**Item 1.01 Entry into a Material Definitive Agreement.**

On June 24, 2014, EMC Metals Corp. (the “Company”) entered into a loan agreement with EMC Metals Australia Pty Ltd., and Scandium Investments LLC, pursuant to which the Company secured a US\$2,500,000 loan facility with Scandium Investments LLC, a company owned by a US private investor group. The proceeds of the loan are intended to extinguish all outstanding financial obligations related to a February 2013 negotiated settlement arrangement securing rights to the Nyngan Scandium Project. The Company repaid US\$1.2M in maturing indebtedness, and will use the remaining loan proceeds to pay the final A\$1.4M installment of the Nyngan settlement payment due June 30, 2014.

Key terms of the loan facility are as follows:

18 month, US\$2.5M term loan, principal due on maturity,  
Loan interest rate increases in increments from 4% to 12% p.a. over the loan term,  
Full loan is convertible into an effective 20% joint venture (JV) interest in the Company’s Nyngan & Honeybugle Scandium projects,  
Conversion at lender’s option, or automatically, when the Company satisfies certain conditions including raising US\$3M in equity;  
The 20% JV partner has a carried interest until the Company meets two milestones: (1) filing a Feasibility Study on SEDAR, and (2) receiving a mining license, on either JV property. The JV partner becomes fully participating on development and build costs thereafter,  
The JV partner holds an option to convert 20% JV interest into equivalent value of Company shares, at market values, rather than participate in construction. The JV partner’s option to convert its project interest to Company shares is a one-time option, at such time as the partner becomes fully participating on project costs.

**Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**
