### **Notes to Schedule of Investments**

flinvestments in debt securities and interest rate swaps by Neuberger Berman High Yield Strategies Fund (the "Fund") are valued daily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include considerations such as: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. If a valuation is not available from an independent pricing service, the Fund seeks to obtain quotations from principal market makers. If such quotations are not readily available, securities are valued using methods the Board of Trustees of the Fund has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security, including available analyst, media or other reports, trading in futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding. Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

In accordance with Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"), "fair value" is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. Various inputs are used in determining the value of the Fund's investments.

In addition to defining fair value, FAS 157 established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2009:

	Investments in	Other Financial
Valuation Inputs	Securities	Instruments*
Level 1 - Quoted Prices	\$50,371	\$ -
Level 2 - Other Significant		
Observable Inputs	151,213,535	(1,567,287)
Level 3 – Significant		
Unobservable Inputs	826,476	-
Total	\$152,090,382	<b>\$(1,567,287)</b>

<sup>\*</sup>Other financial instruments include interest rate swap contracts.

Following is a reconciliation between the beginning and ending balances of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Investments in Securities
Beginning Balance, as of 1/1/09	\$63,250
Accrued discounts/premiums	1,277
Realized gain/loss and change in unrealized	
appreciation/depreciation	(79,995)
Net purchases/sales	892,315

Balance, as of 3/31/09	\$826,476
Net change in unrealized	
appreciation/depreciation from	
investments still held as of 3/31/09	\$(79,830)

- ## At March 31, 2009, the cost of investments for U.S. federal income tax purposes was \$179,210,212. Gross unrealized appreciation of investments was \$1,950,071 and gross unrealized depreciation of investments was \$29,069,901, resulting in net unrealized depreciation of \$27,119,830, based on cost for U.S. federal income tax purposes.
- @ Neuberger Berman Prime Money Fund ("Prime Money") is also managed by Neuberger Berman Management LLC and may be considered an affiliate since it has the same officers, Board members, and investment manager as the Fund and because, at times, the Fund may own 5% or more of the outstanding voting securities of Prime Money.
- Restricted security subject to restrictions on resale under federal securities laws. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers under Rule 144A under the Securities Act of 1933, as amended, and have been deemed by the investment manager to be liquid. At March 31, 2009, these securities amounted to \$21,931,787 or 22.9% of net assets applicable to common shareholders.
- ^^ Denotes a step-up bond: a zero coupon bond that converts to a fixed rate of interest at a designated future date.
- μ Floating rate securities are securities whose yields vary with a designated market index or market rate. These securities are shown at their current rates as of March 31, 2009.
- ØØ All or a portion of this security is segregated in connection with obligations for interest rate swap contracts and delayed delivery purchase commitments.
- @ @ At March 31, 2009, the Fund had outstanding interest rate swap contracts as follows:

		Rate	e Type
