CHASE CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In thousands, except share and per share amounts

Note 1 - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Therefore, they do not include all information and footnote disclosure necessary for a complete presentation of Chase Corporation's financial position, results of operations and cash flows, in conformity with generally accepted accounting principles. Chase Corporation (the Company, Chase, we, or us) filed audited financial statements which included all information and notes necessary for such presentation for the three years ended August 31, 2011 in conjunction with its 2011 Annual Report on Form 10-K.

The accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring items) which are, in the opinion of management, necessary for a fair statement of the Company's financial position as of November 30, 2011, the results of operations and cash flows for the interim periods ended November 30, 2011 and 2010, and changes in stockholders' equity for the interim period ended November 30, 2011.

The financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company uses the US dollar as the reporting currency for financial reporting. The financial position and results of operations of the Company's UK based operations are measured using the UK pound sterling as the functional currency and the financial position and results of operations of the Company's operations based in France are measured using the euro as the functional currency. Foreign currency translation gains and losses are determined using current exchange rates for monetary items and historical exchange rates for other balance sheet items and are recorded as a change in other comprehensive income. Translation gains and losses generated from the remeasurement of assets and liabilities denominated in currencies other than the functional currency of our foreign operations are included in other (expense) / income on the consolidated statements of operations.

The Company has evaluated events and transactions subsequent to the balance sheet date. Based on this evaluation, and other than the sale of its Webster, MA property as detailed in Note 12, the Company is not aware of any events or transactions that occurred subsequent to the balance sheet date but prior to filing that would require recognition or disclosure in its consolidated financial statements.

The results of operations for the interim period ended November 30, 2011 are not necessarily indicative of the results to be expected for any future period or the entire fiscal year. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended August 31, 2011, which are contained in the Company's 2011 Annual Report on Form 10-K.

Note 2 Recent Accounting Policies*Recently Issued Accounting Pronouncements*

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income*, (ASU 2011-05) which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. ASU 2011-05 will be effective for public companies during the interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of ASU 2011-05 will not have an impact on the Company's consolidated financial position, results of operations or cash flows as it only requires a change in the format of the current presentation.

In September 2011, the FASB issued ASU No. 2011-08, *Intangibles - Goodwill and Other (ASC Topic 350) - Testing Goodwill for Impairment*, (ASU 2011-08) which gives companies the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount before performing the two-step test mandated prior to this update. ASU 2011-08 also provides companies with a revised list of examples of events and circumstances to consider, in their totality, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If a company concludes that this is the case, it must perform the two-step test. Otherwise, a company may skip the two-step test. Companies are not required to perform the qualitative assessment and may instead proceed directly to the first step of the two-part test. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The adoption of ASU 2011-08 will not have an impact on the Company's consolidated financial position, results of operations or cash flows.

Note 3 Inventories

Inventories consist of the following as of November 30, 2011 and August 31, 2011:

	November 30, 2011		August 31, 2011
Raw materials	\$ 10,493	\$	10,206
Finished and in process	11,167		10,635
Total Inventories	\$ 21,660	\$	20,841

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

Note 4 Net Income Per Share

The determination of earnings per share under the two-class method is as follows:

	Three Months Ended November 30,	
	2011	2010
Basic Earnings per Share		
Net income	\$ 2,327	\$ 2,925
Less: Allocated to participating securities	74	74
Net income available to common shareholders	\$ 2,253	\$ 2,851
Basic weighted average shares outstanding	8,754,020	8,696,727
Net income per share - Basic	\$ 0.26	\$ 0.33
Diluted Earnings per Share		
Net income	\$ 2,327	\$ 2,925
Less: Allocated to participating securities	74	73
Net income available to common shareholders	\$ 2,253	\$ 2,852
Basic weighted average shares outstanding	8,754,020	8,696,727
Additional dilutive common stock equivalents	7,038	57,359
Diluted weighted average shares outstanding	8,761,058	8,754,086
Net income per share - Diluted	\$ 0.26	\$ 0.33

For the three months ended November 30, 2011 and 2010, stock options to purchase 408,002 and 250,000 shares of common stock, respectively, were outstanding, but were not included in the calculation of diluted net income per share because the options' exercise prices were greater than the average market price of the common stock and thus would be anti-dilutive. Included in the calculation of dilutive common stock equivalents are the unvested portion of restricted stock, restricted stock units and stock options.

As previously reported in the prior year, the Company identified an immaterial error in the calculation of previously reported basic and diluted shares outstanding resulting in earnings per share being understated in certain periods in fiscal 2010, and the three months ended November 30, 2010 in fiscal 2011. The Company has revised the prior period financial statements to reflect the appropriate earnings per share. This immaterial change resulted in basic and diluted earnings per share increasing from \$.32 to \$.33 for the three months ended November 30, 2010.

Note 5 Stock Based Compensation

In August 2010, the Board of Directors of Chase Corporation approved the fiscal year 2011 Long Term Incentive Plan (2011 LTIP) for the executive officers. The 2011 LTIP is an equity based plan with a grant date of September 1, 2010 and contains a performance and service based restricted stock grant of 32,835 shares in the aggregate, subject to adjustment, with a vesting date of August 31, 2013. Based on the fiscal year 2011 financial results, 32,835 additional shares of restricted stock (total of 65,670 shares) were earned and granted subsequent to the end of fiscal year 2011 in accordance with the performance measurement criteria. No further performance-based measurements apply to this award. Compensation expense is being recognized on a ratable basis over the vesting period.

In August 2011, the Board of Directors of the Company approved the fiscal year 2012 Long Term Incentive Plan (2012 LTIP) for the executive officers. The 2012 LTIP is an equity based plan with a grant date of September 1, 2011 and containing the following components:

Restricted Shares (a) performance and service based restricted stock grant of 33,798 shares in the aggregate, subject to adjustment, with a vesting date of August 31, 2014. Compensation expense is being recognized on a ratable basis over the vesting period based on quarterly probability assessments; (b) time-based restricted stock grant of 16,899 shares in the aggregate, and a vesting date of August 31, 2014. Compensation expense is being recognized on a ratable basis over the vesting period.

Stock options options to purchase 59,493 shares of common stock in the aggregate with an exercise price of \$12.77 per share. The options will vest in three equal annual allotments beginning on August 31, 2012 and ending on August 31, 2014. The options will expire on August 31, 2021. Compensation expense is being recognized over the period of the award on an annual basis consistent with the vesting terms.

In August 2011, the Board of Directors of the Company approved a plan for issuing a time-based restricted stock grant of 5,037 shares in the aggregate to certain non-executive officer employees, with an issue date of August 31, 2011 and a vesting date of August 31, 2014. Compensation expense is being recognized on a ratable basis over the vesting period.

In August 2011, the Board of Directors of the Company authorized a grant of stock options to certain non-executive officer employees to purchase 20,883 shares of common stock in the aggregate with an exercise price of \$12.77 per share. The options will vest in three equal annual allotments beginning on August 31, 2012 and ending on August 31, 2014. The options will expire on August 31, 2021. Compensation expense is being recognized over the period of the award on an annual basis consistent with the vesting terms.

Note 6 Segment Data & Foreign Operations

The Company is organized into two operating segments, an Industrial Materials segment and a Construction Materials segment. The basis for this segmentation is distinguished by the nature of the products and how they are delivered to their respective markets. The Industrial Materials segment reflects specified products that are used in or integrated into another company's product with demand dependent upon general economic conditions. Industrial Materials products include insulating and conducting materials for wire and cable manufacturers, moisture protective coatings for electronics and printing services, laminated durable papers, and flexible composites and laminates for the aerospace, packaging and industrial laminate markets. The Construction Materials segment reflects construction project

Table of Contents

oriented product offerings which are primarily sold and used as Chase branded products in final form. Construction Materials products include protective coatings for pipeline applications, coating and lining systems for use in liquid storage and containment applications, high performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets.

The following tables summarize information about the Company's reportable segments:

	Three Months Ended November 30,	
	2011	2010
Revenues from external customers		
Industrial Materials	\$ 19,486	\$ 18,170
Construction Materials	12,644	13,097
Total	\$ 32,130	\$ 31,267
Income before income taxes		
Industrial Materials	\$ 3,644 (a)	\$ 3,824 (b)
Construction Materials	395	1,823
Total for reportable segments	4,039	5,647
Corporate and Common Costs	(459) (c)	(1,005)
Total	\$ 3,580	\$ 4,642

(a) Includes idle facility costs of \$277 from our Paterson, NJ and Webster, MA facilities

(b) Includes idle facility costs of \$116 from our Paterson, NJ and Oxford, MA facilities

(c) Includes gain of \$425 on Evanston sale leaseback transaction

The Company's products are sold world-wide. For the three months ended November 30, 2011 and 2010, sales from its operations located in the United Kingdom accounted for 16% and 12%, respectively, of total Company revenues. No other foreign geographic area accounted for more than 10% of consolidated revenues for the three months ended November 30, 2011 and 2010.

	November 30, 2011	August 31, 2011
Total assets		
Industrial Materials	\$ 50,159 (a)	\$ 49,306 (b)

Edgar Filing: CHASE CORP - Form 10-Q

Note 7 Goodwill and Other Intangibles

The changes in the carrying value of goodwill, by reportable segment, are as follows:

	Construction Materials		Industrial Materials		Consolidated
Balance at August 31, 2011	\$ 10,661	\$	7,399	\$	\$ 18,060
Acquisition of Capital Services - additional earnout	87				87
FX translation adjustment	(13)		(300)		(313)
Balance at November 30, 2011	\$ 10,735	\$	7,099	\$	\$ 17,834

The Company evaluates the possible impairment of goodwill annually each fourth quarter and whenever events or circumstances indicate the carrying value of goodwill may not be recoverable.

Intangible assets subject to amortization consist of the following as of November 30, 2011 and August 31, 2011:

	Weighted-Average Amortization Period		Gross Carrying Value		Accumulated Amortization		Net Carrying Value
November 30, 2011

Note 8 Commitments and Contingencies

The Company is one of over 100 defendants in a lawsuit pending in Ohio which alleges personal injury from exposure to asbestos contained in certain Chase products. The case is captioned Marie Lou Scott, Executrix of the Estate of James T. Scott v. A-Best Products, et al., No. 312901 in the Court of Common Pleas for Cuyahoga County, Ohio. The plaintiff in the case issued discovery requests to Chase in August 2005, to which Chase timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date had been postponed and no new trial date has been set. As of November 2011, there have been no new developments as this Ohio lawsuit has been inactive with respect to Chase.

The Company was named as one of the defendants in a complaint filed on June 25, 2009, in a lawsuit captioned Lois Jansen, Individually and as Special Administrator of the Estate of Thomas Jansen v. Beazer East, Inc., et al., No: 09-CV-6248 in the Milwaukee County (Wisconsin) Circuit Court. The plaintiff alleges that her husband suffered and died from malignant mesothelioma resulting from exposure to asbestos in his workplace. The plaintiff has sued seven alleged manufacturers or distributors of asbestos-containing products, including Royston Laboratories (formerly an independent company and now owned by Chase Corporation). Chase has filed an answer to the claim denying the material allegations in the complaint. The parties are currently engaged in discovery.

In addition to the matters described above, the Company is involved from time to time in litigation incidental to the conduct of its business. Although the Company does not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on its financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered, that could adversely affect the Company's operating results or cash flows in a particular period. The Company routinely assesses all of its litigation and threatened litigation as to the probability of ultimately incurring a liability, and records its best estimate of the ultimate loss in situations where the Company assesses the likelihood of loss as probable.

Note 9 - Pensions and Other Post Retirement Benefits

The components of net periodic benefit cost for the three months ended November 30, 2011 and 2010 are as follows:

	November 30, 2011	November 30, 2010
Service cost	\$ 121	\$ 131
Interest cost	130	108
Expected return on plan assets	(131)	(110)

Edgar Filing: CHASE CORP - Form 10-Q

Amortization of prior service cost		18		18
Amortization of unrecognized loss		69		60
Net periodic benefit cost	\$	207	\$	207

When funding is required, the Company's policy is to contribute amounts that are deductible for federal income tax purposes. As of November 30, 2011, the Company has made contributions of \$375 in the current fiscal year to fund its obligations under its pension plan, and plans to make the necessary contributions over the remainder of fiscal 2012 to ensure the qualified plan continues to be adequately funded given the current market conditions.

Note 10 Fair Value Measurements

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company uses a three-tier fair value hierarchy, which classifies the inputs used in measuring fair values. These tiers include: Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Company endeavors to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company has determined that it does not have any financial liabilities measured at fair value and that its financial assets are currently all classified within Level 1 in the fair value hierarchy. The financial assets classified as Level 1 as of November 30, 2011 and August 31, 2011 represent investments which are restricted for use in a nonqualified retirement savings plan for certain key employees and directors.

The following tables set forth the Company's financial assets that were accounted for at fair value on a recurring basis as of November 30, 2011 and August 31, 2011:

	Fair value measurement date	Total	Fair value measurement category		
			Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:					
Restricted investments	November 30, 2011	\$ 759	\$ 759	\$	\$
Restricted investments	August 31, 2011	\$ 740	\$ 740	\$	\$

Note 11 Sale Leaseback Transaction

In June 2009, the Company entered into a sale leaseback transaction pursuant to the sale of its real property (land and building) located in Evanston, IL. As part of this transaction, the Company agreed to provide financing to the purchaser, whereby the interest due on the financing is equal to the rental payments over the life of the lease. The Company had been accounting for this sale leaseback transaction under the deposit

Edgar Filing: CHASE CORP - Form 10-Q

method due to its continued involvement in the form of providing this permanent financing to the buyer. The Company has provided this recourse financing to the buyer whereby the only recourse it has is to take back control and ownership of the leased asset. Under the deposit method, the Company reported the property on its balance sheet and recorded depreciation expense as a period cost in its statement of operations. As of August 31, 2011, the property remained on its consolidated balance sheet in its original caption of property, plant, and equipment.

Deposits received in the form of cash from the buyer, totaling \$425, were being reported as a deposit on the contract and were previously included on the balance sheet in other non-current liabilities. The remainder of the \$4,250 sales price (\$3,825) was due at various dates over the term of the 49 month lease, of which \$3,400 was due at the end of the lease term in July 2013. In the quarter ending November 30, 2011, the purchaser notified the Company that they would not be making any additional payments under the terms of the purchase agreement and seller financing arrangement. As a result, the Company is in the process of taking back

Table of Contents

CHASE CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share amounts

control and ownership of the leased asset. Accordingly, it has recognized the \$425 in deposit payments as income in the quarter ended November 30, 2011.

Note 12 Assets Held for Sale

The Company periodically reviews long-lived assets against its plans to retain or ultimately dispose of these assets. If the Company decides to dispose of an asset and commits to a plan to actively market and sell the asset, it will be moved to assets held for sale. The Company analyzes market conditions each reporting period and records additional impairments due to declines in market values of like assets. The fair value of the asset is determined by observable inputs such as appraisals and prices of comparable assets in active markets for assets like the Company's. Gains are not recognized until the assets are sold.

As of November 30, 2011, as a result of the completion of the move of the Webster, MA manufacturing facility to Oxford, MA, the Company has classified its Webster property (including land, building and improvements with book value of approximately \$994) as assets held for sale. In December 2011, the Company finalized the sale of its Webster property for net proceeds of approximately \$1,009. This transaction resulted in a gain of approximately \$15 which will be recorded in the Company's fiscal quarter ending February 29, 2012.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides an analysis of our financial condition and results of operations and should be read in conjunction with the unaudited Consolidated Financial Statements and notes thereto included in Item 1 of Part I of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K filed for the fiscal year ended August 31, 2011.

Overview

Our results in the quarter ending November 30, 2011 reflect continued challenges with material costs coupled with unfavorable product mix as increased sales generated lower operating income than the prior year period. Our Construction Materials segment was impacted more directly as the timing of certain projects were delayed and overall profit margins are tighter than what we experience in our Industrial Materials segment. Corporate and common costs benefitted from the recognition of previously deferred income totaling \$425,000 on the sale of our Evanston, IL property. This is being recorded in light of our decision to take back control and ownership of this property that had previously been sold and leased backed under a seller financing arrangement.

Consistent with previous periods, we will continue in fiscal 2012 with our strategic plans to improve and enhance our facilities and equipment. We believe these plans are critical to the long term growth of the Company. These include continued renovations of our facility in Oxford, MA. The relocation of our Webster, MA operations to Oxford has been completed and we anticipate that the upcoming move of our Randolph, MA operations to the same facility will be completed by December 2012. We are also transitioning our HumiSeal Europe Ltd. manufacturing operations and European headquarters from Camberley, UK to a modern facility in Winnersh, UK. This move will be completed in the second quarter of fiscal 2012.

The upcoming second fiscal quarter is traditionally a slower time of the year for many of our product lines, especially within the Construction Materials segment. We will continue to pay close attention to the overall global economy and proactively manage our overhead costs. The monitoring of raw material costs continues to be critical as continued margin compression remains a challenge in the year ahead. Investments in efficiency improvements, long term consolidation, R&D, technology and marketing will allow us to grow the business in future years.

We have two reportable segments as summarized below:

Segment	Product Lines	Manufacturing Focus and Products
Industrial Materials	<ul style="list-style-type: none"> • Wire and Cable • Electronic Coatings • Custom Products 	Protective coatings and tape products including insulating and conducting materials for wire and cable manufacturers, moisture protective coatings for electronics and printing services, laminated durable papers, and flexible composites and laminates for the aerospace, packaging and industrial laminate markets.

Edgar Filing: CHASE CORP - Form 10-Q

Construction Materials

- Pipeline
- Construction Products
- Private Label

Protective coatings and tape products including coating and lining systems for use in liquid storage and containment applications, protective coatings for pipeline and general construction applications, high performance polymeric asphalt additives, and expansion and control joint systems for use in the transportation and architectural markets.

Table of Contents**Results of Operations**

Revenues and Operating Profit by Segment are as follows (Dollars in Thousands):

	Three Months Ended November 30, 2011	% of Total Revenues		Three Months Ended November 30, 2010	% of Total Revenues
Revenues from external customers					
Industrial Materials	\$ 19,486	61%	\$	18,170	58%
Construction Materials	12,644	39%		13,097	42%
Total	\$ 32,130		\$	31,267	

	Three Months Ended November 30, 2011	% of Segment Revenues		Three Months Ended November 30, 2010	% of Segment Revenues
Income before income taxes					
Industrial Materials	\$ 3,644 (a)	19%	\$	3,824 (b)	21%
Construction Materials	395	3%		1,823	14%
Total for reportable segments	4,039	13%		5,647	18%
Corporate and Common Costs	(459) (c)			(1,005)	
Total	\$ 3,580	11%	\$	4,642	15%

(a) Includes idle facility costs of \$277 from our Paterson, NJ and Webster, MA facilities

(b) Includes idle facility costs of \$116 from our Paterson, NJ and Oxford, MA facilities

(c) Includes gain of \$425 on Evanston sale leaseback transaction

Total Revenues

Total revenues increased \$863,000 or 3% to \$32,130,000 for the quarter ended November 30, 2011 compared to \$31,267,000 in the same quarter of the prior year. Revenues in our Industrial Materials segment increased \$1,316,000 or 7% to \$19,486,000 for the quarter ended November 30, 2011 compared to \$18,170,000 in the same quarter of the prior year. The increase in revenues from our Industrial Materials segment in the current quarter was primarily due to increased sales of \$1,697,000 from our wire & cable product line as we continue to benefit from strong demand in the power cable and communication cable markets. These were partially offset by decreased sales of \$155,000 from our electronic coatings product line primarily due to weak demand for export sales into Asia.

Revenues from our Construction Materials segment decreased \$453,000 or 3% to \$12,644,000 in the current quarter compared to \$13,097,000 in the same period last year. The reduced sales from our Construction Materials segment in the current quarter was primarily due to decreased sales of \$1,340,000 of our coating and lining systems (CIM Industries) which experienced a record first quarter in fiscal 2011, as well as decreased sales of \$985,000 from our highway construction products due to the timing of projects. These decreases were partially offset by increased sales of \$1,164,000 from our pipeline products as we had strong demand for pipeline products produced at our UK facility, and

increased sales of \$708,000 from our private label products due to increased demand from some of our key customers.

Cost of Products and Services Sold

Cost of products and services sold increased \$1,939,000 or 10% to \$21,999,000 in the quarter ended November 30, 2011 compared to \$20,060,000 in the same period in fiscal 2011. As a percentage of revenues, cost of products and services sold increased to 68% in the current fiscal year compared to 64% in the same period in fiscal 2011.

Table of Contents

The following table summarizes our costs of products and services sold as a percentage of revenues for each of our reporting segments:

Cost of products and services sold	Three Months Ended November 30,	
	2011	2010
Industrial Materials	65%	64%
Construction Materials	73%	65%
Total	68%	64%

Cost of products and services sold in our Industrial Materials segment was \$12,708,000 for the first three months of fiscal 2012 compared to \$11,594,000 for the same period in the prior year. As a percentage of revenues, cost of products and services sold in the Industrial Materials segment increased primarily due to non-recurring moving expenses of \$233,000 related to our plant transition from Webster to Oxford and severance costs of \$100,000 related to the planned move from our Randolph plant. Certain supplier inconsistencies that resulted in excess waste and incremental expenses related to the utilization of specialized testing facilities for analyzing incoming raw materials for proper specifications also had a negative impact on this segment.

Cost of products and services sold in our Construction Materials segment was \$9,291,000 in the current quarter compared to \$8,466,000 for the same period last year. As a percentage of revenues, cost of products and services sold in the Construction Materials segment increased primarily due to higher raw material costs, increased sales of lower margin products, and decreased sales of higher margin products. We have initiated price increases for certain products in this segment and continue to closely monitor raw material pricing across all product lines to preserve margins. While we saw improvements from our Rye, UK plant compared to the fourth quarter of fiscal 2011, we had incremental costs of \$291,000 related to production issues in the current quarter.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$404,000 or 6% to \$6,992,000 in the quarter ended November 30, 2011 compared to \$6,588,000 in the same period in fiscal 2011. The increase in the current quarter over the prior year period is primarily attributable to increased investment in marketing, R&D, quality control procedures and technology enhancements.

Interest Expense

Interest expense decreased \$57,000 or 61% to \$36,000 in the quarter ended November 30, 2011, compared to \$93,000 in the same period in fiscal 2011. The decrease in interest expense from the prior year period is primarily due to the capitalization of imputed interest on construction in process projects related to our Oxford, MA and Pittsburgh, PA facilities, as well as continued favorable interest rates on lower overall term debt balances.

Other Income (Expense)

Other income increased \$361,000 to \$477,000 in the quarter ended November 30, 2011 compared to \$116,000 in the same period in the prior year. Other income primarily includes interest income and foreign exchange gains (losses) caused by changes in exchange rates on transactions or balances denominated in currencies other than the functional currency of our subsidiaries. In the current quarter, other income also includes a gain of \$425,000 recognized on deposit payments previously received on the sale of our Evanston, IL property. The Company is in the process of taking back control and ownership of this leased asset which was previously sold by us under a seller financing arrangement (see note 11 to the consolidated financial statements). The increase in other income is partially offset by decreased foreign exchange gains caused by the continued weakening of the euro, and the subsequent revaluation of some of our European sales transactions completed in other functional currencies (and subsequently translated to the sterling and the euro).

Table of Contents

Income Taxes

The effective tax rate was 35.0% in the quarter ended November 30, 2011 compared to 37.0% in the same period in fiscal 2011. The lower effective tax rate in fiscal 2012 is primarily due to an increase in the applicable domestic production deduction and a more favorable state income tax rate.

Net Income

Consolidated net income decreased \$598,000 or 20% to \$2,327,000 in the quarter ended November 30, 2011 compared to \$2,925,000 in fiscal 2011. The decrease in consolidated net income in the current year is primarily a result of increased cost of products and services sold as discussed above.

Liquidity and Sources of Capital

Our overall cash balance decreased \$2,209,000 to \$12,773,000 at November 30, 2011, from \$14,982,000 at August 31, 2011. The reduced cash balance is primarily attributable to principal payments on outstanding debt and equipment purchases. Additionally, a portion of cash held as of November 30, 2011 was subsequently used in December 2011 to pay our annual dividend. We will continue to review our current cash balances denominated in foreign currency in light of current tax guidelines, working capital requirements, infrastructure improvements and potential acquisitions.

Cash flow provided by operations was \$1,251,000 in the first quarter of fiscal 2012 compared to \$156,000 in the prior year's first quarter. Cash provided by operations during the first three months of fiscal 2012 was primarily due to operating income, decreased accounts receivable and increased accounts payable balances offset by increased inventory balances and a decrease in accrued expenses due to the timing of tax payments and payment of our annual incentive compensation.

The ratio of current assets to current liabilities was 2.6 as of November 30, 2011, compared to 2.9 as of August 31, 2011. The decrease in our current ratio at November 30, 2011 was primarily attributable to decreases in cash, accounts receivable and other current assets coupled with an increase for the accrual of the fiscal 2011 annual dividend which was declared in the current quarter and paid in December 2011.

Cash flow used in investing activities of \$1,349,000 was primarily due to cash paid for purchases of machinery and equipment at our manufacturing locations during fiscal 2012.

Cash flow used in financing activities of \$1,850,000 was primarily due to payments made on the bank loans used to finance our past acquisitions of CIM and ServiWrap, as well as the second of three scheduled promissory note payments of \$1,000,000 to the CIM shareholders in accordance

Edgar Filing: CHASE CORP - Form 10-Q

with the CIM stock purchase agreement, described in more detail below.

On October 13, 2011, we announced a cash dividend of \$0.35 per share (totaling \$3,165,000), to shareholders of record on October 31, 2011 and payable on December 5, 2011.

We continue to have long-term unsecured credit available up to \$10,000,000 with Bank of America at the bank's base lending rate or, at our option, at the effective London Interbank Offered Rate (LIBOR) plus 150 basis points. As of November 30, 2011 and December 31, 2011, the entire amount of \$10,000,000 was available for use. We plan to use this availability to help finance our cash needs, including potential acquisitions, in fiscal 2012 and future periods.

Table of Contents

Under the terms of our credit facility, we must comply with certain debt covenants related to (a) the ratio of total liabilities to tangible net worth and (b) the ratio of operating cash flow to debt service on a rolling twelve month basis. We were in compliance with our debt covenants as of November 30, 2011. The line of credit has a maturity date of March 31, 2013.

We borrowed \$10,000,000 from Bank of America in September 2009 in order to fund our acquisition of CIM. This borrowing involved an unsecured, three year term note (the Term Note) with interest and principal payments due monthly. Interest is calculated at the applicable LIBOR rate plus a margin of 175 basis points, with interest payments due on the last day of each month. In addition to monthly interest payments, we are repaying the principal in equal installments of \$167,000 per month, beginning on September 30, 2009, and on the last day of each month thereafter until maturity. At November 30, 2011, the applicable interest rate was 2.01% per annum and the outstanding principal amount was \$5,500,000. The Term Note is subject to the same debt covenants as our line of credit discussed above. Prepayment of the Term Note is allowed at any time during the term of the loan. In November 2011, we executed an amendment to this Term Note, extending the maturity from August 31, 2012 to August 31, 2014. The monthly payments of \$167,000 will continue through August 2014, at which time we will repay the remaining principal balance plus any interest then due. All other terms of the Term Note remain the same.

As part of the CIM acquisition in September 2009, we also delivered \$3,000,000 in non-negotiable promissory notes (the Notes) payable to five CIM shareholders, who were the holders of all of the issued and outstanding shares of capital stock of CIM as of the acquisition date. The principal of the Notes will be paid in three consecutive annual installments of \$1,000,000 each, with the initial payment due on September 4, 2010. Interest on the unpaid principal balance of the Notes is accruing at a rate per annum equal to the applicable Federal rate, and will be paid annually with each principal payment. At November 30, 2011, the applicable interest rate was 0.84% per annum. We paid the first installment on the Notes in September 2010 and the second installment in September 2011. The third installment on the Notes will be paid in September 2012.

In December 2009, we borrowed \$7,000,000 from RBS Citizens in order to fund our acquisition of the ServiWrap product lines. This borrowing involved an unsecured, three year term note (the Term Loan) with interest and principal payments due monthly. Interest is calculated at the applicable LIBOR rate plus a margin of 190 basis points, with interest payments due on the last day of each month. In addition to monthly interest payments, we are repaying the principal in equal installments of \$117,000 each, beginning on January 15, 2010, and on the 15th day of each month thereafter, ending on December 15, 2012, when we will repay the remaining principal balance plus any interest then due. The Term Loan is subject to the same debt covenants as our line of credit discussed above. Prepayment of the Term Loan is allowed at any time. At November 30, 2011, the applicable interest rate was 2.15% per annum, and the outstanding principal amount was approximately \$4,317,000.

To the extent that interest rates increase in future periods, we will assess the impact of these higher interest rates on the financial and cash flow projections of our potential acquisitions.

We have no significant off balance sheet arrangements.

We currently have several on-going capital projects that are important to our long term strategic goals. These projects include the upcoming move of our HumiSeal Europe LTD manufacturing operations from Camberley, UK to a modern facility in Winnersh, UK. We are also continuing to renovate our Oxford, MA, and Pittsburgh, PA facilities in anticipation of the relocation of our operations from Randolph, MA. This transition will be completed by December 2012 and we will then pursue a sale of our Randolph property. Machinery and equipment will also be added as needed to increase capacity or enhance operating efficiencies in our other manufacturing plants.

Table of Contents

We may consider the acquisition of companies or other assets this year or in future periods which are complementary to our business. We believe that our existing resources, including cash on hand and our line of credit, together with cash generated from operations and additional bank borrowings, will be sufficient to fund our cash flow requirements through at least the next twelve months. However, there can be no assurances that additional financing will be available on favorable terms, if at all.

Contractual Obligations

Please refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations section in our Form 10-K for the fiscal year ended August 31, 2011 for a complete discussion of our contractual obligations.

Recent Accounting Standards

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income, (ASU 2011-05) which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, we must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. ASU 2011-05 will be effective for public companies during the interim and annual periods beginning after December 15, 2011 with early adoption permitted. The adoption of ASU 2011-05 will not have an impact on our consolidated financial position, results of operations or cash flows as it only requires a change in the format of our current presentation.

In September 2011, the FASB issued ASU No. 2011-08, Intangibles - Goodwill and Other (ASC Topic 350) - Testing Goodwill for Impairment, (ASU 2011-08) which gives companies the option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount before performing the two-step test mandated prior to this update. ASU 2011-08 also provides companies with a revised list of examples of events and circumstances to consider, in their totality, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If a company concludes that this is the case, it must perform the two-step test. Otherwise, a company may skip the two-step test. Companies are not required to perform the qualitative assessment and may instead proceed directly to the first step of the two-part test. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The adoption of ASU 2011-08 will not have an impact on our consolidated financial position, results of operations or cash flows.

Table of Contents

Critical Accounting Policies and Estimates

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. To apply these principles, we must make estimates and judgments that affect our reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. In many instances, we reasonably could have used different accounting estimates and, in other instances, changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from our estimates. To the extent that there are material differences between these estimates and actual results, our financial condition or results of operations will be affected. We base our estimates and judgments on historical experience and other assumptions that we believe to be reasonable at the time and under the circumstances, and we evaluate these estimates and judgments on an ongoing basis. We refer to accounting estimates and judgments of this type as critical accounting policies, judgments, and estimates. Management believes there have been no material changes during the three months ended November 30, 2011 to the critical accounting policies reported in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the fiscal year ended August 31, 2011.

Forward Looking Information

The part of this Quarterly Report on Form 10-Q captioned Management's Discussion and Analysis of Financial Condition and Results of Operations contains certain forward-looking statements, which involve risks and uncertainties. Forward-looking statements include, without limitation, statements as to our future operating results, plans for manufacturing facilities, future economic conditions and expectations or plans relating to the implementation or realization of our strategic goals and future growth. These statements are based on current expectations, estimates and projections about the industries in which we operate, and the beliefs and assumptions made by management. Readers should refer to the discussions under Forward Looking Information and Risk Factors contained in our Annual Report on Form 10-K for the fiscal year ended August 31, 2011 concerning certain factors that could cause our actual results to differ materially from the results anticipated in such forward-looking statements. These discussions and Risk Factors are hereby incorporated by reference into this Quarterly Report.

Table of Contents

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

We limit the amount of credit exposure to any one issuer. At November 30, 2011, other than our restricted investments (which are restricted for use in a non-qualified retirement savings plan for certain key employees and Directors), all of our funds were either in demand deposit accounts or investment instruments that meet high credit quality standards such as money market funds, government securities, or commercial paper.

Our domestic operations have limited currency exposure since substantially all transactions are denominated in US dollars. However, our European operations are subject to currency exchange fluctuations. We continue to review our policies and procedures to reduce this exposure while maintaining the benefit from these operations and sales to other European customers. As of November 30, 2011, we had cash balances in the United Kingdom for our HumiSeal Europe Ltd and Chase Protective Coatings Ltd operations denominated primarily in pounds sterling and equal to \$4,549,000 and cash balances in France for our HumiSeal Europe SARL operations denominated primarily in euros and equal to \$673,000. We will continue to review our current cash balances denominated in foreign currency in light of current tax guidelines, working capital requirements, infrastructure improvements and potential acquisitions.

We incurred a foreign currency translation loss for the three months ended November 30, 2011 in the amount of \$1,337,000 related to our European operations which is recorded in other comprehensive income within our Statement of Stockholders' Equity. We do not have or utilize any derivative financial instruments.

Item 4 - Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carry out a variety of ongoing procedures, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in internal control over financial reporting

There was no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II OTHER INFORMATION

Item 1 Legal Proceedings

We are one of over 100 defendants in a lawsuit pending in Ohio which alleges personal injury from exposure to asbestos contained in certain Chase products. The case is captioned Marie Lou Scott, Executrix of the Estate of James T. Scott v. A-Best Products, et al., No. 312901 in the Court of Common Pleas for Cuyahoga County, Ohio. The plaintiff in the case issued discovery requests to us in August 2005, to which we timely responded in September 2005. The trial had initially been scheduled to begin on April 30, 2007. However, that date had been postponed and no new trial date has been set. As of November 2011, there have been no new developments as this Ohio lawsuit has been inactive with respect to us.

We were named as one of the defendants in a complaint filed on June 25, 2009, in a lawsuit captioned Lois Jansen, Individually and as Special Administrator of the Estate of Thomas Jansen v. Beazer East, Inc., et al., No: 09-CV-6248 in the Milwaukee County (Wisconsin) Circuit Court. The plaintiff alleges that her husband suffered and died from malignant mesothelioma resulting from exposure to asbestos in his workplace. The plaintiff has sued seven alleged manufacturers or distributors of asbestos-containing products, including Royston Laboratories (formerly an independent company and now owned by Chase Corporation). We have filed an answer to the claim denying the material allegations in the complaint. The parties are currently engaged in discovery.

In addition to the matters described above, we are involved from time to time in litigation incidental to the conduct of our business. Although we do not expect that the outcome in any of these matters, individually or collectively, will have a material adverse effect on our financial condition or results of operations, litigation is inherently unpredictable. Therefore, judgments could be rendered or settlements entered, that could adversely affect our operating results or cash flows in a particular period. We routinely assess all of our litigation and threatened litigation as to the probability of ultimately incurring a liability, and record our best estimate of the ultimate loss in situations where we assess the likelihood of loss as probable.

Item 1A Risk Factors

Please refer to Item 1A in our Form 10-K for the fiscal year ended August 31, 2011 for a complete discussion of the risk factors which could materially affect our business, financial condition or future results.

Item 6 - Exhibits

Exhibit Number	Description
