RISK FACTORS

An investment in our securities is subject to risks inherent to our business. The material risks and uncertainties that our management believes affect us are described below. Before making an investment decision, you should carefully consider the risks and uncertainties described below together with all of the other information included or incorporated by reference in this report. The risks and uncertainties described below are not the only ones affecting us. Additional risks and uncertainties that our management is not aware of or focused on or that they currently deem immaterial may also adversely affect our business operations. This report is qualified in its entirety by these risk factors. If any of the following risks actually occur, our business, financial condition and results of operations could be materially and adversely affected. If this were to happen, the value of securities, including our common stock, could decline significantly, and you could lose all or part of your investment.

WE ARE A RECENTLY FORMED COMPANY, FORMED IN THE STATE OF TEXAS ON APRIL 11, 2006 AND REDOMICILED TO THE STATE OF NEVADA ON OCTOBER 2, 2006, WITH CUMULATIVE LOSSES SINCE INCEPTION THAT COULD CAUSE US TO RUN OUT OF MONEY AND CLOSE OUR BUSINESS.

We have an accumulated deficit from operations. There is not sufficient gross revenue and profit to finance our planned growth and, without additional financing as outlined in this prospectus, we could continue to experience losses in the future. Our accumulated deficit from operations through June 30, 2006 was \$56,092. We may incur significant expenses in promoting our business, and as a result, will need to generate significant revenues over and above our current revenue to achieve consistent profitability. If we are unable to achieve that profitability, your investment in our common stock may decline or become worthless.

WE RELY ON OUR SOLE OFFICER FOR DECISIONS AND HE MAY MAKE DECISIONS THAT ARE NOT IN THE BEST INTEREST OF ALL STOCKHOLDERS.

We rely on our sole officer to direct the affairs of the company and rely upon him competently operate the business. We do not have key man insurance on our sole officer and director and have no employment agreements with him. Should something happen to our sole officer, this reliance on a single person could have a material detrimental impact on our business and could cause the business to lose its place in the market, or even fail. Such events could cause the value of our stock to decline or become worthless.

INTENSE COMPETITION EXISTS IN THE COMPUTER GAMING INDUSTRY AND WE EXPECT COMPETITION TO CONTINUE TO INTENSIFY.

The computer gaming industry is highly competitive. We compete with numerous online computer gaming sites of varying quality and size. The computer gaming industry is characterized by competitors that vary considerably by their size, quality of service, brand identities, marketing and growth strategies, financial strength and capabilities and management talent. This competition and the expansion of online computer gaming and the aggressive marketing strategies of many of our competitors coupled with the financial strength of the larger competitors, could cause our market presence to decline and therefore could cause the value of your investment to decline or become worthless.

WE ARE SUBJECT TO CYBER ATTACKS ON OUR SITE THAT, IF SUCCESSFUL, COULD RENDER OUR SITE USELESS.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

We are subject to possible cyber attacks from competitors or hackers in general who have many ways of breaking into our sites or 'spamming' our site. Either one of these, if we do not or cannot deal with it quickly, could cause us to lose market presence and therefore lose customers, which could cause the value of our securities to decline. Should this happen, the value of your investment could decline or become worthless.

WE RELY ON ONLINE GAMERS FOR OUR REVENUE, WHO, IF GAMING CONDITIONS BECOME UNATTRACTIVE, MAY LEAVE AND GO TO ANOTHER SITE.

Gamers are notoriously impatient, driven by being the fastest and first on the particular game they are playing. If our gaming customers sense sluggish play, buggy servers, or poor quality service, they may become bored or frustrated which could make them dissatisfied with the service and become a permanently lost subscriber. Our job as a Company is to keep our servers online, with as few bugs as possible, the fastest in the industry, with prompt attention if something does go wrong. If we fail to attend to these issues, we could permanently lose subscribers, which could cause our business to fail, which would cause your investment to become worthless.

OUR SOLE OFFICER WILL RETAIN SUBSTANTIAL CONTROL OVER OUR BUSINESS AFTER THE OFFERING AND MAY MAKE DECISIONS THAT ARE NOT IN THE BEST INTEREST OF ALL STOCKHOLDERS.

Upon completion of this offering, our sole officer will, in the aggregate, beneficially own approximately 90.91% (or 78.74% if maximum is sold) of the outstanding common stock. As a result, our sole officer will have the ability to control substantially all the matters submitted to our stockholders for approval, including the election and removal of directors and any merger, consolidation or sale of all or substantially all of our assets. He will also control our management and affairs. Accordingly, this concentration of ownership may have the effect of delaying, deferring or preventing a change in control of us, impeding a merger, consolidation, takeover or other business combination involving us or discouraging a potential acquirer from making a tender offer or otherwise attempting to take control of us, even if the transaction would be beneficial to other stockholders. This in turn could cause the value of our stock to decline or become worthless.

WE MAY HAVE TO RAISE ADDITIONAL CAPITAL WHICH MAY NOT BE AVAILABLE OR MAY BE TOO COSTLY, WHICH, IF WE CANNOT OBTAIN, COULD CAUSE US TO HAVE TO CEASE OUR OPERATIONS.

Our capital requirements could be more than our operating income. As of June 30, 2006, our cash balance was \$1,212. We do not have sufficient cash to indefinitely sustain operating losses, but believe we can continue for twelve months without any additional funding, but upon raising the minimum amount in this offering, believe that will take us to the point that we will be able to sustain operations for at least a year if we raise no other capital. Our potential profitability depends on our ability to generate and sustain substantially higher net sales with reasonable expense levels. We may not operate on a profitable basis or that cash flow from operations will be sufficient to pay our operating costs. We anticipate that the funds raised in this offering will be sufficient to fund our planned growth for the year after we close on the offering assuming we raise the minimum amount in this offering. Thereafter, if we do not achieve profitability, we will need to raise additional capital to finance our operations. We have no current or proposed financing plans or arrangements other than this offering. We could seek additional financing through debt or equity offerings. Additional financing may not be

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

6

available to us, or, if available, may be on terms unacceptable or unfavorable to us. If we need and cannot raise additional funds, further development of our business, upgrades in our technology, additions to our product lines may be delayed or postponed indefinitely; if this happens, the value of your investment could decline or become worthless.

WE MAY NOT BE ABLE TO COMPETE SUCCESSFULLY WITH CURRENT OR FUTURE COMPETITORS BECAUSE OF THEIR WELL ESTABLISHED SUPPLY CHAINS AND RECOGNIZED NAMES, WHICH IF WE CANNOT OVERCOME, COULD CAUSE THE VALUE OF YOUR STOCK TO DECLINE OR BECOME WORTHLESS.

Many competitors have advantages over us including longer operating histories and significantly greater financial, advertising, and other resources. Our competitors are local, regional, national and international companies, many of them surviving financially on a shoe string and many of them well funded companies than can easily outmatch our funds. The well funded companies that develop good marketing plans may prove too much for us to overcome. As such competing with established businesses providing the same service may prove unprofitable and your investment could decline in value and become worthless. As a smaller, younger company, breaking into new markets could prove to be costly, and because of this, our profit margin could fall and the value of your investment could decline. Future competitors would increase the number of companies competing for market share. This increased competition could result in price pressure and reduced gross margins, which could harm our net sales and operating results, which in turn could cause your investment to decline and/or become worthless.

NO PUBLIC MARKET FOR OUR COMMON STOCK CURRENTLY EXISTS AND AN ACTIVE TRADING MARKET MAY NEVER MATERIALIZE, AND AN INVESTOR MAY NOT BE ABLE TO SELL THEIR STOCK.

Prior to this offering, there has been no public market for our common stock. We plan work with a market maker who would then apply to have our securities quoted on the OTC Bulletin Board. In order to be quoted on the OTCBB, we must be sponsored by a participating market maker who would make the application on our behalf; at this time, we are not aware of a market maker who intends to sponsor our securities and make a market in our stock. Assuming we become quoted, an active trading market still may not develop and if an active market does not develop, the market value could decline to a value below the offering price in this prospectus. Additionally, if the market is not active or illiquid, investors may not be able to sell their securities.

IF A PUBLIC TRADING MARKET FOR OUR COMMON STOCK MATERIALIZES, WE WILL BE CLASSIFIED AS A 'PENNY STOCK' WHICH HAS ADDITIONAL REQUIREMENTS IN TRADING THE STOCK, WHICH COULD CAUSE YOU NOT TO BE ABLE TO SELL YOUR STOCK.

The U.S. Securities and Exchange Commission treats stocks of certain companies as a 'penny stock'. We are not aware of a market maker who intends to make a market in our stock, but should we be cleared to trade, we would be classified as a 'penny stock' which makes it harder to trade even if it is traded on an electronic exchange like the over-the-counter bulletin board. These requirements include (i) broker-dealers who sell to customers must have the buyer fill out a questionnaire, and (ii) broker-dealers may decide upon the information given by a prospective buyer whether or not the broker-dealer determines the stock is suitable for their financial position. These rules may adversely affect the ability of both the selling broker-dealer and the buying broker-dealer to trade your securities as well as the purchasers of your securities to sell them in the secondary market. These requirements may cause potential buyers to be eliminated

and the market for the common stock you purchase in this offering could have no effective market to sell into, thereby causing your investment to be worthless.

SHAREHOLDERS PURCHASING SHARES IN THIS OFFERING WILL EXPERIENCE IMMEDIATE AND SUBSTANTIAL DILUTION, CAUSING THEIR INVESTMENT TO IMMEDIATELY BE WORTH LESS THAN THEIR PURCHASE PRICE.

If you purchase common stock in this offering, you will experience an immediate and substantial dilution in the projected book value of the common stock from the price you pay in this initial offering. This means that if you buy stock in this offering at \$0.50 per share, you will pay substantially more than our current shareholders. The following represents your dilution: (a) if the minimum of 150,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.01 per share and an immediate dilution to the new shareholders of \$0.49 per common share; (b) if the midpoint of 500,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.04 per share and an immediate dilution to the new shareholders of \$0.46 per common share. and (c) if the maximum of 1,000,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.07 per share and an immediate dilution to the new shareholders of \$0.43 per common share.

INVESTORS ARE NOT ABLE TO CANCEL THEIR SUBSCRIPTION AGREEMENTS THEY SIGN, THEREFORE LOSING ANY CHANCE TO CHANGE THEIR MINDS.

Once the Company receives an investors subscription, they will not be able to cancel their subscription. The investor will therefore lose any right or opportunity to change their mind after receipt by the Company.

WE RELY HEAVILY ON MARKETING AND PROMOTION ACTIVITIES TO GENERATE SALES OF OUR SERVERS AND GENERATE GAME PLAYERS ON OUR SERVERS, WHICH IS A SIGNIFICANT UP-FRONT EXPENSE.

The timing and placing of such activities is crucial to revenue growth. This cost could outpace revenue causing cash to decline and therefore putting your investment at risk.

OUR OFFERING PRICE OF \$0.50 WAS DETERMINED ARBITRARILY BY OUR PRESIDENT. YOUR INVESTMENT MAY NOT BE WORTH AS MUCH AS THE OFFERING PRICE BECAUSE OF THE METHOD OF ITS DETERMINATION.

The President arbitrarily determined the price for the offering of \$0.50 per share. As the offering price is not based on a specific calculation or metric the price has inherent risks and therefore your investment could be worth less than the offering price.

FORWARD LOOKING STATEMENTS

This prospectus contains forward looking statements. These forward looking statements are not historical facts but rather are based on our current expectations, estimates and projections about our industry, our beliefs and our assumptions. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks" and "estimates", and variations of these words and similar expressions, are intended to identify forward looking statements. These statements are not guarantees of future performance and are subject to risks,

uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed, implied or forecasted in the forward looking statements. In addition, the forward looking events discussed in this prospectus might not occur. These risks and uncertainties include, among others, those described in "Risk Factors" and elsewhere in this prospectus. Readers are cautioned not to place undue reliance on these forward looking statements, which reflect our management's view only as of the date of this prospectus.

DILUTION

If you purchase common stock in this offering, you will experience an immediate and substantial dilution in the projected book value of the common stock from the price you pay in this initial offering.

The book value of our common stock as of June 30, 2006 was negative \$14,242 or (\$0.01) per share. Projected book value per share is equal to our total assets, less total liabilities, divided by the number of shares of common stock outstanding.

After giving effect to the sale of common stock offered by us in this offering, and the receipt and application of the estimated net proceeds (at an initial public offering price of \$0.50 per share, after deducting estimated offering expenses), our projected book value as of June 30, 2006 would be: \$43,989 or \$0.01 per share, if the minimum is sold, \$211,489 or \$0.04 per share, if the midpoint amount is sold, and \$451,989 or \$0.07 per share, if the maximum is sold.

This means that if you buy stock in this offering at \$0.50 per share, you will pay substantially more than our current shareholders. The following represents your dilution:

if the minimum of 150,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.01 per share and an immediate dilution to the new shareholders of \$0.49 per common share.

if the midpoint amount of 500,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.04 per share and an immediate dilution to the new shareholders of \$0.46 per common share.

if the maximum of 1,000,000 shares are sold, an immediate decrease in book value to our new shareholders from \$0.50 to \$0.07 per share and an immediate dilution to the new shareholders of \$0.43 per common share.

The following table illustrates this per share dilution:

| | Minimum | Midpoint | Maximum |
|--|----------|----------|----------|
| Assumed initial public offering price | \$ 0.50 | \$ 0.50 | \$ 0.50 |
| Book value as of June 30, 2006 | \$(0.01) | \$(0.01) | \$(0.01) |
| Projected book value after this offering | \$ 0.01 | \$ 0.04 | \$ 0.07 |
| Increase attributable to new stockholders: | \$ 0.02 | \$ 0.05 | \$ 0.08 |
| Projected book value | | | |
| as of June 30, 2006 after this offering | \$ 0.01 | \$ 0.04 | \$ 0.07 |
| Decrease to new stockholders | \$(0.49) | \$(0.46) | \$(0.43) |
| Percentage dilution to new stockholders | 98 % | 92 % | 86 % |

PLAN OF DISTRIBUTION

The common stock is being sold on our behalf by our sole officer and director, who will receive no commission on such sales. All sales will be made by personal contact by our sole officer and director, G. Edward Hancock. We will not be mailing our prospectus to anyone or soliciting anyone who is not personally known by Mr. Hancock, or introduced to Mr. Hancock and personally contacted by him or referred to him. We have no agreements, understandings or commitments, whether written or oral, to offer or sell the securities to any individual or entity, or with any person, including our attorney, or group for referrals and if there are any referrals, we will not pay finders fees.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

Mr. Hancock will be selling the common stock in this offering relying on the safe harbor from broker registration under the Rule 3a4-1(a) of the Securities Exchange Act of 1934. Mr. Hancock qualifies under this safe harbor because Mr. Hancock (a) is not subject to a statutory disqualification, (b) will

10

not be compensated in connection with his participation by the payment or other remuneration based either directly or indirectly on transactions in the securities, (c) is not an associated person of a broker dealer, and has not been an associated person of a broker dealer within the preceding twelve months, and (d) primarily performs, and will perform, after this offering, substantial duties for the issuer other than in connection with the proposed sale of securities in this offering, and he is not a broker dealer, or an associated person of a broker dealer, within the preceding 12 months, and he has not participated in selling securities for any issuer in the past 12 months and shall not sell for another issuer in the twelve months following the last sale in this offering.

Additionally, he will be contacting relatives, friends and business associates to invest in this offering and provide them with a printed copy of the prospectus and subscription agreement. No printed advertising materials will be used for solicitation, no internet solicitation and no cold calling people to solicit interest for investment. Affiliates may purchase shares in this offering but are limited to a maximum of 5,000 shares each or a cumulative total of 10% of the aggregate offering sold. These sales will not count toward meeting the minimum offering. All affiliates purchasing the stock will sign a document stating that the shares they purchase will be for investment and not for resale.

The money we raise in this offering before the minimum amount is sold will be deposited in a separate non-interest bearing bank account where the funds will be held for the benefit of those subscribing for our shares, until the minimum amount is raised at which time we will deposit the funds in our bank account and retain the transfer agent who will then issue the shares. We do not have an escrow agreement or any other agreement regarding the custody of the funds we raise. The offering will end on April 15, 2007 and if the minimum subscription is not raised by the end of the offering period, all funds will be refunded promptly to those who subscribed for our shares, without interest. The offering will close on April 15, 2007, if not terminated sooner.

The subscription agreement will provide investors the opportunity to purchase shares at \$0.50 per share by purchasing directly from the Company. The agreement also provides that investors are not entitled to cancel, terminate or revoke the agreement. In addition, if the minimum subscription is not raised by April 15, 2007, the subscription agreement will be terminated and any funds received will be promptly returned to the investors.

Certificates for shares of common stock sold in this offering will be delivered to the purchasers by Signature Stock Transfer, Inc., the stock transfer company chosen by the company as soon as the minimum subscription amount is raised. The transfer agent will only be engaged in the event that we obtain at least the minimum subscription amount in this offering.

USE OF PROCEEDS

The total cost of the minimum offering is estimated to be \$16,769, or \$33,769 if the maximum is sold consisting primarily of legal, accounting and blue sky fees.

The following table sets forth how we anticipate using the proceeds

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

from selling common stock in this offering, reflecting the minimum and maximum subscription amounts:

| | \$75,000 Minimum ----- | \$250,000 Mid-Level ----- | \$500,000 Maximum ----- |
|---------------------------------------|------------------------------|---------------------------------|-------------------------------|
| Legal, Accounting & Printing Expenses | 3,500 | 10,000 | 20,500 |
| Other Offering Expenses | 13,269 | 13,269 | 13,269 |
| Net Proceeds to Company | 58,231 | 226,731 | 466,231 |
| | | | |
| TOTAL | \$ 75,000 | \$250,000 | \$500,000 |

11

The following describes each of the expense categories:

* legal, accounting and printing expense is the estimated costs associated with this offering. As more shares are sold, we anticipate legal fees to increase due to the likelihood of investors being from other states which could result in state blue sky securities filings. Although our legal fees are not contingent on the number of shares sold, it is likely that the legal fees will increase as our attorney will charge us for these filings. Also, as more shares are sold, our printing expenses will increase.

* other offering expenses includes SEC registration fee, blue sky fees and miscellaneous expenses with regards to this offering.

The following table sets forth how we anticipate using the net proceeds to the company:

| | \$75,000 Minimum ----- | \$250,000 Mid-level ----- | \$500,000 Maximum ----- |
|----------------------------|------------------------------|---------------------------------|-------------------------------|
| Marketing/Advertising | \$ 6,000 | \$ 9,500 | \$ 18,000 |
| Software development | 15,785 | 92,133 | 171,130 |
| Server Lease Agreements | 20,767 | 85,267 | 208,767 |
| Salaries, wages | 10,000 | 25,000 | 45,000 |

ABOUT GAMING

Online gaming has emerged as one of the biggest growing industries in the new millennium. The Far East has played a significant role in paving the way for recognition for online gamers. Multiplayer online games have generated over 1 billion in revenue for the first time, in 2004. A large proportion of this figure has come from player subscription games such as Everquest and Star Wars Galaxies, but a significant amount has also come from the first person shooter game sales. This figure does not include the emergence of sponsored players and teams as has been seen in Asia over the last 18 months with many players earning above \$100,000 in sponsorship deals. These players have become cult figures in their respective countries and "national heroes". The way it stands now, is that this status will start migrating to the already maturing gaming markets such as the US, where global events here now command higher earnings for the winners. Typical earnings of a team range between 20k and 40k for the larger events, though this is small compared to the events of Asia.

These events have caused an influx from many large companies wanting to gain access to this emerging market. Names such as Nike, Pepsi, Red Bull, and Oakley have begun their sponsorship programs globally with an emphasis on the US Market. Gaming leagues and competitions such as WSVG, CPL, ESWC, WCG and WEG have become very popular in the US and the world, culminating in the Asian model for sponsored clans and players increasingly hugely as a result. News of these events is starting to hit mainstream television and press with news of the winning tournaments being broadcasted on channels such as:

1. BBC News Online
2. CNN
3. ABC
4. Fox News
5. MTV
6. Fuse Network
7. CBC Television in Canada
8. Many major online news services such as Yahoo, MSN, Reuters

As more mainstream media becomes involved in promoting gaming events, this allows more companies outside the gaming community to get involved as named above.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

Besides these news sites and television, there are various ways to follow events. These methods include online radio, such as TSN (www.tsncentral.com), streaming video and in-game viewing tools such as HalfLife-TV. These programs allow the viewer to watch the actual in game action from the point of view of any player they like or if preferred a map overview. Over 30,000 people watched the last CPL (www.thecpl.com) finals on HalfLife-TV alone. (Source: <http://www20.tomshardware.com/game/200408071/cyberathlete-14.html>)

GAMING STATISTICS

- 1 A \$35 Million global market only three years ago, pay-per-play gaming reached \$137 Million in 2003 and is forecast to grow at an impressive compound annual growth rate (CAGR) of 40 per cent to 2007 to become the

15

second largest online gaming sub-sector behind Multi-player Online Games. (Source: <http://www.screendigest.com/ezine/0404/#games>)

- 2 Screen Digest forecasts that the total online PC games market will toped \$1.1 Billion in the West in 2004 and was projected to reach \$2.2 Billion by 2007. (Source:<http://www.screendigest.com/ezine/0404/#games>)
- 3 Nick Gibson, a games industry analyst and the author of the report states: "The casual online gaming market has matured rapidly since the end of the dotcom boom era and a number of new, high margin revenue models have emerged that have, following a three year hiatus, returned rapid growth to this sector. Amazingly, every single one of the major casual games service providers reported that this growth was being predominantly fuelled by middle-aged and female gamers, the antithesis of the MMOG and hard-core gaming markets." (Source:<http://www.screendigest.com/ezine/0404/#games>)
- 4 The barriers that keep the average gamer from having a say in the future of his or her hobby are falling away and the doors are opening for new talent. Having just passed the 11 billion dollar mark, the gaming industry has started to assume a position as a true defining force in culture and a shaper of our digital future. (Source: <http://www4.tomshardware.com/business/20040401/gdc-11.html#conclusion>)
- 5 Clearly, the most powerful force driving the games market is consumer demand. According to a new study from the Entertainment Software Association (ESA), "Essential Facts about the Computer and Video Game Industry," more than half (54 percent) of all US households have purchased or plan to purchase one or more games this year. (Source:http://cgw.pennnet.com/Articles/Article_Display.cfm?Section=Articles&Subsection=Display&Article_ID=209404)
- 6 By 2010, 450 million homes worldwide will have broadband connectivity at speeds greater than 1Gbit/second. In addition, of the more than 2 billion mobile phones in use, at least half will be connected to 3G networks, which will feature data transfer speeds in excess 100Kbit/second and make the downloading of games and assets practical.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

(Source:http://cgw.pennnet.com/Articles/Article_Display.cfm?Section=Articles&Subsection=Display&Article_ID=209404)

- 7 The report concludes that the electronic gaming market will expand at a compound annual growth rate of 20 percent and will top \$55 billion in annual revenue by the end of the decade.

(Source:http://cgw.pennnet.com/Articles/Article_Display.cfm?Section=Articles&Subsection=Display&Article_ID=209404)

Themis Group (a community and communications services company catering to games, technology, and entertainment enthusiasts) CEO and co-founder Alex Macris says "It's clear that the online gaming portion of the industry continues to experience surging growth, especially in the area of subscription-based games." The age demographic of videogame and computer game users converges to a median point of 29 years. Younger players raised on a steady diet of fantasy action shooters were raving about the whole squad concept of working with teammates online toward a shared goal while living with the reality that one bullet kills and getting maimed slows a soldier down. The same trend is emphasized by the success of Half-Life and its squad-based add-ons, Team Fortress Classic and Counter-Strike.

OUR BUSINESS STRATEGY

We are EMG (EMAZING GAMING), a gaming organization that is working with prominent marketing services connected to the gaming scene. Currently, the entire team consists of contract workers including management, sales, technical development, press and our primary team / players department. We comprise of people who have specific gaming experience - a pre-requisite for employment with our company is experience in the gaming world. Combined, our organization holds well over 50 years of experience in management alone.

Our Staff:

Management: Coordinates and leads the entire organization to achieve optimal results and goals. They also manage budget to satisfy needs for traveling and accommodations to PR events and tournaments.

Sales department: Handles contacts to other companies and controls all marketing possibilities. They make proper detailed statistics and documentation on the amount of exposures that the partner in question receives. Also includes the research of the impact of the investments.

18

Technical development: Works with the organizations' technical structure, which includes the website, design material, marketing channels, and technical equipment. Also provides technical solutions and services with the integration of the partners' products and the popularity/demand of the latest hardware.

Team/Players: The current team of players are: unrivaled in the e-sports market, they are the backbone to the organization. The team practices and competes hard in order to keep the throne of the EMG ORGANIZATION as a world leading organization. The team is the primary marketing channel for sponsors and the organization. Press department: Works to provide the public with the latest updates regarding the team and e-sports through our website and other means of communication. Also provides detailed coverage of the teams' progress in tournaments and leagues.

EMG GAMING has three major financial objectives to reach its goal as the best and highest-ranking Professional Counter-Strike team in the world:

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

1. Maintain Equipment on the Cutting Edge - It goes without saying that when competing in the technologically advanced arena of professional gaming, you want to remain on the leading edge of the technology curve. Faster machines, graphics cards, and other equipment can mean the difference between winning and losing at this level.
2. Ability to Travel to Tournaments - There is no use in being professional if one can't afford to travel to the various events and tournaments here at home and abroad. Travel and accommodations represent the majority of our costs.
3. Ability to Train - Professional gamers train for up to 12 hours per day, every day to stay at the top of their game. This does not allow much time for work, and often professional gamers are forced to drop out because they need financial stability to survive. A monthly living allowance would not only allow us to focus on training, but it would also bring greater stability to the team members.

Industry and Competitors

The Industry:

The eSports industry is highly competitive. ESports is technologically based and through the medium of the internet is readily accessible to most anyone with a computer and a credit card. Barriers to entry are high due to server costs (owned and/or leased), travel expenses, and general living expenses. The more successful and enthusiastic eSport competitors are reliant on sponsors and partners to generate funds to undergird living, travel and equipment maintenance costs. Although highly competitive, it is also highly fragmented. Esports is worldwide in scope and difficult to assess from a competitive standpoint as games are often hot and therefore streaky in play before another company puts out a more desirable game program. Even so, server capacity, speed and graphics generally determine the amount of play a game will generate.

Our cash flows since inception have not been adequate to support on-going operations. As noted above, the Company's financing needs for the next twelve months can and will be met even if the minimum offering amount is raised. DIRECTORS, EXECUTIVE OFFICERS AND SIGNIFICANT EMPLOYEES

The directors and officers of the company, their ages and principal positions are as follows:

| Name | Age | Position |
|-------------------|-----|---|
| ----- | | |
| G. Edward Hancock | 18 | Director, President; Secretary and Director |

Background of Directors and Executive Officers:

G. Edward Hancock.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

G. Edward Hancock, now 18, started in eSports at age 13, being a very talented game player at an early age opened doors for him at such an early age for the level of competition offered. From the conception of the most popular game he has been in the in the top 15% of American players. Coupled with his 10 year computer and internet experience and knowledge of Game Servers this helped him to understand all aspects of the online gaming industry, particularly game servers and performance.

In 2001 Mr. Hancock, in conjunction with a few other gamers, opened a game server rental company in Southern California offering game servers to west coast of United States; this was a very good learning experience. One of the biggest lessons of this venture is the shelf life of the computer equipment and facilities that housed them. If the data center was not set up for online play then the performance suffered, and this business is all about performance.

In 2003 Mr. Hancock helped open a LAN Game Center in Lake Forest California; this facility offered game play by the hour and was a very profitable business in both financially and educationally. This business was sold and Mr. Hancock re-located to Dallas Texas, the home of the biggest online gaming league in the world, CAL, The Cyber Athletic League and CPL, The Cyber Professional League where twice a year teams and players from all over the world come to compete for over 100,000 in money and prizes. Mr. Hancock is now concentrating on managing teams as well as competing as Emazing's sponsored teams, (called eMg) now represent over 15 teams through out the world. Most of the teams are in the US and Canada and are supplied game servers from the eMg XDEF network.

In late 2005 Mr. Hancock started up eMg's XDEF network, a high end gaming server rental company specializing in high performance game servers as well as low cost economical game servers for beginners. Over the next year this business has grown to one of the top US game server rental companies offering the high end consistent service game servers demand.

LEGAL PROCEEDINGS

We are not involved in any legal proceedings at this time.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS

We have retained the same accountant, The Hall Group, CPA's as our independent certified public accountant. We have had no disagreements with them on accounting and disclosure issues.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our bylaws provide that the liability of our officers and directors for monetary damages shall be eliminated to the fullest extent permissible under Delaware Law, which includes elimination of liability for monetary damages for defense of civil or criminal actions. The provision does not affect a director's responsibilities under any other laws, such as the federal securities laws or state or federal environmental laws.

The position of the U.S. Securities & Exchange Commission under the Securities Act of 1933:

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

We have no underwriting agreement and therefore no provision for indemnification of officers and directors is made in an underwriting by a broker dealer.

LEGAL MATTERS

Our attorney has passed upon the legality of the common stock issued before this offering and passed upon the common stock offered for sale in this offering. Our attorney is Scheef & Stone, LLP, 5956 Sherry Lane, Suite 1400, Dallas, Texas 75225.

EMAZING INTERACTIVE, INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2006

NOTE 1 - NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities, History and Organization:

Emazing Interactive, Inc. (The "Company") operates as an online gaming facilitator through its subsidiary Emazing Gaming, LLC. The Company is located in Allen, Texas and was incorporated on April 11, 2006 under the laws of the State of Texas.

Significant Accounting Policies:

The Company's management selects accounting principles generally accepted in the United States of America and adopts methods for their application. The application of accounting principles requires the estimating, matching and timing of revenue and expense. Below is a summary of certain significant accounting policies selected by management.

Basis of Presentation:

The Company prepares its financial statements on the accrual basis of accounting.

Cash and Cash Equivalents:

All highly liquid investments with original maturities of three months or less are stated at cost which approximates market value.

Principles of Consolidation:

The June 30, 2006 financial statements include the accounts of Emazing Gaming, LLC, an operating subsidiary. All significant intercompany transactions and balances have been eliminated.

Website Software Development Costs:

The Company adopted EITF 00-02, "Accounting for website developments costs". In accordance with EITF 00-02, the costs incurred for the (i) website application and infrastructure development; (ii) graphics development; and (iii) content development, which took the website to a functional stage where it could receive server and gaming orders, were capitalized and are being amortized over three years. Maintenance expenses or costs that do not result in new revenue producing features or functions, such as updating information and products or maintenance of the website or promotion of the website using search engines, are expensed as

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

incurred. Prior to this development, Emazing had no website. In the period ended June 30, 2006, \$790 has been expensed and \$38,488 capitalized.

6

EMAZING INTERACTIVE, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 1 - CONTINUED

Earnings (Loss) per Share:

Earnings (loss) per share (basic) is calculated by dividing the net income (loss) by the weighted average number of common shares outstanding for the period covered. As the Company has no potentially dilutive securities, fully diluted earnings (loss) per share is identical to earnings (loss) per share (basic).

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - FIXED ASSETS

Fixed assets at June 30, 2006 are as follows:

| | | |
|--------------------------------|----|----------|
| Computer equipment | \$ | 15,600 |
| Gaming software | | 38,488 |
| Less: Accumulated Depreciation | | (4,507) |
| | | ----- |
| Total Fixed Assets | \$ | 49,581 |
| | | ===== |

Depreciation expense was \$4,507 for the period ended June 30, 2006.

NOTE 3 - COMMON STOCK

The Company is authorized to issue 50,000,000 common shares at a par value of \$0.001 per share. These shares have full voting rights. At June 30, 2006, there were 5,350,000 shares outstanding as follows:

7

EMAZING INTERACTIVE, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 4 - INCOME TAXES

The Company has adopted Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS No. 109), which requires the use of the liability method in the computation of income tax expense and the current and deferred income taxes payable. Under SFAS No. 109, income tax expense consists of taxes payable for the year and the changes during the year in deferred assets and liabilities. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases and financial reporting bases of assets and liabilities. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Since the realization of any deferred tax benefits is contingent upon future earnings, no deferred tax asset has been accrued since the likelihood of future earnings has not been demonstrated.

The Company had a net loss for the period ended June 30, 2006, and therefore incurred no tax liability. The net operating losses and their expiration follow:

| Net (Loss) | Expiration Date |
|-------------|--------------------|
| ----- | ---- |
| \$ (56,092) | 2026 |

NOTE 5 - FINANCIAL CONDITION AND GOING CONCERN

Emazing has an accumulated deficit through June 30, 2006 totaling \$56,092, and at June 30, 2006 had negative working capital of \$63,823. Because of this loss, Emazing will require additional working capital to develop its business operations. Emazing intends to raise additional working capital either through private placements, public offerings and/or bank financing. There are no assurances that Emazing will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings and/or bank financing necessary to support Emazing's working capital requirements. To the extent that funds generated from any private placements, public offerings and/or bank financing are insufficient, Emazing will have to raise additional working capital. No assurance can be given that additional financing will be available, or if available, will be on terms acceptable to Emazing. If adequate

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

working capital is not available Emazing may not continue its operations.

Emazing faces many factors in its ability to continue as a going concern, including but not limited to, the promotion of its gaming website, competition from larger and better capitalized companies, and its ability to create traffic to its website and virtual store. To date, much of Emazing's activities have been focused on advertising and promotion to create it's identity in the community, and its continued existence is dependent upon the gaming public purchasing more time on its gaming servers.

8

EMAZING INTERACTIVE, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2006

NOTE 5 - CONTINUED

Should the above concerns materialize, it is conceivable that Emazing would have to suspend or discontinue operations. Management believes that the efforts it has made to promote its site will continue for the foreseeable future. These conditions raise substantial doubt about Emazing's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should Emazing be unable to continue as a going concern.

NOTE 6 - SUBSEQUENT EVENT

On October 2, 2006, the Company converted its corporate charter to domicile in Nevada (previously in Texas).

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 1. Indemnification of Directors and Officers

Our certificate of incorporation provides that the liability of our officers and directors for monetary damages shall be eliminated to the fullest extent permissible under Pennsylvania Corporation Act, which includes elimination of liability for monetary damages for defense of civil or criminal actions. The provision does not affect a director's responsibilities under any other laws, such as the federal securities laws or state or federal environmental laws.

Article Thirteen of our Articles of Incorporation states:

A director of the corporation shall not be personally liable to the corporation or its shareholders for monetary damages for any act or omission in his capacity as a director, except to the extent otherwise expressly provided by a statute of the State of Pennsylvania. Any repeal or modification of this Article shall be prospective only, and shall not adversely affect any limitation of the personal liability of a director of the corporation existing at the time of the repeal or modification.

Item 2. Other Expenses of Issuance and Distribution

All expenses, including all allocated general administrative and overhead expenses, related to the offering or the organization of the Company will be borne by the Company.

The following table sets forth a reasonable itemized statement of all anticipated out of pocket and overhead expenses (subject to future contingencies) to be incurred in connection with the distribution of the securities being registered, reflecting the minimum and maximum subscription amounts.

| | Minimum | Maximum |
|---------------------------------|-----------|-----------|
| SEC Filing Fee | \$ 64 | \$ 64 |

| Miscellaneous | 2,905 | 405 |
| TOTAL | \$ 16,769 | \$ 33,769 |

As more shares are sold, we anticipate legal fees to increase due to the likelihood of investors being from other states which could result in state blue

sky securities filings. Although our legal fees are not contingent on the number of shares sold, it is likely that the legal fees will increase as our attorney will charge us for these filings. Also, as more shares are sold, our printing expenses will increase.

Item 3. Undertakings

- 1(a) Rule 415 Offering. If the small business issuer is registering securities under Rule 415 of the Securities Act (230.415 of this chapter), that the small business issuer will:

29

(1) File, during any period in which it offers or sells securities, a post-effective amendment to this Registration Statement to:

(i) Include any prospectus required by section 10(a)(3) of the Securities Act; and

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) (230.424(b) of this chapter) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For determining liability of the undersigned small business issuer under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned small business issuer undertakes that in a primary offering of securities of the undersigned small business issuer pursuant to his registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned small business issuer will be a seller to the purchaser and will be considered to offer or sell such securities to purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned small business issuer relating to the offering required to be filed pursuant to Rule 424 (230.424 of this chapter);
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned small business issuer or used or referred to by the undersigned small business issuer;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned small business issuer or its securities provided by or on behalf of the undersigned small business issuer; and
- (iv) Any other communication that is an offer in the offering made by the undersigned small business issuer to the purchaser.

Edgar Filing: EMAZING INTERACTIVE, INC. - Form SB-1

1(g) That, for determining liability under the Securities Act to any purchaser: (1) If the small business issuer is relying on Rule 430B:

(i) Each prospectus filed by the undersigned small business issuer pursuant to Rule 424(b)3 shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b) (2), (b) (5), or (b) (7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a) (1) (I), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date for the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided

30

however, that no statement made in a registration statement or prospectus that is part of a registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supercede or modify and statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(2) If the small business issuer is subject to Rule 430C, include the following: Each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of a registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supercede or modify and statement that was made in the registration statement or prospectus that was part of the registration statement or made in any document immediately prior to such date of first use.

Registrant hereby undertakes to request acceleration of the effective date of the registration statement under Rule 461 of the Securities Act:

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of
