Explanation of Responses:

* If the form is filed by more than one reporting person, *see* Instruction 4(b)(v).

- (1) The Issuer's 401(k) Plan's Issuer stock fund (the "Fund") is invested primarily, but not exclusively, in shares of the Issuer's Common Stock. These units include shares of the Issuer's Common Stock and cash. The ratio of Common Stock and cash fluctuates based on cash held in the Fund, shares held in the Fund and the price of the Common Stock. The reporting person may reallocate investments in these units to alternative investments in the future. The unit value of the Fund is calculated based on the total value of the Fund divided by the outstanding fund units, where the total Fund value is determined based on the total shares held at the end of each day times the closing share price plus the amount of cash held in the Fund. The Fund targets a cash balance equal to 3% of the total Fund value with the remaining 97% held in the Issuer's Common Stock. On May 8, 2014, the reporting person acquired 2,177.5653 units, the Fund's closing unit value was \$11.295147 and the closing share price of the Issuer's Common Stock was \$34.25.
- (2) Each of these units represents a right to receive the cash value of one share of the Issuer's Common Stock upon the reporting person's separation from the Issuer. The reporting person may reallocate investments in these units to alternative investments in the future.
