NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2006

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of Freestone Resources, Inc. ( Freestone ) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. The results of operations for the three and six months ended December 31, 2006 are not necessarily indicative of the results of operations for the full year or any other interim period. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and Financial Statements and notes thereto included in the Company's June 30, 2006 Form 10-KSB. Notes to the consolidated financial statements which substantially duplicate the disclosure contained in the audited financial statements for fiscal 2006 as reported in the Form 10-KSB have been omitted.

NOTE 2 GOING CONCERN

As reflected in the accompanying consolidated financial statements, Freestone incurred operating losses, and has a negative working capital position as of December 31, 2006. The above factors raise substantial doubt about Freestone's ability to continue as a going concern. Freestone's continued existence is dependent on its ability to obtain additional equity and/or debt financing to fund its operations. Freestone plans to raise additional financing and to increase sales volume. There is no assurance that Freestone will obtain additional financing or achieve profitable operations or cash inflows. The financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts or the amount and classification of liabilities that might be necessary as a result of this uncertainty.

NOTE 3 DEBT FORGIVENESS

In November of 2006, the statute of limitations expired for a long term note payable issued by Freestone in 2002. Freestone wrote off the entire balance including interest of \$165,388 during the three months ended December 31, 2006. The income from this write off is reported as a gain on debt forgiveness in the accompanying financial statements.

NOTE 4 COMMON STOCK

During the six months ended December 31, 2006 Freestone issued 2,550,000 shares of common stock valued at \$393,500 to consultants for services.

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

*This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. The Company's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in the Company's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.*

### General

Freestone Resources, Inc. was involved in the operation of an internet computer supply business until its operations were discontinued in 2001. It has had no business since that time. #### NEED FOR ADDITIONAL FINANCING

The Company is in the process of seeking an acquisition candidate in order to return value to its shareholders.

No commitments to provide additional funds have been made by management or other stockholders.

Further, there exist no agreements or understandings with regard to loan agreements by or with the Officers, Directors, principals, affiliates or shareholders of the Company.

### ITEM 3. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the Exchange Act ) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer (the Certifying Officers ), as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15(e) and 15d-15(e) under the Exchange Act, the Certifying Officers carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of December 31, 2006. Their evaluation was carried out with the participation of other members of the Company's management. Based upon their evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures were not effective. Controls were not effective primarily because of failure to file timely reports and in the course of performing their work, our independent auditors determined there were numerous adjustments in various areas due to a lack of resources devoted to the accounting and financial reporting function.

The Company's internal control over financial reporting is a process designed by, or under the supervision of, the Certifying Officers and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Company's assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Company's financial statements in accordance with generally accepted accounting principles, and that the Company's receipts and expenditures are being made only in accordance with the authorization of the Company's Board of Directors and

management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on its financial statements. There has been no change in the Company's internal control over financial reporting that occurred in the quarter ended December 31, 2006, that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.
