### Item 2. Management Discussion and Analysis or Plan of Operations

#### Overview

The Company was formed in Florida in August 2001 with the plan of becoming a direct marketing company that developed and marketed premium-quality, premium-priced, branded fitness and exercise equipment to the home fitness equipment market. Our original business plan included marketing products directly to consumers through a variety of direct marketing channels.

As an initial step, the Company licensed the rights to a portable gym subject to patent protection in the United States, which was eligible to be marketed under the trademark Better Buns. It was the Company's intention for this product to be its first direct-marketed product. The Company was unsuccessful in its attempts to raise funding to pursue this goal and in May 2005, received notice that it was in breach of its license agreement for the Better Buns product and that the license was being terminated. Since inception to date, the Company has not generated any revenues through the sale of the Better

Buns product or otherwise, and has not engaged in any marketing activities due to limited funds and resources.

In September 2005, the Company changed focus in connection with the Merger of a wholly-owned subsidiary of the Company and CardioBioMedical Corporation ("CBM"), a Delaware corporation. The subsidiary merged with and into CBM, with CBM as the surviving corporation which became a subsidiary of the Company. The consideration for the merger consisted of 66,232,527 shares of the Company common stock, \$.0001 par value, payable on a one-for-one basis to the consenting shareholders of CBM and a warrant, exercisable beginning January 1, 2008, to purchase 19,500,000 shares of the Company common stock at a purchase price of \$.003 per share payable to the sole warrant holder of CBM in exchange for an equivalent CBM warrant.

The new objective of the Company was to establish a medical device, the Cardio Spectrum Diagnostic System as the standard of care for the detection of early-stage ischemic heart disease. The Company's strategy consisted of (i) attempting to obtain insurance reimbursement for performance of the diagnostic test (ii) establish the device with cardiologists and (iii) finally gain acceptance and use by other physician specialties and hospitals. The Company was unsuccessful in its attempts to obtain insurance reimbursement and marketing CSD.

The Company was not having much success with CardioBioMedical Corporation and on April 21, 2006, the ownership of CardioBioMedical Corporation was exchanged for 66,232,527 shares of Odyssey common stock with the original stockholders. In addition, we changed the name of the Company to Odyssey Oil & Gas, Inc to reflect our new strategy.

On April 21, 2006, we began the realization of our new strategy by purchasing a 10% working interest in oil and gas leases in Texas from Centurion Gold Holdings, Inc., a related public company. We expect to purchase other working interests in oil and gas wells in the future.

The Company intends to expand by acquiring additional working interests in other oil and gas wells. The Company will also explore investments in other energy related enterprises.

On November 21, 2007 we entered into a new phase of our strategy by acquiring a Uranium Prospect known as Springbok Flats in the Bela Bela District of South Africa.

The company intends to expand by acquiring additional Uranium Deposits in the Southern Africa Region.

On January 15, 2008, the Company's well operator determined that the Leslie 1 Well of BBB Area, Wharton Texas, was no longer commercially viable and the well was plugged and abandoned.

### **Critical Accounting Policies and Changes to Accounting Policies**

The Company historically has utilized the following critical accounting policies in making its more significant judgments and estimates used in the preparation of its financial statements:

**Investment in Mining Company..** Through its acquisition of Uranium Acquisition Corp., Inc., the Company owns a 49% interest in MCA Uranium One (Pty) Limited ("MCA"), a South African company which owns a non operating Uranium mine in the Bela Bela district in South Africa. The Company has recently been providing all financial support of MCA, and in accordance with FIN 46R, "*Consolidation of variable Interest Entities*," MCA has been consolidated with the Company.

**Use of Estimates.** In preparing financial statements in conformity with accounting principles generally accepted in the United States, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

**Income Taxes.** The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes ("Statement 109"). Under Statement 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

### **Recent Developments**

During the quarter ended March 31, 2008, Global Investment Group, Inc., a third party, loaned the Company an additional \$10,550 for partial payment of accounts payable due as of December 31, 2007 and other operating

expenses. Such loan bears interest at 10% per annum, are unsecured and are due on demand.

During 2007, the Leslie 1 Well of the BBB Area in Wharton Texas underwent various repairs to try and get the gas to start flowing again. The worst possible scenario occurred when it was discovered that the well had a split casing. All the partners in the well decided to allow Ventum Energy, the wells operator, to try and establish a gas pocket about half way up the well to trap the gas and pump it out. None of the repairs worked out the gas pocket did not materialize. On January 15<sup>th</sup>, 2008 it was decided to close up the well and abandon it.

### **Management's Discussion and Analysis and Plan of Operations**

Unlike the quarter ended March 31, 2007, no revenue was earned from the oil and gas lease during the quarter ended March 31, 2008 as the well was permanently plugged and abandoned in January 2008.

Total operating expenses increased to \$112,831 from \$23,833 for the quarter ended March 31, 2007. The increase was primarily due to consulting fees expensed of \$91,875 relating to the transferring of prospecting rights to MCA Uranium One (Pty) Limited.

Total assets consists of cash of \$667. Total liabilities consists of accounts payable of \$94,570 and amounts due to related party of \$224,286. This related party, Global Investment Group, Inc. funded all operating costs during the quarter and continues to do so. The Company expects this situation to occur for at least the next few years.

The Company intends to commence prospecting and proving up the reserves of Uranium during 2008. Funding is expected to be provided by Global Investment Group, Inc.

The company intends to expand by acquiring additional working interests in other oil and gas wells and to explore investments in other energy related enterprises. These future activities will be dependent upon the Company's ability to raise additional funds. Currently, the Company does not have sufficient cash to continue operations for the next twelve months. Our auditors have raised substantial doubt about the Company's ability to continue as a going concern. Although no assurances can be given, management anticipates that through its interest in the uranium mine, it will produce sufficient revenue and cash flow by the end of the next fiscal year to ensure the Company will continue as a going concern.

### **Off-Balance Sheet Arrangements**

The Company is not a party to any off- balance sheet arrangements.

### **Description of Property**

The Company does not own any real property or any interest in real property and does not invest in real property or have any policies with respect thereto as a part of their operations or otherwise.

Our principal office facility is presently located in space owned by our sole officer. Rent has not been charged for the office space, and it is not expected that rent will be charged in the near-term.

The current mailing address of the Company is 6248 NW 32<sup>nd</sup> Terrace, Boca Raton, FL 33496.

### **Item 3. Controls and Procedures.**

The Company maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) that are designed to ensure that information required to be disclosed in the company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the company's management,

including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Our Chief Executive Officer and Chief Financial Officer performed an evaluation of the effectiveness of the design and operation of the company's disclosure controls and procedures as of the end of the period covered by this quarterly report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the company's disclosure controls and procedures were effective.

Such evaluation did not identify any change in the company's internal control over financial reporting during the quarter ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

**NOTE 1**      **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION**

**(A) Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statements presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

For further information, refer to the financial statements and footnotes included in the Company's Form 10-KSB for the year ended December 31, 2007.

The financial statements for 2008 include the accounts of Odyssey Oil & Gas, Inc. (F/K/A Advanced Sports Technologies, Inc.) and Uranium Acquisition Corp., Inc. (a development stage company) from the date of acquisition of November 20, 2007. All intercompany accounts during the period of consolidation have been eliminated.

On April 21, 2006, the Company exchanged all of its ownership in CardioBioMedical Corporation to the original stockholders. All amounts relating to the operations of CardioBioMedical Corporation have been reflected as discontinued operations. CardioBioMedical Corporation originally merged with Odyssey Oil & Gas, Inc. (F/K/A Advanced Sports Technologies, Inc.) on September 23, 2005.

As a result of the transaction referred to above, Centurion Gold Holdings, Inc., a related public company, owns approximately 55% of the Company.

Odyssey Oil & Gas, Inc. (F/K/A Advanced Sports Technologies, Inc.) is hereafter referred to as the "Company."

**(B) Investment in Mining Company**

Through its acquisition of Uranium Acquisition Corp., Inc., the Company owns a 49% interest in MCA Uranium One (Pty) Limited ("MCA"), a South African company which owns a nonoperating uranium mine in the Bela Bela district in South Africa. The Company has recently been providing all financial support of MCA, and in accordance with FIN 46R, "Consolidation of variable Interest Entities," MCA has been consolidated with the Company.

**(C) Use of Estimates**

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

**(D) Loss Per Share**

**NOTE 6**

**COMMITMENTS AND CONTINGENCIES**

**(A) Purchase Agreement**

During November 2007, the Company signed an agreement under which it acquired 49% of the outstanding shares of Uranium Acquisition Corp., Inc. ("Uranium"), a Florida corporation. The agreement called for the Company to issue 15 million shares of Company stock upon signing of the agreement. The agreement also calls for the Company to issue 30 million shares upon approval of a mining license. In addition, the agreement calls for the Company to deliver 75 million shares of common stock, within 18 months of the signature of the agreement, upon the proving up of uranium reserves being substantially the same as per the "Summary of Geological Area and Write up" presented by Mineral Capital Assets.

The agreement requires each shareholder to provide funding based on the shareholders' percentage of the pro rata amount of shares held based on the future funding requirements of Uranium. If a shareholder does not provide the required loans, the agreement gives the remaining shareholders the right to force the sale of shares held by the non-compliant shareholder. The agreement gives the controlling interest shareholders the right of first refusal on any shares held by the Company at a price to be determined by the shareholders.

**NOTE 7**

**GOING CONCERN**

As reflected in the accompanying financial statements, the Company is in the development stage with an accumulated deficit of \$5,134,238, a working capital deficiency of \$318,189 and net cash used in operations of \$1,125,673 from inception. These factors raise substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Through its acquisition of Uranium Acquisition Corp., Inc. on November 20, 2007, management anticipates that its interest in the uranium mine will produce sufficient revenue and cash flow by the end of the next fiscal year to ensure the Company will continue as a going concern. To date, operating expenses have been mostly funded by related parties (see Note 4).
