NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Principles of Consolidation

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and VIEs for which we are the primary beneficiary. Noncontrolling interests represents a minority owner's proportionate share of the equity in certain of our consolidated entities. All intercompany transactions and account balances have been eliminated in consolidation.

Discontinued Operations

In accordance with Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale, we reported the financial position and results of operations of our stations in Lansing, Michigan (WLAJ-TV) and Providence, Rhode Island (WLWC-TV), as assets and liabilities held for sale in the accompanying consolidated balance sheets and consolidated statements of operations. Discontinued operations have not been segregated in the consolidated statements of cash flows and, therefore, amounts for certain captions will not agree with the accompanying consolidated balance sheets and consolidated statements of operations. WLAJ-TV was recently acquired in the second quarter of 2012 in connection with the acquisition of the television stations from Freedom Communications (Freedom). WLWC-TV was recently acquired in the first quarter of 2012 in connection with the acquisition of the television stations from Four Points Media Group LLC (Four Points). See *Note 2. Acquisitions* for more information. In October 2012, we entered into an agreement to sell all the assets of WLAJ-TV to an unrelated third party for \$14.4 million. In January 2013, we entered into an agreement to sell the assets of WLWC-TV to an unrelated third party for \$13.8 million. The operating results of WLAJ-TV, which was sold effective March 1, 2013, and WLWC-TV, which was sold effective April 1, 2013, are not included in our consolidated results of operations from continuing operations for the quarter ended March 31, 2013. As of March 31, 2013, assets held for sale and liabilities held for sale included \$1.3 million of negative working capital and programming contracts payable, \$1.6 million of property and equipment, net, \$0.8 million of broadcast licenses, \$7.2 million of goodwill and \$5.5 million of definite-lived intangible assets for WLWC-TV. Total revenues for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the quarter ended March 31, 2013 are \$0.6 million and \$1.6 million, respectively, and total revenues of WLWC-TV, which are included in discontinued operations for the quarter ended March 31, 2012, was \$1.5 million. Total income before taxes for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the quarter ended March 31, 2013, are \$0.2 million and \$0.4 million, respectively, and total income before taxes of WLWC-TV, which are included in discontinued operations for the quarter ended March 31, 2012, was less than \$0.1 million. The sale of WLAJ-TV effective March 1, 2013, resulted in a gain of \$0.1 million. Basic and diluted earnings per share from discontinued operations was less than \$0.01 per share for the quarters ended March 31, 2013 and 2012.

Interim Financial Statements

The consolidated financial statements for the three months ended March 31, 2013 and 2012 are unaudited. In the opinion of management, such financial statements have been presented on the same basis as the audited consolidated financial statements and include all adjustments,

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

consisting only of normal recurring adjustments necessary for a fair statement of the consolidated balance sheets, consolidated statements of operations, consolidated statements of comprehensive income and consolidated statements of cash flows for these periods as adjusted for the adoption of recent accounting pronouncements discussed below.

As permitted under the applicable rules and regulations of the Securities and Exchange Commission (SEC), the consolidated financial statements do not include all disclosures normally included with audited consolidated financial statements and, accordingly, should be read together with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2012 filed with the SEC. The consolidated statements of operations presented in the accompanying consolidated financial statements are not necessarily representative of operations for an entire year.

Variable Interest Entities

In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. We consolidate VIEs when we are the primary beneficiary. The assets of each of our consolidated VIEs can only be used to settle the obligations of the VIE. All the liabilities, including debt held by our VIEs, are non-recourse to us except for Deerfield Media, Inc.'s (Deerfield) debt which we guarantee.

Table of Contents

We have entered into local marketing agreements (LMAs) to provide programming, sales and managerial services for television stations of Cunningham Broadcasting Company (Cunningham), the license owner of seven television stations as of March 31, 2013. We pay LMA fees to Cunningham and also reimburse all operating expenses. We also have an acquisition agreement in which we have a purchase option to buy the license assets of the television stations which includes the FCC license and certain other assets used to operate the station (License Assets). Our applications to acquire the FCC licenses are pending approval. We own the majority of the non-license assets of the Cunningham stations and our Bank Credit Agreement contains certain default provisions whereby insolvency of Cunningham would cause an event of default under our Bank Credit Agreement. We have determined that the Cunningham stations are VIEs and that based on the terms of the agreements, the significance of our investment in the stations and the cross-default provisions with our Bank Credit Agreement, we are the primary beneficiary of the variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIEs through the sales and managerial services we provide and we absorb losses and returns that would be considered significant to Cunningham. See *Note 6. Related Person Transactions* for more information on our arrangements with Cunningham. Included in the accompanying consolidated statements of operations for the quarters ended March 31, 2013 and 2012 are net broadcast revenues of \$24.6 million and \$23.3 million, respectively, which relates to LMAs with Cunningham.

Effective December 1, 2012, we have entered into joint sales agreements (JSAs) and shared services agreements (SSAs) to provide certain non-programming related sales, operational and administrative services for the television stations of Deerfield, the license owner of six television stations as of March 31, 2013. The initial term is for eight years from the commencement and the agreement may be automatically renewed for successive eight year renewal terms. We also have a purchase option to buy the license assets of the television stations. We own the majority of the non-license assets of the Deerfield stations and we have also guaranteed the debt of Deerfield. Additionally, there is a lease in place whereby Deerfield leases assets owned by us in order to perform its duties under FCC rules. We have determined that the Deerfield stations are VIEs and that based on the terms of the agreements, the significance of our investment in the stations and our guarantee of Deerfield's debt, we are the primary beneficiary of the variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIEs through the sales and managerial services we provide and we absorb losses and returns that would be considered significant to Deerfield. Included in the accompanying consolidated statements of operations for the quarter ended March 31, 2013 are net revenues of \$15.7 million that relate to agreements with Deerfield.

We have outsourcing agreements with certain other license owners, under which we provide certain non-programming related sales, operational and administrative services. We pay a fee to the license owners based on a percentage of broadcast cash flow and we reimburse all operating expenses. We also have a purchase option to buy the License Assets. We have determined that the License Assets of these stations are VIEs, and, based on the terms of the agreements and the significance of our investment in the stations, we are the primary beneficiary of the variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIE through the sales and managerial services we provide and because we absorb losses and returns that would be considered significant to the VIEs. Included in the accompanying consolidated statements of operations for the quarters ended March 31, 2013 and 2012 are net revenues of \$8.5 million and \$3.7 million, respectively, which relates to these arrangements.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

The amounts above represent the consolidated assets and liabilities of the VIEs related to our LMAs with Cunningham, JSAs and SSAs with Deerfield and certain outsourcing agreements, for which we are the primary beneficiary, and have been aggregated as they all relate to our broadcast business. Excluded from the amounts above are payments made to Cunningham under the LMA which are treated as a prepayment of the purchase price of the stations and capital leases between us and Cunningham which are eliminated in consolidation. The total payment made under these LMAs as of March 31, 2013 and December 31, 2012, which are excluded from liabilities above, were \$30.6 million and \$29.8 million, respectively. The total capital lease assets excluded from above were \$11.7 million and \$11.7 million as of March 31, 2013 and December 31, 2012, respectively. The risk and reward characteristics of the VIEs are similar.

In the fourth quarter of 2011, we began providing sales, programming and management services to the Freedom stations pursuant to a LMA. Effective April 1, 2012, we completed the acquisition of the Freedom stations and the LMA was terminated. We determined that the Freedom stations were VIEs during the period of the LMA based on the terms of the agreement. We were not the primary beneficiary because the owner of the stations had the power to direct the activities of the VIEs that most significantly impacted the economic performance of the VIEs. In the consolidated statements of operations for the quarter ended March 31, 2012 are net broadcast revenues of \$10.0 million and station production expenses of \$7.8 million related to the Freedom LMAs.

We have investments in other real estate ventures and investment companies which are considered VIEs. However, we do not participate in the management of these entities including the day-to-day operating decisions or other decisions which would allow us to control the entity, and therefore, we are not considered the primary beneficiary of these VIEs. We account for these entities using the equity or cost method of accounting.

Table of Contents

The carrying amounts of our investments in these VIEs for which we are not the primary beneficiary for the periods presented (in thousands):

	As of March 31, 2013		As of December 31, 2012	
	Carrying amount	Maximum exposure	Carrying amount	Maximum exposure
Investments in real estate ventures	\$ 3,621	\$ 3,621	\$ 3,648	\$ 3,648
Investments in investment companies	28,282	28,282	27,335	27,335
Total	\$ 31,903	\$ 31,903	\$ 30,983	\$ 30,983

The carrying amounts above are included in other assets in the consolidated balance sheets. The income and loss related to these investments are recorded in income from equity and cost method investments in the consolidated statement of operations. We recorded income of \$0.4 million and \$1.4 million in the three months ended March 31, 2013 and 2012, respectively.

Our maximum exposure is equal to the carrying value of our investments. As of March 31, 2013 and December 31, 2012, our unfunded commitments related to private equity investment funds totaled \$17.9 million and \$8.9 million, respectively.

Recent Accounting Pronouncements

In July 2012, the FASB issued new guidance for testing indefinite-lived intangible assets for impairment. The new guidance allows companies to perform a qualitative assessment to determine whether further impairment testing of indefinite-lived intangible assets is necessary, similar to the approach now applied to goodwill. Companies can first determine based on certain qualitative factors whether it is more likely than not (a likelihood of more than 50 percent) that an indefinite-lived intangible asset is impaired. The new standard is intended to reduce the cost and complexity of testing indefinite-lived intangible assets for impairment. The revised standard is effective for annual and interim impairment tests performed for fiscal years beginning after September 30, 2012 and early adoption is permitted. We adopted this new guidance in the fourth quarter of 2012 when completing our annual impairment analysis. This guidance impacted how we perform our annual impairment testing for indefinite-lived intangible assets and changed our related disclosures for 2012; however, it does not have an impact on our consolidated financial statements as the guidance does not impact the timing or amount of any resulting impairment charges.

In February 2013, the FASB issued new guidance requiring disclosure of items reclassified out of accumulated other comprehensive income (AOCI). This new guidance requires entities to present (either on the face of the income statement or in the notes) the effects on the line items of the income statement for amounts reclassified out of AOCI. The new guidance is effective for annual and interim periods beginning after December 15, 2012. This guidance does not have a material impact on our financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated

financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Restricted Cash

During the three months ended March 31, 2013, we deposited a total of \$25.0 million into escrow accounts upon entering into agreements to purchase certain television stations, as further discussed under Pending Acquisitions in *Note 3. Commitments and Contingencies*. These escrow deposits are classified as restricted cash within noncurrent assets in the consolidated balance sheet as of March 31, 2013.

Under the terms of certain lease agreements, as of March 31, 2013 and December 31, 2012, we were required to hold \$0.2 million of restricted cash related to the removal of analog equipment from some of our leased towers.

Revenue Recognition

Total revenues include: (i) cash and barter advertising revenues, net of agency commissions; (ii) retransmission consent fees; (iii) network compensation; (iv) other broadcast revenues and (v) revenues from our other operating divisions.

Advertising revenues, net of agency commissions, are recognized in the period during which time spots are aired.

Our retransmission consent agreements contain both advertising and retransmission consent elements. We have determined that our retransmission consent agreements are revenue arrangements with multiple deliverables. Advertising and retransmission consent deliverables sold under our agreements are separated into different units of accounting at fair value. Revenue applicable to

Table of Contents

the advertising element of the arrangement is recognized similar to the advertising revenue policy noted above. Revenue applicable to the retransmission consent element of the arrangement is recognized over the life of the agreement.

Network compensation revenue is recognized over the term of the contract. All other revenues are recognized as services are provided.

Income Taxes

Our income tax provision for all periods consists of federal and state income taxes. The tax provision for the three months ended March 31, 2013 and 2012 is based on the estimated effective tax rate applicable for the full year after taking into account discrete tax items and the effects of the noncontrolling interests. We provide a valuation allowance for deferred tax assets if we determine that it is more likely than not that some or all of the deferred tax assets will not be realized. In evaluating our ability to realize net deferred tax assets, we consider all available evidence, both positive and negative, including our past operating results, tax planning strategies and forecasts of future taxable income. In considering these sources of taxable income, we must make certain judgments that are based on the plans and estimates used to manage our underlying businesses on a long-term basis. A valuation allowance has been provided for deferred tax assets related to a substantial portion of our available state net operating loss carryforwards, based on past operating results, expected timing of the reversals of existing temporary book/tax basis differences, alternative tax strategies and projected future taxable income.

Our effective income tax rate for the three months ended March 31, 2013 approximated the statutory rate. Our effective income tax rate for the three months ended March 31, 2012 was lower than the statutory rate primarily due to a release of valuation allowance of \$7.7 million related to certain deferred tax assets of Cunningham, one of our consolidated VIEs, as the weight of all available evidence supports realization of the deferred tax assets. The valuation allowance release determination was based primarily on the sufficiency of forecasted taxable income necessary to utilize NOLs expiring in years 2022 - 2030. This VIE files separate income tax returns. Any resulting tax liabilities are nonrecourse to us and we are not entitled to any benefit resulting from the deferred tax assets of the VIE.

We believe it is reasonably possible that our liability for unrecognized tax benefits related to continuing and certain discontinued operations will be reduced by \$0.6 and \$5.1 million, respectively, in the next twelve months as a result of expected statute of limitations expirations, the application of limits under available state administrative practice exceptions, and the resolution of examination issues and settlements with federal and certain state tax authorities. On April 3, 2013, we entered into a settlement agreement with the Internal Revenue Service's Appeals Office with respect to our 2006 and 2007 federal income tax returns. We do not expect any material impact on our financial statements as a result of that settlement.

Subsequent events

In April 2013, we commenced a public offering of 18.0 million primary shares of Class A common stock. Certain selling stockholders also intend to grant the underwriters a 30-day option to purchase up to an additional 2.7 million shares on the same terms and conditions. Net proceeds are intended to fund pending and future potential television station acquisitions and for general corporate purposes. The offering was priced at \$27.25 per share on May 1, 2013. The offering is expected to close on May 7, 2013.

Reclassifications

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

2. ACQUISITIONS

Four Points

Effective January 1, 2012, we completed the acquisition of the broadcast assets of Four Points, which we had previously operated pursuant to a LMA since October 1, 2011. The acquired assets consist of the following seven stations in four markets along with the respective network affiliation or program service arrangements: KUTV (CBS) and KMYU (MNT / This TV) in Salt Lake City / St. George, UT; KEYE (CBS) in Austin, TX; WTVX (CW), WTCN (MNT) and WWHB (Azteca) in West Palm Beach / Fort Pierce / Stuart, FL; and WLWC (CW) in Providence, RI / New Bedford, MA. This acquisition provides expansion into additional markets and increases value based on the synergies we can achieve.

We paid Four Points \$200.0 million in cash, less a working capital adjustment of \$0.9 million. The acquisition was financed with a \$180.0 million draw under an incremental Term B Loan commitment under our amended Bank Credit Agreement plus a \$20.0 million cash escrow previously paid in September 2011.

Table of Contents

Under the acquisition method of accounting, the results of the acquired operations are included in the financial statements of the Company beginning January 1, 2012. The purchase price has been allocated to the acquired assets and assumed liabilities based on estimated fair values. The allocated fair value of acquired assets and assumed liabilities is summarized as follows (in thousands):

Prepaid expenses and other current assets	\$	456
Program contract costs		3,731
Property and equipment		34,578
Broadcast licenses		10,658
Definite-lived intangible assets		93,800
Other assets		548
Accrued liabilities		(381)
Program contracts payable		(5,157)
Fair value of identifiable net assets acquired		138,233
Goodwill		60,843
Total	\$	199,076

The final allocation presented above is based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The amount allocated to definite-lived intangible assets represents the estimated fair values of network affiliations of \$66.9 million, the decaying advertiser base of \$9.8 million, and other intangible assets of \$17.1 million. These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations, 10 years for the decaying advertiser base and a weighted average of 14 years for the other intangible assets. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. We expect that goodwill will be deductible for tax purposes. Certain measurement period adjustments have been made since the initial allocation in the first quarter of 2012, which were not material to the consolidated financial statements.

Prior to the acquisition, since October 1, 2011, we provided sales, programming and management services to the stations pursuant to an LMA. During that period, we funded the working capital needs of the stations, which totaled \$8.1 million as of December 31, 2011 and was reflected as cash flows used in operating activities within the consolidated statement of cash flows for that period. This working capital is not reflected in the purchase price allocation presented above.

The results of operations for the quarter ended March 31, 2012 include the results of the Four Points stations since January 1, 2012. Net broadcast revenues and operating income of the Four Points stations included in our consolidated statements of operations, were \$17.7 million and \$4.3 million for the quarter ended March 31, 2013, respectively, and \$16.5 million and \$4.5 million for the quarter ended March 31, 2012, respectively. These amounts exclude the operations of WLWC-TV which are classified as discontinued operations in the consolidated statements of operations. See *Note 1. Nature of Operations and Summary of Significant Accounting Policies*. Net broadcast revenues and operating income of WLWC-TV were \$1.3 million and \$0.4 million, respectively, for the quarter ended March 31, 2013 and \$1.3 million and \$0.03 million for the quarter ended March 31, 2012, respectively.

Freedom

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

Effective April 1, 2012, we completed the acquisition of the broadcast assets of Freedom, which we had previously operated pursuant to a LMA since December 1, 2011. The acquired assets consist of the following eight stations in seven markets along with the respective network affiliation or program service arrangements: WPEC (CBS) in West Palm Beach, FL; WWMT (CBS) in Grand Rapids/Kalamazoo/Battle Creek, MI; WRGB (CBS) and WCWN (CW) in Albany, NY; WTVC (ABC) in Chattanooga, TN; WLAJ (ABC) in Lansing, MI; KTVL (CBS) in Medford-Klamath Falls, OR; and KFDM (CBS) in Beaumont/Port Arthur/Orange, TX. This acquisition provides expansion into additional markets and increases value based on the synergies we can achieve.

We paid Freedom \$385.0 million plus a working capital adjustment of \$0.3 million. The acquisition was financed with a draw under a \$157.5 million incremental Term Loan A and a \$192.5 million incremental Term B Loan commitment under our amended Bank Credit Agreement, plus a \$38.5 million cash escrow previously paid in November 2011.

Under the acquisition method of accounting, the results of the acquired operations are included in the financial statements of the Company beginning April 1, 2012. The purchase price has been allocated to the acquired assets and assumed liabilities based on estimated fair values. The allocated fair value of acquired assets and assumed liabilities is summarized as follows (in thousands):

Table of Contents

Prepaid expenses and other current assets	\$	373
Program contract costs		3,520
Property and equipment		54,109
Broadcast licenses		10,424
Definite-lived intangible assets		140,963
Other assets		278
Accrued liabilities		(589)
Program contracts payable		(3,404)
Fair value of identifiable net assets acquired		205,674
Goodwill		179,609
Total	\$	385,283

The final allocation presented above is based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The amount allocated to definite-lived intangible assets represents the estimated fair values of network affiliations of \$93.1 million, the decaying advertiser base of \$25.1 million, and other intangible assets of \$22.8 million. These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations, 10 years for the decaying advertiser base and a weighted average life of 16 years for the other intangible assets. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. We expect that goodwill will be deductible for tax purposes. Certain measurement period adjustments have been made since the initial allocation in the second quarter of 2012, which were not material to the consolidated financial statements.

Prior to the acquisition, since December 1, 2011, we provided sales, programming and management services to the stations pursuant to an LMA. During that period, we funded the working capital needs of the stations, which totaled \$1.5 million as of December 31, 2011 and \$9.6 million as of March 31, 2012 and was reflected as cash flows used in operating activities within the consolidated statement of cash flows for those periods. This working capital is not reflected in the purchase price allocation presented above.

The results of operations for the quarter ended March 31, 2012 do not include the results of the Freedom stations since the stations were acquired April 1, 2012. Net broadcast revenues and operating income of the Freedom stations included in our consolidated statements of operations, were \$26.3 million and \$5.9 million for the quarter ended March 31, 2013, respectively. These amounts exclude the operations of WLAI-TV which are classified as discontinued operations in the consolidated statements of operations. See *Note 1. Nature of Operations and Summary of Significant Accounting Policies*. Net broadcast revenues and operating losses of WLAI-TV were \$0.6 million and \$0.2 million, respectively, for the quarter ended March 31, 2013. Additionally, during the first quarter 2012, prior to the acquisition, we recorded net broadcast revenues of \$10.0 million related to the Freedom LMAs.

Newport

Effective December 1, 2012, we completed the acquisition of certain broadcast assets of Newport Television (Newport). The acquired assets relate to the following seven stations in six markets along with the respective network affiliation or program service arrangements: WKRC (CBS) in Cincinnati, OH; WOAI (NBC) in San Antonio, TX; WHP (CBS) in Harrisburg/Lancaster/Lebanon/York, PA; WPMI (NBC) and WJTC (IND) in Mobile, AL/Pensacola, FL; KSAS (FOX) in Wichita/Hutchinson, KS; and WHAM (ABC) in Rochester, NY. We also acquired Newport's rights under the local marketing agreements with WLYH (CW) in Harrisburg, PA and KMTW (MNT) in Wichita, KS, as well as

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

options to acquire the license assets. This acquisition provides expansion into additional markets and increases value based on the synergies we can achieve.

We paid Newport \$460.5 million in cash, less a working capital adjustment of \$1.3 million. We financed the \$460.5 million purchase price, less the \$41.3 million in escrow with the net proceeds from the 6.125% Notes issued in October 2012.

Our right to acquire certain of the license assets of WPMI and WJTC in Mobile, AL was assigned to Deerfield and Deerfield acquired these assets effective December 1, 2012 for \$6.0 million. Additionally, Deerfield acquired the license assets of WHAM in Rochester, NY effective February 1, 2013 for \$6.0 million, using borrowings under its bank credit facility. Prior to Deerfield's acquisition of the assets of WHAM, the assets were owned by Newport. Concurrent with the acquisition of WKRC in Cincinnati, OH and WOAI in San Antonio, TX from Newport, we sold to Deerfield the license assets of two of our existing stations located in Cincinnati, OH (WSTR MNT) and San Antonio, TX (KMYS CW) for a total of \$10.7 million. Deerfield financed these purchases with third party bank financing which we have guaranteed. We have assignable purchase option agreements with Deerfield to acquire the license assets upon FCC approval and operate the stations pursuant to shared services and joint sales agreements with

Table of Contents

Deerfield. We consolidate the license assets owned by Deerfield because the licensee companies are VIEs and we are the primary beneficiary. Prior to Deerfield acquiring the license assets of WHAM in Rochester, NY on February 1, 2013, we operated the station pursuant to a shared services and joint sales agreement with Newport. We consolidated the license assets owned by Newport from December 1, 2012 to January 31, 2013 because the licensee company was a VIE and the Company is the primary beneficiary. See *Variable Interest Entities* in *Note 1. Nature of Operations and Summary of Significant Accounting Policies*. The purchase of the license assets by Deerfield in February 2013 was accounted for as a transaction between parties under common control.

Under the acquisition method of accounting, the results of the acquired operations are included in the financial statements of the Company beginning December 1, 2012. The initial purchase price has been allocated to the acquired assets and assumed liabilities based on estimated fair values. The initial purchase price allocated includes \$460.5 million paid for certain broadcast assets of the seven stations from Newport and the rights under the LMAs with the two other stations, \$6.0 million paid by Deerfield for the license assets of WPMI and WJTC and \$6.0 million paid by Deerfield for the license assets of WHAM, and \$0.2 million of noncontrolling interests related to the WLYH VIE, less a working capital adjustment of \$1.3 million. The sale of the license assets ofWSTR in Cincinnati, OH and KMYS in San Antonio, TX was considered a transaction between parties under common control and therefore was not included in the purchase price allocation. The purchase price allocation is preliminary pending a final determination of the fair values of the assets and liabilities. The initial allocated fair value of acquired assets and assumed liabilities, including the assets owned by VIEs, is summarized as follows (in thousands):

Prepaid expenses and other current assets	\$	1,390
Program contract costs		10,378
Property and equipment		53,883
Broadcast licenses		15,581
Definite-lived intangible assets		240,013
Other assets		1,097
Accrued liabilities		(3,928)
Program contracts payable		(11,634)
Fair value of identifiable net assets acquired		306,780
Goodwill		164,621
Total	\$	471,401

The preliminary allocation presented above is based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The amount allocated to definite-lived intangible assets represents the estimated fair values of network affiliations of \$176.0 million, the decaying advertiser base of \$23.7 million, and other intangible assets of \$40.3 million. These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations, 10 years for the decaying advertiser base and a weighted average of 14 years for the other intangible assets. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. We expect that goodwill will be deductible for tax purposes. The preliminary purchase price allocation is based upon all information available to us at the present time and is subject to change, and such changes could be material. Certain measurement period adjustments have been made since the initial allocation in the fourth quarter of 2012, which were not material to our consolidated financial statements.

The results of operations for the year ended December 31, 2012 include the results of the Newport stations since December 1, 2012. Net broadcast revenues and operating income of the Newport stations included in our consolidated statements of operations, were \$34.9 million and \$8.3 million for the quarter ended March 31, 2013, respectively.

Pro Forma Information

The following table sets forth unaudited pro forma results of operations for the quarter ended March 31, 2012, assuming that the acquisitions of the Freedom and Newport stations discussed above, along with transactions necessary to finance the acquisitions, occurred at the beginning of the annual period presented (in thousands, except per share data):

	(Unaudited)	
	2012	
Total revenues	\$	267,076
Net Income	\$	27,366
Net Income attributable to Sinclair Broadcast Group	\$	27,613
Basic and diluted earnings per share attributable to Sinclair Broadcast Group	\$	0.34

Table of Contents

The results of operations of the Four Points stations was included in our consolidated statements of operations for the quarters ended March 31, 2013 and 2012. The results of operations, of all of the aforementioned acquired stations, were included in our consolidated statement of operations for the quarter ended March 31, 2013.

This pro forma financial information is based on historical results of operations, adjusted for the allocation of the purchase price and other acquisition accounting adjustments, and is not necessarily indicative of what our results would have been had we operated the businesses since the beginning of the annual period presented. The pro forma adjustments reflect depreciation expense, amortization of intangibles and amortization of program contract costs related to the fair value adjustments of the assets acquired, additional interest expense related to the financing of the transactions, exclusion of nonrecurring financing and transaction related costs, alignment of accounting policies and the related tax effects of the adjustments. The pro forma revenues exclude the revenues of WLAJ-TV which are classified as discontinued operations in the consolidated statements of operations. Total revenues of WLAJ-TV which are excluded from the pro forma results above are \$1.0 million for the quarter ended March 31, 2012.

In connection with these acquisitions, we incurred a total of \$1.9 million of costs primarily related to legal and other professional services, which we expensed as incurred. For the quarters ended March 31, 2013 and 2012, such costs were incurred in corporate, general and administrative expenses in the consolidated statements of operations and totaled \$0.2 million and \$0.4 million, respectively. These costs were not included in the pro forma amounts above as they are nonrecurring in nature.

Other Acquisitions

We acquired five other television stations during the year ended 2012 in three markets. The initial purchase price allocated includes \$45.1 million paid for certain broadcast assets of these stations, less working capital adjustments of \$0.7 million, and \$4.4 million of noncontrolling interests related to the license assets of certain of these stations owned by variable interest entities that we consolidate. We allocated the total purchase price of these five stations as follows:

Prepaid expenses and other current assets	\$	160
Program contract costs		2,487
Property and equipment		17,309
Broadcast licenses		2,825
Definite-lived intangible assets		17,990
Accrued liabilities		(1,178)
Program contracts payable		(4,900)
Fair value of identifiable net assets acquired		34,693
Goodwill		14,106
Total	\$	48,799

In conjunction with these acquisitions, we incurred transaction costs of approximately \$0.6 million, which are reported in general and administrative expenses in the accompanying consolidated statements of operations. There were no transaction costs incurred in the quarter ended March 31, 2013 for these acquisitions. Net broadcast revenues and operating income of these stations included in our consolidated statement of operations for the quarter ended March 31, 2013 were \$6.6 million and \$1.6 million, respectively.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

In December 2012, we acquired the license assets of WTTA-TV in Tampa/St. Petersburg, Florida from Bay Television, Inc. (Bay TV). Prior to December 1, 2012, we performed sales, programming and other management services to the station pursuant to an LMA which was terminated upon closing. As discussed in *Note 6. Related Person Transactions*, our controlling shareholders own a controlling interest in Bay TV. As this was considered a transaction between entities under common control, the acquisition method of accounting was not applied, and the assets acquired were recorded at their historical cost basis and the difference between the purchase price and the historical cost basis of the assets of \$23.6 million, net of taxes of \$15.6 million, was recorded as a reduction in additional paid-in capital. A substantial portion of the purchase price will be deductible for tax purposes in future periods.

3. COMMITMENTS AND CONTINGENCIES:

Litigation

We are party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages and no judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

Table of Contents

Various parties have filed petitions to deny our applications or our LMA partners' applications for the following stations' license renewals: WXLV-TV, Winston-Salem, North Carolina; WMYV-TV, Greensboro, North Carolina; WLFL-TV, Raleigh / Durham, North Carolina; WRDC-TV, Raleigh / Durham, North Carolina; WLOS-TV, Asheville, North Carolina; WMMP-TV, Charleston, South Carolina; WTAT-TV, Charleston, South Carolina; WMYA-TV, Anderson, South Carolina; WICS-TV Springfield, Illinois; WBFF-TV, Baltimore, Maryland; KGAN-TV, Cedar Rapids, Iowa; WTTE-TV, Columbus, Ohio; WRGT-TV, Dayton, Ohio; WVAH, Charleston / Huntington, West Virginia and WCGV-TV in Milwaukee, Wisconsin. The FCC is in the process of considering the renewal applications and we believe the petitions have no merit.

Network Affiliations

On May 14, 2012, the Company and the licensees of stations to which we provide services, representing 20 affiliates of Fox Broadcast Company (FOX), extended the network affiliation agreements with FOX from the existing term of December 31, 2012 to December 31, 2017. Concurrently, we entered into an assignable option agreement with Fox Television Stations, Inc. (FTS) giving us or our assignee the right to purchase substantially all the assets of the WUTB station (Baltimore, MD) owned by FTS, which has a program service arrangement with MyNetworkTV, for \$2.7 million. In October 2012, we exercised our option and entered into an agreement to purchase the assets of WUTB and we expect the sale to close in the second quarter of 2013 subject to FCC approval and other closing conditions. As part of this transaction, we also granted options to FTS to purchase the assets of television stations we own in up to three out of four designated markets, which options expired unexercised. In the second quarter of 2012, we paid \$25.0 million to FOX pursuant to the agreements and we recorded \$50.0 million in other assets and \$25.0 million of other accrued liabilities within the consolidated balance sheet, representing the additional obligation due to FOX which was paid in April 2013. The \$50.0 million asset is being amortized through the current term of the affiliation agreement ending on December 31, 2017. Approximately \$2.2 million of amortization expense has been recorded in the consolidated statement of operations for the quarter ended March 31, 2013. In addition, we are required to pay to FOX programming payments under the terms of the affiliation agreements. These payments are recorded in station production expenses as incurred.

Pending Acquisitions and Divestments

Effective April 1, 2013, we sold all of the assets of WLWC-TV in Providence, Rhode Island to OTA Broadcasting LLC for \$13.8 million. As of March 31, 2013, the station is classified as held for sale and the results of operations are classified as discontinued operations during the three months ended March 31, 2013 and 2012. Since we acquired the station in January 2012, we believe the sale price approximates the fair value of the station on the original acquisition date. Therefore we do not expect to record a gain or loss upon sale of the station.

In February 2013, we entered into an agreement to purchase the broadcast assets of eighteen television stations owned by Barrington Broadcasting Group, LLC (Barrington) for \$370.0 million, less amounts to be paid by third parties, and entered into agreements to operate or provide sales services to another six stations. The twenty-four stations are located in fifteen markets. Also, the Company will sell its station WSYT-TV (FOX) and assign its LMA with WNYS-TV (MNT) in Syracuse, NY, and sell its station in Peoria IL, WYZZ-TV (FOX) to Cunningham for \$47.0 million due to FCC conflict ownership rules. The transaction is expected to close in the late second quarter or early third quarter of 2013 subject to the approval of the FCC and customary antitrust clearance.

In April 2013, we entered into a definitive merger agreement with Fisher Communications, Inc. (Fisher) to acquire Fisher in a merger transaction valued at approximately \$373.3 million. Fisher owns twenty television stations in eight markets and four radio stations in the Seattle market. Additionally, Fisher previously entered into an agreement to provide certain operating services for three TV stations, including two simulcasts, pending regulatory approval. The transaction is expected to close in the second or third quarter of 2013, subject to approval of the FCC, antitrust

clearance, affirmative vote of two-thirds of Fisher's outstanding shares and other customary conditions.

Effective May 1, 2013, we completed the acquisition of certain stock and/or broadcast assets of four television stations, located in four markets, owned by Cox Media Group (Cox) for \$99.0 million, less \$4.3 million of working capital adjustments and \$0.4 million paid by Deerfield for the purchase of the license assets of one other station for which we will operate pursuant to shared services and joint sales agreements.

4. NOTES PAYABLE AND COMMERCIAL BANK FINANCING

6.125% Senior Unsecured Notes, due 2022

Concurrent with entering into an indenture for the 6.125% Notes in October 2012, we also entered into a registration rights agreement requiring us to complete an offer of an exchange of the 6.125% Notes for registered securities with the Securities and Exchange Commission (the SEC) by July 8, 2013. We filed a registration statement on Form S-4 with the SEC on April 4, 2013 which became effective on April 16, 2013, and we expect the exchange offer to commence in the second quarter of 2013.

Table of Contents

5.375% Senior Unsecured Notes, due 2021

On April 2, 2013, we issued \$600.0 million of senior unsecured notes, which bear interest at a rate of 5.375% per annum and mature on April 1, 2021 (the 5.375% Notes), pursuant to an indenture dated April 2, 2013 (the 2013 Indenture). The 5.375% Notes were priced at 100% of their par value and interest is payable semi-annually on April 1 and October 1, commencing on October 1, 2013. Prior to April 1, 2016, we may redeem the 5.375% Notes, in whole or in part, at any time or from time to time at a price equal to 100% of the principal amount of the 5.375% Notes plus accrued and unpaid interest, if any, to the redemption date, plus a make-whole premium as set forth in the 2013 Indenture. Beginning on April 1, 2016, we may redeem some or all of the 5.375% Notes at any time or from time to time at a redemption price set forth in the 2013 Indenture. In addition, on or prior to April 1, 2016, we may redeem up to 35% of the 5.375% Notes using proceeds of certain equity offerings. Upon the sale of certain of our assets or certain changes of control, the holders of the 5.375% Notes may require us to repurchase some or all of the notes. The net proceeds from the offering of the 5.375% Notes were used to pay down outstanding indebtedness under our bank credit facility. We filed a registration statement on Form S-4 with the SEC on April 4, 2013, which became effective on April 16, 2013, and we expect the exchange offer to commence in the second quarter of 2013. As of March 31, 2013, we capitalized \$10.4 million in estimated fees to deferred financing costs, which are included in other assets in our consolidated financial statements.

Bank Credit Agreement

On April 9, 2013, we entered into an amendment and restatement (the Amendment) of our credit agreement (as amended, the Bank Credit Agreement). Pursuant to the Amendment, we refinanced the existing facility and replaced the existing term loans under the facility with a new \$500.0 million term loan A facility (Term Loan A), maturing April 2018 and priced at LIBOR plus 2.25%; and a \$400.0 million term loan B facility (Term Loan B), maturing April 2020 and priced at LIBOR plus 2.25% with a LIBOR floor of 0.75%. In addition, we replaced our existing revolving line of credit with a new \$100.0 million revolving line of credit maturing April 2018 and priced at LIBOR plus 2.25%. The proceeds from the term loans, along with cash on hand and/or a draw under the revolving line of credit, will be used to fund future acquisitions. Due to timing related to the closing and funding of the acquisitions, approximately \$445.0 million of the new Term Loan A will be drawn on a delayed basis. We also amended certain terms of the Bank Credit Agreement, including increased uncommitted incremental loan capacity, increased television station acquisition capacity and increased flexibility under the restrictive covenants.

We expect to recognize a loss on extinguishment of the old facility, primarily related to the repayment of the previous term loan B with proceeds from the 5.375% Notes, of approximately \$16 million, consisting of deferred financing costs and debt discount. Of the estimated financing costs to be paid in the second quarter of 2013 related to the amendment, we expect approximately \$7 million will be capitalized as deferred financing costs and approximately \$5 million will be charged to interest expense.

Table of Contents**5. EARNINGS PER SHARE**

The following table reconciles income (numerator) and shares (denominator) used in our computations of diluted earnings per share for the periods presented (in thousands):

	Three Months Ended March 31,	
	2013	2012
Income (Numerator)		
Income from continuing operations	\$ 16,515	\$ 29,125
Income impact of assumed conversion of the 4.875% Notes, net of taxes	45	45
Income impact of assumed conversion of the 3.0% Notes, net of taxes	26	
Net loss attributable to noncontrolling interests included in continuing operations	127	285
Numerator for diluted earnings per common share from continuing operations available to common shareholders	16,713	29,455
Income (loss) from discontinued operations, net of taxes	355	(51)
Numerator for diluted earnings available to common shareholders	\$ 17,068	\$ 29,404
Shares (Denominator)		
Weighted-average common shares outstanding	81,191	80,852
Dilutive effect of stock-settled appreciation rights, restricted stock awards and outstanding stock options	223	21
Dilutive effect of 4.875% Notes	339	254
Dilutive effect of 3.0% Notes	311	
Weighted-average common and common equivalent shares outstanding	82,064	81,127

Potentially dilutive securities representing 1.6 million and 1.5 million shares of common stock for the three months ended March 31, 2013 and 2012, respectively, were excluded from the computation of diluted earnings per common share for these periods because their effect would have been antidilutive. The increase in potentially dilutive securities is primarily related to the issuance of new stock-settled appreciation rights in February 2013. The net income per share amounts are the same for Class A and Class B Common Stock because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

6. RELATED PERSON TRANSACTIONS

Transactions with our controlling shareholders. David, Frederick, J. Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock and some of our Class A Common Stock. We engaged in the following transactions with them and/or entities in which they have substantial interests.

Leases. Certain assets used by us and our operating subsidiaries are leased from Cunningham Communications Inc., Keyser Investment Group, Gerstell Development Limited Partnership and Beaver Dam, LLC (entities owned by the controlling shareholders). Lease payments made to these entities were \$1.1 million for each of the three months ended March 31, 2013 and 2012.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

Bay TV. In January 1999, we entered into a LMA with Bay TV, which owns the television station WTTA-TV in Tampa / St. Petersburg, Florida market. Each of our controlling shareholders owns a substantial portion of the equity of Bay TV and collectively has controlling interests. Payments made to Bay TV were \$1.8 million for the quarter ended March 31, 2012.

On December 1, 2012, we purchased substantially all of the assets of Bay TV for \$40.0 million. Our board of directors obtained a fairness opinion on the purchase price from a third party valuation firm. Concurrent with the acquisition, our LMA with Bay TV was terminated.

Charter Aircraft. From time to time, we charter aircraft owned by certain controlling shareholders. We incurred less than \$0.1 million and \$0.1 million for the three months ended March 31, 2013 and 2012, respectively, related to these arrangements.

Cunningham Broadcasting Corporation. As of March 31, 2013, Cunningham was the owner-operator and FCC licensee of: WNUV-TV Baltimore, Maryland; WRGT-TV Dayton, Ohio; WVAH-TV Charleston, West Virginia; WTAT-TV Charleston, South Carolina; WMYA-TV Anderson, South Carolina; WTTE-TV Columbus, Ohio; and WDBB-TV Birmingham, Alabama (collectively, the Cunningham Stations).

During the three months ended March 31, 2013, the estate of Carolyn C. Smith, a parent of our controlling shareholders, distributed all of the non-voting stock owned by the estate to our controlling shareholders, and a portion was repurchased by

Table of Contents

Cunningham for \$1.7 million in the aggregate. As of March 31, 2013, our controlling shareholders own approximately 4.4% of the total capital stock of Cunningham, none of which have voting rights. The remaining amount of non-voting stock is owned by trusts established for the benefit of the children of our controlling shareholders. The estate of Mrs. Smith currently owns all of the voting stock. The sale of the voting stock by the estate to an unrelated party is pending approval of the FCC. We have options from the trusts, which grant us the right to acquire, subject to applicable FCC rules and regulations, 100% of the voting and nonvoting stock of Cunningham. We also have options from each of Cunningham's subsidiaries, which are the FCC licensees of the Cunningham stations, which grant us the right to acquire, and grant Cunningham the right to require us to acquire, subject to applicable FCC rules and regulations, 100% of the capital stock or the assets of Cunningham's individual subsidiaries.

In addition to the option agreements, we have LMAs with the Cunningham stations to provide programming, sales and managerial services to the stations. Each of the LMAs has a current term that expires on July 1, 2016 and there are three additional 5-year renewal terms remaining with final expiration on July 1, 2031.

Effective November 5, 2009, we entered into amendments and/or restatements of the following agreements between Cunningham and us: (i) the LMAs, (ii) option agreements to acquire Cunningham stock and (iii) certain acquisition or merger agreements relating to the Cunningham Stations.

Pursuant to the terms of the LMAs, options and other agreements, beginning on January 1, 2010 and ending on July 1, 2012, we were obligated to pay Cunningham the sum of approximately \$29.1 million in 10 quarterly installments of \$2.75 million and one quarterly payment of approximately \$1.6 million, which amounts were used to pay down Cunningham's bank credit facility and which amounts were credited toward the purchase price for each Cunningham station. An additional \$1.2 million was paid on July 1, 2012 and another installment of \$2.75 million was paid on October 1, 2012 as an additional LMA fee and was used to pay off the remaining balance of Cunningham's bank credit facility. The aggregate purchase price of the television stations, which was originally \$78.5 million pursuant to certain acquisition or merger agreements subject to 6% annual increases, was decreased by each payment made by us to Cunningham, through 2012, up to \$29.1 million in the aggregate, pursuant to the foregoing transactions with Cunningham as such payments are made. Beginning on January 1, 2013, we are obligated to pay Cunningham an annual LMA fee for the television stations equal to the greater of (i) 3% of each station's annual net broadcast revenue and (ii) \$5.0 million, of which a portion of this fee will be credited toward the purchase price to the extent of the annual 6% increase. The remaining purchase price as of March 31, 2013 was approximately \$57.1 million.

Additionally, we reimburse Cunningham for 100% of its operating costs, and paid Cunningham a monthly payment of \$50,000 through December 2012 as an LMA fee.

We made payments to Cunningham under these LMAs and other agreements of \$1.9 million and \$3.9 million for the three months ended March 31, 2013 and 2012 respectively. For the three months ended March 31, 2013 and 2012, Cunningham's stations provided us with approximately \$24.6 million and \$23.3 million, respectively, of total revenue. The financial statements for Cunningham are included in our consolidated financial statements for all periods presented. Our Bank Credit Agreement contains certain cross-default provisions with certain material third-party licenses. As of March 31, 2013, Cunningham was the sole material third-party licensee.

In April 2013, Cunningham entered into an agreement to purchase the stock of TTBG El Paso OpCo, LLC, the owner of KDBC-TV in El Paso, TX for \$21.0 million, before any working capital adjustments, subject to FCC approval and customary closing conditions. Pursuant to the agreement, if Cunningham is unable to close on the purchase, we will be required to fund the purchase price or assign the rights to another party.

Atlantic Automotive Corporation. We sold advertising time to and purchased vehicles and related vehicle services from Atlantic Automotive Corporation (Atlantic Automotive), a holding company that owns automobile dealerships and an automobile leasing company. David D. Smith, our President and Chief Executive Officer, has a controlling interest in, and is a member of the Board of Directors of Atlantic Automotive. We received payments for advertising totaling less than \$0.1 million for each of the three months ended March 31, 2013 and 2012. We paid \$0.4 million and \$0.2 million for vehicles and related vehicle services from Atlantic Automotive for the three months ended March 31, 2013 and 2012, respectively. Additionally, in August 2011, Atlantic Automotive entered into an office lease agreement with Towson City Center, LLC (Towson City Center), a subsidiary of one of our real estate ventures, and began occupying the space in June 2012. Atlantic Automotive paid \$0.2 million in rent during the three months ended March 31, 2013. Atlantic Automotive made no rent payments during the three months ended March 31, 2012.

Leased property by real estate ventures. Certain of our real estate ventures have entered into leases with entities owned by David Smith to lease restaurant space. There are leases for three restaurants in a building owned by one of our consolidated real estate ventures in Baltimore, MD. Total rent received under these leases was less than \$0.1 million for each of the three months ended March 31, 2013 and 2012. There is also one lease for a restaurant in a building owned by one of our real estate ventures, accounted for under the equity method, in Towson, MD. Annual rent under this lease will be approximately \$0.2 million once the restaurant is opened in 2013.

Thomas & Libowitz, P.A. Basil A. Thomas, a member of our Board of Directors, is the father of Steven A. Thomas, a partner and founder of Thomas & Libowitz, P.A. (Thomas & Libowitz), a law firm providing legal services to us on an ongoing basis. We paid fees of \$0.4 million and \$0.2 million to Thomas & Libowitz for the three months ended March 31, 2013 and 2012, respectively.

7. SEGMENT DATA

We measure segment performance based on operating income (loss). Excluding discontinued operations our broadcast segment includes stations in 45 markets located predominately in the eastern, mid-western and southern United States. In 2012, we determined that the operating results of WLAI-TV and WLWC-TV should be accounted for as discontinued operations and are not included in our consolidated results of continuing operations for the three months ended March 31, 2013 and 2012. Our other operating divisions segment primarily earned revenues from sign design and fabrication; regional security alarm operating and bulk acquisitions and real estate ventures. All of our other operating divisions are located within the United States. Corporate costs primarily include our costs to operate as a public company and to operate our corporate headquarters location. Corporate is not a reportable segment. We had approximately \$171.5 million and \$170.8 million of intercompany loans between the broadcast segment, other operating divisions segment and corporate as of March 31, 2013 and 2012, respectively. We had \$4.9 million and \$5.0 million in intercompany interest expense related to intercompany loans between the broadcast segment, other operating divisions segment and corporate for the three months ended March 31, 2013, and 2012, respectively. Intercompany loans and interest expense are excluded from the tables below. All other intercompany transactions are immaterial.

Financial information for our operating segments are included in the following tables for the periods presented (in thousands):

Table of Contents**8. FAIR VALUE MEASUREMENTS:**

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). A fair value hierarchy using three broad levels prioritizes the inputs to valuation techniques used to measure fair value. The following is a brief description of those three levels:

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The carrying value and fair value of our notes, debentures, program contracts payable and non-cancelable programming commitments for the periods presented (in thousands):

Level 2:

8.375% Senior Notes due 2018	234,942	265,440	234,853	265,886

Term Loan B	579,509	585,900	580,850	589,125
Deerfield Bank Credit Facility	25,301	25,536	19,950	19,950
Level 3				
Active program contracts payable	82,129	78,882	104,356	102,768
Future program liabilities (a)	186,038	158,680	140,535	120,922

(a) Future program liabilities reflect a license agreement for program material that is not yet available for its first showing or telecast and is, therefore, not recorded as an asset or liability on our balance sheet. The carrying value reflects the undiscounted future payments.

Our estimates of the fair value of active program contracts payable and future program liabilities in the table above, were based on discounted cash flows using Level 3 inputs described above. The discount rate represents an estimate of a market participant's return and risk applicable to program contracts. The discount rate used to determine the fair value of active and future program liabilities was 8.0% as of March 31, 2013 and December 31, 2012. Significant increases (decreases) in the discount rate would result in a significantly lower (higher) fair value measurement.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

Not included in the table above are the fair values and carrying values for our 4.875% Notes and 3.0% Notes, which we believe their fair values approximate their carrying values based on discounted cash flows using Level 3 inputs described above.

Additionally, Cunningham, one of our consolidated VIEs has investments in marketable securities which are recorded at fair value using Level 1 inputs described above. As of March 31, 2013 and December 31, 2012, \$7.6 million and \$6.4 million were included in other assets in our consolidated balance sheets.

Sinclair Television Group, Inc. (STG), a wholly-owned subsidiary and the television operating subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under the Bank Credit Agreement, the 5.375% Notes, the 6.125% Notes, the 8.375% Notes and the 9.25% Notes. Our Class A Common Stock, Class B Common Stock, the 4.875% Notes and the 3.0% Notes, as of March 31, 2013, were obligations or securities of SBG and not obligations or securities of STG. SBG was the obligor of the 6.0% Notes until they were fully redeemed in 2011. SBG is a guarantor under the Bank Credit Agreement, the 5.375% Notes, the 6.125% Notes, the 9.25% Notes and the 8.375% Notes. As of March 31, 2013, our consolidated total debt of \$2,270.9 million included \$2,182.4 million of debt related to STG and its subsidiaries of which SBG guaranteed \$2,128.7 million.

SBG, KDSM, LLC, a wholly-owned subsidiary of SBG, and STG's wholly-owned subsidiaries (guarantor subsidiaries), have fully and unconditionally guaranteed, subject to certain customary automatic release provisions, all of STG's obligations. Those guarantees are joint and several. There are certain contractual restrictions on the ability of SBG, STG or KDSM, LLC to obtain funds from their subsidiaries in the form of dividends or loans.

The following condensed consolidating financial statements present the consolidating balance sheets, consolidating statements of operations and comprehensive income and consolidating statements of cash flows of SBG, STG, KDSM, LLC and the guarantor subsidiaries, the direct and indirect non-guarantor subsidiaries of SBG and the eliminations necessary to arrive at our information on a consolidated basis. These statements are presented in accordance with the disclosure requirements under SEC Regulation S-X, Rule 3-10.

Certain revisions have been made to correct immaterial errors in the condensed consolidating statement of operations and comprehensive income for the three months ended March 31, 2012. The revisions to the condensed consolidating statements of operations and comprehensive income for the three months ended March 31, 2012 increased depreciation, amortization and other operating expenses by \$0.2 million and increased net loss attributable to noncontrolling interests for the Non-guarantor Subsidiaries by \$0.3 million, with corresponding offsetting adjustments to the same items in the Eliminations column. These revisions had no effect on amounts presented for SBG, STG, the Guarantor Subsidiaries and KDSM, LLC or Sinclair Consolidated.

- In April 2013, we entered into an amendment and restatement of our Bank Credit Agreement. We refinanced our existing facility and replaced the existing term loans under the facility with a new \$500.0 million term loan A facility (Term Loan A), maturing April 2018 and priced at LIBOR plus 2.25%; and a \$400.0 million term loan B facility (Term Loan B), maturing April 2020 and priced at LIBOR plus 2.25% with a LIBOR floor of 0.75%. In addition, Sinclair replaced its existing revolving line of credit with a new \$100.0 million revolving line of credit maturing April 2018 and priced at LIBOR plus 2.25%. This new amendment also provides for increased incremental loan capacity, increased television station acquisition capacity and increased flexibility with restrictive covenants;
- In April 2013, we filed a registration statement on Form S-4 with the SEC to register the 6.125% Senior Unsecured Notes. The registration statement became effective on April 16, 2013 and we expect the exchange offer to commence in the second quarter of 2013;
- In April 2013, we entered into a definitive merger agreement with Fisher Communications, Inc. (Fisher) to acquire Fisher in a merger transaction valued at approximately \$373.3 million. Fisher owns twenty television stations in eight markets and four radio stations in the Seattle market. Additionally, Fisher previously entered into an agreement to provide certain operating services for three TV stations, including two simulcasts, pending regulatory approval. The transaction is expected to close in the third quarter of 2013, subject to approval of the FCC, antitrust clearance, affirmative vote of two-thirds of Fisher's outstanding shares and other customary conditions;
- In April 2013, we announced that we will begin broadcasting mobile-capable signals over 10 stations in nine markets over the next six months. Cunningham Broadcasting Corporation, one of our consolidated variable interest entities, currently provides mobile signals on two stations, WSYX-TV and WTTE-TV in Columbus, Ohio;
- In April 2013, our Board of Directors declared a quarterly dividend of \$0.15 per share payable on June 14, 2013, to the holders of record at the close of business on May 31, 2013; and
- In April 2013, we commenced a public offering of 18.0 million primary shares of Class A common stock. Certain selling stockholders also intend to grant the underwriters a 30-day option to purchase up to an additional 2.7 million shares on the same terms and conditions. Net proceeds are intended to fund pending and future potential television station acquisitions and for general corporate purposes. The offering was priced at \$27.25 per share on May 1, 2013. The offering is expected to close on May 7, 2013.
- Effective May 1, 2013, we completed the acquisition of certain stock and/or broadcast assets of four television stations, located in four markets, owned by Cox Media Group for \$99.0 million, less \$4.3 million of working capital adjustments, less \$0.4 million paid by Deerfield for the purchase of the license assets of one other station for which we will operate pursuant to shared services and joint sales agreements;

RESULTS OF OPERATIONS

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. The results of the acquired stations from Freedom as of April 1, 2012 (acquisition date) and Newport Television (Newport) as of December 1, 2012 (acquisition date), and five other television stations during the year ended 2012 are included in our results of our continuing operations for the quarter ended March 31, 2013. In 2012, we determined that the operating results of WLAJ-TV, which was one of the stations acquired in the Freedom acquisition, and WLWC-TV, which was one of the stations acquired in the Four Points acquisition, should be classified as discontinued operations and therefore the results are not included in our consolidated results of continuing operations for the three months ended March 31, 2013 and 2012. Unless otherwise indicated, references in this discussion and analysis to the first quarter of 2013 and 2012 refer to the three months ended March 31, 2013 and 2012, respectively. Additionally, any references to the second, third or fourth quarter are to the three months ended June 30, September 30 and December 31, respectively, for the year being discussed. We have two reportable segments, broadcast and other operating divisions that are disclosed separately from our corporate

activities.

SEASONALITY/CYCLICALITY

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than first and third quarters because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even numbered years, political spending is usually significantly higher than in odd numbered years due to advertising expenditures preceding local and national elections. Additionally, every four years, political spending is usually elevated further due to advertising expenditures preceding the presidential election.

Table of Contents**BROADCAST SEGMENT****Broadcast Revenue**

The following table presents our revenues from continuing operations, net of agency commissions, for the periods presented (in millions):

	For the Three Months Ended March 31,		
	2013	2012	Percent Change
Local revenues:			
Non-political	\$ 201.5	\$ 151.2	33.3%
Political	0.1	0.6	(a)
Total local	201.6	151.8	32.8%
National revenues:			
Non-political	50.5	36.1	39.9%
Political	0.8	3.0	(a)
Total national	51.3	39.1	31.2%
Total net broadcast revenues	\$ 252.9	\$ 190.9	32.5%

(a) Political revenue is not comparable from year to year due to cyclicity of elections. See *Political Revenues* below for more information.

Net broadcast revenues. Net broadcast revenues increased \$62.0 million when comparing the first quarter of 2013 to the same period in 2012, of which \$54.5 million was related to stations acquired after the first quarter of 2012 net of \$10.0 million of revenues earned pursuant to the local marketing agreement (LMA) with the Freedom stations during the first quarter of 2012. The remaining increase was primarily due to an increase in retransmission revenues from MVPDs. Advertising revenues, excluding stations acquired after the first quarter of 2012 decreased in the political, schools, services and restaurant sectors. These decreases were offset by increases in the automotive, direct response and telecommunications sectors. Excluding the stations acquired after the first quarter of 2012, automotive, which typically is our largest category, represented 23.7% of net time sales for the three months ended March 31, 2013.

From a network affiliation or program service arrangement perspective, the following table sets forth our affiliate percentages of net time sales for the periods presented:

	# of Stations (a)	Percent of Net Time Sales for the Three months ended March 31,		Net Time Sales Percent Change	
		2013	2012		
FOX	24	32.8%	43.2%		0.9%
ABC	11	16.3%	17.8%		21.6%
MyNetworkTV	19	11.1%	14.7%		0.2%
The CW	15	10.9%	12.5%		15.0%
CBS	11	23.1%	10.6%		190.3%

NBC	3	4.1%	0.6%	826.3%
Digital	(b)	1.4%	0.5%	282.7%
Other	2	0.3%	0.1%	58.4%
Total	85			

(a) During 2012, we acquired or entered into outsourcing agreements to provide certain non-programming related sales, operational and administrative services to 20 stations with the following network affiliation or program service arrangements: CBS (five stations in the second quarter and two stations in the fourth quarter), NBC (two stations in the fourth quarter), FOX (four stations in the fourth quarter), ABC (one station in the second quarter and one station in the fourth quarter), CW (one station in the second quarter and two stations in the fourth quarter), MyNetworkTV (one station in the fourth quarter), Other (one station in the fourth quarter). We reclassified the results of operations of WLAJ-TV, an ABC station acquired in the second quarter and WLWC-TV a CW station acquired in the first quarter, as discontinued operations as discussed in *Note 1. Summary of Significant Accounting Policies* and therefore the net time sales of WLAJ-TV and WLWC-TV are not included in the percentages above and are excluded from the number of stations.

(b) We broadcast programming from network affiliations or program service arrangements with CBS (rebroadcasted content from other primary channels within the same markets), The CW, MyNetworkTV, This TV, ME TV, LATV, Weather Radar, The Weather Authority Network, Live Well Network, Antenna TV, Bounce Network, The Country Network, Azteca, Telemundo and Estrella on additional channels through our stations' second and third digital signals.

Political Revenues. Political revenues decreased by \$2.7 million to \$0.9 million for the first quarter of 2013 when compared to the same period in 2012. Political revenues are typically higher in election years such as 2012.

Table of Contents

Local Revenues. Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues and other local revenues, were up \$50.3 million for the first quarter of 2013 when compared to the same period in 2012, of which \$39.7 million was related to stations acquired after the first quarter of 2012 net of \$10.0 million of revenues earned pursuant to the LMA with the Freedom stations during the first quarter of 2012. The remaining increase is primarily due to an increase in retransmission revenues from MVPDs. These increases were partially offset by a decrease in advertising revenues excluding stations acquired after the first quarter of 2012 due to a decline in advertising revenues from the restaurants, schools and media sectors offset by an increase in the automotive sector and a change in networks for the Super Bowl programming from NBC to CBS.

National Revenues. Excluding political revenues, our national broadcast revenues, which include national time sales and other national revenues, were up \$14.4 million for the first quarter of 2013 when compared to the same period in 2012, of which \$14.4 million was related to stations acquired during the second and fourth quarters of 2012. Advertising revenues, excluding political and excluding stations acquired after the first quarter of 2012 decreased in the services, paid programs and food / grocery sectors and increased in the media, direct response, telecommunications and automotive sectors.

Broadcast Expenses

The following table presents our significant expense categories in our broadcast segment for the periods presented (in millions):

	For the Three Months Ended March 31,		Percent Change (Increase/ (Decrease))
	2013	2012	
Station production expenses	\$ 80.4	\$ 59.8	34.4%
Station selling, general and administrative expenses	\$ 51.9	\$ 35.7	45.4%
Amortization of program contract costs and net realizable value adjustments	\$ 18.9	\$ 14.1	34.0%
Corporate general and administrative expenses	\$ 10.1	\$ 7.9	27.8%
Depreciation and amortization expenses	\$ 28.7	\$ 13.0	120.8%

Station production expenses. Station production expenses increased \$20.6 million during the first quarter of 2013 as compared to the same period in 2012, of which \$13.1 million related to stations acquired after the first quarter of 2012. The remaining increase for the three month period is primarily due to an increase in fees pursuant to network affiliation agreements, partially offset by a decrease in rating service fees.

Station selling, general and administrative expenses. Station selling, general and administrative expenses increased \$16.2 million during the first quarter of 2013 compared to the same period in 2012, of which \$15.0 million related to stations acquired after the first quarter of 2012. The remaining increases are primarily due to an increase in compensation expense.

We expect station production and station selling, general and administrative expenses in second quarter of 2013 to increase compared to first quarter of 2013.

Amortization of program contract costs and net realizable value adjustments. The amortization of program contract costs increased \$4.8 million during the first quarter of 2013 compared to the same period in 2012, of which \$3.3 million related to stations acquired after the first quarter of 2012. The remaining increase is due to more long-term contracts, which result in higher contract cost amortization. We expect program contract amortization to increase slightly in second quarter of 2013 compared to first quarter of 2013 due to cyclicality.

Depreciation and Amortization expenses. Depreciation of property and equipment and amortization of definite-lived intangibles and other assets increased \$15.7 million during the first quarter of 2013 compared to the same period in 2012, of which \$13.4 million related to stations acquired after the first quarter of 2012. The remaining increase is due to the extension of certain network affiliation agreements.

Corporate general and administrative expenses. See explanation under *Corporate and Unallocated Expenses*.

OTHER OPERATING DIVISIONS SEGMENT

Triangle Sign & Service, LLC (Triangle), a sign designer / fabricator, Alarm Funding Associates, LLC (Alarm Funding), a regional security alarm operating and bulk acquisition company, real estate ventures and other nominal businesses make up our other operating divisions segment. Revenues for our other operating divisions decreased \$2.5 million to \$11.4 million during the first

Table of Contents

quarter of 2013 compared to \$13.9 million during the same period in 2012. Expenses of our other operating divisions include operating expenses, depreciation and amortization and applicable other income (expense) items such as interest expense, decreased \$2.4 million to \$9.9 million during the first quarter of 2013 compared to \$12.3 million during the same period in 2012. The decreases in both revenue and expenses relate primarily to slight decreases in revenue of several investments in other operating divisions.

Income from Equity and Cost Method Investments. Results of our equity and cost method investments in private investment funds and real estate ventures are included in income from equity and cost method investments in our consolidated statements of operations. During the three months ended March 31, 2013, we recorded a loss of \$1.5 million related to our real estate ventures and income of \$0.4 million related to certain private investment funds, partially offset by a \$0.4 million impairment charge related to one of the investments within one of the funds.

CORPORATE AND UNALLOCATED EXPENSES

	For the Three Months Ended March 31,		Percent Change (Increase/ (Decrease))	
	2013	2012		
Corporate general and administrative expenses	\$ 0.8	\$ 0.9		(11.1)%
Interest expense	\$ 37.0	\$ 26.5		39.6%
Loss from extinguishment of debt	\$ (0.3)	\$ (0.3)		(100.0)%
Income tax provision	\$ (8.8)	\$ (4.8)		83.3%

Corporate general and administrative expenses. We allocate most of our corporate general and administrative expenses to the broadcast segment. The explanation that follows combines the corporate general and administrative expenses found in the *Broadcast Segment* section with the corporate general and administrative expenses found in this section, *Corporate and Unallocated Expenses*. These results exclude general and administrative costs from our other operating divisions segment which are included in our discussion of expenses in the *Other Operating Divisions Segment* section.

Corporate general and administrative expenses increased by \$2.1 million for the three months ended March 31, 2013 when compared to the same periods in 2012. This is primarily due to an increase in transaction costs due to our recent acquisitions, higher compensation costs including an increase in employee incentive / performance bonuses and higher stock-based compensation expense related to restricted stock and stock-settled appreciation rights, partially offset by lower group health insurance costs.

We expect corporate general and administrative expenses to decrease slightly in the second quarter of 2013 compared to first quarter of 2013.

Interest expense. Interest expense has increased primarily due to the issuance of new 6.125% Senior Unsecured Notes, due 2022, in the fourth quarter of 2012, as well as the incremental borrowings on our Term Loan A and Term Loan B under our Bank Credit Agreement in April 2012 for the acquisition of the stations from Freedom. We expect interest expense to increase in second quarter of 2013 compared to first quarter of 2013 as a result of the new Term Loan A and Term Loan B under our Bank Credit Agreement, which was amended in April 2013, and the issuance of \$600.0 million of 5.375% notes in April 2013. See *Liquidity and Capital Resources* for more information. Additionally, we expect to record approximately \$5.0 million of the total estimated financing fees, in connection with the amendment, to interest expense in the second quarter.

Loss from extinguishment of debt. During the first quarter 2012, we drew down on our incremental borrowing for the Four Points acquisition and wrote off a portion of our deferred financing costs and discount on the Term Loan B, resulting in a loss of \$0.3 million from extinguishment of debt.

We expect to recognize a loss on extinguishment of debt of approximately \$16.0 million in the second quarter of 2013 related to the amendment and restatement of our Bank Credit Agreement.

Income tax provision. The effective tax rate for the three months ended March 31, 2013 including the effects of the noncontrolling interest was a provision of 34.7% as compared to a provision of 14.0% during the same period in 2012. The increase in the effective tax rate for the three months ended March 31, 2013 as compared to the same period in 2012 is primarily due to a 2012 release of valuation allowance of \$7.7 million related to certain deferred tax assets of Cunningham, one of our consolidated VIEs, as the weight of all available evidence supports realization of the deferred tax assets. The valuation allowance release determination was based primarily on the sufficiency of forecasted taxable income necessary to utilize NOLs expiring in years 2022 - 2030. This VIE files separate income tax returns. Any resulting tax liabilities are nonrecourse to us and we are not entitled to any benefit resulting from the deferred tax assets of the VIE.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

As of March 31, 2013, we had \$25.8 million in cash and cash equivalent balances and net negative working capital of approximately \$18.2 million. Cash generated by our operations and borrowing capacity under the Bank Credit Agreement are used as our primary source of liquidity. As of March 31, 2013, we had \$57.5 million of borrowing capacity available on our Revolving Credit Facility.

In April 2013, we issued \$600.0 million of senior unsecured notes with a maturity date of April 1, 2021 that bear interest at a rate of 5.375% per year. The net proceeds were used to pay down outstanding indebtedness under our bank credit facility including outstanding amounts under the revolving credit facility.

In April 2013, we amended and restated our existing bank credit facility and replaced our existing term loans with a new \$500.0 million Term Loan A priced at LIBOR plus 2.25% and due April 2018 and a new \$400.0 million Term Loan B priced at LIBOR plus 2.25% with a 0.75% LIBOR floor due April 2020. We also increased the capacity on our Revolving Credit Facility from \$97.5 million to \$100.0 million. The net proceeds will be used to fund future acquisitions and for general corporate purposes. Due to timing related to the closing and funding of the acquisitions, approximately \$445.0 million of the new Term Loan A will be drawn on a delayed basis.

We anticipate that existing cash and cash equivalents, cash flow from our operations and borrowing capacity under the Revolving Credit Facility and general uncommitted incremental term loan capacity of \$500.0 million will be sufficient to satisfy our debt service obligations, capital expenditure requirements, pending acquisitions and working capital needs for the next twelve months. For our long-term liquidity needs, in addition to the sources described above, we may rely upon the issuance of long-term debt, the issuance of equity or other instruments convertible into or exchangeable for equity, or the sale of non-core assets. However, there can be no assurance that additional financing or capital or buyers of our non-core assets will be available, or that the terms of any transactions will be acceptable or advantageous to us.

Table of Contents

Operating Activities

Net cash flows from operating activities decreased during the first quarter of 2013 compared to the same period in 2012. This is primarily due to higher interest and program payments, as well as an increase in tax payments, partially offset by the receipt of more cash from customers, net of cash payments to vendors.

We expect program payments to increase in the second quarter of 2013 compared to the first quarter of 2013. We expect interest to increase in the second quarter of 2013 compared to the first quarter of 2013, primarily due to interest on the \$600.0 million of 5.375% Notes, which were issued in April 2013.

Investing Activities

Net cash flows used in investing activities decreased during the first quarter of 2013 compared to the same period in 2012. This decrease is primarily due to \$205.6 million in payments for acquisitions of television stations from Four Points in the first quarter of 2012. In the first quarter 2013, we paid escrow deposits of \$24.9 million related to the pending acquisitions of Cox and Barrington. In first quarter 2012, \$20.0 million of restricted cash was used to fund the acquisition of the Four Points stations. This decrease was partially offset by proceeds from the sale of the assets of WLAJ-TV, as well as, proceeds from the sale of a real estate investment in the first quarter of 2013.

In the second quarter of 2013, we anticipate incurring more capital expenditures than incurred in the first quarter of 2013.

Financing Activities

Net cash flows used in financing activities increased during the first quarter of 2013 compared to the same period in 2012. This increase was primarily due to an increase in our debt repayments and decrease in our debt borrowings and a higher quarterly stock dividend paid in the first quarter of 2013 of \$0.15 per share compared to \$0.12 per share during the same period in 2012. In the first quarter of 2012 we borrowed \$180.0 million in incremental Term Loan B to fund acquisition of television stations from Four Points during the quarter.

In April 2013, our Board of Directors declared a quarterly dividend of \$0.15 per share. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant.

CONTRACTUAL CASH OBLIGATIONS

As of March 31, 2013, there were no material changes to our contractual cash obligations.

As discussed in *Liquidity and Capital Resources*, in April 2013, we issued \$600.0 million of senior unsecured notes with a maturity date of April 1, 2021 that bear interest at a rate of 5.375% per year. The net proceeds were used to pay down outstanding indebtedness under our bank credit facility including outstanding amounts under the revolving credit facility. Also in April 2013, we amended and restated our existing bank credit facility and replaced our existing term loans with a new \$500.0 million Term Loan A priced at LIBOR plus 2.25% and due April 2018 and a new \$400.0 million Term Loan B priced at LIBOR plus 2.25% with a 0.75% LIBOR floor due April 2020. We also increased the capacity on our Revolving Credit Facility from \$97.5 million to \$100.0 million. The net proceeds will be used to fund future acquisitions and for general corporate purposes. Due to timing related to the closing and funding of the acquisitions, approximately \$445.0 million of the new Term Loan A will be drawn on a delayed basis.

As discussed in the *Other Events* section of the *Executive Overview*, we have entered into asset purchase agreements with an aggregate purchase price of approximately \$842.3 million, less amounts to be paid by third parties and working capital adjustments. We expect these acquisitions to close in the second and third quarters of 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Other than the foregoing, there have been no material changes from the quantitative and qualitative discussion about market risk previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and effectiveness of our disclosure controls and procedures and our internal control over financial reporting as of March 31, 2013.

The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The term internal control over financial reporting, as defined in Rules 13a-15d-15(f) under the Exchange Act, means a process designed by, or under the supervision of our Chief Executive and Chief Financial Officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP) and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and disposition of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made in accordance with authorizations of management or our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on our financial statements.

Assessment of Effectiveness of Disclosure Controls and Procedures

Based on the evaluation of our disclosure controls and procedures as of March 31, 2013, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.
