INGERSOLL-RAND COMPANY LIMITED
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 – Description of Company

Ingersoll-Rand Company Limited (IR Limited), a Bermuda company, and its consolidated subsidiaries (we, our or the Company) is a leading innovation and solutions provider with strong brands and leading positions within its markets. The Company operates in four business segments: Air Conditioning Systems and Services, Climate Control Technologies, Industrial Technologies and Security Technologies. The Company generates revenue and cash primarily through the design, manufacture, sale and service of a diverse portfolio of industrial and commercial products that include well-recognized, premium brand names such as Club Car®, Hussmann®, Ingersoll Rand®, Schlage®, Thermo King® and Trane®.

Note 2– Basis of Presentation

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments, which include normal recurring adjustments, necessary to present fairly the consolidated unaudited results for the interim periods presented. Certain reclassifications of amounts reported in prior years have been made to conform to the 2008 classification.

The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements included in the Ingersoll-Rand Company Limited Annual Report on Form 10-K for the year ended December 31, 2007.

As discussed in Note 3, the Company acquired Trane Inc. (Trane) at the close of business on June 5, 2008 (the Acquisition Date). As a result of the acquisition, the results of the operations of Trane have been included in the statement of financial position at September 30, 2008 and the consolidated statements of operations and cash flows since the Acquisition Date.

Note 3 – Acquisition of Trane Inc.

At the close of business on June 5, 2008, the Company completed its previously announced acquisition of 100% of the outstanding common shares of Trane. Trane, formerly American Standard Companies Inc., provides systems and services that enhance the quality and comfort of the air in homes and buildings around the world. Trane's systems and services have leading positions in premium commercial, residential, institutional and industrial markets, a reputation for reliability, high quality and product innovation and a powerful distribution network. Trane's 2007 annual revenues were \$7.5 billion.

The Company paid a combination of (i) 0.23 of an IR Limited Class A common share and (ii) \$36.50 in cash, without interest, for each outstanding share of Trane common stock. The total cost of the acquisition was approximately \$9.6 billion, including change in control payments and direct costs of the transaction. The Company financed the cash portion of the acquisition with a combination of cash on hand, commercial paper and a 364-day senior unsecured bridge loan facility.

The components of the purchase price were as follows:

In billions

Cash consideration	\$	7.3
Stock consideration (Issuance of 45.4 million IR Limited Class A common shares)		2.0
Estimated fair value of Trane stock options converted to 7.4 million IR Limited stock options		0.2
Transaction costs		0.1
Total	\$	9.6

The following table summarizes the preliminary fair values of the Trane assets acquired and liabilities assumed at the Acquisition Date. The Company is in the process of finalizing the fair values of certain assets and liabilities, thus, the allocation of the purchase price is subject to refinement. The Company anticipates finalizing purchase accounting in the fourth quarter of 2008.

<i>In millions</i>	June 5, 2008
Current assets:	
Cash and cash equivalents	\$ 317.5
Accounts and notes receivable	1,185.6
Inventories	970.5
Other current assets	376.4
Total current assets	2,850.0
Property, plant and equipment	
Goodwill	1,180.7
Intangible assets	5,393.1
Other noncurrent assets	5,547.7
Total assets	\$ 15,693.4
Current liabilities:	
Accounts payable	\$ 562.9
Accrued compensation and benefits	218.5
Accrued expenses and other current liabilities	1,006.9
Short-term borrowings and current maturities of long-term debt	254.3
Total current liabilities	2,042.6
Long-term debt	
Postemployment and other benefit liabilities	476.3
Deferred income taxes	314.6
Other noncurrent liabilities	2,237.5
Minority interests	1,006.2
Total liabilities and minority interests	\$ 7.7
Net assets acquired	\$ 9,608.5

Cash and cash equivalents, accounts and notes receivable, accounts payable and accrued compensation and benefits were stated at their historical carrying values, which approximate their fair value, given the short-term nature of these assets and liabilities.

Inventories were recorded at fair value, based on computations which considered many factors, including the future estimated selling price of the inventory, the cost to dispose of the inventory, as well as the replacement cost of the inventory, where applicable.

The Company recorded property, plant and equipment at its preliminary estimated fair value, based on adjustments recorded in recent acquisitions of other companies with assets similar to Trane.

The Company recorded intangible assets based on their estimated fair value, and consisted of the following:

<i>In millions</i>	Useful life	Amount
Tradenames	Indefinite	\$ 3,198.0
Customer relationships	18 Years	2,014.0
Completed technology/patents	10 Years	158.0
In-process research and development	Expensed	26.0
License agreement	7 Years	40.7
Backlog	6 Months	111.0
Total		\$ 5,547.7

The Company has allocated \$3,198.0 million to tradenames, primarily related to the Trane brand. Management considered many factors in the determination that it will account for the asset as an indefinite lived intangible asset, including the current market leadership position of the brand as well as recognition worldwide in the industry. Therefore, in accordance with Statement of Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets", tradenames will not be amortized, but instead will be tested for impairment at least annually (more frequently if certain indicators are present).

In addition, the Company assigned \$26.0 million to in-process research and development assets that were expensed at the date of acquisition in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 4, "Applicability of FASB Statement No. 2 to Business Combinations Accounted for by the Purchase Method." The expenses are included in general and administrative expenses.

The Company will have a valuation performed on property, plant and equipment and identified intangible assets in addition to pension, post employment and other liabilities. As such, the fair value recorded for the assets and liabilities could change upon the conclusion of the valuation.

The excess of the purchase price over the amounts allocated to specific assets and liabilities is included in goodwill, and amounted to \$5,393.1 million. The premium in the purchase price paid by the Company for the acquisition of Trane reflects the establishment of \$11 billion of businesses offering high value equipment, systems and services necessary for delivering solutions across the temperature spectrum for indoor, stationary and transport applications worldwide. The Company anticipates realizing significant operational and cost synergies. Anticipated synergies include purchase material savings through supplier rationalization and procurement leverage, improvement in manufacturing costs and lower general and administrative costs. Longer term, the Company expects to benefit from synergies related to service revenue expansion, leverage of distribution channels and cross selling through certain vertical markets.

In addition, Trane will be able to leverage the Company's global footprint to enhance their historically U.S.-based revenue generation. Lastly, the combined business will improve the Company's highly regarded Hussmann and Thermo King brands with Trane's position as a leader in the commercial and residential climate control industry. These combined factors primarily contributed to a purchase price in excess of the fair value of the net tangible assets acquired.

The following unaudited pro forma information assumes the acquisition of Trane occurred as of the beginning of the respective periods presented:

<i>In millions</i>	Nine months ended September 30,	
	2008	2007
Net revenues	\$ 12,691.0	\$ 12,060.8
Pre-tax profit	863.5	694.7
Net earnings	\$ 703.0	\$ 562.0
Basic earnings per common share	\$ 2.20	\$ 1.65
Diluted earnings per common share	\$ 2.17	\$ 1.61

The unaudited pro forma financial information for the nine months ended September 30, 2008 include \$19.5 million of non-recurring purchase accounting charges associated with the fair value allocation of purchase price to backlog, inventory and in-process research and development costs. The comparative amount for the nine months ended September 30, 2007 was \$113.1 million.

In addition, for the nine months ended September 30, 2008, the Company has included \$81.3 million as an increase to interest expense associated with the borrowings to fund (a) the cash portion of the purchase price and (b) the out-of-pocket transaction costs associated with the acquisition. The comparative amount for the nine months ended September 30, 2007 was \$146.9 million.

The unaudited pro forma information does not purport to be indicative of the results that actually would have been achieved had the operations been combined during the periods presented, nor is it intended to be a projection of future results or trends.

Note 4 – Divestitures and Discontinued Operations

The components of discontinued operations for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Revenues	\$ 0.1	\$ 714.0	\$ 15.3	\$ 2,410.8
Pre-tax earnings (loss) from operations	(11.0)	93.6	(34.0)	295.2
Pre-tax gain (loss) on sale	0.1	1.1	(5.5)	805.8
Tax expense	4.9	(25.7)	(2.9)	(215.0)
Discontinued operations, net of tax	\$ (6.0)	\$ 69.0	\$ (42.4)	\$ 886.0

Discontinued operations by business for the three and nine months ended September 30 is as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Compact Equipment, net of tax	\$ -	\$ 84.5	\$ (22.9)	\$ 226.7
Road Development, net of tax	-	1.1	(1.8)	695.2
Other discontinued operations, net of tax	(6.0)	(16.6)	(17.7)	(35.9)
Total discontinued operations, net of tax	\$ (6.0)	\$ 69.0	\$ (42.4)	\$ 886.0

Compact Equipment Divestiture

On July 29, 2007, the Company agreed to sell its Bobcat, Utility Equipment and Attachments business units (collectively, Compact Equipment) to Doosan Infracore for gross proceeds of approximately \$4.9 billion. The sale was completed on November 30, 2007. The purchase price is subject to post-closing adjustments which could result in a favorable or unfavorable adjustment to the gain on sale when ultimately resolved.

Compact Equipment manufactures and sells compact equipment, including skid-steer loaders, compact track loaders, mini-excavators and telescopic tool handlers; portable air compressors, generators and light towers; general-purpose light construction equipment; and attachments. The Company has accounted for Compact Equipment as discontinued operations for all periods presented in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS 144).

Net revenues and after-tax earnings of Compact Equipment for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net revenues	\$ 0.1	\$ 709.7	\$ 15.3	\$ 2,162.1
Earnings from operations, net of tax	-	84.5	0.1	226.7
Gain on sale, net of tax	-	-	(23.0)	-
Total discontinued operations, net of tax	\$ -	\$ 84.5	\$ (22.9)	\$ 226.7

Road Development Divestiture

On February 27, 2007, the Company agreed to sell its Road Development business unit to AB Volvo (publ) for cash proceeds of approximately \$1.3 billion. The sale was completed on April 30, 2007 in all countries except for India, which closed on May 4, 2007. The purchase price has been finalized with the buyer and the Company will record final adjustments in the fourth quarter of 2008.

The Road Development business unit manufactures and sells asphalt paving equipment, compaction equipment, milling machines and construction-related material handling equipment. The Company has accounted for the Road Development business unit as discontinued operations for all periods presented in accordance with SFAS 144.

Net revenues and after-tax earnings of the Road Development business unit for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net revenues	\$ -	\$ 4.3	\$ -	\$ 248.7
Earnings from operations, net of tax	(0.1)	0.2	(0.2)	18.6
Gain on sale, net of tax	0.1	0.9	(1.6)	676.6
Total discontinued operations, net of tax	\$ -	\$ 1.1	\$ (1.8)	\$ 695.2

Other Discontinued Operations

The Company also has retained costs from previously sold businesses that mainly include costs related to postretirement benefits, product liability and legal costs (mostly asbestos-related). The components of other discontinued operations for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Retained costs, net of tax	\$ (6.0)	\$ (16.7)	\$ (17.7)	\$ (36.3)
Net gain on disposals, net of tax	-	0.1	-	0.4
Total discontinued operations, net of tax	\$ (6.0)	\$ (16.6)	\$ (17.7)	\$ (35.9)

Retained costs, net of tax for the nine months ended September 30, 2008 includes \$6.5 million of after-tax costs related to an adverse verdict in a product liability lawsuit associated with a previously divested business.

Note 5— Inventories

Depending on the business, U.S. inventories are stated at the lower of cost or market using the last-in, first-out (LIFO) method or the lower of cost or market using the first-in, first-out (FIFO) method. Non-U.S. inventories are primarily stated at the lower of cost or market using the FIFO method.

The major classes of inventory are as follows:

<i>In millions</i>	September 30, 2008	December 31, 2007
Raw materials	\$ 480.0	\$ 323.2
Work-in-process	351.0	163.4
Finished goods	1,106.2	424.9
Sub-total	1,937.2	911.5
LIFO reserve	(142.1)	(84.3)
Total	\$ 1,795.1	\$ 827.2

At September 30, 2008, approximately 50% of all inventory utilized the LIFO method compared to approximately 20% at December 31, 2007. The increase is primarily attributable to the Company's acquisition of Trane. See Note 3 for a further discussion on the Trane acquisition.

Note 6 – Goodwill

The changes in the carrying amount of goodwill are as follows:

<i>In millions</i>	Air Conditioning Systems and Services	Climate Control Technologies	Industrial Technologies	Security Technologies	Total
December 31, 2007	\$ -	\$ 2,613.8	\$ 371.9	\$ 1,007.6	\$ 3,993.3
Acquisitions and adjustments*	5,393.1	-	5.6	23.3	5,422.0
Translation	-	(11.9)	(1.3)	(15.8)	(29.0)
September 30, 2008	\$ 5,393.1	\$ 2,601.9	\$ 376.2	\$ 1,015.1	\$ 9,386.3

* Includes current year adjustments related to final purchase price allocation adjustments.

The Company initially records as goodwill the excess of the purchase price over the preliminary fair value of the net assets acquired. Once the final valuation has been performed for each acquisition, adjustments may be recorded.

See Note 3 for a further discussion regarding goodwill associated with the acquisition of Trane, which the Company records in the Air Conditioning Systems and Services segment.

Note 7 – Intangible Assets

The following table sets forth the gross amount and accumulated amortization of the Company's intangible assets:

<i>In millions</i>	September 30, 2008	December 31, 2007
Customer relationships	\$ 2,514.2	\$ 502.4
Trademarks	3,478.9	283.8
Patents	202.4	38.2
Other	236.5	53.4
Total gross intangible assets	6,432.0	877.8
Accumulated amortization	(330.7)	(153.2)
Total	\$ 6,101.3	\$ 724.6

As of September 30, 2008 and December 31, 2007, the Company had \$3,366.5 million and \$169.3 million, respectively, of indefinite lived intangible assets. The increase is attributable to the Company's acquisition of Trane on June 5, 2008. These assets are not subject to amortization in accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," but instead, will be tested for impairment at least annually (more frequently if certain indicators are present).

Intangible asset amortization expense was \$128.9 million and \$6.2 million for the three months ended September 30, 2008 and 2007, respectively. The increase is attributable to the Company's acquisition of Trane on June 5, 2008, which includes \$86.3 million of non-recurring amortization expense related to the fair value allocation of purchase price to backlog and in-process research and development costs. See Note 3 for a further discussion on the acquisition of Trane.

For the nine months ended September 30, 2008 and 2007, intangible asset amortization was \$178.0 million and \$18.4 million, respectively. The increase is attributable to the Company's acquisition of Trane on June 5, 2008, which includes \$112.8 million of non-recurring amortization expense related to the fair value allocation of purchase price to backlog and in-process research and development costs. See Note 3 for a further discussion on the acquisition of Trane.

Estimated amortization expense on existing intangible assets is approximately \$170 million for each of the next five fiscal years.

Note 8 – Accounts Receivable Securitization Agreements

In association with the acquisition of Trane, the consolidated financial statements include Trane's accounts receivable securitization agreement (the Facility) in the U.S. As part of this Facility, Trane formed a special-purpose entity (SPE) that is included in the condensed consolidated financial statements for the sole purpose of buying and selling receivables generated by Trane. Trane irrevocably and without recourse, transfers all eligible accounts receivable to the SPE, which in turn, sells them, or undivided ownership interests in them, to conduits administered by participating banks. The assets of the SPE are not available to pay the claims of Trane or any of its subsidiaries.

The receivables sold are removed from the balance sheet since they meet the applicable criteria of SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities." Trane's retained interest is recorded at fair value in the balance sheet. To the extent that the cash received and value of the retained interest is less than the net book value of the receivable sold, losses are recognized at the time of sale. For the three months ended September 30, 2008 and since the Acquisition Date, the losses amounted to \$1.2 million and \$1.5 million, respectively. The receivables represented by the retained interest are exposed to the risk of loss for any uncollectible amounts in the pool of receivables sold under this arrangement.

The following is a summary of receivables sold to the financing facilities:

<i>In millions</i>	September 30, 2008
Outstanding balance of receivables sold to SPE	\$ 243.1
Net retained interest	152.5
Advances from conduits	99.6

The advances from conduits include amounts due to the conduits for the collections of receivables under the servicing agreement.

Note 9 – Debt and Credit Facilities

At September 30, 2008 and December 31, 2007, short-term borrowings and current maturities of long-term debt consisted of the following:

<i>In millions</i>	September 30, 2008	December 31, 2007
Commerical paper program	\$ 958.2	\$ -
Bridge loan facility	950.0	-
Current maturities of long-term debt	756.1	681.1
Other short-term borrowings	66.3	59.9
Total	\$ 2,730.6	\$ 741.0

At September 30, 2008 and December 31, 2007, long-term debt excluding current maturities consisted of:

<i>In millions</i>	September 30, 2008	December 31, 2007
Senior floating rate notes due 2010	\$ 250.0	\$ -
7.625% Senior notes due 2010	279.5	-
6.000% Senior notes due 2013	599.7	-
5.50% Senior notes due 2015	188.7	-
4.75% Senior notes due 2015	299.2	299.1
6.875% Senior notes due 2018	748.9	-
9.00% Debentures due 2021	125.0	125.0
7.20% Debentures due 2007 - 2025	120.0	127.5
6.48% Debentures due 2025	149.7	149.7
Other loans and notes	24.4	11.4
Total	\$ 2,785.1	\$ 712.7

In connection with the acquisition of Trane, the Company entered into a \$3.9 billion senior unsecured bridge loan facility, with a 364-day term, which was subsequently reduced to \$3.4 billion. The Company drew down \$2.95 billion against the bridge loan facility in June 2008. The proceeds, along with cash on hand as well as the issuance of \$1.5 billion of commercial paper, were used to fund the cash component of the consideration paid for the acquisition as well as to pay related fees and expenses incurred in connection with the acquisition.

In August 2008, the Company filed a universal shelf registration statement with the Securities and Exchange Commission (SEC) for an indeterminate amount of securities for future issuance and issued \$1.6 billion of long-term debt pursuant to the shelf registration statement. This issuance consisted of \$250 million Senior Floating Rate Notes due in 2010, \$600 million 6.000% Senior Notes due in 2013 and \$750 million 6.875% Senior Notes due in 2018. These notes are fully and unconditionally guaranteed by IR Limited, which directly owns 100% of the subsidiary issuer.

During the third quarter, the Company repaid \$2.0 billion of the outstanding balance of the bridge loan facility. The Company used a combination of cash flows from operations and cash on hand, in addition to the \$1.6 billion in proceeds received from the issuance of long-term debt. In October 2008, the Company reduced the bridge loan facility size to \$950 million.

During the second quarter, the Company entered into a \$1.0 billion senior unsecured revolving credit agreement with a three year term. This three-year credit facility will be used to support working capital, the commercial paper program and for other general corporate purposes.

In addition to the three-year credit facility, the Company has committed revolving credit facilities consisting of two lines totaling \$2.0 billion, of which \$750 million expires in June 2009 and \$1.25 billion expires in August 2010. These lines were unused and provide support for other financing instruments, such as letter of credit as required in the normal course of business as well as support for the commercial paper program.

At September 30, 2008, the Company had outstanding \$547.9 million of 30-year fixed rate debentures which requires early repayment only at the option of the holder. These debentures contain a put feature that the holders may exercise on each anniversary of the issuance date. If exercised, the Company is obligated to repay in whole or in part, at the holder's option, the outstanding principal amount (plus accrued and unpaid interest) of the debentures held by the holder. If these options are not exercised, the final maturity dates would range between 2027 and 2028. In October 2008, holders of these debentures chose to exercise the put feature on approximately \$248 million of the debentures, which will be repaid in November 2008. In the first quarter of 2009, holders of these debentures will have the option to exercise the put feature on approximately \$40 million of the remaining debentures. In the fourth quarter of 2009, holders of these debentures will have the option to exercise the put feature on approximately \$260 million of the remaining debentures.

Note 10 –Pension Plans

The Company has noncontributory pension plans covering the majority of U.S. employees. In addition, certain non-U.S. employees in other countries are covered by pension plans. The Company's pension plans for U.S. non-collectively bargained employees largely provide benefits on a final average pay formula and for U.S. collectively bargained employees on a flat benefit formula. Non-U.S. plans provide benefits based on earnings and years of service. The Company maintains additional other supplemental benefit plans for officers and other key employees.

The components of the Company's pension related costs for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Service cost	\$ 18.1	\$ 10.4	\$ 42.8	\$ 39.6
Interest cost	52.4	41.7	133.7	124.3
Expected return on plan assets	(64.9)	(57.5)	(167.8)	(173.4)
Net amortization of:				
Prior service costs	2.4	2.3	6.6	7.0
Transition amount	0.2	0.2	0.6	0.6
Plan net actuarial losses	3.5	2.9	8.3	10.8
Net periodic pension benefit cost	11.7	-	24.2	8.9
Net curtailment and settlement (gains) losses	1.2	(3.6)	2.5	20.7
Net periodic pension benefit cost after net curtailment and settlement (gains) losses	\$ 12.9	\$ (3.6)	\$ 26.7	\$ 29.6
Amounts recorded in continuing operations	\$ 16.5	\$ 1.8	\$ 37.6	\$ 16.8
Amounts recorded in discontinued operations	(3.6)	(5.4)	(10.9)	12.8
Total	\$ 12.9	\$ (3.6)	\$ 26.7	\$ 29.6

The Company made employer contributions of \$18.6 million and \$18.1 million to its pension plans during the nine months ended September 30, 2008 and 2007, respectively.

The curtailment and settlement losses in 2008 are associated with lump sum distributions under supplemental benefit plans for officers and other key employees. The curtailment and settlement losses in 2007 are associated with the sale of the Road Development business unit on April 30, 2007. In addition, certain of the Company's pension plans, primarily in the U.S., were remeasured as of the April 30, 2007 sale date and the discount rate used was increased from 5.5% to 5.75%.

As discussed in Note 3, the Company assumed obligations for pension benefits associated with the acquisition of Trane. The Company is in the process of measuring the pension plans as of the Acquisition Date. The preliminary estimates of plan assets and projected benefit obligations are \$719.0 million and \$773.8 million, respectively.

Note 11 – Postretirement Benefits Other Than Pensions

The Company sponsors several postretirement plans that cover certain eligible employees. These plans provide for health-care benefits, and in some instances, life insurance benefits. Postretirement health plans generally are contributory and contributions are adjusted annually. Life insurance plans for retirees are primarily noncontributory. The Company funds the postretirement benefit costs principally on a pay-as-you-go basis.

The components of net periodic postretirement benefit cost for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Service cost	\$ 4.2	\$ 3.0	\$ 7.2	\$ 9.2
Interest cost	14.3	13.9	34.9	42.0
Net amortization of prior service gains	(0.8)	(1.0)	(2.6)	(3.1)
Net amortization of net actuarial losses	3.7	4.4	11.1	13.9
Net periodic postretirement benefit cost	21.4	20.3	50.6	62.0
Net curtailment and settlement (gains) losses	-	(2.9)	-	(26.3)
Net periodic postretirement benefit (gains) costs after curtailment and settlement gains	\$ 21.4	\$ 17.4	\$ 50.6	\$ 35.7
Amounts recorded in continuing operations	\$ 14.0	\$ 6.7	\$ 28.4	\$ 20.3
Amounts recorded in discontinued operations	7.4	10.7	22.2	15.4
Total	\$ 21.4	\$ 17.4	\$ 50.6	\$ 35.7

The curtailment and settlement gains in 2007 are associated with the sale of the Road Development business unit on April 30, 2007. In addition, the Company's postretirement plan was remeasured as of the April 30, 2007 sale date and the discount rate used was increased from 5.5% to 5.75%.

As discussed in Note 3, the Company assumed unfunded obligations for postretirement benefits other than pensions associated with the acquisition of Trane. The Company is in the process of measuring the postretirement plans as of the Acquisition Date. The preliminary estimate of the projected benefit obligation is \$267.1 million.

Note 12 – Shareholders' Equity

At September 30, 2008, the reconciliation of Class A common shares is as follows:

<i>In millions</i>	Total
December 31, 2007	272.6
Shares issued under incentive plans	0.8
Merger consideration (See Note 3)	45.4
September 30, 2008	318.8

The components of comprehensive income for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net earnings	\$ 227.7	\$ 266.6	\$ 665.4	\$ 1,448.2
Other comprehensive income (loss):				
Foreign currency translation adjustment	(258.7)	153.8	(18.2)	221.6
Change in fair value of derivatives qualifying as cash flow hedges, net of tax	(13.7)	0.7	(10.0)	(5.1)
Unrealized gain (loss) on marketable securities, net of tax	(1.3)	(1.1)	(3.6)	(0.8)
Pension and other postretirement benefits liability adjustment, net of tax	18.1	1.9	27.1	144.1
Comprehensive income	\$ (27.9)	\$ 421.9	\$ 660.7	\$ 1,808.0

Included in accumulated other comprehensive income is the estimated value of the Company's currency hedges. At September 30, 2008 and 2007, the currency hedges had a projected gain of \$2.1 million and a projected loss of \$7.0 million, net of tax, respectively. Also included in accumulated other comprehensive income are projected losses of \$22.7 million related to interest rate locks, all of which qualified as cash flow hedges. The amounts expected to be reclassified to earnings over the next twelve months for the currency hedges and interest rate locks is \$2.1 million and \$2.8 million, respectively. The actual amounts that will be reclassified to earnings may vary from this amount as a result of changes in market conditions. The projected fair value of all currency and commodity derivatives at September 30, 2008 and 2007 was a loss of \$18.1 million and a gain of \$20.5 million, respectively.

During the first quarter of 2008, the Company determined that four of its forecasted cash flow hedges were ineffective, as the underlying forecasted transactions were no longer considered probable of occurring. The Company dedesignated these hedges and recorded a gain of \$0.3 million within "Other, net."

As a result of the acquisition of Trane, the Company assumed a cross currency swap to lock the foreign currency cash flows on its £60.0 million 8.25% senior notes due June 1, 2009, into the U.S. dollar. At the inception of the swap, it qualified as a cash flow hedging instrument under the guidelines of SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133). As such, the fair value has been deferred in Other Comprehensive Income (OCI) until the time the cash flows affect earnings. At September 30, 2008, the cross currency swap had a loss of \$17.3 million.

Note 13 – Restructuring Activities

Restructuring charges recorded during the three months ended September 30, 2008 were as follows:

<i>In millions</i>	Air		Industrial Technologies	Security Technologies	Corporate and Other	Total
	Conditioning Systems and Services	Climate Control Technologies				
Cost of goods sold	\$ -	\$ 1.2	\$ (0.1)	\$ 0.4	\$ -	\$ 1.5
Selling and administrative	-	(0.2)	-	0.1	8.5	8.4
Total	\$ -	\$ 1.0	\$ (0.1)	\$ 0.5	\$ 8.5	\$ 9.9

Restructuring charges recorded during the nine months ended September 30, 2008 were as follows:

<i>In millions</i>	Air		Industrial Technologies	Security Technologies	Corporate and Other	Total
	Conditioning Systems and Services	Climate Control Technologies				
Cost of goods sold	\$ -	\$ 0.8	\$ 2.5	\$ 2.4	\$ -	\$ 5.7
Selling and administrative	2.0	0.3	1.8	(0.1)	10.5	14.5
Total	\$ 2.0	\$ 1.1	\$ 4.3	\$ 2.3	\$ 10.5	\$ 20.2

The changes in the restructuring reserve were as follows:

<i>In millions</i>	Air		Industrial Technologies	Security Technologies	Corporate and Other	Total
	Conditioning Systems and Services	Climate Control Technologies				
December 31, 2007	\$ -	\$ 20.8	\$ 0.7	\$ 4.0	\$ -	\$ 25.5
Additions	2.0	1.1	4.3	2.3	10.5	20.2
Purchase accounting	13.8	-	-	-	-	13.8
Cash and non-cash uses	(10.4)	(20.7)	(4.6)	(2.9)	(0.8)	(39.4)
Currency translation	-	0.7	(0.2)	(0.1)	-	0.4
September 30, 2008	\$ 5.4	\$ 1.9	\$ 0.2	\$ 3.3	\$ 9.7	\$ 20.5

During 2007, the Company initiated restructuring actions relating to ongoing cost reduction efforts across each of its sectors. These actions included both workforce reductions as well as the consolidation of manufacturing facilities.

Actions taken in the Climate Control Technologies sector included a rationalization of manufacturing facilities in the U.S., Europe and Asia that resulted in the closure of a U.S. plant, two European plants and a Japanese plant. Industrial Technologies consolidated a manufacturing process at a U.S. plant in addition to other administrative functions within the sector. Security Technologies conducted a consolidation of administrative functions throughout the European sales area. Corporate costs related to workforce reductions.

In connection with the acquisition of Trane, at the Acquisition Date, the Company began formulating a plan to exit or restructure certain activities. The Company recorded purchase accounting liabilities of \$13.8 million primarily related to employee severance and related costs in connection with the preliminary plan as well as approving the continuation of all existing restructuring and exit plans.

As of September 30, 2008, the Company had \$20.5 million accrued for the workforce reductions and consolidation of manufacturing facilities, of which a majority will be paid throughout the remainder of 2008.

In October 2008, the Company announced plans to initiate enterprise-wide restructuring actions. These actions include streamlining the footprint of manufacturing facilities and reducing the general and administrative cost base. Projected costs will approximate \$110 million with a majority of the costs expected to be incurred in 2008.

Note 14 – Share-Based Compensation

The Company records share-based compensation under the provisions of SFAS No. 123 (revised 2004), “Share Based Payment,” which requires companies to measure all employee share-based compensation awards using a fair value method and recognize compensation expense for an amount equal to the fair value of the share-based payment issued in its consolidated financial statements.

On June 6, 2007, the shareholders of the Company approved the Incentive Stock Plan of 2007, which authorizes the Company to issue stock options and other share-based incentives. The total number of shares authorized by the shareholders is 14.0 million, of which 8.7 million remains available for future incentive awards. The plan replaces the Incentive Stock Plan of 1998, which expired in May 2007.

Stock Options

The average fair value of the options granted for the nine months ended September 30, 2008 and September 30, 2007 were \$11.59 and \$11.06, respectively, using the Black-Scholes option-pricing model. The following weighted-average assumptions were used:

	2008	2007
Dividend yield	1.58%	1.75%
Volatility	31.49%	26.10%
Risk-free rate of return	2.95%	4.71%
Expected life	5.4 years	4.7 years

The fair value of each of the Company’s stock option awards is expensed on a straight-line basis over the required service period, which is generally the three-year vesting period of the options. However, for options granted to retirement eligible employees, the Company recognizes expense for the fair value of the options at the grant date. Expected volatility is based on the historical volatility from traded options on the Company’s stock. The risk-free rate of return is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the award is granted with a maturity equal to the expected term of the award. Historical data is used to estimate forfeitures within the Company’s valuation model. The Company’s expected life of the stock option awards is derived from historical experience and represents the period of time that awards are expected to be outstanding.

Changes in the options outstanding under the plans for the nine months ended September 30, 2008 were as follows:

	Shares subject to option	Weighted- average exercise price	Aggregate intrinsic value (millions)	Weighted- average remaining life
December 31, 2007	16,424,891	\$ 34.25		
Granted	5,074,599	40.54		
Trane options exchanged for Ingersoll Rand options	7,408,134	18.50		
Exercised	(678,767)	26.74		
Cancelled	(695,214)	41.58		
Outstanding September 30, 2008	27,533,643	\$ 31.17	\$ 129.1	5.7
Exercisable September 30, 2008	20,163,360	\$ 27.48	\$ 129.1	4.6

As part of the acquisition of Trane, 7.4 million Trane options were converted at the option of the holders into options to acquire shares of IR Limited Class A common shares based on the option exchange ratio set forth in the merger agreement.

SARs

SARs generally vest ratably over a three-year period from the date of grant and expire at the end of ten years. All exercised SARs are settled with the Company's Class A common shares.

The following table summarizes the information for currently outstanding SARs for the nine months ended September 30, 2008:

	Shares subject to option	Weighted- average exercise price	Aggregate intrinsic value (millions)	Weighted- average remaining life
December 31, 2007	1,169,977	\$ 33.99		
Granted	-	-		
Exercised	(40,636)	27.98		
Cancelled	(51,386)	37.74		
Outstanding September 30, 2008	1,077,955	\$ 34.04	\$ 2.1	4.6
Exercisable September 30, 2008	993,575	\$ 33.58	\$ 2.1	4.5

The Company did not grant SARS during the nine months ended September 30, 2008 and does not anticipate further granting in the future.

Performance Shares

The Company has a Performance Share Program (PSP) for key employees. The program provides annual awards for the achievement of pre-established long-term strategic initiatives and annual financial performance of the Company. The annual target award level is expressed as a number of the Company's Class A common shares.

On April 17, 2007, and effective for the performance year 2007, the Compensation Committee of the Company's board of directors approved a revision to the PSP program such that all PSP awards will be paid in Class A common shares rather than in cash. In addition, all shares will vest one year after the date of grant except for retirement-eligible employees, which vest immediately. As a result of these changes, a larger portion of the Company's executive compensation program is directly linked to the performance of the Company's Class A common shares, thus further aligning the interests of executives with those of the Company's shareholders.

Deferred Compensation

The Company allows key employees and non-employee directors to defer a portion of their eligible compensation into a number of investment choices, including Class A common share equivalents. Effective August 1, 2007, the deferred compensation plans were amended to provide that any amounts invested in the Class A common share equivalents will be settled in Class A common shares at the time of distribution. Previously, these amounts were settled in cash.

Compensation Expense

Share-based compensation expense is included in Selling and administrative expenses. The following table summarizes the expenses recognized for the three and nine months ended September 30:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Stock options	\$ 7.4	\$ 5.0	\$ 31.1	\$ 20.7
SARs	0.1	-	(0.1)	0.5
Performance shares	1.2	2.4	3.6	8.2
Deferred compensation	0.5	(0.3)	1.1	2.2
Other	0.5	0.2	1.1	0.5
Pre-tax expense	9.7	7.3	36.8	32.1
Tax benefit	(3.7)	(2.8)	(14.1)	(12.3)
After tax expense	\$ 6.0	\$ 4.5	\$ 22.7	\$ 19.8
Amounts recorded in continuing operations	\$ 6.0	\$ 3.7	\$ 22.7	\$ 16.8
Amounts recorded in discontinued operations	-	0.8	-	3.0
Total	\$ 6.0	\$ 4.5	\$ 22.7	\$ 19.8

In August 2006, the Company entered into two total return swaps (the Swaps) which were derivative instruments used to hedge the Company's exposure to changes in its share-based compensation expense. The aggregate notional amount of the Swaps was approximately \$52.6 million. On June 11, 2007, the Company terminated a portion of the Swaps for net cash proceeds of \$3.8 million. The Company settled the remaining portion of the Swaps on August 6, 2007, for net cash proceeds of \$13.8 million.

For the three and nine months ended September 30, 2007, the Company recorded a loss of \$5.1 million and a gain of \$15.5 million, respectively, associated with the Swaps. The gains and losses associated with the Swaps are recorded within selling and administrative expenses.

Note 15 – Other, Net

The components of “Other, net” for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Interest income	\$ 9.9	\$ 5.0	\$ 86.9	\$ 14.9
Exchange gain (loss)	(11.0)	(8.1)	(15.5)	0.6
Minority interests	(5.5)	(4.5)	(15.9)	(11.6)
Earnings from equity investments	1.4	-	2.6	0.1
Other	1.5	-	3.3	(3.1)
Other, net	\$ (3.7)	\$ (7.6)	\$ 61.4	\$ 0.9

Note 16 – Income Taxes

Effective January 1, 2007, the Company adopted FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109” (FIN 48), which prescribes a recognition threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on the recognition, classification, accounting in interim periods and disclosure requirements for uncertain tax positions. As a result of adopting FIN 48, the Company recorded additional liabilities to its previously established reserves, and a corresponding decrease in retained earnings of \$145.6 million. Total unrecognized tax benefits as of September 30, 2008 and December 31, 2007 were \$571.6 million and \$379.8 million, respectively. The increase is primarily related to the inclusion of unrecognized tax positions attributable to the Trane business.

The provision for income taxes involves a significant amount of management judgment regarding interpretation of relevant facts and laws in the jurisdictions in which the Company operates. Future changes in applicable laws, projected levels of taxable income and tax planning could change the effective tax rate and tax balances recorded by the Company. In addition, U.S. and non-U.S. tax authorities periodically review income tax returns filed by the Company and can raise issues regarding its filing positions, timing and amount of income or deductions and the allocation of income among the jurisdictions in which the Company operates. A significant period of time may elapse between the filing of an income tax return and the ultimate resolution of an issue raised by a revenue authority with respect to that return. In the normal course of business, the Company is subject to examination by taxing authorities throughout the world, including such major jurisdictions as Germany, Italy, the Netherlands, Switzerland and the United States. In general, the examination of the Company’s material tax returns is completed for the years prior to 2000.

The Internal Revenue Service (IRS) has completed the examination of the Company’s federal income tax returns through the 2000 tax year and has issued a notice proposing adjustments. The principle proposed adjustment relates to the disallowance of certain capital losses. The Company disputed the IRS position and protests have been filed with the IRS Appeals Division. In order to reduce the potential interest expense associated with this matter, the Company made a payment of \$217 million in the third quarter of 2007, which reduced the Company’s total liability for uncertain tax positions by \$141 million. Similarly, during the third quarter of 2008, the Company made an additional payment of \$55.1 million related to a potential penalty assessment plus accrued interest on this matter. The Company continues negotiating with the IRS on the ultimate settlement of this matter. The issues raised by the IRS associated with the capital loss transaction are not related to the Company's reorganization in Bermuda, or the Company's intercompany debt structure.

On July 20, 2007, the Company and its consolidated subsidiaries received a notice from the IRS containing proposed adjustments to the Company's tax filings in connection with an audit of the 2001 and 2002 tax years. The IRS did not contest the validity of the Company's reincorporation in Bermuda. The most significant adjustments proposed by the IRS involve treating the entire intercompany debt incurred in connection with the Company's reincorporation in Bermuda as equity. As a result of this recharacterization, the IRS has disallowed the deduction of interest paid on the debt and imposed dividend withholding taxes on the payments denominated as interest. These adjustments proposed by the IRS, if upheld in their entirety, would result in additional taxes with respect to 2002 of approximately \$190 million plus interest, and would require the Company to record additional charges associated with this matter. At this time, the IRS has not yet begun their examination of the Company's tax filings for years subsequent to 2002. However, if these adjustments or a portion of these adjustments proposed by the IRS are ultimately sustained, it is likely to also affect subsequent tax years.

The Company strongly disagrees with the view of the IRS and filed a protest with the IRS in the third quarter of 2007. Going forward, the Company intends to vigorously contest these proposed adjustments. The Company, in consultation with its outside advisors, carefully considered many factors in determining the terms of the intercompany debt, including the obligor's ability to service the debt and the availability of equivalent financing from unrelated parties, two factors prominently cited by the IRS in denying debt treatment. The Company believes that its characterization of that obligation as debt for tax purposes was supported by the relevant facts and legal authorities at the time of its creation. The subsequent financial results of the relevant companies, including the actual cash flow generated by operations and the production of significant additional cash flow from dispositions have confirmed the ability to service this debt. Although the outcome of this matter cannot be predicted with certainty, based upon an analysis of the strength of its position, the Company believes that it is adequately reserved for this matter. As the Company moves forward to resolve this matter with the IRS, it is reasonably possible that the reserves established may be adjusted within the next 12 months. However, the Company does not expect that the ultimate resolution will have a material adverse impact on its future results of operations or financial position.

The Company believes that it has adequately provided for any reasonably foreseeable resolution of any tax disputes, but will adjust its reserves if events so dictate in accordance with FIN 48. To the extent that the ultimate results differ from the original or adjusted estimates of the Company, the effect will be recorded in the provision for income taxes.

Note 17– Earnings Per Share (EPS)

Basic EPS is calculated by dividing net earnings (income available to common shareholders) by the weighted-average number of Class A common shares outstanding for the applicable period. Diluted EPS is calculated after adjusting the denominator of the basic EPS calculation for the effect of all potentially dilutive common shares, which in the Company's case, includes shares issuable under share-based compensation plans. The following table summarizes the weighted-average number of Class A common shares outstanding for basic and diluted earnings per share calculations:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Weighted-average number of basic shares	320.2	283.4	293.9	296.2
Shares issuable under incentive stock plans	3.9	5.4	3.6	4.3
Weighted-average number of diluted shares	324.1	288.8	297.5	300.5
Anti-dilutive shares	13.6	0.1	5.4	0.3

Note 18 –Business Segment Information

The Company classifies its business into four reportable segments based on industry and market focus: Air Conditioning Systems and Services, Climate Control Technologies, Industrial Technologies and Security Technologies.

In connection with the acquisition of Trane, the Company expanded its reportable segments to include the Air Conditioning Systems and Services segment. The results of Trane's operations are presented within this segment. The reported results for the nine months ended September 30, 2008 reflect activity since the Acquisition Date (June 6, 2008 through September 30, 2008).

As a result of the divestitures of Compact Equipment and the Road Development business unit during 2007, the Company realigned its operating and reporting segments to better reflect its market focus. Segment information for all periods has been revised to exclude the results of the Bobcat, Utility Equipment, Attachments and Road Development business units.

A summary of operations by reportable segment as of September 30 is as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
<u>Net revenues</u>				
Air Conditioning Systems and Services	\$ 2,051.1	\$ -	\$ 2,749.0	\$ -
Climate Control Technologies	895.0	882.1	2,605.3	2,457.0
Industrial Technologies	718.3	701.5	2,267.8	2,119.1
Security Technologies	648.8	655.4	1,935.2	1,863.7
Total	\$ 4,313.2	\$ 2,239.0	\$ 9,557.3	\$ 6,439.8
<u>Operating income</u>				
Air Conditioning Systems and Services	\$ 89.5	\$ -	\$ 155.6	\$ -
Climate Control Technologies	103.0	100.1	297.9	269.2
Industrial Technologies	81.4	93.4	283.4	294.4
Security Technologies	126.0	112.8	353.3	311.8
Unallocated corporate expense	(52.5)	(30.0)	(134.2)	(116.4)
Total	\$ 347.4	\$ 276.3	\$ 956.0	\$ 759.0

Long-lived assets by geographic area at September 30, 2008 and December 31, 2007 are as follows:

<i>In millions</i>	2008	2007
United States	\$ 4,049.2	\$ 820.5
Non-U.S.	770.9	639.6
Total	\$ 4,820.1	\$ 1,460.1

Note 19 -Commitments and Contingencies

The Company is involved in various litigations, claims and administrative proceedings, including environmental and product liability matters. Amounts recorded for identified contingent liabilities are estimates, which are reviewed periodically and adjusted to reflect additional information when it becomes available. Subject to the uncertainties inherent in estimating future costs for contingent liabilities, management believes that the liability which may result from these legal matters would not have a material adverse effect on the financial condition, results of operations, liquidity or cash flows.

Environmental Matters

The Company continues to be dedicated to an environmental program to reduce the utilization and generation of hazardous materials during the manufacturing process and to remediate identified environmental concerns. As to the latter, the Company is currently engaged in site investigations and remediation activities to address environmental cleanup from past operations at current and former manufacturing facilities.

The Company is sometimes a party to environmental lawsuits and claims and has received notices of potential violations of environmental laws and regulations from the Environmental Protection Agency and similar state authorities. It has also been identified as a potentially responsible party (PRP) for cleanup costs associated with off-site waste disposal at federal Superfund and state remediation sites. For all such sites, there are other PRPs and, in most instances, the Company's involvement is minimal.

In estimating its liability, the Company has assumed it will not bear the entire cost of remediation of any site to the exclusion of other PRPs who may be jointly and severally liable. The ability of other PRPs to participate has been taken into account, based generally on the parties' financial condition and probable contributions on a per site basis. Additional lawsuits and claims involving environmental matters are likely to arise from time to time in the future.

During the three and nine month periods ended September 30, 2008, the Company spent \$4.0 million and \$10.3 million, respectively, for environmental remediation expenditures at sites presently or formerly owned or leased by us. As of September 30, 2008 and December 31, 2007, the Company has recorded reserves of \$103.4 million and \$101.8 million, respectively, for environmental matters. The Company believes that these expenditures will continue and may increase over time. Given the evolving nature of environmental laws, regulations and technology, the ultimate cost of future compliance is uncertain.

Asbestos Matters

Certain wholly owned subsidiaries of the Company are named as defendants in asbestos-related lawsuits in state and federal courts. In virtually all of the suits, a large number of other companies have also been named as defendants. The vast majority of those claims has been filed against either Ingersoll Rand Company (IR-New Jersey) and Trane and generally allege injury caused by exposure to asbestos contained in certain current and historical products sold by IR-New Jersey and Trane, primarily pumps, boilers and railroad brake shoes. Neither IR-New Jersey nor Trane was a producer or manufacturer of asbestos, however, some formerly manufactured products utilized asbestos-containing components such as gaskets and packings purchased from third-party suppliers.

Prior to the fourth quarter of 2007, the Company recorded a liability (which it periodically updated) for its actual and anticipated future asbestos settlement costs projected seven years into the future. The Company did not record a liability for future asbestos settlement costs beyond the seven-year period covered by its reserve because such costs previously were not reasonably estimable for the reasons detailed below.

In the fourth quarter of 2007, the Company again reviewed its history and experience with asbestos-related litigation and determined that it had now become possible to make a reasonable estimate of its total liability for pending and unasserted potential future asbestos-related claims. This determination was based upon the Company's analysis of developments in asbestos litigation, including the substantial and continuing decline in the filing of non-malignancy claims against the Company, the establishment in many jurisdictions of inactive or deferral dockets for such claims, the decreased value of non-malignancy claims because of changes in the legal and judicial treatment of such claims, increasing focus of the asbestos litigation upon malignancy claims, primarily those involving mesothelioma, a cancer with a known historical and predictable future annual incidence rate, and the Company's substantial accumulated experience with respect to the resolution of malignancy claims, particularly mesothelioma claims, filed against it.

Accordingly, in the fourth quarter of 2007, the Company retained Dr. Thomas Vasquez of Analysis, Research & Planning Corporation (collectively, "ARPC") to assist it in calculating an estimate of the Company's total liability for pending and unasserted future asbestos-related claims. ARPC is a respected expert in performing complex calculations such as this. ARPC has been involved in many asbestos-related valuations of current and future liabilities, and its valuation methodologies have been accepted by numerous courts.

The methodology used by ARPC to project the Company's total liability for pending and unasserted potential future asbestos-related claims relied upon and included the following factors, among others:

- ARPC's interpretation of a widely accepted forecast of the population likely to have been occupationally exposed to asbestos;
- epidemiological studies estimating the number of people likely to develop asbestos-related diseases such as mesothelioma and lung cancer;
- the Company's historical experience with the filing of non-malignancy claims against it and the historical ratio between the numbers of non-malignancy and lung cancer claims filed against the Company;
- ARPC's analysis of the number of people likely to file an asbestos-related personal injury claim against the Company based on such epidemiological and historical data and the Company's most recent three-year claims history;
- an analysis of the Company's pending cases, by type of disease claimed;

- an analysis of the Company's most recent three-year history to determine the average settlement and resolution value of claims, by type of disease claimed;
- an adjustment for inflation in the future average settlement value of claims, at a 2.5% annual inflation rate, adjusted downward to 1.5% to take account of the declining value of claims resulting from the aging of the claimant population;
- an analysis of the period over which the Company has and is likely to resolve asbestos-related claims against it in the future.

Based on these factors, ARPC calculated a total estimated liability of \$755 million for the Company to resolve all pending and unasserted potential future claims through 2053, which is ARPC's reasonable best estimate of the time it will take to resolve asbestos-related claims. This amount is on a pre-tax basis, not discounted for the time-value of money, and excludes the Company's defense fees (which will continue to be expensed by the Company as they are incurred). After considering ARPC's analysis and the factors listed above, in the fourth quarter of 2007, the Company increased its recorded liability for asbestos claims by \$538 million, from \$217 million to \$755 million.

In addition, during the fourth quarter of 2007, the Company recorded an \$89 million increase in its assets for probable asbestos-related insurance recoveries to \$250 million. This represents amounts due to the Company for previously paid and settled claims and the probable reimbursements relating to its estimated liability for pending and future claims. In calculating this amount, the Company used the estimated asbestos liability for pending and projected future claims calculated by ARPC. It also considered the amount of insurance available, gaps in coverage, allocation methodologies, solvency ratings and creditworthiness of the insurers, the amounts already recovered from and the potential for settlements with insurers, and the terms of existing settlement agreements with insurers.

During the fourth quarter of 2007, the Company recorded a non-cash charge to earnings of discontinued operations of \$449 million (\$277 million after tax), which is the difference between the amount by which the Company increased its total estimated liability for pending and projected future asbestos-related claims and the amount that the Company expects to recover from insurers with respect to that increased liability.

In connection with our acquisition of Trane, the Company requested ARPC to assist in calculating Trane's asbestos-related valuations of current and future liabilities. As required by SFAS No. 141, "Business Combinations," the Company is required to record the assumed asbestos obligations and associated insurance-related assets at their fair value at the Acquisition Date. The Company preliminarily estimates that the assumed asbestos obligation and associated insurance-related assets at the Acquisition Date to be \$494 million and \$249 million, respectively. These amounts were estimated based on certain assumptions and factors consistent with those described above.

Trane continues to be in litigation against certain carriers whose policies it believes provide coverage for asbestos claims. The insurance carriers named in this suit have challenged Trane's right to recovery. Trane filed the action in April 1999 in the Superior Court of New Jersey, Middlesex County, against various primary and lower layer excess insurance carriers, seeking coverage for environmental claims (the "NJ Litigation"). The NJ Litigation was later expanded to also seek coverage for asbestos-related liabilities from twenty-one primary and lower layer excess carriers and underwriting syndicates. The environmental claims against most of the insurers in the NJ Litigation have been settled. On September 19, 2005, the court granted Trane's motion to add claims for insurance coverage for asbestos-related liabilities against 16 additional insurers and 117 new insurance policies to the NJ Litigation. The court also required the parties to submit all contested matters to mediation. Trane engaged in its first mediation session with the NJ Litigation defendants on January 18, 2006 and has engaged in active discussions since that time.

Trane has now settled with a substantial number of its insurers, collectively accounting for approximately 75% of its recorded asbestos-related liability insurance receivable as at September 30, 2008. More specifically, effective August 26, 2008, Trane entered into a coverage-in-place agreement (“August 26 Agreement”) with the following five insurance companies or groups: 1) Hartford; 2) Travelers; 3) Allstate (solely in its capacity as successor-in-interest to Northbrook Excess & Surplus Insurance Company); 4) Dairyland Insurance Company; and 5) AIG. The August 26 Agreement provides for the reimbursement by the insurer signatories of a portion of Trane’s costs for asbestos bodily injury claims under specified terms and conditions and in exchange for certain releases and indemnifications from Trane. In addition, on September 12, 2008, Trane entered into a settlement agreement with Mt. McKinley Insurance Company and Everest Reinsurance Company, both members of the Everest Re group, resolving all claims in the NJ Litigation involving policies issued by those companies (“Everest Re Agreement”). The Everest Re Agreement contains a number of elements, including policy buy-outs and partial buy-outs in exchange for a cash payment along with coverage-in-place features similar to those contained in the August 26 Agreement, in exchange for certain releases and indemnifications by Trane. Trane remains in settlement negotiations with the insurer defendants in the NJ Litigation not encompassed within the August 26 Agreement or Everest Re Agreement. Once concluded, we believe NJ Litigation will resolve coverage issues with respect to approximately 96% of Trane’s recorded insurance receivable in connection with asbestos-related liabilities.

The amounts recorded by the Company for asbestos-related liabilities and insurance-related assets are based on currently available information. The Company’s actual liabilities or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in the Company’s or ARPC’s calculations vary significantly from actual results. Key variables in these assumptions are identified above and include the number and type of new claims to be filed each year, the average cost of resolution of each such new claim, the resolution of coverage issues with insurance carriers, and the solvency risk with respect to the Company’s insurance carriers. Furthermore, predictions with respect to these variables are subject to greater uncertainty as the projection period lengthens. Other factors that may affect the Company’s liability include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms that may be made by state and federal courts, and the passage of state or federal tort reform legislation.

The aggregate amount of the stated limits in insurance policies available to the Company for asbestos-related claims acquired over many years and from many different carriers, is substantial. However, limitations in that coverage, primarily due to the considerations described above, are expected to result in the projected total liability to claimants substantially exceeding the probable insurance recovery.

From receipt of its first asbestos claims more than twenty five years ago to December 31, 2007, the Company has resolved (by settlement or dismissal) approximately 208,000 claims. The total amount of all settlements paid by the Company (excluding insurance recoveries) and by its insurance carriers is approximately \$308 million, for an average payment per resolved claim of \$1,480. The average payment per claim resolved during the year ended December 31, 2007 was \$7,491. This amount reflects the Company’s emphasis on resolution of higher value malignancy claims, particularly mesothelioma claims, rather than lower value non-malignancy claims, which are more heavily represented in the Company’s historical settlements. The table below provides additional information regarding asbestos-related claims filed against the Company:

	2005	2006	2007
Open claims - January 1	105,811	102,968	101,709
New claims filed	11,132	6,457	5,398
Claims settled	(12,505)	(6,558)	(5,005)
Claims dismissed	(1,470)	(1,158)	(1,479)
Open claims - December 31	102,968	101,709	100,623

From receipt of the first asbestos claim more than twenty years ago through December 31, 2007, Trane has resolved 61,002 (by settlement or dismissal) claims. Trane and its insurance carriers have paid settlements of approximately \$109.0 million, which represents an average payment per resolved claim of \$1,786. During 2007, 3,019 new claims were filed against Trane, 1,826 claims were dismissed and 740 claims were settled. At December 31, 2007, there were 105,023 open claims pending against Trane. Because claims are frequently filed and settled in large groups, the amount and timing of settlements, as well as the number of open claims, can fluctuate significantly from period to period.

The table below provides additional information regarding asbestos-related claims filed against Trane, reflecting updated information for the last three years.

	2005	2006	2007
Open claims - January 1	118,381	113,730	104,570
New claims filed	10,972	4,440	3,019
Claims settled	(954)	(848)	(740)
Claims dismissed	(14,544)	(12,751)	(1,826)
Other	(125)	(1)	-
Open claims - December 31	113,730	104,570	105,023

At September 30, 2008, over 90 percent of the open claims against the Company are non-malignancy claims, many of which have been placed on inactive or deferral dockets and the vast majority of which have little or no settlement value against the Company, particularly in light of recent changes in the legal and judicial treatment of such claims.

At September 30, 2008, the Company's liability for asbestos related matters and the asset for probable asbestos-related insurance recoveries totaled \$1,210.7 million and \$439.3 million, respectively, compared to \$754.9 million and \$249.8 million at December 31, 2007.

The (costs) income associated with the settlement and defense of asbestos related claims after insurance recoveries were as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Continuing operations	\$ 1.7	\$ -	\$ 0.9	\$ -
Discontinued operations	(2.5)	(7.1)	(2.4)	(27.1)
Total	\$ (0.8)	\$ (7.1)	\$ (1.5)	\$ (27.1)

The Company records certain income and expenses associated with its asbestos liabilities and corresponding insurance recoveries within discontinued operations, as they relate to previously divested businesses, primarily Ingersoll-Dresser Pump, which was sold in 2000. Income and expenses associated with Trane's asbestos liabilities and corresponding insurance recoveries are recorded within continuing operations.

Other

The following table represents the changes in the product warranty liability for the nine months ended September 30:

<i>In millions</i>	2008	2007
Balance at beginning of period	\$ 146.9	\$ 137.1
Reductions for payments	(130.2)	(53.9)
Accruals for warranties issued during the current period	137.3	61.0
Changes to accruals related to preexisting warranties	(0.7)	(2.0)
Acquisitions	476.0	-
Translation	(2.6)	4.1
Balance at end of period	\$ 626.7	\$ 146.3

The Company has other contingent liabilities for \$15.5 million. These liabilities primarily result from performance bonds, guarantees and stand-by letters of credit associated with the prior sale of products by divested businesses.

Note 20 – Fair Value Measurement

Effective January 1, 2008, the Company adopted SFAS No. 157, "Fair Value Measurements," (SFAS 157). SFAS 157 establishes a framework for measuring fair value that is based on the inputs market participants use to determine the fair value of an asset or liability and establishes a fair value hierarchy to prioritize those inputs. The fair value hierarchy outlined in SFAS 157 is comprised of three levels that are described below:

- Level 1 – Inputs based on quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than Level 1 quoted prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
- Level 3 – Unobservable inputs based on little or no market activity and that are significant to the fair value of the assets and liabilities.

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are obtained from independent sources and can be validated by a third party, whereas unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability based on the best information available under the circumstances. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Effective February 12, 2008, the Company adopted FASB Staff Position SFAS 157-2, "Effective Date of FASB Statement No. 157," which defers the application date of the provisions of SFAS 157 for all nonfinancial assets and liabilities except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Due to the deferral, the Company has delayed its implementation of the SFAS 157 provisions on the fair value of goodwill, indefinite-lived intangible assets and nonfinancial long-lived assets.

Assets and liabilities measured at fair value on a recurring basis at September 30, 2008 are as follows:

<i>In millions</i>	Fair value measurements			Total fair value
	Level 1	Level 2	Level 3	
<i>Assets:</i>				
Cash and cash equivalents	\$ 741.5	\$ -	\$ -	\$ 741.5
Marketable securities	7.2	-	-	7.2
Derivative instruments	-	11.8	-	11.8
Securitization	-	-	152.5	152.5
Benefit trust assets	-	142.1	-	142.1
Total	\$ 748.7	\$ 153.9	\$ 152.5	\$ 1,055.1
<i>Liabilities:</i>				
Derivative instruments	\$ -	\$ 47.2	\$ -	\$ 47.2
Benefit liabilities	-	144.2	-	144.2
Total	\$ -	\$ 191.4	\$ -	\$ 191.4

SFAS 157 defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company determines the fair value of its financial assets and liabilities using the following methodologies:

- *Cash and cash equivalents*— These amounts include cash on hand, demand deposits and all highly liquid investments with original maturities at the time of purchase of three months or less and are held in U.S and non-U.S. currencies.
- *Marketable securities*— These securities include investments in publically traded stock of non-U.S. companies held by non-U.S. subsidiaries of the Company. The fair value is obtained for the securities based on observable market prices quoted on public stock exchanges.
- *Derivatives instruments*— These instruments include forward contracts related to non-U.S. currencies, commodities and a cross-currency swap of foreign denominated debt. The fair value of the derivative instruments are determined based on a pricing model that uses inputs from actively quoted currency and commodity markets that are readily accessible and observable.

·*Benefit trust assets*– These assets include money market funds and insurance contracts that are the underlying for the benefit assets. The fair value of the assets is based on observable market prices quoted in a readily accessible and observable market.

·*Securitization*– This asset is the interest the Company retains in receivables sold into a special purpose entity. The fair value of the asset is based on a model that requires unobservable inputs.

·*Benefit liabilities*– These liabilities include deferred compensation and executive death benefits. The fair value is based on the underlying investment portfolio of the deferred compensation and the specific benefits guaranteed in a death benefit contract with each executive.

Effective January 1, 2008, the Company also adopted SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115,” (SFAS 159). SFAS 159 allows the Company the irrevocable option, at specified election dates, to measure financial assets and liabilities at their current fair value, with the corresponding changes in fair value from period to period recognized in the income statement. As of September 30, 2008, the Company has not elected to utilize the fair value option on any of its financial assets or liabilities.

Note 21 – Guarantor Financial Information

Ingersoll-Rand Company Limited, a Bermuda company (IR-Limited) is the successor to Ingersoll-Rand Company, a New Jersey corporation (IR-New Jersey), following a corporate reorganization (the reorganization) that became effective on December 31, 2001. The reorganization was accomplished through a merger of a newly formed subsidiary of IR-Limited. IR-Limited and its subsidiaries continue to conduct the businesses previously conducted by IR-New Jersey and its subsidiaries. The reorganization has been accounted for as a reorganization of entities under common control and accordingly, did not result in any changes to the consolidated amounts of assets, liabilities and shareholders’ equity.

As part of the reorganization, IR-Limited guaranteed all of the issued public debt securities of IR-New Jersey. The subsidiary issuer, IR-New Jersey, is 100% owned by the parent, IR-Limited, the guarantees are full and unconditional, and no other subsidiary of the Company guarantees the securities.

IR-Limited issued Class B common shares to IR-New Jersey in exchange for a \$3.6 billion note and shares of certain IR-New Jersey subsidiaries. The note, which is due in 2011, has a fixed rate of interest of 11% per annum payable semi-annually and imposes certain restrictive covenants upon IR-New Jersey. At September 30, 2008, \$2.1 billion of the original \$3.6 billion note remains outstanding. The Class B common shares are non-voting and pay dividends comparable to the Class A common shares. In 2002, IR-Limited contributed the note to a wholly owned subsidiary, which subsequently transferred portions of the note to several other subsidiaries, all of which are included in the “Other Subsidiaries” below. Accordingly, the subsidiaries of IR-Limited remain creditors of IR-New Jersey.

IR-New Jersey has unconditionally guaranteed payment of the principal, premium, if any, and interest on the Company’s 4.75% Senior Notes due in 2015 in the aggregate principal amount of \$300 million. The guarantee is unsecured and provided on an unsubordinated basis. The guarantee ranks equally in right of payment with all of the existing and future unsecured and unsubordinated debt of IR-New Jersey.

The Company has revised the guarantor financial statements for all periods presented in order to reflect Ingersoll-Rand Global Holding Company Limited (IR Global Holding) as a stand-alone subsidiary. IR Global Holding, a 100% owned subsidiary of IR-Limited, issued public debt that is guaranteed by IR-Limited (see Note 9, Debt and Credit Facilities, for further details on the public debt issuance). As part of the process to revise the condensed financial statements, the Company noted errors within the consolidation process of the subsidiaries. Total consolidated results were not impacted by these revisions; however, certain amounts reported within the IR-New Jersey and Other Subsidiary columns have been corrected. The Company determined that these errors were immaterial to the Company's financial statements. All periods have been revised in the current presentation.

The condensed consolidating financial statements present IR-Limited, IR Global Holding and IR-New Jersey investments in their subsidiaries using the equity method of accounting. Intercompany investments in the non-voting Class B common shares are accounted for on the cost method and are reduced by intercompany dividends. In accordance with generally accepted accounting principles, the amounts related to the issuance of the Class B shares have been presented as contra accounts and included within Other Shareholders' Equity since the Class B issuance on December 31, 2001. The notes payable continue to be reflected as a liability on the balance sheet of IR-New Jersey and are enforceable in accordance with their terms.

The following condensed consolidated financial information for IR-Limited, IR Global Holding, IR-New Jersey, and all their other subsidiaries is included so that separate financial statements of IR Global Holding and IR-New Jersey are not required to be filed with the U.S. Securities and Exchange Commission.

Condensed Consolidating Income Statement

For the three months ended September 30, 2008

<i>In millions</i>	IR Limited	IR Global Holding	IR New Jersey	Other Subsidiaries	Consolidating Adjustments	IR Limited Consolidated

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

**INGERSOLL-RAND COMPANY LIMITED
MANAGEMENT’S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause a difference include, but are not limited to, those discussed under Part II, Item 1A - Risk Factors in this Quarterly Report on Form 10-Q and under Part I, Item 1A - Risk Factors in the Annual Report on Form 10-K for the fiscal year ended December 31, 2007. The following section is qualified in its entirety by the more detailed information, including our financial statements and the notes thereto, which appears elsewhere in this Quarterly Report.

Overview

Organizational

Ingersoll-Rand Company Limited (IR Limited), a Bermuda company, and its consolidated subsidiaries (we, our or the Company) is a leading innovation and solutions provider with strong brands and leading positions within our markets. We operate in four business segments: Air Conditioning Systems and Services, Climate Control Technologies, Industrial Technologies and Security Technologies. We generate revenue and cash primarily through the design, manufacture, sale and service of a diverse portfolio of industrial and commercial products that include well-recognized, premium brand names such as Club Car®, Hussmann®, Ingersoll Rand®, Schlage®, Thermo King® and Trane®.

We are dedicated to inspiring progress for our Customers, Shareholders, Employees and Communities by achieving:

- Dramatic Growth, by focusing on innovative solutions for our customers
- Operational Excellence, by pursuing continuous improvement in all of our operations
- Dual Citizenship, by bringing together the talents of all Ingersoll Rand people to leverage the capabilities of our global enterprise

To achieve these goals and to become a more diversified company with strong growth prospects, we have transformed our enterprise portfolio by divesting cyclical, low-growth and asset-intensive businesses, in addition to strategic acquisitions that enhance and broaden our value proposition to our customers. We continue to focus on increasing our recurring revenue stream, which includes revenues from parts, service, used equipment and rentals. We also intend to continuously improve the efficiencies, capabilities, products and services of our high-potential businesses.

Trends and Economic Events

We are a global corporation with worldwide operations. As a global business, our operations are affected by worldwide, regional and industry-specific economic factors, as well as political factors, wherever we operate or do business. Although our geographic and industry diversity, as well as the diversity of our product sales and services, has helped limit the impact of any one industry or the economy of any single country on our consolidated operating results, we have seen a general decrease in economic activity worldwide and weaker demand for many of our products and services, as discussed further below.

Given the broad range of products manufactured and geographic markets served, management uses a variety of factors to predict the outlook for the Company. We monitor key competitors and customers in order to gauge relative performance and the outlook for the future. In addition, our order rates are indicative of future revenue and thus a key measure of anticipated performance. In those industry segments where we are a capital equipment provider, revenues depend on the capital expenditure budgets and spending patterns of our customers, who may delay or accelerate purchases in reaction to changes in their businesses and in the economy.

Our revenues from continuing operations for the first nine months of 2008 increased 48.4% compared with the same period in 2007, primarily associated with the Trane acquisition. Excluding the results of Trane, our revenues from continuing operations for the first nine months of 2008 increased approximately 5.7% compared with the same period of 2007, despite an increasingly challenging economic environment.

The recent extreme volatility and disruption of financial markets in the United States, Europe and Asia have contributed to weakening worldwide economic conditions. In addition, the uncertainty related to the cost and availability of credit has further depressed the overall business climate. As a result, many of our end markets have experienced overall softening in demand. Consequently, we expect to see declining markets in North America and Western Europe, partially offset by moderate growth in the developing economies of Eastern Europe, Asia and Latin America. Despite the current economic turmoil, we have a solid foundation of global brands and leading market shares in all of our major product lines. In addition, our growing geographic and industry diversity coupled with our large installed product base provides growth opportunities within our service, parts and replacement revenue streams.

Recent Developments

Restructuring Actions

In order to deal with the current and expected future slowing end market demand as well as build a strong business foundation for the future, we have implemented productivity actions in 2008. In addition, in the fourth quarter of 2008, we expect to initiate enterprise-wide restructuring actions in order to streamline both our manufacturing footprint and our general and administrative cost base. Projected costs will approximate \$110 million with a majority of these costs expected to be expensed in 2008. Together, these combined actions are expected to generate approximately \$100 million of annual pretax savings in both 2009 and 2010.

Acquisitions

At the close of business on June 5, 2008 (the Acquisition Date), we completed our previously announced acquisition of 100% of the outstanding common shares of Trane Inc. (Trane). Trane, previously named American Standard Companies Inc., provides systems and services that enhance the quality and comfort of the air in homes and buildings around the world. Trane's systems and services have leading positions in premium commercial, residential, institutional and industrial markets, a reputation for reliability, high quality and product innovation and a powerful distribution network. Trane's 2007 annual revenues were \$7.5 billion.

We paid a combination of (i) 0.23 of an IR Limited Class A common share and (ii) \$36.50 in cash, without interest, for each outstanding share of Trane common stock. The total cost of the acquisition was approximately \$9.6 billion, including change in control payments and direct costs of the transaction. We financed the cash portion of the acquisition with a combination of cash on hand, commercial paper and a 364-day senior unsecured bridge loan facility.

The components of the purchase price were as follows:

In billions

Cash consideration	\$	7.3
Stock consideration (Issuance of 45.4 million IR Limited Class A common shares)		2.0
Estimated fair value of Trane stock options converted to 7.4 million IR Limited stock options		0.2
Transaction costs		0.1
Total	\$	9.6

As a result of the acquisition, the results of the operations of Trane have been included in the statement of financial position at September 30, 2008 and the consolidated statements of operations and cash flows since the Acquisition Date. For further details on the acquisition of Trane, see Footnote 3, Acquisition of Trane, Inc, in the Notes to Condensed Consolidated Financial Statements.

Divestitures

On November 30, 2007, we completed the sale of our Bobcat, Utility Equipment and Attachments business units (collectively, Compact Equipment) to Doosan Infracore for cash proceeds of approximately \$4.9 billion, subject to post-closing purchase price adjustments. We recorded a gain on sale of \$2,629.0 million (net of tax of \$959.2 million). Compact Equipment manufactures and sells compact equipment including skid-steer loaders, compact track loaders, mini-excavators and telescopic tool handlers; portable air compressors, generators, light towers; general-purpose light construction equipment; and attachments.

On April 30, 2007, we completed the sale of our Road Development business unit to AB Volvo (publ) in all countries except for India, which closed on May 4, 2007, for cash proceeds of approximately \$1.3 billion, subject to post-closing purchase price adjustments. We recorded a gain on sale of \$633.1 million (net of tax of \$163.3 million). The Road Development business unit manufactures and sells asphalt paving equipment, compaction equipment, milling machines and construction-related material handling equipment.

Results of Operations – Three Months Ended September 30, 2008 and 2007

<i>In millions, except per share amounts</i>	For the three months ended September 30,			
	2008	% of revenues	2007	% of revenues
Net revenues	\$ 4,313.2		\$ 2,239.0	
Cost of goods sold	(3,209.4)	74.4%	(1,608.2)	71.8%
Selling and administrative expenses	(756.4)	17.5%	(354.5)	15.9%
Operating income	347.4	8.1%	276.3	12.3%
Interest expense	(83.7)		(33.3)	
Other, net	(3.7)		(7.6)	
Earnings before income taxes	260.0		235.4	
Provision for income taxes	(26.3)		(37.8)	
Earnings from continuing operations	233.7		197.6	
Discontinued operations, net of tax	(6.0)		69.0	
Net earnings	\$ 227.7		\$ 266.6	
Diluted earnings per common share:				
Continuing operations	\$ 0.72		\$ 0.68	
Discontinued operations	(0.02)		0.24	
Net earnings	\$ 0.70		\$ 0.92	

Net Revenues

Net revenues for the third quarter of 2008 increased by 92.6%, or \$2,074.2 million, compared with 2007, which primarily resulted from the following:

Volume/product mix	-4.9%
Pricing	2.7%
Currency exchange rates	2.5%
Acquisitions	92.4%
Other	-0.1%
Total	92.6%

The acquisition of Trane increased revenues \$2,051.1 million. Excluding the results of Trane, revenues increased by 1.0%, or \$23.1 million. Softening overall demand in many major end markets was the primary driver of the quarter's results. Excluding currency exchange rates, organic revenues declined. However, we continue to make progress in increasing recurring revenues, which improved by 9% over the third quarter of 2007 and accounted for 20% of net revenues.

Cost of Goods Sold

Cost of goods sold as a percentage of revenue increased in the third quarter of 2008 to 74.4% compared with 71.8% for the same period of 2007. Excluding the results of Trane, cost of goods sold as a percentage of revenue would have been 72.3%. Higher material costs and unfavorable business and product mix more than offset price increases. In addition, decreased leverage due to lower volumes contributed to the year-over-year increase.

Selling and Administrative Expenses

Selling and administrative expenses as a percentage of revenue increased to 17.5% in the third quarter of 2008 compared with 15.9% for the same period of 2007. Excluding the results of Trane, selling and administrative expenses as a percentage of revenue would have been 16.3%. Decreased leverage due to lower volumes more than offset expense reduction and price increases. In addition, Trane integration costs added to the year-over-year increase.

Operating Income

Operating income for the third quarter of 2008 increased by 25.7% or \$71.1 million, compared with the same period of 2007, primarily related to the acquisition of Trane. Excluding the results of Trane, operating income decreased by \$18.4 million (6.7%), and operating margins decreased to 11.4% from 12.3%. This decrease was mainly due to lower volumes, increased material costs and unfavorable business and product mix. These decreases were partially offset by productivity actions and improved pricing.

Interest Expense

Interest expense for the third quarter of 2008 increased \$50.4 million compared with the same period of 2007, primarily related to higher average debt balances used to fund the acquisition of Trane.

Other, Net

The components of "Other, net" for the three months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,	
	2008	2007
Interest income	\$ 9.9	\$ 5.0
Exchange gain (loss)	(11.0)	(8.1)
Minority interests	(5.5)	(4.5)
Earnings from equity investments	1.4	-
Other	1.5	-
Other, net	\$ (3.7)	\$ (7.6)

Provision for Income Taxes

Our third quarter 2008 effective tax rate was 10.1%, compared with 16.1% in the third quarter of 2007. The rate for the third quarter of 2008 reflects an expected annual rate of 20.6% before discrete benefits of \$12.7 million. The increase in 2008 expected annual tax rate versus last year's expected annual rate as of September 30, 2007 is primarily attributable to an increase in income earned in higher tax rate jurisdictions as a result of changes in our inter-company debt structure.

Results of Operations – Nine Months Ended September 30, 2008 and 2007

<i>In millions, except per share amounts</i>	For the nine months ended September 30,			
	2008	% of revenues	2007	% of revenues
Net revenues	\$ 9,557.3		\$ 6,439.8	
Cost of goods sold	(6,946.4)	72.7%	(4,613.8)	71.6%
Selling and administrative expenses	(1,654.9)	17.3%	(1,067.0)	16.6%
Operating income	956.0	10.0%	759.0	11.8%
Interest expense	(156.4)		(99.8)	
Other, net	61.4		0.9	
Earnings before income taxes	861.0		660.1	
Provision for income taxes	(153.2)		(97.9)	
Earnings from continuing operations	707.8		562.2	
Discontinued operations, net of tax	(42.4)		886.0	
Net earnings	\$ 665.4		\$ 1,448.2	
Diluted earnings per common share:				
Continuing operations	\$ 2.38		\$ 1.87	
Discontinued operations	(0.14)		2.95	
Net earnings	\$ 2.24		\$ 4.82	

Net Revenues

Net revenues for the first nine months of 2008 increased by 48.4%, or \$3,117.5 million, compared with 2007, which primarily resulted from the following:

Volume/product mix	-1.3%
Pricing	2.6%
Currency exchange rates	3.6%
Acquisitions	43.5%
Other	0.0%
Total	48.4%

The acquisition of Trane increased revenues by \$2,749.0 million. Excluding the results of Trane, revenues increased by 5.7%, or \$368.5 million. Softening overall demand in many major end markets was the primary driver of the modest year-over-year growth. Excluding currency exchange rates, organic revenues increased modestly. However, we continue to make progress in increasing recurring revenues, which improved by 10% over the first nine months of 2007 and accounted for 19% of net revenues.

Cost of Goods Sold

Cost of goods sold as a percentage of revenue increased to 72.7% in the first nine months of 2008 compared with 71.6% the same period of 2007. Excluding the results of Trane, cost of goods sold as a percentage of revenue would have been 71.6%. Higher material costs and unfavorable business and product mix more than offset price increases. In addition, decreased leverage due to lower volumes contributed to the year-over-year increase.

Selling and Administrative Expenses

Selling and administrative expenses as a percentage of revenue increased to 17.3% in the first nine months of 2008 compared with 16.6% for the same period of 2007. Excluding the results of Trane, selling and administrative expense as a percentage of revenue would have been 16.6%. Decreased leverage due to lower volumes more than offset expense reduction and price increases. In addition, Trane integration costs added to the year-over-year increase.

Operating Income

Operating income for the first nine months of 2008 increased by 26.0% or \$197.0 million, compared with the same period of 2007, primarily related to the acquisition of Trane. Excluding the results of Trane, operating income increased by \$41.4 million (5.5%) and operating margins remained flat at 11.8%. Lower volumes, higher commodity costs and an unfavorable business and product mix were offset by expense reduction, productivity actions and improved pricing. Trane integration costs also contributed to flat year-over-year growth.

Interest Expense

Interest expense for the first nine months of 2008 increased \$56.6 million compared with the same period of 2007, primarily related to higher average debt balances used to fund the acquisition of Trane.

Other, Net

The components of "Other, net" for the nine months ended September 30 are as follows:

<i>In millions</i>	Nine months ended September 30,			
		2008		2007
Interest income	\$	86.9	\$	14.9
Exchange gain (loss)		(15.5)		0.6
Minority interests		(15.9)		(11.6)
Earnings from equity investments		2.6		0.1
Other		3.3		(3.1)
Other, net	\$	61.4	\$	0.9

Provision for Income Taxes

Our effective tax rate for the first nine months of 2008 was 17.8%, compared with 14.8% in the first nine months of 2007. The rate for the nine months ended September 30, 2008 reflects an expected annual rate of 20.6% before discrete benefits of \$24.9 million. The increase in 2008 expected annual tax rate versus last year's expected annual rate as of September 30, 2007 is primarily attributable to an increase in income earned in higher tax rate jurisdictions as a result of changes in our inter-company debt structure.

Review of Business Segments

We classify our businesses into four reportable segments based on industry and market focus: Air Conditioning Systems and Services, Climate Control Technologies, Industrial Technologies and Security Technologies. The segment discussions that follow describe the significant factors contributing to the changes in results for each segment included in continuing operations.

Air Conditioning Systems and Services

Air Conditioning Systems and Services provide systems and services that enhance the quality and comfort of the air in homes and buildings around the world. They offer customers a broad range of energy-efficient heating, ventilation and air conditioning systems; dehumidifying and air cleaning products; service and parts support; advanced building controls; and financing solutions. Their systems and services have leading positions in commercial, residential, institutional and industrial markets; a reputation for reliability, high quality and product innovation; and a powerful distribution network. This segment includes the American Standard and Trane brands.

<i>In millions</i>	Three months ended September 30	Nine months ended September 30
Net revenues	\$ 2,051.1	\$ 2,749.0
Operating income	89.5	155.6
Operating margin	4.4%	5.7%

The nine months ended September 30, 2008 include results since the Acquisition Date (June 5, 2008).

Operating income for the three months ended September 30, 2008 includes \$149.9 million of costs related to purchase accounting. We expect \$41.5 million of these costs to be an incremental expense in future periods as they primarily relate to the amortization of certain intangible assets that were fair valued at the Acquisition Date. In addition, we recorded \$13.3 million of severance and other business integration costs associated with the acquisition. Operating income was \$89.5 million for the three months ended September 30, 2008. Excluding non-recurring items, operating income would have been \$197.9 million, increasing the operating margin to 9.6%.

Reported results for revenues and operating income for the three months and 25 days ended September 30, 2008 reflect year-to-date activity since the Acquisition Date (June 6, 2008 through September 30, 2008). Included in operating income is \$194.9 million of costs related to purchase accounting. The Company expects \$51.1 million of these costs to be an incremental expense in future periods as they primarily relate to the amortization of certain intangible assets that were fair valued as of the Acquisition Date. In addition, the Company recorded \$23.6 million of severance and other business integration costs associated with the acquisition. Operating income was \$155.6 million for the three months and 25 days ended September 30, 2008. Excluding non-recurring items, operating income would have been \$299.4 million, increasing the operating margin to 10.9%.

Commercial results were balanced due to growth in both domestic and international markets. Parts, services and solutions improvements were primary drivers, in addition to Commercial Equipment. Residential results were impacted by continued weakness in the U.S. housing market.

Climate Control Technologies

Climate Control Technologies provides solutions for customers to transport, preserve, store and display temperature-sensitive products by engaging in the design, manufacture, sale and service of transport temperature control units, refrigerated display merchandisers, beverage coolers, auxiliary power units and walk-in storage coolers and freezers. This segment includes the Thermo King, Hussmann and Koxka brands.

<i>In millions</i>	Three months ended			Nine months ended		
	2008	2007	% change	2008	2007	% change
Net revenues	\$ 895.0	\$ 882.1	1.5%	\$ 2,605.3	\$ 2,457.0	6.0%
Operating income	103.0	100.1	2.9%	297.9	269.2	10.7%
Operating margin	11.5%	11.3%		11.4%	11.0%	

Net revenues for the third quarter of 2008 increased by 1.5% or \$12.9 million, compared with the same period of 2007, primarily resulting from a favorable currency impact (4%) and improved pricing (1%). These gains were partially offset by lower volumes (3%). Operating income increased slightly during the third quarter of 2008, primarily due to improved pricing (\$11 million), increased productivity (\$9 million) and a favorable currency impact. These improvements were offset by higher material costs (\$17 million) and lower volumes.

Net revenues for the first nine months of 2008 increased by 6.0% or \$148.3 million, compared with the same period of 2007, primarily resulting from a favorable currency impact (5%) and improved pricing (1%). Operating income increased during the first nine months of 2008, primarily due to increased productivity (\$42 million), improved pricing (\$32 million) and a favorable currency impact (\$11 million). These improvements were partially offset by higher material costs (\$33 million), lower volumes (\$14 million) and investments in new product development and productivity improvements (\$9 million).

Net revenues for the segment increased slightly during the third quarter of 2008. Display cases and contracting revenue increased worldwide as a result of an improved market for display cases and growing parts and service revenues. In addition, sales of the TriPac® auxiliary unit increased sharply during the quarter due to the continued high cost of diesel fuel. The decline in the heavy truck market decreased refrigerated trailer and truck revenues in North America and Asia Pacific. Sea-going container revenues also decreased while bus and aftermarket revenues remained comparable to the prior year.

Industrial Technologies

Industrial Technologies is focused on providing solutions to enhance customers' industrial and energy efficiency, mainly by engaging in the design, manufacture, sale and service of compressed air systems, tools, fluid and material handling, golf and utility vehicles and energy generation systems. This segment includes the Ingersoll Rand and Club Car brands.

<i>In millions</i>	Three months ended September 30,			Nine months ended September 30,		
	2008	2007	% change	2008	2007	% change
Net revenues	\$ 718.3	\$ 701.5	2.4%	\$ 2,267.8	\$ 2,119.1	7.0%
Operating income	81.4	93.4	-12.8%	283.4	294.4	-3.7%
Operating margin	11.3%	13.3%		12.5%	13.9%	

Net revenues for the third quarter of 2008 increased by 2.4%, or \$16.8 million, compared with the same period of 2007, mainly resulting from a favorable currency impact (2%), improved pricing (2%) and acquisitions (2%) partially offset by lower volumes (4%). Operating income decreased during the third quarter of 2008 primarily due to higher material costs (\$19 million) and lower volumes (\$16 million). These costs were partially offset by improved pricing (\$16 million) and increased productivity (\$15 million).

Net revenues for the first nine months of 2008 increased by 7.0%, or \$148.7 million, compared with the same period of 2007, mainly resulting from a favorable currency impact (3%), improved pricing (2%) and acquisitions (2%). Operating income decreased during the first nine months of 2008 primarily due to higher material costs (\$50 million) and lower volumes (\$15 million). These improvements were partially offset by improved pricing (\$47 million) and increased productivity.

The increase in segment revenue was driven by the worldwide increase in the Air and Productivity Solutions business. Stable industrial and process markets in Europe, Asia and India in addition to aftermarket growth helped to mitigate a weakening North American market where higher recurring revenues were offset by lower equipment volumes. Club Car revenues declined compared with the third quarter of 2007 mainly due to the ongoing decline in the North American golf market and a softening utility vehicle market. The decline was partially offset by overall market share gains.

Security Technologies

Security Technologies is engaged in the design, manufacture, sale and service of mechanical and electronic security products, biometric access control systems and security and scheduling software. This segment includes the Schlage, LCN, Von Duprin and CISA brands.

<i>In millions</i>	Three months ended September 30,			Nine months ended September 30,		
	2008	2007	% change	2008	2007	% change
Net revenues	\$ 648.8	\$ 655.4	-1.0%	\$ 1,935.2	\$ 1,863.7	3.8%
Operating income	126.0	112.8	11.7%	353.3	311.8	13.3%
Operating margin	19.4%	17.2%		18.3%	16.7%	

Net revenues for the third quarter of 2008 decreased by 1%, or \$6.6 million, compared with the same period of 2007, mainly resulting from lower volumes (7%) partially offset by improved pricing (5%) and a favorable currency impact (1%). Operating income increased during the third quarter of 2008 primarily due to improved pricing (\$34 million) and productivity gains (\$9 million), partially offset by unfavorable product mix (\$16 million).

Net revenues for the first nine months of 2008 increased by 3.8%, or \$71.5 million, compared with the same period of 2007, mainly resulting from improved pricing (5%) and a favorable currency impact (3%) partially offset by lower volumes. Operating income increased during the first nine months of 2008, primarily due to improved pricing (\$87 million) and productivity gains (\$36 million), partially offset by unfavorable product mix (\$47 million) and increased material costs (\$12 million).

Net revenues decreased during the quarter driven by lower residential volume in North America. Lower same store sales at large customers as well as ongoing weakness in the new homebuilder channel were partially offset by revenue growth in Latin America. Slight growth in the North American commercial construction market in addition to moderate growth in Europe helped revenues remain consistent with prior year amounts despite a slight decline in Asia Pacific.

Discontinued Operations

The components of discontinued operations for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Revenues	\$ 0.1	\$ 714.0	\$ 15.3	\$ 2,410.8
Pre-tax earnings (loss) from operations	(11.0)	93.6	(34.0)	295.2
Pre-tax gain (loss) on sale	0.1	1.1	(5.5)	805.8
Tax expense	4.9	(25.7)	(2.9)	(215.0)
Discontinued operations, net of tax	\$ (6.0)	\$ 69.0	\$ (42.4)	\$ 886.0

Discontinued operations by business for the three and nine months ended September 30 is as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Compact Equipment, net of tax	\$ -	\$ 84.5	\$ (22.9)	\$ 226.7
Road Development, net of tax	-	1.1	(1.8)	695.2
Other discontinued operations, net of tax	(6.0)	(16.6)	(17.7)	(35.9)
Total discontinued operations, net of tax	\$ (6.0)	\$ 69.0	\$ (42.4)	\$ 886.0

Compact Equipment Divestiture

On July 29, 2007, we agreed to sell our Bobcat, Utility Equipment and Attachments business units (collectively, Compact Equipment) to Doosan Infracore for gross proceeds of approximately \$4.9 billion. The sale was completed on November 30, 2007. The purchase price is subject to post-closing adjustments which could result in a favorable or unfavorable adjustment to the gain on sale when ultimately resolved.

Compact Equipment manufactures and sells compact equipment, including skid-steer loaders, compact track loaders, mini-excavators and telescopic tool handlers; portable air compressors, generators and light towers; general-purpose light construction equipment; and attachments. We have accounted for Compact Equipment as discontinued operations for all periods presented in accordance with Statement of Financial Accounting Standard No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS 144).

Net revenues and after-tax earnings of Compact Equipment for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net revenues	\$ 0.1	\$ 709.7	\$ 15.3	\$ 2,162.1
Earnings from operations, net of tax	-	84.5	0.1	226.7
Gain on sale, net of tax	-	-	(23.0)	-
Total discontinued operations, net of tax	\$ -	\$ 84.5	\$ (22.9)	\$ 226.7

Road Development Divestiture

On February 27, 2007, we agreed to sell our Road Development business unit to AB Volvo (publ) for cash proceeds of approximately \$1.3 billion. The sale was completed on April 30, 2007 in all countries except for India, which closed on May 4, 2007. The purchase price has been finalized with the buyer and we will record final adjustments in the fourth quarter of 2008.

The Road Development business unit manufactures and sells asphalt paving equipment, compaction equipment, milling machines and construction-related material handling equipment. We have accounted for the Road Development business unit as discontinued operations for all periods presented in accordance with SFAS 144.

Net revenues and after-tax earnings of the Road Development business unit for the three and nine months ended September 30, are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net revenues	\$ -	\$ 4.3	\$ -	\$ 248.7
Earnings from operations, net of tax	(0.1)	0.2	(0.2)	18.6
Gain on sale, net of tax	0.1	0.9	(1.6)	676.6
Total discontinued operations, net of tax	\$ -	\$ 1.1	\$ (1.8)	\$ 695.2

Other Discontinued Operations

We also have retained costs from previously sold businesses that mainly include costs related to postretirement benefits, product liability and legal costs (mostly asbestos-related). The components of other discontinued operations for the three and nine months ended September 30 are as follows:

<i>In millions</i>	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Retained costs, net of tax	\$ (6.0)	\$ (16.7)	\$ (17.7)	\$ (36.3)
Net gain on disposals, net of tax	-	0.1	-	0.4
Total discontinued operations, net of tax	\$ (6.0)	\$ (16.6)	\$ (17.7)	\$ (35.9)

Retained costs, net of tax for the nine months ended September 30, 2008 includes \$6.5 million of after-tax costs related to an adverse verdict in a product liability lawsuit associated with a previously divested business.

Liquidity and Capital Resources

We generate significant cash flow from operating activities. We believe that we will be able to meet our current and long-term liquidity and capital requirements through our cash flow from operating activities, existing cash and cash equivalents, available borrowings under existing credit facilities and our ability to obtain future external financing.

Cash Flows

The following table reflects the major categories of cash flows for the nine months ended September 30, respectively. For additional details, see the Condensed Consolidated Statement of Cash Flows in the condensed consolidated financial statements.

<i>In millions</i>	2008	2007
Operating cash flow provided by (used in) continuing operations	\$ 1.3	\$ 465.4
Investing cash flow provided by (used in) continuing operations	(7,211.1)	1,218.1
Financing cash flow provided by (used in) continuing operations	3,202.8	(1,558.7)

Operating Activities

Net cash provided by continuing operating activities during the nine months ended September 30, 2008 was \$1.3 million, compared with net cash provided by operating activities of \$465.4 million during the comparable period in 2007. The change in operating cash flows is predominantly related to a tax payment of approximately \$700 million in the first quarter of 2008 paid to various taxing authorities primarily associated with the Compact Equipment divestiture. In addition, cash flows from operating activities includes Trane cash flows from operations since June 5, 2008.

Investing Activities

Net cash used by investing activities during the nine months ended September 30, 2008 was \$7,211.1 million, compared with \$1,218.1 million of net cash provided by investing activities during the comparable period of 2007. The change in investing activities is primarily attributable to cash used for the acquisition of Trane in 2008. In addition, during the nine months ended September 30, 2007, net cash proceeds of \$1,291.7 million was received related to the sale of the Road Development business unit.

Financing Activities

Net cash provided by financing activities during the nine months ended September 30, 2008 was \$3,202.8 million, compared with \$1,558.7 million of net cash used in financing activities during the comparable period in 2007. The change in financing activities primarily relates to the outstanding balance of both the bridge loan facility and commercial paper used to finance the acquisition of Trane in addition to the net proceeds from our long-term debt issuance.

Other Liquidity Measures

The following table contains several key measures to gauge the Company's financial condition and liquidity at the period ended:

<i>In millions</i>	September 30 2008	December 31, 2007
Cash and cash equivalents	\$ 741.5	\$ 4,735.3
Total debt	5,515.7	1,453.7
Total shareholders' equity	10,702.8	7,907.9
Debt-to-total capital ratio	33.8%	15.4%

The large cash and cash equivalents balance at December 31, 2007 is attributable to the sale of both Compact Equipment and the Road Development business unit during 2007, which generated proceeds of \$6,154.3 million. The reduction at September 30, 2008 is a result of the acquisition of Trane.

In connection with the Trane acquisition, we entered into a \$3.9 billion senior unsecured bridge loan facility, with a 364-day term, which was subsequently reduced to \$3.4 billion. We drew down \$2.95 billion against the bridge loan facility in June 2008. The proceeds, along with cash on hand as well as the issuance of \$1.5 billion in commercial paper, were used to fund the cash component of the consideration paid for the acquisition as well as to pay related fees and expenses incurred in connection with the acquisition.

In August 2008, we filed a universal shelf registration statement with the Securities and Exchange Commission (SEC) for an indeterminate amount of securities for future issuance and issued \$1.6 billion of long-term debt pursuant to the shelf registration statement. This issuance consisted of \$250 million Senior Floating Rate Notes due in 2010, \$600 million 6.000% Senior Notes due in 2013 and \$750 million 6.875% Senior Notes due in 2018. These notes are fully and unconditionally guaranteed by IR Limited, which directly owns 100% of the subsidiary issuer. The net proceeds from the offering were used to partially reduce the amount outstanding under the senior unsecured bridge loan facility.

Interest on the fixed rate notes will be paid twice a year. We have the option to redeem them in whole or in part at any time, and from time to time, prior to their stated maturity date at redemption prices set forth in the debt offering documents. Interest on the floating rate notes will be paid four times a year. The notes are subject to certain customary covenants, however, none of these covenants are considered restrictive to our operations. As of September 30, 2008, we are in compliance with all of our debt covenants.

During the third quarter, we repaid \$2.0 billion of the outstanding balance of the bridge loan facility. We used a combination of cash flows from operations and cash on hand, in addition to the \$1.6 billion in proceeds received from the issuance of long-term debt. In October 2008, we reduced the facility size to \$950 million.

During the second quarter, we entered into a \$1.0 billion senior unsecured revolving credit facility with a three-year term. This three-year credit facility will be used to support working capital, the commercial paper program and for other general corporate purposes.

In addition to the three-year credit facility, we have committed revolving credit facilities consisting of two lines totaling \$2.0 billion, of which \$750 million expires in June 2009 and \$1.25 billion expires in August 2010. These lines are unused and provide support for other financing instruments, such as letter of credit as required in the normal course of business as well as support for the commercial paper program.

At September 30, 2008, we had outstanding \$547.9 million of 30-year fixed rate debentures which requires early repayment only at the option of the holder. These debentures contain a put feature that the holders may exercise on each anniversary of the issuance date. If exercised, we are obligated to repay in whole or in part, at the holder's option, the outstanding principal amount (plus accrued and unpaid interest) of the debentures held by the holder. If these options are not exercised, the final maturity dates would range between 2027 and 2028. In October 2008, holders of these debentures chose to exercise the put feature on approximately \$248 million of the debentures, which will be repaid in November 2008. In the first quarter of 2009, holders of these debentures will have the option to exercise the put feature on approximately \$40 million of the remaining debentures. In the fourth quarter of 2009, holders of these debentures will have the option to exercise the put feature on approximately \$260 million of the remaining debentures.

The global financial markets have been adversely affected by the current economic environment. The credit markets, including the commercial paper markets, have recently experienced adverse conditions including unprecedented volatility, reduced liquidity, increases in interest rates and inflation. These factors increase costs associated with issuing commercial paper or other debt instruments and may affect our ability to access these markets. We currently believe that our cash and cash equivalents balance, cash generated by our operations, in addition to our access to external sources of funds as described above will be sufficient to meet our operating and capital needs for the foreseeable future.

Pensions

Our investment objectives in managing defined benefit plan assets are to ensure that present and future benefit obligations to all participants and beneficiaries are met as they become due; to provide a total return that, over the long term, minimizes the present value of our required contributions, at the appropriate levels of risk; and to meet any statutory requirements, laws and local regulatory agencies' requirements.

As a result of current market environment, we expect negative returns in our pension plans during 2008. Consequently, this will increase pension expense in 2009 and potentially require future cash contributions to our pension plan. However, none of our pension plans have experienced any significant impact on liquidity due to the volatility in the markets. We are monitoring the impact of the market conditions on our pension expense and funding requirements in 2009. We will disclose the impacts on 2009 in our Annual Report on Form 10-K, which we expect to file with the SEC in February 2009.

For a further discussion of Liquidity and Capital Resources, refer to Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," contained in the Company's Annual Report on Form 10-K for the period ended December 31, 2007.

Commitments and Contingencies

We are involved in various litigations, claims and administrative proceedings, including environmental and product liability matters. Amounts recorded for identified contingent liabilities are estimates, which are reviewed periodically and adjusted to reflect additional information when it becomes available. Subject to the uncertainties inherent in estimating future costs for contingent liabilities, management believes that the liability which may result from these legal matters would not have a material adverse effect on the financial condition, results of operations, liquidity or cash flows.

Environmental Matters

We continue to be dedicated to an environmental program to reduce the utilization and generation of hazardous materials during the manufacturing process and to remediate identified environmental concerns. As to the latter, we are currently engaged in site investigations and remediation activities to address environmental cleanup from past operations at current and former manufacturing facilities.

We are sometimes a party to environmental lawsuits and claims and have received notices of potential violations of environmental laws and regulations from the Environmental Protection Agency and similar state authorities. We have also been identified as a potentially responsible party (PRP) for cleanup costs associated with off-site waste disposal at federal Superfund and state remediation sites. For all such sites, there are other PRPs and, in most instances, our involvement is minimal.

In estimating our liability, we have assumed we will not bear the entire cost of remediation of any site to the exclusion of other PRPs who may be jointly and severally liable. The ability of other PRPs to participate has been taken into account, based generally on the parties' financial condition and probable contributions on a per site basis. Additional lawsuits and claims involving environmental matters are likely to arise from time to time in the future.

During the three and nine month periods ended September 30, 2008, we spent \$4.0 million and \$10.3 million, respectively, for environmental remediation expenditures at sites presently or formerly owned or leased by us. As of September 30, 2008 and December 31, 2007, we have recorded reserves of \$103.4 million and \$101.8 million, respectively, for environmental matters. We believe that these expenditures will continue and may increase over time. Given the evolving nature of environmental laws, regulations and technology, the ultimate cost of future compliance is uncertain.

Asbestos Matters

Certain wholly owned subsidiaries of the Company are named as defendants in asbestos-related lawsuits in state and federal courts. In virtually all of the suits, a large number of other companies have also been named as defendants. The vast majority of those claims has been filed against either Ingersoll Rand Company (IR-New Jersey) and Trane and generally allege injury caused by exposure to asbestos contained in certain current and historical products sold by IR-New Jersey and Trane, primarily pumps, boilers and railroad brake shoes. Neither IR-New Jersey nor Trane was a producer or manufacturer of asbestos, however, some formerly manufactured products utilized asbestos-containing components such as gaskets and packings purchased from third-party suppliers.

Prior to the fourth quarter of 2007, the Company recorded a liability (which it periodically updated) for its actual and anticipated future asbestos settlement costs projected seven years into the future. The Company did not record a liability for future asbestos settlement costs beyond the seven-year period covered by its reserve because such costs previously were not reasonably estimable for the reasons detailed below.

In the fourth quarter of 2007, the Company again reviewed its history and experience with asbestos-related litigation and determined that it had now become possible to make a reasonable estimate of its total liability for pending and unasserted potential future asbestos-related claims. This determination was based upon the Company's analysis of developments in asbestos litigation, including the substantial and continuing decline in the filing of non-malignancy claims against the Company, the establishment in many jurisdictions of inactive or deferral dockets for such claims, the decreased value of non-malignancy claims because of changes in the legal and judicial treatment of such claims, increasing focus of the asbestos litigation upon malignancy claims, primarily those involving mesothelioma, a cancer with a known historical and predictable future annual incidence rate, and the Company's substantial accumulated experience with respect to the resolution of malignancy claims, particularly mesothelioma claims, filed against it.

Accordingly, in the fourth quarter of 2007, the Company retained Dr. Thomas Vasquez of Analysis, Research & Planning Corporation (collectively, "ARPC") to assist it in calculating an estimate of the Company's total liability for pending and unasserted future asbestos-related claims. ARPC is a respected expert in performing complex calculations such as this. ARPC has been involved in many asbestos-related valuations of current and future liabilities, and its valuation methodologies have been accepted by numerous courts.

The methodology used by ARPC to project the Company's total liability for pending and unasserted potential future asbestos-related claims relied upon and included the following factors, among others:

- ARPC's interpretation of a widely accepted forecast of the population likely to have been occupationally exposed to asbestos;
- epidemiological studies estimating the number of people likely to develop asbestos-related diseases such as mesothelioma and lung cancer;
- the Company's historical experience with the filing of non-malignancy claims against it and the historical ratio between the numbers of non-malignancy and lung cancer claims filed against the Company;
- ARPC's analysis of the number of people likely to file an asbestos-related personal injury claim against the Company based on such epidemiological and historical data and the Company's most recent three-year claims history;
 - an analysis of the Company's pending cases, by type of disease claimed;
- an analysis of the Company's most recent three-year history to determine the average settlement and resolution value of claims, by type of disease claimed;
- an adjustment for inflation in the future average settlement value of claims, at a 2.5% annual inflation rate, adjusted downward to 1.5% to take account of the declining value of claims resulting from the aging of the claimant population;
- an analysis of the period over which the Company has and is likely to resolve asbestos-related claims against it in the future.

Based on these factors, ARPC calculated a total estimated liability of \$755 million for the Company to resolve all pending and unasserted potential future claims through 2053, which is ARPC's reasonable best estimate of the time it will take to resolve asbestos-related claims. This amount is on a pre-tax basis, not discounted for the time-value of money, and excludes the Company's defense fees (which will continue to be expensed by the Company as they are incurred). After considering ARPC's analysis and the factors listed above, in the fourth quarter of 2007, the Company increased its recorded liability for asbestos claims by \$538 million, from \$217 million to \$755 million.

In addition, during the fourth quarter of 2007, the Company recorded an \$89 million increase in its assets for probable asbestos-related insurance recoveries to \$250 million. This represents amounts due to the Company for previously paid and settled claims and the probable reimbursements relating to its estimated liability for pending and future claims. In calculating this amount, the Company used the estimated asbestos liability for pending and projected future claims calculated by ARPC. It also considered the amount of insurance available, gaps in coverage, allocation methodologies, solvency ratings and creditworthiness of the insurers, the amounts already recovered from and the potential for settlements with insurers, and the terms of existing settlement agreements with insurers.

During the fourth quarter of 2007, the Company recorded a non-cash charge to earnings of discontinued operations of \$449 million (\$277 million after tax), which is the difference between the amount by which the Company increased its total estimated liability for pending and projected future asbestos-related claims and the amount that the Company expects to recover from insurers with respect to that increased liability.

In connection with our acquisition of Trane, the Company requested ARPC to assist in calculating Trane's asbestos-related valuations of current and future liabilities. As required by SFAS No. 141, "Business Combinations," the Company is required to record the assumed asbestos obligations and associated insurance-related assets at their fair value at the Acquisition Date. The Company preliminarily estimates that the assumed asbestos obligation and associated insurance-related assets at the Acquisition Date to be \$494 million and \$249 million, respectively. These amounts were estimated based on certain assumptions and factors consistent with those described above.

Trane continues to be in litigation against certain carriers whose policies it believes provide coverage for asbestos claims. The insurance carriers named in this suit have challenged Trane's right to recovery. Trane filed the action in April 1999 in the Superior Court of New Jersey, Middlesex County, against various primary and lower layer excess insurance carriers, seeking coverage for environmental claims (the "NJ Litigation"). The NJ Litigation was later expanded to also seek coverage for asbestos-related liabilities from twenty-one primary and lower layer excess carriers and underwriting syndicates. The environmental claims against most of the insurers in the NJ Litigation have been settled. On September 19, 2005, the court granted Trane's motion to add claims for insurance coverage for asbestos-related liabilities against 16 additional insurers and 117 new insurance policies to the NJ Litigation. The court also required the parties to submit all contested matters to mediation. Trane engaged in its first mediation session with the NJ Litigation defendants on January 18, 2006 and has engaged in active discussions since that time.

Trane has now settled with a substantial number of its insurers, collectively accounting for approximately 75% of its recorded asbestos-related liability insurance receivable as at September 30, 2008. More specifically, effective August 26, 2008, Trane entered into a coverage-in-place agreement (“August 26 Agreement”) with the following five insurance companies or groups: 1) Hartford; 2) Travelers; 3) Allstate (solely in its capacity as successor-in-interest to Northbrook Excess & Surplus Insurance Company); 4) Dairyland Insurance Company; and 5) AIG. The August 26 Agreement provides for the reimbursement by the insurer signatories of a portion of Trane’s costs for asbestos bodily injury claims under specified terms and conditions and in exchange for certain releases and indemnifications from Trane. In addition, on September 12, 2008, Trane entered into a settlement agreement with Mt. McKinley Insurance Company and Everest Reinsurance Company, both members of the Everest Re group, resolving all claims in the NJ Litigation involving policies issued by those companies (“Everest Re Agreement”). The Everest Re Agreement contains a number of elements, including policy buy-outs and partial buy-outs in exchange for a cash payment along with coverage-in-place features similar to those contained in the August 26 Agreement, in exchange for certain releases and indemnifications by Trane. Trane remains in settlement negotiations with the insurer defendants in the NJ Litigation not encompassed within the August 26 Agreement or Everest Re Agreement. Once concluded, we believe NJ Litigation will resolve coverage issues with respect to approximately 96% of Trane’s recorded insurance receivable in connection with asbestos-related liabilities.

The amounts recorded by the Company for asbestos-related liabilities and insurance-related assets are based on currently available information. The Company’s actual liabilities or insurance recoveries could be significantly higher or lower than those recorded if assumptions used in the Company’s or ARPC’s calculations vary significantly from actual results. Key variables in these assumptions are identified above and include the number and type of new claims to be filed each year, the average cost of resolution of each such new claim, the resolution of coverage issues with insurance carriers, and the solvency risk with respect to the Company’s insurance carriers. Furthermore, predictions with respect to these variables are subject to greater uncertainty as the projection period lengthens. Other factors that may affect the Company’s liability include uncertainties surrounding the litigation process from jurisdiction to jurisdiction and from case to case, reforms that may be made by state and federal courts, and the passage of state or federal tort reform legislation.

The aggregate amount of the stated limits in insurance policies available to the Company for asbestos-related claims acquired over many years and from many different carriers, is substantial. However, limitations in that coverage, primarily due to the considerations described above, are expected to result in the projected total liability to claimants substantially exceeding the probable insurance recovery.

From receipt of its first asbestos claims more than twenty five years ago to December 31, 2007, the Company has resolved (by settlement or dismissal) approximately 208,000 claims. The total amount of all settlements paid by the Company (excluding insurance recoveries) and by its insurance carriers is approximately \$308 million, for an average payment per resolved claim of \$1,480. The average payment per claim resolved during the year ended December 31, 2007 was \$7,491. This amount reflects the Company’s emphasis on resolution of higher value malignancy claims, particularly mesothelioma claims, rather than lower value non-malignancy claims, which are more heavily represented in the Company’s historical settlements. The table below provides additional information regarding asbestos-related claims filed against the Company:

	2005	2006	2007
Open claims - January 1	105,811	102,968	101,709
New claims filed	11,132	6,457	5,398
Claims settled	(12,505)	(6,558)	(5,005)
Claims dismissed	(1,470)	(1,158)	(1,479)
Open claims - December 31	102,968	101,709	100,623

From receipt of the first asbestos claim more than twenty years ago through December 31, 2007, Trane has resolved 61,002 (by settlement or dismissal) claims. Trane and its insurance carriers have paid settlements of approximately \$109.0 million, which represents an average payment per resolved claim of \$1,786. During 2007, 3,019 new claims were filed against Trane, 1,826 claims were dismissed and 740 claims were settled. At December 31, 2007, there were 105,023 open claims pending against Trane. Because claims are frequently filed and settled in large groups, the amount and timing of settlements, as well as the number of open claims, can fluctuate significantly from period to period.

The table below provides additional information regarding asbestos-related claims filed against Trane, reflecting updated information for the last three years.

	2005	2006	2007
Open claims - January 1	118,381	113,730	104,570
New claims filed	10,972	4,440	3,019
Claims settled	(954)	(848)	(740)
Claims dismissed	(14,544)	(12,751)	(1,826)
Other	(125)	(1)	-
Open claims - December 31	113,730	104,570	105,023

At September 30, 2008, over 90 percent of the open claims against the Company are non-malignancy claims, many of which have been placed on inactive or deferral dockets and the vast majority of which have little or no settlement value against the Company, particularly in light of recent changes in the legal and judicial treatment of such claims.

At September 30, 2008, our liability for asbestos related matters and the asset for probable asbestos-related insurance recoveries totaled \$1,210.7 million and \$439.3 million, respectively, compared to \$754.9 million and \$249.8 million at December 31, 2007.

The (costs) income associated with the settlement and defense of asbestos related claims after insurance recoveries were as follows:

<i>In millions</i>	Three months ended		Nine months ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Continuing operations	\$ 1.7	\$ -	\$ 0.9	\$ -
Discontinued operations	(2.5)	(7.1)	(2.4)	(27.1)
Total	\$ (0.8)	\$ (7.1)	\$ (1.5)	\$ (27.1)

We record certain income and expenses associated with our asbestos liabilities and corresponding insurance recoveries within discontinued operations, as they relate to previously divested businesses, primarily Ingersoll-Dresser Pump, which was sold in 2000. Income and expenses associated with Trane's asbestos liabilities and corresponding insurance recoveries are recorded within continuing operations.

Other

The following table represents the changes in the product warranty liability for the nine months ended September 30:

<i>In millions</i>	2008	2007
Balance at beginning of period	\$ 146.9	\$ 137.1
Reductions for payments	(130.2)	(53.9)
Accruals for warranties issued during the current period	137.3	61.0
Changes to accruals related to preexisting warranties	(0.7)	(2.0)
Acquisitions	476.0	-
Translation	(2.6)	4.1
Balance at end of period	\$ 626.7	\$ 146.3

We have other contingent liabilities for \$15.5 million. These liabilities primarily result from performance bonds, guarantees and stand-by letters of credit associated with the prior sale of products by divested businesses.

Critical Accounting Policies

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company bases these estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Management believes there have been no significant changes during the nine months ended September 30, 2008, to the items that the Company disclosed as its critical accounting policies and estimates in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Recently Adopted Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106 and 132(R)" (SFAS 158)". SFAS 158 requires an entity to recognize in its balance sheet the funded status of its defined benefit pension and postretirement plans. The standard also requires an entity to recognize changes in the funded status within Accumulated other comprehensive income, net of tax, to the extent such changes are not recognized in earnings as components of net periodic benefit cost. At December 31, 2006, the Company adopted the provisions of SFAS 158 for its postretirement and pension plans. The adoption of SFAS 158 resulted in a decrease of Total assets of \$476.0 million and Shareholders' equity of \$472.8 million (net of tax of \$268.2 million) and an increase of Total liabilities of \$265.0 million.

SFAS 158 also requires an entity to measure its defined benefit plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position. The measurement date provisions of SFAS 158 are effective for the Company for the fiscal year ending December 31, 2008. The Company has adopted the measurement provisions of SFAS 158, which did not have a material impact on the condensed consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 establishes a framework for measuring fair value that is based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information to develop those assumptions. Additionally, the standard expands the disclosures about fair value measurements to include disclosing the fair value measurements of assets or liabilities within each level of the fair value hierarchy. SFAS 157 is effective for the Company starting on January 1, 2008. Refer to Note 17, Fair Value Measurements to the condensed consolidated financial statements for a full discussion on SFAS 157.

Effective February 12, 2008, the Company adopted FASB Staff Position (FSP) No. 157-2, "Effective Date of FASB Statement No. 157" (FSP SFAS 157-2). This FSP delays the effective date of SFAS 157 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Due to the deferral, the Company has delayed its implementation of SFAS 157 provisions on the fair value of goodwill, indefinite-lived intangible assets and nonfinancial long-lived assets and liabilities.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (SFAS 159). SFAS 159 permits companies the option, at specified election dates, to measure financial assets and liabilities at their current fair value, with the corresponding changes in fair value from period to period recognized in the income statement. Additionally, SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar assets and liabilities. SFAS 159 is effective for the Company starting on January 1, 2008 and did not have a material impact to the condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations," (SFAS 141 (R)). This statement addresses financial accounting and reporting for business combinations and supersedes SFAS 141, "Business Combinations." SFAS 141(R) retains the fundamental requirements set forth in SFAS 141 regarding the purchase method of accounting, but expands the guidance in order to properly recognize and measure, at fair value, the identifiable assets acquired, liabilities assumed and any noncontrolling interest in the acquired business. In addition, the statement introduces new accounting guidance on how to recognize and measure contingent consideration, contingencies, acquisition and restructuring costs. SFAS 141(R) is effective for acquisitions occurring after January 1, 2009.

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No 51.” It clarifies that a noncontrolling interest in a subsidiary represents an ownership interest that should be reported as equity in the consolidated financial statements. In addition, the statement requires expanded income statement presentation and disclosures that clearly identify and distinguish between the interests of the Company and the interests of the non-controlling owners of the subsidiary. SFAS 160 is effective for the Company starting on January 1, 2009. The Company is currently evaluating the impact of adopting SFAS 160 on its financial statements.

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities – an amendment of SFAS No. 133. This statement amends and expands the disclosure requirements of SFAS 133, “Accounting for Derivative Instruments and Hedging Activities.” It requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for the Company starting on January 1, 2009. The Company is currently evaluating the impact of adopting SFAS 161 on its financial statements.

In May 2008, the FASB issued SFAS No. 162, “The Hierarchy of Generally Accepted Accounting Principles” (SFAS 162) and SFAS No. 163, “Accounting for Financial Guarantee Insurance Contracts-an interpretation of FASB No. 60” (SFAS 163). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS 163 clarifies practice in accounting for financial guarantee insurance contracts by insurance enterprises under FASB Statement No. 60, “Accounting and Reporting by Insurance Enterprises”. The Company does not believe these pronouncements will have a material impact on its financial statements.

Safe Harbor Statement

Information provided by the Company in reports such as this quarterly report on Form 10-Q, in press releases and in statements made by employees in oral discussions, to the extent the information is not historical fact, may be deemed to be “forward-looking statements” within the meaning of the federal securities laws. These statements are based on currently available information and are based on our current expectations and projections about future events. These statements are subject to risks and uncertainties that could cause actual results, performance or achievements to differ materially from anticipated results, performance or achievements.

These risks and uncertainties include, but are not limited to: fluctuations in commodity prices and shortages of raw materials; changes in interest rates and non-U.S. exchange rates; changes in the condition of, and the overall political landscape of, the economies in which we operate; our realization of expected financial benefits from the acquisition of Trane Inc. and our restructuring actions; changes in our credit ratings, the credit markets and macroeconomic conditions; amounts recorded for goodwill and indefinite-lived intangible assets; our ongoing compliance with the Foreign Corrupt Practices Act and other applicable anti-corruption laws; effect of legislation regarding U.S. companies which reincorporate outside of the U.S.; potential liabilities arising from an European Commission Investigation of European Union competition law; changes in the Internal Revenue Service interpretation of tax-free distributions under Section 355 of the Internal Revenue Code; unanticipated climatic changes and seasonal fluctuations; the costs and effects of legal and administrative proceedings; changes in tax laws, tax treaties or tax regulations or the interpretation or enforcement thereof; currency fluctuations; our ability to complete acquisitions on financially attractive terms and successfully integrate them with our other businesses; and the impact of new accounting standards.

Undue reliance should not be placed on such forward-looking statements as they speak only as of the date made. Additional information regarding these and other risks and uncertainties is contained in our periodic filings with the SEC, including, but not limited to, our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

There has been no significant change in our exposure to market risk during the third quarter of 2008. For a discussion of the Company's exposure to market risk, refer to Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Item 4 - Controls and Procedures

The Company's management, including its Chief Executive Officer and Chief Financial Officer, have conducted an evaluation of the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded as of September 30, 2008, that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this Quarterly Report on Form 10-Q has been recorded, processed, summarized and reported when required and the information is accumulated and communicated, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting that occurred during the third quarter of 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1 – Legal Proceedings

In the normal course of business, the Company is involved in a variety of lawsuits, claims and legal proceedings, including commercial and contract disputes, employment matters, product liability claims, environmental liabilities and intellectual property disputes. In the opinion of the Company, pending legal matters are not expected to have a material adverse effect on the results of operations, financial condition, liquidity or cash flows.

Oil for Food Program and FCPA matters

As previously reported, on November 10, 2004, the Securities and Exchange Commission (SEC) issued an Order directing that a number of public companies, including the Company, provide information relating to their participation in transactions under the United Nations' Oil for Food Program. Upon receipt of the Order, the Company undertook a thorough review of its participation in the Oil for Food Program, provided the SEC with information responsive to the Order and provided additional information requested by the SEC. During a March 27, 2007 meeting with the SEC, at which a representative of the Department of Justice (DOJ) was also present, the Company began discussions concerning the resolution of this matter with both the SEC and DOJ. On October 31, 2007, the Company announced it had reached settlements with the SEC and DOJ relating to this matter. Under the terms of the settlements, the Company paid a total of \$6.7 million in penalties, interest and disgorgement of profits. The Company has consented to the entry of a civil injunction in the SEC action and has entered into a three-year deferred prosecution agreement with the DOJ. Under both settlements, the Company will implement improvements to its compliance program that are consistent with its longstanding policy against improper payments. In the settlement documents, the Government noted that the Company thoroughly cooperated with the investigation, that the Company had conducted its own complete investigation of the conduct at issue, promptly and thoroughly reported its findings to them, and took prompt remedial measures.

In a related matter, on July 10, 2007, representatives of the Italian Guardia di Finanza (Financial Police) requested documents from Ingersoll-Rand Italiana S.p.A pertaining to certain Oil for Food transactions undertaken by that subsidiary of the Company. Such transactions have previously been reported to the SEC and DOJ, and the Company will continue to cooperate fully with the Italian authorities in this matter.

Additionally, we have reported to the DOJ and SEC that we are currently investigating certain matters involving Trane, including one relating to the Oil For Food Program, and which raise potential issues under the FCPA and other applicable anti-corruption laws. We have indicated to the SEC and DOJ that we are conducting a thorough investigation of these matters and that we would report back to them with our findings. The investigation of these matters began in earnest promptly after our acquisition of Trane in June 2008 and is currently in progress. Previously, we had reported to the SEC and DOJ potential FCPA issues relating to one of our businesses in China, and we have reported back to them and shared our audit report, which indicated no FCPA violations. These matters (and other matters which may arise or of which we become aware in the future) may be deemed to violate the FCPA and other applicable anti-corruption laws. Such determinations could subject us to, among other things, further enforcement actions by the SEC or the DOJ (if, for example, the DOJ deems us to have violated the DPA), securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock.

The European Commission Investigation

In November 2004, Trane was contacted by the European Commission as part of a multi-company investigation into possible infringement of European Union competition law relating to the distribution of bathroom fixtures and fittings in certain European countries. On March 28, 2007, Trane, along with a number of other companies, received a Statement of Objections from the European Commission. The Statement of Objections, an administrative complaint, alleges infringements of European Union competition rules by numerous bathroom fixture and fittings companies, including Trane and certain of its European subsidiaries engaged in the Bath and Kitchen business. Certain of these legal entities were transferred to WABCO as part of a legal reorganization in connection with the spinoff of Trane's Vehicle Control Systems business that occurred on July 31, 2007. Trane and certain of its subsidiaries and, in light of that legal reorganization, certain of WABCO's subsidiaries will be jointly and severally liable for any fines that result from the investigation. However, pursuant to an Indemnification and Cooperation Agreement among Trane and certain other parties (the "Indemnification Agreement"), American Standard Europe BVBA (renamed WABCO Europe BVBA) ("ASE"), which is a subsidiary of WABCO following the reorganization, will be responsible for, and will indemnify Trane and its subsidiaries (including certain subsidiaries formerly engaged in the Bath and Kitchen business) and their respective affiliates against, any fines related to this investigation. Trane and the charged subsidiaries responded to the European Commission on August 1, 2007 and July 31, 2007, respectively. A hearing with the European Commission regarding the response to the Statement of Objections was conducted from November 12-14, 2007, in Brussels. ASE and other former Trane subsidiaries participated in the hearing. Trane, however, did not participate in the hearing.

In 2006, the European Commission adopted new fining guidelines (the “2006 Guidelines”) and stated its intention to apply these guidelines in all cases in which a Statement of Objections is issued after September 2006. In applying the 2006 Guidelines, the Commission retains considerable discretion in calculating the fine although the European Union regulations provide for a cap on the maximum fine equal to ten percent of Trane’s worldwide revenue attributable to all of its products for the fiscal year prior to the year in which the fine is imposed. If the maximum fine is levied in 2008, the total liability could be approximately \$1.1 billion based on Trane’s worldwide revenue in 2007, subject to a probable reduction for leniency of at least 20 percent provided ASE, as the leniency applicant, fulfilled all conditions set forth in the European Commission’s leniency notice. The Company is confident in ASE’s ability to satisfy its obligations under the Indemnification Agreement because WABCO’s capital structure includes sufficient funds available under its existing credit facilities and only a minimal amount of debt at December 31, 2007.

Item 1A – Risk Factors

There have been no material changes to our risk factors contained in our Annual Report on Form 10-K for the period ended December 31, 2007, except as discussed below. For a further discussion of our Risk Factors, refer to Part I, Item 1A - Risk Factors contained in our Annual Report on Form 10-K for the period ended December 31, 2007.

Macroeconomic conditions, negative conditions in the financial, insurance and credit markets and changes in our credit ratings subject us to a number of risks.

The world financial markets have been experiencing extreme disruption in recent months, including, among other things, extreme volatility in security prices, severely diminished liquidity and credit availability, rating downgrades of certain investments and declining valuations of others. Governments have taken unprecedented actions intended to address extreme market conditions that include severely restricted credit and declines in asset values. While these conditions have not currently impaired our ability to access credit markets, insurance and finance our operations, there can be no assurance that there will not be further deterioration in the world financial markets, continued negative conditions in the global credit markets or a loss of confidence in the major economies, any of which may make it more difficult for us to obtain financing for our operations or increase the cost of obtaining financing as well as access insurance to manage risk.

In addition, our investment-grade credit ratings currently afford us lower borrowing rates on commercial paper, revolving credit agreements and debt offerings. Increased debt levels and/or decreased earnings could result in downgrades in our credit ratings, which, in turn, could impede access to the debt markets, reduce the total amount of commercial paper we could issue, raise our commercial paper borrowing costs and/or raise our long-term debt borrowing rates, including under our revolving credit agreements.

Finally, many of our customers rely on credit financing in order to purchase our products. If the tightening of credit in financial markets adversely affects the ability of our customers to obtain financing for significant purchases, this could result in a decrease in or cancellation of orders for our products and services. Our global business is also adversely affected by decreases in the general level of economic activity and in business and consumer spending.

Amounts recorded for goodwill and indefinite-lived intangible assets could be adversely impacted by current market conditions.

As disclosed in the Company's Annual Report on Form 10-K, the Company performs its annual impairment test of goodwill and indefinite-lived intangible assets in the fourth quarter of each year in accordance with FASB Statement No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). Under SFAS 142, the impairment test is based on the current fair market value of the reporting units for goodwill and the current fair market value of the individual indefinite-lived intangible asset. Fair market valuation requires assumptions and estimates of many critical factors, including revenue and market growth, operating cash flows, market multiples and discount rates. As general market conditions have deteriorated, the Company could experience a decline in the fair market value of reporting units and intangible assets. This decline could adversely affect the results of the impairment testing that will be performed in the fourth quarter and could potentially lead to a future impairment charge.

We may not realize the expected financial benefits from the acquisition of Trane Inc. and from recently announced restructuring actions.

On June 5, 2008, we completed our acquisition of Trane Inc. ("Trane"). Achieving the expected benefits of this acquisition will require us to increase the revenue growth rate of Trane, retain key employees of Trane and realize certain anticipated cost savings. Additionally, we announced further restructuring actions to deal with slowing end market demand. If we are unable to integrate our businesses successfully or implement these restructuring actions effectively, then we may fail to realize the anticipated synergies and growth opportunities or achieve the cost savings and revenue growth we anticipated from these actions.

We face continuing risks relating to compliance with the Foreign Corrupt Practices Act ("FCPA").

On November 10, 2004, the SEC issued an Order directing that a number of public companies, including us, provide information relating to their participation in certain transactions under the United Nations' Oil for Food Program. Upon receipt of the Order, we undertook a thorough review of our participation in the Oil for Food Program and provided the SEC with information responsive to its investigation of our participation in the program. On October 31, 2007, we announced that we had reached settlements with the SEC and the DOJ relating to certain payments made by our foreign subsidiaries in 2000-2003 in connection with the Oil For Food Program. Pursuant to the settlements with the SEC and DOJ, we have, among other things, (i) consented to the entry of a civil injunction in the SEC action, (ii) entered into a three-year deferred prosecution agreement ("DPA") with the DOJ, and (iii) agreed to implement improvements to our compliance program designed to enhance detection and prevention of violations of the FCPA and other applicable anti-corruption laws. If the DOJ determines, in its sole discretion, that we have committed a federal crime or have otherwise breached the DPA during its three-year term, we may be subject to prosecution for any federal criminal violation of which the DOJ has knowledge, including, without limitation, violations of the FCPA in connection with the Oil For Food Program. Breaches of the settlements with SEC and DOJ may also subject us to, among other things, further enforcement actions by the SEC or the DOJ, securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock. For a further discussion of the settlements with the SEC and DOJ, see "Legal Proceedings."

Furthermore, we have reported to the DOJ and SEC that we are currently investigating certain matters involving Trane, including one relating to the Oil For Food Program, and which raise potential issues under the FCPA and other applicable anti-corruption laws. We have indicated to the SEC and DOJ that we are conducting a thorough investigation of these matters and that we would report back to them with our findings. The investigation of these matters began in earnest promptly after our acquisition of Trane in June 2008 and is currently in progress. Previously, we had reported to the SEC and DOJ potential FCPA issues relating to one of our businesses in China, and we have reported back to them and shared with them our audit report, which indicated no FCPA violations. These matters (and other matters which may arise or of which we become aware in the future) may be deemed to violate the FCPA and other applicable anti-corruption laws. Such determinations could subject us to, among other things, further enforcement actions by the SEC or the DOJ (if, for example, the DOJ deems us to have violated the DPA), securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the market value of our stock.

Legislation regarding U.S. companies which reincorporate outside the U.S. could adversely affect us and our subsidiaries.

The U.S. federal government and various states and municipalities have enacted or may enact legislation intended to deny government contracts to U.S. companies that reincorporate outside of the U.S.

For instance, the Homeland Security Act of 2002 and later amended, included a provision that prohibits “inverted domestic corporations” and their subsidiaries from entering into contracts with the Department of Homeland Security under the Homeland Security Act. More recently, the 2008 Consolidated Appropriations Act (“the 2008 Act”), which became effective in December 2007, prohibits any federal government agency from using funds appropriated by Congress for fiscal year 2008 to pay an inverted domestic corporation or any of its subsidiaries for work performed or products provided under certain federal contracts (“Affected Contracts”). We may be deemed to be an inverted domestic corporation. Therefore, the federal government may be prohibited from making payments to us for work done under Affected Contracts. Consequently, we and our subsidiaries, including our recently acquired Trane subsidiaries, may not be paid for work performed pursuant to Affected Contracts while remaining contractually obligated to perform under those contracts. Although the amount of monies already paid to us or to be paid to us under the Affected Contracts is not material to the Company, legislation similar to the 2008 Act may be enacted for fiscal years beyond 2008.

In addition, the State of California adopted legislation intended to limit the eligibility of certain Bermuda and other non-U.S. chartered companies to participate in certain state contracts and the State of North Carolina enacted a bill that provides a preference for North Carolina or U.S. products and services.

Generally, these types of legislation relate to direct sales to federal and state government agencies, while some of our businesses typically sell products to third-party suppliers. However, we are unable to predict with any level of certainty either the likelihood of additional legislation or the nature of regulations that may be promulgated thereunder, or the impact such enactments and increased regulatory scrutiny may have on our business. If applicable to us, legislation of the type described in this risk factor may impact our future ability to obtain and perform under certain government contracts. Violations may give rise to civil or criminal penalties.

We cannot provide any assurance that the impact on us of any adopted or proposed legislation in this area will not be materially adverse to our operations.

We are relying on an indemnification agreement with respect to any potential liability arising from an European Commission Investigation into possible infringement of European Union competition law by Trane and its subsidiaries. If we were unable to rely on the indemnification agreement for any reason, any potential liability arising from the European Commission Investigation could have a material adverse effect on the Company's financial condition and results of operations.

In connection with Trane's spinoff of the Vehicle Control Systems business into a new publicly traded company called WABCO Holdings Inc. ("WABCO") in July 31, 2007, Trane entered into an Indemnification and Cooperation Agreement (the "Indemnification Agreement") with, among others, American Standard Europe BVBA (renamed WABCO Europe BVBA) ("WABCO Europe"), which became a subsidiary of WABCO following the spinoff. Pursuant to the Indemnification Agreement, WABCO Europe has agreed to indemnify Trane and its subsidiaries and their respective affiliates against any fines related to the European Commission Investigation. For a further discussion of European Commission Investigation, see "Legal Proceedings." If the European Commission were to impose in 2008 the maximum fine allowable pursuant to applicable guidelines, the total liability to the Company could be approximately \$1.1 billion based on Trane's worldwide revenue in 2007, subject to a probable reduction for leniency of at least 20 percent (provided WABCO Europe, as the leniency applicant, fulfilled all conditions set forth in the European Commission's leniency notice). We are confident in WABCO Europe's ability to satisfy its obligations under the Indemnification Agreement because WABCO's capital structure includes sufficient funds available under its existing credit facilities and only a minimal amount of debt as of December 31, 2007. However, if WABCO Europe were unable to satisfy its obligations under the Indemnification Agreement or if we were unable to rely on the Indemnification Agreement for any reason, any potential liability arising from the European Commission Investigation could have a material adverse effect on our financial condition and results of operations.

If the distribution of WABCO's shares by Trane on July 31, 2007 were to fail to qualify as tax-free for U.S. federal income tax purposes under Section 355 of the Internal Revenue Code (the "Code"), then Trane may be required to pay U.S. federal income taxes as well as Trane's shareholders who received WABCO common stock in the transaction.

On July 31, 2007, Trane (then known as American Standard Companies Inc.) completed the spinoff of its vehicle control systems business into a new publicly traded company named WABCO Holdings Inc ("WABCO"). At the time, Trane received a private letter ruling from the Internal Revenue Service ("IRS") substantially to the effect that the distribution qualified as tax-free for U.S. federal income tax purposes under Section 355 of the Code. In addition, Trane received an opinion of Skadden, Arps, Slate, Meagher & Flom LLP, tax counsel to Trane, substantially to the effect that the distribution will qualify as tax-free to Trane, WABCO and Trane shareholders under Section 355 and related provisions of the Code. The ruling and opinion were based on, among other things, certain assumptions as well as on the accuracy of certain factual representations and statements made by WABCO and Trane. In rendering its ruling, the IRS also relied on certain covenants that Trane and WABCO entered into, including the adherence to certain restrictions on WABCO's and Trane's future actions.

In connection with our acquisition of Trane in June 2008, we received an opinion of Simpson Thacher & Bartlett LLP, tax counsel to us, substantially to the effect that the distribution should continue to qualify as tax-free to Trane, WABCO and Trane shareholders under Section 355 and related provisions of the Code. Notwithstanding receipt by Trane and us of the private letter ruling as well as the opinions of counsel, there can be no assurance that the IRS will not later assert that the distribution should be treated as a taxable transaction.

If the distribution fails to qualify for tax-free treatment, then Trane would recognize a gain in an amount equal to the excess of (i) the fair market value of WABCO's common stock distributed to the Trane shareholders over (ii) Trane's tax basis in such common stock. Under the terms of the Tax Sharing Agreement, in the event the distribution were to fail to qualify as a tax-free reorganization and such failure was not the result of actions taken after the distribution by Trane or any of its subsidiaries or shareholders, WABCO would be responsible for all taxes imposed on Trane as a result thereof. In addition, each Trane shareholder who received WABCO common stock in the distribution generally would be treated as having received a taxable distribution in an amount equal to the fair market value of WABCO's common stock received (including any fractional share sold on behalf of the shareholder), which would be taxable as a dividend to the extent of the shareholder's ratable share of Trane's current and accumulated earnings and profits at the time (as increased to reflect any current income including any gain recognized by Trane on the taxable distribution). The balance, if any, of the distribution would be treated as a nontaxable return of capital to the extent of the Trane shareholder's tax basis in its Trane stock, with any remaining amount being taxed as capital gain.

Changes in weather patterns and seasonal fluctuations may adversely affect certain segments of the Company's business and impact overall results of operations.

Demand for certain segments of the Company's products and services is influenced by weather conditions. For instance, Trane's sales have historically tended to be seasonally higher in the second and third quarters of the year because, in the U.S. and other northern hemisphere markets, summer is the peak season for sales of air conditioning systems and services. Additionally, while there is demand for Trane's products and services throughout the year, a significant percentage of total sales are related to U.S. residential and commercial construction activity, which is generally higher in the second and third quarters of the year. Therefore, results of any quarterly period may not be indicative of expected results for a full year and unexpected cool trends or unseasonably warm trends during the summer season could negatively or positively affect certain segments of the Company's business and impact overall results of operations.

Item 6 – Exhibits

Pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), Ingersoll-Rand Company Limited (the "Company") has filed certain agreements as exhibits to this Quarterly Report on Form 10-Q. These agreements may contain representations and warranties by the parties. These representations and warranties have been made solely for the benefit of the other party or parties to such agreements and (i) may have been qualified by disclosures made to such other party or parties, (ii) were made only as of the date of such agreements or such other date(s) as may be specified in such agreements and are subject to more recent developments, which may not be fully reflected in our public disclosure, (iii) may reflect the allocation of risk among the parties to such agreements and (iv) may apply materiality standards different from what may be viewed as material to investors. Accordingly, these representations and warranties may not describe our actual state of affairs at the date hereof and should not be relied upon.

(a) Exhibits

Exhibit No.	Description	Method of Filing
1.1	Underwriting Agreement, dated as of August 12, 2008, among Ingersoll-Rand Global Holding Company Limited, as Issuer, the Company, as Guarantor, and Credit Suisse Securities (USA) LLC, Goldman Sachs & Co. and J.P. Morgan Securities, Inc., as Representatives of the several Underwriters named therein.	Incorporated by reference to Exhibit 1.1 to the Company's Form 8-K (File No. 001-16831) filed with the SEC on 08/18/2008
4.1	Indenture, dated as of August 12, 2008, among Ingersoll-Rand Global Holding Company Limited, the Company and Wells Fargo Bank, N.A., as Trustee (the "Indenture").	Filed herewith
4.2	First Supplemental Indenture, dated as of August 15, 2008, among Ingersoll-Rand Global Holding Company Limited, Ingersoll-Rand Company Limited and Wells Fargo Bank, N.A., as Trustee, to the Indenture.	Incorporated by reference to Exhibit 1.1 to the Company's Form 8-K (File No. 001-16831) filed with the SEC on 08/18/2008
4.3	Form of 6.0% Senior Notes due 2013	Included as part of Exhibit 4.2
4.4	Form of Guarantee to 6.0% Senior Notes due 2013	Included as part of Exhibit 4.2
4.5	Form of 6.875% Senior Notes due 2018	Included as part of Exhibit 4.2
4.6	Form of Guarantee to 6.875% Senior Notes due 2018	Included as part of Exhibit 4.2
4.7	Form of Senior Floating Rate Notes due 2010	Included as part of Exhibit 4.2
4.8	Form of Guarantee to Senior Floating Rate Notes due 2010	Included as part of Exhibit 4.2
10.1	Richard J. Weller Offer Letter dated September 8, 2008	Incorporated by reference to Exhibit 10.1 to the Company's Form 8-K (File No. 001-16831) filed with the SEC on 09/10/2008
10.2	Addendum to Steven R. Shawley Offer Letter, dated August 7, 2008	Incorporated by reference to Exhibit 10.9 to the Company's Form 10-Q for the period ended June 30, 2008 (File No. 001-16831) filed with the SEC on 08/08/2008
10.3	Addendum to Didier Teirlinck Offer Letter, dated July 17, 2008	Incorporated by reference to Exhibit 10.13 to the Company's Form 10-Q for the period ended June 30, 2008 (File No. 001-16831) filed with the SEC on 08/08/2008

- 23.1 Consent of Analysis, Research & Planning Corporation Filed herewith
- 31.1 Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) or Rule 15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 Filed herewith
- 31.2 Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) or Rule 15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 Filed herewith
- 32 Certifications of Chief Executive Officer and Chief Financial Officer Pursuant to Rule 13a-14(b) or Rule 15d-14(b) and 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 Filed herewith
