For this purpose, any statements contained in this Form 10-QSB that are not statements of historical fact are forward-looking statements. Without limiting the generality of the foregoing, words such as "may", "anticipation", "intend", "could", "estimate", or "continue" or the negative or other comparable terminology are intended to identify forward-looking statements. AMERICAN RACING CAPITAL, INC. AND SUBSIDIARY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2006
(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Securities and Exchange Commission requirements for interim financial statements. Therefore, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The financial statements should be read in conjunction with the Form 10-KSB for the year ended December 31, 2005 of American Racing Capital, Inc. and subsidiaries (collectively the "Company").

The interim financial statements present the condensed balance sheet, statements of operations and cash flows of the Company. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

The interim financial information is unaudited. In the opinion of management, all adjustments necessary to present fairly the financial position of the Company as of March 31, 2006 and the results of operations and cash flows presented herein have been included in the financial statements. Interim results are not necessarily indicative of results of operations for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has generated significant losses from operations.

In order to continue as a going concern and achieve a profitable level of operations, the Company will need, among other things, additional capital resources and developing a consistent source of revenues. Management's plans include raising additional operating funds from the private placements of shares of its common stock.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Employee stock based compensation - In December 2004, the Financial Accounting Standards Board issued SFAS No. 153, "Accounting for Stock-Based Compensation". SFAS No. 153 amends the transition and disclosure provisions of SFAS No. 123. This statement supersedes APB Opinion No.25, Accounting for Stock Issued to employees, and its related implementation guidance. This Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award--the requisite service period (usually the vesting period). For stock options and warrants issued to non-employees, the Company applies Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock-Based Compensation, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes Option Pricing Model.

The Company issued no stock and granted no warrants or options to employees for compensation for the three months ended March 31, 2006.

3. RELATED PARTY TRANSACTIONS

Accounts payable - related parties - As of March 31, 2006, officers-directors, and their controlled entities, have acquired 34.33% of the outstanding stock of the Company and have made non-interest bearing, due on demand loans to the Company totaling $61,514.
