Earnings Release for the Fiscal Year Ended March 31, 2011

1. Information on Consolidated Results

(1) Operating Results

i. Business Overview

As Japan's mobile telecommunications market continues to mature in line with the rise in cellular penetration rate, competition among operators remains intense in such areas as acquisition of subscribers and further improvement of service offerings.

Under these market conditions, we developed our new corporate vision "Pursuing Smart Innovation: HEART" with the aim of achieving further growth and delivering new value to society.

In the fiscal year ended March 31, 2011, based on our medium-term action plan "Change and Challenge", we continued to promote various measures aimed at improving customer satisfaction including, among other things, the enrichment of product lineup, improvement of billing plans and enhancement of after-sales support, which earned us excellent reviews from external research organizations. Positioning this fiscal year as the first year of the execution phase to realize the goals of our "Challenge" programs, we worked to further spread smartphones, launched a new LTE*-based communications service "Xi" (pronounced crossy) and implemented various other measures to respond to the diverse needs of customers. Also, we continued to streamline costs through initiatives such as the reduction of network-related costs and general expenses by measures such as integrating our call centers.

Following the Great East Japan Earthquake on March 11, 2011, some 6,700 base station equipment became temporarily inoperable due to failure of base station facilities, disruption of commercial power supply and/or transmission lines and other reasons. Immediately after the earthquake, we established Disaster Countermeasure Offices in our Tokyo headquarters and the Tohoku Regional Office, and with the help of other NTT Group companies and construction companies, mobilized a total of some 4,000 people to restore our mobile communications services as quickly as possible through the restoration of transmission lines, the deployment of mobile base station vehicles and power supply vehicles, and other measures.

For the fiscal year ended March 31, 2011, with respect to our cellular services revenues, although voice revenues decreased by ¥198.3 billion from the previous fiscal year due to a decline in voice ARPU, packet communications revenues increased by ¥106.0 billion as a result of our efforts to boost packet usage and expand the uptake of packet flat-rate services. Other revenues grew by ¥62.3 billion owing mainly to an increase in the subscriptions to "Mobile Phone Protection & Delivery Service". Equipment sales revenues dropped by ¥30.1 billion primarily due to a decrease in the wholesale price per unit. Consequently, we recognized operating revenues of ¥4,224.3 billion (a decrease of ¥60.1 billion from the previous fiscal year). Operating expenses declined by ¥70.6 billion from the previous fiscal year to ¥3,379.5 billion as a result of a decrease in network-related costs achieved through efficient use of capital expenditures and other ongoing cost-cutting efforts. As a result of the foregoing, we recorded an operating income of ¥844.7 billion (an increase of ¥10.5 billion from the previous fiscal year). Income before income taxes was ¥835.3 billion and net income attributable to NTT DOCOMO, INC. was ¥490.5 billion.

* LTE (Long Term Evolution) is a next-generation mobile communications standard developed as an advancement of the third-generation (3G) mobile phone system.

Notes: 1. The information in this earnings release is unaudited.

2. Amounts in this earnings release are rounded off.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011**

Consolidated results of operations for the fiscal year ended March 31, 2010 and 2011 were as follows:

<Results of operations>

	Billions of yen			
	Year ended March 31, 2010	Year ended March 31, 2011	Increase (Decrease)	
Operating revenues	¥ 4,284.4	¥ 4,224.3	¥ (60.1)	(1.4)%
Operating expenses	3,450.2	3,379.5	(70.6)	(2.0)
Operating income	834.2	844.7	10.5	1.3
Other income (expense)	1.9	(9.4)	(11.3)	
Income before income taxes	836.2	835.3	(0.8)	(0.1)
Income taxes	338.2	337.8	(0.4)	(0.1)
Equity in net income (losses) of affiliates	(0.9)	(5.5)	(4.7)	(546.5)
Net income	497.1	492.0	(5.1)	(1.0)
Less: Net (income) loss attributable to noncontrolling interests	(2.3)	(1.5)	0.8	35.2
Net income attributable to NTT DOCOMO, INC.	¥ 494.8	¥ 490.5	¥ (4.3)	(0.9)%
EBITDA margin*	36.6%	37.1%	0.5 point	
ROCE before tax effect*	16.3%	16.1%	(0.2)point	
ROCE after tax effect*	9.7%	9.5%	(0.2)point	

* EBITDA and EBITDA margin, as we use them in this earnings release, are different from EBITDA as used in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definitions of EBITDA, EBITDA margin, ROCE before tax effect and ROCE after tax effect, see 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 36.

Taxes and public dues	38.9	38.7	(0.2)	(0.6)
Total operating expenses	¥ 3,450.2	¥ 3,379.5	¥ (70.6)	(2.0)%

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****ii. Segment Results****Mobile phone business**

As of March 31, 2011, the total number of our cellular services subscriptions was 58.01 million, posting a 1.93 million increase in comparison to the number as of March 31, 2010, and our full-year cellular churn rate was 0.47%. The aggregate number of subscriptions to Fami-wari MAX 50 and other MAX discount programs introduced in August 2007 reached approximately 36.50 million, while the number of subscriptions to the Value Plan launched in November 2007 grew to approximately 41.30 million as of March 31, 2011. Although our packet ARPU increased in comparison to the previous fiscal year, due to the impacts of an expanded uptake of Value Plan and other factors, our aggregate cellular ARPU decreased 5.2% from the previous fiscal year to ¥5,070.

With regard to equipment sales, both equipment sales revenues and cost of equipment sold recorded a decrease compared to the previous fiscal year primarily due to a decline in purchase and wholesale price per unit.

As a result of the foregoing, operating revenues and operating income from mobile phone business for the fiscal year ended March 31, 2011, were ¥4,090.7 billion (a decrease of ¥77.0 billion from the previous fiscal year) and ¥856.7 billion (an increase of ¥11.1 billion from the previous fiscal year), respectively.

A summary of the specific initiatives implemented during the fiscal year ended March 31, 2011, is provided below:

<<No.1 Customer Satisfaction Ranking>>

Now that the Japanese mobile telecommunications market has entered a period of maturation, we have moved ahead with our business transformation programs from a customer-centric perspective in accordance with our Change and Challenge action plan, ensuring a thoroughly hands-on approach to serving customers and uniting the forces of the entire corporate group. We have constantly listened to the voices of our customers through various channels such as docomo Shops and call centers, and strived to respond to them in a steadfast manner. As a consequence, we were awarded the No. 1 ranking in the 2010 Japan Mobile Phone Service StudySM, a consumer satisfaction survey conducted by J.D. Power Asia Pacific*1.

We also received the highest marks among the mobile operators for our enterprise offerings in the 2010 Japan Business Mobile Phone Service StudiesSM by J.D. Power Asia for two consecutive years*2. In addition, we were awarded the highest ranking in the Nikkei BP Consulting customer satisfaction survey of mobile data device users*3 for two consecutive years as well.

We were highly evaluated by a broad base of both consumer and enterprise users in various categories including after-sales support and call quality. However, we are determined not to be content with these achievements, and we are committed to continuing our all-out efforts to achieve further improvement in customer satisfaction.

*1: J. D. Power Asia Pacific 2010 Japan Mobile Phone Service StudySM. Study results were based on responses obtained from 7,500 mobile phone users residing in Japan during the period between late July and August 2010. <http://www.jdpower.co.jp/>

*2: J. D. Power Asia Pacific 2009-2010 Japan Business Mobile Telephone/PHS Service Customer Satisfaction Index StudySM. The study results were based on 3,222 responses from individuals responsible for supervising or deciding upon telephone services at 2,345 businesses with 100 or more employees. (Each respondent evaluated up to two mobile telephone/PHS providers.) <http://www.jdpower.co.jp/>

*3: Nikkei BP Consulting Mobile data devices customer satisfaction survey. Results were based on responses to a web-based customer satisfaction survey of 1,600 data device users, conducted between March 10 and March 15, 2010. <http://consult.nikkeibp.co.jp/consult/release/mobile100525.html>

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011**

<<Spread of Smartphones>>

With the diffusion of packet flat-rate services, smartphones have been rapidly growing popular as a mobile device which users can enjoy the Internet, music or videos on large screens, or add various applications developed worldwide. To address the diversifying demands of smartphone users, we have enriched our smartphone lineup by releasing models such as Xperia™*1 and GALAXY S, and implemented the following measures:

In conjunction with the release of Xperia™ on April 1, 2010, we created the docomo market portal for smartphones and started offering a wide array of content and applications that can be used on our smartphones.

Also, in September 2010, to improve our customers convenience, we launched the sp-mode service and ISP smartphones that allows users to carry the same i-mode mail address after migrating to smartphones. In addition, we implemented various other measures including, among other things, the introduction of the Osaifu-Keitai electronic wallet capabilities on FeliCa-enabled smartphones and transplanting to smartphones the docomo map navi navigation service and other services previously accessible only via i-mode.

In addition, we introduced the Monthly Support program in March 2011. Under this program, customers with new smartphones will be given certain levels of discounts, which will vary by each model, on their monthly bills for up to 24 months.

As a result of these actions, the number of smartphones sold during the fiscal year ended March 31, 2011, increased significantly from the previous fiscal year to over 2.5 million units. The total number of sp-mode subscribers as of March 31, 2011, was 2.09 million.

*1: Xperia is a trademark or registered trademark of Sony Ericsson Mobile Communications AB.

*2: ISP (Internet Service Provider) is a service that provides access to the Internet.

<<Launch of Xi Service>>

On December 24, 2010, we launched the next-generation LTE service featuring high-speed, large-capacity and low-latency transmission under a new service brand, Xi. As of March 31, 2011, the total number of Xi base stations installed in the Tokyo/Osaka/Nagoya regions has grown to over 1,000. Customers who signed up for Xi are now enjoying comfortable data access at higher transmission speeds. By the end of March 2012, we plan to roll out a total of some 5,000 Xi base stations in prefectural capital-size cities across Japan to further expand areas in which users can enjoy comfortable data access.

For data access via Xi, we introduced dedicated billing plans Xi Data Plan and Xi Data Plan Ninen. The latter is a time-binding contract that offers cheaper monthly rates compared to the former to customers committing to a two-year subscription. In view of the limited area coverage in the initial phase, we commenced a special introductory offer Xi Start Campaign to provide subscribers with discounts on monthly charges through April 30, 2012.

Going forward, in addition to enhancing the transmission speeds of our existing services through the use of Xi, we will also aim to create a more comfortable communications environment that can satisfy the needs of our customers by delivering new services that take full advantage of LTE's unique properties such as the distribution of long high-quality videos, tourist guide service using AR technology* and simultaneous translation service.

* AR (Augmented Reality), through the use of computer technology, adds information to the physical reality which users perceive. It differs from virtual reality which presents a world completely created by methods such as computer graphics.

<<Promotion of Packet Usage>>

We implemented the following measures aiming to promote the use of packet communications services:

Integrated previously separate flat-rate packet billing plans for each handset type into Pake-hodai Double to make our billing structure simpler and easier to understand. Also made a downward revision to the maximum monthly charge for users accessing packet communication services via PCs or other external devices.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011**

Introduced new flat-rate plans to cater to diversified needs of customers. Pake-hodai Flat is a full flat-rate plan which provides unlimited access for a flat monthly rate ¥525 cheaper than the maximum monthly rate for smartphone use in our existing Pake-hodai Double plan. Pake-hodai Double 2 is a two-tiered packet flat-rate plan which allows users to use more packets on a pay-as-you-go basis than under the existing two-tiered plan before usage reaches the monthly upper limit.

Launched a special discount campaign targeting users of Flat-rate Data Plan Standard Value, a flat-rate plan for customers using devices including data-only devices and 3G-enabled mobile Wi-Fi* routers on our network, in which the monthly maximum rate is reduced by ¥1,575 for one year after subscription.

Also introduced new flat-rate plans, Flat-rate Data Plan Flat Value, a full flat-rate option in which the monthly maximum rate is set ¥525 cheaper than the Flat-rate Data Plan Standard Value, and Flat-rate Data Plan Standard 2 Value, a two-tiered plan which allows the use of more packets than the Flat-rate Data Plan Standard Value on a pay-as-you-go basis before reaching the monthly upper limit.

Launched Ouen Student Discount campaign targeted at students and their families. Under this campaign, the basic monthly charges of new student subscribers and their family members subscribing to Type Simple Value plan are reduced to ¥390 for up to three years, and the maximum monthly rates for subscribers of smartphones are reduced by ¥525.

Introduced Otayori Photo Plan and Otayori Photo Plan Full as new billing plans for our Otayori Photo digital photo frame service. Also launched Otayori Photo Plan-Wari discount plan, which offers discounts allowing users committing to a two-year subscription to use digital photo frame service starting from a minimum rate of ¥390 per month.

Enriched the content offered in BeeTV, EveryStar and various other services, as measures for further expanding the packet usage of light to medium users of i-mode.

Launched an electronic book service through 2Dfacto online bookstore offered by 2Dfacto, Inc., a joint-venture company established by Dai Nippon Printing Co., Ltd., DOCOMO and CHI Group Co., Ltd.

* Wi-Fi is a registered trademark of the Wi-Fi Alliance.

<<Introduction of New Services>>

Below is a list of new services launched during the fiscal year ended March 31, 2011.

Service name	Overview
sp-mode	An ISP service for smartphones that allows users to carry the same i-mode mail address (@docomo.ne.jp) after migrating to smartphones, and use various other services such as mail containing pictograms and decorations, content payment service, access restriction service and the Disaster Message Board Service, etc.
docomo market (for smartphones)	A portal for docomo smartphones containing a wide array of attractive content and applications. (In addition to recommended applications, users can easily obtain popular content such as news, video, electronic books and games, as well as docomo's original content.)
docomo market (for i-mode)	A content store for i-mode that offers a rich variety of content. An applications store offering applications supplied by individual content developers in addition to high-quality applications provided by businesses. A music store offering approximately 1,000,000 pieces of music in broad categories

A book store offering approximately 20,000 titles of popular comics, novels and practical guides, etc.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011**

Service name	Overview
docomo map navi	A map/navigation service that offers various features to support customer's individual behavior, such as current location map, search of nearby shops/facilities, navigation, driving information, train route finder, etc.
iBodymo	A mobile health-support service, taking advantage of the aspect that a mobile phone is carried around daily, which assists customers to have fun in raising health awareness and improving behavior in their daily lives.
docomo web mail	A service that allows i-mode subscribers to use a dedicated mail addresses (@dwwmail.jp) for free, and view or send/receive emails via browsers of both PCs and mobile phones (In the case of mobile phones, the service can also be used with a special i-appli).
docomo Drive Net	An information delivery service for drivers which provides the latest map data or information on tourist spots, available parking lots, etc., in real time based on the car's current location via DOCOMO's network.
docomo one-time insurance	An insurance service offering four types of coverage (sport/leisure insurance, golfer insurance, domestic travel insurance and overseas travel insurance) that can be subscribed easily from a mobile phone on an as-needed basis only for the required period.
MD+	A free-of-charge membership-based information delivery service for doctors which provides access to medical content such as lectures by leading doctors in Japan and abroad, case studies based on actual clinical application, pharmaceutical information, etc., via PCs and smartphones.
Medical Brain	A membership-based information portal for medical professionals, allowing users to efficiently gather a broad range of information relating to medical care.

<<Enrichment of After-sales Support>>

We have been strengthening our after-sales support with the goal of further improving customer satisfaction. The number of cases handled in our after-sales support activities during the fiscal year ended March 31, 2011, is summarized below:

Field staff dispatch in principle within 48 hours after setting up an appointment with customers requesting coverage improvement, and area quality surveys conducted: approximately 52,000 cases.
 Acceptance of mobile phones in Mobile Phone Checking Service, which provides free basic after-care, including checkups, minor repairs and cleaning at docomo Shops to help customers maintain their mobile phones in the best possible condition: approximately 7 million cases.
 Total number of subscribers to Mobile Phone Protection & Delivery Service, a service which covers handset troubles such as loss, water exposure, and total damage, and delivers a replacement handset (refurbished handset* and new battery pack) with a telephone call from the customer: approximately 32 million.

* Refurbished products are handsets collected from customers that have been repaired, had their covers replaced and undergone quality checks, and then reset to the same state as a new product.

<<Reinforcement of Corporate Marketing>>

We have promoted the following initiatives to propose new values useful for the businesses of our corporate clients:

- Released F-05B handsets equipped with a capability to read commercial bar codes for enterprise users, and F-01B phones equipped with various useful features for business users such as remotely customizable security features.
- Released FOMA ubiquitous module FOMA UM01-HW, which can be incorporated into various devices for packet, voice and SMS services.
- Started a new satellite phone service Widestar II, which provides data communications at lower charges and higher speeds than our conventional Widestar satellite phone service and also started marketing handheld version terminal 01 and maritime/in-vehicle version terminal 01 for Widestar II.
- Launched a new discount service Business Simple, a plan which is simpler and easier to understand compared to various existing discount packages for enterprise users.
- Introduced three types of billing plans (docomo Authentication Plan, docomo One-time Authentication Plan and Client Authentication Plan), which can be subscribed easily by small and medium-sized enterprises subscribing to a limited number of mobile phones, in our remote access service for enterprise users, Business mopera Access Pro. Also introduced Business mopera Access Premium Xi Type in conjunction with the launch of Xi LTE service.
- Started offering Mobile Marketing ASP Service, which realizes CRM leveraging the capabilities of Osaifu-Keitai e-wallet, such as issuing membership certificates and distributing discount coupons.
- Launched simultaneous broadcast service that enables instantaneous information sharing in multiple locations over a wide area using voice, facsimiles and email.
- Started offering Mobile Secure Desktop, a cloud-type service for mobile workers to work safely outside the office using PCs or tablet devices, while preventing the risk of information leakage.

*: CRM (Customer Relationship Management) refers to customer management systems which accumulate and manage customer information and customer correspondence records.

Fiscal Year Ended March 31, 2011

<<Deployment of International Services>>

To allow customers travelling overseas to use our communication services free of any concern, we expanded the areas where our international roaming service is available, increased the number of overseas support counters and introduced flat-rate packet billing plans for overseas roaming users.

The number of countries/regions where international roaming for each service is available (as of March 31, 2011):

Voice/short message service (SMS): 213 countries/regions

Packet communications service: 177 countries/regions

Videophone service: 53 countries/regions

The number of cities where an overseas support counter was established to provide free battery charging service and handle inquiries pertaining to the use of mobile phone grew to 14.

Launched Global Pake-hodai Service for international roaming users, allowing them to use packet communications under a flat-rate billing scheme (billed per day) through an overseas mobile service provider designated by DOCOMO (available in 39 countries/regions as of March 31, 2011) to eliminate worries about their packet communications bill.

Launched Phone Number Storage and Mail Address Storage services to enhance the convenience of customers studying or working abroad for a long period of time, by allowing them to retain their FOMA phone numbers and mail addresses for up to three years.

<<Overseas Business Deployment>>

We have moved ahead with the deployment of our services through investments/alliances and constructed new collaborative partnerships in overseas markets.

The combined subscription count of our Indian partners TTSL^{*1} and TTML^{*2}, in which we own equity stakes, grew to over 85 million following the launch of GSM service under the TATA DOCOMO brand. Through our joint efforts, TTSL became the first Indian private telecom operator to launch commercial 3G service.

net mobile AG, our German-based subsidiary engaged in mobile content distribution platform business, started offering MANGA MODE, a mobile comic distribution service on a mobile phone portal that can be used commonly by the users of major mobile operators in France.

Entered into a business collaboration agreement with China's largest mobile operator, China Mobile Communications Corporation, and leading South Korean telecom operator, KT Corporation, to explore opportunities for collaboration in areas such as network technologies and common platforms.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****Miscellaneous businesses**

<<Promotion of Credit Business>>

We have worked to expand the adoption of our credit brand **iD** and our credit service **DCMX** compatible with **iD** which can be used as **Osaifu-Keitai** electronic payment solutions.

With respect to our credit brand **iD**, we have worked to increase the member stores where **iD** credit payment can be used, especially in places frequently visited by users in their everyday activities. We completed the roll-out of **iD** payment terminals in all outlets of Seven-Eleven and Mini-Stop convenience store chains nationwide by July 2010 and January 2011, respectively. Meanwhile, we started offering **iD** service for smartphones equipped with FeliCa IC chips from February 2011. As a result, the total number of **iD** reader terminals installed reached 510,000 units as of March 31, 2011 (an increase of 70,000 units compared to March 31, 2010), and the total number of **iD** subscribers reached 15.84 million as of March 31, 2011. We also strived to increase the number of subscriptions and boost the usage of our mobile credit payment service, **DCMX**, by revising its loyalty point program, increasing the number of tie-up stores where users can earn **docomo Points**, expanding the number of virtual stores on our Internet shopping site **DCMX docomo Point mall** and conducting various other promotional campaigns. As a result, the combined subscriptions to the **DCMX** services reached 12.32 million as of March 31, 2011 (an increase of 1.06 million from March 31, 2010).

<<Others>>

In addition to the above-mentioned initiatives, we worked to increase our revenues through our home shopping service provided mainly through TV media, our mobile advertisement business primarily on i-mode sites, development and sales of various system solutions leveraging our mobile techniques and know-how, provision of high-speed Internet access service for hotel facilities and other measures mainly in the Asia-Pacific region.

In September 2010, our subsidiary, Multimedia Broadcasting, Inc.*, received the approval from the Ministry of Internal Affairs and Communications of Japan to become the sole commissioned carriage operator for providing nationwide multimedia broadcasting services for mobile devices. In January 2011, Japan Mobilecasting, Inc. was spun off as the operating company providing commissioned multimedia broadcasting services and started preparations toward the service launch scheduled in April 2012.

As a result, operating revenues from miscellaneous businesses for the fiscal year ended March 31, 2011, were ¥133.6 billion (an increase of ¥16.9 billion from March 31, 2010). Operating expenses were ¥145.6 billion (an increase of ¥17.5 billion) and operating loss from miscellaneous businesses was ¥12.0 billion.

* On April 1, 2011, Multimedia Broadcasting, Inc. changed its name to mmbi, Inc.

Results of operations are as follows:

<Results of operations>

	Billions of yen			
	Year ended March 31, 2010	Year ended March 31, 2011	Increase (Decrease)	
Operating revenues from miscellaneous businesses	¥ 116.7	¥ 133.6	¥ 16.9	14.5%
Operating income (loss) from miscellaneous businesses	(11.4)	(12.0)	(0.6)	(5.4)

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****iii. Trend of Capital Expenditures**

Below summarizes the principal capital investments made in the fiscal year ended March 31, 2011.

<<Capital Expenditures for Telecommunications Facilities>>

We continued further quality enhancements of FOMA service areas meticulously responding to the requests from customers.

We also continually reinforced our network facilities to provide a comfortable communications environment to users of large-capacity content, and accommodate the growth in traffic resulting from the expanded uptake of smartphones, etc.

As a result of these measures, the total number of FOMA outdoor and indoor base stations installed as of March 31, 2011 grew to 62,800 and 29,200, respectively (an increase of 7,100 units and 4,400 units, respectively, from March 31, 2010). For Xi service, we completed the installation of 700 outdoor and 300 indoor base stations.

<<Initiatives Aimed for Efficiency and Cost Reduction>>

By facilitating the conversion into an IP-based network, we streamlined our network structure and pursued the integration and/or capacity expansion of our existing equipment, while continually working toward the reduction of equipment procurement costs.

We also constructed our service areas and achieved quality improvement in an efficient manner, using the optimal equipment among various options taking into consideration the surrounding environmental conditions, traffic volume and other factors.

As a result of an efficient implementation of the above measures, the total capital expenditures for the fiscal year ended March 31, 2011, decreased by 2.6% from the previous fiscal year to ¥668.5 billion.

<Capital expenditures>

	Billions of yen				
	Year ended March 31, 2010	Year ended March 31, 2011		Increase (Decrease)	
Total capital expenditures	¥ 686.5	¥ 668.5	¥	(18.0)	(2.6)%
Mobile phone business	556.8	520.8		(36.1)	(6.5)
Other (including information systems)	129.7	147.7		18.0	13.9

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****iv. Impact of the Great East Japan Earthquake and Restoration Efforts**

<<Damages of the Great East Japan Earthquake>>

Following the Great East Japan Earthquake on March 11, 2011, some 6,700 base station equipment became inoperable due to physical damages to these facilities, disruption of commercial power supply and transmission lines and other factors. With regard to docomo Shops, in the immediate aftermath of the earthquake, 159 out of 195 shops in the Tohoku region were forced to close temporarily, and a total of 90 shops including those located in the Kanto region were either completely or partially destroyed.

Immediately after the earthquake, we established Disaster Countermeasures Offices in our headquarters and the Tohoku Regional Office to create an organizational structure capable of close collaboration 24 hours a day, and activated the Disaster Message Board Service. In cooperation with other NTT Group companies and construction companies, we have worked to assess the damages and restore our communication facilities as quickly as possible and initiated support activities for disaster victims.

<< Restoration Activities>>

The specific actions undertaken by our group for the restoration of communication facilities and the support for disaster victims are as follows:

Restoration of Communication Facilities

In our efforts toward the restoration of damaged communication facilities, we mobilized a total of some 4,000 people, and deployed approximately 30 mobile base station vehicles, approximately 30 mobile power supply vehicles and approximately 400 units of portable power generators to supply electricity to base stations and other facilities where commercial power supply was disrupted. We also recovered the transmission lines through the use of optical fiber, micro-wireless circuits and satellite circuits, and deployed base stations employing a large zone scheme* on mountaintops and other locations to resume services as quickly as possible. In areas where access was restricted due to the accident at the Fukushima Daiichi Nuclear Power Plant, we used high-performance antennas to transmit signals from outside the 20-km exclusion zone and replaced the transmission lines inside exchange-office buildings within the 20-km exclusion zone. As a result of these efforts, most of the service areas near the nuclear power plant and along major trunk roads in its vicinity were restored, enabling the resumption of FOMA service.

- * Large zone scheme is a method to cover areas normally covered by multiple stations by utilizing a single station.
Initiatives for Securing Means for Communication

To assist the restoration of disaster-stricken areas, we rented to local administrative institutions and installed at evacuation shelters approximately 900 satellite mobile phones, approximately 1,700 mobile phones and approximately 300 tablet devices. We also established approximately 300 stations where mobile phones can be recharged for free using multi-chargers, solar chargers and other means.

Provision of Disaster Message Board Service

We activated the Disaster Message Board Service immediately after the earthquake to provide disaster victims with a means of communication. To allow a greater number of people to use this service, we expanded the areas from which messages can be posted to cover the entire nation within one week after the quake, and also enabled its use through smartphones.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2011

Reopening of docomo Shops

To offer assistance to customers whose mobile phones were damaged or lost due to the disaster, we strived to reopen our docomo Shops as quickly as possible. As of March 31, 2011, approximately 90% of our docomo Shops, excluding those in buildings that were severely damaged or those within the exclusion zone around Fukushima Nuclear Power Plant, have reopened. For customers living in areas near shops which could not resume operations, nearby docomo Shops provided on-site services to answer to their needs.

Provision of Restoration Area Maps

For the three prefectures of Iwate, Miyagi and Fukushima, which suffered the severest damages from the earthquake, we started providing the Restoration Area Maps (Japanese only) on our home page from March 20, 2011, to allow users to confirm on maps such details as areas where FOMA service is available, areas that have been restored or planned to be restored through the use of mobile base station vehicles, locations where satellite mobile phones and free recharging services are available and docomo Shops store information.

Support for Disaster Victims

To support our customers affected by the disaster, we provided various services such as the extension of payment deadlines on phone bills, discounts on handset repair charges and free data restoration service for handsets damaged due to water exposure. In addition, for customers affected by the disaster, we decided to refund the basic monthly fees and other charges for the periods when services were not available.

Launch of Charity Drive Website for Affected Areas, etc.

To support the disaster-stricken areas, we launched a website to collect donations from customers through DOCOMO mobile remittance service, DOCOMO Points and other methods. We have donated ¥780 million, which was collected through March 30, 2011. We have also started accepting donations through the sale of charity applications and content from April 2011, and a total sum of ¥120 million collected by April 13, 2011 was donated. In a separate effort, the Company made a disaster-relief donation of ¥500 million.

As expenses related to the disaster and the above-mentioned restoration and other initiatives, we recorded ¥7.1 billion in operating expenses for the fiscal year ended March 31, 2011. The main items comprising these expenses were losses on disposal of base station and other facilities, personnel and other expenses incurred in response for the disaster.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****v. Prospects for the Fiscal Year Ending March 31, 2012**

As Japan's mobile phone market continues to mature in line with the rise in cellular penetration rate, competition among operators is expected to remain intense in such areas as acquisition of subscribers and further improvement of service offerings.

Under these market conditions, although decline in voice ARPU due to the penetration of Value Plan is projected, operating revenues for the fiscal year ending March 31, 2012 are estimated to be ¥4,230.0 billion, an increase of ¥5.7 billion from the prior fiscal year, primarily because of the projected increase in packet ARPU and equipment sales revenues as a result of our efforts to strengthen sales of smartphones, to accelerate the migration to Xi, and to boost subscribers' packet usage. On the expense side, while recovery operations and enhancements in the disaster prevention system related to the Great East Japan Earthquake and the actions aimed for expanding future revenues and enhancing customer satisfaction are expected to be implemented, operating expense is estimated to be approximately the same level as that of prior fiscal year because we will also promote our various efforts to make our operations efficient. Accordingly, operating income is estimated to be ¥850.0 billion, an increase of ¥5.3 billion from the prior fiscal year.

	Billions of yen			
	Year ended March 31, 2011 (Actual results)	Year ending March 31, 2012 (Forecasts)	Increase (Decrease)	
Operating revenues	¥ 4,224.3	¥ 4,230.0	5.7	0.1%
Operating income	844.7	850.0	5.3	0.6
Income before income taxes	835.3	854.0	18.7	2.2
Net income attributable to NTT DOCOMO, INC.	490.5	502.0	11.5	2.3
Capital expenditures	668.5	705.0	36.5	5.5
Adjusted free cash flows*	589.8	480.0	(109.8)	(18.6)
EBITDA*	1,565.7	1,573.0	7.3	0.5
EBITDA margin*	37.1%	37.2%	0.1 point	
ROCE before tax effect*	16.1%	15.9%	(0.2)point	
ROCE after tax effect*	9.5%	9.4%	(0.1)point	

* EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of free cash flows excluding irregular factors and changes in investments for cash management purposes, EBITDA, EBITDA margin, ROCE before tax effect and ROCE after tax effect, see 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 36.

The financial forecasts for the fiscal year ending March 31, 2012 are based on the forecasts of the following operation data:

	March 31, 2011 (Actual results)	March 31, 2012 (Forecasts)	Increase (Decrease)	
Cellular services (million subscriptions)	58.01	59.96	1.95	3.4%

Cellular (Xi) services	0.03	1.03	1.00	
Cellular (FOMA) services	56.75	58.93	2.18	3.8
Cellular (mova) services	1.24		(1.24)	
i-mode services	48.14	44.44	(3.70)	(7.7)
Aggregate ARPU (Xi + FOMA + mova) (yen) ¥	5,070	¥ 4,890	¥ (180)	(3.6)
Voice ARPU	2,530	2,220	(310)	(12.3)
Packet ARPU	2,540	2,670	130	5.1

Notes: 1. Number of i-mode subscriptions includes numbers of cellular (FOMA) and cellular (mova) i-mode subscriptions.

2. See 5. (2) Definition and Calculation Methods of ARPU and MOU on page 35 for definition and calculation methods.

* The mobile communications market in Japan is characterized by rapid changes in the market environment due to technical innovations, market entry by new competitors and other factors. To respond to such changes, our corporate group may introduce new billing plans or other measures that could potentially have a significant impact on our revenues and income. The timing of introduction of such measures will be decided after comprehensively taking into consideration our operational circumstances and the actions of our competitors, and therefore, is not necessarily decided beforehand. Such measures, depending on the timing of implementation, may significantly affect our results forecasts to be made at the time of our first-half results announcement. Providing such prospects on a half-year basis, therefore, may not be adequate or useful as information to be disclosed to investors. Accordingly, we will provide prospects for the full year only, and report progress vis-à-vis the projected full-year forecasts by disclosing actual results on a quarterly basis.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****(2) Financial Review****i. Financial Position**

	Billions of yen			
	March 31, 2010	March 31, 2011	Increase (Decrease)	
Total assets	¥ 6,756.8	¥ 6,791.6	¥ 34.8	0.5%
NTT DOCOMO, INC. shareholders equity	4,635.9	4,850.4	214.6	4.6
Liabilities	2,094.3	1,914.0	(180.3)	(8.6)

Debt ratio (3)	11.6%	8.1%	(3.5)point	

Notes: (1) Shareholders equity ratio = NTT DOCOMO, INC. shareholders equity / Total assets

(2) Market equity ratio = Market value of total share capital** / Total assets

(3) Debt ratio = Interest bearing liabilities / (NTT DOCOMO, INC. shareholders equity + Interest bearing liabilities)

* See 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 36.

** Market value of total share capital = Closing share price multiplied by the number of outstanding shares (excluding treasury stock) as of the end of the fiscal period

ii. Cash Flow Conditions

For the year ended March 31, 2011, net cash provided by operating activities was ¥1,287.0 billion, an increase of ¥104.2 billion (8.8%) from the prior fiscal year, mainly due to an increase in cash inflow resulting from collections of installment receivables for handsets and a decrease in the payment of income taxes.

Net cash used in investing activities was ¥455.4 billion, a decrease of ¥708.6 billion (60.9%) from the prior fiscal year. This was mainly due to an increase of proceeds from redemption of short-term investments, an increase of proceeds from redemption of short-term bailment for consumption to a related party and a decrease in purchases of non-current assets, which were partially offset by an increase in purchases of short-term investments of more than three months for cash management purpose.

Net cash used in financing activities was ¥422.0 billion, an increase of ¥161.0 billion (61.7%) from the prior fiscal year. This was mainly due to an increase in repayment of long-term debt and an increase in dividends paid.

The balance of cash and cash equivalents was ¥765.6 billion as of March 31, 2011, an increase of ¥407.8 billion (114.0%) from the prior fiscal year end.

	Billions of yen			
	Year ended March 31, 2010	Year ended March 31, 2011	Increase (Decrease)	
Net cash provided by operating activities	¥ 1,182.8	¥ 1,287.0	¥ 104.2	8.8%

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****(3) Profit Distribution****i. Basic Policies for Profit Distribution**

Believing that providing adequate returns to shareholders is one of the most important issues in corporate management, the Company plans to pay dividends by taking into account its consolidated results and consolidated dividend payout ratio based on the principle of stable dividend payments, while striving to strengthen its financial position and secure internal reserves. The Company will also continue to take a flexible approach regarding share repurchases. The Company intends to keep the repurchased shares as treasury stock and in principle to limit the amount of such treasury stock to approximately 5% of its total issued shares, and will consider retiring any treasury stock held in excess of this limit in a lump around the end of the fiscal year or at other appropriate times. According to the resolution of the board of directors, the Company repurchased 138,141 shares of its own common stock for an aggregate price of ¥20.0 billion during the fiscal year ended March 31, 2011 and the Company retired 140,000 of its treasury stock (approximately 0.3% of its common stock outstanding before the retirement) as of March 31, 2011.

In addition, the Company will allocate internal reserves to active research and development efforts, capital expenditures and other investments in response to the rapidly changing market environment. The Company will endeavor to boost its corporate value by introducing new technologies, offering new services and expanding its business domains through alliances with new partners.

ii. Dividend

The Company paid ¥2,600 per share as an interim dividend for the six months ended September 30, 2010 and plans to pay a year-end dividend of ¥2,600 per share, resulting in a total annual dividend of ¥5,200 per share for the year ended March 31, 2011.

iii. Prospect for the next fiscal year

The Company expects to pay a total annual dividend of ¥5,600 per share for the year ending March 31, 2012, consisting of an interim dividend of ¥2,800 and a year-end dividend of ¥2,800 per share.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****(4) Special Note Regarding Forward-Looking Statements**

This earnings release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as the expected number of subscriptions, and the expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this earnings release were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

- (1) Changes in the business environment in the telecommunications industry, such as intensifying competition from other service providers, businesses or other technologies caused by Mobile Number Portability, new market entrants and other factors, or the expansion of the areas of competition could limit our acquisition of new subscriptions and retention of existing subscriptions, or may lead to diminishing ARPU or an increase in our costs and expenses.
- (2) Current and new services, usage patterns, and sales schemes introduced by our corporate group may not develop as planned, which could affect our financial condition and limit our growth.
- (3) The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations.
- (4) Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction.
- (5) Other mobile service providers in the world may not adopt the technologies that are compatible with those used by our corporate group's mobile communications system on a continual basis, which could affect our ability to sufficiently offer international services.
- (6) Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.
- (7) As electronic payment capability and many other new features are built into our cellular phones/devices, and services of parties other than those belonging to our corporate group are provided through our cellular handsets/devices, potential problems resulting from malfunctions, defects or loss of handsets/devices, or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations.
- (8) Social problems that could be caused by misuse of our products and services may adversely affect our credibility or corporate image.
- (9) Inadequate handling of confidential business information including personal information by our corporate group, contractors and others, may adversely affect our credibility or corporate image.
- (10) Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit

our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others.

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2011

- (11) Events and incidents caused by natural disasters, social infrastructure paralysis such as power shortages, proliferation of harmful substances, terror or other destructive acts, the malfunctioning of equipment or software bugs, deliberate incidents induced by computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause failure in our networks, distribution channels and/or other factors necessary for the provision of service, disrupting our ability to offer services to our subscribers, and may adversely affect our credibility and/or corporate image, or lead to a reduction of revenues and/or increase of costs.
 - (12) Concerns about adverse health effects arising from wireless telecommunications may spread and consequently may adversely affect our financial condition and results of operations.
 - (13) Our parent company, NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT), could exercise influence that may not be in the interests of our other shareholders.
- * Names of companies, products, etc., contained in this release are the trademarks or registered trademarks of their respective organizations.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2011

2. Condition of the Corporate Group

NTT DOCOMO, INC. primarily engages in mobile telecommunications services as a member of the NTT group, with NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT) as the holding company.

The Company, its 127 subsidiaries and 27 affiliates constitute the NTT DOCOMO group (DOCOMO group) and operate business.

The segments of the DOCOMO group and the corporate position of each group company are as follows:

[Segment Information]

Business Segment	Main Business Areas
Mobile phone business	Cellular (Xi, FOMA, and mova) services, packet communications services, international services, satellite mobile communications services, and sales of handsets and equipment for each service, etc.
Miscellaneous businesses	Credit business, home shopping services, mobile advertisement business, high-speed Internet access service for hotel facilities and other measures, and other miscellaneous businesses

Note: mova services will be terminated at the end of March 2012.

[Position of Each Group Company]

- (1) The Company engages in mobile phone and other businesses in Japan.
- (2) 26 subsidiaries of the Company, each of which is entrusted with certain services by the Company, operate independently to maximize their expertise and efficiency. These subsidiaries are entrusted with part of the services provided by, or give assistance to, the Company.
- (3) There are 101 other subsidiaries and 27 affiliates, including, among others, entities engaged in the research of overseas mobile communications markets and technologies and overseas units established for the purpose of global business expansion or new business deployment.

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2011

The following chart summarizes the description above:

Note: On April 1, 2011, Multimedia Broadcasting, Inc. changed its name to mmbi, Inc. As of March 31, 2011

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****3. Management Policies****(1) Basic Management Policies**

Under the corporate philosophy of creating a new world of communications culture, our corporate group aims to contribute to the realization of a rich and vigorous society by reinforcing our core business with a focus on popularizing the FOMA and Xi services, and promoting mobile multimedia services by offering services that are useful for customers' daily lives and businesses. We will also seek to maximize our corporate value in order to be greatly trusted and highly valued by our valued shareholders and customers.

(2) Target Management Indicators

As Japan's mobile telecommunications market continues to mature, our group regards EBITDA margin as an important management indicator from the perspective of profitability, to further enhance its management effectiveness. We also consider ROCE an important management indicator in terms of efficiency in its invested capital (NTT DOCOMO, INC. shareholders' equity + Interest bearing liabilities). The group will exert its utmost efforts to maintain EBITDA margin of at least 35% and achieve ROCE of at least 20% and attempt to maximize its corporate value.

Notes:

$$\text{EBITDA margin} = \text{EBITDA} / \text{Operating revenues}$$

$$\text{EBITDA} = \text{Operating income} + \text{Depreciation and amortization} + \text{Losses on sale or disposal of property, plant and equipment}$$

$$\text{ROCE} = \text{Operating income} / (\text{NTT DOCOMO, INC. shareholders' equity} + \text{Interest bearing liabilities})$$

NTT DOCOMO, INC. shareholders' equity and interest bearing liabilities are the average of the amounts at the end of the current fiscal year and the previous fiscal year.

(3) Medium- and Long-Term Management Strategies

We developed an action plan, DOCOMO's Change and Challenge to Achieve New Growth, which covers initiatives to be implemented between the fiscal year ended March 31, 2009 and fiscal year ending March 31, 2013.

For more details concerning the action plan, please see our earnings release for the fiscal year ended March 31, 2009 (announced on April 28, 2009). No changes have been made to the descriptions contained in the said earnings release, which can be obtained via the following URL:

(NTT DOCOMO home page) <http://www.nttdocomo.co.jp/english/corporate/ir/index.html>

(4) Issues to be Addressed by the Group

Based on the aforesaid action plan, DOCOMO's Change and Challenge to Achieve New Growth, in the fiscal year ending March 31, 2012, we will focus on the following priority items to make progress toward our goal to create a safe and secure society which is rich and comfortable for all, and also contribute to its continuous development.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****<<DOCOMO's Change>>**

As part of the Change programs, we have reviewed every aspect of our business operations from products/services to customer care to network construction, with the aim of enhancing the satisfaction of our customers. While we received the No. 1 ranking in customer satisfaction in the fiscal year ended March 31, 2011, we are determined not to be content with the present achievements. We, joining the forces of the entire group, are committed to continuing our endeavors to further improve customer satisfaction.

<<DOCOMO's Challenge>>

With respect to the Challenge programs, we position the fiscal year ending March 31, 2012 as the second year of the execution phase of our challenges, to provide services that are tailored to the lifestyle and individual needs of each customer and to contribute to the sustained development of society by providing solutions to pressing issues. We will promptly and steadily implement the following actions:

Expansion of packet usage: We will aim to increase packet ARPU by promoting subscriptions to flat-rate billing plans for packet access, accelerating subscribers' migration to smartphones, acquiring more users through subscriptions to second mobile devices (e.g., data communications or tablet devices), and proliferating the use of video services.

Proliferation of smartphones: We will move ahead with our endeavors to offer attractive devices, transplant to smartphones i-channel, i-concier and various other services that have so far been provided only on i-mode phones, and introduce new services that take advantage of the unique properties of smartphones. We will also put in place organizational structures and systems, etc., to respond to the full-scale proliferation of the smartphone market.

Roll-out of the Xi service and network evolution: To further enrich the Xi service launched in December 2010, we will move ahead with the development of network, devices and services to establish a foundation for promoting a wide array of advanced mobile broadband services. We will also work to further expand network coverage.

Promotion and further advancement of service personalization: We will further advance i-concier and introduce this service on smartphones to support the daily life of each customer, and offer a rich portfolio of content tailored to their varying needs or usage opportunities.

Deployment of social-support services: We will continually strive to create new businesses with the full-scale launch of social-support services in fields such as environment, health management and finance, while actively seeking alliances with external partners to secure new revenue sources.

Introduction and promotion of converged services: We will aim to provide more convenient services which are comfortable to use, such as the Otayori Photo Service, docomo Drive Net navigation and electronic books, and to further expand machine-to-machine businesses which connect devices not incorporated into a network.

Further advancement of devices: We will strengthen the lineup of our smartphones and other products to cater to the needs of broader customer segments. We also plan to add more variety to the lineup of Xi-enabled mobile devices.

Collaboration of devices and networks: We will aim to realize advanced services by optimizing the allocation of functions between devices and networks, leveraging the high-speed, large-capacity and low-latency properties of LTE network.

Basic research aimed at new value creation: We will work on the verification of our research for creating businesses that contribute to the development of society and industries, and aim to realize a richer society that takes advantage of the characteristics of mobile communications. In particular, we will further advance our joint research on Mobile Spatial Statistics.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2011

Expansion of international businesses: We will strive to expand the revenues streams from international businesses by further enriching our international services and enhancing our overseas service counters. We will also seek revenue expansion and sustained growth through overseas business deployment by allying with partners.

Domestic investments and alliances: We will endeavor to expand revenues and achieve sustained growth by creating new businesses and reinforcing our core business through the pursuit of investments and alliances in Japan. We will also drive innovation jointly with our partners and aim to create new values.

With respect to our actions in response to the Great East Japan Earthquake, in order to restore area quality to the pre-quake standards as quickly as possible, we are continuing our efforts in the restoration of communication and other facilities. Furthermore, taking this as a lesson, we are laying out a new disaster preparedness measure to realize swift responses in the event of a disaster. These measures include preventing interruption of communication services around major facilities, such as prefectural and municipal government offices across the country, and preparing responses in the case of interruptions in communications services affecting large areas and for long periods. We will continue to work towards providing our customers with safety and peace of mind.

Improvement of cost efficiency: To solidify our financial standing for sustained growth, we will optimize our nationwide operations and streamline our network- and sale-related costs.

Corporate Social Responsibility (CSR): Adhering to our CSR message, We connect people to people, and people to their worlds. We open the door to the future, we will listen to each individual customer and to society, and will drive innovation toward the future to create abundance and convenience in life and culture. Specifically, we will undertake various actions focusing on the four key areas of the individual customer, consistent quality, safety and security and environmental protection.

Operating income and return to shareholders: We will aim to achieve ¥850.0 billion in operating income for the fiscal year ending March 31, 2012, and endeavor to continue stable dividend payments.

Corporate governance: By establishing and operating an internal control system designed for lawful business conduct, we will continue to ensure compliance and risk management on all fronts of our group, and work to earn the trust and confidence of all stakeholders.

(6) Notes to Consolidated Financial Statements**i. Segment Information**

Segment information for the fiscal years ended March 31, 2010 and 2011 is as follows:

Year ended	Millions of yen			
	Mobile phone business	Miscellaneous businesses	Corporate	Consolidated
March 31, 2010				
Operating revenues	¥ 4,167,704	¥ 116,700		¥ 4,284,404
Operating expenses	3,322,064	128,095		3,450,159
Operating income (losses)	¥ 845,640	¥ (11,395)		¥ 834,245
Assets	¥ 4,949,025	¥ 259,283	¥ 1,548,467	¥ 6,756,775
Depreciation and amortization	¥ 691,851	¥ 9,295		¥ 701,146
Capital expenditures	¥ 556,829		¥ 129,679	¥ 686,508

Year ended	Millions of yen			
	Mobile phone business	Miscellaneous businesses	Corporate	Consolidated
March 31, 2011				
Operating revenues	¥ 4,090,659	¥ 133,614		¥ 4,224,273
Operating expenses	3,233,925	145,619		3,379,544
Operating income (losses)	¥ 856,734	¥ (12,005)		¥ 844,729
Assets	¥ 4,843,925	¥ 286,338	¥ 1,661,330	¥ 6,791,593
Depreciation and amortization	¥ 682,029	¥ 11,034		¥ 693,063
Capital expenditures	¥ 520,770	4,759	¥ 142,947	¥ 668,476

The Corporate column in the tables is not an operating segment but is included to reflect the recorded amounts of common assets which cannot be allocated to any specific business segment. Capital expenditures in the Corporate column include certain expenditures related to the buildings for telecommunications purposes and common facilities, which are not allocated to each segment.

DOCOMO does not disclose geographical segments since the amounts of operating revenues generated and long-lived assets owned outside Japan are immaterial.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****ii. Other Footnote****Share Repurchase and Retirement**

The meeting of the board of directors approved stock repurchase plans as follows:

Date of the meeting of the board of directors	Term of repurchase	Approved maximum number of treasury stock to be repurchased (Shares)	Approved maximum budget for share repurchase (Millions of yen)
December 17, 2010	December 20, 2010	160,000	¥ 20,000
	January 28, 2011		

The aggregate number and price of shares repurchased for the fiscal year ended March 31, 2011 were as follows:

Year ended March 31	Shares	Millions of yen
2011	138,141	¥ 20,000

Based on the resolution of the board of directors, DOCOMO retired its own shares held as treasury stock in the fiscal year ended March 31, 2011 as shown in the following table. The share retirement resulted in a decrease of Additional paid-in capital in the same amount as the aggregate purchase price. There were no changes in the number of authorized shares.

Date of the board of directors	Shares	Millions of yen
March 28, 2011	140,000	¥ 24,195

iii. Subsequent Event

There was no significant subsequent event.

* Please refer to 5. (2) Definition and Calculation Methods of ARPU and MOU for the definition of ARPU and MOU, and an explanation of the methods used to calculate ARPU and the number of active subscriptions.

(1) Effective March 3, 2008, FOMA subscription became mandatory for subscription to 2in1 services, and those FOMA subscriptions are included in the number of FOMA subscribers.

(2) Sum of Pake-hodai FLAT, Pake-hodai double/double 2, Pake-hodai simple, Pake-hodai full, Pake-hodai, Biz-hodai, Xi Data Plan Ninen, Xi Data Plan, Flat-rate data plan FLAT (includes Value), Flat-rate data plan Standard/Standard 2 (includes Value),

Flat-rate data plan 64k (includes Value) and Flat-rate data plan HIGH-SPEED (includes Value).

(Number of subscriptions for the fiscal year ended March 31, 2010 includes subscriptions to Biz-hodai double and Biz-hodai simple in addition to the aforementioned plans.)

- (3) Source for other cellular telecommunications operators: Data announced by Telecommunications Carriers Association
- (4) Data are calculated including communication module services subscriptions.
- (5) Sum of new subscriptions, change of subscription from FOMA/mova to Xi, Xi/mova to FOMA, Xi/FOMA to mova, Xi handset upgrade by Xi subscribers, FOMA handset upgrade by FOMA subscribers and mova handset upgrade by mova subscribers
- (6) Data are calculated excluding communication module services-related revenues and communication module services subscriptions, and Phone Number Storage and Mail Address Storage services-related revenues and those subscriptions.
- (7) Inclusive of circuit-switched data communication
- (8) Inclusive of voice communication and packet communication
- (9) Inclusive of DCMX mini subscriptions

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2011****(2) Definition and Calculation Methods of ARPU and MOU****i. Definition of ARPU and MOU**

a. ARPU (Average monthly Revenue Per Unit):

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per subscription basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as basic monthly charges, voice communication charges and packet communication charges, from designated services which are incurred consistently each month, by the number of active subscriptions to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information to analyze the average usage per subscription and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter.

b. MOU (Minutes of Use): Average monthly communication time per subscription.

ii. ARPU Calculation Methodsa. **ARPU (Xi+FOMA+mova)**

Aggregate ARPU (Xi+FOMA+mova) =	Voice ARPU (Xi+FOMA+mova) + Packet ARPU (Xi+FOMA+mova)
------------------------------------	--

Voice ARPU (Xi+FOMA+mova):	Voice ARPU (FOMA+mova) Related Revenues (basic monthly charges, voice communication charges) / No. of active subscriptions (Xi+FOMA+mova)
-------------------------------	---

Packet ARPU (Xi+FOMA+mova):	Packet ARPU (Xi+FOMA+mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active subscriptions (Xi+FOMA+mova)
--------------------------------	--

b. **ARPU (FOMA)**

Aggregate ARPU (FOMA) =	Voice ARPU (FOMA) + Packet ARPU (FOMA)
-------------------------	--

Voice ARPU (FOMA):	Voice ARPU (FOMA) Related Revenues (basic monthly charges, voice communication charges) / No. of active subscriptions (FOMA)
--------------------	--

Packet ARPU (FOMA):	Packet ARPU (FOMA) Related Revenues (basic monthly charges, packet communication charges) / No. of active subscriptions (FOMA)
---------------------	--

c. **ARPU (mova)**

Aggregate ARPU (mova) =	Voice ARPU (mova) + Packet ARPU (mova)
-------------------------	--

Voice ARPU (mova):	Voice ARPU (mova) Related Revenues (basic monthly charges, voice communication charges) / No. of active subscriptions (mova)
--------------------	--

Packet ARPU (mova):	Packet ARPU (mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active subscriptions (mova)
---------------------	--

iii. Active Subscriptions Calculation Methods

Sum of No. of active subscriptions for each month ((No. of subscriptions at the end of previous month + No. of subscriptions at the end of current month) / 2) during the relevant period

Note: Subscriptions and revenues for communication module services and Phone Number Storage and Mail Address Storage services are not included in the ARPU and MOU calculations.

Table of Contents**DOCOMO Earnings Release****Year Ended March 31, 2011****(3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures**

The reconciliations for the year ending March 31, 2012 (forecasts) are provided to the extent available without unreasonable efforts.

i. EBITDA and EBITDA margin

	Billions of yen		
	Year ending March 31, 2012 (Forecasts)	Year ended March 31, 2010	Year ended March 31, 2011
a. EBITDA	¥ 1,573.0	¥ 1,568.1	¥ 1,565.7
Depreciation and amortization	(687.0)	(701.1)	(693.1)
Loss on sale or disposal of property, plant and equipment	(36.0)	(32.7)	(27.9)
Operating income	850.0	834.2	844.7
Other income (expense)	4.0	1.9	(9.4)
Income taxes	(346.0)	(338.2)	(337.8)
Equity in net income (losses) of affiliates	(6.0)	(0.9)	(5.5)
Less: Net (income) loss attributable to noncontrolling interests		(2.3)	(1.5)
b. Net income attributable to NTT DOCOMO, INC.	502.0	494.8	490.5
c. Operating revenues	4,230.0	4,284.4	4,224.3
EBITDA margin (=a/c)	37.2%	36.6%	37.1%
Net income margin (=b/c)	11.9%	11.5%	11.6%

Note: EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of regulation S-K and may not be comparable to similarly titled measures used by other companies.

ii. ROCE after tax effect

	Billions of yen		
	Year ending March 31, 2012 (Forecasts)	Year ended March 31, 2010	Year ended March 31, 2011
a. Operating income	¥ 850.0 503.2	¥ 834.2 493.9	¥ 844.7 500.1

b. Operating income after tax effect $\{=a*(1-\text{effective tax rate})\}$

c. Capital employed	5,330.9	5,113.5	5,262.5
ROCE before tax effect (=a/c)	15.9%	16.3%	16.1%
ROCE after tax effect (=b/c)	9.4%	9.7%	9.5%

Notes: Capital employed = Two period ends average of (NTT DOCOMO, INC. shareholders' equity + Interest bearing liabilities)

Interest bearing liabilities = Current portion of long-term debt + Short-term borrowings + Long-term debt

Effective tax rate:40.8%

iii. Free cash flows excluding irregular factors and changes in investments for cash management purposes

	Billions of yen		
	Year ending March 31, 2012 (Forecasts)	Year ended March 31, 2010	Year ended March 31, 2011
Free cash flows excluding irregular factors and changes in investments for cash management purposes	¥ 480.0	¥ 416.9	¥ 589.8
Irregular factors (1)	(170.0)		
Changes in investments for cash management purposes (2)		(398.0)	241.9
Free cash flows	310.0	18.9	831.7
Net cash used in investing activities	(713.0)	(1,163.9)	(455.4)
Net cash provided by operating activities	1,023.0	1,182.8	1,287.0

Notes: (1) Irregular factors represent the effects of uncollected revenues due to a bank closure at the end of the fiscal period.

(2) Changes in investments for cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months. Net cash used in investing activities for the year ended March, 2010 and 2011 includes changes in investments for cash management purposes. The effect of changes in investments for cash management purposes is not taken into account when we forecasted net cash used in investing activities for the year ending March 31, 2012 due to the difficulties in forecasting such effect.

iv. Market equity ratio

	Billions of yen		
	Year ending March 31, 2012 (Forecasts)	Year ended March 31, 2010	Year ended March 31, 2011

Edgar Filing: NTT DOCOMO INC - Form 6-K

a. NTT DOCOMO, INC. shareholders' equity	¥	4,635.9	¥	4,850.4
b. Market value of total share capital		5,924.7		6,062.6
c. Total assets		6,756.8		6,791.6
Shareholders' equity ratio (=a/c)		68.6%		71.4%
Market equity ratio (=b/c)		87.7%		89.3%

Notes: (1) Market equity ratio for the year ending March 31, 2012 is not forecasted because it is difficult to estimate the market value of total share capital in the future.

(2) Market value of total share capital = Closing share price multiplied by the number of outstanding shares (excluding treasury stock) as of the end of the fiscal period

Forward-Looking Statements This presentation contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as the expected number of subscriptions, and the expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this presentation were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following: (1) Changes in the business environment in the telecommunications industry, such as intensifying competition from other service providers, businesses or other technologies caused by Mobile Number Portability, new market entrants and other factors, or the expansion of the areas of competition could limit our acquisition of new subscriptions and retention of existing subscriptions, or may lead to diminishing ARPU or an increase in our costs and expenses. (2) Current and new services, usage patterns, and sales schemes introduced by our corporate group may not develop as planned, which could affect our financial condition and limit our growth. (3) The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations. (4) Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction. (5) Other mobile service providers in the world may not adopt the technologies that are compatible with those used by our corporate group's mobile communications system on a continual basis, which could affect our ability to sufficiently offer international services. (6) Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect. (7) As electronic payment capability and many other new features are built into our cellular phones/devices, and services of parties other than those belonging to our corporate group are provided through our cellular handsets/devices, potential problems resulting from malfunctions, defects or loss of handsets/devices, or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations. (8) Social problems that could be caused by misuse of our products and services may adversely affect our credibility or corporate image. (9) Inadequate handling of confidential business information including personal information by our corporate group, contractors and others, may adversely affect our credibility or corporate image. (10) Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others. (11) Events and incidents caused by natural disasters, social infrastructure paralysis such as power shortages, proliferation of harmful substances, terror or other destructive acts, the malfunctioning of equipment or software bugs, deliberate incidents induced by computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause failure in our networks, distribution channels and/or other factors necessary for the provision of service, disrupting our ability to offer services to our subscribers, and may adversely affect our credibility and/or corporate image, or lead to a reduction of revenues and/or increase of costs. (12) Concerns about adverse health effects arising from wireless telecommunications may spread and consequently may adversely affect our financial condition and results of operations. (13) Our parent company, NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT), could exercise influence that may not be in the interests of our other shareholders. 1

NTT DOCOMO wishes to express its deepest sympathy to all those affected by the Great East Japan Earthquake. We are currently doing our utmost to bring about an earliest possible restoration of our communication facilities. With the cooperation of various parties concerned, services have been restored in nearly all areas through stopgap repair measures as of April 30, 2011. In the days ahead, we will continually devote our efforts toward full-scale restoration of the damaged facilities. We sincerely hope for an early recovery and extend our best wishes for the health and well being of all those affected by the earthquake. 2

Table of Contents

Damage and Restoration Status #; Restoration Status of Service Areas As of Mar. 12 As of Apr. 26
Principal reasons for service disruption Direct damage from earthquake/tsunami (physical damage/
submersion, etc.) Transmission line disruption due to earthquake (optical fiber, etc.) Battery run-out due
to long hours of power outage Service available 4,900 base station equipments Service interrupted
Restored service areas to disrupted in Tohoku almost pre-earthquake levels 3

Forward-Looking Statements This presentation contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as the expected number of subscriptions, and the expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this presentation were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following: (1) Changes in the business environment in the telecommunications industry, such as intensifying competition from other service providers, businesses or other technologies caused by Mobile Number Portability, new market entrants and other factors, or the expansion of the areas of competition could limit our acquisition of new subscriptions and retention of existing subscriptions, or may lead to diminishing ARPU or an increase in our costs and expenses. (2) Current and new services, usage patterns, and sales schemes introduced by our corporate group may not develop as planned, which could affect our financial condition and limit our growth. (3) The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations. (4) Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction. (5) Other mobile service providers in the world may not adopt the technologies that are compatible with those used by our corporate group's mobile communications system on a continual basis, which could affect our ability to sufficiently offer international services. (6) Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect. (7) As electronic payment capability and many other new features are built into our cellular phones/devices, and services of parties other than those belonging to our corporate group are provided through our cellular handsets/devices, potential problems resulting from malfunctions, defects or loss of handsets/devices, or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations. (8) Social problems that could be caused by misuse of our products and services may adversely affect our credibility or corporate image. (9) Inadequate handling of confidential business information including personal information by our corporate group, contractors and others, may adversely affect our credibility or corporate image. (10) Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others. (11) Events and incidents caused by natural disasters, social infrastructure paralysis such as power shortages, proliferation of harmful substances, terror or other destructive acts, the malfunctioning of equipment or software bugs, deliberate incidents induced by computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause failure in our networks, distribution channels and/or other factors necessary for the provision of service, disrupting our ability to offer services to our subscribers, and may adversely affect our credibility and/or corporate image, or lead to a reduction of revenues and/or increase of costs. (12) Concerns about adverse health effects arising from wireless telecommunications may spread and consequently may adversely affect our financial condition and results of operations. (13) Our parent company, NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT), could exercise influence that may not be in the interests of our other shareholders. 1
