhold authority to vote for all or certain nominees. Votes withheld from the election of director nominees, therefore, will be excluded entirely from the vote and will have no effect. Broker non-votes on the proposal for the election of directors will be treated as shares not entitled to vote on that proposal and, therefore, will not be counted as voted shares. A broker may exercise discretion and may vote shares that are not directed how to vote on the ratification of KPMG LLP as our independent public accountants.

Shares of common stock represented by properly executed proxy cards will be voted as directed on the proxy cards. Proxies signed by stockholders but lacking any voting instructions will be voted in favor of each of the proposals. The proxies named on the proxy cards will use their judgment to vote such proxies on any other business that may properly come before the Annual Meeting.

ELECTION OF DIRECTORS

Proposal 1

Nomination

Our Bylaws provide that the Board shall have at least one member, or a different number of members as may be determined by the Board of Directors or the stockholders. The Nominating/Corporate Governance Committee has recommended to our Board of Directors that the six persons listed below be nominated for election at the Annual Meeting, and our Board has nominated the six persons listed below. If elected, the individuals will serve until the next

Annual Meeting of Stockholders or until their successors are duly elected and qualified. All of the nominees are members of the present Board of Directors, and all were elected at last year's Annual Meeting of Stockholders.

The Board recommends a vote **FOR** the election of each of the nominees listed below. The six nominees for election as directors at the Annual Meeting who receive the greatest number of votes cast will be elected as directors. If, before the Annual Meeting, the Board learns that any nominee will be unable to serve because of death, incapacity or other unexpected occurrence, the proxies that would have been voted for the nominee will be voted for a substitute nominee recommended by the Nominating/Corporate Governance Committee and selected by the Board. The proxies may also, at the Board's discretion, be voted for the remaining nominees. The Board believes that all nominees will be able to serve at the time of the Annual Meeting. No arrangements or understandings exist between any nominee and any other person under which such nominee was selected.

Information About Nominees

The following chart and paragraphs provide information as of the date of this proxy statement about each nominee. The information presented includes information each director has given us about his age, all positions he holds, his principal occupation and business experience for the past five years, and the names of other publicly-held companies of which he currently serves as a director or has served as a director during the past five years. In addition to the information presented below regarding each nominee's specific experience, qualifications, attributes and skills that led our Board to the conclusion that he should serve as a director, we also believe that all of our director nominees display personal and professional integrity; broad-based business acumen; a high level of understanding of our business and the transportation industry; strategic thinking and a willingness to share ideas; and have a diversity of experiences, expertise and background.

Corporate Governance

Our Board of Directors has adopted an Audit Committee Charter, a Compensation Committee Charter, a Nominating/Corporate Governance Committee Charter, Corporate Governance Standards, Policy Regarding Related Party Transactions, a Code of Ethics for Senior Financial Management and a Code of Ethics/Conduct that applies to all officers, directors, employees and independent contractors. In February 2010, our Board of Directors further updated and amended our Compensation Committee Charter with changes related to require review of our compensation policies and practices to confirm that such policies and practices do not encourage unnecessary risk taking and review and discuss, at least annually, the relationship between risk management policies and practices, corporate strategy, and our compensation policies and practices. We have posted all of these documents on our website at www.marten.com. The information contained in or connected to our website is not incorporated by reference into or considered a part of this Proxy Statement.

Board Oversight of Risk

Our Board administers its risk oversight function directly and through its committees. Our Board's approach to risk management is designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value, while managing an appropriate level of risk for the Company. We believe our current board leadership structure helps ensure proper risk oversight, based on the allocation of duties among committees and the role of our independent directors in risk oversight.

While our Board has the ultimate oversight responsibility for the risk management process, various committees of the Board also have responsibility for risk management. As part of its charter, the Audit Committee discusses with management and the independent auditors our adequacy and effectiveness of accounting and financial controls, including our system to monitor and manage business risks. The Audit Committee charter also charges the Audit Committee

with setting the overall tone for sound business risk practices. The Company's Compensation Committee reviews the Company's overall compensation programs and is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The Nominating and Corporate Governance Committee manages risks associated with the Board's composition and corporate governance practices. The Board and its committees regularly discuss with management our major risk exposures, their potential impact on us, and the steps we take to manage them.

Corporate Governance Standards

Our Corporate Governance Standards provide guidelines which govern the qualifications and conduct of our Board. Our standards are consistent with the corporate governance requirements of the Sarbanes-Oxley Act of 2002, and the corporate governance listing requirements applicable to companies whose securities are listed on the NASDAQ Global Select Market. Our Corporate Governance Standards address, among other matters, the following:

- regular meetings of our Board of Directors;
- attendance by directors at annual meetings of stockholders;
- conduct of Board meetings;
- meetings of independent directors;
- director access to executive officers and employees;
- the composition, membership and selection of our Board of Directors;
- the compensation and evaluation of performance of our Board of Directors and its committees;
- the organization and basic function of Board committees;
- the evaluation of the performance of our Chairman of the Board and Chief Executive Officer; and

- stockholder communications with directors.

Code of Ethics for Senior Financial Management

Our Code of Ethics for Senior Financial Management applies to all of our executive officers, including our Chairman of the Board and Chief Executive Officer and our Chief Financial Officer, along with our Controller and other employees performing similar functions who have been identified by the Chairman of the Board and Chief Executive Officer, and meet the requirements of the Securities and Exchange Commission. We have posted our Code of Ethics for Senior Financial Management on our website at www.marten.com. We intend to disclose any amendments to and any waivers from a provision of our Code of Ethics for Senior Financial Management on our website within five business days following the amendment or waiver.

Risk Considerations in our Compensation Program

Our Compensation Committee has discussed risk as it relates to our compensation policies and practices for our employees and the Committee does not believe our compensation policies and practices for our employees are reasonably likely to have a material adverse effect on us because of the way we structure our compensation policies and practices. We structure our compensation policies and practices to consist of both fixed and variable compensation. The fixed (or salary) portion of compensation is designed to provide a steady income regardless of the metrics associated with our business so that employees do not feel pressured to focus exclusively on business metrics to the detriment of our business. The variable component of our pay structure includes both stock options and discretionary cash bonus plans. We have two vesting schedules for options: options that vest over a period of time and those that are based on our annual operating ratio. Our stock options that vest over a period of time generally vest over five years and are only valuable if our stock price increases over time so employees are encouraged to add to our long-term value. We believe that our compensation programs have an appropriate mix of fixed and variable compensation to insure our compensation objectives and philosophy are being met without encouraging our employees to engage in unnecessary or excessive risk-taking that are reasonably likely to have a material adverse effect on us.

Code of Ethics/Conduct

Our Code of Ethics/Conduct applies to all officers, directors, non-driver employees, driver employees and independent contractors of the Company. The Code is intended to promote honest and ethical conduct and to provide guidance for the appropriate handling of various business situations. The Code addresses, among other matters, legal and regulatory compliance, insider trading, confidentiality, conflicts of interest, competition and fair dealing, financial reporting and record-keeping, protection and proper use of Company assets, and the reporting of illegal or unethical behavior. Employees may anonymously report possible violations of the Code via a toll free telephone number. Waivers of the Code for officers and directors may be made only by our Board and will be promptly disclosed if and as required by law or NASDAQ listing requirements. We have posted our Code of Ethics/Conduct on our website at www.marten.com.

Board and Board Committees

We continue to monitor the rules and regulations of the Securities and Exchange Commission and NASDAQ to ensure that a majority of our Board remains composed of independent directors. Mr. Winkel, Mr. Hagness, Mr. Bauer, Mr. Demorest and Mr. Owens are all independent directors, as defined by current NASDAQ listing standards. Our independent directors hold meetings, referred to as executive sessions, on a periodic basis and at least two times each year, at which only the independent directors are present. We have appointed Mr. Winkel as our lead independent director to preside at executive sessions of our independent directors, as well as perform other duties applicable to that position including, among other things, providing guidance to the Chair regarding agendas for Board and committee meetings, advising the Chair as to the information to be provided the Board for its meetings, and acting as principal liaison between the independent directors and the Chair.

Our Board of Directors held four meetings during 2009, and each current director attended all Board meetings, as well as all meetings of committees of the Board on which they served. The Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating/Corporate Governance Committee. Our Board of Directors adopted a policy that all directors are expected to attend our annual meeting of stockholders and we generally schedule a meeting of the Board on the same day as our annual meeting of stockholders in order to facilitate attendance of all directors at the annual meeting. All directors attended last year's annual meeting of stockholders.

Leadership Structure of the Board

We currently combine the positions of Chairman of the Board and Chief Executive Officer. We have adopted a counterbalancing governance structure to protect the interests of our stockholders by preventing the Board from being unduly influenced by the combination of these positions. Some components of our counterbalancing governance structure include:

- a designated lead independent director;
- a Board entirely composed of independent members, with the exception of the Chairman and Chief Executive Officer;
- annual election of directors;
- committees entirely composed of independent directors;
- our independent directors hold executive sessions on a periodic basis and at least two times each year, at which only the independent directors are present; and

- established corporate governance standards and ethics guidelines.

The independent lead director presides at executive sessions of our independent directors, as well as performs other duties applicable to that position including, among other things, providing guidance to the Chair regarding agendas for Board and committee meetings, advising the Chair as to the information to be provided the Board for its meetings, and acting as principal liaison between the independent directors and the Chair. The lead director is expected to foster a

cohesive board that cooperates with the Chief Executive Officer towards the ultimate goal of creating stockholder value.

Audit Committee

The Audit Committee provides assistance to the Board in satisfying its fiduciary responsibilities for our accounting, auditing, operating and reporting practices. The committee oversees the financial reporting process, has the sole authority to appoint, compensate, retain and oversee the work of our independent registered public accounting firm, reviews and pre-approves all audit services and permissible non-audit services performed by our independent registered public accounting firm, establishes procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters, oversees the establishment and administration of a written code of ethics for our senior financial management, reviews and either approves or disapproves of all related party transactions and performs other related duties delegated to it by the Board. The responsibilities and functions of the Audit Committee are further described in the Audit Committee Report beginning on page 11 of the Proxy Statement. The Audit Committee currently consists of Mr. Winkel (Chair), Mr. Demorest and Mr. Owens. All of the members of the Audit Committee are independent as defined by current NASDAQ listing standards and the rules of the Securities and Exchange Commission. In addition, our Board has determined that Mr. Winkel is an audit committee financial expert as defined by the rules and regulations of the Securities and Exchange Commission. During 2009, the Audit Committee met seven times.

Compensation Committee

The Compensation Committee establishes the compensation philosophy and policy for our executive officers and other key employees, which includes reviewing and approving corporate goals and objectives relevant to their compensation, reviewing and evaluating their performance, monitoring the effectiveness of our benefit plans and, where appropriate, approving changes, reviewing and approving, or recommending to the full Board of Directors, executive incentive compensation plans and stock based plans, supervising and overseeing the administration of our incentive compensation and stock based programs and reviewing the compensation levels of independent directors from time to time. The committee reviews our compensation policies and practices to confirm that such policies and practices do not encourage unnecessary risk taking and review and discuss, at least annually, the relationship between risk management policies and practices, corporate strategy, and our compensation policies and practices. The committee also serves as the disinterested administrator of our 2005 Stock Incentive Plan. The responsibilities and functions of the Compensation Committee, including the use of compensation consultants and the involvement of management in compensation decisions, are further described in the Compensation Discussion and Analysis beginning on page 17 of the Proxy Statement. The Compensation Committee currently consists of Mr. Winkel (Chair), Mr. Hagness, Mr. Bauer and Mr. Owens. All of the members of the Compensation Committee are independent directors, as defined by current NASDAQ listing standards. During 2009, the Compensation Committee met four times.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee reviews and makes recommendations to the Board regarding the size and composition of the Board, considers and recruits candidates for director nominees based upon recommendations from current outside directors, members of management, outside consultants or search firms and stockholders, recommends on an annual basis a slate of director nominees for approval by the Board and the stockholders, reviews our committee structure and membership, reviews and advises the Board regarding our corporate governance standards, advises the Board on emerging corporate governance matters, develops and recommends to the Board for its approval an annual self-evaluation process of the Board and its committees and provides suitable programs for the orientation and continuing education of directors. The Nominating/Corporate Governance Committee currently consists of Mr. Hagness (Chair), Mr. Winkel, Mr. Bauer and Mr. Demorest. All of the members of the Nominating/Corporate Governance Committee are independent directors, as defined by current NASDAQ listing standards. During 2009, the Nominating/Corporate Governance Committee met one time.

In evaluating and determining whether to recommend a person as a candidate for election as a director, the Nominating/Corporate Governance Committee's criteria reflects the requirements of the NASDAQ definitions with respect to independence and financial literacy and the following factors: the needs of the Company with respect to the particular talents and experience of its directors; personal and professional integrity of the candidate; level of education and/or business experience; broad-based business acumen; the level of understanding of the Company's business and the transportation industry; strategic thinking and a willingness to share ideas; and diversity of experiences, expertise and background. The Committee will use these criteria to evaluate potential nominees and will not evaluate proposed nominees differently depending upon who has made the recommendation.

The Nominating/Corporate Governance Committee will consider proposed nominees whose names are submitted to it by stockholders; however, it does not have a formal process for that consideration. The Nominating/Corporate Governance Committee has not adopted a formal process since it believes its informal consideration process has been adequate because historically stockholders have not proposed any nominees. The Nominating/Corporate Governance Committee intends to review periodically whether a more formal policy should be adopted.

In considering whether to recommend any director nominee, including candidates recommended by stockholders, the Nominating/Corporate Governance Committee will apply the criteria set forth in its charter. These criteria include, among other things, the candidate's diversity of experiences, expertise and background. While the Company does not have a separate policy related to diversity, the Nominating/Corporate Governance Committee seeks nominees with a broad diversity of experience, expertise and backgrounds. The Nominating/Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. We believe that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis prescribed by law.

Any stockholder who desires to recommend a nominee for director must submit a letter, addressed to the Chairman of the Nominating/Corporate Governance Committee, Marten Transport, Ltd., 129 Marten Street, Mondovi, Wisconsin 54755, and which is clearly identified as a Director Nominee Recommendation. All recommendation letters must identify the author as a stockholder and provide a brief summary of the candidate's qualifications, as well as contact information for both the candidate and the stockholder. Stockholders who wish to make a recommendation for a nominee to be elected at our 2011 Annual Meeting must submit their recommendation by November 25, 2010 to assure time for meaningful consideration and evaluation of the nominees by the Nominating/Corporate Governance Committee.

Audit Committee Report

The Audit Committee of the Board of Directors is composed of three directors and acts under a written charter adopted and approved by the Board of Directors. A copy of the Audit Committee Charter is posted on our website at www.marten.com. All members of the Audit Committee meet the SEC and the NASDAQ definitions of independence and financial literacy for audit committee members. The Audit Committee will periodically review the Audit Committee Charter in light of new developments and may make additional recommendations to the Board of Directors for further revision of the Audit Committee Charter to reflect evolving best practices and changes in applicable laws and regulations.

Management is primarily responsible for the preparation, presentation and integrity of our Company's consolidated financial statements, accounting and financial reporting processes, and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. KPMG LLP, our Company's independent registered public accounting firm, is responsible for performing an independent audit of the Company's annual consolidated financial statements and of the effectiveness of the Company's internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States), and to issue their reports thereon. KPMG also reviews our Company's interim consolidated financial statements in accordance with Statement on Auditing Standards No. 100 (*Interim Financial Information*). The Audit Committee's responsibility is to monitor and oversee these processes on behalf of the Board of Directors.

In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management and KPMG the audited consolidated financial statements, including Management's Discussion and Analysis, included in our Company's Annual Report on Form 10-K and the results of KPMG's review of our Company's interim consolidated financial statements. These reviews included a discussion of:

- critical accounting policies of our Company;

- the reasonableness of significant financial reporting judgments made in connection with our consolidated financial statements, including the quality (and not just the acceptability) of our Company's accounting principles;

- the clarity and completeness of financial disclosures;

- the effectiveness of the Company's internal control over financial reporting, including management's and KPMG's reports thereon, the basis for the conclusions expressed in those reports and changes made to the Company's internal control over financial reporting during 2009;
- matters noted by KPMG during its audit of the Company's consolidated financial statements and other material written communications between management and KPMG; and
- the potential effects of regulatory and accounting initiatives on our Company's consolidated financial statements.

In connection with its audit of our Company's annual consolidated financial statements, the Audit Committee also discussed with KPMG other matters required to be discussed with the auditors under Statement on Auditing Standards No. 61 (*Communication with Audit Committees*) (Codification of Statements on Auditing Standards, AU 380), and, with and without management present, reviewed and discussed the results of KPMG's audit of our Company's annual consolidated financial statements.

The Audit Committee also has received the written disclosures and the letter from KPMG required by applicable requirements of the Public Company Accounting Oversight Board regarding KPMG's communications with the Audit Committee concerning independence, and has discussed with KPMG its independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission.

In 2009, we paid non-employee directors an annual retainer of \$20,000, a fee of \$1,000 for each Board meeting attended, \$500 for each committee meeting attended, and reimbursed them for out-of-pocket expenses of attending meetings. We also paid the Chair of our Audit Committee, who is also our lead independent director, an additional annual retainer of \$20,000, the Chair of our Compensation Committee an additional annual retainer of \$7,500, and the Chair of our Nominating/Corporate Governance Committee an additional annual retainer of \$2,500. No other director received any cash compensation for services as a director in 2009.

Since 2006, each non-employee director also receives an automatic grant of an option to purchase 2,500 shares of common stock annually upon re-election to the Board by the stockholders. These options will be issued at a per share exercise price equal to the fair market value of one share of common stock on the grant date, vest immediately, and expire ten years from the grant date.

The following table provides summary information concerning the compensation of each individual who served as a director of our Company during the fiscal year ended December 31, 2009, other than Randolph L. COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis describes the material elements of the compensation awarded to, earned by and paid to our Chairman of the Board and Chief Executive Officer, our Chief Financial Officer and our other executive officers included in the Summary Compensation Table on page 30 below. These individuals are referred to in this Proxy Statement as our named executive officers. The discussion below focuses on the information contained in the tables and related footnotes and narrative primarily for 2009 under the heading Compensation and Other Benefits below, but also describes actions taken before 2009 to the extent it enhances the understanding of our executive compensation disclosure.

Compensation Objectives and Philosophy

Our executive compensation program is designed to:

- attract, motivate, retain and reward executive officers and other key employees who are likely to contribute to our long-term success;
- provide a team approach where executive officers and key employees with differing functional responsibilities work together to achieve overall strategic objectives;
- create a flexible environment that allows us to grant variable compensation based on actual performance results taking into account internal business goals as well as changing business and economic conditions;
- focus management on maximizing stockholder value through stock-based compensation aligned to stockholder returns;
- provide compensation opportunities depending upon our performance relative to our competitors and changes in our performance over time; and
- ensure that our compensation program is competitive in the industry.

Edgar Filing: MARTEN TRANSPORT LTD - Form DEF 14A

Our executive compensation program and decisions of the Compensation Committee are based on the following philosophy and principles:

- As a performance driven company, we favor having a significant component of variable compensation tied to actual results that are evaluated at the end of the year when all the relevant factors can be taken into account, like Company performance and changing business and economic conditions, over solely fixed compensation.
- In order to foster cooperation and communication among our executives and among their respective teams, the Compensation Committee and the Board of Directors place primary emphasis on Company performance (rather than individual performance).

- We differentiate individual compensation among our executives based on scope and nature of responsibility, education and experience, job performance and potential.
- We seek to align the interests of our executives with the interests of our stockholders through the use of long-term, equity-based incentive compensation, primarily in the form of stock options.
- We use discretionary bonuses to reward individual performance.

Setting Executive Compensation

In determining the amount of compensation to pay our named executive officers, the Compensation Committee considers factors such as: the executive's position within the Company and the level of responsibility, skills and experiences required by the executive's position; the executive's experience and qualifications; our ability to replace such individual and the overall competitive environment for executive talent; the attainment of or failure to attain Company objectives and the difficulty in achieving desired Company objectives; individual performance of the executive as measured by the impact of such performance on the attainment of Company objectives; the Company's performance in various economic environments; current and historical compensation levels; the executive's length of service to our Company; the Compensation Committee's view of internal equity and consistency; and other considerations it deems relevant. In analyzing some of these factors, the Compensation Committee from time to time reviews competitive compensation data gathered in comparative surveys and collected by independent consultants, as well as publicly available comparable public company information.

In November 2005, we hired a compensation consulting firm to conduct an overall analysis of our executive compensation program, including a competitive assessment of the base salaries, short-term and long-term incentives, benefits and perquisites paid to our executive officers and to review the option holdings of our executive officers in comparison to similar executives of other companies in our industry sector. The Compensation Committee continues to use the approach and methodology from that review, along with the use of other appropriate published data, to assist it in determining the amount of base salary, annual incentive compensation, total compensation and the form and amount of long-term equity-based incentive compensation to pay our named executive officers. Although the Compensation Committee has not retained a compensation consulting firm since the November 2005 analysis, it believes the information from the compensation consulting firm's analysis not only confirmed the Company's approach to structuring its compensation programs, but is still valuable in assisting in the determination of compensation on an ongoing basis. The Compensation Committee intends to use competitive compensation data provided by Equilar, Inc. in 2010 and also intends to periodically use compensation consulting firms to evaluate the overall effectiveness and competitiveness of its executive compensation program.

Our executive compensation program as a whole and each individual element of the program is designed to be competitive in order to attract, motivate and retain executives necessary to the achievement of our Company objectives. We generally target total compensation and each element of total compensation within a reasonable range of our competitive market. In connection with the compensation consulting firm's analysis of our executive compensation program in 2005, we defined our industry sector as a peer group of 10

other than publicly held long-haul truckload carriers that had between approximately \$250 million and approximately \$3 billion in revenue. We also chose these companies for inclusion in our peer group based on other business characteristics similar to ours and because we believe we compete with these or similar companies for executive talent. The companies in our peer group consisted of the following:

- Celadon Group, Inc.
- Covenant Transport, Inc.
- Frozen Food Express Industries, Inc.
- Heartland Express, Inc.
- Knight Transportation, Inc.
- P.A.M. Transportation Services, Inc.
- Swift Transportation Company, Inc. (no longer publicly traded)
- Transport Corporation of America, Inc. (no longer publicly traded)
- USA Truck, Inc.
- Werner Enterprises, Inc.

While the Compensation Committee recognizes that benchmarking may not always be appropriate as a stand-alone tool for setting compensation due to the aspects of our business and objectives that may be unique to our Company, the Compensation Committee, nonetheless, believes that gathering this information is an important part of its compensation-related decision-making process.

Executive Compensation Components

The principal elements of our executive compensation program include:

- base salary compensation;
- annual incentive compensation and discretionary compensation;
- stock-based compensation; and

- executive benefits and perquisites.

In addition, our executive compensation program also includes certain change in control arrangements.

Except as described below, the Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation. However, the Compensation Committee's philosophy is to make a significant portion of an executive's compensation at risk and based on actual results that are evaluated at the end of the year when all of the relevant factors can be taken into account, such as Company performance and changing business and economic conditions. It is also the Compensation Committee's view to keep cash compensation at a competitive level while providing the opportunity to be well rewarded through long-term equity-based incentive compensation, in the form of stock options, if the Company's stock price performs well over

time. We believe these equity-based awards to our executive officers help ensure that they have a stake in the Company's long-term success by providing an incentive to improve the overall growth, profitability and value of our Company.

Base Salary Compensation

We provide a base salary for our named executive officers, which, unlike some of the other elements of our executive compensation program, is not subject to performance risk. We recognize the need for most executives to receive at least a portion of their total compensation in the form of a guaranteed base salary that is paid in cash regularly throughout the year to support a reasonable standard of living.

We initially fix base salaries for our executives at a level we believe enables us to hire and retain them in a competitive environment and to reward satisfactory individual performance and a satisfactory level of contribution to our overall business objectives. We also take into account the base compensation paid by companies in our peer group.

The Compensation Committee reviews base salaries for our named executive officers each year beginning in April and generally approves any increases at its May meeting held in conjunction with our Annual Meeting of Stockholders. Any increases in base salaries are typically effective as of April 1 of that year. This decision is made in May because the Compensation Committee takes the results of the first quarter of each fiscal year into consideration when deciding whether to increase base salaries.

In determining the amount of base salaries for our named executive officers, the Compensation Committee strives to target base salaries within the range of salaries for executives in similar positions and with similar responsibilities at companies in our current peer group. The Compensation Committee's determinations regarding the base salaries of our named executive officers are also based on a number of other factors, including: the executive's position within the Company and the level of responsibility, the skills and experience required by the executive's position; the executive's experience and qualifications; our ability to replace such individual and the overall competitive environment for executive talent; the executive's current base salary; the executive's length of service to our Company, the executive's past performance and the impact of such performance on the attainment of Company objectives; competitive compensation data; the Compensation Committee's view of internal equity and consistency; and other considerations it deems relevant. Following these factors, we typically increase base salaries for executive officers modestly from year to year consistent with our general philosophy of favoring variable, performance-based compensation.

In particular, the Compensation Committee's determination of base salary for each of the named executive officers included an emphasis on the following factors:

- Mr. Marten's leadership role as Chief Executive Officer and Chairman of the Board of the Company, length of service with the Company, position based on competitive compensation data and relative level of responsibility when compared to other executive officers;
- Mr. Kohl's prior experience and qualifications, including his operational experience in the trucking industry, position based on competitive compensation data and relative level of responsibility as President when compared to other executive officers;

- Mr. Smith's length of service to Marten position based on competitive compensation data and his role and relative level of responsibility as Chief Operating Officer;
- Mr. Nash's length of service to Marten position based on competitive compensation data and his role and relative level of responsibility as Executive Vice President of Sales and Marketing; and
- Mr. Hinnendael's experience and qualifications, including his financial expertise, position based on competitive compensation data and relative level of responsibility as Chief Financial Officer when compared to other executive officers.

Annualized salary rates for 2008, 2009 and 2010 for the named executive officers are as follows:

	2008(1)	2009(2)	2010(3)
Randolph L. Marten	\$ 487,085	\$ 491,625	\$ 491,625
Timothy M. Kohl	338,942	350,000	350,000
Robert G. Smith	245,594	247,883	247,883
Timothy P. Nash	245,594	247,883	247,883
James J. Hinnendael	193,809	195,615	195,615

(1) On May 6, 2008, the Compensation Committee approved the following increases to base salary, retroactive to April 1, 2008: Mr. Marten from \$475,000 to \$491,625; Mr. Smith from \$239,500 to \$247,883; Mr. Nash from \$239,500 to \$247,883; and Mr. Hinnendael from \$189,000 to \$195,615. The committee also approved increasing the base salary of Mr. Kohl from \$325,000 to \$350,000 effective as of June 2, 2008 in connection with his appointment as President.

(2) The Compensation Committee did not increase the base salaries for our named executive officers in May 2009.

(3) The Compensation Committee reviews base salaries for our named executive officers each year beginning in April and generally approves any increases at its May meeting held in conjunction with our Annual Meeting of Stockholders.

For 2009, base salaries accounted for approximately 93% of total compensation for our Chairman of the Board and Chief Executive Officer and 98% on average for the other named executive officers. The high percentage of compensation attributed to base salaries in 2009 was directly impacted by the Compensation Committee's determination not to award bonuses for 2009. We typically increase base salaries for executive officers modestly from year to year consistent with our general philosophy of favoring discretionary incentive compensation. The Compensation Committee approved a 3.5% increase for our named executive officers effective as of April 1, 2008, at which time Mr. Kohl was not an executive officer. Mr. Kohl's base salary increased 7.7% effective as of June 2, 2008 in connection with his appointment as President.

Edgar Filing: MARTEN TRANSPORT LTD - Form DEF 14A

The Compensation Committee did not increase the base salaries for our named executive officers in 2009. This decision was based on the Compensation Committee's determination and management's recommendation that an increase in base salaries for our executive officers was inappropriate in 2009 in light of uncertain business and economic conditions and the fact that

economic conditions were constraining the compensation of the Company's largest group of employees, its drivers.

Annual Incentive Compensation and Discretionary Compensation

Background

In December 2008, the Compensation Committee terminated our Executive Officer Performance Incentive Bonus Plan and Performance Incentive Bonus Plan, which were based on specific performance measures, and, in consideration of the rapidly changing business and economic conditions, instituted the Non-Driver Employee Bonus Plan beginning in 2009. Pursuant to a separate discretionary bonus program, the Board has authorized Mr. Marten, our Chairman of the Board and Chief Executive Officer, to award executive officers an annual discretionary bonus of up to 10% of each executive officer's annual base salary.

Non-Driver Employee Bonus Plan

The Non-Driver Employee Bonus Plan provides for discretionary cash awards of up to 75% of the executive officer's annual base salary. Director level employees will be eligible for a discretionary bonus in an amount up to 22.5% of their annual base salary and all other non-driver employees will be eligible for a discretionary bonus in an amount up to 7.5% of their annual base salary, with each determined by senior management of the Company. The Company's Compensation Committee shall, in its sole and absolute discretion, determine each executive officer's cash award, with such cash award based on such executive officer's individual performance and the Company's overall financial performance for the award year.

In light of the very difficult operating conditions our industry is experiencing at present, the Compensation Committee believes that a discretionary cash bonus better rewards the Company's and each employee's actual performance than a formulaic award because a formulaic award may not capture all the relevant factors for an executive's performance in rapidly changing business and economic conditions. The Compensation Committee believes that the move from bonuses based on specific performance measures in the Executive Officer Performance Incentive Bonus Plan and Performance Incentive Bonus Plan to the discretionary bonus in the Non-Driver Employee Bonus Plan will better reflect the actual performance of the non-driver employees, including the executive officers, during this difficult period of changing business and economic conditions. In addition, the Compensation Committee believes it is important that it retain the authority to consider the strategic importance of all relevant factors with respect to the payment of discretionary bonuses to our executive officers, as these factors are not necessarily part of any business or strategic plan developed at the beginning of the year.

Discretionary Bonus Program

The Board has also authorized Mr. Marten, our Chairman of the Board and Chief Executive Officer, to award executive officers a discretionary bonus of up to 10% of each executive officer's annual base salary.

2008 Annual Incentive Compensation and Discretionary Compensation

In December 2008, the Compensation Committee approved a bonus for all of our non-driver employees equal to the greater of (a) the amount payable under our Performance Incentive Bonus Plan and our Executive Officer Performance Incentive Bonus Plan or (b) 10% of base salary for officers and internal directors and 5% of base salary for all other non-driver employees. All of the named executive officers were awarded a cash bonus from the Compensation Committee equal to 10% of the annual base salary of each executive officer. The discretionary bonuses to the executive officers from the Compensation Committee exceeded any amount payable under our Performance Incentive Bonus Plan and our Executive Officer Performance Incentive Bonus Plan. The discretionary bonuses to the Company's executive officers were based on the Company's strong performance in the difficult freight environment during 2008.

Also in 2008, Mr. Marten awarded a discretionary bonus to all of the Company's executive officers in the amount of 10% of their annual base salaries based on the Company's performance in the difficult freight environment.

2009 Annual Incentive Compensation and Discretionary Compensation

The Compensation Committee elected not to award bonuses to non-driver employees, including executive officers, under the Non-Driver Employee Bonus Plan for 2009. Although the Compensation Committee considered the strategic importance of many factors with respect to determining the payment of discretionary bonuses to our executive officers, the material items it focused on were the Company's year-end net income and earnings per share results relative to the Company's historical performance. Based on its analysis, the Compensation Committee determined that the Company's performance was not favorable compared to the prior year's results and that discretionary bonuses were not warranted for 2009.

The Board has also authorized Mr. Marten, our Chairman of the Board and Chief Executive Officer, to award executive officers a discretionary bonus of up to 10% of each executive officer's annual base salary. Based on a similar analysis, Mr. Marten determined that discretionary bonuses were not warranted for 2009.

Stock-based Compensation

The third component of our executive compensation program consists of stock-based compensation. We award stock options to align the interests of our executive officers and key personnel with our stockholders and to increase our long-term value. Through deferred vesting, this component of our compensation program creates an incentive for individuals to remain with us and promote long-term Company goals. We generally grant an option to purchase shares of common stock to our director-level employees and our executive officers upon their promotion to such positions. In addition, from time to time we grant additional options to purchase shares of common stock to our executive officers and key personnel based primarily upon the individual's actual and/or potential contribution and our financial performance. To date, all stock options have been granted at fair market value. Generally, these options vest over a period of several years.

In 2005, our Board of Directors and stockholders approved the 2005 Stock Incentive Plan, pursuant to which our named executive officers (as well as other employees) are eligible to receive equity compensation awards, including stock options and restricted stock awards, stock appreciation rights, performance unit awards and stock bonuses. For more information concerning the terms of this plan, we refer you to Compensation and Other Benefits Grants of Plan-based Awards. Currently, we provide named executive officers (and many of our other key employees) with stock options, which are either service-based or performance-based.

A stock option becomes valuable only if our common stock price increases above the option exercise price and the holder of the option remains employed during the period required for the option to vest. This provides an incentive for an option holder to remain employed by us. In addition, stock options link a portion of an employee's compensation to stockholders' interests by providing an incentive to achieve corporate goals and increase the market price of our stock.

In May 2008, the Compensation Committee recommended, and our Board of Directors approved, the granting of non-statutory stock options under our 2005 Stock Incentive Plan to the Company's named executive officers to purchase a total of 107,300 shares of our common stock. The shares become exercisable in equal installments of one-fifth on each of the first five anniversaries of the grant date and expire after seven years. The grant to Mr. Kohl to purchase 50,000 shares of our common stock was in connection with his appointment as President. The amount of shares underlying each of the grants to the other four named executive officers was tied to the level of each executive officer's base compensation. For additional information concerning the terms of outstanding options, we refer you to Compensation and Other Benefits Grants of Plan-based Awards.

The Compensation Committee did not grant any stock options to named executive officers in 2009 as it does not have a policy of making regular annual grants to executive officers. The decision to not make additional stock-based awards in 2009 was based on the Compensation Committee's determination that the executive officers' current equity holdings were appropriate in light of the Company's analysis of its peer group and each executive's overall compensation package. The Compensation Committee also believes the performance based options granted in 2006 continue to incentivize the Company's executive officers in accordance with the Company's overall compensation objectives and philosophy.

The long-term incentive compensation information for our named executive officers during 2007, 2008 and 2009 is included in the Summary Compensation Table on page 30. Additional information on long-term incentive awards is shown in the Outstanding Equity Awards at Fiscal Year-end Table on page 34.

Executive Benefits and Perquisites; Other Compensation Arrangements

It is generally our policy not to extend significant perquisites to our executives that are not available to our employees generally. The only significant perquisites that we provide to our named executive officers are the personal use of Company aircraft by our executive officers and the use of a Company car by our Chairman of the Board and Chief Executive Officer. Also, beginning in 2000, we reimburse executive officers for their current accumulated vacation pay upon appointment as an executive officer.

On May 3, 2005, the Compensation Committee approved a general policy regarding use of our corporate aircraft by our executive officers. If any executive officer uses our corporate aircraft for combined business/personal use under applicable IRS regulations, we will include in the executive officer's taxable income the sum of the value of such personal use in accordance with IRS regulations and the related income taxes on such value, which are paid by us. The personal use of our corporate aircraft is generally limited to spouses or guests accompanying executive officers on business trips.

Our executives receive benefits, which are also received by our other employees, including 401(k) matching contributions, and health, dental and life insurance benefits. We do not provide pension arrangements or post-retirement health coverage for our executives or employees. We also do not provide any nonqualified defined contribution or other deferred compensation plans.

All of our employees, including our executive officers, are employed at will and do not have employment agreements. We have, however, entered into written change in control agreements with each of our executive officers, which provide for certain cash and other benefits upon the termination of the executive officer's employment with us under certain circumstances, as described below.

Change in Control and Post-termination Severance Arrangements

Our 2005 Stock Incentive Plan provides that in the event a change in control occurs, then, if approved by the Committee in its sole discretion either at the time of the grant of the incentive award or at any time after such grant, all options and stock appreciation rights will become immediately exercisable in full and will remain exercisable for the remainder of their terms; all outstanding restricted stock awards will become immediately fully vested and non-forfeitable; and all outstanding performance unit awards and stock bonuses will vest or continue to vest in accordance with their agreement. Using discretionary authority under the plan, our Compensation Committee approved Non-Statutory Stock Option Agreements for both service-based and performance-based option awards which provide that such options become immediately exercisable in full in the event of a change in control with respect to options that have been outstanding for at least six months. In addition, the Committee in its sole discretion may determine that some or all participants holding outstanding options will receive cash in an amount equal to the excess of the fair market value of such shares immediately prior to the effective date of such change in control over the exercise price per share of the options (or, in the event that there is no excess, that such options will be terminated), and that some or all participants holding performance unit awards will receive, with respect to some or all of the shares subject to the performance unit awards, cash in an amount equal to the fair market value of such shares immediately prior to the effective date of such change in control.

On March 29, 2006, the Compensation Committee approved the execution of Change in Control Severance Agreements with each then-current named executive officer pursuant to which we agreed to provide certain benefits to these executives if they are terminated in connection with a change in control. These Change in Control Severance Agreements were effective upon execution and continue until the termination of the executive's employment or until we terminate the agreement upon fifteen months prior written notice. On August 13, 2007, the Company's Board of Directors approved Amended and Restated Change in Control

Severance Agreements for Mr. Marten, Mr. Smith, Mr. Nash and Mr. Hinnendael. The Amended and Restated Change in Control Severance Agreements made changes to the Change in Control Severance Agreements previously entered into between the Company and these officers, in order to comply with final regulations published by the Internal Revenue Service under an exception to Section 409A of the Internal Revenue Code of 1986, as amended, and there were no changes to the economic terms of the Change in Control Severance Agreements. The Board of Directors also approved a Change in Control Severance Agreement containing similar terms with Mr. Kohl effective as of June 2, 2008 in connection with his appointment as President. In December 2008, we made a technical amendment to the Amended and Restated Change in Control Severance Agreements with Mr. Marten, Mr. Smith, Mr. Nash and Mr. Hinnendael, and to the Change in Control Severance Agreement with Mr. Kohl.

Under these agreements, these executive officers are entitled to certain benefits if they are terminated either within 24 months of the effective date of a change in control or before the effective date of the change in control if the termination was either a condition to the change in control or was at the request or insistence of a person related to the change in control. These executives will not be considered terminated for purposes of these agreements if they die or are terminated for cause. They will, however, be considered terminated if they voluntarily leave our employ for good reason.

Upon a termination in connection with a change in control, these executives will be entitled to receive a lump sum cash payment of 100% of their base salary (except for Mr. Marten, who will receive 200% of his base salary), plus one times the executive's highest bonus in the preceding three calendar years (except for Mr. Marten, who will receive two times such amount). In addition, these executives will receive welfare benefits for a period of twelve months (except for Mr. Marten, who will receive such benefits for twenty-four months). These arrangements, including the quantification of the payment and benefits provided under these arrangements, are described in more detail elsewhere in this Proxy Statement under the heading Compensation and Other Benefits Potential Payments Upon Termination or Change in Control.

If an executive is subject to excise tax in connection with our payments under a Change in Control Severance Agreement, we will make an additional excise tax gross-up payment to the executive equal to the excise tax as a result of the payments under the Change in Control Severance Agreement, including any excise tax as a result of the gross-up payment. Upon reviewing and considering developments pertaining to corporate governance practices, in 2009, the Compensation Committee determined that any future Change in Control Severance Agreements would not provide for excise tax gross-up payments.

In order for our named executive officers to receive any other payments or benefits as a result of a change in control of our Company, there must be a termination event, such as a termination of the executive's employment by our successor without cause or a termination of the executive's employment by the executive for good reason. The termination of the executive's employment by the executive without good reason will not give rise to additional payments or benefits either in a change in control situation or otherwise. Thus, these additional payments and benefits will not just be triggered by a change in control, but will also require a termination event described above, and thus are known as double trigger change in control arrangements.

We believe that the change in control protections provided in the agreements described above are relevant and an important part of our executive compensation program. We believe that these arrangements mitigate some of the risk that exists for executives working in a smaller company, where there is a meaningful likelihood that the company may be acquired. These arrangements are intended to attract and retain qualified executives who may have employment alternatives that may appear to them, in light of a possible change in control, to be less risky absent these arrangements. We also believe similar protections are typically provided by other companies, including companies with which we compete for executive talent, and thus believe we must continue to offer such protections in order to be competitive.

Except for our Change in Control Severance Agreements, our named executive officers are not party to any employment or severance agreements and are not entitled to any particular severance benefit upon their involuntary termination of employment by the Company. The Compensation Committee may, however, provide severance on a case by case basis in its discretion.

Total Compensation Mix

The table below illustrates how total compensation for our named executive officers for 2009 was allocated between performance and non-performance based components, how performance-based compensation is allocated between annual and long-term components and how total compensation is allocated between cash and equity components:

Accounting and Tax Considerations

Section 162(m)

Section 162(m) of the Internal Revenue Code requires that we meet specific criteria, including stockholder approval of certain stock and incentive plans, in order to deduct, for federal income tax purposes, compensation over \$1 million per individual paid to our named executive officers. Since none of our named executive officers received compensation over \$1 million during 2009, we will not be affected by the limitations of Section 162(m) of the Internal Revenue Code. We intend generally to structure our executive compensation arrangements, where feasible, so as to minimize or eliminate the impact of the limitations of Section 162(m) of the Internal Revenue Code; however, we do reserve the right to offer compensation arrangements as may from time to time be necessary to attract and retain top-quality management.

Accounting for Stock-based Compensation

We account for share-based payment arrangements, including our 2005 Stock Incentive Plan, in accordance with FASB ASC 718, *Compensation-Stock Compensation*.

(1) This column reflects the aggregate grant date fair value of options granted to each named executive officer in 2008, calculated in accordance with FASB ASC 718, *Compensation-Stock Compensation* and using a Black-Scholes valuation model. No options were granted to the named executive officers in 2007 or 2009. See note 8 of Notes to Consolidated Financial Statements for a discussion of the assumptions made by us in determining the grant date fair value of our equity awards. The individual awards reflected in the summary compensation table are summarized below:

(a) The incremental cost to the Company of personal use of Company aircraft is calculated based on the variable operating costs to the Company. Variable costs include fuel, maintenance, crew travel expenses, trip related fees and storage costs, and other miscellaneous variable costs. The methodology excludes fixed costs that do not change on usage, such as purchase or lease costs of the aircraft and non-trip related hanger expenses. The variable costs to the Company were

allocated pro-rata to guests or spouses accompanying named executive officers on business trips to derive the incremental costs.

(b) We sponsor a defined contribution retirement savings plan under Section 401(k) of the Internal Revenue Code. Employees, including executive officers, are eligible for the plan after one year of service. Participants are able to contribute up to the limit set by law, which in 2009 was \$16,500 for participants less than age 50 and \$22,000 for participants age 50 and above. We contribute 35% of each participant's contribution, up to a total of 6% contributed. Our contribution vests at the rate of 20% per year for the second through sixth years of service. In addition, we may make elective contributions as determined by our Board of Directors. No elective contributions were made in 2009, 2008 or 2007.

(c) Represents the depreciation expense of a Company car.

(3) Mr. Kohl was hired in November 2007 and was appointed President in June 2008.

Grants of Plan-based Awards

Our named executive officers were not granted any plan-based equity or non-equity awards in 2009.

Discretionary Bonus Program and Non-Driver Employee Bonus Plan

The material terms of our Discretionary Bonus Program and Non-Driver Employee Bonus Plan are described in the Compensation Discussion and Analysis beginning on page 17.

2005 Stock Incentive Plan

Under the terms of our 2005 Stock Incentive Plan, all of our named executive officers, as well as other employees and any subsidiary employees (including officers and directors who are also employees), are eligible to receive incentive awards. To date, only stock options have been granted under the plan. The plan contains an overall limit on the number of shares of our common stock that may be issued, as well as individual and other grant limits, which are subject to change in our corporate structure or shares.

The exercise price of an option may not be less than 100% of the fair market value of a share of our common stock on the option grant date (or, if the option is an incentive stock option, 110% if the participant beneficially owns more than 10% of our outstanding stock). Under the plan, fair market value means the closing sale price of a share of our common stock on the grant date as reported on the NASDAQ Global Select Market.

The aggregate fair market value of shares of common stock with respect to which incentive stock options may become exercisable by a participant for the first time during any calendar year may not exceed \$100,000. Any incentive stock options in excess of this amount will be treated as non-statutory options.

Options may be exercised in whole or in installments, as determined by the Board or its committee, and may impose conditions or restrictions to the exercisability of an option, including

that the participant remain continuously employed by us or a subsidiary for a certain period. An option may not remain exercisable after 10 years from its date of grant (or, if the option is an incentive stock option, five years from its date of grant if the participant beneficially owns more than 10% of our outstanding stock).

Shares of common stock that are issued under the plan or that are subject to outstanding incentive awards reduce the number of shares remaining available under the plan, but any shares of common stock subject to an incentive award that lapses, expires, is forfeited or for any reason terminates unexercised or unvested and any shares of common stock that are subject to an incentive award that is settled or paid in cash or any other form other than shares of common stock will automatically again become available for issuance under the plan.

In the event of any reorganization, merger, consolidation, recapitalization, liquidation, reclassification, stock dividend, stock split, combination of shares, rights offering, divestiture or extraordinary dividend (including a spin-off) or any other change in our corporate structure or shares, appropriate adjustment will be made to:

- the number and kind of securities available for issuance under the plan; and
- in order to prevent dilution or enlargement of the rights of participants, the number, kind and, where applicable, the exercise price of securities subject to outstanding incentive awards.

The plan is administered by our Compensation Committee, which has the authority to determine all necessary or desirable provisions of incentive awards, including the eligible recipients who will be granted one or more incentive awards under the plan, the nature and extent of the incentive awards to be made to each participant, the time or times when incentive awards will be granted, the duration of each incentive award, and payment or vesting restrictions and other conditions. The Compensation Committee has the authority to pay the economic value of any incentive award in the form of common stock and may amend or modify the terms of outstanding incentive awards (except for any prohibited re-pricing of options, discussed below) so long as the amended or modified terms are permitted under the plan and any affected participant has consented to the amendment or modification.

The Board may suspend or terminate the plan or any portion of the plan at any time, and may amend the plan from time to time to conform incentive awards to any change in applicable laws or regulations or in any other respect that the Board may deem to be in our best interests. However, no amendments to the plan will be effective without stockholder approval if it is required under Section 422 of the Internal Revenue Code, Section 162(m) of the Internal Revenue Code or the rules of the NASDAQ Global Select Market, or if the amendment seeks to modify the prohibitions on underwater option re-pricing discussed above.

Termination, suspension or amendment of the plan will not adversely affect any outstanding incentive award without the consent of the affected participant, except for adjustments in the event of changes in capitalization or a change in control, discussed below.

In general, no right or interest in any incentive award may be assigned or transferred by a participant, except by will or the laws of descent and distribution, or subjected to any lien or encumbrance. However, the Board or its committee may permit a participant to transfer all or a

portion of a non-statutory stock option, other than for value, to certain family members or related family trusts, foundations or partnerships. Any permitted transferee of a non-statutory stock option will remain subject to all the terms and conditions of the incentive award applicable to the participant.

(1) This stock option award was granted March 1, 2006 and vests, on a cumulative basis, in five installments of 20% on each of the first five anniversaries of the option grant date.

(2) The option shares become exercisable, on a cumulative basis, upon our achievement of the operating ratios set forth below for any full fiscal year beginning with 2006 and ending with 2010. The number of shares provided in the table above represents the threshold performance goal as set forth below. On February 12, 2007, our Board of Directors approved an amendment to the performance based stock options that were originally granted on March 1, 2006, which changed the operating ratio thresholds for vesting. The following table sets forth the operating ratio thresholds as of December 31, 2006 and as amended on February 12, 2007.

Operating Ratio December 31, 2006	Operating Ratio February 12, 2007	Vesting Percentage
90.0%	91.0%	25%
89.5%	90.5%	25%
89.0%	90.0%	25%
88.5%	89.5%	25%

Based on the Company's operating ratio results, no shares have vested under the performance based stock options that were originally granted on March 1, 2006. The following table sets forth the operating ratio results for fiscal years 2006 through 2009.

Fiscal Year	Operating Ratio	Vesting Percentage
2006	92.1%	0%
2007	95.0%	0%
2008	94.6%	0%
2009	94.2%	0%

(4) This stock option award was granted January 25, 2006 and vests, on a cumulative basis, in five installments of 20% on each of the first five anniversaries of the option grant date.

Potential Payments upon Termination or Change in Control

All of our named executive officers are employed at will and, other than as described below, are not entitled to any severance or other payments under any agreement, contract, plan or arrangement upon their termination of employment without cause or otherwise. We have entered into

Edgar Filing: MARTEN TRANSPORT LTD - Form DEF 14A

agreements with our named executive officers that require us to provide compensation to them in the event of termination of their employment without cause in connection with or within a certain period of time after a change in control of our Company. Under these agreements, these executive officers are entitled to certain benefits if they are terminated either within 24 months of the effective date of a change in control or before the effective date of the change in control if the termination was either a condition to the change in control or was at the request or insistence of a person related to the change in control. These executives will not be considered

terminated for purposes of these agreements if they die or are terminated for cause. They will, however, be considered terminated if they voluntarily leave Marten's employ for good reason.

Upon a termination in connection with a change in control, the named executive officers will be entitled to receive a lump sum cash payment of 100% of their base salary except for Mr. Marten, who will receive 200% of his base salary, plus one times the executive's highest bonus in the preceding three calendar years except for Mr. Marten, who will receive two times such amount. In addition, these executives will receive welfare benefits for a period of twelve months except for Mr. Marten, who will receive such benefits for twenty-four months.

Our 2005 Stock Incentive Plan provides that in the event a change in control occurs, then, if approved by the committee in its sole discretion either at the time of the grant of the incentive award or at any time after such grant, all options and stock appreciation rights will become immediately exercisable in full and will remain exercisable for the remainder of their terms; all outstanding restricted stock awards will become immediately fully vested and non-forfeitable; and all outstanding performance unit awards and stock bonuses will vest or continue to vest in accordance with their agreement. Using discretionary authority under the plan, our Compensation Committee approved form Non-Statutory Stock Option Agreements for both service-based and performance-based option awards that provide such options become immediately exercisable in full in the event of a change in control with respect to options that have been outstanding for at least six months. In addition, the committee in its sole discretion may determine that some or all participants holding outstanding options will receive cash in an amount equal to the excess of the fair market value of such shares immediately prior to the effective date of such change in control over the exercise price per share of the options (or, in the event that there is no excess, that such options will be terminated), and that some or all participants holding performance unit awards will receive, with respect to some or all of the shares subject to the performance unit awards, cash in an amount equal to the fair market value of such shares immediately prior to the effective date of such change in control.

For purposes of the 2005 Stock Incentive Plan, a Change in Control generally occurs if:

- all or substantially all of our assets are sold, leased, exchanged or transferred to any successor;
- our stockholders approve any plan or proposal to liquidate or dissolve us;
- we are a party to a merger or consolidation that results in our stockholders beneficially owning securities representing less than 50% of the combined voting power ordinarily having the right to vote at elections of directors of the surviving corporation (regardless of any approval by the continuity directors); or
- any successor, other than the Company, any trustee or other fiduciary holding securities under any employee benefit plan of the Company or Randolph L. Marten or Christine K. Marten or their affiliates, becomes the beneficial owner of more than 50% of our outstanding securities ordinarily having the right to vote at elections of directors.

If a named executive officer's employment or other service with the Company and all its subsidiaries terminates for any reason other than death, disability or retirement, all rights of the named executive officer under the Company's 2005 Stock Incentive Plan and its stock option agreements granted thereunder will immediately terminate without notice of any kind, and the stock option will no longer be exercisable. However, if such termination is due to any reason other than termination by the Company or its subsidiaries for cause, the option will remain exercisable to the extent exercisable as of such termination for a period of three months after such termination. Cause means (i) dishonesty, fraud, misrepresentation, embezzlement or deliberate injury or attempted injury, in each case related to the Company or any of its subsidiaries, (ii) any unlawful or criminal activity of a serious nature, (iii) any intentional and deliberate breach of a duty or duties that, individually or in the aggregate, are material in relation to the named executive officer's overall duties, or (iv) any material breach of any confidentiality or noncompete agreement entered into with the Company or any of its subsidiaries. In no event will an option be exercisable after the tenth anniversary of its grant date.

Potential Payments to Named Executive Officers. The following table describes the payments that each of our named executive officers would have received if a change in control of the Company occurred on December 31, 2009 in connection with a termination of their employment on December 31, 2009:

Name	Executive Benefits and Payments	Payment
Randolph L. Marten	Lump Sum Payment Based on Two Times Base Salary	\$ 983,250

	Total:	\$ 1,194,749
Timothy M. Kohl	Lump Sum Payment Based on Base Salary	\$ 350,000
	Highest Bonus in Three Preceding Years	67,788
	Acceleration of Vesting of Unvested Stock Options(1)	17,200
	Welfare Benefits(2)	9,485
	Total:	\$ 444,473
Timothy P. Nash	Lump Sum Payment Based on Base Salary	\$ 247,883
	Highest Bonus in Three Preceding Years	49,119
	Acceleration of Vesting of Unvested Stock Options(1)	4,128
	Welfare Benefits(2)	7,900
	Total:	\$ 309,030
Robert G. Smith	Lump Sum Payment Based on Base Salary	\$ 247,883
	Highest Bonus in Three Preceding Years	49,119
	Acceleration of Vesting of Unvested Stock Options(1)	
	Welfare Benefits(2)	9,035
	Total:	\$ 306,037
James J. Hinnendael	Lump Sum Payment Based on Base Salary	\$ 195,615
	Highest Bonus in Three Preceding Years	38,762
	Acceleration of Vesting of Unvested Stock Options(1)	3,268
	Welfare Benefits(2)	436
	Total:	\$ 238,081

(1) Each of the presented named executive officer's outstanding option awards would have automatically accelerated and become immediately exercisable in full upon a change in control if they were held for six or more months, and these options were held for such a period on December 31, 2009. The value of the automatic acceleration of the vesting of unvested stock options held by a named executive officer is based on the difference between: (i) the market price of the shares of our common stock underlying the unvested stock options held by such officer as of December 31, 2009, which is based on the closing sale price of our common stock on December 31, 2009 (\$17.95), and (ii) the exercise price of the options, as adjusted for any stock splits. The value of the automatic acceleration and vesting of the unvested stock options relates to the option shares granted on May 6, 2008 to each named executive officer, except for Mr. Smith, whose option shares vested on September 28, 2008, Mr. Smith's retirement-eligibility date.

(2) The value of the welfare benefits is based on the named executive officer's estimated cost for medical insurance along with the named executive officer's cost for life insurance premiums, after income tax gross-up.

Note - The value of the gross-up payment to cover excise taxes under Section 4999 of the Code for parachute payments under Section 280G of the Code is based on the named executive officer's average taxable compensation from 2004 to 2008. Such number is then multiplied by three to determine the base amount. If the change in control payment exceeds such base amount then the excise tax provisions of Section 4999 and 280G are triggered. However, none of the named executive officer's base amounts exceed the change in control payment. Because the named executive officers do not need to pay the excise taxes under Section 4999 of the Code, no gross-up payment is required and the value of the Section 4999 gross-up for each named executive officer is zero.

Compensation Committee Interlocks and Insider Participation

During 2009, the Compensation Committee was comprised of Thomas J. Winkel, Larry B. Hagness, Jerry M. Bauer and G. Larry Owens, with Mr. Winkel serving as Chairman. None of the members of the Compensation Committee has ever been an officer or employee of the Company. During 2009, no executive officer of ours served as a member of the Board of Directors or compensation committee of any entity that had an executive officer serving as a member of our Board of Directors or Compensation Committee. See Related Party Transactions for a description of transactions between us and Bauer Built, Inc., of which Mr. Bauer is the president and a stockholder, between us and Durand Builders Service, Inc., of which Mr. Hagness is the president and owner, and between us and Mr. Marten.

RELATED PARTY TRANSACTIONS

We purchase fuel and obtain tires and related services from Bauer Built, Inc., or BBI. Jerry M. Bauer, one of our directors, is the president and a stockholder of BBI. We paid BBI \$796,000 in 2009, \$1.4 million in 2008 and \$1.1 million in 2007 for fuel and tire services. In addition, we paid \$1.5 million in 2009, \$2.3 million in 2008 and \$2.4 million in 2007 to tire manufacturers for tires that we purchased from the tire manufacturers but were provided by BBI. BBI received commissions from the tire manufacturers related to these purchases. Other than any benefit received from his ownership interest, Mr. Bauer receives no compensation or other benefits from our business with BBI.

We paid Durand Builders Service, Inc. \$1.1 million in 2009, \$564,000 in 2008 and \$547,000 in 2007 for various construction projects. Larry B. Hagness, one of our directors, is the president and owner of Durand Builders Service, Inc. Other than any benefit received from his ownership interest, Mr. Hagness receives no compensation or other benefits from these transactions.

In August 2008, we acquired a building adjacent to our headquarters which will be used for maintenance and storage from Randolph L. Marten, our Chairman of the Board and Chief Executive Officer, in a like-kind exchange for a partially constructed building of equal value owned by Marten Transport. Each of the buildings were valued at \$291,000 at the time of the exchange.

We believe that the transactions with related parties noted above are on reasonable terms which, based upon market rates, are comparable to terms available from unaffiliated third parties.

Our Board of Directors has delegated to our Audit Committee, pursuant to the terms of a written policy, the authority to review, approve and ratify related party transactions. If it is not feasible for our Audit Committee to take an action with respect to a proposed related party transaction, the Chief Financial Officer may present the transaction arising in the time period between meetings of the Audit Committee to the Chair of the committee, who shall review and may approve the transaction, subject to ratification by the committee at the next meeting of the committee. In addition, any related person transaction previously approved by the committee or otherwise already existing that is ongoing in nature shall be reviewed by the committee annually to ensure that such related person transaction has been conducted in accordance with the previous approval granted by the committee, if any, and that all required disclosures regarding the related person transaction are made.

Any related person transaction proposed to be entered into by the Company must be reported to the Company's Chief Financial Officer and shall be reviewed and approved by the Audit Committee of the Board of Directors pursuant to this policy, prior to effectiveness or consummation of the transaction, whenever practicable. If the Chief Financial Officer determines that advance approval of a related person transaction is not practicable under the circumstances, the Audit Committee shall review and, in its discretion, may ratify the related person transaction at the next meeting of the Audit Committee, or at the next meeting following the date that the related person transaction comes to the attention of the Chief Financial Officer; provided, however, that the Chief Financial Officer may present a related person transaction arising in the time period between meetings of the Audit Committee to the Chair of the committee, who shall review and may approve the related person transaction, subject to ratification by the Audit Committee at the next Audit Committee meeting.

Our policy defines a related person transaction as a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we (including any of our subsidiaries) were, are or will be a participant, the amount involved exceeds \$25,000 and in which any related party had, has or will have a direct or indirect interest. The Board has determined that certain interests do not create a material direct or indirect interest on behalf of the related person, and are, therefore, not related person transactions for purposes of the policy, including interests arising only from (a) the related person's position as a director of another corporation or organization that is a party to the transaction, and /or (b) from the direct or indirect ownership by the related person and all other related persons in the aggregate of less than a 10% equity interest (other than a general partnership interest) in another entity which is a party to the transaction.

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the committee in accordance with the standards set forth in the policy after full disclosure of the related person's interests in the transaction. As appropriate for the circumstances, the committee shall review and consider:

- the related person's relationship to the Company and interest in the related person transaction (as an approximate dollar value, without regard to profit or loss);
- the approximate total dollar value involved in the related person transaction;
- whether the transaction was undertaken in the ordinary course of business of the Company;
- whether the transaction with the related person is proposed to be, or was, entered into on terms no less favorable to the Company than terms that could have been reached with an unrelated third party;
- whether the related person transaction would impair the independence of an outside director;
- whether the transaction with the related person would require a waiver of the Company's Code of Ethics;

- the terms on which the related person offers the products or services involved in the related person transaction to unrelated parties;
- the purpose of, and the potential benefits to the Company of, the transaction; and
- any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee will review all relevant information available to it about the related person transaction. The committee may approve or ratify the related person transaction only if the committee determines that, under all of the circumstances, the transaction is in the best interests of the Company and its stockholders. The committee may, in its sole discretion, impose such conditions as it deems appropriate on the Company or the related person in connection with approval of the related person transactions.

SELECTION OF INDEPENDENT PUBLIC ACCOUNTANTS

Proposal 2

The Audit Committee of our Board has approved the engagement of KPMG LLP to audit our consolidated financial statements for the 2010 fiscal year. KPMG LLP has been our independent public accountants since 2002.

Although not required to do so, the Board of Directors wishes to submit the selection of KPMG LLP to the stockholders for ratification because the Board believes it is good corporate practice.
