Notes to Condensed Consolidated Financial Statements

March 31, 2014

(Amounts in tables in thousands, except share and per share amounts)

1. The accompanying unaudited condensed consolidated financial statements of Wayside Technology Group, Inc. and its subsidiaries (collectively, the Company), have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by U.S. GAAP for complete audited financial statements.

The preparation of these condensed consolidated financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, stock-based compensation, and contingencies and litigation. The Company bases its estimates on its historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. In the opinion of the Company s management, all adjustments that are of a normal recurring nature, considered necessary for fair presentation, have been included in the accompanying financial statements. The Company s actual results may differ from these estimates under different assumptions or conditions. The unaudited condensed consolidated statements of earnings for the interim periods are not necessarily indicative of results for the full year. For further information, refer to the consolidated financial statements and notes thereto included in the Company s annual report on Form 10-K filed with the Securities Exchange Commission for the year ended December 31, 2013.

2. Assets and liabilities of the Company s foreign subsidiaries have been translated at current exchange rates, and related sales and expenses have been translated at average rates of exchange in effect during the period. The sales from our Canadian operations in the first three months of 2014 were \$5.6 million as compared to \$4.8 million for the first three months of 2013.

3. Cumulative translation adjustments and unrealized gains (losses) on available-for-sale securities have been classified within accumulated other comprehensive income, which is a separate component of stockholders equity in accordance with FASB ASC Topic 220, Comprehensive Income.

4. Revenue on product (software and hardware) and maintenance agreement sales are recognized once four criteria are met: (1) persuasive evidence of an arrangement exists, (2) the price is fixed and determinable, (3) delivery (software and hardware) or fulfillment (maintenance) has occurred, and (4) there is reasonable assurance of collection of the sales proceeds. Revenues from the sales of hardware products, software products and licenses and maintenance agreements are recognized on a gross basis with the selling price to the customer recorded as sales and the acquisition cost of the product recorded as cost of sales.

Product delivery to customers occur in a variety of ways, including (i) as physical product shipped from the Company s warehouse, (ii) via drop-shipment by the vendor, or (iii) via electronic delivery for software licenses. The Company leverages drop-ship arrangements with many of its vendors and suppliers to deliver products to customers without having to physically hold the inventory at its warehouse, thereby increasing

efficiency and reducing costs. The Company recognizes revenue for drop-ship arrangements on a gross basis. Furthermore, in such drop-ship arrangements, the Company negotiates price with the customer, pays the supplier directly for the product shipped and bears credit risk of collecting payment from its customers. The Company serves as the principal with the customer and, therefore, recognizes the sale and cost of sale of the product upon receiving notification from the supplier that the product has shipped. Maintenance agreements

allow customers to obtain technical support directly from the software publisher and to upgrade, at no additional cost, to the latest technology if new applications are introduced by the software publisher during the period that the maintenance agreement is in effect.

Sales are recorded net of discounts, rebates, and returns. Vendor rebates and price protection are recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable.

Cooperative reimbursements from vendors, which are earned and available, are recorded in the period the related advertising expenditure is incurred. Cooperative reimbursements are recorded as a reduction of cost of sales in accordance with FASB ASC Topic 605-50 Accounting by a Customer (including reseller) for Certain Consideration Received from a Vendor. Provisions for returns are estimated based on historical sales returns and credit memo analysis which are adjusted to actual on a periodic basis.

Accounts receivable-long-term result from product sales with extended payment terms that are discounted to their present values at the prevailing market rates. In subsequent periods, the accounts receivable are increased to the amounts due and payable by the customers through the accretion of interest income on the unpaid accounts receivable due in future years. The amounts due under these long-term accounts receivable due within one year are reclassified to the current portion of accounts receivable.

5. The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximated fair value at March 31, 2014 and December 31, 2013 because of the relative short maturity of these instruments. The Company s accounts receivable long-term is discounted to their present value at prevailing market rates so the balances approximate fair value.

7. On January 4, 2013, the Company entered into a \$10,000,000 revolving credit facility (the Credit Facility) with Citibank, N.A. (Citibank) pursuant to a Business Loan Agreement (the Loan Agreement), Promissory Note (the Note), Commercial Security Agreements (the Security Agreements) and Commercial Pledge Agreement (the Pledge Agreement). The Credit Facility, which will be used for business and working capital purposes, including financing of larger extended payment terms sales transactions. The Credit Facility matures on January 4, 2016, at which time the Company must pay this loan in one payment of any outstanding principal plus all accrued unpaid interest. In addition, the Company will pay regular monthly payments of all accrued unpaid interest. The interest rate for any borrowings under the Credit Facility is subject to change from time to time based on the changes in an independent index which is the LIBOR Rate (the Index). If the Index becomes unavailable during the term of this loan, Citibank may designate a substitute index after notifying the Company. Interest on the unpaid principal balance of the Note will be calculated using a rate of 1.500 percentage points over the Index. The Credit Facility is secured by the assets of the Company.

Among other affirmative covenants set forth in the Loan Agreement, the Company must maintain (i) a ratio of Total Liabilities to Tangible Net Worth (each as defined in the Loan Agreement) of not greater than 2.50 to 1.00, to be tested quarterly and (ii) a minimum Debt Service Coverage Ratio (as defined in the Loan Agreement) of 2.00 to 1.00. Additionally, the Loan Agreement contains negative covenants related to, among other items, prohibitions against the creation of certain liens, engaging in any business activities substantially different than those currently engaged in by the Company, and paying dividends the Company s stock other than (i) dividends payable in its stock and (ii) cash dividends in amounts and frequency consistent with past practice, without first securing the written consent of Citibank. The Company is in compliance with all covenants at March 31, 2014.

At March 31, 2014, the Company had no borrowings outstanding under the Credit Facility.

8. Basic Earnings Per Share (EPS) is calculated by dividing net income attributable to common stockholders by the weighted average number of shares of Common Stock outstanding during the period. Diluted EPS is calculated by dividing net income attributable to common stockholders by the weighted average number of common shares outstanding, adjusted for potentially dilutive securities including unexercised stock option grants and nonvested shares of restricted stock.

9. The Company had one major vendor that accounted for 10.3% of total purchases during the three months ended March 31, 2014. The Company had one major vendor that accounted for 10.4% of total purchases during the three months ended March 31, 2013. The Company had three major customers that accounted for 15.7%, 15.6% and 10.5%, respectively, of its total net sales during the three months ended March 31, 2014. These same customers accounted for 14.2%, 14.1% and 9.3%, respectively, of total net accounts receivable as of March 31, 2014. The Company had three major customers that accounted for 14.5%, 14.4% and 11.3%, respectively, of its total net sales during the three months ended March 31, 2013.

10. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and in various state and foreign jurisdictions. The Company has identified its federal consolidated tax return and its state tax return in New Jersey and its Canadian tax return as major tax jurisdictions. As of March 31, 2014 the Company s Federal and Canadian tax returns remain open for examination for the years 2010 through 2013. The Company s New Jersey tax returns are open for examination for the years 2009 through 2013. The Company s policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as operating expenses. The Company believes that it has appropriate support for the income tax positions it takes and expects to take on its tax returns, and that its accruals for tax liabilities are adequate for all open years based on an assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter.

The effective tax rate for the three months ended March 31, 2014 was 34.0% compared with 33.4% for the same period last year.

quarterly installments. A total of 775 shares of Restricted Stock were forfeited as a result of employees terminating employment with the Company.

During 2014, the Company granted a total of 45,689 shares of Restricted Stock to officers and employees. These shares of Restricted Stock vest between eight and twenty equal quarterly installments. A total of 25,275 shares of Restricted Stock were forfeited as a result of officers and employees terminating employment with the Company.

Changes during 2014 in options outstanding under the Company s combined plans (i.e., the 2012 Plan, the 2006 Plan, the 1995 Non-Employee Director Plan and the 1995 Stock Option Plan) were as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value (\$M)(1)
Outstanding at January 1, 2014	285,640	\$ 8.71		
Granted in 2014				
Canceled in 2014	(15,000)	3.04		
Exercised in 2014	(105,000)	8.26		
Outstanding at March 31, 2014	165,640	\$ 9.50	0.5	\$ 1.7
Exercisable at March 31, 2014	165,640	\$ 9.50	0.5	\$ 1.7

⁽¹⁾ The intrinsic value of an option is calculated as the difference between the market value on the last trading day of the quarter (March 31, 2014) and the exercise price of the outstanding options. The market value as of March 31, 2014 was \$19.84 per share represented by the closing price as reported by The NASDAQ Global Market on that day.

A summary of nonvested shares of Restricted Stock awards outstanding under the Company s the 2012 Plan and 2006 Plan as of March 31, 2014, and changes during the three months then ended is as follows:

	Shares	Weighted Average Grant Date Fair Value

Notes to Condensed Consolidated Financial Statements

March 31, 2014

(Amounts in tables in thousands, except share and per share amounts)

As of March 31, 2014, there is approximately \$2.4 million of total unrecognized compensation costs related to nonvested share-based compensation arrangements. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 2.8 years.

For the three months ended March 31, 2014 and 2013, the Company recognized share-based compensation cost of approximately \$0.3 million and \$0.3 million, respectively, which is included in the Company s selling, general and administrative expense.

12. FASB ASC Topic 280, Segment Reporting, requires that public companies report profits and losses and certain other information on their reportable operating segments in their annual and interim financial statements. The internal organization used by the public company s Chief Operating Decision Maker (CODM) to assess performance and allocate resources determines the basis for reportable operating segments. The Company s CODM is the Chief Executive Officer.

The Company is organized into two reportable operating segments. The Lifeboat Distribution segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The TechXtend segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the United States and Canada.

As permitted by FASB ASC Topic 280, the Company has utilized the aggregation criteria in combining its operations in Canada with the domestic segments as the Canadian operations provide the same products and services to similar clients and are considered together when the Company s CODM decides how to allocate resources.

Segment income is based on segment revenue less the respective segment s cost of revenues as well as segment direct costs (including such items as payroll costs and payroll related costs, such as profit sharing, incentive awards and insurance) and excluding general and administrative expenses not attributed to an individual segment business unit. The Company only identifies accounts receivable and inventory by segment as shown below as Selected Assets by segment; it does not allocate its other assets, including capital expenditures by segment.

The following segment reporting information of the Company is provided:

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations.

The following Management s Discussion and Analysis of Financial Condition and Results of Operations contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of risk and uncertainties, including those set forth under the heading Certain Factors Affecting Results of Operations and Stock Price and elsewhere in this report and those set forth in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013, filed with the Securities and Exchange Commission. The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and related notes included in this report and the consolidated financial statements and related notes included in our 2013 Annual Report on Form 10-K.

Overview

The Company is organized into two reportable operating segments. The Lifeboat Distribution segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The TechXtend segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the USA and Canada.

We offer an extensive line of products from leading publishers of software and tools for virtualization/cloud computing, security, networking, storage and infrastructure management, application lifecycle management and other technically sophisticated domains as well as computer hardware. We market these products through direct sales, the Internet, our catalogs, direct mail programs, advertisements in trade magazines and e-mail promotions.

The Company s sales, gross profit and results of operations have fluctuated and are expected to continue to fluctuate on a quarterly basis as a result of a number of factors, including but not limited to: the condition of the software industry in general, shifts in demand for software products, pricing, level of extended payment terms sales transactions, industry shipments of new software products or upgrades, the timing of new merchandise and catalog offerings, fluctuations in response rates, fluctuations in merchandise returns, adverse weather conditions that affect response, distribution or shipping, shifts in the timing of holidays and changes in the Company s product offerings. The Company s operating expenditures are based on sales forecasts. If sales do not meet expectations in any given quarter, operating results may be materially adversely affected.

Results of Operations

The following table sets forth for the periods indicated certain financial information derived from the Company s unaudited condensed consolidated statements of earnings expressed as a percentage of net sales. This comparison of financial results is not necessarily indicative of future results:

	Three montl ended March 31,	
	2014	2013
Net sales	100%	100%
Cost of sales	92.3	91.9
Gross profit	7.7	8.1
Selling, general and administrative expenses	5.6	6.0
Income from operations	2.1	2.1
Interest income, net	0.2	0.2
Income before income taxes	2.3	2.3
Provision for income taxes	0.8	0.8
Net income	1.5%	1.5%

Net Sales

Net sales for the first quarter ended March 31, 2014 increased 9% or \$5.8 million to \$71.7 million compared to \$66.0 million for the same period in 2013. Total sales for the first quarter of 2014 for our Lifeboat Distribution segment were \$59.3 million compared to \$53.9 million in the first quarter of 2013, representing an increase of \$5.4 million or 10%. Total sales for the first quarter of 2014 for our TechXtend segment were \$12.5 million compared to \$12.1 million in the first quarter of 2013, representing a increase of \$0.4 million or 3%.

The 10% increase in net sales for the Lifeboat Distribution segment was mainly a result of the strengthening of our account penetration, our continued focus on the expanding virtual infrastructure-centric business and the addition of several key product lines. The 3% increase in net sales in the TechXtend segment was primarily due a increase in extended payment terms sales transactions as compared to the first quarter ended March 31, 2013.

Gross Profit

Gross Profit for the first quarter ended March 31, 2014 was \$5.5 million, a 4% increase as compared to \$5.3 million for the first quarter of 2013. Gross profit for our Lifeboat segment in the first quarter of 2014 was \$4.1 million compared to \$3.8 million for the first quarter of 2013, representing a 9% increase. Gross profit for our TechXtend segment in the first quarter of 2014 was \$1.4 million compared to \$1.5 million for the first quarter of 2013, representing an 8% decrease. Although TechXtends s net sales increased its gross profit decreased due to a decrease in rebates earned in the current year compared to the prior year.

Gross profit margin (gross profit as a percentage of net sales) for the first quarter ended March 31, 2014 was 7.7% compared to 8.1% for the first quarter of 2013. Gross profit margin for our Lifeboat Distribution segment for the first quarter of 2014 was 6.9% compared to 7.0% for the first quarter of 2013. The decrease in gross profit margin for the Lifeboat Distribution segment was primarily caused by competitive pricing pressure. Gross profit margin for our TechXtend segment for the first quarter of 2014 was 11.4% compared to 12.7% for the first quarter of 2013. The decrease in gross profit margin for the TechXtend segment was primarily caused by our product mix and a decrease in rebates earned during the first quarter of 2014 compared to the first quarter of 2013.

Vendor rebates and discounts for the quarter ended March 31, 2014 amounted to \$0.4 million compared to \$0.4 million for the first quarter of 2013, with an increase in vendor rebates for the Lifeboat distribution segment offset by a decrease in vendor rebates for the TechXtend segment.

Vendor rebates are dependent on

reaching certain targets set by our vendors. Vendors have been periodically substantially increasing their target revenues for rebate eligibility. The Company monitors gross profits and gross profit margins carefully. Price competition in our market continued to intensify in 2014, with competitors lowering their prices significantly and the Company responded immediately. We anticipate that margins, as well as discounts and rebates, for the remainder of the year will continue to be affected by this current trend. To the extent that the Company finances larger transactions with extended payment terms, as anticipated, gross margins also will be negatively impacted.

Selling, General and Administrative Expenses

Total selling, general, and administrative (SG&A) expenses for the first quarter of 2014 were \$4.0 million compared to \$3.9 million for the first quarter of 2013, representing a increase of \$0.1 million or 3.3%. This increase is primarily the result of an increase in employee and employee related expenses (salaries, commissions, bonus accruals and benefits) in 2014 compared to 2013. As a percentage of net sales, SG&A expenses for first quarter of 2014 were 5.6% compared to 6.0% for the first quarter of 2013.

Direct selling costs (a component of SG&A) for the first quarter of 2014 were \$2.0 million compared to \$2.0 million for the first quarter of 2013. Total direct selling costs for our Lifeboat Distribution segment for the first quarter of 2014 were \$1.2 million compared to \$1.1 million for the same period in 2013. Total direct selling costs for our TechXtend segment for the first quarter of 2014 were \$0.8 million compared to \$0.9 million for the same period in 2013.

The Company expects that its SG&A expenses, as a percentage of net sales, may vary by quarter depending on changes in sales volume, and levels of continuing investments in employee headcount and marketing. We continue to monitor our SG&A expenses closely.

Income Taxes

For the three months ended March 31, 2014, the Company recorded a provision for income taxes of \$545,000 or 34.0% of income, compared to \$511,000 or 33.4% of income for the same period in 2013.

Liquidity and Capital Resources

During the first three months of 2014 our cash and cash equivalents decreased by \$7.8 million to \$11.8 million at March 31, 2014, from \$19.6 million at December 31, 2013. During the first three months of 2014, net cash used in operating activities amounted to \$7.8 million, net cash used in investing activities amounted to \$0.1 million and net cash provided by financing activities amounted to \$0.1 million.

Net cash used in operating activities in the first the three months of 2014 was \$7.8 million and primarily resulted from a \$14.2 million decrease in accounts payable partially offset by \$1.4 million in net income excluding non-cash charges, and a \$3.9 million decrease in accounts receivable and a decrease of \$0.9 million in prepaid and other current assets. The decreases in accounts receivable and account payable and account expenses were mainly due to lower sales volume, including sales on extended payment terms, in the first quarter of 2014 compared to the fourth quarter of 2013.

Net cash used in investing activities in the first three months of 2014 amounted to \$0.1 million. This was the result of capital expenditures of \$0.1 million.

Net cash provided by financing activities in the first three months of 2014 amounted to \$0.1 million. This consisted primarily of proceeds from stock option exercises of \$0.9 million and the tax benefit from share based compensation of \$0.2 million offset by dividends paid of \$0.8 million and treasury stock repurchased of \$0.2 million.

The Company s current and anticipated use of its cash and cash equivalents is, and will continue to be, to fund working capital, operational expenditures, the Common Stock repurchase program and dividends if declared by the board of directors.

We believe that the funds held in cash and cash equivalents and our unused borrowings on our credit facility will be sufficient to fund our working capital and cash requirements for at least the next 12 months.

Contractual Obligations as of March 31, 2014 are summarized as follows:

Total	Less than 1 year		1-3 years	4-5 years	After 5 years
\$ 511	\$ 272	\$	239		
\$ 511	\$ 272	\$	239		
		\$ 511 \$ 272	\$ 511 \$ 272 \$	\$ 511 \$ 272 \$ 239	\$ 511 \$ 272 \$ 239

(1) Operating leases relate primarily to the leases of the space used for our operations in Shrewsbury, New Jersey, Mississauga, Canada and Almere, Netherlands. The commitments for operating leases include the minimum rent payments.

As of March 31, 2014, the Company is not committed by lines of credit or standby letters of credit, and has no standby repurchase obligations or other commercial commitments (see Note 7 in the Notes to our Consolidated Financial Statements).

Foreign Exchange

The Company s Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors. We are subject to fluctuations primarily in the Canadian Dollar-to-U.S. Dollar exchange rate.

Off-Balance Sheet Arrangements

As of March 31, 2014, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Management s discussion and analysis of the Company s financial condition and results of operations are based upon the Company s consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company recognizes revenue from the sale of software and hardware for microcomputers, servers and networks upon shipment or upon electronic delivery of the product. The Company expenses the advertising costs associated with producing its catalogs. The costs of these catalogs are expensed in the same month the catalogs are mailed.

On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, stock-based compensation, contingencies and litigation.

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Company believes the following critical accounting policies, used in the preparation of its unaudited condensed consolidated financial statements, affect its more significant judgments and estimates.

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. If the financial condition of the Company s customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-offs may be required.

The Company has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance related to deferred tax assets. In the event the Company was to determine that it would not be able to realize all or part of its net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made.

Under the fair value recognition provision stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as an expense as it is amortized on a straight-line basis over the requisite service period, which is the vesting period. We make certain assumptions in order to value and expense our various share-based compensation awards. In connection with valuing stock options, we use the Black-Scholes model, which requires us to consider certain facts and to estimate certain subjective assumptions. The key facts and assumptions we consider are: (i) the expected volatility of our Common Stock; (ii) the expected term of the award; and (iii) the expected forfeiture rate. In connection with our restricted stock program we make assumptions principally related to the forfeiture rate. We review our valuation assumptions periodically and, as a result, we may change our valuation assumptions used to value stock based awards granted in future periods. Such changes may lead to a significant change in the expense we recognize in connection with share-based payments.

Certain Factors Affecting Results of Operations and Stock Price

This report includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Statements in this report regarding future events or conditions, including but not limited to statements regarding industry prospects and the Company s expected financial position, results of operations, business and financing plans, are forward-looking statements. These statements can be identified by forward-looking words such as may, will, expect, intend, anticipate, believe, estimate, and con similar words.

Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Substantial risks and uncertainties unknown at this time could cause actual results to differ

materially from those indicated by such forward-looking statements, including, but not limited to, the continued acceptance of the Company s distribution channel by vendors and customers, the timely availability and acceptance of new products, product mix, market conditions, competitive pricing pressures, contribution of key vendor relationships and support

programs, including vendor rebates and discounts, as well as factors that affect the software industry in general and other factors generally. We strongly urge current and prospective investors to carefully consider the cautionary statements and risk factors contained in this report and our annual report on Form 10-K for the year ended December 31, 2013.

The Company operates in a rapidly changing business, and new risk factors emerge from time to time. Management cannot predict every risk factor, nor can it assess the impact, if any, of all such risk factors on the Company s business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements.

Accordingly, forward-looking statements should not be relied upon as a prediction of actual results and readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The statements concerning future sales, future gross profit margin and future selling and administrative expenses are forward looking statements involving certain risks and uncertainties such as availability of products, product mix, pricing pressures, market conditions and other factors, which could result in a fluctuation of sales below recent experience.

Stock Volatility. The technology sector of the United States stock markets has experienced substantial volatility in recent periods. Numerous conditions which impact the technology sector or the stock market in general or the Company in particular, whether or not such events relate to or reflect upon the Company s operating performance, could adversely affect the market price of the Company s Common Stock. Furthermore, fluctuations in the Company s operating results, announcements regarding litigation, the loss of a significant vendor, increased competition, reduced vendor incentives and trade credit, higher postage and operating expenses, and other developments, could have a significant impact on the market price of the Company s Common Stock.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

In addition to its activities in the United States, 7.7% of the Company sales during the three months ended March 31, 2014 was generated in Canada. We are subject to general risks attendant to the conduct of business in Canada, including economic uncertainties and foreign government regulations. In addition, the Company s Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors. See *Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations - Results of Operations - Foreign Currency Transactions Gain (Loss).*

The Company s cash balance is invested in short-term savings accounts with our primary banks, Citibank, and JPMorgan Chase Bank. As such, we believe that the risk of significant changes in the value of our cash invested is minimal.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rule 13a-15(b) under the Exchange Act, our management carried out an evaluation of the effectiveness of the design and operation of the Company s disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of various members of our management, including our Company s President, Chairman of the Board and Chief Executive Officer (principal executive officer) and Vice President of Accounting and Reporting and Interim Chief Financial Officer (principal financial officer). Based upon that

evaluation, the Company s Chief Executive Officer and Interim Chief Financial Officer concluded that the Company s disclosure controls and procedures were effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms and is accumulated and communicated to the Company s management, including the Company s Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There has been no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) under the Exchange Act, that occurred during the quarter ended March 31, 2014, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
