SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

x Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2013 or

.. Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number: 000-28383

Table Trac, Inc.

(Exact Name of Registrant as Specified in its Charter)

Nevada 88-0336568
(State or Other Jurisdiction of Incorporation or (I.R.S. Employer Identification Number)
Organization)

6101 Baker Road, Suite 206, Minnetonka, Minnesota 55345

(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code: (952) 548-8877

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 14, 2013, the registrant had outstanding 4,759,805 shares of common stock, \$.001 par value per share.

TABLE TRAC, INC.

NOTES TO CONDENSED FINANCIAL STATEMENTS

1. Nature of Business and Summary of Significant Accounting Policies –

Basis of Presentation

The accompanying unaudited condensed financial statements of Table Trac have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. The balance sheet as of March 31, 2013 and the statements of operations and cash flows for the three months ended March 31, 2013 and 2012 are unaudited but include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial position at such date and the operating results and cash flows for those periods. Certain information normally included in financial statements and related footnotes prepared in accordance with generally accepted accounting principles has been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. The accompanying financial statements should be read in conjunction with the financial statements and notes included in the Table Trac Annual Report on Form 10-K for the year ended December 31, 2012.

Nature of Business

Table Trac, Inc. (the Company) was formed under the laws of the State of Nevada in June 1995. The Company has its offices in Minnetonka, Minnesota. The Company has developed and sells an information and management system that automates and monitors various aspects of the operations of casinos.

Table Trac provides system sales and technical support to casinos. System sales include installation, custom casino system configuration, and training. In addition, license and technical support are provided under separate license and service contracts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company derives revenues from the sales of systems, licenses and maintenance fees, and services.

System Sales

Revenue from systems that have been demonstrated to meet customer specifications during installation is recognized when evidence of an arrangement exists, the product has been installed, title and risk of loss have transferred to the customer and collection of the resulting receivable is reasonably assured. System sales, which are accounted for as multiple-element arrangements, include multiple products and/or services. For multiple-element arrangements, the Company allocates the revenue to each element based on their relative fair estimated value based on vendor specific objective evidence (VSOE) and recognizes the associated revenue when all revenue recognition criteria have been met for each element. If there are contracts the Company does not have VSOE of fair value of all elements, revenue is deferred until the earlier of VSOE being determined or when all elements have been delivered.

The Company does offer its customers contracts with extended payment terms. The Company must evaluate if any extended payment terms in the contract is an indicator of the revenue not being fixed or determinable. Provided all other revenue recognition criteria have been satisfied, the Company recognizes the revenue if payment of a significant portion of the systems sales is due within 12 months of the delivery of the product. The Company also analyzes its standard business practice of using long-term contracts and the history of collecting on extended payment term contracts without making concessions for determining if revenue should be recognized. Revenue and associated set-up costs are deferred if contract terms exceed historical collection results or if a substantial portion of the contract is not due within 12 months after delivery of the product. The Company analyzes each contract for proper revenue recognition based on that contracts facts and circumstances. Interest is recorded upon receipt to "other income" on the statements of operations.

Maintenance revenue

Maintenance revenue is recognized ratably over the contract period. The VSOE for maintenance is based upon the renewal rate for contracted services.

Service revenue

Service revenue is recognized after the services are performed and collection of the resulting receivable is reasonably assured. The VSOE for service revenue is established based upon prices for the services.

Rental revenue

The Company offers certain new customers a rental contract. Revenues are billed monthly based on a per-game per-day basis. There is an option to purchase the system after the rental agreement at a pre-determined residual value.

Accounts Receivable / Allowance for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount. Accounts receivable include regular customer receivables and amounts from financed contracts coming due within 12 months. Amounts from financed contracts due beyond 12 months are recorded as "Long-term accounts receivable – financed contracts." Interest is recorded upon receipt to other income on the statements of operations. An allowance for doubtful accounts is recorded when the Company believes

the amounts may not be collected. Management believes that receivables, net of the allowance for doubtful accounts, are fully collectible. While the ultimate result may differ, management believes that any write-off not allowed for will not have a material impact on the Company's financial position.

Major Customers

The following tables summarize significant customer information for the three months ended March 31, 2013 and 2012:

	For the Three Months Ended March 31							
	2013				2012			
	% Sales	% AR		% Sales	% AR		% Sales	% AR
A	41.1	%	21.0	%	7.8	%	1.3	%
B	4.7	%	19.6	%	1.4	%	0.6	%
C	8.3	%	10.2	%	7.8	%	19.2	%
D	0.0	%	5.6	%	21.6	%	35.1	%
E	0.6	%	1.4	%	22.8	%	4.7	%
F	14.4	%	21.7	%	0.0	%	0.0	%
All Others	30.9	%	20.5	%	38.6	%	39.1	%
Total	100.0	%	100.0	%	100.0	%	100.0	%

Inventory

Inventory, consisting of finished goods, is stated at the lower of cost or market. The average cost method is used to value inventory. Inventory is reviewed annually for the lower of cost or market and obsolescence. Any material cost found to be above market value or considered obsolete is written down accordingly. The Company had no obsolescence reserve at March 31, 2013 and December 31, 2012.

Research and Development

The Company expenses all costs related to research and development as incurred. Research and development expense was \$2,303 and \$152,906 for the three months ended March 31, 2013 and 2012, respectively. Research and development expenses are included in selling, general and administrative expenses on the statements of operations.

Deferred System Sales Costs

Deferred system sales costs consist of installed system costs incurred on participation-based contracts. These costs are recognized on a straight-line basis over the term of the contract which is generally 18-48 months beginning when revenues are generated. At the end of the contract period, the customer will typically receive title to the system.

2. Accounts Receivable –

Accounts receivable consisted of the following at March 31, 2013 and December 31, 2012:

	March 31, 2013	December 31, 2012
Accounts receivable under normal 30 day terms	\$344,491	\$2,047,563
Financed contracts:		
Short-term	585,110	266,375
Current portion of long-term	1,936,916	1,296,041

Edgar Filing: TABLE TRAC INC - Form 10-Q

Long-term, net of current portion	384,288	732,376
Total accounts receivable	3,250,805	4,342,355
Less allowance for doubtful accounts	(663,511)	(663,511)
Accounts receivable, net	\$2,587,294	\$3,678,844

The allowance for financed and trade receivable represents management's estimate of probable losses in our trade and financed receivables as of the date of the financial statements. The allowance provides for probable losses that have been identified with specific customer relationships and for probable losses believed to be inherent of the trade and financed receivables but have not been specifically identified.

Included in Accounts receivable – Financed contracts at March 31, 2013 and December 31, 2012 is \$2,321,205 and \$2,294,792 with an offset to deferred revenues on the balance sheet of \$1,272,196 and \$1,457,793 at March 31, 2013 and December 31, 2012.

A roll-forward of the Company's allowance for doubtful accounts is as follows:

	March 31, 2013	December 31, 2012
Accounts receivable allowance, beginning of period	\$ 663,511	\$ 237,844
Provision adjustment during period	0	425,667
Accounts receivable allowance, end of period	\$ 663,511	\$ 663,511

The allowance for doubtful accounts is \$339,308 for the trade receivables and \$324,203 for the financed contracts at both March 31, 2013 and December 31, 2012.

3. Stockholders' Equity –

As of March 31, 2013, the Company holds 1,000 common shares in treasury at a total cost of \$1,422 for future employee issuances under the bonus program which was part of the 2009 repurchase of shares.

4. Income Tax –

The Company accounts for income taxes by following the asset and liability approach to accounting for income taxes. Deferred tax assets and liabilities represent the future tax consequences of the differences between the financial statement carrying amounts of assets and liabilities versus the tax basis of assets and liabilities. Under this method, deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards. Deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The impact of the tax rate changes on deferred tax assets and liabilities is recognized in the year that the change is enacted. The federal net operating loss carryforward at March 31, 2013 was approximately \$14,000 expiring in 2031 and the state net operating loss carryforward is approximately \$140,000 which starts expiring in 2025. An allowance for net operating loss carryforward is recorded when the Company believes the amount may not be collected. Management believes the net operating loss carryforward, net of the allowance, is fully collectible. Management believes that any write-off not allowed for will not have a material impact on the Company's financial position.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. Based on its evaluation, it has concluded that there are no significant unrecognized tax positions. The Company's evaluation was

performed for the tax years ended December 31, 2009 through 2012, the tax years that remain subject to examination by major tax jurisdictions as of March 31, 2013. The Company does not believe there will be any material changes in its unrecognized tax positions over the next twelve months.

The Company may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to its financial results. In accordance with current guidance, the Company classifies interest and penalties as income tax expense is incurred.

5. Earnings (Loss) Per Share –

The Company computes earnings (loss) per share under two different methods, basic and diluted, and presents per-share data for all periods in which statements of operations are presented. Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock and common stock equivalents outstanding.

The following table provides a reconciliation of the numerators and denominators used in calculating basic and diluted loss per share for the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31,	
	2013	2012
Basic earnings per share calculation:		
Net loss to common stockholders	\$(256)	\$(97,155)
Weighted average number of common shares outstanding	4,759,805	4,704,305
Basic net loss per share	\$(0.00)	\$(0.02)
Diluted earnings per share calculation:		
Net loss	\$(256)	\$(97,155)
Weighted average number of common shares outstanding	4,759,805	4,704,305
Common stock equivalents:		
Stock options	(1)	(1)
Weighted average diluted shares outstanding	4,759,805	4,704,305
Diluted net loss per share	\$(0.00)	\$(0.02)

(1) Stock options outstanding of 60,000 were not included in the calculation as they would have been anti-dilutive.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Management's Discussion and Analysis of Financial Condition and Results of Operations set forth below should be read in conjunction with our audited financial statements, and notes thereto, contained in our Form 10-K filed with the SEC on March 28, 2013 relating to our year ended December 31, 2012.

Forward-Looking Statements

Some of the statements made in this section of our report are forward-looking statements. These forward-looking statements generally relate to and are based upon our current plans, expectations, assumptions and projections about future events. Our management currently believes that the various plans, expectations, and assumptions reflected in or suggested by these forward-looking statements are reasonable. Nevertheless, all forward-looking statements involve risks and uncertainties and our actual actions or future results may be materially different from the plans, objectives or expectations, or our assumptions and projections underlying our present plans, objectives and expectations, which are expressed in this report.

In light of the foregoing, prospective investors are cautioned that the forward-looking statements included in this filing may ultimately prove to be inaccurate—even materially inaccurate. Because of the significant uncertainties inherent in such forward-looking statements, the inclusion of such information should not be regarded as a representation or warranty by Table Trac, Inc. or any other person that our objectives, plans, expectations or projections that are contained in this filing will be achieved in any specified time frame, if ever.

General Overview

Table Trac is a Nevada corporation, formed on June 27, 1995, with principal offices in Minnetonka, Minnesota. The Company has developed and patented (U. S. patent number 5,957,776) a proprietary information and management system (Table Trac) that automates and monitors the operations of casino table games.

Since 2000, Table Trac has continued to add system functionality as well as develop related casino management system modules, including: guest rewards and patron loyalty; audit and accounting systems; vault and cage systems; promotional and marketing analysis; and administration capabilities. The Company's current casino management system has been reviewed, tested and approved by Gaming Laboratories International (GLI).

In the first quarter 2013, Table Trac announced the signing of two new customer contracts in California. The casino management systems for both of these two properties are expected to be completely installed in the 2nd and early 3rd quarter of 2013. In this first quarter, the Company also entered into contracts to deliver the CountR cash redemption kiosk product at two properties. These kiosks were delivered and installed in the 2nd quarter of 2013. In the first quarter 2013, the Company provided casino management system equipment to an existing customer involved in a casino expansion and system upgrade.

At the end of the first quarter 2013, the Company had upgraded most of its current customers to Table Trac's latest casino management system. The Company continues to upgrade its systems based on customer demand and requirements.

In the first quarter of 2013, the Company attended, and in some cases, exhibited at several trade show and industry events, including the Indian Gaming National Marketing Conference in California, the Western Indian Gaming Conference hosted by the California Nations Indian Gaming Association, the ICE Totally Gaming Show, the Caribbean Gaming Show, the National Indian Gaming Association, and the Gaming Technology Summit.

Discussion of Critical Accounting Policies

There were no changes to our accounting policies for the quarter. For our existing policies, see Note 1 in our financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012.

Results of Operations - Three Months Ended March 31, 2013 Compared to Three Months Ended March 31, 2012

During the three months ended March 31, 2013, loss from operations was \$17,098 compared to \$175,629 for the three months ended March 31, 2012. The major components of revenues, cost of sales and selling, general and administrative expenses are discussed below.

Revenues

Revenues totaled \$909,323 for the three months ended March 31, 2013 compared to \$795,488 for the three months ended March 31, 2012. The following table summarizes our revenues for the three months ended March 31, 2013 and 2012, respectively:

	Three Months Ended March 31,			
	2013	2012	2013	2012
			(percent of revenues)	
System sales	\$543,593	\$416,612	59.8 %	52.4 %
License and maintenance fees	235,719	259,802	25.9 %	32.6 %
Other sales	130,011	119,074	14.3 %	15.0 %
Total revenues	\$909,323	\$795,488	100.0%	100.0%

During the three months ended March 31, 2013, the Company sold one larger add-on system to an existing customer compared to two smaller systems installed during the same period in 2012. Other sales, which include sales of printers, kiosk software, mailing services and rental sales, increased over 2012 as a result of increased rental sales.

Cost of Sales

Cost of sales for the three months ended March 31, 2013 increased to \$204,586 from \$154,940 for the three months ended March 31, 2012. The following table summarizes our cost of sales for the three months ended March 31, 2013 and 2012, respectively:

	Three Months Ended March 31,			
	2013	2012	2013	2012
			(percent of revenues)	
System sales	\$68,946	\$50,032	7.6 %	6.3 %
License and maintenance fees	49,650	34,500	5.4 %	4.3 %
Other sales	85,990	70,408	9.5 %	8.9 %
Total cost of sales	\$204,586	\$154,940	22.5 %	19.5 %

The Company's gross profit was 77.5% and 80.5% for the three months ended March 31, 2013 and 2012, respectively. This decrease is primarily due to the increase in maintenance fees related to a software interface with a third party compared to 2012.

Selling, General and Administrative Expenses

For the three months ended March 31, 2013, selling, general and administrative expenses were \$721,835 compared to \$816,177 for the same period in 2012. Our most significant changes in operating expenses from the two three-month interim periods related to research and development programming costs and legal fees. A discussion of the various components of our operating expenses for the three months ended March 31, 2013 and 2012 appears below:

Research and development programming costs. Research and development programming costs decreased for the three months ended March 31, 2013, to \$2,303 compared to \$152,906 for the same period in 2012. The decrease is related primarily to the absence of 2013 costs associated with the Tipping Point interface.

Legal Fees. Legal fees increased for the three months ended March 31, 2013 to \$21,952 compared to \$0 for the same period in 2012. The increase is mostly related to efforts to collect against a former customer.

Interest Income

For the three months ended March 31, 2013, interest income was \$21,842 compared to \$25,474 for 2012. This decrease is primarily related to the fewer contracts financed through the Company in 2013 compared to the same period in 2012.

Tax Provision

The income tax expense for the three months ended March 31, 2013 was \$5,000 which was calculated at a 105.4% effective rate, compared to the tax benefit of \$53,000 for the same period in 2012, which was calculated at a 35% effective rate. The increase in the quarterly effective rate is primarily related to the annual tax impact affected by the current quarterly results.

Net Income (loss)

Income before taxes for the three months ended March 31, 2013, was \$4,744 compared to net loss before taxes of \$150,155 for same period in 2012. Net loss for the three months ended March 31, 2013 was \$256 compared to net loss of \$97,155 for the same period in 2012. The basic loss per share was \$0.00 compared to basic loss per share of \$0.02 for the three months ended March 31, 2013 and 2012, respectively.

Backlog

The Company's backlog generally consists of incomplete system installations and expansion of offerings for currently installed and supported systems.

The Company has two installation projects for casino management systems in its backlog at March 31, 2013.

The Company is currently serving gaming establishments in eight US states, as well as countries in Central and South America, and the Caribbean. The Company has a pipeline of opportunities and strategic partnerships that it is pursuing.

Liquidity and Capital Resources

Summary cash flow data is as follows

	For the Three Months Ended March 31,	
	2013	2012
Cash flows provided by (used in):		
Operating activities	\$ 646,849	\$ 134,650
Investing activities	0	0
Financing activities	(2,727)	(2,727)
Net increase in cash	644,122	131,923
Cash, beginning of period	609,690	834,665
Cash, end of period	\$ 1,253,812	\$ 966,588

At March 31, 2013, the Company had cash of \$1,253,812 compared to cash of \$966,588 on March 31, 2012. Changes in cash flows provided by operating activities related primarily to deferred income taxes, and changes in operating assets and liabilities, including accounts receivable, interest receivable, inventory, income taxes receivable, deferred system sales costs, accrued payroll and related withholding liabilities and deferred revenue.

There are no known trends, events or uncertainties that are likely to have a material impact on our short or long-term liquidity. We expect that our primary source of liquidity in both the short and long-term will be system sales and the

resulting license and maintenance fees generated from existing systems. We anticipate the ability to manage expenses and cash flow so monthly obligations will be satisfied by cash flow from operations. We believe the Company has adequate cash to meet its obligations and continue operations for both existing and future customers as well as ongoing sales efforts and product development.

Off-Balance Sheet Arrangements

The Company had no off-balance sheet arrangements as of March 31, 2013.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

As of March 31, 2013, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of our disclosure controls and procedures as such term is defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded our disclosure controls and procedures are effective as of March 31, 2013.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarterly period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
