Chairman's Letter to Shareholders

## Dear Shareholders,

These are perplexing times for investors. The global economy continues to struggle. The solutions being implemented in the eurozone to deal with the debt crises of many of its member countries are not yet seen as sufficient by the financial markets. The political paralysis in the U.S. has prevented the compromises necessary to deal with the fiscal imbalance and government spending priorities. The efforts by individual consumers, governments and financial institutions to reduce their debts are increasing savings but reducing demand for the goods and services that drive employment. These developments are undermining the rebuilding of confidence by consumers, corporations and investors that is so essential to a resumption of economic growth.

Although it is painfully slow, progress is being made. In Europe, the turnover of a number of national governments reflects the realization by politicians and voters alike that leaders who practiced business as usual had to be replaced by leaders willing to face problems and accept the hard choices needed to resolve them. The recent coordinated efforts by central banks in the U.S. and Europe to provide liquidity to the largest European banks indicates that these monetary authorities are committed to facilitating a recovery in the European banking sector.

In the U.S., the failure of the congressionally appointed Debt Reduction Committee was a blow to those who hoped for a bipartisan effort to finally begin addressing the looming fiscal crisis. Nevertheless, Congress and the administration cannot ignore the issue for long. The Bush era tax cuts are scheduled to expire on December 31, 2012, and six months later the \$1.2 trillion of mandatory across-the-board spending cuts under the Budget Control Act of 2011 begin to go into effect. Any legislative modification would require bipartisan support and the prospects for a bipartisan solution are unclear. The impact of these two developments would be a mixed blessing: a meaningful reduction in the annual budget deficit at the cost of slowing the economic recovery.

It is in these particularly volatile markets that professional investment management is most important. Skillful investment teams who have experienced challenging markets and remain committed to their investment disciplines are critical to the success of an investor's long-term objectives. In fact, many long-term investment track records are built during challenging markets when managers are able to protect investors against these economic crosscurrents. Experienced investment teams know that volatile markets put a premium on companies and investment ideas that will weather the short-term volatility and that compelling values and opportunities are opened up when markets overreact to negative developments. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner Chairman of the Board March 22, 2012

Portfolio Managers' Comments

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.

Nuveen Quality Preferred Income Fund (JTP) Nuveen Quality Preferred Income Fund 2 (JPS) Nuveen Quality Preferred Income Fund 3 (JHP)

The Funds are sub-advised by a team of specialists at Spectrum Asset Management, a wholly owned subsidiary of Principal Global Investors, LLC. Mark Lieb and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team. Here Mark and Phil talk about their management strategy and the performance of each Fund for six-month period ended January 31, 2012.

# What key strategies were used to manage the Funds during the six-month period ended January 31, 2012?

The investment objective of each Fund is to seek high current income consistent with capital preservation. Each Fund's secondary objective is to enhance portfolio value. Under normal market conditions, the Funds seek to invest at least 80% of their net assets in preferred securities and up to 20% in debt securities, including convertible debt and convertible preferred securities.

Our basic strategy is to stay relatively balanced between the individual investor-oriented \$25 par preferred securities often traded on securities exchanges and the institutional investor-oriented \$1000 par preferred securities traded over-the-counter in the capital markets. Both types of securities offer different performance opportunities, which together with the broad diversification benefits of the combined universe, help to produce potentially attractive risk-adjusted rates of return.

We keep a risk-averse posture toward security structure, which is an important core aspect of our effort to preserve capital and provide attractive income over the long term. We also maintain approximately a 60% weighting to U.S. issued securities and a 40% weighting to foreign names as part of the strategy of all three Funds includes seeking to invest in U.S. versus foreign issuers in approximately the same proportion as the Comparative Benchmark.

During the reporting period, we were equal weight in Germany and underweight in France and Britain versus the benchmark. We also were overweight in a number of other countries, such as Canada, Bermuda

and Switzerland. On a market sector basis, we were overweight in capital securities by about 5% because of what we saw as the potential for better call protection and more upside opportunity.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the Performance Overview page for your Fund in this report.

- \* Six-month returns are cumulative; all other returns are annualized.
- \*\* Refer to Glossary of Terms Used in this Report for definitions.

#### How did the Funds perform over this six-month period?

The performance of the Funds, as well as comparative index and benchmark, are presented in the accompanying table.

#### Average Annual Total Returns on Common Share Net Asset Value

For the periods ended 1/31/12

Fund	6-Month*	1-Year	5-Year
JTP	1.51%	5.98%	-1.95%
JPS	0.87%	5.38%	-1.21%
JHP	0.92%	5.38%	-1.66%
Barclays Capital U.S. Aggregate Bond			
Index**	4.25%	8.66%	6.70%
Comparative Benchmark**	1.80%	5.30%	1.26%

For the six-month period ended January 31, 2012, all three Funds underperformed the Barclays Capital U.S. Aggregate Bond Index and Comparative Benchmark.

During the reporting period, several factors contributed positively to each Fund's performance. In general, U.S. securities did well, followed by Great Britain. As of January 31, 2102, each Fund had more than 70% of its portfolio in issues of companies domiciled in the U.S. or Great Britain. Several holdings in particular contributed to positive performance, including issues from Firstar Realty, Reliance Capital, Credit Suisse, HSBC Holdings, Weingarten Realty Trust, Barclays Bank, First Union Capital Trust and Lincoln National Corporation.

The Funds were impacted negatively throughout the reporting period from protracted European sovereign debt concerns that revalued financial risk in the foreign bank names of the region, as well as in some of the foreign insurance issues. In particular, the French and the German sectors did poorly. While each Fund's holdings in European securities was relatively modest when compared with its U.S. positions, the overall impact of these European holdings was negative. Several of the individual positions that contributed to the Funds underperformance included AXA, Deutsche Bank, Aegon and Swiss Re Capital.

Fund Leverage and Other Information

# IMPACT OF THE FUNDS' LEVERAGE STRATEGY ON PERFORMANCE

One important factor impacting the return of the Funds relative to their benchmarks was the Funds' use of leverage through the use of bank borrowings. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common share total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund sentered into interest rate swap contracts to partially fix the interest cost of their leverage. This activity detracted modestly from the overall positive impact of leverage, as rates declined slightly while the positions were in place, meaning it would have been better had the interest rates of the leverage floated rather than being partially fixed in the period.

# UPDATE ON LITIGATION REGARDING THE FUNDS' REDEMPTION OF AUCTION RATE PREFERRED SHARES

During 2011, certain funds (including these Funds) were named in a consolidated complaint as nominal defendants in a putative shareholder derivative action captioned *Martin Safier, et al. v. Nuveen Asset Management, et al.* that was filed in the Circuit Court of Cook County, Illinois, Chancery Division (the "Cook County Chancery Court") on February 18, 2011 (the "Complaint"). The Complaint, filed on behalf of purported holders of each fund's common shares, also named Nuveen Fund Advisors, Inc. as a defendant, together with current and former Officers and interested Directors/Trustees of each of the funds (together with the nominal defendants, collectively, the "Defendants"). The Complaint contained allegations regarding breaches of fiduciary duties in connection with the redemption of auction rate preferred shares issued by the funds. The Defendants filed a motion to dismiss the suit and on December 16, 2011, the court granted that motion dismissing the Complaint. The plaintiffs failed to file an appeal of the court's decision within the required time period, resulting in the final disposition of the suit.

## **RISK CONSIDERATIONS**

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation.

Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment Risk. The possible loss of the entire principal amount that you invest.

**Price Risk.** Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Leverage Risk.** Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

**Tax Risk.** The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

**Issuer Credit Risk.** This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

**Interest Rate Risk.** Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

**Reinvestment Risk.** If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

**Preferred Stock Risk.** Preferred stocks are subordinated to bonds and other debt instruments in a company's capital structure, and therefore are subject to greater credit risk.

**Call Risk or Prepayment Risk.** Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

**Non-U.S. Securities Risk.** Investments in non-U.S securities involve special risks not typically associated with domestic investments including currency risk and adverse political, social and economic developments. These risks often are magnified in emerging markets.

**Derivatives Strategy Risk.** Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

Common Share Distribution and Price Information

## **Distribution Information**

The following information regarding your Fund's distributions is current as of January 31, 2012, and likely will vary over time based on each Fund's investment activities and portfolio investment value changes.

During the six-month reporting period, the Funds did not make any changes to their monthly distributions to common shareholders. Some of the important factors affecting the amount and composition of these distributions are summarized below.

The Funds employ leverage through the use of bank borrowings. Financial leverage provides the potential for higher earnings (net investment income), total returns and distributions over time, but as noted earlier also increases the variability of common shareholders' net asset value (NAV) per share in response to changing market conditions.

During certain periods, the Funds may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Funds during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of earnings, the excess constitutes negative UNII that is likewise reflected in a Funds' NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of January 31, 2012, all three Funds had positive UNII balances, based upon our best estimate, for tax purposes. JTP and JPS had positive UNII balances and JHP had a negative UNII balance for financial reporting purposes.

#### **Common Share Repurchases and Share Price Information**

As of January 31, 2012, and since the inception of the Funds' repurchase program, the Funds have not repurchased any of their outstanding common shares.

At January 31, 2012, the Funds' common share prices were trading at (+) premiums/(-) discounts to their common share NAVs as shown in the accompanying table.

Fund	1/31/12 (+) Premium/(-) Discount	5	
JTP	(+)0.62%	(-)2.08%	
JPS	(-)0.59%	(-)4.19%

\* Annualized.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.

(2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(3) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(4) Non-income producing; issuer has not declared a dividend within the past twelve months.

(5) Borrowings as a percentage of Total Investments is 27.6%.

(6) The Fund may pledge up to 100% of its eligible investments in the Portfolio of Investments as collateral for Borrowings. As of January 31, 2012, investments with a value of \$586,465,520 have been pledged as collateral for Borrowings.

(7) Other Assets Less Liabilities includes the net Unrealized Appreciation (Depreciation) of derivative instruments as noted within Investments in Derivatives at January 31, 2012.

N/R Not rated.

144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

CORTS Corporate Backed Trust Securities.

## 1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company that, operating as a Multiple Service Bank, carries out all types of authorized banking activities through its commercial, foreign exchange, consumer financing and housing loan portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiaries, particularly in leasing, investment banking, brokerage, consortium management, credit cards, insurance, private pension plans and savings bonds. Operations are conducted within the context of the Bradesco Organization companies, working in an integrated manner in the market.

In this context, Bradesco conducted the following operations in 2009:

On June 4, Bradesco entered into an agreement with the controlling shareholders of Banco Ibi S.A. (Banco Ibi) to acquire the totality of its capital stock and its subsidiaries. Concomitantly, as part of the agreement, a partnership agreement was entered into with C&A Modas Ltda. for a twenty-year term to, jointly, exclusively trade financial products and services through the C&A store network. The operation was approved by the Brazilian Central Bank (Bacen) on September 11, 2009, and the Special General Meeting held on October 29, 2009 resolved on the merger of all shares representing the capital stock of Ibi Participações into Bradesco; and

On October 18, an association agreement was signed between Odontoprev and Bradesco Dental, to integrate the sales of dental plans with the merger of Bradesco Dental shares into Odontoprev. Subsequently, Bradesco Dental became a wholly-owned subsidiary of Odontoprev and Bradesco Saúde received shares issued by the latter, holding 43.50% of its capital stock. The operation was previously authorized, on December 2, 2009, by the National Agency for Supplementary Healthcare (ANS) and it is pending the analysis of the Antitrust and Consumer Protection Division of the Brazilian Ministry of Justice.

#### 2) PRESENTATION OF THE FINANCIAL STATEMENTS

The consolidated financial statements of Bradesco include the financial statements of Banco Bradesco, its foreign branches and its direct and indirect subsidiaries and jointly-controlled investments, in Brazil and abroad, and SPEs. They were prepared based on accounting practices determined by the Brazilian Corporation Law 6,404/76, with the amendments introduced by Law 11,638/07 and Provisional Measure 449/08 (which became Law 11,941/09) related to the accounting of operations, as well as the rules and instructions of the Monetary National Council (CMN), Bacen, Securities and Exchange Commission of Brazil (CVM), National Private Insurance Council (CNSP), Insurance Superintendence (Susep), ANS and Committee for Accounting Pronouncements (CPC), when applicable, and consider the financial statements of leasing companies based on the finance lease method, whereby leased fixed assets are reclassified to the leasing operations account, less the residual value paid in advance.

Accordingly, for preparation purposes, intercompany investments, asset and liability account balances, revenue, expenses and unrealized profit were eliminated from these financial statements, as well as separate presentation of net income and shareholders equity referring to the interest of non-controlling shareholders. In the case of investments which are jointly controlled with other shareholders, asset, liability and income components were included in the consolidated financial statements in proportion to the capital stock percentage owned of each investee. Goodwill determined on acquisition of investments in subsidiaries and jointly-controlled companies up to March 31, 2008 was fully amortized. Goodwill ascertained as of that date is presented under investments and intangible assets (Note 15a). The exchange variation arising from transactions of foreign branches and subsidiaries is presented in the income statement together with derivative financial instruments, in order to eliminate the effect of these investment hedge instruments.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, estimates of the fair value of certain financial instruments, provision for contingencies, losses from impairment of securities classified as available-for-sale and held-to-maturity and non-financial assets, other provisions, the calculation of technical provisions for insurance, supplementary pension plans and savings bonds and the determination of the useful life of specific assets. Actual results could differ from those estimates and assumptions.

We present below the main direct and indirect investees included in the Consolidated Financial Statements:

(1) Increase in interest by the total subscription of the capital increase in April 2009;

(2) Company whose audit services in 2008 were carried out by other independent auditors;

(3) Branch merged into Banco Bradesco S.A. Grand Cayman Branch in March 2009;

(4) Increase in ownership interest due to the subscription of the total capital stock increase in December 2009;

(5) Companies whose audit services in 2009 were carried out by other independent auditors;

(6) Companies proportionally consolidated, pursuant to CMN Resolution 2,723/00 and CVM Rule 247/96;

(7) Reduction in interest by partial sale in June and July 2009;

(8) The special purpose entity Brazilian Merchant Voucher Receivables Limited is being consolidated. The company takes part in the securitization operation of the future flow of credit card bills receivables of clients domiciled abroad (Note 16d);

(9) The special purpose entity International Diversified Payment Rights Company is being consolidated. The company takes part in the securitization operation of future flow of payment orders received from overseas (Note 16d);

(10) Current name of Banco Finasa BMC S.A.;

(11) Current name of Companhia Brasileira de Meios de Pagamento Visanet;

(12) Company merged into Odontoprev in October 2009;

(13) Interest received for the merger of Bradesco Dental S.A. in October 2009; and

(14) Company acquired in October 2009.

# **3) SIGNIFICANT ACCOUNTING POLICIES**

## a) Functional and Presentation Currencies

The financial statements are presented in Reais, which is Bradesco s functional currency. Operations of foreign branches and subsidiaries are basically a continuation of the activities in Brazil, and therefore, assets, liabilities and results are adjusted to comply with the accounting practices adopted in Brazil and translated into Reais using the

exchange rate of the applicable currency. Gains and losses arising from this translation process are recorded in the income in the period.

#### b) Determination of net income

Net income is determined on the accrual basis of accounting which establishes that income and expenses should be included in the determination of the results of the period to which they relate, always simultaneously when they are correlated, regardless of receipt or payment. Transactions with fixed rates are recorded at their redemption value and unearned income and unexpired expenses are recorded as a deduction from the corresponding assets and liabilities. Financial income and expenses are prorated daily and calculated based on the exponential method, except when relating to discounted notes or to foreign transactions which are calculated based on the straight-line method.

Floating rate or foreign-currency-indexed transactions are adjusted up to the balance sheet date.

The insurance and coinsurance premiums and commissions, net of premiums assigned in coinsurance and reinsurance and corresponding commissions are appropriated to income over the period of the corresponding insurance policies and invoices and are deferred for appropriation on a straight-line basis, during the risk coverage period, by means of accrual and reversal of unearned premiums reserve and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and reinsurance companies, respectively.

The supplementary pension plans contributions and life insurance premiums with a survival clause are recognized in income as they are received.

The revenue from savings bonds is recognized at the time of receipt, except for pre-printed bonds of established amount and lump-sum payment, which are recorded at the time of issue. The expenses for placement of bonds, classified as Selling Expenses, are recognized as they are incurred. Brokerage expenses are recorded when the respective savings bonds contributions are effectively received. Redemptions and drawings are recorded simultaneously to the accounting for the corresponding revenues.

The expenses for technical provisions for private pension plans and savings bonds are recorded at the same time as the corresponding revenues thereof are recognized.

## c) Cash and cash equivalents

Cash and Cash Equivalents are represented by: cash in domestic and foreign currency, investments in gold, open market investments and deposits in other banks, with maturities on the application date of 90 days or less and present an insignificant risk of change in fair value, used by the Bank to manage its short-term commitments.

## d) Interbank investments

Purchase and sale commitments with unrestricted movement agreements are adjusted to market value. Other investments are recorded at acquisition cost, plus income earned up to the balance sheet date, net of loss accrual, when applicable.

# e) Securities

Trading securities securities acquired for the purpose of being actively and frequently traded, adjusted to market value against the income in the period;

Available-for-sale securities securities which are not specifically intended for trading purposes or as held to maturity. They are adjusted to market value against a specific account in shareholders' equity, net of tax effects; and

Held-to-maturity securities securities for which there is intention and financial capacity to hold in the portfolio up to maturity. They are recorded at acquisition cost, plus earnings recognized against income for the period.

The securities classified in the trading and available-for-sale categories, as well as derivative financial instruments are stated at its estimated fair value in the consolidated balance sheet. The fair value generally is based on market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by the Management.

#### f) Derivative financial instruments (assets and liabilities)

These are classified based on Management s intended use thereof on the date of the contracting of the operation and whether it was carried out for hedging purposes or not.

Operations involving derivative financial instruments are designed to meet the Bank s own needs in order to manage the overall exposure, as well as for meeting clients requests for the management of their positions. Gains and losses are recorded in income or expenses accounts of the respective financial instruments.

Derivative financial instruments used to mitigate risks deriving from exposure to variations in the market value of financial assets and liabilities are designated as hedges and are classified according their nature as:

Market risk hedge: for financial instruments classified in this category as well as the hedge-related financial assets and liabilities, gains and losses, realized or not, are recorded in income statement; and

Cash flow hedge: for financial instruments classified in this category, the effective valuation or devaluation portion is recorded, net of tax effects, in a specific account in shareholders equity. The non-effective portion of the respective hedge is directly recognized in the income statement

# g) Loan and leasing operations, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses.

Loan and leasing operations, advances on foreign exchange contracts and other receivables with credit characteristics are classified in their corresponding risk levels in compliance with: (i) the parameters established by CMN Resolution 2,682/99, at nine levels from AA (minimum risk) to H (maximum risk); and (ii) Management s assessment risk. This assessment, which is carried out on a periodic basis, considers current economic conditions and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. Moreover, the length of the delay in payment defined in CMN Resolution 2,682/99 is also taken into account for client risk rating purposes as follows:

Past-due period (1)	Client rating
from 15 to 30 days	В
from 31 to 60 days	С
from 61 to 90 days	D
from 91 to 120 days	Е
from 121 to 150 days	F
from 151 to 180 days	G
more than 180 days	Н

(1) For operations unexpired term of over 36 months, the periods are doubled, as allowed by CMN Resolution 2,682/99.

The accrual of revenue on operations past due up to 59 days is recorded in income and subsequent to the 60<sup>th</sup> day, in unearned income.

H-rated past-due operations remain at this level for six months, after which they are written-off against the existing allowance and controlled in memorandum accounts for at least five years, no longer being recognized in the balance sheet.

Renegotiated operations are maintained, at least, at the same classification as their prior rating. Renegotiations already charged-off against the allowance and which are recorded in memorandum accounts are rated as H level and any possible revenues derived from their renegotiation are recognized as revenue only when they are effectively received. When there is a significant payment on the operation or when new material facts justify a change in risk level, the operation may be reclassified to a lower risk category.

The allowance for loan losses is calculated at an amount sufficient to cover probable losses and takes into consideration CMN and Bacen rules and instructions, together with assessments carried out by the Management, in the determination of credit risk.

#### h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution credits, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other Receivables - Sundry and the provision for deferred tax liabilities on tax difference in leasing depreciation and mark-to-market adjustments of securities is recorded in Other Liabilities Tax and Social Security . Only income tax rate is applied on tax difference in leasing depreciation.

Tax credits on temporary additions will be realized upon use and/or reversal of the corresponding provisions to which they refer. Tax credits on tax losses and negative basis of social contribution will be realized as taxable income is generated, considering the 30% limit of the taxable profit of the reference period. Such tax credits are recorded based on the current expectations for realization, taking into account the technical studies and analyses carried out by the Management.

The provision for income tax is recorded at the base rate of 15% of taxable income, plus a 10% surcharge. As of May 1, 2008, social contribution is calculated at a 15% rate for financial institutions and insurance companies and at 9% for other companies (up to April 30, 2008, this rate was 9% for all companies and for fiscal year 2008 it was calculated pursuant to specific rules issued by the tax authorities).

Tax credits brought forward from previous periods, resulting from the increase of the social contribution rate to 15% are recorded up to the limit of the corresponding consolidated tax liabilities (Note 34).

Provisions were recorded for other income and social contribution taxes in accordance with specific applicable legislation.

Pursuant to Provisional Measure 449/08 (which became Law 11,941/09), the changes in the determination criteria for income, costs and expenses included in the net income for the year, enacted by Law 11,638/07 and by Articles 37 and 38 of Law 11,941/09, shall not have effect taxable income for corporate entities opting for the Transitional Tax Regime (RTT), and, for tax purposes, the accounting methods and criteria in force on December 31, 2007 will be considered. For accounting purposes, the tax effects of adopting Law 11,638/07 are recorded in the corresponding deferred tax assets and liabilities.

## i) Prepaid expenses

These represent payments for future benefits or services recorded in assets according to the accrual method of accounting.

This group is basically represented by: insurance selling expenses, insurance expenses and advertising and marketing expenses, as described in note 12b.

## j) Investments

The investments in subsidiaries, jointly-controlled companies and affiliates, with significant influence over the investee or ownership of 20% or more in the voting capital, are evaluated by the equity accounting method.

Tax incentives and other investments are assessed at acquisition cost, net of the provision for impairment, when applicable.

#### k) Fixed assets

These correspond to tangible assets used in the Bank s activities or acquired with this purpose, including those deriving from operations which transfer risks, benefits and controls of the assets.

Fixed assets are stated at acquisition cost, net of the respective accumulated depreciations, calculated on the straight-line method according to the estimated economic useful life of assets, being: premises 4% p.a.; furniture and fixtures, machinery and equipment 10% p.a.; transport systems 20% p.a.; and data processing systems 20% to 50% p.a. and impairment, when applicable.

## l) Intangible assets

Intangible assets are intangible rights acquired for business activities or exercised with that purpose. Intangible assets with established useful lives are amortized over the estimated period of economic benefit.

Intangible assets comprise:

Future profitability of client portfolio acquired and acquisition of the right to provide banking services;

These are recorded and amortized over the period in which the asset will directly and indirectly contribute to the future cash flow and adjusted by the impairment, when applicable; and

#### Software

Software is recorded at cost less amortization on the straight-line method during the estimated useful life (20% to 50% p.a.), as from the date it is available for use and adjusted by *impairment*, when applicable. Internal software development expenses are recognized as assets when it is possible to demonstrate the intention and ability to complete such development, as well as reliably measuring costs directly attributable to the software, which will be amortized during its estimated useful life, considering the future economic benefits generated.

#### m) Asset impairment

The book value of securities classified as available-for-sale and held-to-maturity and non-financial assets, except other assets and tax credits, are tested, at least annually, for impairment, which is recognized in the income statement for the year if the book value of an asset or its cash-generating unit exceeds its recoverable value.

A cash generating unit is the smallest identifiable group of assets that generates cash flows materially independent from other assets and groups.

#### n) Deposits and federal funds purchased and securities sold under agreements to repurchase

These are recorded at the amount of the liabilities and include, when applicable, related charges up to the balance sheet date, on a daily prorated basis.

#### o) Technical provisions related to insurance, private pension plans and savings bonds activities

Technical provisions are calculated according to actuarial technical notes approved by Susep and ANS, and criteria set forth by CNSP Resolutions 162/06, 181/07, 195/08 and 204/09.

Basic, life and health insurance lines:

- Unearned Premiums Provision (PPNG) comprises retained premiums (except reinsurance assignment) which are deferred during the term of effectiveness of the insurance policies, determining the daily prorated value of the unearned premium of the unexpired risk period (future risk of policies in effect);

- The provision for claims Incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the amount of claims occurred and not reported by policyholders/beneficiaries. Pursuant to CNSP Resolution 195/08, as of 2009, insurance companies cannot to deduct from calculation of provisions the amounts transferred to third parties through reinsurance operations;

- The provision for unsettled claims is recorded based on the indemnity estimates for notices of claims received from policyholders up to the balance sheet date. The provision is monetarily restated and includes all claims under litigation. In the case of health insurance, according to the technical note approved by ANS, the provision for unsettled claims complements the IBNR provision;

- The Supplementary Premium Provision (PCP) is recorded on a monthly basis to complement the PPNG, considering the effective risks issued or not. The amount of the PCP is the difference, if positive, between the average of the sum of the daily PPNG and the recorded PPNG;

- The provision for insufficient premiums is recorded when there is insufficiency of the unearned premium provision to cover incurred claims, considering expected indemnities and related expenses, throughout periods to be incurred related to risks in effect on the reference date of calculation;

- Other technical provisions refer to provision for future readjustments of premiums and those required for the technical balance of the individual health plan portfolio, adopting a method included in the actuarial technical note approved by ANS;

- The provision for benefits to be granted, of the individual health plan portfolio, refers to a 5-year coverage for dependents if the policyholder is deceased, adopting a formulation included in the actuarial technical note approved by ANS; and

- The provision for benefits granted, of the individual health plan portfolio, is comprised by liabilities arising from payment release contractual clauses referring to the health plan coverage, and its accounting complies with Resolution - RN 75/04 of ANS, and by premiums for the payment release of Bradesco Saúde policyholders - Plano GBS .

Supplementary private pension plans and life insurance covering survival:

- The mathematical provision for benefits to be granted refers to participants whose benefits have not yet begun. In the private pension plans known as traditional, the provision represents the difference between the current value of the future benefits and the current value of the future contributions, corresponding to the obligations assumed under retirement, disability, pension and regular income plans. The provision related to Long-term Life Insurance (VGBL) covering survival and to Unrestricted Benefits Generating private pension Plans (PGBL) represents the amount of the contributions made by the participants, net of carrying costs and other contractual charges, plus financial earnings generated by the investment of resources in Exclusive Investment Funds (FIEs);

- The mathematical provision for benefits granted refers to participants already using the benefits and corresponds to the present value of future obligations related to the payment of ongoing benefits;

- The contribution insufficiency provision is recorded to complement the mathematical provisions for benefits granted and to be granted, should they not be sufficient to guarantee future commitments. In plans covering survival, the provision is calculated on an actuarial basis and takes into consideration the actuarial table AT-2000 (normalized), increased by 1.5% p.a. (improvement), considering males separately from females, who have higher life expectancy, and the actual interest rate of 4.0% p.a.. In disability plans, the provision is also calculated on an actuarial basis and takes in consideration the biometric AT-49 table (male) and the real interest rate of 4.0% p.a.;

- The financial fluctuation provision is recorded up to the limit of 15% of the mathematical provision for benefits to be granted related to the private pension plans in the category of variable contribution with guarantee of earnings to meet possible financial fluctuations; and

- The administrative expenses provision is recorded to cover administrative expenses of the defined benefit and variable contribution plans. It is calculated in conformity with the methodology set forth in the actuarial technical note.

## Savings bonds:

- The mathematical provision for redemptions is recorded for each active or suspended savings bonds during the estimated term set forth in the general conditions of the plan. It is calculated according to the methodology set forth in the actuarial technical notes approved by Susep;

- The provisions for redemptions are established for the expired savings bonds and unexpired plans where early redemption has been required by the clients. The provisions are monetarily restated based on the indexes determined in each plan; and

- The provisions for unrealized and payable drawings are recorded to cover prizes in future drawings (unrealized) and also for prizes in drawings where clients have already been selected (payable).

#### p) Contingent assets and liabilities and legal liabilities tax and social security

The recognition, measurement and disclosure of contingent assets and liabilities and legal liabilities are in accordance with the criteria defined in CMN Resolution 3,535/08 and CVM Resolution 489/05.

Contingent Assets: are not recognized in the financial statements, except when Management has total control over the situation or when there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, characterizing the gain as practically certain and confirmed expectations of receipt or compensation with another liability. The contingent assets with probable chances of success is probable are disclosed in the notes to the financial statements (Note 18a);

Contingent Liabilities: are recorded taking into consideration the opinion of the legal advisors, the nature of the lawsuits, the similarity with previous processes, the complexity and positioning of courts, whenever the loss is evaluated as probable, which would cause a probable outflow of funds for the settlement of liabilities and when the amounts involved are measurable with sufficient reliability. The contingent liabilities classified as possible losses are not recognized in the financial statements, and they must only be disclosed in the notes, when individually material, and those classified as remote do not require provision nor disclosure (Notes 18b and 18c); and

Legal Liabilities Tax and Social Security: result from judicial proceedings related to tax liabilities, being contested on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully recognized in the financial statements (note 18b).

#### q) Funding expenses

Expenses related to funding transactions involving the issue of securities are recorded as reduction of the liability and are allocated to income over the term of the transaction.

## r) Other assets and liabilities

The assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily prorated basis), and less provision for loss, when deemed appropriate. The liabilities comprise known or measurable amounts, including related charges and monetary and exchange variations (on a daily prorated basis).

# 4) INFORMATION FOR COMPARISON PURPOSES

As from November 2009, Bradesco started to consolidate in its financial statements Banco Ibi and its subsidiaries.

# a) Below we present the main balance sheet balances and income statement as of December 31, 2009:

	R\$ thousand
	р п.
	Banco Ibi
Assets

(1) Consistent with the criterion adopted by Bacen Circular Letter 3,068/02 and due to the characteristics of the securities, we are considering the derivative financial instruments, except those considered as cash flow hedge under the category Trading Securities ; (2) These refer to investment funds resources and managed portfolios applied on purchase and sale commitments with Bradesco, whose owners are consolidated subsidiaries, except those considered as cash flow hedge;

(3) The investment fund quotas were distributed according to the instruments composing their portfolios and preserving the category classification of the funds;

(4) In compliance with the provisions of Article 8 of Bacen Circular Letter 3,068/02, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified as held-to-maturity. This financial capacity is evidenced in Note 32a, which presents the maturities of asset and liability operations as of December 31, 2009;

(5) The number of days to maturity was based on the maturity of the securities, regardless of their accounting

classification;

(6) This column reflects book value subsequent to mark-to-market according to item (7), except for held-to-maturity securities, whose market value is higher than the restated cost in the amount of R\$3,082,780 thousand (September 30, 2009 R\$3,604,723 thousand and December 31, 2008 R\$1,550,399 thousand);

(7) The market value of securities is determined based on the market price available on the balance sheet date. Should there be no market prices available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or price quotations for instruments with similar characteristics; in case of investment funds, the restated cost reflects the market value of the respective quotas; and

(8) In 4Q09, non-temporary losses totaled R\$24,726 thousand, for securities classified as available -for-sale.

#### e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the balance sheet or memorandum accounts, to meet its own needs in managing its global exposure, as well as to meet its clients requests, in order to manage their exposures. These operations involve a series of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco s risk management policy is based on the utilization of derivative financial instruments with a view to mitigating risks of the operations carried out by the Bank and its subsidiaries.

Securities classified in the trading and available-for-sale categories, as well as derivative financial instruments are stated in the consolidated balance sheet at its estimated fair value. The fair value is generally based on market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by the management.

Market price quotations are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flows modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained at BM&FBovespa (Futures and Commodities Exchange) and in the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factors swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the stock exchange or using methodologies similar to those outlined for swaps. Fair Value of loan derivative instruments is determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to price the volatilities.

Derivative financial instruments in Brazil mainly refer to swap and futures operations and are recorded at Cetip (OTC Clearing House) and BM&FBovespa.

Operations involving forward contracts of indexes and currencies are contracted to manage and hedge Bradesco s overall exposures and to meet client needs.

Derivative financial instruments abroad refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges of Chicago and New York, as well as the over-the-counter markets.

Foreign (stock exchange) (1)	5,127,263	3,805,468	3,297,461
Total	177,269,942	142,172,495	125,265,975

(1) Comprise operations carried out on the Stock Exchanges of Chicago and New York and the over-the-counter markets.

On December 31, 2009, counter parties are distributed among corporate entities with 92%, financial institutions with 7% and individuals/others with 1%. Specifically regarding currency financial instruments, Bradesco does not enter into any exotic operations, so called target forward swaps, or any other leveraged derivatives.

#### f) Credit Default Swaps (CDS)

In general these represent a bilateral agreement in which one of the parties purchases protection against credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives a remuneration that is usually paid in a linear manner during the operation effectiveness.

In case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In such case, the selling counterparty usually receives the asset object of the agreement in exchange for the payment.

	Credit risk amount			sha	the calculati required reholders ea	rs equity

Derivatives with companies Received	(3,482)	(3,556)	(4,674)	(192)	(196)	(257)	
Credit swaps whose underlying assets are:							
Securities Brazilian public debt	7,810,152	8,784,703	12,831,299	-	-	-	
Derivatives with companies	13,930	14,225	219,306	1,532	1,565	24,124	
Total	7,272,122	8,235,270	12,265,278	1,340	1,369	23,867	
Deposited margin	428,565	456,399	1,733,378				

Bradesco carries out operations involving credit derivatives with the purpose of better managing its risk exposure and assets. Contracts related to the credit derivatives operations described above have several maturities up to 2017, 97.0% of which mature by 2010. The mark-to-market of protection rates that remunerate the counterparty selling protection amount to R\$(2,067) thousand (September 30, 2009 R\$(7,553) thousand and December 31, 2008 R\$(393,264) thousand). During the period, there was no credit event related to triggering events as defined in the contracts.

#### g) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from variable interest risk of the debt in Bank Deposit Certificates (CDB) indexed to the Interbank Deposit Rate (DI CETIP), converting variable payments into fixed payments.

Bradesco traded DI Future contracts at BM&FBovespa as from 2009, used as a cash flow hedge for funding linked to DI CETIP. The following table presents the DI Future position, where:

		R\$ thousand
	2009	
	December 31	September 30
DI Future with maturity between 2010 and 2017	66,380,865	59,850,104
Funding indexed to CDI	66,068,498	59,537,114
Mark-to-market adjustment recorded in shareholders equity (1)	150,089	(80,784)
Non-effective market value recorded in result	(16,167)	2,666

(1) The adjustment in the shareholders equity is R \$90,053 thousand net of tax effects (R \$(48,470) thousand on September 30, 2009).

The effectiveness of the hedge portfolio was assessed in conformity with Bacen Circular Letter 3,082/02.

Additions	2,730,033	2,883,456	12,937,328	7,884,099
Reductions	(2,399,580)	(1,801,459)	(7,916,871)	(5,447,314)
<b>Balance from the acquired institution (4)</b>	1,030,185	-	1,030,185	-
Closing balance	16,313,243	14,952,605	16,313,243	10,262,601
- Specific provision (1)	8,886,147	8,422,312	8,886,147	5,928,371
- Generic provision (2)	4,424,421	3,539,466	4,424,421	2,713,660
- Additional provision (3)	3,002,675	2,990,827	3,002,675	1,620,570

(1) For operations with installments overdue for more than 14 days;

(2) Recorded based on the client/transaction classification and, accordingly, not included in the preceding item;
(3) The additional provision is recorded based on Management's experience and expected realization of the loan portfolio, to determine the total provision deemed sufficient to cover specific and general loan risks, together with the provision calculated based on risk level ratings and the corresponding minimum percentage of provision established by CMN Resolution 2,682/99. The additional provision per client was classified according to the corresponding risk levels (Note 10f); and

(4) Represented by Banco Ibi.

## h) Recovery and renegotiation

Expenses of the allowance for loan losses, net of recoveries of written-off credits, are as follows:

		2009		R\$ thousand 2008
	4 <sup>th</sup> quarter	3 <sup>rd</sup> quarter	December 31 YTD	December 31 YTD
Amount recorded Amount recovered (1) Expense net of amounts recovered	2,730,033 (616,201) <b>2,113,832</b>	2,883,456 (428,285) <b>2,455,171</b>	12,937,328 (1,694,877) <b>11,242,451</b>	7,884,099 (1,241,660) <b>6,642,439</b>

(1) Classified in income from loan operations (Note 10j).

## i) Changes in renegotiated portfolio

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

Bradesco Organization s premises and equipment present an unrecorded surplus value of R\$1,876,842 thousand (September 30, 2009 R\$1,861,043 thousand and December 31, 2008 R\$1,570,878 thousand) based on appraisal reports prepared by independent experts in 2009, 2008 and 2007.

The Bank has entered into lease agreements, for data processing systems (hardware), which are included in premises and equipment. Under this accounting policy, assets and liabilities are classified in the financial statements and depreciation is calculated according to the depreciation policy adopted for the Bank s own assets. Interest on the liability is also recognized.

The fixed assets to reference shareholders equity ratio in the economic-financial consolidated is 18.63% (September 30, 2009 - 15.44% and December 31, 2008 13.55%), and in the financial consolidated is 45.68% (September 30, 2009 44.34% and December 31, 2008 48.02%), whereas the maximum limit is 50%.

The difference between the fixed assets to shareholders equity ratio in the economic-financial consolidated and of the financial consolidated is due to non-financial subsidiaries which have high liquidity and low fixed assets to shareholders equity ratio, with the consequent increase in the fixed assets to shareholders equity ratio of the financial consolidated. Whenever necessary, we may reallocate the funds to the financial companies through the payment of dividends/interest on shareholders equity to financial companies or a corporate reorganization between the financial and non-financial companies, thus improving the ratio.

## **15) INTANGIBLE ASSETS**

## a) Goodwill

Goodwill from investment acquisitions amounted to R\$2,541,359 thousand, of which R\$203,114 thousand represents the difference between book value and market value of shares recorded in Permanent Assets (BM&FBovespa shares), to be amortized upon their realization and R\$2,338,245 thousand representing future profitability/client portfolio, which will be amortized over twenty years. In the period, goodwill amortization totaled R\$107,277 thousand.

Goodwill assessed in the acquisition of investments up to March 31, 2008 in subsidiaries and jointly-controlled companies was fully amortized in the amount of R\$53,030 thousand on March 31, 2008.

## b) Intangible assets

Acquired intangible assets have defined useful lives and comprise:

					R	thousand
	Amortization	Cost	Amortization	2009	Residual value	2008
	rate (1)			December 31	September 30	December 31
Acquisition of banking services		2 702 006	(1.100.100)	1 (00 770	1 (52 (10	1 50 4 666
rights	Contract	2,792,896	(1,189,123)	1,603,773	1,653,619	1,594,666
Software (2)	20% to 50%	3,604,271	(1,923,188)	1,681,083	1,438,701	1,242,599
Future profitability/client						
portfolio (3)	5% to 20%	2,338,245	(140,047)	2,198,198	709,162	458,778
Other	20%	44,153	(11,183)	32,970	50,175	16,790
Total on December 31, 2009		8,779,565	(3,263,541)	5,516,024		
Total on September 30, 2009		6,800,079	(2,948,422)		3,851,657	
Total on December 31, 2008		5,832,703	(2,519,870)			3,312,833

(1) Intangible assets are amortized over the estimated period of economic benefit and charged to other administrative expenses and other operating expenses;

(2) Software acquired and/or developed by specialized companies; and

(3) Mainly, goodwill on the acquisition of shareholders interest of Banco Ibi R\$1,061,750 thousand, Odontoprev R\$360,926 thousand, Ágora Corretora - R\$360,469 thousand, Integritas Participações - R\$287,998 thousand and in Europ Assistance Serviços de Assistência Personalizados - R\$31,696 thousand, net of accrued amortization.

Intangible assets impairment losses were recorded in the year acquisition of banking services right in the amount of R\$36,511 thousand and software in the amount of R\$3,125 thousand, according to an internal evaluation (note 29).

Expenses with research and development of systems corresponded to R\$77,940 thousand for the fiscal year ended on December 31, 2009 (December 31, 2008 R\$69,741 thousand); 4Q09 R\$24,894 thousand (3Q09 R\$19,510 thousand)

## c) Change in intangible assets by type:

				]	R\$ thousand
	Acquisition of banking service rights	Software	Future profitability/ client portfolio	Other	Total
Balance on December 31, 2008	1,594,666	1, 242,599	458,778	16,790	3,312,833
Additions	390,606	753,946	1,846,697	24,046	3,015,295
Reversal of amortization (1)	146,801	-	-	-	146,801
Expenses with impairment analysis	(36,511)	(3,125)	-	-	(39,636)
Amortization for the period	(491,789)	(312,337)	(107,277)	(7,866)	(919,269)
Balance on December 31, 2009	1,603,773	1,681,083	2,198,198	32,970	5,516,024

(1) As from April 2009, Bradesco changed the amortization calculation methodology for acquisition of banking services rights from the straight -line-method amortization to a calculation based on the Pay-back of each agreement. The revised calculation considered all outstanding agreements and creating a reversal of previous amortizations.

(2) Issuance of securities in the international market for costumers foreign exchange operations, through purchase and sale of foreign currencies, related to discounts of export bills, pre-financing of exports and financing of imports, substantially in the short term.

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

d) Since 2003, Bradesco Organization has been entering into certain agreements designed to optimize its funding and liquidity management activities through the use of SPEs. These SPEs, named International Diversified Payment Rights Company and Brazilian Merchant Voucher Receivables Limited, are financed with long-term debts and settled through future cash flows of the underlying assets, which basically include:

(i) Current and future flows of money orders remitted by individuals and corporate entities located abroad to beneficiaries in Brazil for which the Bank acts as paying agent; and

(ii) Current and future flows of credit card receivables arising from expenditures in Brazil by holders of credit cards issued outside Brazil.

Long-term notes issued by the SPEs and sold to investors are settled through funds derived from the money order flows and credit card bills. Bradesco is obliged to redeem these securities in specific cases of delinquency or if SPEs operations are discontinued.

Funds from the sale of current and future money orders flows and credit card receivables, received by the SPEs, must be maintained in a specific bank account until a minimum limit is attained.

# 18) CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES TAX AND SOCIAL SECURITY

## a) Contingent assets

Contingent assets are not recognized in the financial statements, although there are ongoing proceedings with good prospects of success. The main one is:

- PIS - R\$54,902 thousand: claiming the compensation of PIS on the Gross Operating Revenue, paid pursuant to Decree Laws 2,445/88 and 2,449/88, over the amount due under the terms of the Supplementary Law 07/70 (PIS Repique).

#### b) Contingent liabilities classified as probable losses and legal liabilities tax and social security

The Bradesco Organization is currently party to a number of labor, civil and tax lawsuits, arising from the normal course of its business activities.

Provisions were recorded based on the opinion of the legal advisors, the types of lawsuit, similarity with previous lawsuits, complexity and positioning of the courts, whenever a loss is deemed probable.

Management considers that the provision recorded is sufficient to cover losses generated by the corresponding proceedings.

Liability related to litigation is held until the definite successful outcome of the lawsuit, represented by favorable judicial decisions, for which appeals can no longer lodged or due to statute of limitation.

### I - Labor claims

These are claims brought by former employees seeking indemnity, especially for unpaid overtime. In the proceedings requiring judicial deposit, the amount of labor claims is recorded considering the effective perspective of loss of these deposits. For other proceedings, the provision is recorded based on the average of the total payments made for the claims settled in the last 12 months, considering the year of the judicial ruling.

Following a more effective control over working hours implemented in 1992, via electronic time cards, overtime is paid regularly during the employment contract and, accordingly, the amount of claims on an individual basis subsequent to 1997 substantially decreased.

#### II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to notarized protests, returned checks, the inclusion of information about debtors in the restricted credit registry and the reincorporation of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled by computer-based systems and provisioned whenever the loss is evaluated as probable, considering the opinion of the legal advisors, the nature of the lawsuits, and similarity with previous lawsuits, complexity and positioning of the courts.

The issues discussed in the lawsuits relating to protests, returned checks and information on debtors in the credit restriction registry usually are not events that cause a significant impact on the financial income. Most of these lawsuits are brought at the Special Civil Court (JEC), in which the claims are limited to 40 minimum wages.

It is worth noting the increase in legal claims pleading the incidence of inflation rates which were excluded from the monetary restatement of savings accounts balances due to Government Economic Plans (especially Bresser and Verão Economic Plans) which were part of the Government economic policy to reduce inflation in the past. Although the Bank had complied with the legal requirements in force at the time, these lawsuits have been provisioned taking into consideration claims effectively notified and their assessed loss perspectives, the APDF /165 lawsuit (failure to comply with fundamental concepts) brought by CONSIF, with a view to suspending all the pending lawsuits about economic plans is pending judgment by the Federal Supreme Court (STF).

Currently, there are no significant administrative lawsuits in course, filed as a result of the lack of compliance with National Financial System regulations or payment of fines, which could cause significant impacts on the Bank s interest income.

### III - Legal liabilities tax and social security

The Bradesco Organization is disputing in court the legality and constitutionality of certain taxes and contributions, for which provisions have been recorded in full, although the likelihood of a medium- and long-term favorable outcome is goods based on the opinion of the legal advisors.

The main issues are:

- Cofins R\$3,439,954 thousand: it requests authorization to calculate and pay Cofins, as from October 2005, on the effective income, whose concept is in Article 2 of Supplementary Law 70/91, removing the unconstitutional increase in the calculation basis introduced by paragraph 1 of Article 3 of Law 9,718/98;

- IRPJ/Loan Losses R\$701,176 thousand: it requests authorization to deduct, for purposes of determination of the calculation basis of IRPJ and CSLL, the amount of effective and definite credit losses, total or partial, suffered in the reference years from 1997 to 2006, regardless of the compliance with the conditions and terms provided for in Articles 9 to 14 of Law 9,430/96 that only apply to temporary losses;

- INSS Autonomous Brokers R\$711,177 thousand: it questions the incidence of the social security contribution on the remunerations paid to autonomous service providers, established by Supplementary Law 84/96 and subsequent regulations/amendments, at the rate of 20% and additional of 2.5%, under the argument that the services are not provided to the insurance companies, but to policyholders, thus being outside the incidence of the contribution provided for in item I, Article 22, of Law 8,212/91, with new wording given in Law 9,876/99;

- PIS R\$273,506 thousand: it requests the authorization to offset amounts overpaid in the reference years of 1994 and 1995 as contribution to PIS, corresponding to the amount above the calculation basis laid down in the Constitution, i.e., gross operating revenue, as defined in the income tax legislation concept in Article 44 of Law 4,506/64, not including interest income.

In November 2009, Bradesco adhered to a tax amnesty program, introduced by Law 11941/09, whereby all federal tax and social security obligations owed to the Brazilian Federal Revenue Service (RFB) and to the Public Prosecutions Office of the National Treasury (PGFN) may be settled via a one-off payment or in installments. In accordance with this program, all debts past due up to November 30, 2008, owed by individuals or corporate entities, consolidated by the debtor, with suspended liability or not, executable or not, or considered individually, even at the foreclosure stage, or which are part of a prior installment agreement, not yet fully settled or cancelled as a result of default, may be liquidated through a single payment or divided into installments.

Bradesco s main lawsuits included in the program refer to disputes regarding: (i) the payment of social contribution on net income (CSLL) by financial institutions from 1995 to 1998 at rates in excess of those applicable to companies in general; and (ii) the non-payment of CSLL from 1996 to 1998, during which period certain Bradesco companies had no employees, on the grounds that, pursuant to Item I of Article 195 of the Brazilian Federal Constitution, only employers are liable to pay this contribution.

Considering the specific rules of the program, the accounting effects of the lawsuits included in the one-off payment option were recognized upon adherence. The lawsuits to be included in the installment payment option will be subsequently specified and formally included in the debt consolidation with RFB and no accounting effects were recognized, since at present it is not practicable to determine and quantify the corresponding lawsuits or the gains arising there from.

The net total, directly related to the adherence to the program, totaled R\$388,162 thousand and was mainly recognized in Other operating income (Note 28). Bradesco did not opt to use income tax and social contribution losses to offset the interest payable on the debts included in the program introduced by the above Law.

### **IV - Provisions by nature**

			R\$ thousand
	20	2008	
	December 31	September 30	December 31
Labor claims	1,595,534	1,555,469	1,553,143

At the end of the period	1,595,534	2,342,634	7,066,453

(1) Comprises, substantially, legal liabilities; and

(2) In tax and social security , it includes write-offs of proceedings with court deposits subject to adhesion to the tax amnesty program.

#### c) Contingent liabilities classified as possible losses

The Bradesco Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is the plaintiff or defendant and based on the opinion of the legal advisors, classifies the lawsuits according to the expectation of loss. The trends of administrative and judicial proceedings are periodically analyzed and, if necessary, the related risks are reclassified. In this context the contingent proceedings evaluated as having the risk of possible loss are not recognized in the financial statements. The main proceedings are related to leasing companies

Tax on Services of any Nature (ISSQN), the total processes of which corresponds to R\$188,866 thousand. In this lawsuit, the demand of the tax by municipalities other than those where the companies are located and from which the tax is collected in compliance with the law is discussed, as well as the nature of the Leasing Agreement not being a case of formal disallowance when recording tax credit.

(1) Other provisions basically refers to the technical provisions of the individual health portfolio made in order to: (i) cover the differences of future premium adjustments and those necessary to the portfolio technical balance; and (ii)

cover payment release of health care coverage to dependents in case the policyholder dies, adopting the rules of the Actuarial Technical Notes approved by ANS;

(2) Comprises individual insurance plan and private pension plan operations;

(3) Pursuant to Susep Circular Letter 379/08, as of January 2009, technical provisions are presented at gross amounts and the reinsurance (PPNG, PSL and INBR) technical provision are recorded in assets on December 31, 2009 in the amount of R\$669,103 (September 30, 2009 R\$634,681); and

(4) The contribution insufficiency provision for retirement and pension plans is calculated according to the normalized biometric table AT-2000, improved by 1.5% p.a., considering males separated from females, who have a longer life expectancy, and actual real interest rate of 4.0% p.a.. For disabilities plans, the provision is also actuarially calculated according to the biometric AT-49 (male) table and the 4.0% p.a. real interest rate.

The Special Shareholders Meeting held on March 10, 2009 approved the reverse split of common and preferred shares in the proportion of fifty (50) to one (1), with the simultaneous split of each share, after the reverse split, at the ratio of one (1) to fifty (50), without changes in types of share, giving sixty-one (61) days, as from April 8, 2009 to June 8, 2009, for shareholders, at their own and free discretion, to adjust the position of their shares, by type, in multiples of fifty (50) shares, by means of trading at BM&FBovespa, through the brokerage firm of their choice.

Simultaneously with the operation in the Brazilian Market, complying with the same dates, the same procedure was adopted on the International Market, for securities traded in New York USA and Madrid - Spain.

At the Special General Meeting held on October 29, 2009, it was approved: (i) the merger of all of shares representing the Ibi Participações S.A. capital stock into Bradesco, and Ibi Participações became Bradesco s wholly-owned subsidiary, in compliance with the provisions set forth in Articles 224, 225 and 252 of Law 6,404/76, upon the capital increase in the amount of R\$1,368,183 thousand, from R\$23,000,000 thousand to R\$24,368,183 thousand, with the issuance of 45,662,775 new nominative book-entry non-par shares, out of which 22,831,389 are common and 22,831,386 are preferred shares, at the ratio of 0.049401676 fraction of Bradesco share to Ibi Participações share, to be allocated to the latter s shareholders, being 0.024700839 fraction of common share and 0.024700837 fraction of preferred share; and (ii) the capital stock increase by R\$131,817 thousand, from R\$24,368,183 thousand to R\$24,500,000 thousand, upon the capitalization of reserves, without the issue of shares, as per paragraph first of Article 169 of Law 6,404/76, with the consequent amendment to caput of Article 6 of the Bylaws.

At the Special General Meeting held on December 18, 2009, it was approved the capital stock increase by R\$2,000,000 thousand, from R\$24,500,000 thousand to R\$26,500,000 thousand, upon the capitalization of part of the Profit Reserves Statutory Reserves account balance, in compliance with Article 169 of Law 6,404/76, with a 10% stock bonus, upon the issue of 311,553,258 new nominative book-entry non-par shares, out of which 155,776,637 are common and 155,776,621 are preferred shares, allocated to shareholders free of charge, for purposes of stock bonus, at the ratio of one (1) new share to each ten (10) shares of the same type held by them, benefiting shareholders registered in the Bank s records as of January 19, 2010.

Simultaneously with the operation in the Brazilian Market, and at the same ratio, ADRs American Depositary Receipts in the American Market (NYSE) and GDRs Global Depositary Receipts in the European Market (Latibex) were entitles to stock bonus, and investors received one (1) new DR for each ten (10) DRs they held on January 19, 2010.

#### c) Interest on shareholders equity/dividends

Preferred shares have no voting rights, but are entitled to all rights and advantages given to common shares and, in compliance with Bradesco s Bylaws, have priority in repayment of capital and additional ten per cent (10%) of interest on shareholders equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law 6,404/76, with the new wording given in Law 10,303/01.

According to Bradesco s Bylaws, shareholders are entitled to interest on shareholders equity and/or dividends of, in total, at least 30% of the net income for the year, adjusted in accordance with the Brazilian Corporation Law.

Interest on shareholders equity is calculated based on the shareholders' equity accounts and is limited to the variation in the Federal Government Long-Term Interest Rate (TJLP), provided there are available profits, computed prior to the deduction thereof, or retained earnings and revenue reserves in amounts equivalent to, or exceeding twice, the amount of such interest.

Bradesco s capital remuneration policy aims at distributing the interest on shareholders equity at the maximum amount calculated pursuant to prevailing laws, and this is included, net of Withholding Income Tax, in the calculation of the mandatory dividends of the year set forth in the Company s Bylaws.

At the Board of Directors Meeting held on December 5, 2008, the board members approved the proposal of the Board of Executive Officers related to the payment of supplementary interest on shareholders equity to shareholders related to 2008, in the amount of R\$0.571482431 (R\$0.485760066 net of tax) per common share and R\$0.628630674 (R\$0.534336073 net of tax) per preferred shares, the payment of which was made on March 9, 2009.

At a Board of Directors Meeting held on January 20, 2009, the board members approved the proposal of the Board of Executive Officers to increase by 10% the amount of monthly dividends, paid in advance to shareholders, according to the Monthly Remuneration System, from R\$0.012017500 to R\$0.013219250, related to common shares, and from R\$0.013219250 to R\$0.014541175, related to preferred shares, effective as from the dividends for February 2009 paid on March 2, 2009, benefiting shareholders registered in the Company s records on February 2, 2009.

At a Board of Directors Meeting held on July 3, 2009, the Board of Executive Officers proposal for payment of interim interest on shareholders equity to shareholders related to 1H09 was approved, in the amount of R\$0.155520588 (R\$0.1321925 net of tax) per common share and R\$0.171072647 (R\$0.14541175 net of tax) per preferred share, whose payment was made on July 20, 2009.

The Board of Directors Meeting held on December 4, 2009 approved the Board of Executive Officers proposal for the payment of supplementary interest on shareholders equity to shareholders for the fiscal year of 2009 in the amount of R\$1,632,000 thousand, out of which R\$0.499755537 (net of withholding income tax of 15% - R\$0.424792206) per common share and R\$0.549731091 (net of 15% withholding income tax - R\$0.467271427) per preferred share, the payment of which will be made on March 9, 2010.

The Special General Meeting held on December 18, 2009 resolved that the monthly dividends will be held in R\$0.01321925 per common share and R\$0.014541175 per preferred share, so that the amounts monthly paid to shareholders will be increased by 10%, after the new shares from the stock bonus are included in the shareholding.

The calculation of interest on shareholders equity and dividends related to the 2009 is as follows:

	<b>R\$</b> thousand	% (1)
Net income for the year	8,012,282	
(-) Legal reserve	(400,614)	
Adjusted calculation basis	7,611,668	
Interest on shareholders equity (gross) provisioned (paid and payable)	2,133,269	
Withholding income tax on interest on shareholders equity	(319,990)	
Interest on shareholders equity (net)	1,813,279	
Monthly dividends paid and provisioned	584,813	
Accumulated interest on shareholders equity (net) and dividends in 2009	2,398,092	31.51
Accumulated interest on shareholders equity (net) and dividends in 2008	2,398,987	33.12

(1) Percentage of interest on shareholders equity/dividends over adjusted calculation basis.

Interest on shareholders equity and dividends were paid and provisioned as follows:

					R\$ thousand

(1) Payable on March 9, 2010;

(2) Paid on July 20, 2009; and

(3) Considers the stock bonus effects 10% as of December 18, 2009.

### d) Treasury shares

At a Board of Executive Officers meeting held on December 2, 2009, it was authorized the acquisition of shares issued by Bradesco of up to 15,000,000 nominative book-entry common shares, with no par value, out of which 7,500,000 are common shares and 7,500,000 are preferred shares, to be held in treasury and later sale or cancellation, without capital stock reduction. The authorization will be effective until June 3, 2010.

Up to December 31, 2009, 3,338,170 common shares and 3,197,260 preferred shares were acquired and held in treasury, in the amount of R\$188,874 thousand. The minimum, weighted average and maximum cost per share is, respectively, R\$14.99344, R\$28.89998 and R\$34.88564, already including the 10% stock bonus that took place on December 18, 2009. The market value of these shares on December 31, 2009 was R\$27.26 per common share and R\$33.07 per preferred share.

#### b) Compensation of key Management personnel

Each year, the Annual Shareholders Meeting approves:

The annual overall amount of management compensation, apportioned at the Board of Directors Meetings among the board members and members of the Board of Executive Officers, as determined by the Company s Bylaws; and

The amount allocated to finance supplementary private pension plans to the Management, within the private pension plan for employees and management of the Bradesco Organization.

For 2009, the maximum amount of R\$293,140 thousand was set for management compensation (share-based compensation and bonuses) and R\$129,470 thousand to finance defined contribution supplementary private pension plans.

#### Short-term Management benefits

Bradesco does not offer long-term benefits related to severance pay or share-based compensation to its key Management personnel.

#### **Other information**

#### I) According to current laws, financial institutions are not allowed to grant loans or advances to:

a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;

b) Individuals or corporations that own more than 10% of their capital; and

c) Corporations of which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10%;

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

### **II) Shareholding**

Members of the Board of Directors and Board of Executive Officers, jointly, had the following shareholding in Bradesco on December 31, 2009:

Common shares	0.67%
Preferred shares	0.97%
Total shares	0.82%

### **32) FINANCIAL INSTRUMENTS**

#### a) Risk management process

Bradesco Organization considers the risk management essential to all its activities, using it to add value to its business, as it supports the business areas in the planning of its activities, maximizing the use of own and third party resources, for the benefit its stakeholders and the company.

The risk management activity is highly relevant due to the increasing complexity of services and products offered and the globalization of Bradesco s business, reason why the Organization is always improving its risk management processes, using the best international practices, Brazilian rules and the recommendations of the New Capital Accord.

Several investments are made in initiatives related to risk management processes, especially in the training of the staff to improve the quality of said processes and ensure the necessary focus, inherent to these activities that generate a strong added value. In this context, the Organization has three large pillars that support the entire risk management structure: i) corporate governance; ii) management structure; and iii) risk management methodology.

#### Credit risk management

Credit risk is the possibility that a counterparty of a loan or financial operation may not wish, or may suffer some change in its ability to comply with its contractual obligations, which may generate losses for the Organization.

To mitigate credit risk, Bradesco continuously reviews the processes of credit activities processes, implementing improvements, examining and preparing inventories of credit approval and recovery procedures, monitoring concentrations and identifying new areas of credit risks.

#### Market risk management

Market risk is the possibility of loss by fluctuating market prices and rates, once asset and liability portfolios of the Organization may present mismatches in terms, currencies and indexes.

The market risk management at Bradesco enables the Organization to make strategic decisions with high agility and level of reliance, conducting it by means of methodologies in line with the best international practices and the recommendations of the New Capital Accord.

The performance of limits is daily monitored by the Integrated Risk Control Department, which is independent to the business management and adopts the Parametric VaR (Value at Risk) outlook, in the calculation of the trading portfolio risk, with a 99% confidence level, one-day horizon, and correlations and volatilities calculated using

statistical methods in which recent returns are given more importance. In addition, the methodology applied and current statistic models in the measurement of market risks are daily evaluated using backtesting techniques.

#### Sensitivity analysis

In conformity with good risk management governance practice, Bradesco maintains a continued process of management of its positions, which encompasses control of all positions exposed to market risk by means of measures compatible with the best international practices and the New Basel Capital Accord Basel II. It is also worth mentioning that financial institutions have risk limits and controls and leverage regulated by Bacen.

Risk limit proposals are validated by specific business committees and submitted to the approval of the Integrated Risk Management and Capital Allocation Committee, complying with limits laid down by the Board of Directors, according to the positions targets, which are divided into the following portfolios:

Trading Portfolio: consists of all financial instruments, commodities, derivatives operations held for trading or as a hedge of other trading portfolios, which are not subject to trading restrictions. Operations intended for trading are those for resale, to take advantage from expected or effective price movements, or for arbitrage purposes; and

Banking Portfolio: operations not classified in the Trading Portfolio. These consist of structural operations of various lines of the Organization s business and eventual hedges.

The following tables present the financial exposure sensitivity analysis (Trading and Banking Portfolios) pursuant to CVM Rule 475/08 and do not reflect how these market risk exposures are managed in the Organization s daily operations, according to information provided in this note.

The financial exposure impacts of the Banking Portfolio (mainly interest rates and price indexes) stated in the following table do not necessarily represent an accounting loss for the Organization, due to the following reasons:

part of loan operations held in the Banking Portfolio is funded by demand deposits and/or savings deposits, which provides a natural hedge for eventual interest rate fluctuations;

for the Banking Portfolio, interest rates fluctuations do not necessarily have a material impact on the Organization s results, since the intention is to hold the loan operations until their maturity; and

derivative operations of the Banking Portfolio are used to hedge operations with clients or to hedge investments abroad, also considering the tax effect on foreign exchange rate fluctuation.

#### (1) Amounts net of tax effects

We present below the sensitivity analysis of the Trading Portfolio, which represents exposures that might cause material impacts on the Organization s results. It is worth mentioning that results show the impacts for each scenario for a static portfolio position on December 31, 2009 and December 31, 2008. The market dynamism results in continuous changes in these positions and does not necessarily reflect the current position. In addition, as previously mentioned, we maintain a continued process of market risk management, which continuously seeks, through market dynamics, ways of mitigating/minimizing related risks, according to the strategy determined by Senior Management, i.e., in case of signs of deterioration in a certain position, proactive measures are taken to minimize potential negative impacts, aiming at maximizing the risk/return ratio for the Organization.

### (1) Amounts net of tax effects.

The sensitivity analysis was carried out based on the scenarios below, always considering that these impacts would negatively affect our positions.

Scenario 1: based on market information of December 31, 2009 (BM&FBovespa, Anbima, etc), one base point stress was applied for interest rates and 1% variation for prices. For instance, the exchange rate of Reais/Dollar of R\$1.76 and 1-year fixed interest rates of 10.51% p.a.

Scenario 2: 25% stresses were determined based on the market at December 31, 2009. For instance, the exchange rate of Reais/Dollar was R\$2.18 and 1-year fixed interest rates of 13.13% p.a., with fluctuations of other risk factors representing a 25% stress on the respective curves or prices.

Scenario 3: 50% stresses were determined based on the market at December 31, 2009. For instance: the exchange rate of Reais/Dollar was R\$2.62 and 1-year fixed interest rates of 15.75% p.a., with fluctuations of other risk factors representing a 50% stress on the respective curves or prices.

(\*) Scenario I (probable) it was prepared already including the correlation among risk factors.

(1) Amounts net of tax effects.

The sensibility analysis for December 31, 2008 was carried out complying with the following scenarios:

Scenario 1: consists of the probable scenario for risk factors and is based on market information (BM&FBovespa, Anbima, etc), such as the future interest rate curve. For example: the Real/Dollar quotation was R\$2.35 and the 1-year fixed interest rate was 11.60% p.a..

Scenario 2: 25% stresses were determined based on the market at December 31, 2008 and applied on Scenario 1. For example: the Real/Dollar quotation was R\$2.93 and the 1-year fixed interest rate was 14.64% p.a., and fluctuations of other risk factors, represented a 25% stress in the corresponding curves or prices.

Scenario 3: 50% stresses were determined based on the market at December 31, 2008 and applied on Scenario 1. For example: the Real/Dollar quotation was R\$3.52 and the 1-year prefixed interest rate was 17.68% p.a., and fluctuations of other risk factors represented a 50% stress in the corresponding curve or prices.

## Liquidity risk

The Liquidity Risk is the possibility of the Organization not having enough financial funds to honor its commitments due to the mismatch between payments and deposits, taking in consideration different currencies and the settlement terms of its rights and obligations.

Bradesco has a Liquidity Policy that establishes the minimum liquidity levels that the Organization must keep, as well as instruments to manage the liquidity in a regular and crisis scenario. The liquidity risk is daily controlled in an independent manner, with the distribution of reports to the management and control areas, as well as the Executive Committee.

(1) Investments in investment funds are classified as up to 30 days; and

(2) Demand and savings deposits and technical provisions for insurance, private pension plans and savings bonds comprising VGBL and PGBL products are classified as up to 30 days, without considering average historical turnover.

#### Capital Adequacy Ratio (Basel)

The Organization s risk management seeks to optimize the risk-return ratio, aiming at minimizing losses, through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

## We present the Capital Adequacy Ratio II in the chart below

adequacy ratio						
(a/c)	17.75%	17.83%	17.92%	17.73%	16.93%	16.09%

(1) Article 4 of Bacen Circular Letter 3,389/08 gives the option to exclude position sold in foreign currency for purposes of ascertaining the Capital Adequacy Ratio, also computing tax effects, carried out with the purpose of hedging investments abroad. Bradesco opted to do this on September 29, 2008;

(2) As of July 1, 2008, with the New Basel Capital Accord (Basel II), risk-weighted assets are determined based on 11%, required reference shareholders equity which is the minimum capital required by Bacen; and (3) The Capital Adequacy Ratio will have the following impacts, which were already identified for 2010 (simulations on December 31, 2009): a) as from January 1, the determination of capital allocation portion of the Financial Conglomerate s Operating Risk will be calculated using the multiplier (Z factor) equivalent to 1.0, pursuant to Bacen Circular Letter 3,383, and, in this scenario, the Capital Adequacy Ratio would be 17.47% for the Financial Conglomerate, and 17.55% for the Economic -Financial Conglomerate; b) CMN Resolution 3,825/09 revokes, as from April 1, CMN Resolution 3,674 which allows the full addition of the additional provision for loan losses at the calculation of the Financial Conglomerate, and 16.61% for the Economic -Financial Conglomerate ; and c) as from 2H10 the non-financial Operating Risk will be considered for capital allocation, and, in this scenario, the Capital Adequacy Ratio would be 16.17% for the Financial Conglomerate.

Pursuant to the New Basel Capital Accord, the Bacen published CMN Resolutions 3,380/06, 3,464/07 and 3,721/09, concerning the structures for managing operating, market and credit risks. It also published Circular Letters 3,360/07, 3,361/07 to 3,366/07, 3,368/07, 3,383/08, 3,388/08 and 3,389/08, which define the methodologies for the portions of capital necessary for credit, market and operating risks, as well as CMN Resolutions 3,444/07 and 3,490/07, amending rules for the determination of reference shareholders equity and setting the bases for the calculation of required reference shareholders equity. Therefore, as of July 2008, the National Financial System started operating according to the rules of the New Basel Capital Accord, standardized approach.

#### b) Market value

The book value, net of provisions for losses of the main financial instruments is as follows:

							I	R\$ thousand

(1) Includes advances on foreign exchange contracts, leasing operations and other receivables with credit features; and(2) Basically includes the surplus of interest in Cielo (former Visanet), Odontoprev, BM&FBovesp and Cetip.

#### Determination of market value of financial instruments:

Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price on the balance sheet date. Should there be no available market price quotations, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics;

Fixed rate loan operations were determined by discounting estimated cash flows, using interest rates applied by the Bradesco Organization for new contracts with similar features. These rates are compatible with prices practiced in the market on the balance sheet date; and

Time deposits, funds from issuance of securities and borrowing and onlending were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

#### **33) EMPLOYEE BENEFITS**

Bradesco and its subsidiaries sponsor a supplementary private pension plan for employees and directors, in the PGBL modality, which is a private pension plan of the variable contribution type that allows the accumulation of financial resources by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in Exclusive investment Fund (FIE).

PGBL is managed by Bradesco Vida e Previdência S.A. and Bradesco Asset Management (BRAM). The Securities Dealer company (DTVM) is responsible for the financial management of FIE funds.

Contributions paid by employees and directors of Bradesco and its subsidiaries are equivalent to 4% of the salary, except for participants who, in 2001, opted to migrate to the PGBL plan from the defined benefit plan, whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the variable contribution plan (PGBL) are fully covered by the net assets of the corresponding FIE.

In addition to the aforementioned variable contribution plan (PGBL), former participants of the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in this plan. For participants of the defined benefit plan, transferred or not to the PGBL plan, retired participants and pensioners, the present value of the plan s actuarial liabilities is fully covered by plan assets.

Banco Alvorada S.A. (merging company of Banco Baneb S.A.) maintains supplementary retirement plans of variable contribution and defined benefit, through Fundação Baneb de Seguridade Social - Bases (related to former employees of Baneb). The actuarial liabilities of the variable contribution and defined benefit plans are fully covered by assets of the plans.

Banco Bradesco BBI S.A. (current name of Banco BEM S.A.) sponsors supplementary retirement plans of both defined benefit and variable contribution types, through the Assistance and Retirement Pension Fund for the Employees of the Bank of the State of Maranhão (Capof).

Alvorada Cartões, Crédito, Financiamento e Investimento S.A. (Alvorada CCFI) (merging company of Banco BEC S.A.) sponsors a defined benefit plan by means of the Private Pension Plan Fund of the Bank of the State of Ceará (Cabec).

Based on the independent actuarial report, the present value of actuarial liabilities of the established benefit plan and its assets to cover such obligations taken by Banco Alvorada, Banco Bradesco BBI and Alvorada CCFI, were represented as follows:

	On D	ecember 31 - R\$ thousand
	2009	2008
Net assets of the plan	901,695	798,467
Actuarial liabilities	796,549	689,525
Excess	105,146	108,942

Main assumptions used in the actuarial assessment of Banco Alvorada, Banco BBI and Alvorada CCFI plans:

	On December 3	1 - R\$ thousand
Risk factors	2009	2008
Nominal discount rate	11.30% p.a.	11.90% p.a.
Nominal minimum return rate expected from assets	11.30% p.a.	11.90% p.a.
Nominal rate of future salary increase	7.63% p.a.	7.12% p.a.
Nominal rate of increase in social security and plans benefits	4.50% p.a.	4.00% p.a.
Inflation rate	4.50% p.a.	4.00% p.a.
Biometric overall mortality table	AT83	AT83

Expected turnover rate	service + 1)	service + 1)
	100% in the 1 <sup>st</sup>	$100\%$ in the $1^{st}$
	eligibility to a	eligibility to a
Probability of retirement entrance	plan benefit	plan benefit

The assets of the private pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

Bradesco s facilities abroad provide their employees and directors with a private pension plan with variable contribution, which accumulate funds during the participant s professional career, by means of contributions paid by himself/herself and in equal proportion by Bradesco. The contributions of employees, directors and of Bradesco in its facilities abroad are jointly equivalent to at most 5% of the annual salary of the benefit.

Expenses with contributions made in the period amounted to R\$266,519 thousand (December 31, 2008 R\$269,476 thousand) 4Q09 R\$55,106 thousand, (3Q09 R\$116,252 thousand).

In addition to this benefit, Bradesco and its subsidiaries offer their employees and directors several other benefits including: health insurance, dental care, life and personal accident insurance, as well as professional training, the

expenses for which, including the aforementioned contributions, amounted to R\$1,656,549 thousand in the year (December 31, 2008 R\$1,536,210 thousand) 4Q09 R\$423,809 thousand, (3Q09 R\$470,312 thousand).

## 34) INCOME TAX AND SOCIAL CONTRIBUTION

#### a) Calculation of income tax and social contribution charges

				R\$ thousand
		2009		2008
	4 <sup>th</sup> quarter	3 <sup>rd</sup> quarter	December 31 YTD	December 31 YTD
Income before income tax and social				
contribution	2,758,802	2,887,498	12,119,299	8,172,810
Total income tax and social contribution at				
rates of 25% and 15%, respectively (1)	(1,103,521)	(1,154,999)	(4,847,720)	(3,095,078)
Effect of additions and exclusions on the tax				
calculation:				
Equity in the earnings of unconsolidated				
companies	56,804	15,614	80,040	52,211
Exchange loss/(gain)	(71,752)	(354,752)	(1,006,971)	1,242,977
Non-deductible expenses, net of non-taxable				
income (2)	105,732	(36,031)	20,360	(17,256)
Interest on shareholders equity (paid and				
payable)	210,218	221,375	853,308	754,648
Effect of the difference of the social				
contribution rate (3)	175,204	133,722	567,640	405,278
Other amounts	58,292	104,223	251,034	138,469
Income tax and social contribution for the				
period	(569,023)	(1,070,848)	(4,082,309)	(518,751)

(1) As of May 1, 2008, the social contribution rate for companies of the financial and insurance sectors was increased to 15%, according to Provisional Measure 413/08 (converted into Law 11,727/08), remaining at 9% for other companies (Note 3h);

(2) Comprises the tax effect from the adhesion to the tax amnesty program of debits managed by RFB and PGFN, established by Law 11, 941/09; and

(3) Refers to the adjustment of the effective rate of social contribution in relation to the rate (40%) shown.

#### b) Breakdown of income tax and social contribution in the result

#### **Current taxes:**

Income tax and social contribution payable	367,863	(2,519,880)	(6,338,823)	(5,059,375)
Deferred taxes:				
Amount recorded/realized for the period on				
temporary additions	(625,602)	1,454,248	2,515,975	4,181,566
Use of opening balances of:				
Negative basis of social contribution	(26,825)	(4,893)	(165,420)	(63,261)
Tax loss	82,178	(111,594)	(338,686)	(192,861)
Recording/utilization in the period on:				
Negative basis of social contribution	(2,420)	14,572	36,242	200,037
Tax loss	(364,217)	96,699	208,403	415,143
Total deferred taxes	(936,886)	1,449,032	2,256,514	4,540,624
Income tax and social contribution for the				
period	(569,023)	(1,070,848)	(4,082,309)	(518,751)

## c) Origin of tax credits of deferred income tax and social contribution

						R\$ thousand

Subtotal	12,854,660	259,357	7,202,809	4,946,295	15,370,531	16,048,060
Adjustment to market value of						
available-for-sale securities	434,395	-	121,690	504,697	51,388	170,485
Social contribution Provisional Measure 2,158- 35 of August 24,						
2001	414,238	-	-	144,115	270,123	329,164
Total tax credits (Note 11b)	13,703,293	259,357	7,324,499	5,595,107	15,692,042	16,547,709
Deferred tax liabilities (Note 34f)	2,467,850	-	2,170,014	652,397	3,985,467	4,327,943
Tax credits net of deferred tax						
liabilities	11,235,443	259,357	5,154,485	4,942,710	11,706,575	12,219,766
- Percentage of net tax credits over reference shareholders equity						
(Note 32a)	23.8%				20.9%	22.8%
- Percentage of net tax credits over						
total assets	2.5%				2.3%	2.5%

(1) The tax credit relative to interest on shareholders equity is recorded up to the limit allowed by the tax law; and (2) Includes tax credit related to the increase in the social contribution rate for companies in the financial and insurance sectors, established by Provisional Measure 413/08 (converted into Law 11,727/08), equivalent to R\$191,333 thousand (Note 3h).

## d) Expected realization of tax credits over temporary differences, tax loss and negative basis of social contribution and social contribution tax credit Provisional Measure 2,158-35

		R\$ thousand					
	Temporar	Temporary differences		Tax loss and negative basis			
	Income tax	Social contribution	Income tax	Social contribution	Total		
2010	2,075,913	1,008,124	337,989	104,990	3,527,016		
2011	2,062,950	1,002,943	172,226	66,880	3,304,999		
2012 2013	2,215,006 1,426,823	1,070,003 694,785	150,998 95,732	61,793 22,481	3,497,800 2,239,821		
2013	1,814,668	880,035	80,309	25,883	2,200,895		
Total	9,595,360	4,655,890	837,254	282,027	15,370,531		
			R\$ thousa	nd			
	Socia	l contribution t	ax credit - Pr	ovisional Measu	re 2,158 35		
	2010	2011	2012	2013 2014	Total		
Total	54,06	9 27,786	76,467	81,727 30,07	4 270,123		

The projected realization of tax credits is an estimate and it is not directly related to the expected accounting income.

The present value of tax credits, calculated based on the average funding rate, net of tax effects, amounts to R\$14,026,544 thousand (September 30, 2009 R\$14,914,422 thousand and December 31, 2008 R\$11,879,228 thousand), of which R\$12,755,568 thousand (September 30, 2009 R\$13,285,399 thousand and December 31, 2008 R\$10,269,897 thousand) is relative to temporary differences, R\$1,031,153 thousand (September 30, 2009 R\$1,344,404 thousand and December 31, 2008 R\$1,256,550 thousand) to tax losses and negative basis of social contribution and R\$239,823 thousand (September 30, 2009 R\$284,619 thousand and December 31, 2008 R\$352,781 thousand) comprises tax credit over social contribution Provisional Measure 2,158-35.

## e) Unrecorded tax credits

Tax credits of R\$274,222 thousand (September 30, 2009 R\$71,690 thousand and December 31, 2008 R\$70,155 thousand) have not been recorded in the financial statements, and will be recorded when prospects of realization are probable according to studies and analyses prepared by the Management and in accordance with Bacen rules.

Due to the *Ação Direta de Inconstitucionalidade* (lawsuit filed at the Supreme Court claiming the unconstitutionality of a law approved by congress) filed by the National Confederation of the Financial System (CONSIF) against Provisional Measure 413/08 (converted into Law 11,727/08, Articles 17 and 41), tax credits from previous periods

arising from the Social Contribution rate increase from 9% to 15% were recorded up to the limit of the corresponding consolidated tax liabilities. The unrecognized tax credit balance related to the Social Contribution rate increase not recorded amounts to R\$812,788 thousand (note 3h).

## f) Deferred tax liabilities

	R\$ thousand		
	2009		2008
	December 31	September 30	December 31
	460 141	(17 (27	495 716
Mark-to-market adjustment of derivative financial instruments	469,141	617,637	485,716
Difference in depreciation	2,996,545	2,962,159	1,324,688
Operations in the market for future settlement	1,454	64,186	1,807
Others	518,327	683,961	655,639
Total	3,985,467	4,327,943	2,467,850

The deferred tax liabilities of financial and insurance sectors companies were established considering the increase of the social contribution rate, determined by Provisional Measure 413/08 (converted into Law 11,727/08) (Note 3h).

## **35) OTHER INFORMATION**

a) The Bradesco Organization manages investment funds and portfolios with net assets on December 31, 2009 of R\$247,700,191 thousand (September 30, 2009 - R\$236,911,941 thousand and December 31, 2008 R\$187,150,053 thousand).

b) On January 21, 2010, Bradesco entered into a Memorandum of Understanding with the controlling shareholders of Ibi Services S. de R. L. México (Ibi México) and RFS Human Management S. de R.L., to acquire 100% of their capital stock. Ibi México has a loan portfolio of 1.3 billion Mexican Pesos, equivalent to R\$180 million, shareholders equity of 566 million Mexican Pesos, or nearly R\$79 million, and over 1 million credit cards. The business foresees a 20-year Partnership Agreement with C&A México S. de R.L. (C&A México), for the exclusive joint sale of financial products and services through the C&A México retail chain. This transaction is subject to the compliance of usual condition precedent to this type of operation, especially procedures, the signature of definitive contracts and the approval of competent Mexican and Brazilian authorities. The parties expect to conclude the legal procedures and enter into all the agreements by March 30, 2010.

## Independent Auditor s Report Summary

### Independent Auditors Report on Limited Review

(A free translation of the original in Portuguese)

To the Board of Directors Banco Bradesco S.A.

1. We have audited the financial statements of Banco Bradesco S.A. and its subsidiaries, comprising the consolidated balance sheets as of December 31, 2009 and 2008 and the related consolidated statements of income, of changes in stockholders' equity, of cash flows and of value added for the years then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements.

2. We conducted our audits in accordance with approved Brazilian auditing standards, which require that we perform the audits to obtain reasonable assurance about whether the financial statements are fairly presented in all material respects. Accordingly, our work included, among other procedures: (a) planning our audits taking into consideration the significance of balances, the volume of transactions and the accounting and internal control systems of the Bank and its subsidiaries, (b) examining, on a test basis, evidence and records supporting the amounts and disclosures in the financial statements and (c) assessing the accounting practices used and significant estimates made by the Bank s management, as well as evaluating the overall financial statement presentation.

3. In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Banco Bradesco S.A. and its subsidiaries at December 31, 2009 and 2008 and the results of their operations, the changes in stockholders' equity, their cash flows and value added for the years then ended, in accordance with accounting practices adopted in Brazil.

4. In connection with our limited reviews of the Quarterly Information of Banco Bradesco S.A. and its subsidiaries as of December 31 and September 30, 2009, on which we issued review reports, without exceptions, dated January 27, 2010 and October 30, 2009, respectively, we carried out a review of the balance sheet of Banco Bradesco S.A. and its subsidiaries as of September 30, 2009 and of the consolidated statements of income, of cash flows and of value added, for the quarters ended December 31 and September 30, 2009 which are presented by management to provide additional information on Banco Bradesco S.A. and its subsidiaries. This additional information is not an integral part of the statutory financial statements, since its presentation is not required in accordance with accounting practices adopted in Brazil.

São Paulo, January 27, 2010

PricewaterhouseCoopers Auditores Independentes CRC 2SP000160/O-5

Washington Luiz Pereira Cavalcanti Contador CRC 1SP172940/O-6

#### Summary of the Audit Committee

#### **Corporate Governance and Related Responsibilities**

Bradesco s Board of Directors opted for a single Audit Committee for all the companies comprising the Financial Conglomerate, including Grupo Bradesco de Seguros e Previdência (Insurance Group).

The Management is in charge of defining and implementing managerial information systems to prepare the financial statements of the companies comprising Bradesco Organization, pursuant to the Brazilian Corporation Law, the accounting principles adopted in Brazil, to rules of the National Monetary Council, the Brazilian Central Bank, the Securities and Exchange Commission of Brazil (CVM), National Private Insurance Board (CNSP), the Insurance Superintendence (Susep) and the National Agency for Supplementary Healthcare (ANS).

The Management is also responsible for processes, policies and internal control procedures that ensure the protection of assets, the appropriate recognition of liabilities and the elimination or reduction at acceptable levels of Bradesco Organization s risk factors.

The Independent Audit is in charge of examining the financial statements and issuing an opinion about their compliance with the accounting principles. Additionally, as a result of its works for the purpose of issuing the aforementioned opinion, it also advises on accounting procedures and internal controls, without prejudice to other reports to be prepared, such as quarterly limited reviews.

It is incumbent upon the Internal Audit (General Inspectorate Department) to check the quality of Bradesco Organization s control systems and the regularity of policies and procedures established by the Management, including those adopted in the preparation of financial reports.

It is incumbent upon the Audit Committee to assess the quality and the effectiveness of the Internal and Independent Audits, the effectiveness and the sufficiency of Bradesco Organization s control systems and to analyze the financial statements, providing the relevant recommendations, when applicable.

Among the Audit Committee s duties, are also included those required by the U.S. Sarbanes-Oxley Act related to companies listed on U.S. Securities and Exchange Commission and shares quoted on the New York Stock Exchange.

The Audit Committee s charter is available on the website www.bradesco.com.br, Corporate Governance website.

#### Activities performed in 2009

The Audit Committee attended 153 meetings with business, control and risk management areas, and with internal and independent auditors, checking the information on the matters considered relevant or critical by means of different sources.

The Audit Committee s work schedule for 2009 is focused on the main processes and products referring to Bradesco Organization s activities. Among the most relevant aspects, we point out the assessment of:

the market, credit and operating risks management and control systems, preparation for the use of internal models in line with the conditions set forth by the New Basel Capital Accord (Basel II) and Brazilian Central Bank s rules about the issue;

the structure and operation of the areas responsible for monitoring the compliance with laws, regulation and Bradesco Organization s internal rules related to consumer defense; and

the improvement in the internal controls systems deriving from projects in the IT and Risk Management areas.

#### **Internal Controls Systems**

Based on the work program and agenda established for 2009, the Audit Committee informed on the main processes within the Organization, evaluating their managers quality and commitment to their continuous improvement.

As a result of meetings with Bradesco Organization s areas, the Audit Committee had the opportunity to suggest the Board of Directors as to improve processes, as well as to monitor the corrections of gaps identified in the audit process.

Based on the information and remarks collected, the Audit Committee deems that the internal control system of Bradesco Organization is suitable to the size and complexity of its businesses and was structured so as to ensure the efficiency of its operations, the financial report- generating systems, as well as the compliance with the internal and external rules, to which the transactions are subject.

#### **Independent Audit**

The planning of the independent audit works for 2009 was discussed with PricewaterhouseCoopers Auditores Independentes and, throughout the year, the audit teams responsible for the services presented the results and main conclusions to the Audit Committee.

The material issues pointed out in the report about the study and the evaluation of accounting and internal controls systems, prepared in connection with the examination of the financial statements and respective recommendations for the improvement of these systems, were discussed with the Committee which requested the monitoring of the implementations and improvements in the areas in charge.

Based on the planning submitted by auditors and on the subsequent discussions about the results, the Committee considered that the works developed by the teams were adequate to the Organization s businesses.

#### **Internal Audit**

The Committee requested the Internal Audit to consider in its planning for 2009, several works in line with issues covered by the Committee s agenda.

Throughout 2009, the teams in charge of executing planned works reported and discussed with the Audit Committee the main conclusions on process and inherent risks.

Based on the discussions on the planning of Internal Audit works focused on risks, processes and presentation of results, the Audit Committee believes that the Internal Audit has adequately met its demands so that the Committee Members can give their opinion on the topics discussed.

#### **Consolidated Financial Statements**

In 2009, the Committee held meetings with the General Accounting, Planning, Budget, Control and Internal Audit departments to monitor the preparation of the monthly, quarterly, half-yearly and annual financial statements. These meetings analyzed and assessed the aspects of preparing individual and consolidated trial balances and balance sheets, notes to the financial statements and financial reports published jointly with consolidated financial statements.

Bradesco s accounting policies were also considered in the preparation of financial statements, as well as the compliance to the accounting principles adopted in Brazil, as well as with the applicable laws.

Prior to the disclosures of the Quarterly Financial Information (IFTs) and the half-yearly balance sheet, the Committee held private meetings with PricewaterhouseCoopers to assess the aspects of independence and control environment when producing the figures to be disclosed.

Based on aforementioned reviews and discussions, the Audit Committee recommends the Board of Directors the approval of the audited financial statements related to the year ended on December 31, 2009.

#### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
